VOLUME LXI

Kansas State College, Manhattan, Kansas, Thursday, March 31, 1955

NUMBER 116

## Eight Are Selected For Woods Contest

Eight students were selected yesterday to compete in the 8th Larry Woods Memorial Speech contest which will be April 5.

Those selected are Donna Knoche, HT Fr; Tom Bowman, ME Soph; Carl Bulger, Chm Fr; Jerome Thies, Ent Fr; Judy Crawford, PEW Fr; Mary Weathered, HM Fr; Naomi Trumbull, HEJ Fr; and Virginia Eaton, HT Fr.

Prizes of \$30, \$20, and \$10 will be awarded to the three persons who place highest in the contest. Judges at the final contest will be the Rev. John Ironside of the College Baptist church, Profs. J. O. Faulkner and Herbert Maccoby, and Arthur Peine and M. M. Husic.

The contest is held each semester in honor of the memory of Larry E. Woods, a former student, who was killed in World War II.

## Brando, Kelly Named Best Actor, Actress

Hollywood, March 31 (U.P.)—Marlon Brando, a three-time loser in the annual battle for Oscars, won the Motion Picture Academy award last night for the best male performance in 1954.

Miss Grace Kelly, a fellow New Yorker who has been in the movies only a year, was given the nod over veteran Judy Garland as the best actress.

It was a great night for their city, too. "On the Waterfront," a film about waterfront crime and violence which was made in New York, won eight Oscars, tying the record set by "Gone With the Wind" in 1939.

"ON THE WATERFRONT'S" star, Brando, Collected his Oscar for his portrayal of a brooding dock worker. His girl friend in the movies, Eva Marie Saint, won the best supporting actress award.

Miss Kelly won the best actress award for her role as a discouraged wife in "The Country Girl." Edmund O'Brien, the press agent of "The Barefoot Contessa," was given an Oscar as best supporting actor. All four players are first-time Oscar winners.

## Cooler . . .

Topeka, March 31 (U.P.)—Moderately cooler weather along with generally fair skies is expected in Kansas tomorrow.

U.S. Meteorologist Richard Garrett, head of the Topeka weather bureau, said a dust and wind storm will move eastward across Kansas during the day and evening. He advised there will be some showers with it. Goodland has had light rainfall during the morning.

"We will get some erosion of our own soil in southwest Kansas in addition to the imported dust," Garrett said.

An intense low atmospheric pressure area brewed the dust storm in western Kansas and eastern Colorado today.

## Richard Coy Accepts Job In Oklahoma

Richard Coy, for the past two year acting director of the K-State College band, has accepted a position as band director at Southwestern State college, Weatherford, Oklahoma.

Returning this fall to resume his duties as K-State band director is Jean Hedlund, who has been on leave the past two years for advanced study at Iowa university.

At Southwestern, Coy will direct the band, give instrumental instructions, and teach some music education courses.

Coy holds degrees in business administration and in music education, and this spring will receive his master of science degree from Kansas State. Formerly of Horton, he served as director of instrumental music at Lyons high school from 1950-53.

## Legislature Attempts Salvage of HS Aid

Topeka, Kan., March 31 (U.P.)—A conference committee began work today as the 1955 Kansas legislature approached a turbulent conclusion to try to salvage high school aid, the Hall administration's top priority bill.

Holding their first meeting in an attempt to compromise divergent Senate and House versions of the vital measure were five committee members.

There were two senators, Richard Becker (R-Coffeyville) and Laurin Jones (R-Dodge City), and three representatives, Marvin Cox (R-Kingman), John Morse (R-Mound City) and John Adams (D-Osborne). Becker and Cox are chairmen of the education committees of the two chambers.

Success or failure to smooth out differences between the two chambers on launching a program of State financial assistance to public high schools may set the pattern for decisions on other major issues at the Legislature's windup.

The House wants to tag the \$6,500,000 high school aid program with a tax to pay for it. The Senate voted to go along with Gov. Fred Hall's "one-shot" plan of financing the program the first year with sales tax surplus.

## Student Health

Three girls and seven boys are patients at Student Health today. They are Mary Price, Barbara Elliott, Margaret Wonder, Bob Hougland, Hassan Rouhandeh, Larry Blair, J. D. Whistler, Thomas Heinz, John W. Johnson, and Joseph Horton.

## HS Students Take Tests For College

Counseling and placement testing of 237 prospective K-State students have been completed at seven high school test centers, E. M. Gerritz, registrar, announced today.

The testing is part of a pre-enrollment program for students planning to enroll in college in the fall of 1955. The program has been completed at Chanute, Colby, Concordia, Dodge City, Salina, Stockton, and Highland Park in Topeka, Gerritz said.

Students at Great Bend and Wyandotte in Kansas City will be tested April 16, and those at Wichita West on April 2. Testing will be held on the K-State campus April 23, and at Manhattan high school April 26 and 27.

During the testing, K-State faculty members meet with the students to give them information about the College. The tests are given for counseling and placement purposes. They consist of a scholastic aptitude test and an English achievement test.

After the students attend one of these meetings they are given an appointment to come to the campus between July 5 and August 12 to complete their pre-enrollment for the fall semester. However, they are not required to pre-enroll if they prefer to wait and enroll at the regular time beginning September 11.

"About 470 students pre-enrolled last fall, and it is hoped that we will have almost twice that number next fall," Gerritz said.

## Day Captures Integrity Vote

Gerry Day, VM Jr, won the Integrity party presidential nomination yesterday in the primary election.

Day tallied 369 votes out of a total of 635 to beat out Mark Drake, AH Jr, for the presidential bid. Drake received 266 votes for the nomination.

## Korean Vets Asked To Sign Payroll

Korean veterans are urged to sign payroll forms at the veterans' service office in Anderson 121 as soon as possible in order to receive subsistence allowances, Wendell R. Kerr, veterans service officer, announced today.

## Tri-Delt Coed Named Queen By Drill Team

Patti Shupe, Delta Delta Delta, was elected queen of G-7 Company at a Pershing Rifles meeting this week. She will have the rank of honorary Cadet Captain.

Her attendants with the rank of honorary Cadet First Lieutenant are Carol Miller, Pi Beta Phi and Martha DeGraff, Alpha Zeta Delta.

The queen's picture will be submitted to the 7th regimental headquarters of the Pershing Rifles located at Oklahoma A. & M. as G-7 company's candidate for honorary Cadet Colonel of the 7th regiment.

The other candidates were: Jackie Wade, Kappa Delta; Natalie Harwood, Kappa Kappa Gamma; Carol Miller, Pi Beta Phi; Nancy Stover, Alpha Delta Pi; Shirley Folsche, Clovia; Joan Smith, Waltheim hall; Mary Helen Eaton, Southeast hall; Nancy Rowe, Van Zile Hall; Cicely Bennett, Northwest hall; Sandra Kail, Alpha Chi Omega; and Janice Aimes, Southeast hall.

Joyce Larson, PEW Jr, polled 109 votes out of 220 from the School of Arts and Sciences for Student Council nominations. Bunny Cowan, Pys Fr, was second high with 104 votes.

OTHER nominees were Barbara Messer, BMT Fr, 98 votes; Pat Wilkerson, BA Soph, and Nancy Howard, EEd Fr, 93 votes; Jerry Bray, BA Jr, 92 votes; and Bill Kennedy, BAA Jr, 90 votes. Dave Winter, PEM Jr, was next high with 86 votes.

The School of Veterinary Medicine Student Council nomination was won by Alvin E. Melcher, VM Soph. Melcher, who won over Warren Nichols, received 49 of the 86 votes from veterinary medicine students.

STUDENT Council nominations in the School of Home Economics were won by Charlotte Henry, HEJ Soph, and Beverly Sargent, HEJ Jr. Sargent received 36 votes, Henry, 35, and Peggy Howard, HEJ Jr, was third high with 34 votes. Seventy-seven members of the School of Home Economics voted.

Arnold Appleby, AEd Soph; Dick Baker, AEd Jr, and Don Hunt, AH Jr, won the Student Council nominations from the School of Agriculture in which 126 members voted. Appleby polled 78 votes, Baker, 59; and Hunt, 57. Darrel Gale, AH Jr, was next high with 53 votes.

MACKIE MURPHY, CE Jr; Newton Anderson, DE Fr; Keith Swensen, ArE Soph; and Mike Cornett, AgE Jr, won the Student Council nominations from the School of Engineering. Murphy received 79 votes, Swenson and Anderson, 50, and Cornett, 46. Larry Corbet, ME Fr, was next high with 42 votes. One hundred and twenty-six engineers voted in the primary.

Those chosen to represent the Integrity party for the Board of Student Publications were Gary Haynes, TJ Soph; Lee Ruggels, TJ Jr; and Gaye Fryer, HEJ Soph.

The winners in the primary election will be the Integrity party candidates at the general election, April 21 and 22.

## Disc Jockeys Have Four New Shows

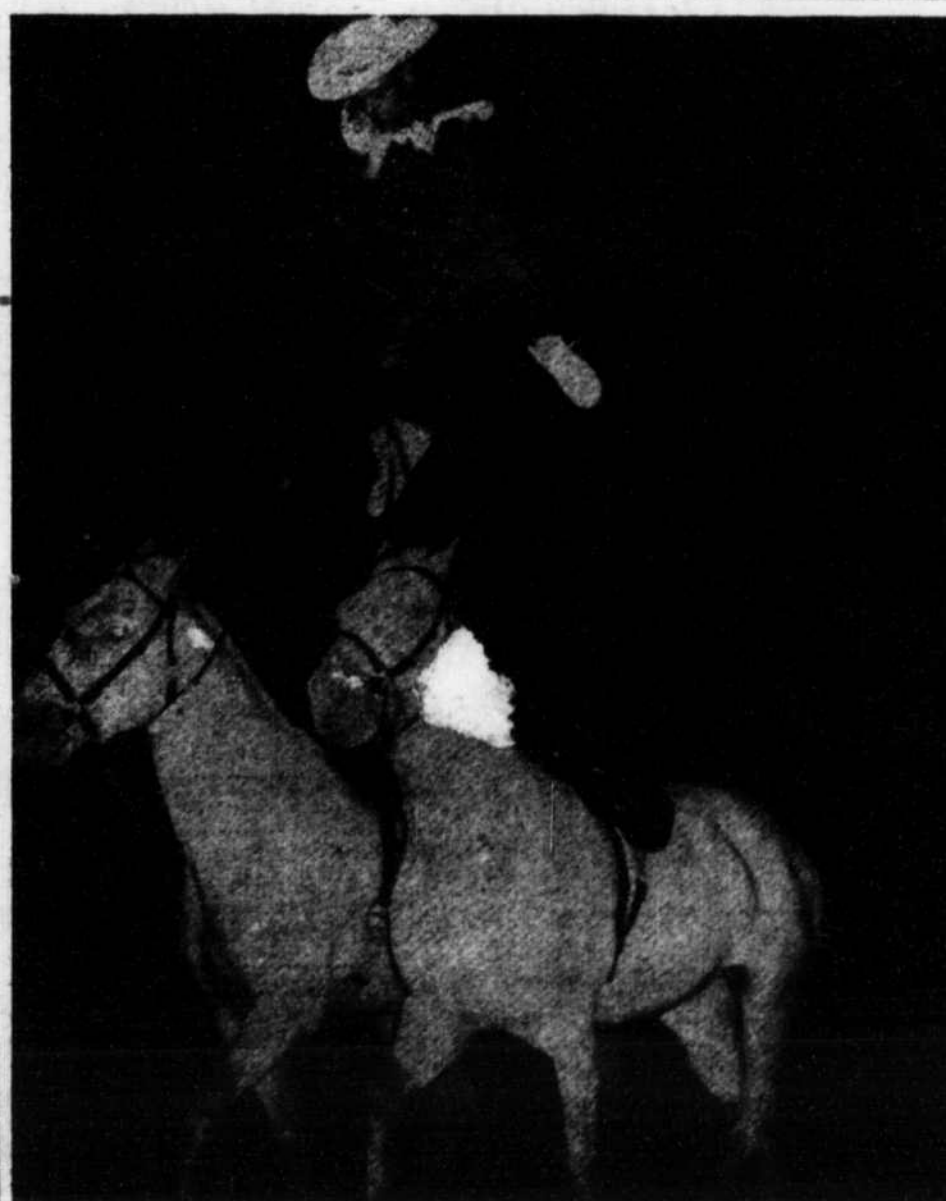

Student disc jockeys at KSDB-FM are presenting four new musical programs this semester, Clare Simpson, director of the College station, said.

"No Business Like Show Business," presented every Friday night from 8 to 9, features music from Broadway hits. Gordon Jump, Eng Soph, spins the records and gives information about Broadway plays and players.

Classical music fans may be interested in the show "Jazz at the Philharmonic," which is presented every night at 9.

Every Monday and Wednesday from 8 p.m. to 9 p.m., Dan Hurley, Sp Gr, spins jazz records and tells some highlights of the history of jazz, on the show, "Specifically Yours."

"This is Jazz" is another jazz show presented every Saturday afternoon from 4 to 5. The show is run by Bob Snyder, speech instructor.

JIMMY ADAMS, one of the most talented trick riders and ropers in the country, will be in Ahearn Field House Saturday night to entertain spectators attending the 27th annual Little American Royal. He will perform a variety of trick riding, fancy roping, and roman riding exhibitions. One of Adams daring acts is shown in the photo as he leaps high off the backs of two horses.

# Readers Suggest Party, Platform

To the Editor:

A wide open letter to the student body of Kansas State College:

We are sure that more than a few of you have been viewing the recent campaign developments with a growing sense of manly (and by all means womanly) disdain. The serious business of the future college elections has degenerated to petty bickering among the political parties involved. Enough hallowed Kansas soil has been lobbed back and forth to make the Kaw river accessible to ocean going vessels.

It has now reached the point where we can no longer stand idly by and watch these political bums ruin the good name of our fair college. We must act! The existing political parties are as lacking in fresh new ideas as the campus is in parking lots.

But don't lose hope, for even now a new political party is emerging at K-State.

To head this exciting new political organization we have secured the services of the most popular leader ever to appear at Kansas State college. We feel that only under his leadership can the student government again regain its long lost reputation. So act now and support this enlightened leader who will carry the banner of the New All-Party party forward ever forward to inevitable triumph. Yes, GO POGO, in the forthcoming spring elections.

Stephen Weckel, BA Jr  
Don Taylor, BA Soph  
Chuck Larson, AA Soph  
Terry Keefe, Soc Sr  
Franklin Houser, PrL Sr  
Martin K. Eby, CE Jr.

To the Editor:

The recent letters appearing in the Collegian are accomplishing little. The need for a new parking lot is becoming nothing but a political wrangle.

Mr. Barrett, you should never have backed down on your statement—that is, if you did make it. A party that backs such a proposal is sure to win.

The plan would eliminate congestion south of Anderson. Those who live east of the campus could use the new parking lot and those who live west could use the present facilities. We could have an annual east-west soccer tournament or some other such series of games. Those who use the lot north of Waters hall could enter into the games and we would have a triangular affair. Harry the Cop could act as honorary referee.

Think of the publicity angle. Post cards could be printed showing a view of the east side of Anderson with convertibles in the foreground.

Students would not have to double park while they dash into Anderson for a Collegian. President McCain would have a much better view of Anderson and a shorter walking distance to work.

In a number of years, the trees and shrubbery on the whole campus could be removed and replaced with pavement. When our parents come to visit us, we would no longer have to show them a vast park with huge trees obliterating the view of the buildings. Instead of saying, "This is our beautiful campus," we can say, "See our efficient learning plant."

There is no getting around it—nature lovers are out of style. There is no room for beauty in a world of speed and nerve pills. This is the Atomic Age. This is a very progressive school.

Harvey Rundquist, Art Jr.

# Free Viet Nam Army Enlarged

Compiled from the Wires of the United Press  
By DICK CARR

Saigon, Indochina—The commander-in-chief of the Cao Dai religious sect ordered his 25,000 Buddhist warriors today to join Premier Ngo Dinh Diem in his battle to retain control of Free Viet Nam.

The surprise move by Gen. Nguyen Thanh Phuong assured a victory for the American-backed premier over the rebellious Binh Xuyen sect of former river pirates who rose against Diem with a series of attacks that plunged Indochina into a brief civil war.

Phuong's move deprived the rebellious sects of more than half their armed strength and cracked the co-called unified Nationalist front.

## West Berlin Ready for Blockade

Berlin—The West Berlin city government authorized loans of 1,000,000 marks (\$250,000) today to truckers to keep supply trucks rolling to isolated Berlin despite a Communist "cold blockade" threatening the city's lifelines.

New Communist taxes on Berlin's truckers who supply nearly half the city's food go into effect at midnight tonight—seventh anniversary of the start of the crippling Soviet blockade of 1948.

The city's executive council, or Senate, voted a grant of 1,000,000 marks as a "temporary measure" after the West Berlin mayor said the city's 850 truckers must get through "no matter what the cost."

## Pen Officials Blame Riot on Guards

Lincoln, Neb.—Nebraska penitentiary officials said today that two guards could blame themselves for walking into a convicts' trap and touching off a 65-hour rebellion.

Deputy Warden Don B. Greenholtz said the guards, who were held as hostages during the marathon riot, "were lax in handling the men."

The guards, Warren Miller, 43, and Eugene Swanson, 44, were released unharmed when the eight rebel convicts surrendered early yesterday.

## Nehru Urges Big Power Talks

New Delhi, India—Prime Minister Jawaharlal Nehru said today the international situation was "growing worse" and called for big power talks to avert a catastrophe.

"We have been hearing for a long time about such talks," he said. "Therefore I suggest they must negotiate at the earliest possible time."

He said the only alternative to co-existence was destruction.

"I am interested in the peace of the world," he said in a major foreign policy address to Parliament.

## Joseph Pulitzer Dies at 70

St. Louis, Mo.—Joseph Pulitzer, editor and publisher of the St. Louis Post-Dispatch, died last night 10 days after his 70th birthday anniversary.

The world-famous editor, whose newspaper sponsored the annual Pulitzer prizes for excellence in the field of journalism, had not suffered a long illness.

## Professor Cathcart Given Obitum PhD

The late Ralph Boyd Cathcart of the animal husbandry department staff was awarded a post obitum Ph.D. degree in animal husbandry at the University of Minnesota's March 17 commencement exercises, it was learned here today.

Cathcart had completed all work for the Ph.D degree, except an oral examination over his thesis, before his death here January 30.

## Fencing, Although Costly, Gives Satisfaction—Nadel

By FAITH McCONNELL

"Fencing, although an expensive form of recreation, gives its participants much personal satisfaction in accomplishments," Marvin K. Nadel, advisor to the Wildcat Fencing club, said.

Although the art (not a sport) is more widely practiced in the East, there is an academy in Kansas City, he said. Lessons in the academy would cost approximately \$25 an hour, he added.

THE FENCING club advisor received his training from the

George Santelli academy in New York City.

The local club meets every Thursday at 7:30 p.m. in Nichols gym to practice and improve techniques, he said. K-State students, Manhattan residents, and Fort Riley personnel are among the six active clubs.

THE MEETINGS consist of one hour of instruction and one hour of actual fencing, he said. The club has given exhibitions of correct and incorrect procedures in fencing between halves of basketball games.

A team consists of six men, two for each of the three major weapons, Nadel said. The foil, epee, and saber are used in competition.

THE EPEE is not used in practice as the blade is easily broken and costs about \$15, he said. The foil is used in fencing practice here at K-State, as it is light and has a blunted point.

## Sawdust Holstein To Be Centerpiece For Little Royal

A life-size Holstein cow constructed from dyed sawdust and mounted on a huge rotating frame will be the centerpiece for this year's Little American Royal, Allan Heath, decorations committee chairman announced.

The centerpiece, which is 16 feet in diameter, will be mounted on a revolving turn-table which will rotate during the Little Royal showing, Heath said. The turn-table is to be constructed a few inches from the floor level, and will be rotated by an electric motor.

## Ag Juniors Offered \$500 Scholarship

A \$500 scholarship is being offered to junior students majoring in animal husbandry, dairy husbandry, poultry husbandry, or milling, Phil Sorensen, assistant dean of students, announced today.

Application forms are available in the Dean of Student's office. Deadline for application is April 15.

# Wildcat Baseball Season To Open Here Today

By MYRON SEIRER

Varsity baseball at K-State is to begin today as the Wildcats meet Wichita U this afternoon at Griffith stadium in a doubleheader. Both games are to be seven-inning affairs, with the first starting at 1 p.m.

The Wildcats have nine returning lettermen on the squad, but only three of them are listed in the probable starting lineup.

Larry Hartshorn, one of the three lettermen slated to start, will be working behind the plate. Last year he played first base for the Wildcats and hit an even .300.

HARTSHORN, who doubles in football, is taking over the catching position. No experienced receivers returned from last season's squad to handle this assignment.

Jack Smith and Steve Hennessey are the other experienced starters. Smith is to open in left field, while Hennessey is slated to start at second base.

Hennessey was the leading Wildcat hitter in 1953 with a .333 average, but dropped to .213 last season.

THE OTHER probable starters are all sophomores. Jerry Krebs will be at shortstop, Dick Pearson at first base, Larry Sturgeon at third base, Bob Boyd in centerfield, Ralph Ball in rightfield, and Bill Sinderson will be starting pitcher.

K-State's probable starting lineup includes five lefthanded hitters. This gives the Wildcats an opportunity to take advantage of the short rightfield wall in Griffith stadium.

Last season K-State split in two games with Wichita, winning the

LARRY HARTSHORN, regular first baseman last year, will open behind the plate for the Wildcat baseball team today as it begins the 1955 season with a doubleheader against Wichita U at Griffith stadium.

first game 3-1 and losing the second 6-3.

Following the Wichita games today, the Wildcats are scheduled to go South for two games with Memphis Naval Air station on April 4 and 5. They then move on to Oxford, Miss., for a game with Mississippi on April 6.

Next home game is scheduled for April 15 with Nebraska. This will be the opening game in conference play for K-State.

## A's Win 6 of 17 In Spring Training

West Palm Beach, Fla. (U.P.)—When the Kansas City Athletics ran up the totals on their spring clashes with major league foes the figures showed 6 victories against 11 defeats.

The A's prepare to break camp today and swing northward against eight minor league opponents before winding up the spring season against the Phillies in Philadelphia April 9-10.

Against fellow American leaguers, the A's won 6 and lost 7. Against National leaguers, the outcome was 0-4. The A's lost twice to Pittsburgh and twice to Brooklyn.

# Two Lettermen Form Nucleus of Net Team

By LARRY FOX

K-State's 1955 tennis crew will be built around two returning lettermen and a junior college transfer student, according to Karl Finney, new net mentor.

Finney labeled Bob Hansen and John Deam for probable duty at the No. 1 and No. 2 positions. Hansen and Deam are the only returning lettermen from last season's Wildcat net team.

Also high on the list of Cat prospects is Richard Circle, a transfer from Arkansas City junior college, Finney said.

THE NEW COACH listed John Teas, Don Wainscott, Bill Bowman, and Tom Stone as the four from whom the remaining two positions on the varsity will be filled.

The Wildcats face a 13-match

schedule that pits them against five non-conference opponents. Their first start sends them against Mankato (Minn.) Teachers next Monday here in Manhattan. After the Easter vacation the Cats go on a three-day trip south to take on Wichita, Oklahoma, and Tulsa in that order.

Coach Finney, who replaced Houston-bound Jim LaRue, picked Colorado and Oklahoma as the conference powers this season. The singles champion, he said, probably would be Ken Taylor of Oklahoma.

THE WILDCATS have been working out on the courts and in the field house, since late February, Finney said. He said Wildcat freshmen will be awarded numerals this year, and that several varsity-freshmen matches will be held.

Although he has been at K-State about 14 years, this is the first coaching position Finney has filled. His primary job is milling, where he is a professor of milling industries. He also is chemist in the hard winter wheat quality laboratory.

"Although it's just a hobby with me, I still have an interest in the game, and like to play," Finney commented.

## A's Buy 3 Yankees, Deny Report of Deal Involving Ace Hurler

West Palm Beach, Fla., March 31 (U.P.)—Officials of the Kansas City Athletics insisted today that the A's purchase of three players from the New York Yankees had "nothing to do" with a reported Yankee offer for pitcher Arnold Portocarrero.

The deal announced last night, first made by the A's since their shift to Kansas City, brought to last season's last-place team pitchers Ewell (The Whip) Blackwell and Tom Gorman, and first baseman Dick Kryhoski.

The purchase price was not announced, but was estimated at \$50,000.

Ray Kennedy, A's director of player personnel, said that the straight-cash transaction did not stem in any way from a report two days ago that the Yankees had offered five players to Kansas City for pitcher Arnold Portocarrero, generally regarded as the ace of the Kansas City staff.

However, many observers at the training camp here believe this purchase may be the forerunner of further deals between the two teams, possibly involving Portocarrero.

Ahearn Field House was built at a cost of \$2 million.

## Football Squad Cut to 45 Men

With only 24 practice dates remaining before K-State's football opener against Wyoming on September 17, the squad has been reduced to about 45 men, coach Bus Mertes said today.

"The men who are now with the squad are those who have shown their desire to play football and have shown the ability to do so," he said.

With only 10 days of spring practice remaining, Mertes has scheduled another intrasquad game for Saturday afternoon, the second such game this spring.

After the remaining 10 days of spring practice, the squad will have 14 days next fall to prepare for the season opener, Mertes said.

Next fall, the backfield will be made up of men who can play more than one position, he indicated. One such switch was made this week when fullback Bill Carrington was switched to halfback.

VOLUME LXI

Kansas State College, Manhattan, Kansas, Friday, April 1, 1955

NUMBER 117

### Grinnin' Bareit Predicts An Old-New College Win

BY POOH DREARSON  
Campus Political Communist

The April 21 and 22 election battle between the Old New-College party and the Incongruity party is figured to go right down to the last bunch of ballots before the results are decided.

One thing is certain—the coalition type of campus government now has entirely vanished from the campus.

This fact has been proven in recent primaries, which have shown that coalitions cannot exist within them since no one is supporting either.

Despite the campus-wide apathy toward student elections, one group—the veterans—is coming to the front. K-State veterans recently voted to support the Incongruity party, since they did not appreciate the Old New-College party's proposal to tear down Hilltop courts to build a parking lot.

However, Grinnin' Bareit, who last week was one of the Old New-College party's leaders, predicted this morning that his party would get support on the basis of a new plank added to the party platform.

Bareit said, in an off-the-record conference, that the Old New-College Party was "going all-out to stop the Collegian—one way or another." The Collegian, he charged, was printing only "propaganda approved by the college administration instead of the facts."

Bob Rogers, head of the Incongruity party, said he was taking a sit-and-wait stand. "I plan to do no character smearing in the campaign as my unworthy, foul-minded opponents are doing. I plan to sit and listen to those crumbs make everyone so sick with their gunching that they will come over to our side," he said.

Another Incongruity party leader, Margery Dim, summed up the coming elections by saying, "If we don't win, it's my neck." She has an election bet with a used guillotine salesman.

To stimulate a little more interest in the student elections this year, William Craig, dean of students, is contemplating a system whereby each student who votes once gets a bonus vote free. This bonus vote entitles students to draw into a hat. If a red card is drawn, the drawee must cease voting. But if a person continues to draw green cards, he may vote all day.

### Garbage Ring Exposed; Ringleaders Suspended

BY SARAH SMELLWELL

An alert Collegian reported with a nose for news has uncovered a black market operation in used garbage being conducted on the college farm. Ringleaders of the 'Swill, Inc.' mob have been placed on temporary suspension by officials of the college, pending action by the board of regents as to whether the kickback of funds from one college department to another violates the 5th amendment.

Sen. Joe McCarthy (R-Wis) is currently holding sessions in the Rec center to investigate the charges further.

THE STORY BROKE when an alert reporter decided to investigate the method of disposal of some unpalatable foods prepared by foods classes, and the disposal of food from the college cafeteria after patrons had turned it down.

Utilizing his nose for news, the astute scribe traced the remains to the college farm. There he found the large stockpile of swill

spread out for drying. Despite efforts of several vet students to prevent further investigation, the reporter kept on the trail of his 'Big Story.'

A check of the county welfare rolls revealed that several ag instructors were not listed and were probably living beyond their salaries. Further fact finding revealed that some of the profs had recently bought large quantities of used burlap bags.

The clincher in the case came when a campus cop arrested a truck driver for overloading. Found in the truck was a load of bags of fertilizer which the truck was hauling to the college nursery.

April Fool

### Musicians Prefer Hedlund's Absence

A petition asking that Jean Hedlund, former Band director, not be allowed to return to that position at K-State next fall was turned in at the office of the music department this morning.

The petition contained names of 47 students who agreed to either quit the band or to transfer to Southwestern State college at Weatherford, Okla., with Dick Coy, who has directed the Band here for the past two years while Hedlund has been studying in Iowa.

Luther Leavengood, head of the music department, branded the petition as "a silly emotional outburst on the part of a few of the more radical students in the band."

LEAVENGOOD said he believed that the change in band directors will do the college good, since the band members have been getting spoiled.

Coy said he has not been recruiting students for his band at Southwestern next year, but would be happy to have some of the students accompany him to Southwestern "if they feel they can further their education."

April Fool

### New Policy Frees Coeds From Closing Restrictions

New closing hours for sororities and fraternities go into effect tonight. All closing hours for sororities have been lifted, according to retiring Dean Helen Moore. This campus-shaking news came after a long meeting and the debates of co-eds, Dean William Craig, and Dean Moore. President McCain gave his immediate approval of the change when phoned at 3 a.m. while relaxing at Archie's. He also gave his consent to draw up closing hour rules for all male students (both married and not married) in or out of organized houses.

He said, and Willie and Helen agreed, that "since it is known that females mature faster and at an earlier age, they need no closing hours or silly rules to govern them.

BESIDES, WITH the new closing hours for boys, the girls could not stay out too late with their dates, unless of course, they had a date with a GI from the Fort. And since these GIs are good boys with high morals and respect, for and from their officers, school officials and the co-eds, the girls would really be better off dating them.

With this change the use of housemothers in the dorms and sororities will be abandoned. All that will be needed will be cooks, houseboys, and their officers to maintain any rules within the houses.

On the other hand the fraterni-

ties will be expected to keep their housemothers to maintain order, check the sign-out sheets, listen to the boys' problems, and to generally oversee everything that goes on within the houses. Alcoholic beverages of any kind will not be allowed in any of the houses or in any male student's car or on his person, at any time.

THE GIRLS are to be allowed to have parties in their houses, but one stipulation will be made. The girls will hold a sort of informal study hall from dinner time till 8 p.m. every Monday, Tuesday, Wednesday and Thursday.

One of the dorms will be evacuated for use by boys. All boys will be required to live in an organized house under the watchful eye of a housemother. Whatever room is needed in the dorms to take care of these male students will have to be provided by the present occupants.

If it takes more room than the one specified dorm, the boys will occupy part of another dorm. Due to the integrity and respect of the Kansas State college students the use of a dorm by both sexes should work out without incident or embarrassment.

April Fool

### TJ Building To Be Torn Down Soon

Kedzie hall, journalism building, was condemned this morning by inspectors from the state architect's office who were inspecting the building before preparing blueprints for a new wing which was to have been added.

The inspectors discovered a large crack running down the south wall which was visibly widening from the vibrations of the presses and other machinery.

All presses were stopped immediately to prevent the collapse of the building before any of the equipment could be saved.

PROF. RALPH Lashbrook, head of the journalism department, asked all persons to leave the building immediately. R. F. Gingrich, maintenance superintendent, had all doors to the building locked until engineers could investigate the situation.

Gingrich said that as soon as possible all equipment would be moved out of the building. He said that special structural engineers would be called in to brace the building while the machinery was moved.

President McCain and Roy A. Seaton, building expediter, went into conference to determine where the journalism classes would be held and where the machinery would be set up.

THE TENTATIVE plan they made is to move all journalism courses to Fairchild hall since it is one of the least crowded buildings on the campus. The news bureau will be moved to the Student Governing association office in Anderson hall.

The Collegian newsroom and the Royal Purple offices will be moved into the temporary Student Union, while the presses and all printing equipment will be housed in the new Student Union bowling alleys.

"The bowling alleys will not be completed for several years so this will provide a satisfactory temporary solution," McCain said.

PRESIDENT McCain sent a telegram to the Board of Regents and to the Legislature asking that funds previously appropriated for the construction of a new home economics building and other campus improvements be used to build a new journalism building.

Since the press and type-setting equipment will be in the new Union and the newsroom in the old Union, Prof. Merrill Samuelson said a possible solution might be to put a new course, "Copy-running," into the journalism curriculum. Ward Haylett, track coach, is planning on making the course a graduation must for all his track men.

April Fool

### Mac Probes Again

Senator Joe McCarthy arrived on the campus early this morning to investigate claims that President James A. McCain perjured himself when he signed the loyalty oath stating that he, McCain, had never belonged to a subversive organization.

Informed observers in Washington were reluctant to release more information but McCarthy has indicated that evidence uncovered by the Kansas State Tribunal clearly points to the fact that McCain has had very close relationships with and is still a party carrying member of the Integrity party.

"If McCain doesn't try to beat this rap via the Fifth Amendment, I should get this case wrapped up inside of three days," the Wisconsin senator said.

# It's All in Fun

Does everybody know what the date is today? Well, I hope all of you do because today's edition of the Collegian is all for fun, except for page 7.

It has been a tradition for a good many years for Sigma Delta Chi, men's professional journalism fraternity, to publish the April Fool's edition of the Collegian. This year is no exception, so many of our more talented members gave up some of their pool-shooting and card-playing time to give us examples of their journalistic skill for today's paper.

We hope none of our readers has vowed never to eat again in the College cafeteria after reading the "Swill Inc." story. Likewise, we hope nobody believes that Kedzie hall will fall down within a few hours. (We Kedzieites are confident that it will still stand until April 4.) The paper is all in good fun, and we hope everybody takes it in the same spirit in which the stories were written.

You've paid for the paper, READ IT.

GARY SWANSON  
Ex-SDX President

P.S. Lee Ruggels is the new president. PLEASE take all complaints to him.

# AEC Sets Manhattan Site of Z-Bomb Test

Compiled from the Frustrated Cranium of RICHARD CARR

Los Vegas, Nev.—The atomic energy commission has named Manhattan as the site for forthcoming tests of their newly-developed Z-Bomb as part of a unique plan to alleviate the flood problem in this area.

The AEC, operating on plans submitted by a national board of flood control experts, intend to vaporize the Kaw and Blue rivers near Manhattan with their new bomb.

The Z-Bomb is to be exploded 1000 feet above the intersection of Fourth and Poyntz at 2 tomorrow afternoon.

The AEC describes the Z-Bomb as "a H of a lot more powerful than the A-Bomb."

## Big 4 Party in Russia

Moscow, USSR—Nicky Bulgannin has invited Eddie Faure, Winnie Churchill, and Dwightie Eisenhower to a party at his house in Russia.

The boys are expected to play all kinds of party games including "Ring Around the Satellites," the modern Soviet version of "Ring Around the Rosy."

Dwightie will want to play his version of "Pin the Tail on the Donkey" known as "Pin the Tail on McCarthy."

Eddie is probably anticipating a round of the French "Drop the Handkerchief" game, which they call "Drop to Government."

"Spin the Yalta Papers," Winnie's conception of "Spin the Milk Bottle," is one of Winnie's favorite games—as long as they don't point to him.

# New 'Home Folks' Album Is Latest Batt Metton Hit

Newest hit album in the record world is Batt Metton's RCA-Columbia "Home Folk's" release.

This six-record album is proving to be a big hit with homesick college students. Every record mentions some member of the family and is specifically designed to keep junior and sis from running home to momma.

The first record is a heart rending tune called "Put Down the Piano, Mother, You're Too Old to Carry a Tune." Strictly instrumental, the melody is cleverly woven into a stream engine climbing a mountain effect. The flip is a sentimental tune entitled, "Get Out of the Wheat Field, Aunt Martha, You're Going Against the Grain."

The second record, with a little ditty called "Mother Must Have been a Good Cook, 'Cause Dad Was Always Stewed," is vocalized by Larry Laryngitis. An up and coming composer, Jack Benny (39) wrote "When You Say I Beg Your Pardon, Then I'll Come Back to You" on the reverse side.

The last record of the series has a tear jerker in "Get Off the Stove, Grandmother, You're Too Old to Ride the Range," sung by Tallulah Tonsils. A very appropriate number with some pertinent advice for K-State coeds is the title of the flip, "Run for the Roundhouse, Nellie, He Can't Corner You There."

Batt, who has just returned from two months engagement at the famous Walrus-Castoria hotel in New York City, expressed his hope that K-State students would like his album. "I know I haven't been too popular since the echoes of my hot music in the Field House caused a player to trip two weeks later," Metton said.

Leaving K-State after the scandalous incident, Metton toured the

country, playing one-night stands got an opportunity to play at the in unoccupied telephone booths. Walrus. Then his big chance came and he

# Why do more college men and women smoke VICEROYS than any other filter cigarette?

## BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
3. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
4. Smokers en masse report that filtered Viceroy's have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
5. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroy's cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 TINY FILTER TRAPS . . . plus Richer, Smoother Flavor

## Movies

# Local Movies Offer Red-Hot Entertainment

**RED LIGHTS OF MANHATTAN** (Harem)—This movie does not deal with sorority houses; the lights are those found in Manhattan beer lounges, not including, of course, the one blue exception.

The setting is about 11 o'clock on a Friday or Saturday night and gives flashes of each tavern wherein a red light burns. These scenes show K-Staters fighting with soldiers from Fort Riley for the attention of the barmaids whose hair seems red from the light's reflection.

In the end the students win out and the soldiers head back for Fort Riley, showing only their red tail lights.

Superb acting was shown by K-State males. Earl G. Hoover has the lead which calls for a grandiose "Lost Week End." Critics have acclaimed Hoover for his part. He even surpassed Ray Milland, of fame from an earlier drunk. A red nose is Hoover's mark of fame.

**HOW GREEN WAS MY BILLFOLD** (Jams-us)—This comedy tells the story of a rich man who sends his son to college (MSC). The boy is a success from the start. His first semester he makes a cool .3 average and falls in love with a very beautiful but expensive babe.

Well, the old man gets wind of his son's romance and cuts the kid down to a measly 1,000 coconuts per month. This nearly breaks the lad's heart, and the babe's too, because she had been expecting a Cadillac for her birthday.

This continues for four years (a meager existence on a thousand greenbacks a month), but during this span of time, the kid raises his average to a cooler .5 and has a covey of gorgeous girls under his wing. Finally, the old man is down to his last factory and comes down with writer's cramp from signing checks.

In the last few scenes of this comedy, the old man shoots himself on the steps of his son's frat house; the kid goes berserk when he learns after four years that you aren't supposed to drink set-ups straight; and his beautiful babes go on living off the fat and saps of the land.

April Fool

## Pud Courses Offered by Home Study

"Most students aren't taking advantage of an opportunity to maintain a high grade average," Carl Tjerandsen, director of the home study program, said today. "Currently our enrollment in correspondence is greatly concerned with only athletes. We would like to expand our facilities to include all students," he added.

Tjerandsen, whose salary is being paid by the athletic department, said that correspondence courses are the easiest way to make a good grade to supplement a failing grade during the regular year.

During the summer 15 minutes of study a week will net nearly anyone an "A," he explained.

"FOR EXAMPLE," he continued, "last year one of our top prospects for pitcher on the baseball team was nine credit hours behind in his studies. He had passed only nine hours with a grade of C or better. In his freshman year he had gathered only three grade points in 24 hours.

"Of course this made him ineligible for football, but our home study course came to the rescue. During his spare time in the summer, he took nine hours and passed every one of them with a C."

"No other department on the campus can even match our record—not even speech, or physical education (for men)," Tjerandsen grinned broadly.

THIS IS JUST one example of how the correspondence course at K-State can help the students, the director said. They are also an aid to teachers working on an advanced degree. Tjerandsen said that the teachers can pass around their work on previous courses, and therefore a needless waste of time can be avoided.

All anyone needs to enroll in a course and have a good chance of getting an A for the course is a signed statement from his respective coach or department head.

## New KSC Grease Pit Features Quick Service

K-State will have its own grease pit in the near future. The pit will be used for extra quick service to student vehicles only, Rudy Gingrich announced today.

Gingrich said the new policy stems from the huge hole in the north part of the parking lot which has been under construction by Mother Nature for the past six months. "Since our organization was unable to cope with erosion elements we have decided to dig another 6 inches to insure head room for the 'grease monkey' and add an expected \$50,000 to our

annual income," the hefty constructor said.

# Gardner Replaces Mullins As Director of Athletics

By U. R. THERE

Jack Gardner, former K-State basketball coach and currently coach at Utah university, has been appointed new athletic director at Kansas State, it was announced here today by President James A. McCain.

Gardner will replace Laurence A. (Moon) Mullins who resigned yesterday after the athletic council had voted down his request for 95 athletic scholarships for the baseball squad. It was also rumored that Mullins had failed in an attempt to get about \$7,500 in athletic funds transferred back to the Endowment association under

the control of Arnold Jones, dean of financial administration.

"If they (the Endowment association) transfer those funds to athletics, the College will have to get a new athletic director," he was reported to have said.

**MULLINS SAID** he plans to go into the filling station business. For a while it was thought he would go into the fertilizer business, since, as he described it, he was closely associated with that type merchandise in dealing with athletic administrators.

This reporter called the McCain home last night to get the President's view on the situation. When Mrs. McCain answered, the President was heard to yell from the other room, "Tell him I am not at home. I am not available for comment."

However, Dr. McCain has repeatedly stated that "no one person or group of persons tells me how to run this College." It is thought that this policy had a great deal to do with accepting Mullins' resignation.

In Utah, Jack Gardner said he was grateful for the honor be-

stowed upon him. He said it is his immediate plan to bring Art Bunte and Gary Bergen to aid in the administration and recruiting. His salary is reported to be in the neighborhood of about 16,549.51. However, our source said that this figure might be a dollar or two short.

**GARDNER SAID** his first effort as new athletic director will be to rename the field house in his honor.

Opinion in some sections of town was riding high with Gardner's appointment. One local businessman said that he was glad to see the nation's best coach return to his home grounds. "I am glad to see the nation's best coach return to his home grounds," was the way he put it.

Mullins, in leaving Kansas State, said that he appreciated everything which had been done for him while in his position as athletic director. "K-State is one college where the school officials receive full support from the top brass," he said as he puffed on an El Stinko cigar.

April Fool

## Shannon Quits Winter, To Teach Fag-Flipping

Howard (Howie) Shannon, assistant K-State basketball coach, today resigned his position in a surprise move following announcement of the appointment of Jack Gardner as Director of Athletics, replacing Larry (Moon) Mullins. Shannon declined to comment on the reason for his decision.

"I'd rather teach cigarette-flipping on the campus than continue here under existing conditions," Shannon said. He declined to comment on the nature of the existing conditions.

The president said he liked the idea of introducing cigarette-flipping into the college curriculum. "This idea definitely has merit," McCain said.

"I wish such constructive and progressive thought was exercised by more members of the faculty. After all, it's about time we followed KU's lead in this matter," the President said.

A tentative outline of the former assistant basketball coach's new duties includes teaching three

sections of "The Fundamentals of a Controlled Flip," three sections of "Elementary Cigarette Flipping," and two sections of "Advanced Cigarette Flipping."

## 'Moon' In Uniform For New Position

Laurence A. "Moon" Mullins resigned today as K-State athletics director to accept a job with Harold's Aggieville Texaco service station. The announcement surprised President McCain, who exclaimed, "Well!"

Moon said he had always wanted to run a filling station ever since his boyhood when "I used to go around at night smelling gas tank caps. I just loved the fumes," he said.

**MULLINS** said it was a hard decision to make, since he had been offered a car washing job at a rival filling station. "But I knew I wouldn't be happy unless I could pump gas, so I went to Harold's."

Mrs. Mullins said she was glad that Moon decided to start pumping gas. "It's about time he had a respectable job," she said.

"I've got great ambitions for Harold's now that I'm on their staff," Moon said. "I imagine that by next fall we will be giving gas scholarships to hotrodders who use more than 300 gallons of gas a month."

**SMELLING** the gas fumes is what Moon likes to do best. "I really like Ethyl," he said. He was referring to gasoline.

Many of K-State's athletes were glad to hear about Moon's promo-

"Gasoline" Mullins

tion. "Ever since I've known Moon, he has seemed like an oil man," said Torky Caylor. "I hadn't thought of oil in the can, though."

# Numbers' Racket Unstrung

Foto by Whitey, Crime Photographer

**NABBED**—Paul DeWeese (left), sports publicity director, and Frank Mosier, K-State ticket manager, are shown shortly before they were taken into custody early this morning in a raid on Kedzie hall. The two operated a numbers racket, using their positions with the College as a front.

## Kedzie Hall Raided by Police, Two K-State Officials Nabbed

A "numbers" racket operating from the campus of Kansas State college was smashed by campus police and agents of the federal Bureau of investigation in a raid on Kedzie hall early this morning.

Paul DeWeese, sports publicity director, and Frank Mosier, K-State ticket manager, are being held by police for questioning on the activities of the "numbers" game.

A "NUMBERS" racket is classified as a lottery, and lotteries are illegal, police explained to the two men in preliminary questioning.

Records uncovered in the surprise raid disclosed that the two men began operations soon after "Moon" Mullins, former director of athletics, took over at K-State. Police said the annual take (discounting rake-offs) amounted to more than \$1,642,345.42.

ACCORDING TO FBI agents, who were called in for income tax evasion, said the two men used their positions in the College to operate the lottery. They neglected to say who was evading what income tax.

The officials explained that Mosier handled all ticket sales for athletic events at Kansas State. Each of the tickets were numbered.

Mosier turned over a certain amount of the tickets to DeWeese who was supposed to have passed them out as free passes to the working press and other notables. Officials said the number of tickets turned over to DeWeese had been increased about the time Mullins came to K-State.

DEWESE WOULD sell the tickets to selected "sports fans." The numbers on the tickets would indicate the winner each week.

Police tabbed the operation as ingenious.

The raid this morning lasted some three hours before the two men decided that "crime doesn't pay." Police resorted to tear gas, buzz bombs and radio-active air from recent A-bomb tests in their efforts in bringing the men to justice.

The men finally gave up when informed that Kedzie had been condemned.

All during the raid, Harry the cop was busy tagging the police cars for overparking. The officials will appear before the Tribunal at its next regular meeting.

### Girls To Don Pads, Will Award Grid Positions Next Fall

It was learned from an informed source of the K-State athletic department that Athletic Director Larry "Moon" Mullins and Dean of Women Helen Moore have already set in motion a move to promote a girls' varsity football team.

Applications have been sent to prospective coaches and the new head mentor should be announced before the end of next week, since spring practice will commence May 1.

Mullins indicated that Chuck Mather will be given an inside track for the post if he shows a desire for that position. However, all candidates will be carefully screened and only those with proven ability will be refused the job.

# Case of Booze Prize For Best ROTC Beard

BY ANON E. MUS  
Of The College Staff

The ROTC department is sponsoring a beard growing contest among the cadets, General Twining, General of the Air Force, revealed today. The general is putting up a case of beer as a prize for the best looking beard.

"We feel that the ROTC department should cooperate with Manhattan on its centennial observance," Colonel Itz, head of the department of air science, said today. "This little plan has been carefully planned by the Strategic Air Command. I have known about it for the past year, but could release it only recently for security reasons."

Officials of the ROTC department said another reason for holding back this information was to make sure everyone got a fair start. The officials added that competition will be keen.

Members of the Angel Flight are also to participate in this contest because, "They have just as many whiskers as some of our freshman cadets," says the colonel.

The basic cadets staged a mass protest rally in front of the Military Science building yesterday afternoon. A freshman cadet, who was spokesman for the group told Colonel Itz, "We feel this contest is unfair to the basic cadets. The advanced cadets shave every day, and use a blade. We basics (a rousing cheer went up) shave only once a week, and the shaving soap dissolves the whiskers(?)"

The colonel replied, "Yours is not to question why, yours is but to do or get drafted."

The group spokesman cried, "Retreat like hell, men." The group retreated and disbanded, but feelings are still harsh between the basics and advanced.

## Female Editor Wanted

Applications now are being taken for editor of the 1955 student directory. Popular coeds are preferred for the job, since they probably already know the names of most boys on the campus, the Board of Student Publications stated.

April Fool

Sax Stone, ROTC major, said today.

Special uniforms will be issued for the centennial month of April. Cadets are to pick up their uniforms according to their classification. Sergeant Doyle, AF8140-824197, said, "If these chaps can't figure out whether they are propeller heads or gravel agitators, they can check with me in my office."

The uniforms are to be: **ARMY**—Exchange conventional dome dories and walking shoes for hip boots, a shovel (to be carried at all times), and an OD cowboy hat (ten gallon). **AIR FORCE**—Exchange conventional bus drivers hats and shoes for blue cowboy hats (nine and one-half gallons) and black cowboy boots.

April Fool

## Vets Take No Action On Housing 'Problem'

The Veterans Organization tonight will consider the problem of coeducational housing facilities to replace the present segregated dormitory system.

Mackie Murphy, president of the association, said he believes the organization will take no action on the problem.

"If we had a larger percentage of single veterans, it would be an interesting discussion. However, most of the members are married and the rest are too old to care," he said.

April Fool

## Show Squash Films

A meeting of the Sigma Nu pledge class will be held tonight in the Rec room of West Stadium. All football and basketball players are requested to attend. A film, "Highlights of the 1922 Squash Season," will be shown.

## Heppe Returns To Faculty

Prof. Paul H. Heppe has returned to the Kansas State College faculty after completing a world tour as "Mr. Athlete of the Year."

The tour took him to 34 countries where he displayed the form that won him the coveted title.

After the colorful and romantic experiences he has had, one would think it would be rather boring to take up again the existence of a college professor. This isn't true though, says Heppe.

"I find life here on the campus can be just as interesting and exciting. Take yesterday, for instance. I flunked all the students in one of my classes with one swipe of my new red pencil. Man, that's sport!"

"According to the official averages kept in the Registrar's office, I'm batting .576 for my career," Heppe said, his bloodshot eyes dancing. "Almost 6 out of every 10 of my students flunk," he exclaimed happily. "This record is all the more remarkable when you consider that these days some students actually read the footnotes in the outside reading."

"I still find time to keep in training, though, even with my busy schedule," Heppe said. "Some people say my method of training

## SPC Plans Made For Frosh on SC

A plan for freshman representation on the Student Council was formulated last night by a subcommittee of the student planning committee.

The plan states that an additional representative should be elected from each undergraduate school, this representative being a member of the freshman class.

Eligibility to run for the office would be based on grades at the first five weeks of the fall semester, and candidates will be elected in time to take office at the nine weeks of that same semester, according to the plan.

Another provision is that the term of office will be one year from the time the office is assumed.

The plan as drawn up by the committee will be reviewed at a meeting Monday at 8 p.m. in J 21 that will be open to all students. If the plan is not revised at this meeting it will be submitted to the SPC as it reads now.

"In addition to the plan for freshman representation, equal fair representation to the student body as a whole will be discussed at the meeting Monday night. Fair representation is now inhibited by certain clauses in the constitution that will be reviewed in the meeting," Bunny Cowan, Psy Fr, chairman, said.

## Thirty Chosen To Present 'Quantrill' Play

Over 30 students have been chosen for parts in the production, "Quantrill in Kansas," to be presented in the College auditorium April 29, 30, and May 1.

Baird Miller, Sp Jr, will play the leading role of William Quantrill, the notorious outlaw who led the massacre at Lawrence, in 1863.

Mary Lu Compton, Sp Fr, will play Quantrill's girl, "Genny."

Dan Hurley, Sp Gr, will portray "Skages," who was one of Quantrill's important raid leaders.

The rest of the cast will play minor parts as outlaws and red-legs (outlaw Union soldiers).

"Quantrill in Kansas," written by Prof. John Robson and Bob Balzerick, BA Jr, will attempt to explain the other side of Quantrill's story.

Quantrill, with three hundred men, dashed into the streets of Lawrence, killing two hundred white abolitionists, fifty negroes, and damaged two million dollars worth of property.

Robson will direct the production. Ann Shaw, Sp Jr, is assistant director; Balzerick, production manager; Bruce Bellamy, Sp Sr, set director; Don Hermes, assistant speech professor, designer; and Sandra Tatge, PEW Sr, properties.

## Excavation Under Way At Farmhouse Site

Excavation work has begun this week for the basement of the new Farmhouse fraternity building at 1830 College Heights.

## Modern Dance To Interpret Easter Story

Religious interpretative dance, choral reading, and music, will tell the Easter story in a student assembly April 6.

The program will be in three episodes depicting the suffering of Christ during His crucifixion, the sorrow of the world, and the rejoicing after the resurrection.

The choral group will accompany the dancers, and will present several special numbers. The group is under the direction of John Robson, professor of speech.

Interpretative religious dance is one of the oldest forms of creative religious expression. Marilyn Tavares, instructor in the women's physical education department, will direct the dance.

The Easter assembly is sponsored by the YWCA and the YMCA. Eugenia Jern and William E. Rogers are co-chairmen of the assembly.

Special lighting effects will be created by O. D. Hunt.

## Club Women Here Saturday, Sponsor Art, Essay Contests

The Kansas Federation of Women's clubs will have their annual Federation Fine Arts day Saturday on the campus.

The statewide music auditions of the Federation were scheduled for Saturday, but have been postponed until April 9 so as not to conflict with other music festivals.

State winners in three art contests will be announced. The pictures will be shown and discussed by John F. Helm Jr., J. Cranston Heintzelman, E. J. Tomasch, and Hobart Hays, faculty members who make up the jury for art awards.

High school seniors who won in seven district art contests will be competing for a \$100 scholarship award and the opportunity to represent Kansas in the national Hallmark competition.

Judges for the literary events include Will R. Moses, Alywn Berland, and Fred Higginson from the K-State English department. They will select state winners in six divisions of literature, and the outstanding work in the field will receive the Pearl Herst Lubke award.

## Emeritus Club Plans First Meeting April 13

The first meeting of the newly-formed Emeritus Club is scheduled for April 13, and will be a dinner in the College Cafeteria Banquet room.

Professor Emeritus L. M. Jorgenson is in charge of the arrangement. Invitations are expected to be sent soon to the approximately 50 members and their wives or husbands.

## Style Show To Feature 37 Models

Models for the Hospitality Days style show April 16 have been announced by Betty Winkley, HE Soph, chairman of the show.

The show is part of the two-day open house presented annually by the School of Home Economics. Thirty-seven home economics students will be models.

Charlotte Henry, HEJ Soph, and Wanda Stalcup, HEJ Jr, will write the scrip. Joan Howell, HEN Soph, is in charge of costumes for the historical part of the show. Janis Anderson, Clo Jr, is in charge of staging for the show, and Joan Skupa, HE Soph, is chairman of the programs committee.

Sharon Hansbearry, HT Soph, Kathryn Regier, HT Soph, and Jane Compton, ChW Sr, will model cotton dresses.

Judy Lippitt, HeN Soph, and Claudette Frank, Soc Soph, will model raincoats.

Skirts and sweater outfits will be modeled by Gwen Erickson, TES Fr, Sondra Tate, Art Fr, Sandra Cox, DIM Fr, Bonnie Hahn, HE Jr, and Ann Folsche, HT Soph.

June Clugston, Clo Sr, Bonnie Fuller, Clo Sr, Joan Skupa, HE Soph, and Carol Peterson, Clo Sr, will wear suits in the style show.

Casual dresses will be worn by Mary Louise Ek, HEJ Soph, and Joyce Rawlins, HDA Soph.

Joan Trimmell, HE Soph, Joanne Ketchum, HT Jr, Marilyn Moon, HE Soph, and Marguerite Hoon, HE Soph, will model party dresses.

Bermuda shorts and slacks outfits will be modeled by Peggy Farrar, HE Fr, Sarah Jolley, EED Soph, and Loyce Cheatham, HE Soph.

Virginia Roenbaugh, HT Soph, Kathleen Dodd, EED Fr, and Judy Sortor, RT Fr, will model pajamas.

Formals will be worn by Janis Anderson, Clo Jr, Kay Hinkhouse, HEJ Fr, and Barbara Lowe, HM Fr.

## Hostinsky Is SDX Queen

Sue Hostinsky, ChW Soph, has been chosen queen of Sigma Delta Chi, men's professional journalism fraternity.

Miss Hostinsky will be honored at the Sigma Delta Chi initiation banquet April 21. She will also represent the group in the Manhattan centennial queen competition.

Newly-elected officers of the honorary are Lee Ruggels, TJ Jr, president; Dick Carr, TJ Jr, vice-president; Sam Logan, TJ Jr, secretary; and Elmer Karstensen, TJ Jr, treasurer.

C. J. Medlin, graduate manager of student publications, was re-elected faculty advisor.

## Student Health

Patients at Student Health today are Margaret Wonder, Barbara Elliott, Marilyn Buick, Mary Price, Nona Dudley, Bob Houghland, Herman Santala, Burt Schmidt, Hassan Rouhandeh, J. D. Whistler, Thomas Heinz, John W. Johnson, H. W. Huttanus, and Joseph Horton.

# Union Budget Set by Board

\*The Student Union governing board approved the first budget for the new student union yesterday. The budget is for the fiscal year July 1, 1955 to June 30, 1956.

A question was brought up at the meeting concerning financing of bowling alleys in the new student union. Provisions had been made in the budget for operation of the alley.

## SGA Petitions Available In Student Dean's Office

Students interested in running for SGA offices should pick up petitions now in the Dean of Students office, according to Gary Swanson, chairman of the SGA election committee. Deadline for returning petitions to the office is noon Saturday.

All full time students who have a C average or better are eligible to run for election, Swanson said.

## Ag Association Nominates 11 For Positions

Candidates for Agriculture Association officers, Barnwarmer manager, and assistant Barnwarmer manager have been nominated by the Ag council members and department club presidents.

Stan Larson, AED Jr, Walt Martin, Ag Soph, Bill Ericson, AH Jr, and George Atkeson, DH Jr, were nominated for president and vice president.

Arnold Appleby, AgE Soph, and Dick Baker, AED Jr, were nominated for secretary. Lloyd Christie, DH Jr, and Donald Hunt, AH Jr, for treasurer. Mark Drake, AH Jr, was nominated for Barnwarmer manager. Ray Zimmerman, Ag Soph, and Nelson Galle, Ag Ed Soph, were nominated for assistant Barnwarmer manager.

The election will be May 5 at agriculture seminar.

## Colorado Vacation Site For Christian Fellowship

Foreign students and others interested in the Inter-Varsity Christian fellowship April 5-10 at Colorado Springs may contact Lucien Regnier or Don Lamb. The sessions will be at Bear Trap Ranch with tours to places of interest, hiking, sports, games, and discussions of the Christian faith.

## Sports Corner

# Baseballers Win Pair From Wichita, 6-2, 4-3

K-State opened its baseball season yesterday afternoon with a pair of wins over Wichita university at Griffith stadium by scores of 6-2 and 4-3.

In the first seven-inning game, K-State scored 2 runs in the second inning and 4 more in the third to wrap up the game.

WARREN POLAK and Darrell Parker combined to shut out Wichita for six innings. The Wheatshockers broke the ice with two runs off Parker in the seventh. Parker was winning pitcher.

The big blow of the game was Larry Hartshorn's home run over the right-field wall in the third inning with two men on base.

IN THE SECOND game, an extra-inning affair, K-State scored a run in the first, 2 in the fifth, and came through with another in the eighth to break the 3-3 tie which existed at the end of the seven-inning affair.

The winning run was scored by Ken Jenkins, who was hit by a pitched ball and moved around to score on a stolen base, a ground out, and an error.

The big blow of the game was a home run by Bob Boyd.

Union Director Loren Kottner explained that the alleys were included in case funds could be raised to finance the alleys. Kottner stated that it was better to include the alleys in the proposed budget just in case the needed money was raised. He suggested a fund-raising campaign be made to purchase the alleys and equipment.

Marjorie Badeker, DIM Soph, asked if physical education classes would have to pay for the use of the alleys. Kottner answered that they would probably have to.

Lee Ruggels, TJ Jr, wanted to know what the difference was in charging phys ed classes when home economics classes get the use of the union facilities as a laboratory fee.

Kottner explained that the home ec students would be working for the union doing various duties, such as serving banquets and preparing food, under the supervision of a union kitchen supervisor. It is planned that the home ec food classes will be moved from Thompson hall to the new union.

Kottner explained that pinboys would have to be hired to operate the bowling alleys during phys ed classes Ray North, Psy Fr, asked why phys ed classes couldn't provide their own pinboys.

Doreen Cronkite, HEJ Jr, moved that the home ec students not be paid for working in the union. A straw vote of board members was taken and it was decided that no student under laboratory instruction would receive payment for working in the union.

It was decided to form a promotion committee to inform the student about the union. A motion carried to accept written applications for positions on the committee.

Ruggels asked what improvement would be made on the parking lot east of the new union. Dean Craig explained that the lot is supposed to have a hard-top surface upon completion of the union.

## Miller, Russell To Texas Meet

Paul Miller and Ray Russell are K-State's track entries in the Texas Relays today and tomorrow in Austin, Texas.

This will be the first outdoor meet for K-State. The team previously was scheduled to compete in the Oklahoma A&M Relays last week end, but withdrew because of inclement weather.

Miller is slated for action in the pole vault, while Russell is to enter the 120-yard high hurdles, and the intermediate hurdles on a 220-yard course.

In the pole vault, Miller will be out to better his indoor mark of 13 feet, 8 1/2 inches.

## Mary Shaker Wins At KC Burlesque

By SERUTAN YOB  
Of the Nigerian Bingo Bongo Staff

The Tri-Delta's entertained Helen Moore, dean of women, at a rush supper Wednesday night. Miss Moore reported that she did not plan to pledge Tri-D, since she is a Pi Beta Phi active.

April Fool

A Tri-D spokesman said her sorority considered Dean Moore for the honor since her policy's initials coincide with the sorority's initials. Miss Moore presently is one day behind in her "Digga Dorma Day" project.

April Fool

Alpha Chi Omega gave a formal ball last night. A large punch bowl, tastefully decorated with winged seraphs, was a pre-dinner

delight. The girls were pickled pink over it.

April Fool

The Saddle club entertained last week end guests at a bridal dinner last night. The guests watched the groom lead the bride by the 'alter. (Editor's note: The reason he used the 'alter was undoubtedly because he couldn't find a ring the size of her nose.)

April Fool

The Rover club voted unanimously at its meeting last night to send R. F. Gingrich, maintenance department head, a secret map showing where the club's treasure of over 1,000 bones is buried. The dogs gave Gingrich the map in appreciation of his tireless efforts in keeping the fire plugs painted red.

April Fool

## Kampus Goofs

Prof. John F. Helm, Jr., of the department of Architecture and Allied Arts, will go to Topeka tomorrow to speak to the ladies of the Topeka Art Association. His topic will be: "Do You Etch?"

April Fool

Helen Wroten of the English department, has been selected by the students in one of her classes as the teacher most likely to succeed in frustrating more students. Miss Wroten, known for her ability to limit tests to an hour and a half, was presented a set of car keys by the class. "Now all she needs," one of her students said, "is the 1903 Maxwell they belong to."

April Fool

Bert C. Cross, Journalism professor, has been selected head of the American Society for the Prevention of Cruelty and Mistreatment of Journalism Professors. (Editor's note: All Journalism students agree that Mr. Cross is a head.)

April Fool

At the livestock convention last night, Dean Weber gave a report on the progress of the artificial insemination program in Kansas. "We now have the situation well in hand," he said. However, a survey of the cows showed they thought it was utterly ridiculous.

April Fool

The night session of Biology Laboratory will not be held in WA236 tonight it was announced this morning by Prof. M. J. Harbaugh. The class will meet next week to study floriculture in the formal gardens.

April Fool

The roads and bridges committee of the campus development committee will hold its eleventh annual meeting tomorrow night. John F. Furschlugg, president of the Potash Plant and first chairman of the group, will address the group on "Suspension Bridges That Could Be Adapted To Campus Use without Marring the Beauty of the College's Parking Lots."

April Fool

Sigma Delta Chi Wishes

Everyone a Happy New Year.

## Tribunal Has New 'System'

A new system for penalizing traffic violators was devised at the Tribunal meeting last night, according to Martin Eby, chancellor. Instead of merely making the student take his car home or kicking him out of school the Tribunaling all traffic violators before the has solved the problem by order-Pershing Rifles firing squad for execution.

Commenting on the new arrangement Eby said, "It might be a little cruel, but it sure is fun. Also it reduces the number of potential drivers and cuts down on the parking problem." (It's a

wonder one of these political parties didn't think of this.)

Another beneficial result of the new method is the reduction of unemployment. The department of history and government is seeking three new professors to fill in the remainder of the semester.

L. E. CONRAD

**L. E. Conrad**  
**Endorsed**  
**by**  
**Business-**  
**men**

A group of Manhattan business men would like to see L. E. Conrad elected a city commissioner. Manhattan can well use the services of a man of Mr. Conrad's qualifications and experience. Mr. Conrad is former head of civil engineering and from 1940 to 1942 was acting dean of Engineering at K.S.C.

The U.S. government sent L. E. Conrad to Formosa for a year to help solve some of that country's engineering problems. He returned last spring. In the 1920's he had an important role in developing a water softening plant for Manhattan.

Manhattan's city government can make good use of L. E. Conrad's civil engineering skill and experience in our rapidly growing city. He has the time, the energy, the experience and the good judgment to serve our city well.

(this adv. paid for by Manhattan business men)

# Follis, Atkeson Royal Champs

Dee Follis, AH Sr, showing a Shorthorn heifer, and George Atkeson, DH Jr, showing a Holstein cow, won grand championships in the Block and Bridle and dairy divisions respectively at the Little American Royal in Ahearn Field House Saturday night.

Reserve championships went to Virgil Mulligan, Ag Soph, showing an Angus heifer, Block and Bridle, and Jack Van Horn, Ag Fr, showing a Holstein heifer, in dairy.

An estimated crowd of 5,000 was on hand for the show. Grand entry was a 7:30 p.m. with music by McPherson high school. Four rings were used. Trick rider Jimmy Adams provided entertainment during both intermissions.

**IN THE BLOCK and Bridle** division, Dee Follis placed first in both the beef cattle division and the quarter horse division; Virginia Balthrop, HDA Sr, won first prize in the hog division; and Larry Henry, AH Sr, won the sheep division.

First place winners in the dairy division were: George Atkeson, with a Holstein cow; Ancel Armstrong, DH Soph, with an Ayrshire cow; Laurence Graig, Ag Fr, with a Jersey cow; and Ronald Poppa, PrV Soph, with a Guernsey cow.

**PLACINGS in the classes were:** Mixed steers No. 1: Billy Clark, first; Jim Gammell, second; John Fish, third; Bob Dickinson, fourth; and Sylvia Gaddie, fifth.

Mixed steers No. 2: Alferd Baker, first; Bill Brethour, second; Richard L. Fankhauser, third; Dean Becker, fourth; and Don Argabright, fifth.

Shorthorn and Hereford Heifers: Dee Follis, first; Jim Murray, second; Jim Flanders, third; Fred Woodbury, fourth; and Lynn Perkins, fifth.

**ANGUS HEIFERS:** Virgil Mulligan, first; Norval Deschner, second; Bob Moore, third; Eldor Gideon, fourth; and Gary Swenson, fifth. Angus and Shorthorn Bulls: Roger Rankin, first; Don Hunt, second; William Bingham, third; Phillip Schmidt, fourth; and Edwin Dillinger, fifth.

Quarter horses: Dee Follis, first; Ernest Heitschmidt, second; Ray Sis, third; Charles Imthurn, fourth; and Bob Todaro, fifth.

Poland China hogs: Virginia Balthrop, first; John Balthrop, second; Don Slade, third; Harold Stauffer, fourth; and Jim Hundley, fifth.

**DUROC HOGS:** Garry Hanneman, Harold Garner, second; Nelson Galle, third; Stan Larson, fourth; and Estel Schultis, fifth.

Breeding sheep No. 1: Larry Henry, first; Charles Warner, second; Bill Tilgner, third; Leon Sucht, fourth; and Walt Martin, fifth.

Breeding sheep No. 2: Jim Withers, first; Allan Henry, second; Ray Zimmerman, third; J. Brent Adair, fourth; and Ben Handlin, fifth.

Holstein cows: George Atkeson, first; Tom Gatewood, second; John Gutschenritter, third; Kenneth Kirtton, fourth; and John Bircher, fifth.

**HOLSTEIN HEIFERS:** Jack Van Horn, first; Warner Howard, second; Earl Johnston, third; Herschel Staats, fourth; and Frek Keiser, fifth.

Ayrshire cows: Ancel Armstrong, first; Charles Pretz, second; David Brummell, third; Darrell Keener, fourth; and Dwight Haddock, fifth. Ayrshire heifers: Ray England, first; Damon Slyter, second; Jerome Reiger, third; Gary Peterson, fourth; and John Anderson, fifth.

**JERSEY COWS:** Laurence Craig, first; Jim Hundley, second; Dennis McCluskey, third; Bob Bozworth, fourth; and William Bergman, fifth. Jersey heifers: Lloyd Christie, first; Joe Bailey, Jr., second; Donald Mai, third; Nicholas Schroeder, fourth; and Clement Darrow, Jr., fifth.

Guernsey cows: Ronald Poppa, first; Melvin Brose, second; Arnold Appleby, third; and Rodger Hoyt, fourth.

Guernsey heifers: Richard Bair, first; Ruben Torres, second; and David Boucher, third.

## Calm...

Topeka, April 4 (U.P.)—Following a week end when blowing dust was general over the entire state, the wind dropped early today leaving the dust to settle.

The U.S. weather service at Topeka reported that the highest gust recorded in Kansas yesterday was at Salina in mid-afternoon when the wind reached 60 miles per hour. At Topeka about 9 a.m. Sunday a gust of 57 miles per hour was reported. Visibility over the western section of the state was as low as one-half mile.

## Easter Story To Be Given Wednesday

Three episodes of the Easter story, Suffering, Sorrow, and Exaltation, will be interpreted through religious interpretative dance and choral reading at the Easter assembly Wednesday.

Religious dance is the expression of a religious idea, thought or feeling through movement. Through this medium, and the medium of choral reading, the suffering of Christ during His crucifixion, the sorrow of the world at His death, and the rejoicing of the world at the resurrection, will be portrayed.

Orchestrated members, under the direction of Marilyn Tavares, instructor in women's phys ed will dance for the assembly. The girls taking part in the program are Ellen Baker, Sandra Cox, Jean Harrell, Marcia Hesler, Eugenia Jern, Ann Lundberg, and Shirley Williams.

Soloists for the choral reading group are Ann Shaw and Howard Hill Jr. Other members of the group are Marilyn Adams, Janis Anderson, Mary Lou Compton, Margory Cornwell, Barbara Ericson, Laura Langord, Karen Milner, Janet Shields, Betsey Thomason, Gail Cross, Don Gier, Jim Graves, Bob Haas, Bob McDowell, Rule Olson, Jerry Warner, and Phillip Young. Prof. John Robson, speech, is the director of the choral reading group.

Co-chairmen of the assembly, which is sponsored by the YWCA and the YMCA, are Eugenia Jern and William Rogers.

## Degree Candidates Can Order Caps, Gowns

Candidates for degrees in May should order their caps and gowns from the Campus bookstore before leaving for Easter vacation, E. M. Gerritz, registrar, said today.

Applications for degrees must be made to the registrar and commencement fees must be paid to the cashier by April 28. Applicants should check the post-office box or the general delivery window often for information concerning graduation, he said.

## Debaters Third At Notre Dame

Tom Bowman, ChE Fr, and Harry Knapp, PrL Jr, won third place in the Notre Dame Invitational Debate tournament Friday and Saturday at South Bend, Ind.

Bowman and Knapp won the first six rounds of debate and were beaten in the semi-finals by Wilkes college of Wilkes-Barre, Pa. Wilkes went on to win the tournament.

Twenty-two teams from over the nation competed in the tournament, Gerry Day, who accompanied the team as coach, said.

## Flying Enthusiasts To Meet Tonight

A flying club is now in the process of being organized on the campus. A meeting is to be held at 7 tonight in MS 205 for all those interested in flying.

James L. Knoblauch, EE Fr, said the group will discuss organizational problems and the cost of flying.

## Day, Robertson Head Candidates for Office

Gerry Day, VM Jr, and Phil Robertson, FT Jr, have filed petitions for student body president. Day is running on the Integrity party and Robertson on the New-All-College party.

Forty-six have filed for other offices.

## Fourteen Picked For Council Ballot

Fourteen final candidates who will run for the Student Council offices from the School of Arts and Sciences were selected yesterday from the 18 petitioners, Jim Graves, BA Soph, chairman of the Arts and Sciences council, said yesterday.

The candidates are Bill Kennedy, BAA Jr; Margie Lemon, BMT Jr; Jerry Bray, BA Jr; Don Jones, PrM Jr; Jack Barrett, BA Jr; Joyce Larson, PEW Jr; Dave Winter, PEM Jr; Judy Menahan, Sp Jr; Nancy Blackburn, MEI Soph; Marilyn Smith, BMT Soph; Pat Wilkerson, BA Soph; Jim Graves, BA Soph; Bunny Cowan, Psy Fr; and Bob McDowell, Psy Fr.

The Constitution states that only twice the number of the offices in Student Council shall run for office.

The Council picked two freshmen, four sophomores, and eight juniors as final candidates, Graves said.

## Student Health

Seven boys are patients at Student Health today. They are Dale Miksch, Charles Jolley, Hassan Rouhandeh, Keith Fillmore, J. D. Whistler, Robert Circle, and Joseph Horton.

The New-All-College party candidates for Student Council from the School of Arts and Sciences are Margie Lemon, BMT Jr; Jack Barrett, Judy Menahan, Sp Jr; Nancy Blackburn, MEI Soph; Marilyn Smith, BMT Soph; Jim Graves, BA Soph; and Bob McDowell, Psy Fr.

**INTEGRITY PARTY** candidates are Bill Kennedy, BAA Jr; Jerry Bray, BA Jr; Joyce Larson, PEW Jr; Pat Wilkerson, BA Soph; Bunny Cowan, Psy Fr; Nancy Howard, EEd Fr; and Barbara Messer, BMT Fr.

Independents who petition for Arts and Sciences are Dave Winter, PEM Jr, Lance Gilmore, TJ Fr; Don Jones, PrM Jr; and Marilyn McCready, Eng. Soph.

Seven girls filed for Student Council from Home Economics. They are Ruth Pickett, FdN Soph; Kathleen Burns, DIM Jr; Martha Helmers, HE Jr; Delaine Smith, HEA Jr; Beverly Sargent, HEJ Jr; Charlotte Henry, HEJ Soph; Jackie Johnson, FdN Soph; and Eugenia Jern, HE Soph.

Sargent and Henry are the Integrity candidates, and Johnson and Jern are the New-All-College candidates.

Those petitioning for office from the Grad school are Merton Melvain, Sp Gr, and Eugene Welsh, Chm Gr.

**NEW-ALL-COLLEGE** party candidates from Engineering are Dean Nehrig, ChE Soph, and C. Q. Williamson, EE Sr. Integrity party candidates are Mackie Murphy, CE Jr; Newton Anderson, ME Fr; Keith Swensen, ARE Soph; and Mike Cornett, AgE Soph. Louis Burmeister, ARE Soph, also filed from Engineering.

Dick Schafer, FT Jr; Walt Martin, Ag Soph; Dick Baker, AED Jr; Don Hunt, AH Jr; Gener Grabs, AH Jr; George Atkeson, DH Jr; and Arnold Appleby, AED Soph, have filed from Agriculture. Schafer, Grabs, and Atkeson are New-All-College party candidates; and Baker, Hunt, and Appleby, are Integrity party candidates.

**THOSE WHO** have filed for the the Board of Student Publications are Lee Ruggels, TJ Jr; Gary Haynes, TJ Soph; Gaye Fryer, HEJ Soph; Joan Campbell, TJ Soph; and Betty Theiss, HEJ Soph. Ruggels, Haynes, and Fryer are Integrity party candidates, and Campbell and Theiss are New-All-College party candidates.

Alvin E. Melcher, VM Soph, Integrity party candidate for Vet Medicine, is planning to file a petition today.

The election of SGA officers and student body president will be April 21 and 22.

## Swim Rehearsal Scheduled Tonight

The first dress rehearsal for the spring water show, "Fantasy Under the Sea," is to be held today at 7 p.m. in Nichols. The show, produced by the Frog club, will be April 14-16.

DEE FOLLIS was the grand champion showman in the Block and Bridle division at the Little American Royal, Saturday night. He was awarded the trophy by Dr. A. J. Dyer of the K.C. Stockyards Co.

GEORGE ATKESON was the grand champion showman in the dairy club division. Atkeson showed a Holstein cow. Dr. Dyer awarded the trophy to Atkeson.

**To the Editor:**

An unusual occurrence happened at Kansas State this year—the formation of a two-party system. HURRAH! THIS IS GOOD! Perhaps this is the beginning of the end of student apathy. For the first time in many years, student interest has finally awakened from a long sleep of political disinterest. Because of this long rest, we're wondering if we students will be unaccustomed to the sudden change that will put politics back into its rightful position on the campus.

This is the chance KSC has been waiting for. Whether Kansas State politics, in the future, will be for the betterment of our campus depends to a great extent upon what happens in the forthcoming campaign and election. As a result of the two-party system, good politics could be established. Campaigns should be informative, beneficial, and FRIENDLY! If not, "hot" arguments over trivialities, mudslinging, and "dirty" politics will prevent the election of qualified SGA officers.

Therefore, constructive enthusiasm needs to be established. Careful thought goes into the choosing of each party's nominees and platform, but even greater scrutiny should be exercised when the student chooses the person who will represent him and his school and the platform that expresses his feelings as to "how things should be run."

This political interest has another advantage—how to become a good citizen of the future. We're here to learn and use what we learn. We hope politics will be taught in the right way, so we can leave KSC knowing how good politics are developed.

Ann Shaw, Sp Jr  
Marylyn McCready, Eng Soph

**To the Editor:**

As freshmen at K-State, we are naturally very interested in what goes on around the campus. At the present time, campus politics seems to be in everyone's minds.

The two-party system is a good thing for the school as it stimulates both sides and creates a spirit of competition. However, the good effects will be ruined if either party stoops to mud-slinging tactics. Neither party can afford to slam the other at the risk of offending the voters. This election will not mean the end of the world for either party, for we are only in the campaign for the fun and good citizenship it should promote. Roommate should not be against roommate or friend against friend, except in a friendly competitive spirit. But at the rate this campaign is going now, friends are likely to be lost. Is this necessary?

Let's keep this campaign on a high level with no mudslinging from either party. It can be done!

KANSAS STATE COLLEGIAN

3—Monday, April 4, 1955

### Purples Whip Whites, 20-0, in Grid Scrimmage

The Wildcat Purple team defeated the Whites, 20-0, Saturday as coach Bus Mertes ran his K-State footballers through their second scrimmage of the spring practice session.

Mertes plans to put his charges through workouts today and tomorrow, then will call off drills until after Easter vacation. The Cats are to close out spring training with a game against an alumni team Saturday, April 16.

FOURTEEN of the 20 Purple points were scored by the starting lineup. Fullback Doug Roether scored the first Purple TD in the initial period with a 47-yard gallop off tackle.

Bill Carrington, a fullback last year who is now running from halfback, plowed 10 yards around end for the second Purple tally just before halftime.

The Purples passed for two extra points. Halfback Dick Allen tossed to end Jim Rusher for one, and quarterback Bob Whitehead threw to Carrington for the other.

The final Purple tally came on a 3-yard sneak by quarterback Keith West.

### Tennis Team To Play Here Today; Golfers At Oklahoma A&M

K-State's golf and tennis teams begin action today, with the tennis squad meeting Mankato, Minn., here at 2 p.m. and the golfers teeing off against Oklahoma A&M at Stillwater.

The golfers move to Wichita for a match with Wichita university tomorrow.

Kent Poore, Hayes Walker, James Weatherford, and David Pfuetze were the golfers named by coach Mickey Evans to make the trip south.

Tennis coach Karl Finney labeled Bob Hansen and Richard Circle as probable starters for the No. 1 and No. 2 positions. John Deam, John Teas, and Don Wainscott will fill the other positions.

Hansen and Teas will pair off as one doubles team, while Circle and Deam will comprise the other one, Finney said.

### Pairings Set For Doubles In IM Sports

Pairings for doubles in intramural horseshoes, tennis, and handball in fraternity and independent divisions have been posted on the intramurals bulletin board in Ahearn gym, Frank Myers, director of intramurals, said today.

The scheduled matches may be played immediately, he added.

Last year's doubles champion in fraternity tennis was the Beta Theta Pi team of Bill Simpson and Dick Stone. Winner in the independent bracket was the Jr. AVMA team of Dane Bruster and Glen Nicholson.

Fraternity horseshoes co-champions last year were Loren Toews and Daryl Pultz of Sigma Nu, and Dean Smith and Earl Lupton of Sigma Phi Epsilon. Woodrow Wilson and Robert Maris of the Hosenose Gang were independent champs.

Last year's fraternity handball champs were Gerald Hart and Bob Smith of Sigma Alpha Epsilon. Jim Furey and Doug Foreman of the Hillbillies won the independent handball title.

### Trackmen Shut Out

The Wildcats' two entries in the Texas Relays last week end failed to place. Hurdler Ray Russell and pole vaulter Paul Miller were entered.

### Switzer, Taylor Plan To Play for Alums

Joe Switzer and Corky Taylor, K-State's star halfbacks of the past two seasons, will team up again April 16 when K-State's grid alumni clash with the current varsity at the close of spring practice.

Switzer and Taylor, both members of pro football clubs, teamed on the 1953 Wildcat team that drove to a 6-3-1 record after years as doormat of the Big Seven. Taylor starred on last fall's club that bettered the 1953 record by winning 7 of 10 games.

Switzer played for the Green Bay Packers last season. Taylor recently signed a contract to play with the Los Angeles Rams.

Official name of the Big Seven conference is the Missouri Valley Intercollegiate Athletic association.

### Cat Baseball Team To Play in South

K-State's baseball team faces Memphis Naval Air station tonight in the first game of a Southern swing that includes two tilts with Memphis and one with the University of Mississippi.

The Wildcats are to play Memphis tonight and tomorrow night, then face Mississippi at Oxford, Miss., Wednesday afternoon.

K-State will be shooting for its third straight win of the year as it meets a Memphis team composed of former professional players. The Cats took a doubleheader from Wichita last Thursday in the season's opener.

Coach Ray Wauthier indicated that the starting lineup for tonight's game would include Larry

Hartshorn, catcher; Dick Pearson, first base; Steve Hennessey, second base; Gerry Kerbs, shortstop; Larry Sturgeon, third base; Bob Boyd, left field; Ken Jenkins, center field; and Jack Smith, right field.

Bill Sinderson is slated to start on the mound, and Daryl Parker will pitch relief, if needed, Wauthier said.

Burdette Halderson of Colorado was the top scorer among Big Seven basketballers during the past season. He scored 287 points for an average of 23.9.

### Boxer 'Critical; Hearing Delayed

Trenton, N.J., April 4 (U.P.)—A hearing on the case of injured boxer Bryan Thompson was being delayed today to await the outcome of the young fighter's battle for life in St. Francis hospital.

Hospital officials reported Thompson still "unchanged and critical." The 23-year-old middleweight from Philadelphia has been unconscious almost all the time since he was knocked out last Tuesday night in the second round of a bout here against Jerry Luedde of New Haven, Conn.

## Thirty-Three Countries Represented on Campus

Thirty-three countries as well as Puerto Rico and Hawaii are represented in the student body by 134 students. Turkey has the largest representation with 16 students.

Many of these are members of the Cosmopolitan club. Contrary to the belief of most students, the Cosmopolitan club is open to any interested person, American or foreign.

The officers of the club this semester are Ali Arbab, Iran, president; Zachaeus Ekwebelem, Nigeria, vice-president; Jane Kamisato, Hawaii, secretary; and Rashad Natur, Jordan, treasurer.

**THE COSMOPOLITAN** club is the only organization on the campus which deals with international relationships. The motto of the club is "Above all nations in humanity."

The club meets twice a month in Rec center. The program at each meeting usually includes a talk by a foreign student who shows slides of his country. Discussion groups usually follow the program.

The club has one major project each semester. During first semesters the Feast of Nations is held. For this, students prepare and serve food of their native land. During second semesters the club takes part in a state-wide international student week end. This spring it will be held at Emporia.

**THE COSMOPOLITAN** club was organized in 1912 and has been

active since that time. One of the most active and interested persons in the club is Mrs. Leona Dobson of Manhattan. She is known as the "mother of foreign students."

Faculty advisors for the club this year are Asst. Prof. Manuel Ramirez, modern language; Prof. G. D. Wilcoxon, history, government, philosophy, and general studies; Asst. Prof. Werner Barth, history and government; and Prof. Cecil Miller, history, government, and philosophy.

## Chancery Club To Visit KU

Chancery club is to visit KU School of Law on April 14, according to A. D. Weber, associate professor of government.

Club members will attend law classes to get an idea of what studying law at KU is like, and to get acquainted with the professors and the curriculum.

A similar trip was made to Washburn university last semester.

One late model U.S. interceptor airplane carries more electronic equipment than the average television station—495 tubes and 6,400 coils.

## Married Men Number 800

A recent K-State survey shows that one of every five men on the campus is married (800 of 3,948), and it has been estimated that as many as 10 per cent of the women students also are married.

In the K-State School of Veterinary Medicine more than half the students are married—136 out of 250. And the 136 couples have among them 115 children. Forty of the 57 graduating seniors this year are family men.

**HOW ARE** the couples financed? The GI bill helps 465 of the 800, but most of these families supplement the GI payments by part-time work. Where there is no GI income, one or both almost always have part-time jobs, and parents frequently contribute.

Two of every three wives work to help supplement the family income. Some take college work.

"Couples are happier if both are in college," concluded Mrs. Jean Marchand after conducting a master's degree study here in 1951 on what effect the married woman's attendance at school had on her own and her husband's activities.

**"THE WIFE** doesn't demand so much of the husband's time if she, too, has to study. He's happier then, and he's also willing to share the house work with her. He's less likely to have rigid ideas about what is 'man's work'."

In a recent survey 25 K-State couples were asked what their advice would be to students contemplating marriage before graduation. Their unvarying reply was: "Go ahead—if you can swing it financially. We've never been sorry."

## Randall To Helm Of Collegiate GOP

Gene Randall was elected president of the Young Republicans club at the March 31 meeting. Other officers are Dan Farrell, PrL Soph, vice-president; Nancy Hayes, FdN Fr, secretary; Jo Alsop, Psy Fr, corresponding secretary; and Charles Moyer, Ag Soph, treasurer.

## Friend Follows Suit

Kalamazoo, Mich. (U.P.)—Lloyd Brooks, 25, stopped at Bonson Hospital to visit Richard Pfau, 23, who had undergone an emergency appendicitis operation. While sitting in Pfau's room, Brooks suffered an appendicitis attack and was wheeled to surgery.

## Harold Howe

Candidate for  
**Manhattan City Commission**  
**Vote Tomorrow**  
**April 5th**

### I HAVE A BACKGROUND OF TRAINING FOR CIVIC WORK

I am 54 years old. My work is at Kansas State College where I am Dean of the Graduate School. I taught courses and conducted research in taxation at K-State for 20 years. I have time and energy to serve as commissioner and I am glad to devote them to work I enjoy and in which I feel I am competent.

### I AM EXPERIENCED IN CITY GOVERNMENT

I have served as city commissioner for one term—through the reorganization from commission to commissioner-manager government—through the 1951 flood disaster and the problems were many—through the wonderful reconstruction job we all did together which led to the selection of Manhattan as an All-American City—through the period of growth that has been the greatest and most dynamic in the city's history.

### I WILL APPRECIATE YOUR SUPPORT AND VOTE

I stand for good, clean, vigorous city government. I think city government should serve ALL the people. I think the city commission should represent MANY parts of our community. I will continue to work for **ECONOMY**—keeping the city part of the tax levy at the present level—knowing that there are times when the wisest economy requires outlays for future growth, and that a dollar spent today may save two dollars tomorrow.

**VOTE FOR HAROLD HOWE**

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Tuesday, April 5, 1955

NUMBER 119

## Sondra Tate to Cal For Queen Contest

Sondra Tate, Art Fr, is to be K-State's representative in the Miss Football of 1955 contest sponsored by the Berkeley, Calif., Chamber of Commerce. Marlene Young, EEd Fr, is alternate. The contest will be in Berkeley next fall. Miss Tate was chosen by the Student Council last night.

Council member Bob Tointon gave a report of the traffic regulations revision committee which is considering the campus parking problem. The committee has met three times and plans to investigate traffic regulations coordination to determine what revision can be made to improve the over-all traffic picture, he said.

The Council appointed Carolyn Lusk, Eng Jr, to fill a vacancy in the committee coordinating staff created by the resignation of Ken Adamek, EE Jr, chairman of the group. Committee member, Royanne McMullen, BMT Fr, was chosen by the Council to be chairman.

The Council decided to hold a "retreat" this year with the incoming council to discuss how the Student Council can better do its job.

## Sigma Tau Initiates 14

Keys were presented to 14 new members of Sigma Tau Sunday at the spring initiation banquet.

R. F. Morse, faculty sponsor of Sigma Tau, presented keys to Paul Works, CE Jr, Robert Juckem, ME Jr, Robert Kranock, ChE Jr, Norman Wilms, EE Sr, Stanley Funston, EE Sr, Jerry Friesen, CE Sr, Keith Kelling, AgE Sr, Lavern Kracht, IE Jr, Gilbert Johnson, CE Sr, Charles Weidler, EE Jr, Albert Kaine, EE Jr, James Miller, EE Jr, Marvin Biggs, EE Sr, and Kenneth Adamek, EE Jr.

Prof. E. C. Lindly was initiated as an alumni member. Harry R. Wege, a K-State graduate and manager of the radar engineering division of RCA was initiated recently into the Nu chapter of Sigma Tau at Swarthmore college in Pennsylvania. Wege was cited recently for outstanding leadership in the development of guided missiles.

Awards were given to the three freshman engineering students of last year who had the best scholastic records. Dean Durland presented a gold medal to William Ketterman, NE Soph, a silver medal to Tracy Sandow, NE Soph, and a bronze medal to LaVerne Lervold, ME Soph.

## Warmer . . .

The current trend of warm weather will continue throughout today with the highest temperatures expected in the eastern half of the state.

No moisture was reported yesterday and the large quantities of dust in the air during the week end still were settling. The winds yesterday were about 20-25 miles per hour with local patches of blowing dust in the northwest.

## Models Named For Home Ec Fashion Show

Betty Winkley, Hospitality Days style show chairman, has announced the names of 20 more models for the show April 16.

Gavona Michaels, HEN Soph, is in charge of rehearsals of the show, and Carol Antic, FdN Jr, will narrate.

Additional models for the show include Joyce Rawlins, HDA Soph, suit; Sandra Mueller, HEB Soph, and Kay Broman, HE Soph, party dresses; Diana Fellows, HE Soph, school outfit; Elizabeth Grimbale, HE Fr, sports outfit.

Norma Mase, HE Jr, Betty Bentz, BA Jr, and Jolene Miner, Art Soph, cotton dresses; Jewell Britt, EEd Jr, Kathryn Regier, HT Soph, and Janet Wann, Clo Jr, coats; Jan Lowderman, HM Fr, and Jane Lewis, Clo Fr, casual outfits; Helen Morris, HT Sr, formal.

Shirley Hundley, HDA Fr, Marie Price, HE Fr, Marilyn Jacobs, HEN Fr, Jacqueline Wade, Psy Soph, Martha Bolze, Clo Jr, and Cynthia Henning, Clo Soph, old costumes.

## Red Cross Water Safety Course Here In Week of April 25

A Red Cross school for water safety instructors will be conducted the week of April 25 at K-State. Katherine Geyer, head of the women's physical education department, said.

Gilbert Gribble of the St. Louis office will conduct the course. To participate, a person must hold a senior life saving certificate and be at least 18 years of age. Miss Geyer said anyone in this area interested might attend.

First meeting of the class will be at 7 p.m. April 25 in N108. The sessions will run from 7-10 each night that week. Anyone interested is urged to contact Miss Geyer.

## Easter Assembly Tomorrow Morning

Suffering, Sorrow and Expectation, three episodes of the Easter story, will be interpreted through religious interpretative dance and choral reading at the Easter assembly tomorrow morning at 9:30 in the Auditorium.

The assembly will portray the suffering of Christ during his crucifixion, the sorrow of the world at His death, and the rejoicing of the world at His resurrection.

This assembly is sponsored by the YWCA and YMCA. Co-chairmen of the assembly are Eugenia

## Today Last Day To Order Invitations

Today is the last day for seniors to order commencement invitations, Byron E. Ellis, KSC Press superintendent, said.

Seniors may order invitations in K101.

## Larry Woods Speech Contest Tonight at 7:30

The eighth Larry Woods Memorial Speech contest will be today at 7:30 p.m. in G206. Eight members from the Oral Communications I classes will give original speeches, with the first three place winners to receive prizes of \$30, \$20, and \$10.

Donna Knoche, HT Fr, will give a speech entitled "Freedom Smile." Virginia Eaton, HT Fr, will speak on the Artist Series and how to support it. Carl Bulger, Chm Fr, will deliver a speech entitled "Our Problem Child."

Naomi Trumbell, HEJ Fr, will answer the question, "What Do We Owe Our Country?" Judy Crawford, PEW Fr, will give a speech entitled "The Golden Door." Mary Weathered, HM Fr, will give a speech entitled "The Basic 7 Foods for Daily Living."

Tom Bowman, ChE Fr, and Jerome Thies, Ent Fr, have not chosen the topics of their speeches.

## English Professor To Have Singing Lead in 'Quantrill'

William Koch, assistant professor in English, will have the singing narration lead in the production "Quantrill in Kansas" to be held in the Auditorium April 28 and 30 at afternoon matinee's and May 6, evening performance.

Others who are taking part in the play are Dave Larson, Patty Patton, William Drake, Verdel Wilson, Laura Lyon, Karen Milner, Dolly Hubbard, Richard Swengel, Ed Dunn, and Ed Slocombe.

Sandra Tate will be in charge of special dance routine numbers. She will be assisted by Marilyn Tavares, dance instructor in women's physical education.

"Quantrill in Kansas" is being sponsored by the fire arts festival committee composed of John Helm, Arl Hoover, and Luther Leavengood.

## Bev Sargent Prexy Of Theta Sigs

Beverly Sargent, HEJ Jr, has been elected president of Theta Sigma Phi, women's journalism honorary.

Other officers are Jan Hipple, HEJ Jr, vice-president; Carolyn Jones, TJ Jr, secretary-treasurer; and Jan Follmer, HEJ Jr, keeper of the archives.

## Student Health

One girl and 10 boys are patients at Student Health today. They are Nancy Caudle, Olyn Calhoun, Paul Hatfield, Dale Mikech, Charles Jolley, Hassan Rouhandeh, J. D. Whistler, Don Gilbert, Robert Circle, Joseph Horton, and Jose Amundaray.

## Winnie Resigns This Morning

London (U.P.)—Sir Winston Spencer Churchill, who fought and defeated every enemy save the unyielding toll of time, presented his resignation as Prime Minister of Great Britain to the Queen today.

His successor as Prime Minister will be Sir Anthony Eden.

## Union Board To Establish Sub Group

The Union Governing board is asking for written applications for positions on the union promotion committee, according to Leon Armantrout, chairman.

The promotion committee is the first committee set up under the new union program council. The board wishes to establish a policy of filling positions by asking for written applications.

Applications will be due April 14 in the Union director's office, A204. Applicants should indicate their qualifications, interest, and promotional experience, Armantrout said.

This committee will be responsible for informing the student body and the public about the progress of the union building and its program.

Final selection will be made by the governing board April 18.

## SPC Approves Representation Plan for Frosh

A new plan for freshman representation on Student Council was passed by a subcommittee of the student planning committee last night. The plan as drawn up last Thursday night was discarded.

The new plan provides that two freshmen would be elected to the Student Council from the freshman class-at-large. The representatives would be elected by the freshman class.

Freshmen running for office would have to have a 1.5 grade average at the five-weeks, and the election would be held in time so that offices could be taken at the nine-weeks. The term of office would be one year from the time the office is assumed.

The plan will be presented to a student planning committee meeting April 12 at 7:30 p.m. in J15. Bunny Cowan, chairman of the subcommittee, said.

## Today's Collegian Last Before Easter

Today's Collegian is the last issue before Easter vacation. Publication will be resumed with the April 13 edition.

## Christian Worker To Lecture Today In Rec Center at 4

Mrs. Elnora Ferguson, a British Christian worker who currently is on a lecture tour of the United States under the sponsorship of the Fellowship of Reconciliation will be on the K-State campus today to confer with a number of student organizations.

Mrs. Ferguson also will address an open meeting at 4 p.m. today in Rec center on the topic, "Christian Peace Making."

Appearance of Mrs. Ferguson at K-State is being sponsored by local members of the Fellowship of Reconciliation, according to Bill Rogers, K-State YMCA president. Jern and William Rogers.

These facts were learned unofficially, two hours before a 6:30 p.m. (12:30 p.m. CST) formal announcement from No. 10 Downing street makes it official that Churchill has quit.

THE MAGNIFICENT old man, weighted by the 80 years of life that helped mold an empire and fashion the shape of Western civilization, drove alone on his last official trip to Buckingham palace.

For Churchill it was the winter of a lifetime of achievement seldom matched, and exceeded by few.

But time and age came together at 4:30 p.m. (12:30 a.m. CST) on this warm and tranquil day in spring to bring his stewardship to an end.

He quit quietly and with sadness at the end of a final 24 hours as prime minister that were filled with deep emotion and rich affection.

LAST NIGHT he played host to his sovereign at a farewell formal dinner party and received the rare tribute of a personal toast from the Queen.

This morning, he cancelled a scheduled appearance before his beloved House of Commons, and his ministers answered questions in his stead.

The great statesman, whose sonorous words and unflinching will had carried this nation to new heights of greatness, was afraid to trust his emotions in a farewell speech to parliament.

BUT HE CALLED in the men who made up his government for a 45-minute farewell session with his cabinet at the prime minister's official residence at No. 10 Downing street.

Then, with the last war he fought seeming now as far away as distant drums, Churchill drove through parks once pitted by gun emplacements and returned to Queen Elizabeth II the charge he had last accepted from her father, King George VI, three and a half years ago.

## 150 High Schools Have Been Visited By K-State Teams

High school visitation teams have made approximately 40 trips to 150 high schools this year, Prof. E. M. Gerritz, registrar, said. Twenty more trips will be made before the end of the spring term.

About 60 faculty members and many students have participated in the trips under the direction of the Admissions' office. In some cases the visits have been combined with the pre-enrollment testing and counseling.

"In every instance where students have participated, they have made a substantial contribution to the program," Gerritz said. Students participation has been co-ordinated by Blue Key and Mortar Board.

Rollin Vickery, VM Sr, made the arrangements for the men students to take part in the program. Becky Lowell, PEW Sr, and Betty Brammell, FdN Sr, arranged for the participation of women students.

"During the Easter vacation, college students can be especially helpful in visiting with prospective students in their home communities," Gerritz said. He urged students to encourage high school seniors to pre-enroll.

Today's World News

# No Immediate Threat In Far East—Stevens

Compiled from the Wires of United Press

By DICK CARR

Taipei—U.S. Army Secretary Robert E. Stevens left today for Washington apparently convinced there was no immediate threat of war in the Far East despite scary reports of a Matsui "invasion threat" in the Nationalist press.

The Nationalist Air Force announced bombers flying out of Formosa crippled two Red Chinese gunboats today near Meichow bay midway between Matsui and Quemoy. Military quarters said light artillery dueling was taking place in Quemoy.

The English language China News, quoting "well-informed sources," said a big fleet of Communist junks and gunboats were concentrating near the Matsui islands and that the air force and navy had rushed units to the area to "stem the possible invasion."

## Saigon Truce Imposed

Saigon, Indochina—The Viet Nam government imposed a dusk-to-dawn curfew on Saigon today and rushed troop reinforcements

to this capital to guard against a coup by rebel war lords.

Twenty-four hours remained before the armed truce between the government forces of U.S.-backed premier Ngo Dinh Diem and the rebel groups expired. But there was no sign that either side would give in.

Tran Van Huong, prefect of Saigon, decreed the curfew beginning tonight to keep the populace indoors in case fresh fighting erupts between government and rebel troops.

## Red Suicide in Vienna

Vienna—A Russian identified as a member of the Red diplomatic service in South America hanged himself in a Vienna hotel room rather than return to Moscow, Austrian police said today.

A second Russian who shared the same hotel room and who also had orders to return to Moscow found the body Sunday and disappeared immediately, police said.

The Russians ordered Austrian officials to join the hunt for him, they said.

There are over 7,000 miles of tunnels and drifts underlying the area of Butte, Montana.

# CU Frosh Cars Forbidden

By PHYLLIS OLSON  
Of the Collegian Staff

Freshmen have been forbidden to bring cars to the University of Colorado. The Regents' intention is to allow freshmen a period of adjustment to university life in which one of the chief distractions to study will be removed said one of the Colorado regents. Over one-third of the students withdrawing from school in the 1954 fall semester generally for academic reasons were freshmen owning cars, said the Colorado Daily. The fresh-

man class is the only one in which the number of students on academic probation having cars exceed the number of students on probation without cars.

Hypodermic needles and skeletons greeted guests at the Cadaver Ball held recently at Indiana University. The dance was sponsored by the Skelton Club, freshman medical organization according to the Indiana Daily Student.

The board of regents at the

University of Oklahoma has decided to limit freshmen enrollment to 2,500, a move which might mean that more than 1,000 students will be turned away at fall registration. The board of regents plan to have no qualifying examinations for entrance.

A student at the University of Colorado apparently sleep-walking, fell out of a second story fraternity house window recently. The student is recovering in a local hospital from scalp lacerations incurred in a fall from a Beta Theta Pi house window said the Colorado Daily.

A 33 acre tract with nearly 800 feet of shore line has been acquired by Indiana University for a recreational area for students, faculty and staff, according to the Indiana Daily Student. The land will be developed so it can be used for a picnic area and water sports.

Senior women at the University of Colorado will be free to stay out as late as they wish next year if a proposal by the Dean of Women goes into effect according to the Colorado Daily. Under the proposed system, senior women will have individual keys to their university residence.

## Readers Say

# 'Mud-Slinging' Not Defined; Competition Good for Politics

(Opinions expressed in letters are those of the writers and do not necessarily reflect the policy of the Collegian. The Editor reserves the right to edit the letters to conform to public law and to the standards of decency and good taste upheld by most newspapers, and to fit space limitations. No letter may exceed 250 words. Unsigned letters will not be published.)

### To the Editor:

The first thing I want to say, which recent contributions to this column have not, is that I am a member of a political party and I am proud of it.

Recent letters to the editor have complained of "mud-slinging" in campus politics. The first question I want to ask them is, "What is their definition of 'mud-slinging'?" They have been very vague about the meaning of the terms they have used. Another thing which I have noticed is that all of the complaining has come from one side of the political fence. Are they insinuating they are innocent of these "malpractices?" My first impression was, "What's the matter, has your campaign strategy backfired?"

These writers have talked about losing friends because politics has not been on a high enough level. Were these so called "friends" they say they are losing really true friends? Kansas State student government should come before friendships if friends and government are incompatible. In the past friends have come first just as they are now advocating. This is one reason why a new political party was formed this year.

If you are playing football against a friend do you hesitate to tackle him hard, as long as it's clean? It is the same way with campus politics. If an opponent

makes a mistake or advocates something which you do not believe, he should be challenged. If a campaigner doesn't tell the truth the voters should be informed.

The voters should be informed of "me too" platforms because it shows which party lacks initiative. Do we want a party in power which can't bring up original ideas, but instead says "me too" when someone else initiates a new idea? The political parties should not be afraid to lock horns with one another and fight until one is declared the winner by the voters. We need keen competition in campus politics if we are going to have strong student government.

This is what has been going on in the political arena. Is this what they mean by "mud-slinging?" If it is, we need more "mud-slinging" in campus politics.

# Prof Has Interesting Fun Raising Snakes

By JEANNE ARNOLD

Dr. D. F. Munro, associate professor of modern languages, is back on the campus full time this week after being struck on his right hand by his pet copperhead. Doctor Munro taught his classes last week after missing five days because of the bite but didn't stick to his usual schedule of office hours.

"Inexcusable carelessness on my part was the cause of the accident," he said. "Snakes, like the average person, becomes rather excited when hungry and sometimes strikes blindly, as my copperhead did, when being fed."

DOCTOR MUNRO grew up in Nova Scotia, a region free of poisonous snakes, and therefore developed no fear of them. He said that people are often afraid of animals which differ greatly from the ordinary and consider them dangerous.

The interest Doctor Munro had in snakes grew during World War II, and in 1945 he began his study in earnest. Lulubelle, a garter snake, shared army life with him from the sleeve of his uniform where she watched the world go by. The left sleeve was hers, of course, to avoid being jostled when Doctor Munro saluted.

Through the close observation of Lulubelle, who died four years ago, and the seven snakes Doctor Munro now has in his collection, he has discovered many facts about their behavior. His collection consists of the copperhead, which is nearly 10 years old and has grown up in captivity, five hog-nosed snakes, and a boa constrictor.

AFTER CONSIDERABLE study of the copperhead, he discovered a unique characteristic of the pit viper's eye, no other scientist had ever recorded. The pupil takes the form of a vertical slit, like

the eye of a cat, but instead of turning with the tilt of the snake's head the slit stays vertical.

"However, the snake's head moves and the slit remains in this position as if the pupil were under the control of an internal gyroscope," Munro said. The only exception is when the snake is on the verge of dozing off and its head drops, then the pupil may tilt forward.

DOCTOR MUNRO has written many articles for "Herpetologica," the official organ of the Herpetologists (snake scientists) league, and has contributed to "Scientific American."

He believes that snakes make very interesting pets which require little trouble as they need to be fed only once a week or less often. They can be left for several weeks as long as they have water. He said that they should be treated gently so that they will lose their wild behavior and will not be frightened. Poisonous snakes should be handled with great care and kept in a cage from which they can not escape, he said. "They are as dangerous as a stick of dynamite!"

Doctor Munro cautions that copperheads are numerous in the spring on the sunny limestone hills around Manhattan and that people should be careful but should not be fearful. When people come along, snakes try to get out of the way and will not strike unless frightened. People should watch their step when they're out on hikes to avoid stepping on a snake.

## Frat Changes Date For Chariot Relays

The K-State Chariot Relays scheduled April 30th, has been changed to April 23rd, according to Don Laverentz of Lambda Chi Alpha fraternity, sponsor of the event. The change has been made in cooperation with the Manhattan Centennial Program Committee, Laverentz explained. The race will begin at 1:30 p.m. at Memorial Stadium on the college track.

More than fifty Manhattan merchants have contributed merchandise prizes and certificates totaling approximately \$300, according to Laverentz. These prizes, and two traveling trophies awarded by the fraternity, will be presented to the winners.

Eighteen organizations have entered the contest. They are Aca-cia, Alpha Tau Omega, Beta Sigma Psi, Beta Theta Pi, Delta Sigma Phi, Delta Tau Delta, Kappa Sigma, Phi Delta Theta, Phi Kappa, Phi Kappa Tau, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, Sigma Phi Epsilon, Tau Kappa Epsilon, 1834 Club (Delta Upsilon colony), Kasbah, and House of Williams.

## Ten to St. Joseph For Livestock Meet

Ten K-State students will attend the second annual College Live Animal Evolution - Meat Grinding and Judging meet in St. Joseph, Mo., Wednesday and Thursday. Ralph P. Soule Jr., assistant professor of animal husbandry, said today.

Soule said F. H. Menkhini, PrV Soph, J. L. Draney, AA Soph, J. E. Roesler, AA Soph, R. E. Roesler, AA Soph, G. L. Shackleton, Ag Soph, W. W. Martin, Ag Soph, M. A. Shoemaker, AEd Soph, M. F. Ely, AH Jr, R. L. Rankin, AH Jr, and R. A. Zimmerman, Ag Soph, will take the trip with him.

The team will grade live hogs and live cattle, and after the animals are slaughtered and dressed, they will again grade them.

Some tree crops are harvested about every 100 years.

## Flying Club Names Constitution Group

A committee was appointed to draw up a constitution and have the club incorporated at the first Flying club meeting at the Military Science building last night.

The club decided that it would have to incorporate to carry out its proposed plans. The club plans to incorporate in time to be able to fly this spring.

Members appointed to draw up the constitution are Larry Burdge, Earl Swingle, Leon Pettinger, Jerry Hampton, Garry Mahoney, Dave Larson, Robert Nelson, LeRoy Stayton, and James Knoblauch.

## Ag Council Meet In Reading Room

The Agricultural Council will meet today at 4 p.m. in the ag reading room, Dick Pickett, council president, has announced.

The number of candidates for Student Council from the School of Agriculture will be reduced to the required number at the meeting.

## Gridders To Rest As Vacation Starts

By MYRON SEIRER

K-State football players will have a chance to rest the bumps and bruises suffered in spring practice after today, as Easter vacation breaks into the practice routine.

Following the vacation, only five practices remain before the alumni-varsity game April 16—the last action for the varsity until practice resumes in September.

**INJURIES** have riddled the Wildcat ranks, with 10 players now reported to be nursing injuries.

Quarterback Jim Logsdon spent the past week end in Kansas City, where a pin was inserted in his shoulder, coach Bus Mertes said. Logsdon will be absent for the remainder of spring practice.

Ron Haney, a center prospect, has a torn cartilage in a knee and

may undergo surgery to have the cartilage removed, Mertes said.

Other Wildcat injuries are: Guard Bob Hilliard, suffering from a fractured disc in his back; George DeBitetto, sidelined for the remainder of spring practice with a torn chest cartilage.

Halfback Tony Addeo, out for the remainder of spring practice with a torn leg muscle; center Dick Swengel, a knee injury; back Leroy Ciboski, a head injury.

**END DICK SCROGIN**, a shoulder separation; tackle Bernard McNeil, a chest injury; center Pat Spagnoletti, a shoulder injury.

Three ends also have been sidelined by injuries suffered outside of spring practice. Joe Moody is recovering from a broken arm; Wilbur Stocks has a head injury and has been barred from further play; and L. D. Fitzgerald is recuperating from an appendectomy.

## Mullins Advocates Summer Baseball At Kansas State

Summer competition in college baseball, to start around June 1 and last until August, was proposed today by Laurence (Moon) Mullins, K-State director of athletics.

Under Mullins' proposal, sectional and national tournaments would be played. May would be used as a spring training period.

Because of a larger summer enrollment, colleges are ready for a recognized summer sport, Mullins said. Population growth and many returning veterans are responsible for the increase in summer school attendance, he said.

"**SATURDAY** afternoon games and night games during the week would provide top entertainment during the summer months," Mullins said.

He believes the caliber of play would increase to the point where people would drive in to watch baseball as they now do to watch football and basketball.

"Increased interest and gate receipts would justify more baseball scholarships," Mullins said. "Each major collegiate team could have from 10 to 20 boys on full room-board-tuition scholarships."

**COLLEGE** baseball, if played in the summer, would receive more publicity than ever before, he said. Football and basketball spring practice, plus track, tennis, and golf, would not be around to divide interest, he pointed out.

"The overall effect of summer college baseball would be good for everyone—the boy, the school, the fan, and professional baseball," Mullins said.

What would major league clubs think of this program?

"I talked to Bill Veeck of the Milwaukee Braves and Charley Comiskey of the Chicago White Sox and they're all for it," Mullins said.

**POSSIBLY** a minor league system could come from college ball, he said. The majors realize this and would be 100 per cent behind the move, he added.

Four games a week could be played during the summer, allowing 32 to 36 games, Mullins said. This would give athletes competing in other sports a chance to play baseball also, he added.

"Summer collegiate baseball would have a far-reaching effect on all baseball, from the sandlots right up to the major leagues," he said.

## Cat Baseballers Lose, 3-9, to Air Station Team

The K-State baseball team lost its first game of the 1955 season last night, dropping a 9-3 contest to Memphis (Tenn.) Naval Air station.

The Air Station crew pushed across 5 runs in the seventh inning to sew up their victory. Jim Rhoades was losing pitcher for K-State. Bob Boyd led the Wildcat hitters with 2 hits in 4 trips to the plate, one a triple.

The loss leaves K-State with a 2-1 season's record. The Wildcats won a doubleheader from Wichita at Griffith stadium last Thursday.

The Cats will be shooting for their third win of the years as they play again with the Air Station team tonight. They move on to Oxford, Miss., tomorrow for a game with Mississippi university.

This southern trip will end K-State baseball competition until after Easter vacation. Nebraska

will come to Manhattan Friday and Saturday, April 15 and 16, for a pair of games in K-State's Big Seven debut.

In another Big Seven game yesterday, Kansas university lost to Arkansas, 3-9, as the Jayhawks committed eight errors.

## Hartshorn Is Breaking In At Third Baseball Position

By DON BOYD

Ability to play several positions has paid off for Larry Hartshorn and for the K-State baseball team.

For Hartshorn, it has meant switching positions three times in the past year. For the team, it has meant having a man who could play several positions equally well.

Right now, it looks as if the 220-pound tackle on last season's football squad has found a home behind home plate.

**THE NEW** Wildcat catcher is in the process of earning his third baseball letter at K-State.

He was one of the team's leading hitters last season with an even .300. He got off to a good start this year by blasting a home run in the season's opener with Wichita last Thursday.

Hartshorn started out as left fielder last season, then was switched to first base. This year, he is helping take over the catching position left vacant when Dick Myers signed a professional contract.

**IN THURSDAY'S** doubleheader, he caught during the first game, and played first base during the second.

Hartshorn came to K-State from El Dorado, where he lettered in football, basketball, and baseball. After being graduated, he decided he liked the football picture here and came to K-State on a football scholarship.

"At the time, K-State was rebuilding its football program. I thought I'd have a better chance to make the squad here," he said.

Hartshorn said he likes football and baseball equally well. Asked how he felt about being switched around on the baseball team, he said it doesn't matter, "as long as I get to play."

Hartshorn predicted that K-State will finish higher in the Big Seven this year than last. He said Missouri, last season's NCAA champ, is the team to beat in the league.

**LARRY HAS** confidence in this year's pitching staff, and singled out pitcher Jim Rhoades for credit in the second Wildcat victory over Wichita last week.

Hartshorn has played semipro and American Legion ball during the summers. He said his greatest thrill came last summer when he hit two home runs while playing for the El Dorado Rockets in the state semipro tournament at Wichita.

### Bufs Defeat UCLA In Golf Meet, 38-16

Los Angeles, April 5 (U.P.)—The University of Colorado defeated UCLA, 38 to 16, in a golf match here at Brentwood Country club yesterday.

The leaders were George Hoos, Colorado, and Mike Starkman, UCLA, who turned in 77's.

## Cat Netmen Open With 5-2 Victory

K-State's tennis team opened the 1955 season with a 5-2 victory over Mankato State Teachers college of Minnesota yesterday in a meet played on the K-State courts.

Four singles victories against one loss were registered by the Wildcats. In the double events, each team registered a victory.

Bob Hansen and John Teas were top men for K-State as they were victors in singles events, then teamed to win one doubles event, 6-4, 6-3.

TEAS WAS downed by Nate Hovland of Mankato, 6-3, in the first set of his singles event, but rallied to take the measure of Hovland 6-3, 6-0. The 6-0 victory for Teas was the only shutout registered by either team.

Hansen defeated Ron Trondson of Mankato, 6-2, 6-2.

Henry Dison of Mankato was the lone singles victor for the visitors as he defeated Dick Circle, 6-1, 7-5. Trondson and Dison defeated Circle and John Dean for Mankato's doubles win.

Next outing for the K-State netmen will be against Washburn at Topeka on April 15.

### COMPLETE results:

Bob Hansen (KS) defeated Ron Trondson (M), 6-2, 6-2.

Henry Dison (M) defeated Dick Circle (KS), 6-1, 7-5.

John Deam (KS) defeated Lowell Case (M), 6-1, 6-4.

John Teas (KS) defeated Nate Hovland (M), 3-6, 6-3, 6-0.

Don Wainscott (KS) defeated Tom Harrison (M), 6-4, 6-2.

Trondson and Dison (M) defeated Circle and Deam (KS), 6-2, 1-6, 11-9.

Hansen and Teas (KS) defeated Case and Hovland (M), 6-4, 6-3.

**DOUBLES WINNERS**—Bob Hansen (top) and John Teas teamed to win a doubles match from Mankato (Minn.) Teachers, 6-4, 6-3, yesterday as the K-State netmen opened the 1955 season under new coach Karl Finney. Hansen and Teas also won their singles matches.

## K-State Golfers Lose To Oklahoma A&M

K-State's golfing team was defeated yesterday by Oklahoma A&M in its first match of the season, 16-2.

From the field of eight golfers, only Buddy Sprague of A&M was able to equal par for the course. He registered a 70 in defeating Dave Pfeutze of K-State. The Wildcats did not win a match.

### Meet results:

Bob Goetz (A&M) defeated Kent Poore (KS), 2-1.

Don Nichols (A&M) defeated Hayes Walker (KS), 3-0.

Goetz and Nichols (A&M) defeated Poore and Walker (KS), 2 1/2 - 1/2.

Earl Moeller (A&M) defeated Jim Weatherford (KS), 2 1/2 - 1/2.

Buddy Sprague (A&M) defeated Dave Pfeutze (KS), 3-0.

Moeller and Sprague (A&M) defeated Weatherford and Pfeutze (KS), 3-0.

## Red Sox Hope Rookie Will Fill Williams' Role

By UNITED PRESS

Rookie Norm Zauchin, who played sandlot ball in the shadows of Detroit's Briggs stadium, shaped up today as a "sleeper" who could help make the Boston Red Sox forget the loss of Ted Williams' big bat.

Zauchin, a 6-4 1/2 right-handed hitter who tips the scales at 225 pounds, caught manager Mike Higgins' eye early in spring training and now is considered almost certain to oust Harry (Golden Greek) Agganis as the Red Sox' regular first baseman.

Higgins said a few days ago that he might not make up his mind until "a day or two before opening day." Since then Zauchin has been the team's best hitter.

**THE BIG FELLOW** sparked the Red Sox for the second-straight game yesterday when he smashed two singles and a double in leading them to a 9-7 victory over the Philadelphia Phillies.

The day before, he hit a two-run homer, drove in a run, and scored another as the Red Sox beat Robin Roberts and the Phillies, 4-2.

The Washington Senators took a 7-1 lead in their spring series with Cincinnati yesterday when they overcame a 5-run deficit to score an 8-5 victory.

Ed Mathews, who hadn't hit a home run all spring, hit three at Nashville, Tenn., in a losing cause as the Brooklyn Dodgers defeated the Milwaukee Braves, 10-8.

**WALLY WESTLAKE'S** three-run homer off Marv Grissom in the first inning sparked Cleveland to a 9-5 victory over the New York Giants and gave the Indians an 8-7 lead in their "world series on tour" spring series.

The amazing Pittsburgh Pirates scored their sixth win in 8 games and made their spring record 13-3 against American League opposition with a 9-8 decision over the Baltimore Orioles.

In other games, Mickey Mantle and Andy Carey starred at bat as the New York Yankees outslugged Chattanooga, 11-8; Bob Rush's brilliant seven-inning mound performance paced the Chicago Cubs to a 2-1 win over Beaumont; outfielder Gus Zernial hit his fifth home in 4 games as the Kansas City A's downed the Columbia Redlegs, 7-1; and the Chicago White Sox beat the St. Louis Cardinals, 4-2.

## Grid Stars To Return For Varsity-Alumni Tilt

The revival of an annual finishing engineering degrees here.

Members of last fall's squad who will bolster the alumni team are halfbacks Kenny Long, Bob Dahnke, and Clarence Parker; ends Ed Linta, Clare Simpson, and Tom Ebert; guard Cletis Wilson; and tackle Ken Ellis. All are K-State students.

**HEADING** the list of alumni greats will be Joe Switzer and Corky Taylor, who were labeled as the "greatest one-two punch in football" in 1953.

Taylor and guard Ron Marciniak, K-State co-captain last fall, will coach the team of grads. They report that 25 other ex-Wildcats, dating as far back as 1923, are on the squad.

**ART STARK**, an all-Missouri Valley halfback now in business at Fremont, Neb., is the 1923 grad returning to play.

Other squad members, who make up what Marciniak calls "an honor roll of the best in K-State football," include:

Dougal Russell, 1933 halfback and veteran of 6 years in the pro ranks; Emmett Breen, 1933 halfback; Chet Peters, 1942 end now director of the K-State placement bureau.

**RAY ROMERO**, 1949 guard now playing with the Philadelphia Eagles; Jack Sharp, 1947 end; and Sammy Muscolino, 1949 guard; Frankie Hooper, 1950 quarterback; Jim Linninger, 1951 end; Francis Starnes, 1951 end; Hi Faubion, 1951 halfback now a vet medicine student here.

Kenny Barr, 1952 end; Dick Towers, 1952 halfback; Ed Pence, 1953 end; Tom O'Boyle, 1953 guard; Ken Gowdy, 1953 center, and Ron Clair, 1953 tackle, now

## Washburn Given Phys Ed Award

Prof. Louis P. Washburn of the physical education department received an honor award in physical education at a convention of the central district of the American Association of Health, Physical Education and Recreation on March 30.

The central district is composed of nine states from this area, Prof. Thomas M. Evans, chairman of the physical education department, said.

**RED DIAMOND?**

By Bob Smith

The chances are you haven't. But there are diamonds of that unusual color and—strange as it may seem—there are even green diamonds and some of a cinnamon-pink shade. If you have ever studied much of the history and pageantry of Russia, you know that set on top of the Imperial Russian sceptre there is a fabulous yellow diamond that was the envy of countless kings and queens.

Another question: Do you know how the diamond got its name? It's interesting. Its name comes from the word, adamant, which means unconquerable. And that's precisely what the diamond is in the field of precious stones. Its substance is the hardest ever known to man—and only another diamond, set in a special tool, can cut it. The diamond can be split, but it can never be scratched or destroyed.

Brides since time immemorial have wished for a lovely diamond ring to accompany the traditional wedding band. The diamond is April's birthstone, yet anyone born in any month is thrilled to get and wear one. For years we have featured perfect, blue white diamonds of all sizes—to fit all wishes and pocketbooks. I think you will frankly say you've never seen a finer display of diamonds than ours.

Visit us today. And remember our convenient budget terms and our sincere desire to serve you. **ROBERT C. SMITH JEWELRY**, 329 Poyntz Ave., Phone 82595.

# Sororities Take Weekend to Initiate

## Initiations

Initiation was held at the Alpha Delta Pi house last Sunday. Girls initiated were Norma Beck, Marilyn Buick, Suzanne Cliborn, Nancy Elliot, Barbara Ericson, Jeanette Filbert, Margaret Hill, Mavis Hurn, Sue Kenison, Laura Langford, Marion McKelvy, Jackie Newell, Ruth Regnier, Gloria Schadler, Verlene Sobke, Nancy Winger, and Jeannie Williamson.

Those initiated into Alpha Chi Omega April 2 and 3 were: Marilyn Brooks, Jean Bartley, Jane Mills, Carol Gillen, Sandra Kail, Bobby Ann Rhynalds, Marilyn Anderson, Marjorie Janasek, Susie Tucker, Joyce Rawlins, Carolyn Willis, Barbara Hunter, Dorothy Barbour, Dorothy Lodholz, Virginia Devinish, Charlene Wess, Janet Thompson, Beth Waters, and Marlene Bathuly.

Fourteen were initiated at the Kappa Delta sorority Sunday, April 3. They were Joyce Bott, Judy Cain, Leone Cowen, Martha Evans, Norma Eversole, Ann Grot-husen, Rosella Hiebert, Pat Johnson, Bernadine Macek, Joyce Rust, Joan Skupa, Rae Weidenback, Jackie Wade, and Barbara Winter. Mrs. Margaret Zeller Garrett, Burlington, was initiated as an honorary member. National representative was Miss Minnie Mae Prescott, central office manager, Springfield, Mo.

Alpha Xi Delta held formal initiation Sunday, April 3, for Martha DeGraff, Joyce Broderick, Sheila Dicken, Carol Ward, Phyllis Burdorf, Loralle Ballou, Patsy Humble, Prudy McCracken, Donna Voth, Pat Decker, Ardie Coup, Phyllis Evans, Gerrie Gray, Mary Reed, Janet McNutt, Nancy Blackburn, Dorinda Mears, Melba Tetrick, Joyce Lester, Jean Cox, Carole Marler, and Shirley Ekberg.

In a formal ceremony at the Pi Beta Phi house 23 new members were initiated. The initiates are: Kay Aye, Mary Lee Duriland, Kay Koon, Pat Lutz, Betty Bentz, Barbara Marshall, Carole Browne, Eugenia Jern, Jean Cooper, Sandra Tate, Marjorie Cornwell, Janice Graham, Joyce Graham, Connie Taylor, Margy Slaughter, Judy Crawford, Kay Hinkhouse, Anne Manion, Royanne McMullen, Ann Nicolay, Karen Peterson, Karen Smith, Sarah Jolley.

Manhattan Pi Beta Phi alumnae entertained the initiates at a luncheon Saturday at the Wareham hotel.

Delta Delta Delta sorority held formal initiation April 2 and 3. Initiates were Marilyn Adams, Jane Bras, Kay Broman, Ruth Chaffee, Kay Chappel, Patti Christenson, Bunny Cowan, Judy Zerner, Joyce Zimmerman, Jane Dickhut, Nancy Forrester, Betty Hassebrook, Marsha Hesler, Dorothy Hewitt, Janis Jensen, Janet Kugler, Sara McIntire, Rachael Pickett, Nancy Porter, Kathryn Regier, Judy Ross, Kay Steidle, Maurine Schrag, Wanda Staleup, Sue Wyant, and Marlene Young.

Kappa Kappa Gamma held formal initiation the week-end of April 2 for the following: Avis Tromble, Norma Amis, Mary Beckmeyer, Judy Deewall, Shirley Sarvis, Barbara Siemers, Darlene Beman, Kay Berg, Mary Lu Compton, Lois Cowan, Pat Craven,

Becky Culpepper, Natalie Harwood, Nancy Howard, Jan Lowderman, Laura Lyon, Carolyn McGowan, Nancy McQueen, Beth Nicholson, Leann Riggs, Mary Rogers, Mary Ann Rogler, Sandra Smerchek, Marilyn St. John, Jereldene Stockman, Marian Teare, Dixie Warnick, Marianne Wilkinson, and Shirley Younkin.

Jaun Vicens and Ronald Flynn were initiated into the Phi Kappa fraternity March 25.

The Phi Kappa Taus held formal initiation for Mark Hooper, Charles Baker, Harry Muller, and Charles Baker Saturday night, March 26. C. O. Baker of Russell was a guest for the initiation.

Formal initiation was held at the Sigma Alpha Epsilon fraternity house March 27 for Steve

Bressler, Gilbert Molzen, Chad Sims, Darrell Ford, Darrell Bennett, Don Unruh, Dave Dicken, Gene Taylor, Dave Lamar, Jim McCormick, Frank McCormick, Tony Wilcox, Terry Murphy, Jerry Harris, Jim Stockham, Jim Murray, Joe Downey, Dick Long, Gerry Smith, and Mike Stout.

Allen Olsen and Lee Fager were formally initiated into Alpha Tau Omega fraternity March 27.

The new initiates of Sigma Phi Epsilon were honored at an initiation banquet at KDR Sunday night, April 3. Terry Turner was the honor initiate with a three point grade average and was named outstanding pledge of Sigma Phi Epsilon for the year. Other initiates, who were formally initiated April 3, include Dick Scrogin, Fred Cousins, Bob Crawford, Ed

Riley, Bob Schober, Jerry Warner, Daryl Becker, John Hindman, Burdell Nolte, Bill Swinson, John Fink, and Tom Frisbie.

## Convention

Don Hamilton and Glen Taplin are delegates to the national Theta Xi convention to be held in August. The convention, which is held every two years, is to be in Los Angeles, Calif.

## LUCKY DROODLES! ALL BRAND NEW!

WHAT'S THIS? For solution see paragraph below.

ARE YOU METICULOUS about your choice of cigarettes? Do you want exactly the right taste? Then take a hint from the Droodle above, titled: Ash tray belonging to very tidy Lucky smoker. Luckies taste neat—and for excellent reasons. First of all, Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better.

"It's Toasted" is the famous Lucky Strike process that tones up Luckies' light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. So enjoy yourself thoroughly whenever it's light-up time. Light up the better-tasting cigarette... Lucky Strike.

The Pink Rose, Alpha Gamma Rho's annual dinner dance was held March 26 at the Wareham Terrace room. In the receiving line were Dave McKnight, Rosemary Daig, Mrs. Charles Kipfer, Dean Helen Moore, and Mr. and Mrs. John Sjo. Bill Heptig and his band played for the dance.

The Phi Kappa Taus held their annual "Red Carnation" formal in the terrace room of the Wareham hotel March 25. Virginia Haun was crowned the "Sweetheart of Phi Kappa Tau."

Alumni who attended were: Mr. and Mrs. Bruce Collins, Mr. and Mrs. Richard Schuetz, Vance Carson, Lt. and Mrs. Robert Baker, and Mr. and Mrs. Robert Ricketson.

Rachel Pickett was crowned Delta Sweetheart at the annual Delta Tau Delta formal held at the chapter house. Dinner at the Wareham hotel preceded the dance. In the receiving line were Stuart Hazard, a Carolyn Godfrey, Mrs. Fred Coulson, Mr. and Mrs. Ward R. Keelfer, and Dr. and Mrs. R. Morse.

Nancy Hassebrook was crowned Dixie ball queen Saturday, April 2, at the Pi Kappa Alpha Dixie ball. John Saylor, president, crowned the queen and presented her a dozen roses. The pledge class presented her an engraved trophy and the active members presented her a Pi Kappa Alpha sweetheart pin.

A colonial theme was carried out at the dance held in Pottorf hall. This signified the founding of the Pi Kappa Alpha fraternity at the University of Virginia. Bill Heptig and his band provided the music. A banquet at the Skyline club preceded the dance.

Those in the receiving line were John Saylor, president; Carolyn Jones; Mrs. William Bensing, housemother; Mr. and Mrs. Hal McLaughlin and Mr. and Mrs. Don Thomas.

## Parents' Day

Parents day at the Clovia house was April 3. Guests were Mr. and Mrs. A. K. Banman, Centralia; Mr. and Mrs. Raymond Tilletson and Peggy, Shields; Mr. and Mrs. M. L. Russell and Linda, Garden City; Mrs. Helen Worden, Carol, Mary, and Betty Houghland, all of Olathe; Mr. and Mrs. Dewey Schultz, Pawnee Rock; Mr. and Mrs. Ray Rusk, Wellington; Mr. and Mrs. John Todd and Douglas, Rexford; Mr. and Mrs. Lloyd Sims, Oakley; Mr. and Mrs. C. Balthrop, John and Bill, Wichita, and Mr. and Mrs. Fred Bartz, Kansas City.

## Engagements

### Hannaford-Exline

The engagement of Mary Hannaford and Bob Exline was announced March 27, with chocolates at the Pi Beta Phi house and cigars at the Sigma Phi Epsilon house. Mary is an elementary education junior from Marion. Bob is an industrial arts junior from Salina.

### Chapman-Kemper

Chocolates were passed at Northwest hall Thursday, March 24, announcing the engagement of Lois Chapman to Lester Kemper, both from Hoxie. Lois is a freshman in home economics teaching.

### Bartel-Schroeder

Chocolates at Northwest hall Thursday, March 24, announced the engagement of Luetta Bartel to Frederic Schroeder. Luetta is a senior, majoring in dietetics and institutional management from Hillsboro and Bud will graduate this spring from the University of Chicago Medical school. June 18 is the wedding date.

### Freeburg-Lindsey

Chocolates were passed at the Graduate Women's house Thurs-

day night, March 24, to announce the engagement of Mary Jane Freeburg, clothing major, of McPherson, to John Lindsey. A fieldman for the Wisconsin Guernsey Breeders' association, he received his masters' degree in dairy husbandry in January. A June wedding is planned.

### Sell-Butts

The engagement of Hazel Sell to Harley Butts has been announced. Hazel is a junior in home economics teaching from Melvern and Harley is a sophomore in pre-vet from Topeka.

### Ronquillo-Sand

Announcement of the engagement of Dolores Ronquillo and Robert Sand was made at the Alpha Gamma Rho Pink Rose formal March 26. Dolores passed chocolates at Van Zile March 27. Dolores is a special student in Animal Husbandry from Tucson, Ariz., and Robert is a freshman in Veterinary Medicine from Nehawka, Neb.

## Roses

### Dietrich-Weese

The wedding date of Betty Dietrich to John Weese was an-

nounced with roses at the Alpha Xi Delta house Sunday, April 3. Betty is a senior in home economics from Manhattan, and John is a senior in mechanical engineering also from Manhattan. The wedding will be June 5 in the First Congregational church in Manhattan.

### Williams-Klotz

Roses at the Chi Omega house March 30 announced April 9 as the wedding date of Gail Williams and Tom Klotz. Gail is a sophomore in home economics from Kansas City. The wedding will be in Kansas City.

## Pinnings

### Ecord-Barrett

The pinning of Mickey Ecord to Jack Barrett was announced with chocolates at Pi Beta Phi and cigars at Sigma Phi Epsilon. Mickey is a junior in physical education from Topeka, and Jack also from Topeka, is a junior in business administration.

DEE FOLLIS and George Atkeson, grand champion showmen of the Block and Bridle division and Dairy division of the Little American Royal Saturday, appeared on WIBW-TV, at 12 noon today.

DR. DONALD P. Hoyt, counseling staff member, is the author of a story in the spring issue of the Journal of Applied Psychology. The story is titled "An Evaluation of Group and Individual Programs in Vocational Guidance."

BLOCK AND BRIDLE Club members will elect officers for the 1955-56 school year and formally initiate new members into the club today at 7:30 p.m. in Waters 137, Calvin Drake, president, said.

DON WILBUR of the department of entomology at K-State left today for Baltimore, Md., and

Washington, D.C., where he will confer with representative of the Fairfield chemical division of the Food and Machinery corporation concerning renewal of a grant for research on pyrenone protectants.

THE DAMES CLUB will nominate officers to be elected for the fall semester today at 8 p.m. in Anderson hall, Marilyn Webb, president, said. The election will be at the following monthly meeting.

Speaker for Tuesday's meeting will be Gurdasmal Shivnani, a student from India. He will talk about his country.

"THE ORPHAN," a recent sculpture in blue marble by J. Cranston Heintzelman of the department of architecture and allied arts, has been accepted by the Jury of Selection for the 25th annual exhibition at the Springfield, Mo., art museum.

The exhibition will be on display from March 28 to April 18.

# Pinnings

(Continued from page 7)

## Turner-Allen

Chocolates at the Kappa Delta sorority and cigars at the Tau Kappa Epsilon fraternity announced the pinning of Betty Turner and Dale Allen, Friday, April 1. Betty is a senior in home economics from Valley Center. Dale is from Wichita and a junior in architectural engineering.

## Robinson-Tregallas

Cigars, passed at the Delta Sigma Phi house Tuesday night, March 22, announced the pinning of Loren Tregallas, electrical engineering junior from Topeka, and Ann Robinson of Topeka.

## Hales-Schafer

Cigars at the Sigma Phi Epsilon house March 23, announced the pinning of Dick Schafer to Shirley Hales of Topeka. Dick is a feed technology junior from Vermillion.

## Rush

Acacia had a rush week end March 25 to 27.

## Officers

Bill Beazer was recently elected rush chairman of the Phi Kappa Taus.

New officers at the Pi Kappa Alpha house are John Saylor, president; Harold Andler, vice president; Jim Langford, treasurer; Jerry Metz, secretary; Roger Bruton, alumni chairman; Dick Boyd, pledge master.

## Pledge Sneaks

Acacia pledges took a sneak to Wichita, April 1 to 3.

The Theta Xi pledges took a sneak to Wichita April 1.

## Pledging

Dick Circle is a new pledge of Sigma Phi Epsilon.

Leanne Boline of Admire was

formally pledged March 31 at the Clovia house.

Harold Grubb is a new pledge of Sigma Phi Epsilon.

Twila Irvine has recently pledged Alpha Xi Delta.

In 1874, Mennonite immigrants from Russia arrived in central Kansas with the first hard winter wheat seed which eventually was to make Kansas the Wheat State.

Kansas State College, Manhattan, Kansas, Wednesday, April 13, 1955

NUMBER 120

## Treacher Next In Artist Series

Arthur Treacher, always stereotyped as an English butler in movies and on the stage, will present a series of readings from humorous literature in an appearance in the College auditorium tomorrow night at 8:15.

Treacher's program, called "A Little of This, Something of That, Mostly Humor," is being sponsored by the K-State Fine Arts committee.

"I'm going to prove that I can do something besides play the suave gentleman's gentleman," Treacher said in announcing his current series of lectures. "No more butlers."

Treacher was not always cast as the butler. On Broadway he played opposite Ethel Barrymore in "School for Scandal," and also appeared in "The Cat and the Fiddle."

His first butler role was in "Panama Hattie" on Broadway, with Ethel Merman in the lead, and he soon found it difficult to live down his reputation as a butler. "National Velvet," "David Copperfield," and "Forsaking All Others," were among his screen triumphs after he returned to Hollywood.

Treacher also appeared with Deanna Durbin and Shirley Temple in a number of films, playing Jeeves, the famous literary butler.

Besides films and plays, Treacher has appeared in television and radio, and once had a New York disc jockey show. Tickets for the Treacher program are now on sale at the College auditorium box office and at Betton's Music store.

## K-State Senior On Mag Cover

The cover man on the current issue of the K-Stater, quarterly alumni publication of the College, is Nilwon Kraushaar III, who is pictured helping his sixth grade students at Woodrow Wilson school.

Kraushaar, an elementary education senior from Westmoreland, is one of the 13 men among the 319 students at K-State planning to be elementary school teachers. He will graduate in August, and in September will begin his teaching career in the Topeka public schools.

The day before the K-Stater came off the press, Kraushaar became the father of identical twin boys.

## Sophomore Wins 4-H Scholarship

Nancy Johnson, HEN Soph, is winner of a Who's Who scholarship, the state 4-H department announced today.

Five \$200 scholarships are awarded annually as part of the state Who's Who Key Award program. The scholarships are awarded on the basis of the complete record of club work and accomplishments. The selections are made from records submitted each September to the state club department by the county awards committees.

## Ag Society Elects 66 As Members

Gamma Sigma Delta, honorary agriculture society, has elected 66 new members, Donald A. Wilbur, president, has announced. The new members will be initiated in a ceremony April 19 at the annual Gamma Sigma Delta spring banquet.

Faculty members elected are William J. Carpenter, horticulture; Norman M. Dennis, USDA entomologist; Lawrence E. Evans, anatomy; Walter D. Fisher, economics and sociology; Herbert C. Knutson, entomology; G. W. Leonard, chemistry; C. C. Roan, entomology; William D. Rutz, dairy husbandry; Gwendolyn Tinklin, foods and nutrition; and Dennis D. Goetsch, physiology.

Graduate students and graduate assistants elected: Richard W. Beardmore, botany; Roy E. Beauchene, Ellsworth E. Beetch, Lewis A. Gugliemelli, Ralph E. Pyke, and Benjamin A. Simmons, chemistry; Jean J. Cartier, Brig Kumar Srivastava, Edmon J. Kantack, Gregory E. Mulkern, Don C. Peters, Salah E. Rashad, and Satoru Togashi, entomology; William E. Cathcart, Melvin L. Cotner, and John R. Parks, economics and sociology; Carlton H. Herbel and Gene E. Scott, agronomy; Leslie L. Ortman, poultry husbandry.

Seniors from the School of Agriculture: Richard A. Pickett, Eldon E. Johnson; Damon E. Syster, Martin Mugler, Delbert L. Larson, Dale Foosehee, David L. Lindell, Duane M. Stoskopf, Walter E. Schoen, Harold J. Burre, Paul F. Freeman, Charles W. Deyoe, Thomas E. Dugan, Arland E. Benteman, Glen R. Ford, Raymond Gieseman, Daniel L. Petracek, John R. Brethour, George Oblesness, Richard G. Badgers, Harold Fearing, Carl S. Helmle, Billy L. Wood, William Bergman, and Carl R. Myers.

Seniors in the School of Veterinary Medicine: Ridge Scott, Raymond O. Cooper, Rollin W. Vickery, Richard E. Hudson, Winfred A. Andrews, William J. Bracken, Eugene L. Rizek, Richard L. Parker, Norman Meriweather, and Danforth D. Taylor.

Seniors in agricultural engineering: Gerald Leloy Zachariah and Ferol S. Fell.

## Five To National ISA Convention

Five students are attending the national Independent Student association convention at Fort Collins, Colo., this week.

They are Virginia Cowan, HE Soph; Gordon Courtright, AG Soph; Ruth Knapp, Clo Jr; Vonnie O'Donnell, TJ Fr; and Roger Tointon, Ar 02.

The theme of this year's convention is "Looking at the Local." Discussion groups, district meetings, a dinner and a dance, and election of a national ISA queen are on the program. Closing session is scheduled for Friday and the group will return to Manhattan this weekend.

## Student Health

Patients in Student Health today are Shirley Williams, James Ruckman, Earl Swingle, Thomas Hardy, Tony Addeo and Clyde Armstrong.

## Tomorrow Is Deadline For Union Applications

Written applications for the union promotion committee are due Thursday, according to Leon Armantrout, chairman of the Union Governing board. Applications should be handed into the Union director's office, A204.

Applicants should indicate their qualifications, interest, and promotional experience, Armantrout said.

Final selection of the committee will be made by the governing board Monday, April 18.

## Sauter-Finegan In Appearance Here May 7

The Sauter-Finegan band will appear on the campus May 7 for a combined concert and dance program, Phil Sorensen, sponsor of social and recreational committee, has announced.

The aggregation was at K-State last spring, and at that time they gave only a concert. Because students seemed to like the Sauter-Finegan group, Soc and Rec has scheduled them as the last major dance band of the school year, Sorensen said.

The band, which has 25 members, includes five saxophonists who doubled on the flute, piccolo, oboe, English horn, bass clarinet, and recorders, a woodwind instrument of ancient origin. It also has a rhythm section composed of a piano, bass, drums, guitar, a harp, and a tuba. A special percussion section completes the roster of the band.

Both Eddie Sauter and Bill Finegan are rated among the country's top five arrangers. Sauter did arrangements for Benny Goodman, and Finegan, for Tommy Dorsey and Glenn Miller before they went into partnership in the band.

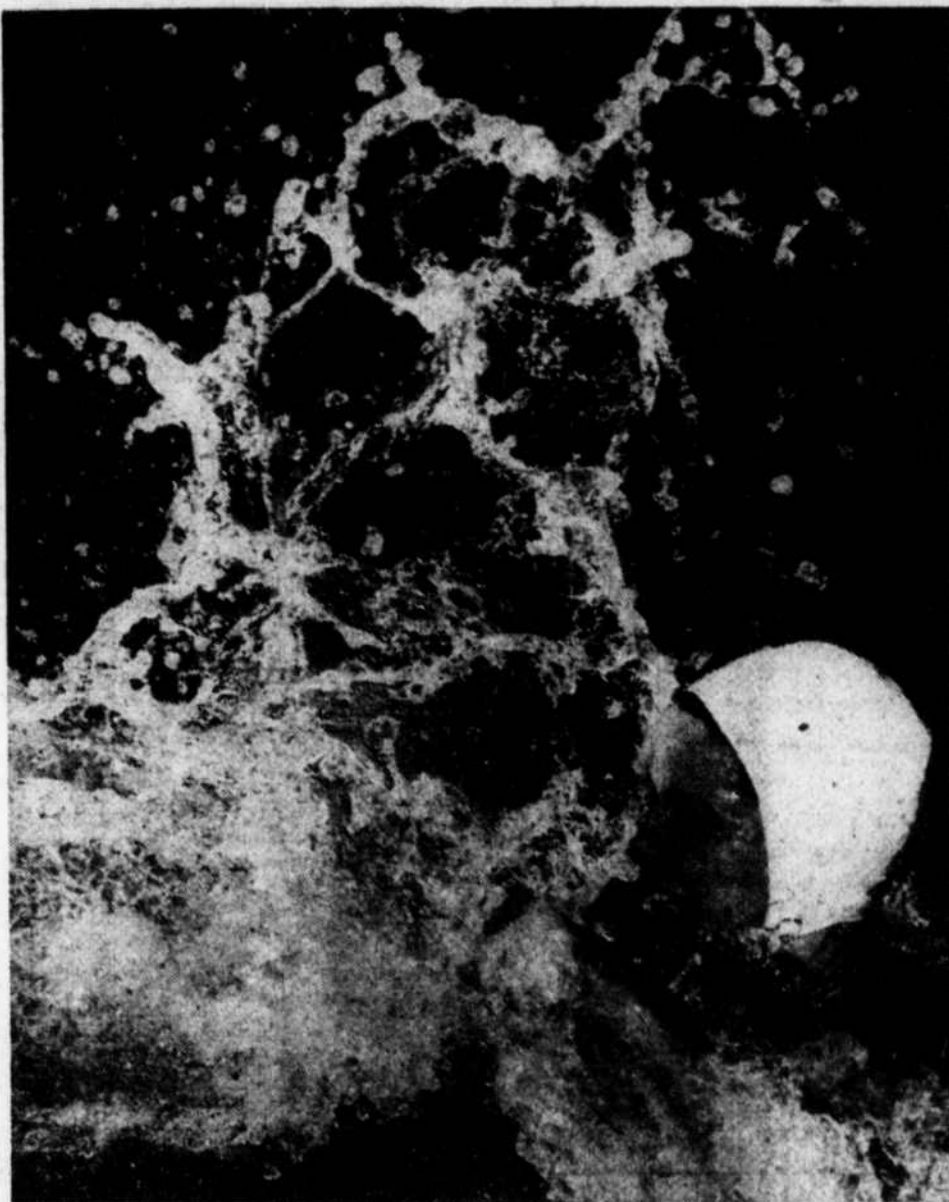

The band is recognized for such hits as "Doodletown Fifers," "Moonlight on the Ganges," "The Honey Jump," and "Yankee Doodletown."

## Argonne Scientist To Speak Tonight To K-State Chemists

H. H. Strain, a member of the chemistry division of the Argonne national laboratory, Lemont, Ill., will be principal speaker before the K-State chapter of the American Chemical society at 7:30 tonight in Room 115 of Willard hall. His topic is "Chromatography—Chemistry's Unique Helpmate."

Strain, a graduate of Stanford, has been at the Argonne laboratories since 1949. From 1929 to 1944 he was with the division of plant biology at Stanford. He is the author of two books, one a monograph on the leaf xanthophylls, and the other a summary of chromatographic adsorption methods.

Strain will be guest of honor at a dinner to be held at the Gillett hotel preceding his talk.

Collegian photo by Gary Haynes

"LETTING OFF STEAM," in condensed form, is Carol Collins, Hst Jr, as she relaxes and splashes after rehearsing her part in the Frog club "Neptune's Fantasy." The show will be presented in Nichols gym tomorrow night, Friday, and Saturday.

## Frog Club Prepares For Water Fantasy

Underwater scenes of Neptune's court will be featured in "Neptune's Fantasy," the Frog club water show, Thursday, Friday and Saturday in the men's pool of Nichols gymnasium at 8 p.m.

The 12 numbers of the program have been composed and

arranged by members of the club, according to Mrs. Thelma Dawson and Miss Alice Becker, sponsors of the club.

The choreography for the opening number, "Deep Sea Playground," is by Helen Morris. "Court Room Preparation" will follow, arranged by Sandra Tatge.

The choreography for the other water stunts are "The Entry of the King" and "Lord and Ladies Dance," by Peggy Howard and Keith Chrisman; "Water Nymph Capers" and "Court Jesters," by Thelma Horlacher and Dorinda Mears; "Mermaids Magic," by Carol Collins; "Sailor Lured by Treasure," by Beth Nicholson and Thelma Horlacher; "Neptune's Daughter Returns," by Thelma Horlacher; "Starfish Stunts," by Norma Mase; and "Courtroom Celebration," by Leon Coup. The choreography for "Fantasy Finale" is by Ralph Piccola. Ralph Titus is narrator for the show.

A diving exhibition will be presented during intermission by Bob Reese, Thelma Horlacher, and Alice Becker.

## Drizzly ...

Topeka, April 13. (U.P.)—Heavy rains across most of Kansas last night headlined the weather report issued today by U.S. weatherman Richard A. Garrett.

The only area which was slightly in the downpour was the southeastern section which has been receiving moisture when the remainder of the state was dry. The parched southwest had heavy rains recorded in almost every county. Rainfall in Manhattan up to 7 this morning was .78, as recorded by the College physics department. Elsewhere in the state these readings were recorded: Garden City 1.33, Syracuse 1.10, Ness City 2.57, Healy, 2.43.

## Honorary To Hold Initiation Tonight

Phi Kappa Phi will hold initiation for newly elected members at its annual spring banquet to be held at 5:45 p.m. tomorrow in Thompson hall, according to Prof. Paul E. Sanford, secretary of the all-college scholastic honorary.

Guest speaker will be Dr. L. D. Wooster, president of Fort Hays college. Dr. Wooster will speak on "Scholarship: A Good Thing or Is It?"

Each year honor students are elected to Phi Kappa Phi. To be eligible, students must rank in the upper 7 per cent of their class. This year, 34 seniors will be initiated at the banquet tomorrow along with 6 faculty members and 3 graduate students.

"Did you notice that genuine imported cashmere sweater?"

Editorial

# Promotion Committee To Publicize Union

Promotion is the first concern of every new enterprise. Recognizing this, the union governing board is setting up a promotion committee as its first standing committee this week.

Members of the promotion committee will be chosen by the union governing board Thursday from written applications submitted by Loren Kottner, union director. It is hoped that enthusiasm for union committees will be sufficient to make all appointments from written applications submitted by interested persons.

The work of the union promotion committee will be most intensive during the months before the union opens. It will have the task of explaining the union building and program to the public before it opens and sustaining enthusiasm for the union after it is in operation.

The seven other committees that will be organized this spring under the union program council are dance, special events, movies, house and hospitality, library, art, and music, photography and crafts, and games. The program council will encompass and expand the work done by the present social and recreational committee of the Student Council.

Under the setup tentatively approved by the union governing board, the chairman of the eight committees would be members of the union program council. Also on the council would be the chairman, assistant chairman, and secretary. The council chairman would be an ex officio, non-voting member of the union governing board. Members of the committee could gain experience to work up to membership in the union program council or the union governing board.

Other committees will be formed before May so that persons interested in working on the union program will have a chance to find a place in the committee setup of the union.

# Plane Crash Kills 8 Reds; Charges Fly

Compiled from the Wires of the United Press

by DICK CARR

London—The United States denied today as "preposterous" Communist China charges that it ordered the sabotage of an Air India plane that crashed while carrying Peiping representatives to the Afro-Asian conference in Indonesia.

But Indian Prime Minister Jawaharlal Nehru said the crash in the South China sea "has some very unusual features" and called it "peculiarly painful and distressing" because the plane was carrying eight Red Chinese delegates to Bandung. All eight were presumed killed.

The Air India constellation Kashmir Princess crashed Monday into the South China sea near Borneo with 18 persons aboard. Conflicting reports said three or six persons were rescued. Three were known to be Indian crew members.

The Communist charges were broadcast by Peiping radio first and rebroadcast today by Moscow.

## Salk Serum To 57 Million

Ann Arbor, Mich.—The 57 million Americans most susceptible to Polio will receive shots of Dr. Jonas Salk's miracle vaccine in record time—perhaps before mid-summer, it was predicted today.

The Polio-killing serum was rushed from manufacturers and pharmaceutical houses to beat the hot weather Polio epidemic season. It appeared possible the first vaccinations would be given today, within 30 hours of announcement of the success of the serum.

Preparations to immunize those most susceptible to the disease—persons between the ages of six months and 21 years—took place hastily today across the country, in schools, through the National Foundation for Infantile Paralysis and among family physicians.

Those familiar with the vaccine and its distribution prophesied that 27,000,000 children will be inoculated with two shots of the vaccine within a month to six weeks.

## Blockade Protested Anew

Berlin—The three western allies prepared a sharp new protest today to the Soviets against Berlin's "Little Blockade," but the Communists hinted at drastic "security measures" to isolate this cold war outpost.

Diplomatic sources said officials of the three western high commissions were "getting tired" of Soviet and Communist stalling over the economic squeeze on West Berlin and were writing an even stronger protest than the earlier one Russia so far has ignored.

An allied note of April 1 protested the crippling tax slapped down by Soviet zone authorities.

The Communist press indicated the Russian reply, if and when it came, would assert that Russia cannot interfere.

## Quemoy Expects Attack

Quemoy Island—A spokesman for the Quemoy commander said today there were indications of an impending Communist attack against this Nationalist-held island.

Col. Tien Shu-Sin said the Communists had massed 200,000 troops which could be hurled against Quemoy and that the Reds had built up gun replacements and assembled 2,000 junks.

Lt. Gen. Liu Yu-Chan, the Quemoy commander, was inspecting the defenses of nearby little Quemoy today when correspondents flew here from Taipei.

There was intermittent shell fire, both outgoing and incoming, during the day, but no shells landed near correspondents taken on a tour of the island.

## Our Readers Say—

# Queen Choice Called Unfair

April 9, 1955

To the editor:

Early in the fall the student body selected a Homecoming Queen. The Coach and Athlete magazine thought enough of our selection to run a full page picture of our queen in the February issue.

About two months ago the student body president received a letter from the Berkeley (California) Chamber of Commerce requesting that we send a candidate for the Miss Football of 1955 contest next fall. The Student Council debated on how to select our representative, apparently forgetting we elected a queen in the fall. Then, on the last meeting night before Easter vacation, when it would be impossible for anyone to reply in the Collegian before Easter, they decided to send one of the queen's attendants to the contest in California.

It seems illogical to send an attendant instead of the queen herself. If the Student Council feels that someone should be sent other than the queen, the students here at Kansas State should have the final say about who is to represent their college.

# Baseball Team To Begin Big Seven Play Friday

K-State's baseball team will carry a 2-1 record into Big Seven play as it opens with two games against Nebraska this Friday and Saturday at Griffith stadium.

The Wildcats couldn't get together with the weatherman during last week's Southern swing as two of the three scheduled games were rained out.

K-STATE lost to Memphis Naval Air station, 9-3, and then had a second game with Memphis called in the third inning with K-State trailing, 5-4.

A game with Mississippi university was called in the second inning with the Wildcats on the short end of a 5-0 score. K-State's two wins came in a doubleheader with Wichita.

Coach Ray Wauthier said he was disappointed with the poor weather, but thought that the sophomores on the team gained experience that will prove valuable to the team in Big Seven play.

"I WAS disappointed in the inability of the pitchers to stay ahead of the batters, and thought we made many of the mistakes which normally come in opening games," Wauthier said.

"We will work hard this week to overcome our defensive errors around the infield. Since Nebraska has a majority of left-handed pitchers, we will work against left-handed pitching in batting practice," he said.

The Wildcat coach said he hopes for a repeat performance from last year in the two games with Nebraska.

Last year, K-State defeated Nebraska, 3-0, in the first game as Jim Rhoades shut the Cornhuskers out, then went on to take the second game, 5-4, on Don Prigmore's two-run homer in the ninth inning.

## Spring Sports To Resume

K-State baseball, golf, tennis, and gym teams get back into the thick of spring competition this week end after the Easter vacation layoff.

The baseball and golf teams open Big Seven play here Friday against Nebraska.

The baseballers have a 2-1 record after winning a doubleheader from Wichita, 6-2 and 4-3, then losing to Memphis Naval Air station, 9-3. The golfers have lost to Oklahoma A&M, 2-16, and to Wichita, 3 1/2-14 1/2.

The Cat tennis team plays Washburn at Topeka Friday.

Saturday, the baseball team plays a second game with Nebraska here. The game will begin at 10 a.m. to avoid a conflict with the varsity-alumni football game that afternoon. The gym team is scheduled to enter the Louisiana State all-college meet.

Tex Winter was assistant basketball coach at K-State for four years ending with the 1950-51 season.

## Intramural Softball To Start April 18

Intramural softball will begin next Monday, April 18, when play in the fraternity division will get underway, Frank Myers, director of intramurals, said today.

There is a shortage of umpires for the softball games, and anyone interested in umpiring has been asked by Myers to see him at the intramurals office in Ahearn gym.

First-round matches in handball, horseshoes, and tennis doubles in both divisions should be finished this week Myers said.

## Gridmen To Drill 'Rain or Shine'

"We'll practice every day this week, rain or shine," football coach Bus Mertes said this morning. He said that next fall the team might have to play in such a rain as is falling today.

Mertes said he planned a full workout with a scrimmage session for today.

The varsity-alumni game which is to close out spring workouts is scheduled for Saturday afternoon. Only three practice sessions remain before that date.

## Dick Stone Included On Buff All-Loop Team

Dick Stone, junior forward on this year's K-State basketball team, has been picked by the Colorado university cage squad as a member of its Big Seven all-opponents team.

Other members of the team are Willard Fagler of Nebraska, Gary Thompson of Iowa State, Med Park of Missouri, and Les Lane of Oklahoma.

# A's After Second Win In Detroit Tilt Today

Kansas City, Mo., April 13 (U.P.)—The Kansas City A's were to call on Arnold Portocarrero today in the second game of their opening series against Detroit, after a rousing 6-2 victory over the Tigers in yesterday's opener.

Against Portocarrero (9-18), Detroit manager Bucky Harris was to send Steve Gromek (18-16) and thus set up a battle of right-handers for what was expected to be the second capacity crowd in two days.

The infectious enthusiasm of Kansas City fans and the spirit of the A's, playing for the first time in their new home, caught up with Detroit ace Ned Garver in the sixth inning yesterday.

UNTIL THE ROOF caved in, he and southpaw Alex Kellner were locked in a 2-2 tie.

Kellner gave up five hits in his six-inning stand, but was equal to every emergency. He fanned four and walked one.

In other games yesterday, the Cleveland Indians breezed to a 5-1 verdict over the Chicago White Sox; the Milwaukee Braves rallied in the eighth to beat Cincinnati, 4-2; the Boston Red Sox beat the Baltimore Orioles, 7-1;

and the Chicago Cubs walloped the St. Louis Cardinals, 14-4.

New York vs. Philadelphia Phils, Pittsburgh vs. Brooklyn, and Washington vs. the New York Yankees were rained out.

TODAY'S probable pitchers:

National League

New York at Philadelphia—Antonelli vs. Roberts.  
Pittsburgh at Brooklyn—Surkont vs. Erskine.

American League

Detroit at Kansas City—Gromek vs. Portocarrero.  
Washington at New York—McDermott vs. Ford.  
Boston at Baltimore—Brewer vs. Palica.

## Farm House, Kappas Top Grade Averages

Farm House and Kappa Kappa Gamma led the fraternities and sororities in grade average last semester, according to figures released by E. M. Gerritz, director of admissions.

Farm House led the fraternities with a house average of 1.951. Beta Theta Pi second with a 1.770 and Sigma Chi Alpha Gamma Rho followed closely in fourth with a 1.533 grade average.

In the sorority division, Kappa Kappa Gamma held a 2.056 average for last fall semester. Pi Beta Phi was second with 1.951 and Delta Delta Delta third with a 1.894 average.

The all-women's average for last semester was 1.644 and the all men's average was 1.353 with an all-College average of 1.430. The sorority average was 1.761 and the fraternity 1.380.

**KAPPA KAPPA GAMMA** active class led the sorority active classes with 2.064. Delta Delta Delta actives were second with a 1.978 class average and Pi Beta Phi third with 1.938. Alpha Delta Pi actives averaged 1.767, Chi Omega 1.754, Alpha Xi Delta 1.743, Kappa Delta 1.692, Alpha Chi Omega 1.680, and Clovia 1.574.

Sorority pledge class averages were also led by Kappa Kappa Gamma 2.042, followed by Pi Beta Phi 1.981, Delta Delta Delta 1.751, Clovia 1.640, Alpha Xi Delta 1.605, Alpha Chi Omega 1.542, Chi Omega 1.500, Alpha Delta Pi 1.402, Kappa Delta 1.205.

**FARM HOUSE** actives led the fraternity active classes with a 2.026 average followed by Beta Theta Pi 1.809, Sigma Chi 1.767, Alpha Gamma Rho 1.732, Alpha Tau Omega 1.708, Lambda Chi Alpha 1.650, Beta Sigma Psi 1.643, Alpha Kappa Lambda 1.607, Sigma Alpha Epsilon 1.593.

Phi Delta Theta 1.544, Kappa Sigma 1.514, Phi Kappa 1.513, Delta Sigma Phi 1.466, Sigma Phi Epsilon 1.456, Acacia 1.445, Theta Xi 1.443, Pi Kappa Alpha 1.423, Delta Tau Delta 1.267, Tau Kappa Epsilon 1.190, Phi Kappa Tau 1.118, and Sigma Nu .996.

**FRATERNITY** pledge class averages were led by Beta Theta Pi with a 1.669 followed by Farm House 1.640, Tau Kappa Epsilon 1.408, Theta Xi 1.255, Phi Delta Theta 1.197, Alpha Kappa Lambda 1.193, Sigma Alpha Epsilon 1.172, Sigma Chi 1.169, Sigma Phi Epsilon 1.137, Phi Kappa 1.108, Delta Sigma Phi 1.101, Beta Sigma Psi 1.076, Lambda Chi Alpha 1.041, Alpha Gamma Rho 1.01, Alpha Tau Omega .987, Pi Kappa Alpha .976, Delta Tau Delta .940, Acacia .876, Phi Kappa Tau .875, Sigma Nu .862, and Kappa Sigma .773.

## Sophs May Apply For \$200 Award

Blue Key, senior honorary fraternity, will award a \$200 scholarship this semester to an outstanding male student who will be classified as a first semester junior in the fall term, Bill Bergman, Blue Key scholarship chairman, announced.

Blue Key will award this scholarship annually for use during the junior year of the selected student. One-half of the scholarship will be awarded each semester, Bergman said.

## Educators To Hear Psychologist

Dr. Gardner Murphy, nationally known social psychologist who heads up the Menninger Foundation research work, will be principal speaker for the annual conference sponsored by the Kansas Adult Education association, to be held here Tuesday, April 26.

Others who will appear on the program include President McCain, and Howard Walker of the University of Kansas. There will be group discussions on how adults learn, developing group leaders, and on program planning in adult education.

All persons engaged in the work of community organizations and adult education in any form are welcome to attend the conference, regardless of whether they are members of the KAEA, according to Herbert Macocby, conference co-ordinator.

## Scholarship Offered Freshman Women

Freshmen women students interested in a \$160 scholarship for their sophomore year may pick up application blanks in the Dean of Student's office.

The scholarship is awarded to a girl on the basis of financial need and scholastic ability shown during her freshman year. It is sponsored by Pi Beta Phi.

All applications are due back in the Dean of Students' office by April 20.

## K-Staters Take In Sights on YMCA Easter Tour to Washington, New York

By JANE KAMISATO

Thirty-one K-Staters are willing to bet that they enjoyed their Easter vacation more than any other K-Stater. Some of the "new and thrilling" experiences that members of this group had during the vacation were interviewing Drew Pearson, seeing cherry blossoms along the Potomac, hearing well-informed people in the government, and sitting in at an Economic and Social council meeting at the United Nations.

These K-Staters made up the YMCA sponsored study-tour, to Washington, D.C., and New York. The group left early April 2 and returned Monday morning.

"I FOUND Drew Pearson very easy to talk to," Dave Dary, Sp Jr, said after a tape-recorded interview with the commentator in Washington. Pearson talked about his "fond memories" of his boyhood days in southeastern Kansas. He also discussed some of his negative views concerning Secretary of Agriculture Benson's farm policy.

The students heard speakers like Doug Carter, Washington correspondent of the Reporter

and E. Raymond Wilson, executive secretary of the Friends Committee on National Legislation. These speakers said that sending letters to congressmen or phoning them were effective ways to get congressmen to promote or vote against bills. Letters should be sent frequently and written simply, they advised.

**THE ADJOURNING** of Congress for Easter was a disappointment to students like Nancy Vosseler, political science major. "But at least we got to see the Capitol."

The students had a luncheon in the Vandenburg room in the Capitol and also had a special tour through the building.

"Mt. Vernon is the most fabulous thing I've ever seen," Wanda Facklam, Ed, Fr, said. "I didn't imagine that a plantation home had so many units—smoke house, butler's quarters, stables, and storerooms. The view overlooking the Potomac is beautiful," she exclaimed.

Walden Krietzmeier, BA Fr, enjoyed "best of all the tours to Lincoln, Jefferson, and Washington monuments because they were so impressive."

Walden, like most of the K-Staters walked up to the top of

## Candidate for Degrees Must Apply, Pay Fees

Candidates for degrees must apply for them through the registrar and commencement fees must be paid to the cashier by April 28, E. M. Gerritz, registrar, said today.

Applicants should check the post-office box or the general delivery window often for information concerning graduation, he said.

## Student Health

Patients at Student Health today are James Ruckman, Earl Swingle, Keith West, Thomas Hardy, Larry Lowe, Connie Dondlinger, and Dorothy Hewitt.

## BSA Names King, Queen Candidates

Eighteen K-State coeds and men have been named as candidates for king and queen of the second annual Business Students association dance to be in Nichols gym Friday night. Bill Heptig and his orchestra will play for the dance, which will be from 9-12 p.m.

Queen candidates are Marilyn Dietz, Alpha Chi Omega; Donna Voth, Alpha Xi Delta; Phyllis Walker, Alpha Delta Pi; Adrea Simmons, Chi Omega; Bernadine Macek, Kappa Delta; Diane Benedict, Kappa Kappa Gamma; Marilyn Larrick, Northwest hall; Bette Bentz, Pi Beta Phi; and Lorna Plummer, Van Zile hall.

King candidates are Jarry Moore, Kappa Sigma; Bob Balzerick, Phi Delta Theta; Floyd Griggs, Phi Kappa Tau; Jim Hocott, Sigma Chi; Kent Poore, Sigma Nu; Jack Barrett, Sigma Phi Epsilon; Les Pauls, Tau Kappa Epsilon; Jim Weatherford, Theta Xi; and Paul Chalk, West stadium.

At the dance President McCain will present scholarship awards to the junior male and female who had the highest grades in business at the end of their sophomore year. Ben Coffin will crown the king and queen.

## Fair . . .

Topeka, April 14 (U.P.)—Fair skies are expected over most of Kansas today but with prospects good for another series of spring showers for sometime tomorrow.

Top moisture which fell during the day yesterday was at Centralia where the gauge registered 1.06 inches. There were scattered rains throughout most of the eastern half of the state but stopping by about midnight.

Yesterday's high temperatures ranged from 70 at Pittsburg to 54 at Topeka. The lows were from 33 at Goodland to 46 at Olathe.

Photo by J. R. McLeland

**MOM AND GRANDMA** didn't have it so good, thinks Norma Beck, HE Jr, as she watches Marilyn Jacobs, HEN Fr, and Jackie Wade, Psy Soph, preparing for the Hospitality Days style show. They will model the old costumes as part of the show for high school girls and other Hospitality Days visitors Saturday afternoon at 1:30.

## Debate Teams To Discuss Foreign Policy

K-State debaters will debate with Kansas university's national champions in a split-team parliamentary meet Sunday night at 7:30 in Engineering Lecture hall.

John Fields, KU pre-law senior and Tom Bowman, ChE Fr, will debate the affirmative side of the national debate topic. "Resolved that the United States Extend Diplomatic Relations to Red China." Hugh Bell, pre-law senior from KU and Harry Knapp, PrL Jr, will debate the negative side.

## New Ideas Raise Funds For Charity

By PHYLLIS OLSON  
Of the Collegian Staff

The grand champion of the sixth annual YMCA Turtle Derby held recently at Indiana university was Hell-on-Wheels. About 150 turtles were entered in the race. Names of the turtles ranged from No-Mo-Shun to Marilyn Monroe. Proceeds from the derby will send children from the Bloomington area to Kids Kamp, a YMCA summer camp, said the Indiana Daily Student.

Some 150 students at the University of California washed about 4,000 windshields in the parking lots one day recently. Coeds solicited donations from the car owners as they left the parking lots. Proceeds went to UniCamp, a plan whereby 600 children will attend summer camps, said the Daily Bruin.

Members of three campus sororities and three fraternities at the University of North Dakota recently took part in the annual Easter Seal drive. Students from the residences took their places at various corners downtown and collected donations. Benefits of the sales went to a Crippled Children's home, said the Dakota Student.

Half-hour extensions for coeds on the Saturday night one o'clock curfew were sold recently at Drake university, according to the Drake Times Delphic, for the annual World United Service campaign. WUS is a channel for students throughout the world to help others.

Students at the University of Indiana are being urged to dust off their old books. They may have the chance to be one of the winners of the student book collector's contest. The contest is an annual affair, to encourage students to begin a personal library. The main factor the judges look for is a unified theme. The first prize will be a selection of books of the winner's choice totaling \$25. Twenty-five dollars in other prizes will also be awarded.

The annual Chi Omega Easter egg hunt for children of Lawrence took place recently at Potter's Lake. After the hunt the children were served refreshments and entertained at the chapter house, said the University Daily Kansan.

The annual mother's week end was held recently at Indiana university, according to the Indiana Daily Student. Mothers were honored with bridge parties, teas, dessert parties, and dormitory parties throughout the week end. Corsages were presented to the mothers. Academic, activity, and dormitory phases of college life were shown the mothers on campus tours.

University of Texas engineers were red-faced recently when they found themselves with two Miss Engineers. One co-ed was crowned Friday night at the Engineer's Ball, but a recount Saturday morning found her to be tied with another co-ed. A group of absentee ballots had been overlooked. The two girls will reign as "Co-Misses" and each will be awarded a trophy, said The Daily Texan.

Members of Lambda Chi Alpha and Pi Beta Phi at Indiana university, sponsored their fourth annual Easter egg hunt recently. The organizations gathered over 200 prizes from Bloomington merchants for the children. The Lambda Chi chapter each year hides over 5,000 colored eggs for the children to hunt. Pi Phis dressed in bunny costumes and assisted the smaller children in finding eggs. Prizes include money, gift certificates, toys, candy, clothing, and jewelry.

## Buddhist Sect Shells Free Viet Nam City

Compiled from the Wires of United Press

By DICK CARR

Saigon, Indochina—Rebellious warlord troops aided by Communist deserters attacked a government-held city 58 miles southwest of Saigon with mortars at dawn today.

The early morning assault by troops of the dissident Hoa Hao Buddhist sect broke the tinderbox truce in Free Viet Nam and threatened a new outbreak of the in-and-out civil war.

The Buddhist warriors lobbed mortars into the city of Sadeck, wounding at least 20 persons, some of them gravely, in the first major breach of an Easter truce.

The high command said the regular South Viet Nam Army immediately launched a cleanup drive against the rebel troops led by Gen. Ba Cut whose mortars shelled Sadeck's central district.

The wounded were evacuated to Saigon aboard a South Viet Nam Red Cross plane.

### Berlin Blockade Draws Konrad Adenauer

Berlin—Chancellor Konrad Adenauer will fly to Berlin later this month to plan strategy to crack the Communists "little blockade," the West German government announced today.

West Berlin Mayor Otto Suhr appealed directly to Adenauer to intervene as the Communists stepped up their war of nerves against the free part of the city.

U.S. high commissioner James B. Conant arrived in Berlin today by train from the West German capital in Bonn for a three-day visit. He planned to discuss the threatening Berlin situation with U.S. officials although his visit was planned before the blockade began.

Suhr already had conferred with Conant before calling on Adenauer today.

### Formosan Cease-Fire Pushed by U.S.

Washington—The United States today put heavy new pressure on Communist China to renounce use of force and agree to a cease-fire in the Formosa straits.

Secretary of State John Foster Dulles has been talking over this formula with allied diplomats to avoid a "tragic war" in the Far East. Officials said that talks were being stepped up informally at the United Nations in New York and through American embassies in London and some other world capitals.

Dulles talked yesterday at the state department with British ambassador Sir Roger Makins. There was no official announcement on the purpose of the talk, but it was believed to have centered on the Far East crisis.

### Faure Urges Big 3 and Big 4 Meetings

Paris—Premier Edgar Faure called in the U.S. and British envoys today to press preparations for a meeting of Big Three foreign ministers next month and "an eventual Big Four conference" with Russia.

Faure, appearing more eager than either the United States or Britain for speed in arranging a meeting with Russia, was pressing for it in July, if possible.

To urge Western preparations for such a conference he conferred with U.S. ambassador C. Douglas Dillon and British charge d'affaires D. P. Reilly.

WE WONDER WHY . . . shrubs don't stop home ec girls from making new paths across the grass in front of Calvin.

### Branching Out

Charleston, W.Va. (U.P.)—The Vicki Coal Co., organized here recently, has its main offices at Dry Branch and its chief works at Wet Branch.

## English-Style Education Demanding, Says K-Stater

Frank C. Andrews, K-State alumnus attending the University of Hull in England, writes that tradition in English universities and student government, allows the student little freedom for other activities.

Andrews, who graduated here last spring, is attending the University of Hull on a Fulbright scholarship.

In a letter to Dr. Harold Howe, dean of the Graduate school, Andrews said that students go to English universities as humble seekers of knowledge and they have no voice in student government.

"THE CONCEPT of student government, as we have at K-State, is unheard of, and the freedom of self-government that our fraternities and sororities have is unknown," Andrews wrote.

"If a student should take any kind of a part-time job during the actual school term he would be expelled immediately from school."

Andrews explained that almost all students are attending universities under state and county grants, which pay most or all of their expenses, but keep them almost in poverty.

IN DESCRIBING the students, Andrews said, "the students here seem mentally and physically more mature in many ways than the comparable American. They dress like old people and the poverty and stress of examinations that has been with them since the age of ten force their interests generally to serious subjects."

"Students seem to have definite goals in life," Andrews said. "They have five years of chemistry in grammar school before ever coming to the universities, if chemistry is to be their field."

One thing Andrews favored in the English universities is the long vacation periods. He was preparing for a month-long Easter vacation when his letter was written.

## Concert Band Will Perform Sunday at 4

The Concert band, under the direction of Walter L. Burford, associate director of bands, will present a concert in the College Auditorium Sunday, at 4 p.m.

The band will play a varied program which will include serious music, tone poems, semi-classical numbers, marches, South American and Spanish music, and music from well-known American contemporary composers.

Wayne Henderson, a graduate student from Salinas, Calif., will direct the march "Golden Gate" by Edwin Franco Goldman. Henderson was a member of the UCLA band staff before coming to K-State.

For the first time, the department of music has been maintaining two concert bands, the symphonic band and the concert band.

The personnel of the two bands is made up of the 140 bandmen who formed the marching band during the 1954 football season.

## Roles To Be Cast In Fine Arts Play

There are several roles in "Quattrill" yet to be cast, Jack Robson, Interpretations club adviser, said today. Students wishing to act in this play should contact Robson at his office in J8.

"Quattrill," a play written by the Interpretations club, will be presented April 28 and 30, and May 8, as part of the Fine Arts Festival.

In 1952 traveling Americans placed a cool billion dollars, an all-time record, into the hands of foreigners, the N. Y. Journal of Commerce reports. About \$235 million changed hands in Canada, \$210 million in Europe, \$140 million in Mexico, and \$60 million in Central America. Introduction of tourist class transatlantic air service is seen as contributing to the record.

## Putnam Grant Applicants Expected To Total 300

More than 100 high school seniors already have applied for Henry J. Putnam memorial scholarships and some 200 applications are expected before the April 15 deadline, according to Max Milbourn, chairman of the general scholarship committee.

## College Musicians Arrange Ballads For City's Pageant

Overture for the Manhattan Centennial pageant April 28 to 30 will be a special arrangement of seven folk songs, prepared by Thomas Steuneberg and William Fischer, both of the College department of music.

The overture has been arranged so that each of the folk songs can be taken out and used also for various scenes in the pageant. The folk songs include Old Chisholm Train, Shenandoah, Home on the Range, Kansas Land, Kansas Boys, Buffalo Gal, and Beautiful Kansas.

The overture will be performed by the College-civic orchestra, under the direction of Luther Leavengood, and the orchestra will play the incidental music. Also appearing in the production will be the K-State A Cappella choir, which will sing several of the songs in special arrangement by Fischer.

An iron cooking pot, said to have been one of the earliest castings made at the Saugus ironworks 300 years ago, now hangs in the Lynn, Mass., public library.

The new scholarship program was made possible by Dr. L. Irene Putnam, Atlanta, to honor the memory of her husband, Henry J. Putnam.

Putnam scholars are selected competitively on the basis of merit alone, and the amount of the scholarship awards will be determined by need. The scholarships may be renewed, if the scholar maintains a superior record.

Students applying for Putnam or any other scholarships at K-State for the 1955-1956 school year should participate in one of the three remaining pre-enrollments testing programs, if they have not already done so, Milbourn said.

The remaining testing programs are at Wyandotte high school, Kansas City, and Great Bend high school, on April 16, and at the College April 23. Should an applicant be unable to participate in one of the pre-enrollment testing programs, he should contact the general scholarship committee concerning special arrangements, Milbourn said.

### Obsolete

Rockville, Conn. (U.P.)—The city council weeded from Rockville's charter 40 ordinances considered obsolete or unnecessary, including one prohibiting operation of a wheel barrow at more than 10 miles an hour.

## \$200 Award To Be Made By Blue Key

Blue Key, senior honorary fraternity, will award a \$200 scholarship this semester to an outstanding male student who will be classified as a first semester junior in the Fall term, Bill Bergman, Blue Key Scholarship chairman, announced.

Blue Key will award this scholarship annually for use during the junior year of the selected student. One-half of the scholarship will be awarded each semester, Bergman said.

Any second semester male sophomore is eligible to apply for the scholarship. April 15 is the deadline date to apply. Application blanks are available in the Dean of Students' office.

A Blue Key scholarship committee will select a student for the annual award, Bergman said. Emphasis will be placed on leadership potential with some consideration being given to need. Applicants should have near a two-point grade average based on three semesters work at K-State.

Blue Key, a national honorary fraternity, is represented by 13 members at K-State. Each year 13 juniors with leadership ability and a high moral character are chosen for membership during their senior year.

## Delegates To Iowa For Greek Meeting

Six delegates from the K-State Panhellenic council and the Interfraternity council will be attending a Big Seven regional conference at Iowa State college in Ames, today, tomorrow and Saturday.

Following registration the group will participate in workshop discussion groups. James Hilton, president of Iowa State, will address them at a banquet Friday night.

After continued workshops Saturday morning, the delegates will stay to see parts of the Greek Week activities that will be going on that weekend.

## Rhoades Gains Experience Playing Summer Baseball

By CLAYTON HERMAN

Summer baseball, ranging from Junior American Legion ball in 1950 to semi-pro ball in 1954, has helped Jim Rhoades gain an assignment as a starting pitcher on the K-State baseball team.

Rhoades, a junior at K-State, lettered in baseball last season when he had the best mark of all Wildcat hurlers. He had a 3-2 won-lost mark on a team that won only 8 games during the season.

**THIS YEAR** he recorded a 4-3 victory over Wichita in his first outing. He lost his second start as Memphis Naval Air station defeated the Wildcats 9-3, in a game at Memphis last week.

Jim also won a football letter during his sophomore year, when he played fullback. However, he said baseball was his favorite sport.

While attending high school at Cawker City, he pitched for the school team four years. Bill Jans-

sen, a graduate of Colorado State Teachers college, was his coach.

In addition to his scholastic baseball, Jim pitched for the Osborne Junior American Legion team in 1950. The Osborne team won the junior legion district tournament that summer.

He then played two summers of Ban Johnson ball with Dodge City, seeing action in the outfield when he was not pitching.

**LAST SUMMER** he moved from Ban Johnson baseball to play semi-pro ball with Superior and Sutton, Neb., teams.

"I feel that we have a team as good or better than we had last year," Jim said. "I think the main weakness we now have is learning to play together."

"Jim has looked better this year than he has at any other time," coach Ray Wauthier said. Rhoades will pitch some good games if he keeps on showing the improvement he has so far, Wauthier added.

Collegian photo by Gary Haynes

**BOB HILLIARD** (facing camera) attempts to clean the mud from his hands during yesterday's football practice in the mud. Coach Bus Mertes ran the Wildcats through a scrimmage session to give them pointers on playing under adverse conditions.

## Practice in Mud Benefits Gridders, Mertes Says

By MYRON SEIRER

K-State footballers scrimmaged yesterday, for the last time during spring practice, in the rain and mud.

"Working out under such conditions was for the benefit of the boys, as a game sometimes must be played when conditions are much like those of yesterday," coach Bus Mertes said.

"Any opportunity to work out in such weather is welcomed," he added.

**BALL HANDLING** is improved by working under adverse conditions, as handling of a wet and muddy ball must be done more carefully than with a dry ball, Mertes said. The blocking is also much harder on a rain-soaked field, he said.

Few passes were attempted due to the wet ball, and handling of the ball in the backfield was done with care, he said.

Nobody was injured during the practice and the team looked good in the workout, Mertes said.

**PRACTICE** today and tomorrow will consist of some work on the dummies, but there will be no body contact.

During the practice sessions, which started March 16 and will end Saturday, the team has had no blackboard sessions. Most work has been done on the offensive pattern, with some of the fundamentals of blocking and tackling being stressed, Mertes said.

Saturday, the last day of spring practice, will be featured by a varsity-alumni game in Memorial stadium.

"The game is open to the public, with all students being admitted by showing their activity tickets," Mertes said.

In deciding on a probable starting lineup for the game, he listed eight lettermen from last year, a sophomore, and two freshmen.

## Moody, Reich Named KU Grid Captains

Lawrence, April 14 (U.P.)—Half-back Ralph Moody and center Dick Reich will serve as co-captains of the Kansas university football team next season.

They were chosen last night by members of the squad.

Moody is also a sprinter on the track team. Reich transferred to KU from West Point two years ago.

It is probable that the KU varsity will be without the services of Moody when it faces the alumni in the fifth-annual varsity-alumni game here Saturday. Moody is expected to be with track coach Bill Easton's squad for a dual meet at Oklahoma A&M.

You'll be pleased with a Collegian want ad.

## Blind Ex-Footballer Wins Tough 'Game' in Darkness

By CHARLOTTE HENRY

Dave Torbett had played a lot of football as a defensive end here in 1949 and '50 when he left the campus for the army. But when he came back this year he had already begun setting records in a harder game. He was playing this one on a dark gridiron.

Dave lost his vision in one of those "shouldn't-have-happened" accidents while training at Fort Sill, Okla. After hospitalization, he went to a rehabilitation center in Chicago where he learned Braille and how to travel independently.

"Lack of vision is hard but one doesn't miss it nearly as much as people would think," Dave said. "I learn to travel by sounds—the Classroom building sounds a particular way, and I can tell when I'm by Vet hall by the sounds of the fellows outside for a between-class smoke."

A light metal rod with a wooden tip helps Dave move around quickly and confidently. "Actually, its use is a type of rhythm," he explained. "I just bounce it lightly on the area in which I'll be stepping next." While he's stepping on the left foot, the rod is touching where the right foot will fall.

When he learned to use the rod, his "final exam" was a solo trek into the Chicago Loop—through

traffic, into stores, and on elevated trains and busses.

"Really, nothing has changed too much since I lost my sight," Dave said. And it's obvious that his wife, "D. J.," is his most enthusiastic booster, just as she was when he was in action on the football field.

D. J. helps Dave take his exams when they are the objective type. She reads the questions to him in the instructor's office, and Dave tells her which answer to mark. "My instructor usually reads essay questions to me, and I write the answers in longhand," he said.

Sometimes his exams are given orally. "When we have shotgun tests, the student next to me reads the question aloud and I write my answer," he said.

With the help of D. J. and a few mechanical gadgets, Dave keeps his studies in sociology well in hand. After he takes lecture notes in longhand, D. J. reads them to him while he "types" them up on a Braille writer. Sometimes she reads them into the sound scribe, a recording device.

Using the two special machines and a standard typewriter in various combinations, Dave is always caught up. He hopes to teach in some Midwest college after graduation.

For recreation Dave and D. J. do the things they've always enjoyed: entertain friends, play cards, turn on their television set, and go out occasionally for dinner and dancing. "No one seems to want to play poker with me, since my cards are marked in Braille," he said.

Kansas university was the lowest-scoring club in the Big Seven basketball race the past season. The Hawks averaged 68.4 points a game in the 12 league tilts.

WENDELL HOLT (left) has been high-point man for the gymnastics team this year. Wendell Minckley (above), who practiced gymnastics to overcome polio, is shooting for his first gym letter.

## Gymnasts To Enter Louisiana Invitational

The K-State gymnastics team is to compete in its last college meet of the season Saturday when it enters the College Invitational at Natchitoches, La., coach Frank Thompson said today.

The K-Staters, with a record of 6 wins and 4 losses this season, will enter a five-man team.

Top entry for K-State will be Wendell Holt, who has been high scorer for the season. Others to make the trip are Wendell Minckley, Dale Misak, Allen Olsen, and Robert Shrepel.

HOLT IS to compete for the all-around trophy, which consists of six events, and will also compete in the tumbling and trampoline events. He has won four first places in a single meet twice this season.

Minckley and Misak will be trying to pick up enough points in this meet to earn their first gymnastics letters, Thompson said.

MINCKLEY has overcome a case of polio by practicing gymnastics, Thompson said. Minckley specializes in the side horse and flying rings, and took first places in these events against Eastern Illinois and Ball State.

The meet Saturday will find the K-Staters competing against such top schools as Texas, Texas A & M, Mississippi, Mississippi State, and Auburn.

Highlight of the K-State season was a close win over Notre Dame, 43-42, Thompson said.

## Cagers To Open Practice Monday

Spring basketball practice is to open here next Monday, April 18, with Wildcat coach Tex Winter inviting 23 candidates to take part.

The group will be made up of seven lettermen and four squad members from the 1954-55 squad, plus twelve freshmen, Winter said.

He expects to complete the allotted 12 spring workout with a varsity-alumni game May 6.

## Golfers Lack Experience, Evans Says

By LARRY FOX

Playing a schedule of 13 matches, the Wildcat golf team is hampered by a serious lack of experience, according to coach Mickey Evans.

"There's room for plenty of improvement. We finished seventh in the league last year, and with our lack of experience we can't expect too much," he said.

The top four Wildcat golfers are anchored by two lettermen, Kent Poore, senior basketball star, and Hayes Walker.

JIM WEATHERFORD and David Pfeutze complete the quartet.

Playing in their first two matches of the season, the Cats were trounced by two regional links powers. Oklahoma A&M, third in the nation last year, clipped the Wildcats 16-2. Wichita gave the Purple a 14½-3½ setback in their second outing.

While predicting no outstanding feats from the team this year, Evans did see a ray of hope in the first two outings.

THE TEAM might have done much better had the matches been played on their home course, he said. The home team has a definite advantage, he said.

Another bright spot is the schedule, Evans said. Although K-State will continue to meet strong non-conference opposition, they don't face Colorado and Oklahoma, two of the Big Seven's top clubs, until the conference meet at KU May 20-21.

Evans picked CU, OU, and Iowa State as the three top league entries this season. Colorado, the defending champion, is led by Keith Alexander, medalist in last year's conference meet as a sophomore.

## Red Wings Favored To Win Stanley Cup

Detroit, April 14 (U.P.)—The Detroit Red Wings, who drubbed Montreal in the final game of the regular season to win the National Hockey League championship, were favored to duplicate that victory tonight to cart off the Stanley Cup.

Missouri was the highest scoring basketball team in the Big Seven during the past season. The Tigers averaged 79 points a game through the 12 league tilts.

## Sports Editor Moves A's to First Place

Memphis, Tenn. (U.P.)—Sports editor George Bugbee moved the Kansas City Athletics from fourth to first place in the American League standings between editions of the Press-Scimitar yesterday—as a favor to former residents of the Missouri city.

Four teams were tied for first place in the league and the first edition of the afternoon Scripps-Howard newspaper listed them in this order: Washington, Boston, Cleveland, and Kansas City.

Bugbee's telephone rang shortly after the edition hit the street. A former resident of Kansas City said he and several other new Memphis residents would like to see the league's newest team on top.

"It'll probably be the only time this season they have a chance to be listed first," the caller told Bugbee.

So, in the second edition, Kansas City led the American league.

## Jerry Jung Picked For Pro Basketball

Jerry Jung, K-State's 6-11 center the past four years, has been picked by the Rochester Royals in the National Basketball association's annual draft.

Jung came to K-State in 1951 and was an understudy to all-American Dick Knostman for two years. During his last two years here he shared the K-State pivot position with Roger Craft.

In other drafting by the professional teams, Cleo Littleton, forward from Wichita,

JERRY JUNG

... drafted by Rochester

was drafted by the Fort Wayne Pistons. Littleton was picked on the all-Missouri Valley team four times, and this year completed his collegiate career with a four-year total of more than 2,000 points.

The first three draft choices were players of all-America rating. Tom Gola of LaSalle was first choice and was drafted by the Philadelphia Warriors.

## Roberts Whips First-Day Jinx, Beats Giants

By UNITED PRESS

Robin Roberts of the Phillies, the only pitcher given an outside chance of winning 30 games, was off to his best start in four years today after licking an opening day jinx and nearly hurling the first no-hitter of his career in the process.

Roberts lost openers in 1954, 1953, and 1952, but had the world champion Giants under his thumb for 8 1/3 innings yesterday as he beat them, 4-2.

Alvin Dark spoiled Roberts' no-hitter when he singled to right field with one out in the ninth.

Detroit presented Bucky Harris with the 2,000th victory of his managerial career by trampling Kansas City, 10-2, as Steve Gromek pitched eight-hit ball.

## Salk Doses Cut to Two In Kansas

Topeka, April 14 (U.P.)—Dr. Thomas R. Hood, secretary of the Kansas Board of Health, announced that Kansas children will receive two instead of three Salk vaccine doses.

Because of the announcements of the effectiveness of the vaccine, he said, some alterations in plans for administration of Salk vaccine will be made.

Dr. Hood said he has been unable to confirm the final advisability of the change through the National Foundation for Infantile Paralysis.

"We are almost certain, however, that only two doses of the vaccine will be administered this spring," he said. "The third probably will be given in about seven months."

The original plans had called for administering three doses to first- and second-grade pupils in a series of shots spaced out during the spring.

It has not been determined how the doses will now be administered, he said.

## Journalism Head To U.P. Dinner

Prof. Ralph R. Lashbrook, head of the journalism department, is among a group of newspapermen attending a dinner at the Town House hotel in Kansas City, Kan., tonight to meet Frank Bartholomew, president elect of United Press association.

## TV Helps Reading

Buffalo, N. Y. (U.P.)—An invention of the engineers for Electro Refractories & Abrasives Corp. enables inspectors to tell if grinding wheels are true and detect wobbles and weaves imperceptible to the eye. Wheels off more than eight-thousandths of an inch, at revolving speeds upward of a mile a minute, are rejected.

## Chancery Club Visits KU Law School Today

Nine pre-law students are to visit the KU School of Law today.

They are Harold E. Andler, Gov Jr; Howard A. Petracek, BA Jr; Robert L. Pinet, Hst Jr; Jerry Kennedy, Jr, PrL Fr; Franklin D. Houser, PrL Sr; David A. Brace, PrL Soph; John E. Boyer, BA Sr; Lyle F. Temple, PrL Sr; and Daniel J. Farrell, PrL Soph.

Accompanied by Prof. A. D. Miller, sponsor of the Chancery club, the pre-law students will attend classes at the KU Law school to get acquainted with the courses and the curriculum.

A similar trip was made to Washburn university last semester.

## Last To Graduate In Ag Curriculum

Donald Keesling, probably will be the last student to be graduated from Kansas State College in the two-year curriculum in agriculture, according to Clyde W. Mullen, assistant dean of agriculture.

The special curriculum was established in the fall of 1945 as a service to World War II veterans who were not interested in a full four-year course. It was a popular curriculum for the following three or four years. It was discontinued in 1952 after it became apparent that nearly all boys enrolling in the curriculum later transferred into a four-year curriculum.

## Barefoot Boy

Hanover, N.H. (U.P.)—Quarterback Billy Beagle of Dasville, Pa., specializes for Dartmouth as a barefooted kicker. His unshod kicks travel 65 yards or more. He wears a specially zippered shoe easily removed.

## Engineering Prof New Chairman Of Faculty Senate

Reed F. Morse, head of the department of civil engineering is the new chairman of the Faculty Senate. He was elected Tuesday afternoon at a meeting of the executive committee, after the College schools and extension had elected their members of the committee.

Others on the executive committee are Tom Avery, secretary, A. H. Brayfield, Tessie Agan, J. W. Lumb, and W. G. Amstein.

Avery is head of the department of poultry husbandry. Brayfield is head of the department of psychology, Miss Agan is acting head of the department of household economics, Lumb is a professor in anatomy, and Amstein heads the department of agricultural specialists.

## Eleven Picked By Math Frat

Eleven students were selected as new members of Pi Mu Epsilon, honorary scholastic mathematics fraternity, at a meeting Tuesday.

They are John R. Buck, EE Sr; I-Dee Chang, ApM Gr, Carol Clark, Mth Sr; William G. Fateley, Chm Gr; Hsienwen Hsu, ChE Gr; Donald E. Jones, Mth Gr; Robert D. Moorhead, PH Sr; Fred K. Rumford, Mth Gr; Warren T. Sommer, Psy Jr; Kiu Suk Suh, Pys Gr; Vernie A. Swanson, Psy Gr.

The following faculty members were elected officers for the year 1955-56: Arlin M. Feyerherm, assistant professor of mathematics, president; Ellis R. Lippincott, associate professor of chemistry, vice-president, and S. Thomas Parker, professor of mathematics, secretary-treasurer.

## Veterans To Meet

There will be an executive council meeting of the Veteran's organization Friday at 5 p.m., in the Student union, Jack Shroup, chairman of the committee, announced today.

## Carriage Trade

Du Quoin, Ill (U.P.)—Benjamin Harrison Rogers was arrested while weaving down a Du Quoin thoroughfare with his vehicle. The thoroughfare was a sidewalk. The vehicle was a baby buggy containing Rogers' 18-month-old son. Rogers pleaded guilty to drunkenness and was fined \$15.

## Female Vet Student Plans Practice With Vet Hubby

By FAITH MCCONNELL

Anna Hurlburt, VM Jr., is not only entering a "man's field" but is also raising a family and plans to graduate in the spring of 1956.

"I enjoy the work so much, and the fellows in my class are really quite gracious and helpful," Anna said. After graduation she plans to assist her husband, Jack, DVM '53.

Jack is a general practitioner in Leonardville community. Anna drives from Leonardville to classes each day.

THE HURLBURTS plan to find a permanent location where Anna can operate a small-animal hospital and Jack can go out on country and large-animal "calls."

Anna met Jack in veterinary school here. "He thought women didn't belong in veterinary medicine and was very disgusted that I was his lab partner," Anna said.

They were married December 1950 in Irvington, N.J., the home of Anna's parents.

ANNA'S EDUCATION was interrupted when Danny was born

in 1952. She taught music part time in Irving, near Randolph, and took care of Danny.

She re-enrolled as a junior last fall. Danny, now 3, goes on "calls" with Jack during the day. Anna usually gets home from classes about 4:30 p.m. in time to do her house work and fix dinner.

"The men in my family insist on two hot meals a day, so I fix an oven meal for Jack to warm up at noon, and I'm always home to fix dinner," Anna said.

THE HURLBURTS are expecting a second baby in May, but Anna intends to finish her senior year as usual.

"We can get a housekeeper for the children during the day; it won't be bad. Besides, there are more freedoms in the senior year," Anna said.

Like most of the veterinary students' wives on campus, Anna agrees that the family-life-and-classwork combination is hard work, but if she had it all to do over again she wouldn't do it any other way.

## Campus Briefs

**DOROTHY BARFOOT**, head of the art department; Vida Harris, associate professor of art; and Alice Gieger, assistant professor of art, are attending the annual meeting of the Western Arts association in Cleveland, this week.

**BUELAH WESTERMAN**, professor of foods and nutrition, is attending a meeting of the Federation Societies of Experimental Biology and the Institute of Nutrition, this week in San Francisco.

**SIX STAFF** members of the department of economics and sociology will attend the annual meeting of the Midwest Economics association in Omaha, April 14, 15, and 16.

Those attending are George Montgomery; E. S. Bagley, W. B. Nelson, Donald DeCou, Leo Cohen, and Mildred Buzenberg.

**GEORGE LEEDHAM**, violinist and music staff member, has been invited to play the Brahms Concerto for violin, cello, and orchestra at a national musical camp at Interlochen, Michigan, this summer.

This will be Leedham's eighth season as a regular staff member at the national music camp.

**DONALD D. PRETZER** and Ivan W. Schmedemann have been appointed assistant instructors in agricultural economics. Both will work in the agricultural experiment station and will assist in departmental research projects.

**TWO FORMER K-State** graduates were among those awarded doctor of philosophy degree at University of Minnesota commencement exercises March 17.

Charles Carson Halbower, formerly of Anthony, received his B.S. in 1947 and his M.S. in

1949, both from K-State; while Louis Powers Reitz, formerly of Belle Plaine, received his B.S. from K-State in 1930.

**FOURTEEN** members of the faculty are scheduled to take part in the state 4-H conference for club leaders and county extension agents, April 18 to 20. The conference will be held in the 4-H club building on the Kansas State Fair grounds, Hutchinson.

**JOHN F. HELM Jr.**, of the department of architecture and allied arts, will give a demonstration on water color work before the Reno County chapter of the K-State Alumni association at Hutchinson Saturday night.

He will be accompanied by Ernest Barrett, assistant alumni secretary.

### Night Out—And In

Lisbon, Portugal. (U.P.)—After touring the city in a taxi all evening with his girl friend, Francisco Sacadura Bretes told the cabbie to drive him to the city jail because he had no money to pay the fare. The cabbie obliged, and the police did the rest.

## Anti-Noise Campaign in New York City Drives Noise Meters to Booby Hatch

New York, April 14 (U.P.)—Anti-noise Week in New York is going over with a (sh-h-h-h) BANG!

Also with a s-c-r-e-e-e-ch, a rumble, and roar full-throated enough to frighten a herd of African lions. And in some sectors with "be qui-yut, stupid—wha' ya t'ing ya are, blowin' ya horn dat way, a fire engine or sumpin'?"

**A REPORTER**, bent on recording scientifically the silence of Be Quiet Week, started out with a sound meter, an electric gadget that records with a trembling needle the number of decibels of sound it hears.

Thus: 20-30 decibels, "quiet country residence"; 60-75, "conversation (average to loud)"; 90, "loud radio set"; 100-105, "loud motor horn"; 110, "vicinity of pneumatic drill"; 110-120, "vicinity of airplane engine"; 130, "threshold of pain."

Within 15 minutes, the meter was a nervous wreck.

It began throwing fits. Then it went plumb crazy, unable to feel pain even if had been on the threshold, and finally had to be taken to an electronic observation ward—probably ending up in a straitjacket.

**A LOUD BACKFIRE**, from a trailer truck, did it. The meter was on the sidewalk of a busy

freight street, ticking along between 95 and 100 and doing nicely when suddenly—BLAM! The needle flopped to the threshold of pain, and right through the threshold into the living room.

After that the thing was no good. The reporter had to go it alone, depending on his own ears. For the governor's information, it'll take some mighty loud shushing to quiet this city down to the shouting level.

**ON A SUBWAY** train known as the "Lex. Ave. Express," the windows were open as it roared uptown. The passengers stared at each other, unable to talk above the racket. Two conductors (one apparently off work) talking on the swaying car platform, sounded like this:

First conductor (waving arms and shouting): "Started out . . . argle blednah blonk dodle . . . three months ago . . . reglo flub."

Second conductor (his ear six inches from the other's mouth): "What's 'at?"

They kept it up. And got nowhere. The reporter approached and shouted: "Do you know this is Noise Abatement Week?" The first conductor cupped his ear. "Boys in what basement?" he yelled.

**THE REPORTER** debarked at a midtown corner. He found one of those hopeless traffic jams,

horns going for a block in all four directions. A taxi driver screamed at another: "'Cha watch where ya goin'—bird brain?" The other driver's lips moved. His face was scarlet. But no sound from him broke through the sound level of the horns.

Then to the 14th floor of the Socony-Vacuum building, now under construction, where 15 gangs of riveters were tearing the air to little pieces. There Chris Hauge, the forman, turned philosopher.

"**I BEEN ON** this kind of work since 1911," he said. "I think this stuff is good for your nerves. You get used to it being noisy, and then when you get off work you're not nervous—don't jump at every little noise like some people."

"I been married 38 years today. My wife never yells at me. She knows it wouldn't do any good."

Dear Governor: Shhh.

### Postman's Holiday

Cleveland, Ohio. (U.P.)—The newly appointed postmaster, Joseph S. Frantz, a postal career man, really takes his work seriously. He not only puts in his 40 hours per week, plus, but he gives much time to a hobby—collecting stamps.

### ARE MEN

"Jewelry  
Conscious?"

By Bob Smith

If you should ask Beau Manly, men's fashion editor of one of America's greatest newspapers, he would tell you that never before in the history of men's wear has the wearing of smart jewelry been so popular.

"The jewelry stores of the United States have done an outstanding job," he writes in his widely read column, "in promoting jewelry for well dressed gentlemen. Men's rings, especially those with crested designs, are being worn by men of all ages. And of course, the plain signet ring with a simple initial, continues strong as ever."

I'm sure you know that men are definitely "jewelry conscious." Look at the large display of jewelry accessories we are carrying now. Never have we had so many original and attractive designs in cuff links. And the best part of the new cuff links is their low price. The new Swank links start as low as \$1.65, and for \$5.50 you can get fine quality gold filled or sterling.

Why don't you come in today and look over our large display of men's jewelry. Our prices are very, very reasonable. Robert C. Smith Jewelry, 329 Poyntz Ave., Phone 82595.

NUMBER 122

### Treacher Captivates Manhattan Audience

By OREN CAMPBELL

Arthur Treacher's performance in the Auditorium was thoroughly appreciated by nearly 1,000 persons in the audience if laughter can be used as a gauge of his success.

The humorist, who is noted for his portrayal of English butlers in the movies and on the radio, was liked immensely by the audience, but his 80-minute performance seemed always as if an English butler actually was addressing a K-State audience. Most of the time he seemed to place himself on a level just a little bit above that of the audience, but several times he succeeded in achieving a down-to-earth impression.

HE MASTERFULLY located the audience's sense of humor—which he described as something that makes you laugh at something that you'd be sore at if it happened to you.

Treacher's entire program was based on the assumption that he would be able to get the audience in the palm of his hand and get them to laugh at the right moments. He succeeded so masterfully that at time he could have evoked laughter at the mere shrug of a shoulder.

He began by telling humorous incidents about his life, including his start in Hollywood. He noted that "in Hollywood success is relative. The closer the relative, the greater the success."

In a description of a breakfast club, he began by stating that the chief object of such a club is to get rid of a lot of old orange juice. He described the chairman of the club who never could pronounce a name correctly, but who never failed to ask "And what do you think of our town?"

One of Treacher's most laugh-provoking narratives told how a wife gets her own way. "First she takes her husband on a mental tour of disaster, frightening him badly, and then signs him up while he's groggy."

"THE ENTERTAINMENT described a television show with a panel composed of doctors. It was called 'What Have I Got?' The contestants, he said, are wheeled in and examined, and the winner is the one with the most incurable illness. An appropriate prize, Treacher suggested, would be a year's supply of Band-aids.

He described himself as "an old, old-timer—a guy who remembers when baby sitters were called mother."

Treacher did everything from singing to reciting poetry. His performance included Saki's "The Mouse," James Thurber's "Uncle in the Garden," and the P. G. Wodehouse butler Jeeves.

### Student Health

Patients at Student Health today are Connie Dondlinger, James Ruckman, Keith West, Larry Lowe, and Don Nickerson.

### Appreciative Crowd Attends Water Show

"Starfish Stunts," in last night's presentation of the annual Frog club show, received the most applause from the small first-night crowd.

Fish nets and greenery provided the background for King Neptune's shell-shaped throne in "Neptune's Fantasy." The show will be presented again tonight and Saturday night at 8 p.m.

The show opened with the preparation of the courtroom for the entry of the king, proceeding to the court celebration. Dances by mermaids and sailors were also attractions of the water show, which was presented under an array of colored lights.

### KSDB To Welcome High School Girls

KSDB-FM, the student radio station, will hold open house all day Saturday in co-operation with Hospitality Days, George Carroll, faculty supervisor of the station, said.

A special broadcast is planned during the day featuring interviews with visiting students. KSDB-FM's studios are located on the third floor of Nichols gymnasium.

## Mariellen Jones Directs Large Planning Committee

By GAYE FRYER

Hospitality Days has been planned and publicized under the direction of general chairman Mariellen Jones, HDA Sr, and her assistant, Delaine Smith, HEA Jr. General advisor of Hospitality Days is Miss Margaret Raffington, assistant professor of home economics. Faculty advisor is Miss Barbara Densmore, instructor in clothing and textiles.

EXHIBITS ARE under the direction of Sylvia Hyde, HT Sr, and Mrs. Coral Aldous, associate professor of child welfare, advisor. Jone Clugston, Clo Sr, is clothing coordinator; Ann Alderman, HEA Sr, art coordinator; and Betty Brammell, FdN Sr, and Judy O'Neal, FdH Soph, foods coordinators.

Badges, used for identification purposes during Hospitality Days, are being made by a committee of which Pat Suddath, HEA Sr, is chairman. Mrs. Opal Hill, is advisor; Dorothy Sturgeon, HEA Sr, Alice Jo Schulze, HT Soph, and Pauline Gibson, HEB Sr, are on the committee.

Luetta Bartel, DIM Sr, is chairman of box lunch for Saturday noon. Mrs. Merna Zeigler, is advisor; Carrilee Shipp, HE Fr, is in charge of the clean up; Barbara Johnson, HT Soph, program; and Margaret Harmon, DIM Sr, and Marian Hamilton, DIM Sr, are hostesses.

BUYING FOR Hospitality Days was under the direction of Shirley Sarvis, HE Soph. Miss Geraldine Gage is advisor; Bette Brown, ChW Jr, Betty Tillotson, HEN Soph, Ann Colburn, HT Soph, Marge Hamon, HE So, Norma Mase, HE Jr, and Marilyn Jacobs, HEN Fr, are on the committee. Helen Morris, HT Sr, is in

charge of the Friday afternoon program. Mrs. Marguerite Umberger is advisor; Pat Humble, HT Jr, and Sara Howard, HT Jr, are in charge of invitations; Beth Fulton, HT Jr, and Cynthia Collingwood, HT Sr, skit; and Joyce Lestor, HE Soph, and Virginia

Roenbaugh, HT Soph, properties. Guides and tours have been planned by Kathryn Regier, HT Soph. Mrs. Marguerite Umberger is advisor; Joyce Rawlins, HDA Soph, is in charge of campus tours; Fleeta Weigel, HEN Soph, (Continued on page 5,

### Dean Schlaphoff Praises Home Ec Hospitality Days

By MARJORIE HAMON

Almost three times as many high school students attend K-State's Hospitality Days as go to the home economics open house at Nebraska university, according to Dean Doretta Schlaphoff, who was home economics chairman at Nebraska university before becoming dean of Kansas State's School of Home Economics.

"At Nebraska this annual event lasts one day and includes such activities as style shows and skits portraying college life," explained Dean Schlaphoff.

She is pleased that even though there are over 500 home economics majors enrolled here, each student has some part in the planning or entertainment of the guests.

"This home economics event is a wonderful way for college students to tell others about home economics," Dean Schlaphoff pointed out in the interview.

### Exhibits, Tours Are Scheduled

Exhibits open at 2 p.m. to begin the 25th annual Home Economics Hospitality Days. A program in Rec center at 2:30 p.m. and coffee hour in Calvin lounge from 3 to 5 p.m. are also planned for visitors this afternoon.

Kansas high school girls and home ec teachers will be guests Saturday from open house beginning at 8 a.m. Registration of visitors will be in Rec center.

Tours of the exhibits will go through Anderson, Kedzie, and Calvin halls from 8 a.m. till 1:30 p.m. Tours of the campus, home management houses, cafeteria, and nursery school are scheduled for the morning.

Nearly 800 visitors have made reservations for the box lunch in Nichols gym, according to Luetta Bartel, DIM Sr, box lunch chairman. About 45 school groups are expected for the lunch.

A career program, "Home Economics Opportunities at K-State," will be shown all morning in Anderson 212.

The style show will begin at 1:30 p.m. The theme is "Key to Your Wardrobe." Clothing projects and original designs will be featured in the show.

Following the style show, Northwest and Southeast halls will be open for teas. Tours of the dorm have been arranged for the high school girls.

Mariellen Jones, HDA Sr, chairman, Delaine Smith, HEA Jr, assistant chairman, and Miss Margaret Raffington, advisor, headed the steering committee.

Members of the committee were Miss Bartel, Betty Brammell, FdN Sr, Jan Corwin, HEA Sr, Doreen Cronkite, HEJ Sr, Helen Morris, HT Sr, Peggy Howard, HEJ Jr, Donalee Meyers, HT Jr, Lois Perry, HEA Jr, Kathryn Regier, HT Soph, Shirley Sarvis, HE Soph, Betty Winkley, HE Soph, Pat Suddath, HEA Sr, and Elaine Woodbury, HT Sr.

Faculty members of the planning group are Miss Barbara Densmore, Miss Geraldine Gage, Mrs. Frances Hafermehl, Mrs. Marjorie Hemphill, Miss Elsie Miller, Miss Iva Mullen, Miss Vonnell Todd, and Mrs. Marguerite Umberger.

### Oldest Grad Searched For, Reports Ford

Kansas State is seeking to locate its oldest living alumni, according to Kenney L. Ford, alumni secretary.

To date, the oldest graduate appears to be Mrs. Ella Child Carroll of Manhattan. A graduate in 1877, she will be 99 years old September 7.

Mrs. Carroll must bow in the matter of being the earliest living graduate, however, since Mrs. Nellie Kedzie Jones, now 97, graduated with the class of 1876. She now lives at Madison, Wis.

Oldest male graduate still living is William Sikes, Leonardville, who was graduated with the class of 1879. He will be 97 in August.

### Fair . . .

Topeka, April 15 (U.P.)—Continuing fair and warm weather is in store for Kansas, U.S. Meteorologist Tom Arnold predicted today, although he said a minor cool front will move into the state late Saturday afternoon.

Rain is not expected today but light spring showers probably will accompany the cool front.

Photo by J. R. McLeiland

A BADGE IS SOLD to Luetta Bartel, DIM Sr, by Shirley Hundley, HDA Fr, as Pat Suddath, HEA Sr, looks on. The badges for Home Economics Hospitality Days were designed by Miss Suddath. They feature a red and silver key motif.

# McCain Welcomes Open House Guests

It is a genuine pleasure to welcome to our campus you who are our visitors for Home Economics Hospitality Days.

I am confident that you will find the various exhibits prepared by our Home Economics students to be both interesting and instructive. These exhibits indicate the variety and diversity of professional skills cultivated through training in home economics. Even more significant, they emphasize the vital importance of home economics to the health, comfort, and general well being of the American people. I take especial pride in the fact that these exhibits reflect outstanding ability and professional zeal on the part of the students and teachers in the Kansas State College School of Home Economics.

As you are probably aware, our School of Home Economics is the oldest and one of the most distinguished in the nation. Partly in recognition of this fact, the 1955 Legislature has appropriated one and a half million dollars for the construction of a new Home Economics building on our campus. You will find a model of this new building on display in Calvin Hall. This new building is one of many assurances that Kansas State College will maintain a position of high national leadership in Home Economics.

James A. McCain  
President

## Chairman Praises Student Cooperation

Welcome to the 25th annual Hospitality Days at K-State. The students and faculty of the school of home economics have been looking forward all year to this opportunity to show others what our school is doing. We hope that you all enjoy the special programs and exhibits offered to you as "Home Economics Opens the Door."

A thank-you goes to each of the hundreds of persons who has had a part in making this silver anniversary event one of the best in Hospitality Days history.

Mariellen Jones  
General chairman

### Movie Review

## 'Vera Cruz' Casts Cooper True to Type

Picture one disillusioned New Orleans gentleman turned soldier of fortune. This is type-cast Gary Cooper. Now imagine a rough-and-ready adventurer with flashing eyes and white teeth. This is Burt Lancaster. These two team up in Mexico and hime themselves out to the government to haul some gold to Vera Cruz.

But all is not golden along the way. They meet difficulties. Such as revolutionaries, a lady pickpocket (Sarita Montiel), a countess (Denise Darcel), and one of the emperor's nastiest right-hand man (Henry Brandon). Denise is also kept busy playing Burt against Gary in the many internal bouts. Cesar Romero's in it too.

"You know how fast he jumps into bed--well, last night we 'short-sheeted' him."

### Today's World News

## Viet Nam Government Faces New Violence

Compiled from the Wires of United Press

By DICK CARR

Saigon, Indochina—Rebellious bands staged hit-and-run attacks on loyal outposts in the out-country and hurled grenades in Saigon itself in a new outburst of violence against the government of American-backed Premier Ngo Dinh Diem.

One Viet Nameese soldier was killed and six others were wounded in two grenade attacks in Saigon. One of the grenades was tossed at a group of government troops in the heart of Saigon's teeming suburb of Cholon, stronghold of the rebellious sects. The other exploded in front of central police headquarters, nerve center of the incubating civil war, but caused no injuries.

Diem was forced today to cancel his proposed trip to the Afro-Asian conference at Bandung because of the rising tension and the threat of continued bloodshed in South Viet Nam.

Southwest of this capital, blockaded by rebels, guerrilla warfare cracked anew throughout the rich rice country of the lower Mekong. Rebel Gen. Ba Cut and his Hoa Hao troops harried more than a score of government army posts in western Cochinchina with rifle and machine gun fire.

The blockade of Saigon allowed only a trickle of food to get through. Residents were tightening their belts and the price of rice skyrocketed.

News was received here this morning that Ba Cut had bombarded and destroyed a fleet of heavily-laden rice junks bound for Saigon in a waterway between Sadec and Long Xuyen.

### Russian-Austria Treaty Agreement Made

Moscow—Austria and Russia signed today a new state treaty agreement in which the Soviet promises to withdraw its occupation troops by the end of this year if a formal treaty can be put into effect by then.

In doing so Russia dropped its insistence on keeping occupation troops in Austria indefinitely and thus removed one of the major points blocking a treaty agreement with the United States, Britain and France.

The agreements signed today in the form of an aide memoire wiped out in four days of Austro-Soviet talks a 10-year-old impasse in the cold war. Both Austria and Russia appeared optimistic the agreements would be approved by the West.

### Red Air Crash Charges Rejected by Britain

London—Britain today firmly and formally rejected Peiping charges that British negligence was responsible for the crash of an Air India transport carrying Red Chinese diplomats to the Afro-Asian conference in Indonesia.

Communist China had charged the chartered airliner crashed Monday into the China Sea because of American-directed sabotage and British carelessness at Hong Kong. The U.S. state department promptly dismissed the accusation as "ridiculous."

Informed sources said British Charge D'Affairs Humphrey Trevelyan would deliver Britain's formal rejection of the charges to Peiping authorities today.

### New U.S. Jet Will be Faster Than Expected

Washington—The air force's new F-102 interceptor has been given more speed by last minute research discoveries.

Authorities said the jet, which will become the nation's front rank interceptor for the defense of North America, should be ready for combat units late this year.

Scientists added speed to the plane by solving air resistance problems which had prevented supersonic speed in the first models in late 1953.

New speed of the plane is estimated at well over 800 miles-an-hour.

FALL COLLEGIAN editor Gary Swanson and business manager Janet Myer.

SUMMER COLLEGIAN editor Don Kendall and business manager John Burgess.

ROYAL PURPLE editor Sam Logan and business manager Peggy Howard.

# Board Names Editors For Collegian, R P

Gary Swanson, TJ Sr. and Janet Myer, Mth Jr, were named to head the fall semester Collegian by the Board of Student Publications yesterday, according to Doreen Cronkite, member of the board. Swanson was chosen editor and Miss Myer will be the new business manager.

In other selections by the Board, Sam Logan, TJ Jr, was named editor of the Royal Purple and Peggy Howard, HEJ Jr, was named business manager. Don Kendall, TJ Sr, was picked to edit the summer school Collegian and John Burgess, TJ Jr, will be the business manager.

Swanson is currently business manager of the paper, as well as news editor for the Tuesday edition of the Collegian. He formerly held the positions of ad salesman and associate business manager. He worked on the editorial staff of the Royal Purple for 2 years and served as a member of the Board of Student Publications. Swanson is a recipient of several K-Key awards and is past president of Sigma Delta Chi.

Miss Myer is associate business manager of the Collegian this year and has worked in the business office for the past five semesters. She is a recipient of a K-Key award.

Logan is associate editor of the Royal Purple this year and was sports editor last year. He was editor of the Collegian spring semester last year and has been wire editor and news editor. Logan is a member of Sigma Delta Chi and has received several K-Key awards.

Miss Howard has worked on the advertising staff of the yearbook this year.

Kendall has been a staff reporter and this semester was assistant sports editor and Thursday news editor of the Collegian. Burgess is an ad salesman for the paper this semester.

## Deans Veto Plan For 'Senior Day'

Permission for a "Senior Day" in which all seniors would be excused from classes has been refused, according to Bob Tointon, senior class president.

The proposed plan by the senior class activity committee would have given the seniors May 11 off from classes to participate in a tour through the new student union, a picnic, and a dance in the evening. A late night for girls was also planned.

Tointon said that the deans of all of the schools refused to grant permission for exemption from classes on May 11.

# Why do more college men and women smoke VICEROYS than any other filter cigarette?

## BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
3. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
4. Smokers en masse report that filtered Viceroys have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
5. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroys cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 TINY FILTER TRAPS . . .  
plus Richer, Smoother Flavor

# Freshman Scholarships Available

By JEANNE ARNOLD

A large number of scholarships are offered to students enrolled in home economics, according to Miss Doretta Schlaphoff, dean of the School of Home Economics. "We in the home economics department are proud to have such a large number available," she said.

Among the scholarships available to high school seniors interested in home economics is the Carl Raymond Gray scholarship for the high school graduates who have been active in 4-H and are from a Kansas county served by the Union Pacific railroad. The Kroger scholarship is also offered high school graduates who have been active in 4-H work and home economics.

The Sears, Roebuck scholarships are offered to high school graduates majoring in home economics who possess a distinguished high school and community service record and who need financial aid.

The Restaurant Management scholarship is offered to a high school graduate who is a resident of Shawnee County. The student must have a good high school record and must plan to enroll in the restaurant management curriculum.

A general scholarship is offered high school graduates who show promise of success in college study as demonstrated by their high school record and performance on aptitude tests. Receivers of this award must also have commendable personal characteristics and a need for assistance.

The Panhellenic Council scholarship is available for freshmen and sophomore girls who are residents of Kansas. This scholarship is awarded on the basis of high scholarship and need for assistance.

Topeka high school seniors interested in the home economic field are eligible for the Topeka Home Economics Association scholarship. From the five Topeka high schools two students are awarded these scholarships.

Each high school in the greater Kansas City area elects a girl for the Greater Kansas City Home Economics Association scholarship. One girl is chosen from these to receive the scholarship.

Among scholarships offered upper classmen are Borden, Margaret Burtis Memorial, Martha S. Pittman Award, Fern and Sheldon Storer, LaVerne Noyes, Margaret Justin Home Economics club, Danforth and Home Demonstration Council scholarships.

"All applicants for these are carefully screened by a scholarship committee consisting of staff members of the School of Home Economics," Miss Schlaphoff stated.

## 2 Staters Named To GOP Offices

Bob Jepson, BA Jr, was elected first vice-president of the Kansas Federation of Collegiate Republican clubs at its annual convention held recently in Wichita. Shirley Davis, DIM Jr, is new secretary of the organization.

## K-Staters' Appetites Hearty, Says Cafeteria Director

By BETTY THEISS

About 3,000 meals a day are served in the cafeteria and the four women's residence halls, according to Mrs. Bessie West, head of the department of institutional management. This department is responsible for all food service on campus, except in the Student Union and Student Health.

All food that is ordered for smokers of different organizations, or any meals served in Nichol's, is prepared by the staff of the cafeteria.

There are 42 regular classified employees on the food service staff. On hundred twelve students work part time; 40 work part time in the cafeteria, and the remainder work in the residence halls or in the athletic cafeteria.

Menus are planned for the residence halls by eight dietitians. At a menu-planning meeting each week, one of the eight dietitians presents a tentative menu plan

for an entire week. This plan is discussed by the other members of the dietetics staff. All menus are considered for their nutritional value, and for the variety they add to a meal. Menus are planned two weeks in advance.

In addition to the regular meals served in the cafeteria, many special meals are prepared and served. During the month of February there were only two days when at least two special meals weren't served.

It is hard to believe just how much students are capable of eating, but the figures tell the story. As an example, during January the total meat bill for the four women's residence halls was \$5,113. The athletes consume \$3,500 worth of meat in the athletic cafeteria the same month.

Coffee drinkers seem to be in the minority on campus as compared with the milk drinkers. In January, the girls in the dorms drank 18,730 pints of milk and the athletes drank 4,500 pints. Fifteen gallons of milk were used in the dispenser in the cafeteria each day. There were no available facts about the number of pounds of coffee purchased that month, but Mrs. West said that the amount was very small when compared to the total amount of milk purchased.

## West Writes New Edition

By MARY FICKEL

Mrs. Bessie West, head of the institutional management department, has a book just off the press, the new third edition of *Food Service in Institutions* by Bessie West and LeVelle Wood.

Mrs. West received her AB and MA degrees in nutrition and institutional management from the University of California. While on leave from Kansas State college in 1938, she organized the University of Hawaii's department of institution management. She has served both as president and secretary of the American Dietetic association.

Miss LeVelle Wood has taught home economics and institutional management at Kansas State college and is now professor of home economics at Ohio State university.

The aim of this book, which is used by more than 50 colleges and universities with departments of institutional, restaurant, and hotel management, is to help prepare personnel to manage the 541,050 food services in the United States. Other groups which find this book helpful are hospital dietary departments, commercial food services, school lunch rooms, industrial cafeterias, and food services of the armed forces.

## Education Theme Shows Opportunities For HE Teachers

By BEVERLY LEE

"Home economics education opens the door to your future" is the theme carried out in the education exhibit for Hospitality Days in A213, Avis Tromble, HE Jr, chairman, said.

The exhibit will show some of the courses that a girl in home ec education will take while in college. A few of the subjects under each major heading of education, art, foods and nutrition, clothing and textiles, child and family development, and household economics will be shown. The theme will follow the idea that these courses will open the door to the student's future.

Another feature of the exhibit is a large map of Kansas that will show where the K-State graduates are teaching home economics. Ribbons will lead from the graduates names to the towns on the map where they are teaching.

## Saturday Tours To Show Campus, Exhibits, Nursery

By ELAINE OLSON

Eight tours are planned for the Hospitality days guests Saturday morning. Kathryn Regier, HT Soph, is chairman of the tours committee.

Four tours will leave the Auditorium at 9:30 a.m. One is planned for Thompson hall, another for the home management houses, one for the nursery school, and one for the northern part of the campus and Ahearn Field House. The same four tours will be conducted again at 10:15 a.m.

Home economics students will serve as guides for the eight tours. Joyce Rawlins, HDA Soph, is chairman of the guides committee.

The general routing of all visitors through the exhibits was mapped out by Miss Regier. The visitors will come into Anderson hall through the front door and into Rec center for registration.

Guides have been appointed to take the visitors through the exhibits. Hostesses will be present to answer questions and to help direct the guests during the two-day function. Fleeta Weigel, HEN Soph, is chairman of this service.

Eugenia Jern, HE Soph, is in charge of making the markers along the routes to direct the guests. The markers are in the form of a key, the symbol of the event.

## Style Show Features Freshman

By JO ANN HUNT

The Hospitality Days style show this year features a mythical freshman girl, according to Betty Winkley, chairman. The setting is a dormitory room.

Models will wear the proper costumes for church, sports, dance, informal tea, classroom, dormitory, and casual wear. Later in the review there is a parade of costumes from the flapper age.

The style show will be Saturday, April 16, at 1:30 p.m. in the Auditorium. Most of the

clothes modeled have been made by the girls.

Hospitality Days exhibit chairmen will be introduced at the show. Fourteen members of Sigma Chi fraternity will present a short skit during the intermission.

### Retired?

Kittery, Maine (U.P.)—John H. Foye, retired master boatbuilder of Kittery, observed his 80th birthday by working on construction of his 12th lobster boat.

# Original Designs, Methods Shown in Clothing Exhibits

By SHIRLEY SARVIS

An \$11 black felt jumper-dress that can serve the college girl for shopping, campus, church, and semi-formal wear will be shown in the Selection of Clothing exhibit for Hospitality Days.

Change of accessories, to be demonstrated by a model in the exhibit, will transform the basic dress into an ensemble suitable for all four occasions.

Advised by Prof. Alpha Latzke, the Selection of Clothing exhibit will also explain the requirements of a basic dress, according to Jan Kraft, HE Fr, exhibit chairman.

Hostesses for the display are Marge Janasek, HT Soph, Emily Booth, FdN Fr, Virginia Eaton, HT Fr, Beverly Brown, Chm Fr, Mary Jane Harri, HE Fr, La Rue Fikan, HEB Fr, Elizabeth Grimble, HE Fr, Catherine Griffin, HDA Fr, Suzie Cliborn, HEJ Fr, Ann Grothusen, EEd Fr, Margaret Seeliger, HE Fr, and Ann Nicolay, HE Fr.

**HOW TO MAKE** a Mademoiselle cover page fashion without a pattern will be shown with a plaid taffeta cocktail dress made by Eleanor Griffith, HE Jr.

This demonstration plus a display of five completed garments designed and made in class will form the Allied Dress Design exhibit.

A white faille princess dress trimmed in an avocado green will show how Joanne Ketchum, HT Jr, designed the dress to match a pair of avocado shoes with white trim. She will also show a plaid cotton with a torso waistline.

Original designs for fur-trimmed wool dress, a dark green rayon, and a net formal will also be displayed.

Exhibit chairman is Eleanor Griffith; her adviser is Prof. Gertrude Lienkaemper.

**THE LONG-WAISTED** "torso look," so popular this spring, is adapted from flapper fashions of the 1920s.

This and 23 other modern adaptations of styles from historic periods will be shown in picture displays by History of Costume classes.

With Datha Lauber, Clo Sr, as chairman and Prof. Gertrude Lienkaemper as adviser, this exhibit will be shown in C 209.

**GAY COTTON** blouses and summer dresses made by Fundamentals A and B students will form that exhibit, according to Mary Ek, HEJ Soph, chairman. Also to be shown will be a rayon dress and a charcoal gray skirt and jacket ensemble.

Hostesses for this display will be Mary Jane Murray, HE Fr, Loyce Cheatham, HE Soph, Maurine Schrag, HE Fr, Sylvia Leasure, HDA Soph, Carol Ernst, HE Soph, Cynthia Henning, Clo Soph, Glennis Unruh, HT Soph, Donna

Rogers, HT Soph, Jean Kruger, HE Soph, Betty Childs, HE Fr, Barbara Lewis, HE Soph, Carilee Shipps, HE Fr, Rosemary Gladhart, HE Soph, Sandra Mueller, HEB Soph, Kay Wadsworth, HT Fr, Naomi Holling, HT Fr, and Carolyn Davis, HT Soph.

**A MOBILE** consisting of an artist's palette and sewing supplies will demonstrate the slogan, "Tailoring is an Art," in the Tailoring exhibit.

Complete steps for achievement of a finished suit and accessories will be displayed with a suit made by Marilyn Walker, HT Sr.

The exhibit will demonstrate finishes and techniques of tailoring, according to Rosemary Kennedy, HT Sr, chairman, and Prof. Hazel Howe, adviser.

Completed ensembles, based on suits made in class, will be shown by JoAnn Henderson, Clo Sr, Carol Peterson, Clo Sr, Jone Clugston, Clo Sr, Thelma Yung, HT Soph, and Phyllis Roggendorff, HDA Jr.

**A NEW KIND** of neck facing—

the "clean finish"—will be demonstrated at the construction Techniques exhibit.

Novelty machine stitches and use of such sewing machine attachments as tuckers, hemmers, and rufflers will also be illustrated.

Beverly Larson, HT Sr, is exhibit chairman; Miss Hazel Howe is her adviser.

**DRESSMAKING STEPS**, from those for half-size patterns to the completed dress, for a garment made last semester by Katherine Takasashi, HT Soph, will be shown in the Applied Dress Design exhibit.

Completed dresses of Mary Slantz, HT Jr, Arvilla Kruger, HE Soph, Joan Trimmell, HE Soph, Suzanne Dean, HDA Jr, Kay Broman, HE Soph, and Ilene Dondlinger, Clo Jr, will also be on display.

To be seen in C 209, this exhibit is under the chairmanship of Joan Trimmell, HE Soph, and is advised by Miss Alberta Curry.

## Economics Exhibit Outlines Plan for College Expenses

By KITTY OSWALD

An average girls expenses during a month at college will be shown in the household economics exhibit in Anderson 211 during Hospitality Days. The average spending of 28 freshmen girls for the month of March will be shown in chart form.

Future brides will be interested in the wedding budget which is also a part of this exhibit. This budget was chosen from those planned by the girls in the family finance class.

Sources of information used in this class will complete this display table. A few of these are income tax forms, social security pamphlets, health insurance, and check books.

The theme, Avenues of Household Economics, is carried out by a second display table. Here everyone can see how the courses offered in this department will contribute to business and family life. The courses illustrated are Family Finance, Consumer in the Market, Household Equipment, The House, and Home Management.

Homemakers can pick up helpful points on how to choose small electrical equipment at a third display table. A check list will evaluate the good points of the individual pieces of equipment.

People planning a new home will find the house plans displayed on the wall useful and interesting.

Friday, April 15, 1955—6

## Weaving Projects To Be Exhibited By Textiles Classes

By BEVERLY LEE

Materials woven by home ec girls will be featured at the Textiles exhibit in C 218 for Hospitality Days, according to Janet Wann, chairman.

The three weaves done by the girls are plain, satin, and twill. The loom that the materials were woven on will also be shown.

"We're showing some examples of the work that the girls are doing in their Textiles classes," Miss Wann said. The different kinds of weaves, types of finish for fabrics, and types of design will be shown in examples.

A cotton exhibit sent out by the National Cotton Council will feature different types of cotton fabrics available today, plus an example of celanese, a synthetic fiber.

Consumer information will be offered on how to buy towels, sheets, and curtains. Poster and examples of different types of curtains hung in the room will be added guides. Hostesses will be on hand to answer questions.

## Church News

### College Religious Group To Hear Marriage Talk

"Are Marriages Made in Heaven?" is the topic which the Rev. Kenneth Huyck will discuss at the Roger Williams Fellowship meeting Sunday at 5:15 p.m. Supper and recreation will precede the program. Sunday school will be at 9:45 a.m. and church at 11 a.m. Devotions will be held in Danforth chapel at 7:40 a.m. on Tuesday and Thursday, and at 5 p.m. on Friday.

#### Newman Club

There will be a coffee hour following 9 a.m. Mass Sunday at the Church of the Seven Dolors.

Group discussions will be at 7 p.m. Monday in J15. Choir practice will be Tuesday at 7:30 p.m. at the church. Daily rosary and 7 a.m. Mass will be in Danforth chapel on Friday.

#### Sigma Eta Chi

Telse Junge, BMT Fr, told of customs in Germany at the meeting of Sigma Eta Chi Tuesday evening. The group met in the home of a patroness, Mrs. Ray Weese, 1716 Colorado. Katy McIntire, who spent the past four years in Turkey, showed costumes of that country. The next meeting will be installation of officers on May 3.

#### Kappa Beta

New officers for 1955-56 are Ellen Flottman, Clo Jr, vice-president; Magie McKelvey, Clo Jr, recording secretary; Donna Knoche, HT Fr, corresponding secretary; Mary Lou Ficke, EEd Fr,

treasurer; and Rita Allen, HE Fr, pledge trainer.

Kappa Beta will meet with the junior deacons for a picnic on Tuesday.

#### Gamma Delta

The Lutheran Students Association and Gamma Delta will have a joint meeting at 5 p.m., Sunday, April 17, at St. Luke's Lutheran church, 330 North Sunset. Gamma Delta will serve the supper at 5 p.m. Members of LSA will provide the program for the evening. Rev. Schmidt, pastor of St. Luke's Lutheran church, will conduct the vesper service to close the meeting.

#### Wesley Foundation

The Foundation will conduct a hike Friday at 5:30 p.m. Open house at Wesley will be Saturday until 11 p.m. The Rev. Ray Wonder will speak at the 9:50 a.m. Sunday school. His topic will be "The Presence of Christ."

Church school will be at 11 a.m. at the Wesley Foundation. Fellowship will be at 5 p.m. and the luncheon at 5:30. Francis Reichart and Wilma Larkin are in charge of the program at 6 p.m. The subject will be "Thinking Christians."

### Eastern Star Award To Student Mason

Juniors who are members of the Eastern Star or Masons or whose parents are members of a Kansas chapter are eligible for the Order of Eastern Star scholarship, Phil Sorensen, secretary of the general scholarship committee announced.

The \$100 scholarship is given to a junior boy or girl for use during his or her senior year. It is awarded on the merit basis of scholastic standing, character, leadership, and promise of usefulness.

Interested students may apply for the scholarship in the dean of students office and must present credentials showing Masonic or O.E.S. relationship, Sorensen said.

The present holder is James D. Dickson, Jr., Eng. Sr.

### Blood Contributed By ME Honorary

Eight members of Pi Tau Sigma, mechanical engineering honorary scholastic fraternity, donated blood to the Manhattan blood bank April 12.

The donors were Don Schimpf, ME Sr, James Burris, ME Sr, Gene Martin, ME Jr, Roger Alexander, ME Jr, Roger Wilcox, ME Sr, Robert Miller, ME Jr, Loren Toevs, ME Sr, and Forrest Funk, ME Sr.

### Baker Elected Ag Ed Prexy

Richard Baker, AEd Jr, has been elected president of the Ag Education club for the fall semester.

Other officers are Stanley Larson, AEd Jr, vice-president; David Mugler, AEd Jr, secretary; Virgil Norton, AA Soph, treasurer; Arnold Apleby, AgE Soph, reporter; Jerry Thompson, AEd Jr, parliamentarian; Paul Faidley, Ag Fr, sentinel; and Gilmore Dahl, AEd Soph, ag council representative.

You'll be pleased with a Collegian want ad.

### Kiwanis Donates For Music Grant

A contribution of \$52.50 toward a scholarship for a music student at Kansas State was made recently by the Manhattan Kiwanis club.

The check was presented to the K-State music department at a recent dinner meeting of Kiwanis by Reed F. Morse, acting president.

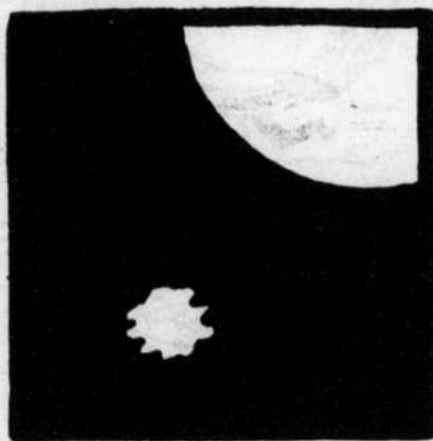

Entertainment at the dinner was by the K-State Singers, conducted by William R. Fischer. The group gave a 30 minute program, in concert version, of music from the musical comedies "Oklahoma," "South Pacific," and "Porgy and Bess."

# Varsity Gridders To Clash With Alumni Tomorrow

## Varsity Ends Spring Drills

K-State's varsity football squad will use its last spring practice session of the season Saturday to renew varsity-alumni grid warfare in Memorial stadium. The game is to start at 2 p.m.

This football game is part of a two-ring sports affair which will start Saturday morning at 10 with a baseball game between K-State and Nebraska.

The probable varsity lineup to face the alumni includes eight lettermen from last season, a sophomore, and two freshmen, coach Bus Mertes said.

**THE PROBABLE** backfield starters include Bob Whitehead, '54 letterman, quarterback; Bill Carrington, '54 letterman, right half; Kenny Nesmith, '54 letterman, left half; and Doug Roether, '54 letterman, fullback.

In the line will be Jim Rusher, '54 letterman, left end; Charles Zickefoose, '54 letterman, right end; Ellis Rainsberger, freshman, left guard; Rudy Bletscher, sophomore, right guard; John Keelan, freshman, left tackle; Frank Rodman, '54 letterman, right tackle; and captain Jim Furey, '54 letterman, center.

**THE SECOND UNIT** has Dick Corbin, freshman, quarterback; Ralph Pfeifer, freshman, right half; Richard Allen, freshman, left half; and Raymond Glaze, freshman, fullback.

The second-unit line includes Don Zadnik, freshman, and Lee McCluggage, sophomore, at ends; Billy Lindsey, freshman, and Ron Nery, '54 letterman, at tackles; Bob Hilliard and Burt Schmidt, '54 lettermen, and Bill Pulford and John Carlson, freshmen, alternating at guard; and Ted Heath and Ralph Graham, freshmen, alternating at center.

Other members of the varsity squad might well see action during the game, coach Mertes said. He added that several members of the squad will miss the game because of injuries, but are expected to be back in shape when practice resumes next fall.

During spring practice, which started March 16, only one workout was missed—during a snowstorm, Mertes said.

## Track Team Entered In Southwest Relays

K-State's track team goes into its second outdoor meet of the season tomorrow in the Southwest Relays at Lafayette, La. Coach Ward Haylett listed 14 Wildcats for competition in the meet, entering all events except the 100-yard dash and broadjump.

Wildcat entries:  
120-yard high hurdles—Mike Cornett.

Shotput—Allan Muecke.  
High jump—Jim Delker, Joe Powell.

Pole vault—Paul Miller.  
Javelin—Powell.  
Discus—Ray Fritzmeier.

440-yard relay—Marvin Chiles, Jim Loomis, Dolan McDaniel, Jerry Mershon.

880-yard relay—Chiles, Loomis, McDaniel, Mershon.

1 mile relay—Joel McGill, J. D. Patterson, McDaniel, Chiles.

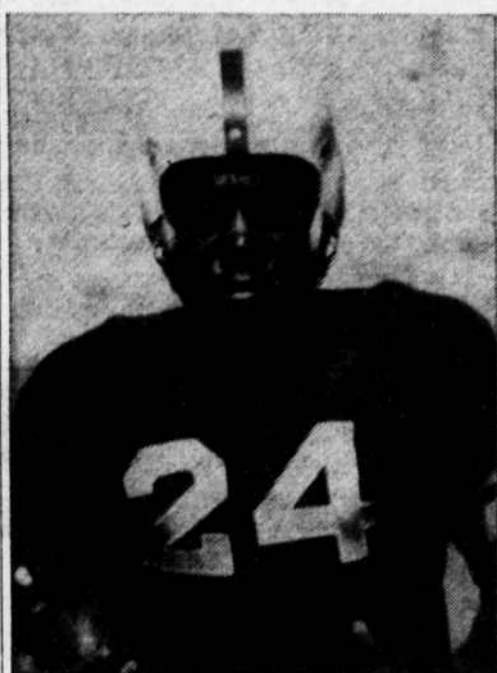

Distance medley relay—McGill, Patterson, Glen Taplin, Darl Michel.

## Entries Swell to 60 As KU Relays Near

Lawrence, April 15 (U.P.)—Entries for the Kansas Relays, still a week away, totaled 60 today with 16 universities, 33 colleges, and 11 junior colleges listed.

Iowa State, with 22 men, topped the list of entries received yesterday. The University of Iowa entered 19 men, Southern Methodist 9, and Tulsa university 7.

College entrants included College of Emporia, Western Texas, Southwest Texas, and Louisiana Tech.

K-State's cagers averaged 72.2 points a game in Big Seven competition during the 1954-55 season. The Cats' opponents averaged 71.4.

## Alums Date From 1923

Grads dating back as far as 1923 will furnish opposition for the varsity in the varsity-alumni football game tomorrow in Memorial stadium.

The 31-man alumni squad is coached by Ron Marciniak, Corky Taylor, and Bob Dahnke from last season's varsity, and by Larry (Moon) Mullins, K-State director of athletics.

Oldest member of the squad is Art Stark, all-Missouri Valley halfback in 1923.

**THE SQUAD** also will include two players from the 1933 team, halfbacks Doug Russell and Emmet Breen. Breen did a lot of passing on the '33 squad and is expected to throw a few in Saturday's game.

Members of K-State's squads in the 40's are Chet Peters, 1942 end, now placement bureau director here; Jack Sharp, 1947 end; Ray Romero, 1949 guard, now playing pro football; and Sammy Muscolino, 1949 guard.

**SQUAD MEMBERS** from the '50's, not including last season's players, are Frankie Hooper, quarterback and leading passer for the 1950 squad; Jim Lininger, 1951 end; Oscar Clabaugh, 1951 center; Francis Starns, 1951 end and leading pass receiver.

Hi Faubion, 1951 halfback; Kenny Barr, 1952 end; Dick Towers, 1952 halfback; Veryl (Joe) Switzer, 1953 halfback, now in professional football; Ed Pence, 1953 end; Tom O'Boyle, 1953 guard; Ken Gowdy, 1953 center; and Ron Clair, 1953 tackle.

From last season's squad, the alumni will have halfbacks Taylor, Dahnke, Kenny Long, and Clarence Parker; ends Ed Linta, Clare Simpson, and Tom Ebert; and guards Marciniak and Cletus Wilson.

**OTHERS PLAYING** for the alumni are Ken Ellis at tackle; Jon O'Connor at quarterback or end; and Hoot Gibson at end.

Gibson was a star from the 1952 Cat basketball team. He did not play football at K-State, but was captain of his team while attending Pittsburg high.

The possible starting lineup, as announced by the coaching staff, includes Lininger and Linta, ends; Clair and Marciniak, tackles; O'Boyle and Willson, guards; Gowdy, center; Taylor and Long, halfbacks; Switzer, fullback; and Dahnke, quarterback.

On the probable starting lineup, the alumni boasts five all-Big Seven selections—Marciniak, O'Boyle, Gowdy, Taylor, and Switzer.

Tex Winter has a record of 47 wins and 45 losses in four years as a head basketball coach—two at Marquette, and two at K-State.

# Reds To Use Pros, Ex-Professor Charges

New York (U.P.)—Russia is preparing a horde of professionals for the 1956 Olympics as part of the cold war, and in the process has played Avery Brundage "for a sucker," John Washburn, a former Dartmouth college Russian instructor, has charged.

The top Soviet athletes are known as "masters of sports." They double in brass as coaches and competitors and are paid for their services, Washburn insists.

**"BRUNDAGE**, International Olympic Committee president, was quoted last month as saying that "The Russians insisted when I was in Moscow last summer that they are conducting athletics on an amateur basis and are not operating athletics camps," related Washburn. "How naive can one be?"

Washburn asserted that the "great Soviet encyclopedia" confirms the fact that training camps are conducted for young Soviet athletes, and considerable material shows that all top Russian athletes are professionals "by any definition."

It is no secret that the Russians are training grimly for the 1956 games with hopes of taking the unofficial team championship.

**AT THE 1952 Olympics** in Helsinki, they enthusiastically expected to win overall supremacy. A huge score board was maintained in the Russian camp but it disappeared the last few days when, even by Soviet accounting, the United States wrapped up the unofficial—but much coveted—team championship.

From behind the Iron Curtain, word has trickled into various European capitals of the tremendous athletic program being conducted in Russia with the almost fanatic intention of winning the Olympics in 1956.

# Baseballers To Meet NU in League Opener

K-State's baseball team opens its Big Seven schedule at 3 p.m. today as it faces Nebraska in a game at Griffith Stadium.

Jim Rhoades, southpaw letterman from Cawker City, will be on the mound for the Wildcats and will be trying for a repeat performance of his victory over Nebraska a year ago.

Rhoades whitewashed the Cornhuskers, 3-0, last year as the Cats swept two games from Nebraska to open the Big Seven season.

A SECOND GAME with Nebraska is set for 10 a.m. tomorrow. The game will be played at this early hour so it will not interfere with the varsity-alumni football game tomorrow afternoon.

Don Griffith will be catching Rhoades' portside slants, coach Ray Wauthier said. Larry Hartshorn will be at first base, Steve Hennessey or Jim Pollom at second, and Jerry Kerbs will hold down shortstop.

In the outfield, from left to right, will be Bob Boyd, Ken Jenkins, and Jack Smith.

Wauthier has nominated Daryl Parker as starting pitcher in tomorrow morning's game.

The Wildcats will carry a 2-1 record into today's tilt. They won an opening doubleheader from Wichita university, 6-2 and 4-3, then lost to Memphis (Tenn.) Naval Air station, 3-9.

Tony Sharpe's Nebraska base-

ball team will enter the game with a 5-1 mark.

The Cornhuskers bagged their five wins on a 10-day Southern tour which included games with Tulsa, Houston, and the University of Texas.

Nebraska lost only to Houston

2-7. They defeated Houston 8-4, edged Tulsa twice, 10-9 and 2-1, and won a pair from Texas, 18-15 and 16-14.

The Cornhuskers are expected to start two southpaw pitchers against the Wildcats. Frank Hofmaier is expected to hurl today's game, and Roger Bottorff is set to hurl the Saturday tilt.

Both pitchers have notched 2-0 won-lost records. Hofmaier has given up 4 runs and 6 hits in 6½ innings while striking out 4; Bottorff has given up 3 runs and 4 hits in 8 innings and has struck out 6.

Setting the batting pace for the Cornhuskers is third baseman Don Brown, who has 14 hits in 25 times at bat for a .560 average.

CLOSE BEHIND are Jim Cederdahl, pitcher-outfielder, and Bill Giles, first sacker, with .462 and .423 averages, respectively.

Leading the club in home runs are Brown and Giles with two each. Brown has batted in 9 runs.

For the Wildcats, Larry Sturgeon has a .375 batting average with 3 hits in 8 times at bat. Bob Boyd is leading slugger for the team with 3 hits, including a homer, triple and single, in 11 times at bat. His average is .273.

Leading pitchers for the Wildcats are Jim Rhoades with a 1-1 won-loss record, and Sam Sinderson with a 1-0 record. Rhoades gained his victory over Wichita, and was defeated by Memphis Naval Air station. Sinderson's victory was also over Wichita.

STARTING PITCHERS for the Wildcats today and tomorrow against Nebraska will be Jim Rhoades (center) and Daryl Parker (right). Pitcher Ron Bergren (left) looks on as Rhoades and Parker talk strategy.

## Red Wings Win Hockey Crown

Detroit, April 15 (U.P.)—The Detroit Red Wings, national hockey league regular-season champions for seven years in a row, now own the coveted Stanley Cup for the second-straight year.

Center Alex Devecchio, removed from his spot on the line with high-scoring Gordie Howe and Ted Lindsay at midseason for failure to score, registered two goals last night to give the Red Wings a 3-1 triumph over the Montreal Canadiens in the decisive seventh game of their best-of-seven finals.

Clarence Campbell, president of the NHL, presented the trophy to Lindsay, Detroit's captain.

## "WILLIE" THE WILDCAT says

# Golf, Tennis Squads To Return to Action

K-State's golf and tennis teams 5-2, in its only start of the season, resume action today after the holidays, with the tennis team going against Washburn at Topeka, and the golfers teeing off against Nebraska at the Manhattan Country Club course at 1 p.m.

The tennis team was victorious over Mankato (Minn.) Teachers.

Tennis team members making the trip to Topeka are Bob Hansen, John Teas, Richard Circle, John Deam, and Don Wainscott, coach Karl Finney said.

The Wildcat golfers, after being defeated by Oklahoma A&M, 2-16, and Wichita, 3½-14½, will be seeking victory No. 1 of the season as they meet Nebraska. Today's matches will open the conference season for both teams.

Kent Poore, Hayes Walker, Jim Weatherford, and David Pfuetze were named to compete against Nebraska by golf coach Mickey Evans.

## Robinson Scores Comeback TKO

Milwaukee, April 15 (U.P.)—Sugar Ray Robinson said he was ahead of schedule on his comeback trail today, but his manager said he would file for re-instatement of Robinson's world middleweight title.

Robinson rocked Wisconsin middleweight champion Ted Olla into technical submission in 2:15 of the third round last night in a flash of his old form.

## The Wrong Way

Jackson, Mich. (U.P.)—Willis Jones, 42, picked up by Jackson police for breaking into a grocery store, blamed his situation on the government: "I'm in trouble with the government because of income tax, and I was just trying to get some money to pay off."

**On Campus** with

(Author of "Barefoot Boy With Cheek," etc.)

## LOVE IN REVERSE

They were at the campus swimming pool. She was standing on the diving board—lithe, young, vibrant. He came swimming over. "Hey," he called, climbing up on the board, "was it you who made that dive a minute ago?"

She nodded—lithe, young, vibrant. "Whew!" he whistled. "That was some dive! A back jackknife two and a half twist full gainer swan. Where did you learn to dive like that?"

"I fell off the board," she explained. "Oh," he said. He looked at her—lithe, young, vibrant. "Let's go steady," he said.

"But I don't know anything about you," she said. "What's there to know?" he said. "I'm a typical American college man—young, healthy, and broke."

"That's good enough for me," she said, "for I am not interested in money. I am a girl of simple tastes—lithe, young, vibrant."

"Dad!" he whispered. "Crazy!" she breathed.

Their lips met. Their arms twined. They fell off the board. "If you only knew," he said later, as he applied artificial respiration, "how long I have been looking for a lithe, young, vibrant girl of simple tastes, for though my heart is large and full of love, my purse is lean and meagre. My cruel father sends me an allowance barely large enough to support life. So I have been looking high and low for a girl of simple tastes."

"Search no more," she said. "My tastes are simple; my wants are few. Just take me riding in a long, sleek, new yellow convertible, and I am content."

"Goodbye," he said and ran away as fast as his chubby little legs could carry him, for he knew this girl was not for the likes of him. He had neither convertible nor hardtop, nor the money to buy one, nor the means to get the money, short of picking up his stingy father by the ankles and shaking him till his wallet fell out. No, there was nothing for it except to forget this girl.

But lying on his pallet at the dormitory, he could not get her out of his mind and finally he knew that whatever the expense, he had to have her—lithe, young, vibrant.

So he sold a few things—his textbooks, his overcoat, his hi-Y pin, his roommate's truss—and soon he had accumulated a goodly sum. He went to a place that sold automobiles. "How much does it cost," he said, "to buy a yellow convertible automobile?"

The man told him. He collapsed in a gibbering heap. After a while he stirred and shambled home. But on the way he passed a place with a big sign that said: RENT A CAR—DRIVE YOURSELF. Hope came into our hero's eyes. He went inside. "How much does it cost," he said, "to rent a yellow convertible automobile?"

"Ten dollars a day, plus seven cents a mile," said the man.

"Done and done," said our hero, and soon he drove away in a long, sleek, new, yellow convertible.

"Oh, goody!" said the lithe, young, vibrant girl when she saw the car. "This suits my simple tastes to a T. Come, let us speed over rolling highways and through bosky dells."

And away they went. They drove north, they drove south, they drove fast, they drove slow, they drove east, they drove west, they drove and drove and drove and, finally, tired but happy, they parked high on a windswept hill.

"Philip Morris?" he said. "Yum, yum!" she said.

They lit up. She snuggled against him. "You know," he said, "you are like a Philip Morris—mild and fresh and relaxing."

"But there is a big difference between me and Philip Morris," said she. "They're available in king-size and regular, and I am only available in regular."

They laughed. They kissed. He screamed.

"What is it, dear man?" cried she, alarmed. "The speedometer," he said. "I just noticed. We put on 200 miles tonight, and this car costs seven cents a mile, and I have only \$14 left."

"But that's exactly enough," she said.

"Yes," he said, "but we still have to drive home, and that will put a lot more miles on the car. Where will I get the money to pay for that?"

"Gee, I don't know," said she.

"Me neither," he said glumly. He started the motor and backed out of the parking place.

"Hey, look!" said the girl. "The speedometer doesn't move when you're backing up."

He looked. It was true. Mileage only registered when the car was moving forward—not in reverse. "Eureka!" he said. "That's it!"

"Do you mean—" said she.

"Exactly!" said he. "I will drive home in reverse. Then no more miles will register and I'll have enough money to pay!"

"I think that's a George idea!" she cried, and she was right. Because today our hero is in the county jail where food, clothes, and lodging are provided free of charge, and his allowance is piling up fast. By the time his sentence is ended, he should have enough to take his girl out riding again.

# Card Trade Pays Off; A's Lose to White Sox

By UNITED PRESS

Eddie Stanky's big winter deal paid its first dividend yesterday when Frank Smith displayed the powerful relief pitching which the St. Louis Cardinals believe will make them a National League pennant contender.

The Kansas City A's lost their second game in a row after beating the Detroit Tigers on opening day.

Sandy Consuegra pitched a three-hitter to give the Chicago White Sox a 7-1 triumph over the A's. Consuegra has beaten the Athletics six consecutive times since July 26, 1953, and owns an 11-5 lifetime mark against them.

SMITH, acquired from Cincinnati last December for third baseman Ray Jablonski and pitcher Gerry Staley, made a winning debut for the Cardinals yesterday when he hurled the last three innings of an eleven-inning, 8-7 victory over the Milwaukee Braves.

Smith took over with the Braves leading, 7-6, and shut them out with only one hit the remainder of the way.

Given the sturdy, late-inning relief pitching that they lacked so often in 1954, the Cardinals tied the score on Stan Musial's ninth-inning home run, and won the game when rookie center fielder Bill Virdon hit his first big-league round tripper in the eleventh.

Red Schoendienst, Rip Repulski,

## Senator Ace Hopes Jinx Is Whipped

By UNITED PRESS

Bob (Hard Luck) Porterfield, the fastball ace of the Washington Senators who can't seem to shake off misfortune, has predicted he'll go through this season unscathed because "there's nothing else that can possibly happen to me."

The 30-year-old Porterfield suffered a fractured jaw when hit by a pitch while with the Yankees five years ago. He hasn't been able to dodge the injury jinx since.

LAST YEAR, he was hit on the head by a line drive during spring training and was unconscious for 15 minutes. During the season, he pulled a muscle in his back while fielding a bunt and later was bothered by an infected ear. Despite everything, he won 13 games following a brilliant 22-10 season in 1953.

"I can't think of any part of my body that can possibly be hurt this year that hasn't been hurt before," grinned the good-looking right-hander.

"MY SACROILIAC bothered me a good deal last year, but it's perfectly okay now. So I'm keeping my fingers crossed."

Porterfield is so confident all his hard luck is behind him that he plans to ask manager Chuck Dressen to use him in both starting and relief assignments.

"Since I've been with Washington, I've only relieved in two games," he said.

"I think I can help the ball club if I relieve from time to time, so I'm going to ask to do it. That doesn't mean I want to become a relief pitcher exclusively, but I have no objection to being a starter and reliever at the same time."

and Wally Moon also hit homers for the Cardinals. Bobby Thompson and Danny O'Connell homered for the Braves.

At that, the 27-year-old Smith almost deprived himself of the victory with a boner which recalled the famous blunder in 1908 which made Fred Merkle of the New York Giants immortal.

Moon had singled with Smith

on first and Bob Stephenson on third in the tenth inning, Stephenson trotting home with what appeared to be the winning run.

But the alert Braves noticed that Smith neglected to touch second base, and threw the ball there, forcing out the pitcher and nullifying the run.

The old spring axiom that the pitchers are ahead of the hitters took a beating yesterday as National League sluggers pounded out a total of 20 homers in four games. The major-league record of 25 home runs in one day was set in seven games on July 16, 1950.

SIX HOME RUNS were hit as the Brooklyn Dodgers ruined the world champion New York Giants home opener with a 10-8 triumph.

Don Newcombe, who was a disappointment in his first mound test of the season, drove in three runs with two homers, and Roy Campanella and Carl Furillo also homered for the Dodgers.

Hank Thompson and Bobby Hofman homered for the Giants, who dropped their second-straight game of the new season.

Tenth-inning homers by Ransom Jackson and Ernie Banks enabled the Chicago Cubs to defeat the Cincinnati Redlegs, 6-4, and run their winning streak to three games.

The Cubs had gone ahead in the top of the ninth when pitcher Hal Jeffcoat homered. But the Redlegs tied the score in the bottom half of the frame on Gus Bell's two-out round tripper. It was the third-straight loss for the Redlegs.

Herman Wehmeier's six-hit pitching paced the Philadelphia Phillies to a 4-3 win over the Pittsburgh Pirates in a game that produced three homers.

WILLIE JONES hit one for Philadelphia, while rookie Ramon Mejias, and Preston Ward homered for the Pirates. Wehmeier's victory extended his lifetime record against the Pirates to 19-7.

Mike Garcia, a 19-game winner last season, pitched a six-hitter and Al Smith and Jim Hegan homered to lead the Cleveland Indians to their second-straight win—a 5-3 decision over the Detroit Tigers.

Billy Hoelt's three walks contributed to a 2-run Cleveland first inning. Smith's second homer in as many games gave the Tribe two more in the fifth, and Hegan's blow closed out the scoring in the ninth.

Willard Nixon, with relief aid from Ellis Kinder, was the winning pitcher as the Boston Red Sox beat the New York Yankees, 8-4. Nixon now has a 5-1 lifetime mark against the Yankees.

## KU Alums To Play Jayhawk Varsity

Lawrence, April 15 (U.P.)—Ray Evans, coaching the alumni squad which will meet the Kansas spring football team tomorrow, probably will have three former fullbacks holding down backfield positions in his starting lineup.

The three are Galen Fiss, who played in 1952, and Bud Laughlin and John Anderson, both from last season's team.

Red Morrow, who played in the late '40s at KU and later was an all-armed forces selection, probably will start at quarterback.

The alumni will be allowed to use free substitution.

## Evans Explains Scoring Used in Collegiate Golf

By LARRY FOX

Many sports fans do not understand the method used to score collegiate golf matches, according to golf coach Mickey Evans.

"Many persons have asked me how players may score points in the matches," he said.

In the Big Seven conference, the match-play method is used, Evans said. By this method, a golfer can score a maximum of three points.

One point is awarded to the golfer winning the most holes of the first nine played, he explained. A second point goes to the golfer capturing the most holes in the second nine.

THE THIRD point is given to the player winning the most holes for the entire match.

If the players both win the same number of holes, the point is divided with each player scoring a half point, he added.

For the conference meet, where

all the league teams are competing, medal play is used, Evans said.

By this method, each team enters five golfers. The team score is made up of the four lowest scores.

"In this manner, team strength is taken into account," Evans said. "If you have four boys who consistently shoot in the low 70's, they're hard to beat."

SOME FANS wonder why the conference championship is determined in one meet, after having many dual meets throughout the season, Evans said.

In golf, weather can play an important role," he explained. "In dual meets, the conditions may vary. It's not like the basketball race, where the same conditions prevail at all games."

Evans pointed out the advantages of using the conference meet to determine the final standings.

"The teams should be at their peak at the end of the season. And you've got all the teams playing under the same weather conditions."

## All-State Back To Enroll at KU

Lawrence, April 15 (U.P.)—Duane McIntire, an all-state halfback from Gardner, will enroll at the University of Kansas next fall.

McIntire, 6-1 and 180 pounds, was an all-Little Seven league selection in 1953 and 1954. He also was named to the all-state football team last year.

You'll be pleased with a Collegian want ad.

# Engagements, Pinnings Make Society News

## Engagements

### Kattenberg-Herman

The engagement of Marilyn Kattenberg to Clayton Herman has been announced. Marilyn is a senior at Lebanon high school. Clayton is a sophomore in agricultural journalism from Smith Center.

♦ ♦ ♦ ♦

### Milam-Rice

Dorothy Milam has recently announced her engagement at Southeast hall to Ronald Rice. Dorothy is an elementary education junior from Kansas City and Ronald, from Galena, is attending Pittsburg State Teachers college. The wedding has been set for August 7 in the Quindaro Nazarene church in Kansas City.

♦ ♦ ♦ ♦

### Meyers-Piracle

Donalee Meyers passed chocolates April 13 at Southeast hall to announce her engagement to Jim Piracle. Donalee is a home economics teaching junior from Wichita. Jim, who is from Kiowa, is in the army and is stationed in Pennsylvania.

♦ ♦ ♦ ♦

### Stucky-Hoffman

Max Hoffman announced his engagement to Kathy Stucky at Hills' Heights, April 13. Kathy is a freshman at Hutchinson Junior college and Max is a sophomore in agricultural education. Both are from Pretty Prairie.

♦ ♦ ♦ ♦

### Buell-Carper

The engagement of Jackie Buell to Ed Carper was announced at Northwest hall. Jackie is a freshman in elementary education. Ed is a junior at Kansas university majoring in business. Both are from Medicine Lodge.

♦ ♦ ♦ ♦

### King-Landess

Cigars at the Pi Kappa Alpha house Wednesday, April 13, announced the engagement of Gene King to Nancy Landess. Gene is a freshman in agricultural education from Liberal. Nancy is a freshman at Kansas university and is from Liberal.

♦ ♦ ♦ ♦

### Hobson-Craig

Cigars at the Men's Graduate House announced the engagement of James G. O. Craig to Lucille Alice Hobson on April 13. James is a graduate student in entomology from Nigeria, British West Africa. Lucille is a junior in elementary education attending McPherson college.

♦ ♦ ♦ ♦

## Pinnings

### Miner-Larson

The pinning of Jolene Miner to Charles Larson was announced with chocolates at Pi Beta Phi and cigars at Sigma Alpha Epsilon. Jolene is a sophomore in art from Great Bend, and Charles is a sophomore in Agriculture from Princeton, Ill.

♦ ♦ ♦ ♦

### McCluggage-Pottorff

Chocolates were passed at the Chi Omega house and cigars at the Alpha Tau Omega house Wednesday, April 13, to announce the pinning of Jo Ann McCluggage and Gary Pottorff. Jo Ann is a sophomore in home economics and Gary is a sophomore in pre-vet. Both are from Wichita.

♦ ♦ ♦ ♦

### Walker-Giffin

Chocolates at the Alpha Delta Pi house, and cigars at the Sigma Alpha Epsilon house Wednesday, April 13, to announce the pinning of Phyllis Walker to Bud Giffin.

## Albert Einstein Dies In Princeton Hospital

Princeton, N. J., April 18. (U.P.)—World-famed physicist Dr. Albert Einstein died today at Princeton hospital.

The white-haired mathematician whose genius with theoretical mathematics led to the Atom and Hydrogen age was 76 years old.

Official cause of death was given as "inflammation of the gall bladder." He had been admitted to the hospital at noon last Friday.

Einstein celebrated his 76th birthday only last March 14. In keeping with his habits of recent years, he spent a quiet, retiring day, secluded from newsmen and photographers.

Einstein rose from obscurity as a German factor-owner's son, and a childhood marked by a slowness to learn, and astounded the 20th century with his genius.

His mathematical theories changed the course of scientific thinking. His theory of relativity—showing time was relative to height, length and breadth—first brought him popular notice.

## Barrett, Benedix Are King, Queen At Bus Ad Dance

Jackie Barrett, BA Jr., Sigma Phi Epsilon, and Diane Benedix, BA Jr., Kappa Kappa Gamma, were crowned king and queen by President McCain at the Business Students association dance Friday night in Nichols gym.

Bill Kennedy, BAA Jr., and Patricia Kollman, BA Jr., were presented the scholarship awards for having the highest grades in business at the end of their sophomore year.

The king and queen were each were presented with a cup and the queen also received a bouquet of roses.

This was the second Business Students dance and the first time a king and queen had been elected. The students voted as they presented their tickets at the door.

## Ag Ed Banquet To Be Tonight

An Ag Education banquet is to be held at 6 p.m. today in Thompson, Stan Larson, program chairman, has announced.

Martin Mugler, AEd Sr., is to talk about vocational agriculture programs. C. C. Eustace, state Board of Education, is to talk about responsibilities of an agriculture instructor in his community. A ritual team contest is planned.

The banquet is modeled after a parent-son FFA banquet. Purpose of the banquet is to train students in conducting programs, which would be required by a vocational agriculture instructor, Mugler said.

## Student Health

One girl and two boys are patients at Student Health today. They are Betty Fahlsing, Don Nickerson, and Howard Roach.

## Two Frosh To Attend AYF Camp

Two freshmen were chosen to attend the American Youth Foundation camp this summer at a meeting of Miniwanca club Tuesday, Rosemary Gladhart, president, announced today.

Harold Van Horn, Ag Fr, and Royanne McMullen, Eng Fr, will receive \$50 scholarships to the leadership training camp.

Alternates chosen were Sylvester Nyhart, Sp Fr from Atchison, and Anne Louise Manion, ML Fr from Palco.

Each year the Miniwanca club sends two freshmen to the leadership camp in Shelby, Mich. The delegates are chosen from applications filed with the club. The members of Miniwanca club are the students from K-State who have attended the camp.

Claude Shenkel, associate professor of geology and geography, is faculty advisor of the group.

## Nye To Give Summer School Short Course

Russell Nye, a Pulitzer prize winning author and head of the department of English at Michigan State college, East Lansing, is to be guest lecturer at K-State this summer for a special three-week short course in "American Books and Democratic Themes."

Nye is the author of several books, and his "George Bancroft," won a Pulitzer prize.

The K-State department of English is to offer two other special short courses this summer. They are "Literature for Adolescents," June 6 to June 24; and "English Novel I," June 27 to July 15.

The course in adolescent literature, which will be conducted by Prof. Homer Combs of the staff, will be concerned with a study of the literature taught in Kansas high schools, and with methods of teaching the literature. Professor Combs is the author of textbooks in the field of the essay, and is in charge of K-State's American literature courses.

## Vets' Descendants May Get Grants

Students who are descendants of veterans of World War I are eligible for the LaVerne Noyes scholarships, Phil Sorenson, secretary of the general scholastic committee, announced today.

The scholarships pay the resident enrollment fee for one semester and may be renewed presuming satisfactory work. Applications for the scholarship may be made in the dean of students office.

## Sing Draws 17 Entries

Seventeen fraternities and sororities have entered Inter-Fraternity Sing, which will be May 5 at 8 p.m. in the auditorium. Wayne Sheets, chairman of the Sing committee, announced today.

Alpha Chi Omega, Alpha Xi Delta, Chi Omega, Delta Delta Delta, Kappa Delta, Kappa Kappa Gamma, and Pi Beta Phi will compete for the first and second place sorority trophies.

Alpha Tau Omega, Beta Theta Pi, Delta Tau Delta, Farm House, Phi Delta Theta, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, and Sigma Phi Epsilon are the fraternities entered. First, second, and third place trophies will be awarded.

Each group will sing two songs, and must consist of 80 per cent or more of the membership of the house. No solos will be allowed.

The order of appearance will be decided at a drawing at 4 p.m. Tuesday in the Student Union.

The Inter-Fraternity Sing committee is Wayne Sheets, chairman, Eleanor Griffith, HE Jr., and S. W. Gunter, Sp Soph.

## Phi Kappa Phi Selects Six

Six K-State faculty members were initiated into the local chapter of Phi Kappa Phi, national honorary scholastic fraternity, at that organization's annual spring banquet Thursday night.

Those honored were Prof. Max Milner, milling; Assoc. Prof. J. A. Hobbs, agronomy; Assoc. Prof. Walter D. Fisher, economics and sociology; Prof. Byron Ellis, technical journalism; Assoc. Prof. Guy W. Leonard, chemistry; and Prof. Jennie Williams, family and child development.

Only six are elected from the faculty to the honorary organization each year.

## 2,000 Attend Hospitality Days

Representatives from 138 high schools in Kansas attended the 25th annual Home Economics Hospitality Days program Friday and Saturday.

The total number of visitors who saw the various exhibits was over 2,000. "This is about the same number

## Kerchner To Head Electrical Engineers

Promotion of Prof. Russell M. Kerchner to head the department of electrical engineering at K-State, was announced Saturday by Dean M. A. Durland, of the Engineering school.

Professor Kerchner, 55, has been a member of the K-State staff for 33 years, and has been professor of electrical engineering since 1943.

Kerchner succeeds Prof. R. G. Kloeffer, who has been head of the department since 1927. Professor Kloeffer currently is on leave for a special assignment with the United States Department of Defense, but will be retired from administrative duties July 1 under a Board of Regents ruling. In Professor Kloeffer's absence, Professor Kerchner has been acting head of the department.

THE NEWLY-NAMED electrical engineering head is co-author of two textbooks. One, "Alternating-Current Circuits," has been the leading book in its field for 15 years and now is used by more than 150 colleges and universities. The other is "Direct-Current Machinery," first published in 1934.

HE IS A member of the national honorary organizations of Phi Kappa Phi, Tau Beta Pi, Sigma Tau, and Eta Kappa Nu.

Professor Kerchner also has been active in campus affairs, being a past president of the K-State Faculty Senate, past chairman of the committee on academic affairs, a member of the committee on organization of the college.

## Integrity To Hold Caravan Tuesday

The Integrity party will sponsor a caravan tomorrow beginning at 7 p.m. in the City park. The caravan, which will include the party's candidates for office will tour the organized houses and dormitories, to raise interest in the coming all-school elections, Thursday and Friday.

of visitors as we have had the last few years," said Margaret Raffington, associate professor and general advisor of Hospitality Days.

Box lunches were served Saturday to 786, according to Luetta Bartel, DIM Sr, chairman of the box lunch committee.

"In general, Hospitality Days this year was very successful. All the remarks I heard from the visitors were very favorable; and everyone seemed to like the exhibits exceptionally well," said Delaine Smith, HEA Jr, who was assistant chairman of Hospitality Days. Mariellen Jones, HDA Sr, was the general chairman.

"All of the committee members who worked on Hospitality Days this year helped make it one of the most successful programs we have ever had," Miss Raffington said. "All of the committee chairman were very responsible and their respective committees functioned very smoothly so that there was little chance for failure this year."

## Summer Camp Bases Named

Summer camp assignments have been received at the AFROTC detachment, according to Major Louis E. Larson, public information officer.

The four-week long campus, for juniors in advanced AFROTC, will provide training in many phases for the future officers.

Davis-Monthan AFB, near Tucson, Ariz., is to receive 57 cadets from K-State. Williams AFB, near Chandler, Ariz., is to receive seven cadets, while Norton AFB, near San Bernardino, Calif., and Eglund AFB, near Valparaiso, Florida, each are to receive four.

The first of the four-week camp periods begins June 19.

## Stater Heads National Frat

Kay Hutchinson, SP Jr., has been elected national president of Alpha Epsilon Rho, honorary radio and television fraternity.

Hutchinson has held posts on KSDB-FM, student station, including the positions of program director and special events director.

Hutchinson is vice-president of the local chapter of Alpha Epsilon Rho, and was the chapter's official delegate to the national meeting at Ohio State university, Columbus. He was elected president for the coming year at the final session of the convention last week.

## Warm...

Topeka, April 18. (U.P.)—Warm weather and fair skies reigned over most of Kansas yesterday with high temperatures everywhere being in the 80's.

Last night was reported as being warm and windy. The highs recorded at official U.S. weather stations ranged from 87 at Dodge City to 81 at Russell, Goodland, and Concordia. The minimum temperature last night were from 42 at Goodland to 71 at Wamego.

No moisture was reported at any point in the state.

Today will be cloudy in eastern Kansas and clear or partly cloudy in western Kansas. Indications are the day will turn fair by about midafternoon in the eastern half.

Photo by J. R. McLeland

**OUCH!**—Varsity halfback Kenny Nesmith (40) throws former all-American Joe Switzer for a loss with a driving tackle during Saturday's varsity-alumni game. Chuck Zickefoose (89) comes up to help. The alumni scored a fourth-quarter touchdown to tie the varsity, 7-7.

# Reds Lose Strength In French Elections

Compiled from the Wires of United Press  
By DICK CARR

Paris—Government coalition parties won a commanding majority and the Communists lost popular strength in nation-wide local elections, incomplete returns showed today.

The Communists' popular vote fell from 23.5 to 21 per cent in yesterday's elections for department (province) general councils, but they received more popular votes than any other single party.

The parties in the right-of-center government coalition polled 57.1 per cent of all votes cast under the balloting system that keeps Communist seats in the council at a minimum.

Premier Edgar Faure won a victory over Pierre Poujade's anti-tax forces when he won his seat. Foreign Minister Antoine Pinay and four other cabinet members also won seats yesterday.

Some 6,000,000 persons voted yesterday for the councils which are roughly the French equivalent of U.S. state legislatures. At stake were 1,496 seats in metropolitan France.

## Red Premier Uses 'Soft Line' at Afro-Asia Talks

Bandung, Indonesia—Premier Chou En-Lai of Communist China passed up a chance today to use the forum of the 29-nation Afro-Asian conference for propaganda purposes, and it appeared he had turned to a "soft line" to win support for Peiping.

The conference opened with speeches by President Sukarno and Foreign Minister Ali Sastroamidjojo of Indonesia. It adopted a broad, five point conference agenda and then reversed itself on an earlier ruling and decided to let delegation chiefs speak.

Free Viet Nam distributed an appeal to the nations attending the conference to help its people in the north flee the Communists "dictatorial regime."

## Shake-up in Hungary Announced by Reds

Budapest, Hungary—The government of Communist Hungary announced today it had expelled Premier Imre Nagy and Former Defense Minister Mihaly Farkas from their party posts.

Farkas, until the fall of Nagy, was one of five secretaries of the Communist party.

The central committee of the Communist party announced the decision was taken on April 14.

"Imre Nagy represented ideas which were controversial to the interests of the peoples democracy," the central committee said.

## Cancelled Red Visit Questioned by Lawmakers

Washington—Some lawmakers accused Russia today of using a "very flimsy excuse" in cancelling a visit to this country by 11 student editors because of a fingerprinting requirement.

And there appeared to be no sentiment in Congress for having the state department overlook U.S. immigration laws and permit the editors to come anyway.

Moscow officials announced the Soviet student editors had cancelled their trip because U.S. regulations require them to be fingerprinted before being granted entrance visas.

## Top Military Officials Confer on Red Buildup

Taipei, Formosa—High-ranking American and Nationalist Chinese military officials today opened a four-day conference expected to deal with Secretary of State John Foster Dulles' warning of an "extensive" Red buildup opposite Formosa.

Participating in today's military coordination conference were Vice Adm. Alfred M. Pride, commander of the U.S. Seventh fleet; Maj. Gen. William C. Chase, chief of the military assistance advisory group in Formosa; and Rear Adm. Aaron P. Storrs, chief of staff to Pacific fleet commander Adm. Felix B. Stump.

## Little Man on Campus

by Bibler

"Louise told her you would be a swell blind date, but she must have found out about you anyway."

## Movies

### 'Hit the Deck' Bubbles; 'Peter' Biography Scores

#### CAMPUS

"Hit The Deck" is a bubbly musical working around the rather trite plot of three sailors on a two-day leave, and three girls waiting to be caught. The sailors are Tony Martin, Vic Damone, and Russ Tamblyn. The girls are Jane Powell, Debbie Reynolds, and Ann Miller. The show is full of good songs—such as the old standard "Hallelujah," which go over pretty well, and old jokes which don't.

Sample joke: Tony says "I worship the ground you walk on." Ann—"Now he's talking real estate."

For a musical, the show moves pretty fast, except for the ending, and has a smash grand finale. M. T.

#### WAREHAM

A warmly human story about a great Protestant preacher, the story of the life of Peter Marshall should prove to be one of the best pictures put out this year.

The movie sticks pretty well to the life of Peter Marshall, as told by his wife in her best seller of a few years back... the only objection being that it at times loses the feeling that Marshall must have had toward his God.

The most outstanding features are the excerpts from Marshall's most famous sermons and prayers, given admirably by Richard Todd, who portrays the leading role in a Whimsical Scotch grogue. Jean Peters takes a becoming about-face as Marshall's wife and shows that there is a little more to her than just a pretty face. M. T.

## Clarke College Prefers Life

(ACP)—A survey on leisure reading by The Courier, Clarke College newspaper, showed Life magazine was the top choice of freshmen, juniors, and seniors. Sophomores preferred Newsweek at the Dubuque, Iowa, school.

Time and Saturday Evening Post were placed second and third by all four classes.

The Silver Chalice was the most popular book choice of the freshmen and sophomores. Juniors favored The Caine Mutiny and seniors gave preference to Not As A Stranger.

The survey showed that students spent from three to four hours a week in leisure reading. The majority said their selection of books came through recommendation of other students. Faculty recommendation of books was rated second, and nearly all the students said they "just don't have time" to read as much as they would like.

## Alumni Gridders Rally To Tie Cat Varsity, 7-7

K-State's old grads, outplayed for three quarters by the 1955 Wildcat football team, rallied in the final quarter of the varsity-alumni classic Saturday to march 98 yards and gain a 7-7 tie.

Former all-American Joe Switzer raced across the 3-yard line with 3 minutes left in the game to cap the drive, and Bob Dahnke kicked the extra point to tie the score at 7-all.

HOWEVER, the alumni had to fight off a last-ditch varsity drive to preserve the deadlock.

Wildcat quarterback Bob Whitehead took the alumni kickoff on the 16-yard line and ran it back 25 yards to the 42. Then, on two keeper plays, he pushed the ball 16 yards to the alumni 42.

Halfbacks Ray Glaze and Ralph Pfeifer pushed to the alum 31 in two more carries; Whitehead reeled off an 11-yard run to the 20; and Glaze raced to the 9.

Whitehead swept right end with 20 seconds left for what appeared to be the winning score. Officials ruled that his knee hit on the 3-yard line.

After a quarterback sneak failed to gain, a 15-yard penalty set the varsity back to the 18 with 3 seconds left. Whitehead completed an 8-yard pass to Kenny Nesmith on the 10 as the game ended.

THE ONLY VARSITY touchdown was scored by Whitehead with 4:17 left to play in the first half. Jim Rusher converted.

Two frosh halfbacks, Glaze and Pfeifer, gave promise of filling holes left at that position by graduation.

Glaze averaged 7.3 yards on seven carries, and Pfeifer averaged 5.2 on 12 carries. Whitehead was the top rusher with 73 yards on 15 carries.

The varsity outgained the alums in total offense, 291 yards to 150.

### Drills To Start Today

## Freshmen Add Height To Cat Cage Team

A dozen freshman basketball players—11 of them taller than 6 feet—go to work today as Wildcat coach Tex Winter starts spring cage drills.

Eleven members of last season's varsity, seven of them lettermen, will also turn out for the workouts.

WORKING ON a four-a-week basis, the Wildcats will complete spring workouts with an annual alumni-varsity game May 6 in Ahearn gym. Big Seven regulations limit them to 12 spring drills.

Lettermen invited to take part in drills are Dick Stone, 6-3 forward; Joe Powell, 6-7 forward;

Gene Wilson, 5-11 forward; Pachin Vicens, 5-9 guard; Ron Flynn, 6-1 guard; Bill Hull, 6-4 forward; and Fritz Schneider, 6-3 guard.

Squad members invited to take part are Warren Bullock, 6-0 guard; Eddie Wallace, 5-9 guard; Parker Stotler, 6-6 center; and Jack Kiddoo, 6-0 guard.

Two freshmen being counted upon by Winter to fill the center spot next winter are 6-9 Jack Parr and 6-6 Wayne Hutchins.

OTHER FRESHMEN who will try out for the varsity are Hayden Abbott, 6-2; Bill Bennett, 6-2; Roy DeWitz, 6-2; Larry Fischer, 6-4; Chuck Hollinger, 6-4; Bob Jedwabny, 6-5; Bill Laude, 6-4; Don Matuszak, 5-11; Dean Plagge, 6-3; and Don Richards, 6-1.

## Golf, Tennis Teams To Play Hawks, Wichita

K-State's golf and tennis teams go into action again early this week after going down to defeat in matches Friday.

The golf team goes to Lawrence for a match with the Jayhawks this afternoon. Friday the Wildcats were defeated by Nebraska, 8-4.

HAYES WALKER was the only winner for K-State as he defeated Dick Larver, 2-1. Walker scored a 79, Larver an 82.

Kent Poore was the medalist for K-State, shooting a 75. He lost to Chuck Jensen, who shot a 74.

Nels Jensen and Jack Moore also carded victories for Nebraska by defeating Jim Weatherford and Dave Pfuetze.

IN TENNIS, the Wildcats lost to Washburn, 4-3. It was the first loss of the season for the Wildcats, who not have a 1-1 season's mark.

Wichita is to furnish opposition for the Wildcats tomorrow at at Wichita. On Wednesday the Wildcats are to open Big Seven play against Oklahoma at Norman.

### K-State Gymnasts Third In Louisiana Invitational

Wendell Holt and Dale Misak scored 22 and 5 points, respectively, to give K-State third place in the College Invitational gym meet at Natchitoches, La., Saturday. Northwestern State (La.) college was first and Texas university was second.

### Incomparable Cleaning Service of Flawless Quality At Marden's

1309 Anderson Ave.  
for Knits, Suedes, Gabardines.

Great skill and refinement of detail expresses the care with which each individual garment is finished.

## Baseballers After First League Win

K-State's baseball team will try to hit the winning column in Big Seven play Friday and Saturday in a pair of games with Colorado here in Manhattan.

The Wildcats opened conference play with Nebraska Friday afternoon and lost, 13-2. Saturday morning's game also saw Nebraska come out on top with a 15-0 decision.

DON BROWN, Nebraska's leading hitter, led the Nebraska attack with 4 hits in 7 times at bat in the two games. He raised his batting average to .555.

Larry Hartshorn led K-State hitters with 2 for 5. Both hits came in the first game. One of them was a home run, the second of the season for Hartshorn.

Jim Cederdahl and Brown both hit homers for Nebraska. Cederdahl's came in Friday's game, while Brown's was hit in Saturday's game.

LOSING PITCHER for K-State in the first game was Jim Rhoades. He now has a 1-3 win-loss mark for the season. Daryl Parker was losing pitcher in the second game. This was the first verdict in which Parker has figured.

In Colorado the Wildcats will be facing a team that has five victories against no defeats.

The Buffs are led by Carrol Hardy, who has a .563 batting average. Five other men in the lineup have batting averages of .300 or better. As a team Colorado is averaging .371.

## Miller Clears 13-7 For Pole Vault Mark

K-State's track team, paced by the distance medley team and by Paul Miller in the pole vault, placed fifth in a field of 16 teams at the Southwest Relays at Lafayette, La., Saturday.

Miller set a new meet record in the pole vault with a leap of 13 feet, 7 inches. The old mark of 13-4 had been set in 1940.

College smokers  
are sure going  
for Winston!

WINSTON  
TASTES  
GOOD!

LIKE A  
CIGARETTE  
SHOULD!

FINER  
FILTER!

FINER  
FLAVOR!

KING SIZE,  
TOO!

# WINSTON

the filter cigarette that really tastes like a cigarette!

■ No wonder Winston's so popular with college smokers! It's got *real flavor*—full, rich flavor you'll really enjoy. Winston tastes good—like a cigarette should!

Along with finer flavor, Winston also brings you a finer filter. The exclusive

Winston filter works so effectively, yet doesn't "thin" the taste or flatten the flavor. Winston lets you draw smoothly, easily—there's no effort to puff!

Try Winston, the filter cigarette that tastes good—like a cigarette should!

Smoke **WINSTON** the *easy-drawing* filter cigarette!

# Mexican Art Display To Be in Anderson

A display of contemporary Mexican watercolors and prints by some of Mexico's leading artists is to be shown until May 8 on the second floor hall of Anderson and in A221, according to Opal Hill, assistant professor of art.

The display, assembled with the cooperation of local art authorities, features 50 prints; including etchings, lithographs, woodcuts, aquatints, mezzotints, and color woodcuts, by 34 outstanding Mexican artists.

The exhibit is sponsored by the International Business Machines corporation, which during the past decade, has collected 30,000 art items. Contemporary paintings are

collected from the counties in which the company competes. All works are to be selected by a jury of local art authorities, and all contemporary examples are to be brought with no stipulation other than that they be representative of the talent, country, and people from which they come.

In 1939, at the New York and San Francisco world fairs, these exhibits were set up with the aim of breaking down barriers and promoting better understanding between business and art as well as between nations.

Basque is an unclassified language, its origin doubtful.

## Inspectors To Visit K-State AFROTC

A federal inspecting team, from Air university headquarters at Montgomery, Ala., is to inspect K-State's AFROTC detachment today and tomorrow.

The team is made up of Col. William M. Massengale, Jr.; Lt. Col. Edgar T. Poole, Jr.; and Lt. Col. Edgar M. Sliney.

The inspectors, were scheduled to arrive at the Manhattan airport last week, are to inspect all AFROTC cadets at their regular drill periods Tuesday and in classes on both Monday and Tuesday.

## Student Art Show Planned for May 10

A student outdoor art show will be sponsored by the Home Economics Art club May 10. All students regardless of their curriculum are urged to enter oil paintings; water colors; charcoal, pen, and ink drawings; pencil sketches; and all types of crafts.

Those items will be on display between Calvin, Auditorium, Nichols, and Fairchild from 10 a.m. to 5 p.m.

NUMBER 124

## Military Ball Queen Finalists Announced

The three finalists for queen of the Military Ball were announced today by Dick Rice, regimental commander of Army ROTC.

They are: Kay Randall, Delta Delta Delta; Charlotte Douglas, Kappa Kappa Gamma; and Sally Shafer, Chi Omega. The queen will be presented at the ball in Nichols gym this Saturday at about 10:30. The affair lasts from 9-12, Rice said.

The trio was selected from a field of 11 candidates who were nominated earlier by Scabbard and Blade and Arnold Air Society. The two organizations held a mixer at which they chose their candidates.

**MEMBERS OF** both organizations and their dates will form an aisle down the center of the floor for the crowning ceremony. The queen and her attendants will march down the aisle as they are presented by Ralph Titus, Air Force cadet.

C. Q. Williamson, Arnold Air president, will crown the queen with a colonel's cap, and gifts will be presented each girl.

The queen and her escort will pass through a saber guard after the crowning ceremony and will start the next dance.

**THE CUSTOMARY** crepe paper roof along with the shield of Scabbard and Blade and the wings of Arnold Air will be the decorations for the formal. The dance will be an all-College formal.

Special invitations have been sent to Maj. Gen. P. D. Ginder, commander of the 10th division at Fort Riley; Maj. Gen. John Lentz, commander of the 10th corps at Fort Riley; and Brig. Gen. David Wade, head of Forbes Air base.

**COMMANDING OFFICERS** of the military science department at Kansas University, Washburn, Nebraska, and Wichita are invited also.

Gov. and Mrs. Fred Hall, James A. McCain, and Rodney Babcock, dean of arts and sciences, have been sent invitations.

## Two Debaters To West Point For Tourney

Harry Knapp, PrL Jr., and Tom Bowman, ChE Fr., will leave Wednesday for West Point, N.Y., where they will compete in the West Point National Championship Debate tournament April 20-23.

Knapp and Bowman were recently selected as one of the five top teams in this area. They will be competing against thirty-two teams from all over the nation for national debate honors. Kansas university is the defending national champion.

Charles Goetzinger, debate coach, will accompany the team to West Point.

## Student Health

Three boys and one girl are patients at Student Health today. They are Betty Fahlsing, Howard Roach, Lloyd Ward, and James Lansing.

## Ten Named To Promote New Union

The Union governing board appointed a promotion committee and called for applications for the Union program council at a meeting last night.

The 10 appointed to the promotion group had made written application to the board. Appointed were: Gaye Fryer, HEJ Soph; Robert McDowell, Psy Fr; Beverly Ringey, TJ Fr; Carolyn Clark, Art Fr; Betty Theiss, HEP Soph; Lance Gilmore, TJ Fr; Richard Carr, TJ Jr; Jim Graves, BA Soph; Royanne McMullen, TJ Fr; and Hoyt Eells, Hst Jr.

**A MEMBER** of the board, Doreen Cronkite, HEJ Sr, was also appointed to the promotion committee.

The board called for written applications for positions on the Union program council by April 27. Henry Burmeister, AgE Jr, is in charge of arrangements to explain the program council set-up to the student body.

Positions for which applications are open are the chairman, assistant chairman, and secretary of the program council, and the chairmanships of seven of the council's committees — games, dance, movies, house and hospitality, photography and crafts, special events, and library, art, and music.

**THE CHAIRMEN** of the eight committees, including the promotion committee, are automatically members of the program council, according to Leon Armantrout, Union governing board chairman.

Loren Kottner, Union director, gave a report on the national conference of the Association of College Unions that he attended last week.

The board also set meeting dates for a tour of the new Union building, an interview with an applicant for a Union program director, and a business meeting to choose program council members.

## 30 Geology Students, Profs To Oklahoma

Thirty K-State students and faculty members will leave Manhattan Wednesday morning on a five-day field trip to geologic points of interest in Arkansas and Oklahoma.

On the trip the students will observe professional geologists at work, and have an opportunity to collect fossils, crystals, and minerals.

Planning to make the trip, which is sponsored by Sigma Gamma Epsilon; honorary geology fraternities are: Dale R. Olson, Donald S. McPherron, Jimmie Knoche, Robert D. Grass, William Crawford, Tom Wesselowski, Robert O. Wilbur, C. C. Hudson, Lewis Muir.

Ron Coryell, Benton Tibbetts, Bernard Albers, Keith Janne, Don Butcher, A. T. Ricci Jr., R. A. Mendenhall.

Eldon Leasure, Larry Vincent, Jim Steward, Marion Strobel, Ben Mayfield, Bill Johnson, Al Steunenberg, Byron Tolar, Kenneth Wahl, Eugene O. Bowser, Robert G. Masterson, and Arthur B. Sperry, J. R. Chelikowsky, and Louis Riseman of the geology staff.

## Keim Chosen Business Head

Samuel T. Keim Jr., 39, associate professor in the department of business administration at Texas A&M college, has been named head of the newly-created department of business administration at K-State.

Keim will assume his new duties in July, according to

R. W. Babcock, dean of the School of Arts and Sciences, who announced the appointment today.

Although the curriculum in business administration has had for many years the largest enrollment of any on the K-State campus, a separate department was created only within the past year.

Originally from Leavenworth, Keim received his early schooling in the Texas public schools and graduated from the Denton, Texas, high school. He received his B.A. in economics from Texas A&M in 1938 and his M.S. in economics from the same institution in 1940. Keim has been on the staff of the Texas institution since that date, with the exception of time spent in the armed services and in advanced study.

Keim holds a degree of industrial administrator from the Harvard Business School in 1943, and a Ph.D. from the University of California, Berkeley, in 1954. His thesis was entitled, "Commercial Banking Policy and Practice in Belgium, 1945-1950." Major fields of interest and research included finance, money and credit, and business cycles.

During World War II Keim spent more than three years in service, including overseas duty in France and Germany, and he was discharged with the rank of captain in the quartermaster corps. Keim has been assistant supply officer, with the rank of major, in the 420th Aviation Engineering brigade, an army reserve unit.

The new department head is a member of the Southwestern Social Science association and the American Finance association. He belongs to the Episcopal church.

Keim's wife is a native of Waco, Texas, and a graduate of Baylor university there. They have three children, Margaret Kathleen 5, Thomas Ashbury 3, and Susan Eileen, 8 months.

S. T. Keim Jr.

## Student Council Plans Retreat To Be May 2

The Student Council last night made plans for its two joint meetings with the new council, which will be elected Thursday and Friday in the SGA elections.

The Council decided to hold a dinner and a meeting at 5:30 next Monday with the new Council to acquaint it with the method of operation, and to hold a retreat Monday, May 2, to talk over student government—past and future.

The Council also heard a committee report on the traffic study being made. A full report was promised for next week.

The Council also asked that a report be submitted on how the Books for Democracy drive spent the \$100 in student funds the Council allocated to it.

It was the last independent meeting of the Council, although it will meet twice more with the incoming group. Only three of the sixteen members are candidates in the coming elections. Jack Barrett and Mark Drake are running for re-election to the Council, and Council member Gerry Day is running for student body president.

## One Restricted From Driving On Campus

William Sparks, AA Jr, was restricted from driving on the campus at the Tribunal meeting last night. Sparks had four tickets and said he did not know he was restricted when the fourth was given.

Jerry McDaniel, BA Soph, had four tickets and was referred to Dean Craig with the recommendation that the car be sent home.

McDaniel's cousin was driving the car when the fourth ticket was issued.

Martin Eby, Tribunal chancellor, reminds students that all students are responsible for their car even if someone else is driving it.

## Colder...

Enjoy today's warm weather, advises U.S. Weatherman Richard A. Garrett, because it's about over for a few days.

A cold front is expected to move in from the west late today, he said, bringing a temperature drop of about 15 degrees. Accompanying the cold front will be showers and thunderstorms in some parts of the state.

Mid-morning reports from the Norton and Ness City areas show rain cloud formations already developing there as part of the cold front. Some thundershowers pushed down from Nebraska and Iowa last night near Concordia but only a trace of rain fell.

Collegian photo by Gary Haynes

**"OUCH!"** Rosemary Derks, ML Fr, winces as Carolyn McGowan, HE Fr, right, applies suntan lotion to her sunburn. Marlyn Dallen, BA Fr, Carolyn, and Rosemary were among the "full force" of Northwest hall girls who were out yesterday taking advantage of the warm, sunny weather.

Clipped Comment—

# Iowa Editor Blasts Low-Quality Teaching

From the Iowa State Daily

Here's one of the great "wonders?" of Education. Why is it that persons preparing for grade and high school teaching are required to pursue extensive education courses while those starting in college teaching are not? Now, persons aspiring for public school teaching must study methods of teaching and evaluating public progress and practice teach under supervision in addition to their professional education. After satisfactorily completing such a program, the person is licensed under Iowa laws to teach in its public schools.

Then, take the college instructor at Iowa State. Many of them are graduate students whose interest are not always culminated in teaching. Teaching is but a means to a higher degree for many of them. But worse, they do not have to take these courses in the psychology of teaching and how to teach effectively. After their bachelor's degree they suddenly find themselves instructors with no particular preparation for the profession. Some of these graduate students evolve into excellent instructors without basic teaching background. Then again, too many of them are (and we use the term with full force) lousy.

That college teachers (at least at Iowa State) and high school teachers should possess such variance in qualifications never cease to perplex us.

Editor's note: Recognizing the lack of teaching experience that can hamper college instructors and professors, the administration has been furnishing a series of seminars for the improvement of teaching. These seminars provide new information on teaching methods and suggestions for teaching aids.

(The information in this column is obtained 24 hours before publication from the social calendar kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

### Today's World News

# Big 4 Austrian Meet Proposed by Russia

Compiled from the Wires of United Press

By DICK CARR

Moscow—The Soviet government called today for a meeting of the Big Four foreign ministers in Vienna in the near future to settle the Austrian question and sign a state treaty. The Soviet call for a foreign ministers conference was made in identical notes handed to U.S. Ambassador Charles E. Bohlen, British Charge D'Affaires C. C. Parrott and French Charge D'Affaires Jean Leroy.

They were handed the notes by Soviet Foreign Minister Vyacheslav M. Molotov in his Kremlin offices today.

Well-informed sources said the notes reviewed the entire Austrian question which came to a climax last week when Austrian Chancellor Julius Raab flew here last week and reached an agreement with Russia on the terms they would seek in a state treaty.

### Chu En-Lai Offers Friendship to All but U.S.

Bandung—Communist China's Premier Chou-En-Lai offered friendship to every nation in the world today except the United States and accused it of trying to overthrow the Peiping regime.

He had agreed a few hours earlier to meet with seven pro-Western and neutral nations on the Formosan crisis but his bitter speech foredoomed failure of the meeting.

Chou, premier and foreign minister of the second largest Communist nation in the world, pictured Red China as a friend of all mankind before the Afro-Asian conference which had heard a series of hard-hitting speeches against Communist aggression.

"China has no intention whatsoever to subvert the governments of its neighboring countries," he said in a speech that sharply disagreed with those of delegates from nations bordering Communist China.

"On the contrary it is the United States of America that is trying to subvert China."

### Purges Announced in Soviet Zone of Berlin

Berlin—Two of the largest right-wing parties in the Soviet zone today announced purges to rid themselves of "enemy elements" said to be plotting a revolt against the Communist government.

The purges were announced by the East German "Liberal Democratic Party" and the National Democratic Party. Both are members of the Communist-dominated "national front" coalition which runs East Germany.

A purge also appeared imminent in still another group, the "Free German Youth," an East German youth organization.

Reports of the purges coincided with new efforts by the West Berlin city government to end the Communists' pocketbook blockade of the city.

West Berlin Mayor Otto Suhr flew to the West German capital of Bonn today to discuss the blockade.

### Dulles To Explain Yalta Releases Before Committee

Washington—Secretary of State John Foster Dulles was called before the Senate Foreign Relations committee today to explain how a New York newspaper obtained the Yalta documents before they were released generally.

The committee meeting was closed to the public despite the objections of two members, Sens. John J. Sparkman (D-Ala.) and Hubert H. Lehman (D-Minn.). Chairman Walter F. George (D-Ga.) insisted on the closed session but promised that Dulles, prepared testimony would be given to the press.

Hail Miami U—  
But Which One?

Coral Gables, Fla. (U.P.)—University of Miami students and officials are quick to criticize anyone who calls their institution "Miami U." They don't like to have it confused with the Miami, O., university.  
But the most popular football song played by the College band is "Hail to the Spirit of Miami U." To make matters more confusing, the university is not located in Miami, but in Coral Gables, an incorporated suburb.

## Defending Champs Win As IM Softball Begins

Sigma Alpha Epsilon, defending fraternity champs, had an easy time in their opening intramural softball game as they shut out Alpha Tau Omega, 13-0.

The only other whitewash of the opening games came as Sigma Phi Epsilon blanked Phi Delta Theta, 7-0.

In other games yesterday afternoon, Phi Kappa defeated Beta Theta Pi, 3-2; Beta Sigma Psi defeated Lambda Chi Alpha, 7-1; Delta Sigma Phi defeated Theta Xi, 7-4; Sigma Nu defeated 1834 Club, 11-3; Farm House defeated Tau Kappa Epsilon, 7-1; and Pi Kappa Alpha and Acacia played a 6-6 tie.

This afternoon, six games are

scheduled in the independent division and two are scheduled in the fraternity bracket.

At 4:15—Alpha Kappa Lambda vs. Kappa Sigma, southwest field, city park; Jr. AVMA vs. Toppers, northwest field, city park; Hillbillies vs. House of Breck, west military drill field; House of Williams vs. DSF, east military drill field.

At 5:15—Alpha Gamma Rho vs. Sigma Chi, southwest field, city park; Wesley Foundation vs. Sigan Phi Nothing, northwest field, city park; Hui-O-Makules vs. YMCA, west military drill field; OK House vs. Hosenose Gang, east military drill field.

## Athletics Sharpen Hitting, Lose as Pitching Fails

Kansas City, Mo., April 19 (U.P.)—Manager Lou Boudreau cured one trouble for the Kansas City Athletics—hitting—but the team has another ailment that cost it a game last night and probably will mean more losses during the year.

Boudreau sharpened up the A's hitting with an afternoon batting session, but that didn't help his pitchers as they gave 13 walks and 9 hits to drop their fifth game in six starts, this time to Cleveland, 9-11.

THE GAME, first under the lights for the A's, drew 31,563 cash customers, a standing room only audience.

Before yesterday's game the A's had scored only 12 runs, to 43 for the opposition. Boudreau called an afternoon batting session which paid off with homers last night by Jim Finigan, Gus Zernial, Vic

Power, Bill Renna, and Bill Wilson.

The A's jumped to an 8-0 lead by the fifth inning, and then the pitching began to weaken. Cleveland used triples by George Strickland and Al Smith, along with three walks and a Kansas City error to get 5 runs.

The Indians added 2 in the seventh on 3 more walks and another error.

Kansas City got 1 in the seventh on Renna's homer, but the Indians matched it in the eighth.

WITH TWO OUT and a 3-2 count in the ninth, Ewell Blackwell, the third Kansas City pitcher, served up one to Larry Doby's liking. He sent it sailing out of the park with two men on—Harold Naragon, on with a walk, and pinch-hitter Hank Majeski, hit by a pitched ball.

## Golfers Lose League Match To KU, 4½-7½

K-State golfers went down to their second defeat in conference play and their third defeat of the season, as KU beat them, 7½-4½, at Lawrence country club course yesterday.

For KU, it was the second conference win of the season against no defeats.

Bob Richardson of KU was the low scorer for the day as he carded a two-under-par 70 in defeating Kent Poore of K-State, 3-0. Poore shot an 81.

Dave Pfuetze was the only winner for K-State. He shot a 78 to the 81 fired by Jim Mears of KU. Score of the match was 2-1, K-State.

In other matches, Jim Weatherford of K-State split with Noel Rooney of KU, 1½-1½. Weatherford shot a 78 to Rooney's 81.

Pete Rush of KU fired an 83, to the 84 shot by Hayes Walker of K-State, and won the match, 2-1.

Next meet for the Wildcats will be against Wichita on the Manhattan country club course April 22.

## Basketball Workouts Start for Wildcats

Spring basketball practice got underway yesterday at K-State with 23 boys reporting for practice. Twelve of them were freshmen.

"Practice went very well for the first day," coach Tex Winter said. "Most of the time was spent on fundamentals and drills."

The main thing to be accomplished is to cut the squad down to a workable size of 17 or 18 boys, he said.

Plans now are to start scrimmages next week, Winter said. The annual varsity-alumni game scheduled for May 6 will end spring practice.

## Netmen To Meet Wichita, OU, Tulsa

K-State's tennis team is scheduled to play three matches in three days as they go south to take on Wichita in a match today, Oklahoma tomorrow, and Tulsa Thursday.

The Wildcats have a 1-1 record for the season. They won the opening match of the season over Mankato (Minn.) Teachers, 5-2, then were defeated Friday by Washburn, 4-3.

The match with Oklahoma tomorrow will open the conference season for K-State.

## Eight TV Grid Tilts Set for Fall by NBC

New York, April 19 (U.P.)—An eight-game schedule of nationally televised college football games for the coming fall, including the Army-Navy classic on November 26, was announced today by the National Broadcasting company.

This setup for football television was devised by the NCAA's television committee and approved by the NCAA member colleges in a mail vote.

The complete schedule of nationally televised games:

Sept. 17—Miami at Georgia Tech.

Oct. 1—Ohio State at Stanford.

Oct. 15—Notre Dame at Michigan State.

Oct. 29—Iowa at Michigan.

Nov. 19—UCLA at Southern California.

Nov. 24 (Thanksgiving day)—Texas at Texas A&M.

Nov. 26—Army vs. Navy at Philadelphia.

Dec. 3—North Carolina at Duke.

Cage coach Tex Winter pole vaulted 14 feet, 2½ inches while in college to earn the Pacific Coast conference title.

## Look for the Spalding "Tennis Twins" Wherever Top Tennis Is Played

There are good reasons why Spalding's tennis twins are used in more major tennis tournaments than all other tennis balls combined.

Top players want a tennis ball that can take rough treatment... and give uniform performance set after set. They pick the Spalding and the Spalding-made Wright & Ditson over all others for uniform wear and better bounce qualities.

Put the best ball in play for your best game. The pick of top tennis men... Spalding's famous tennis twins.

Your dealer has them now.

# Loan Fund 'Rescues' About 150 K-Staters

By PAUL JONES

Approximately \$40,000 is presently being loaned to students through the College Alumni Office, Kenney Ford, alumni secretary, said. This money is in the hands of nearly 150 students.

"Our biggest worry," Ford said, "is that a student might pack his things and go home for financial reasons without knowing about this service." He emphasized that the real purpose of the loan fund, which now stands at \$176,000, is to help any student who needs money to remain in school.

The sum now available for students has been accumulated in part since the loan fund was started in 1916. The money, Ford said, has come mostly from life membership payments to the K-State Alumni association, but now that the loan fund is adequate money from memberships is going to other purposes. He added that other sources of loan money have been gifts and bequests.

In addition to the regular term of loans, the association has set up an emergency fund for short and quick lending. Dean M. A. Durland, chairman of the general

loan committee, accepts applications directly.

Ford explained that the long-range loans may be made on the "installment plan" as a student needs the money, and may be repaid after that student graduates.

"We are rather proud of our lending system in that practically no losses are encountered in loaning money to students," he said. He added that K-State is one of the few colleges in which the alumni association loans to students.

## Youngstedt Heads Phi Epsilon Kappa

Gene Youngstedt was elected president of Phi Epsilon Kappa, men's physical education honorary, at a recent meeting.

Other officers elected are Joe Powell, vice-president; Dave Winter, secretary; Lyle Harrell, treasurer; Fred Schneider, guide; Dale Misak, sergeant-at-arms; and Jim Pollom, historian-editor.

## Campus Briefs

E. M. GERRITZ, registrar, is attending the 41st annual meeting of the American Association of Collegiate Registrars and Admissions Officers in Boston today through Thursday.

Gerritz will participate in a clinic for registrars and admissions officers and in a panel discussion in high school-college relations.

HAROLD HOWE, dean of the graduate school, Leonard Schruben, department of agricultural economics, and Carl Tjerandson, director of general extension, are in Chicago attending the fifth annual conference on preservice and graduate training for extension workers.

PROF. LOYAL F. PAYNE of the poultry department will go to Topeka Wednesday to confer with representatives of the Agriculture Marketing service of the United States Department of Agriculture and Dave H. Long, Federal State Supervisor of poultry.

DEAN E. E. LEASURE, Dr. M. J. Twiehaus, Dr. J. E. Mosier, Dr. E. J. Splitter, and Dr. J. H. Cowan, all of the School of Veterinary Medicine, will put on a program for the Kansas City Veterinary Medical association, tonight at the Livestock Exchange building in Kansas City, Mo.

They will discuss recent advancement in the field of veterinary medicine and demonstrate new clinical procedures.

FLOYD HANNA, College photographer, and Professors T. V. Avery and L. F. Payne of the poultry husbandry department will be at White City Friday to take pictures of the John Scott turkey farm.

The pictures will be used in a turkey bulletin being prepared by Professor Payne.

PRESIDENT McCAIN will speak to the members of the Kansas Livestock association in Dodge City at their district meeting today.

Dr. McCain will discuss how livestock producers and K-State work together for the improvement of the livestock industry in Kansas.

NEIL W. CHAMBERLAIN, professor of economics in the graduate school of business, Columbia university, and an international authority in industrial relations matters, will be principal speaker at an all-College assembly Thursday morning, April 21, which will open a student "Industrial Relations Conference on Productivity." Before joining the Columbia staff in the summer of 1954, Chamberlain was research director and assistant director of the labor and management center at Yale university. He is the author of a number of books.

## Jamieson Heads AVMA Women

Margaret Jamieson has been elected president of Junior AVMA auxiliary for next fall.

Other officers are: Ann Melcher, vice-president; Beth Wisecup, secretary; Shirley Ebers, treasurer; and Marga Johnson, parliamentarian.

## Assembly To Start Industrial Conference

Dr. Neil W. Chamberlain will speak on "Labor-Management Relations and Productivity" at an all-College assembly tomorrow morning which will open the Industrial Relations Conference on Productivity.

Dr. Chamberlain is a professor of economics in the graduate school of business at Columbia university. He is the author of a number of books, several of which are Collective Bargaining Procedures, The Union Challenge to Management Control, and Social Responsibility and Strikes.

He is a member of the Labor Market Research committee of the Social Science Research association and of the Board of Governors of the Industrial Relations Research association.

After serving with the Naval Reserve for four years, Chamberlain went to Yale where he was first research assistant and then research director and assistant director of the Labor and Management center, as well as assistant professor and then associate professor in the department of economics. He joined the graduate school of business at Columbia in 1954.

Chamberlain first became interested in the field of industrial relations as a reporter for the International News Services in Cleveland during the winter of 1936-37. His assignments included the Fisher Body sit-down strike and some of the Republic Steel court cases in connection with the organizing campaign of the steel workers. Finding that he had an insufficient background to appreciate the significance of these events, and finding his interest aroused, he decided to return to academic life and continue in the field of industrial relations.

## Plans Completed For New Structure

Plans for the new animal industries building have been completed and submitted to the state architect for approval, R. F. Gingrich, physical plant superintendent, has announced.

He said it is hoped that by Friday his office can begin making copies of the specifications to give to contractors who may bid on the building. Contracts are to be let the first week in May.

The building will be located northeast of the new extension building.

## Faculty Invites Student Views On Teaching

Three Kansas State students are to be given an opportunity to tell faculty members what they think of them in the last in a series of three all-college seminars on the improvement of teaching.

The students are Bunny Cowan, Psy Fr; Jan Boster, DIM Jr; and Paul Brande, Zoo Gr.

The students will tell their experiences and observations concerning K-State teachers, particularly in regards to inspiration and motivation.

The seminar is entitled, "To See Ourselves as Others See Us," according to Mrs. R. E. Glenn, chairman of the committee on improvement of teaching. The seminar will be at 4 o'clock Wednesday afternoon in Rec center, Mrs. Glenn said.

## Dorm Erection To Be Started July, 1956

Tentative plans now call for construction of the first of three men's dormitories to begin by July, 1956. A. Thornton Edwards, director of housing, has announced.

He said that by that time state taxes should be sufficiently accumulated to start the project. This year, a higher levy has been set in order to have money for dormitories in the five state institutions of higher education.

Edwards estimated that the first unit would cost \$1,550,000, and the second and third \$1,600,000 each. He said they hoped to have the three completed by the fall of 1964.

## Student Health

Rita Allen, James Lansing and Harold Roach are patients in Student Health today.

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Wednesday, April 20, 1955

NUMBER 125

## Polls Open Tomorrow For College Elections

### Frenchman To Speak At Confab

M. R. Donn, official representative of the French Productivity Program, will discuss American productivity and its comparison to France, tomorrow at the Industrial Relations Conference on Productivity.

Donn, an observer and student of United States productivity for the past six years, is intimately associated with the leaders of the productivity movement in France.

He is a 1939 graduate of Sorbonne (Faculty of Arts) and a 1940 graduate of the French Diplomatic school. He graduated from the School of Trade Organization in Paris in 1942 and then became a Law Faculty graduate in 1943.

In 1941 Donn became the personal secretary to Henri Fayol, son of the famous author of "Industrial and General Management." Fayol was then the Chief Allocator of Steel in occupied France, and Donn became interested in productivity matters. He wrote monographic surveys of French industries which were kept secret until the liberation of France in 1944. These monographs later served as basic documentation for the work of Jean Monnet in seeking to modernize French industry.

Since 1947 he has been the official representative of the French productivity program. His office handles all problems connected with the technical exchange program between France and the United States.

### Top Ag Official, Former K-Stater, Speaks at Banquet

David G. Hall, a Kansas State graduate who is now one of the top public information officers for the U.S. department of agriculture, was speaker last night at the annual banquet of Gamma Sigma Delta, honorary agricultural society.

Hall, who received his M.S. degree in entomology from K-State in 1939, joined the bureau of entomology upon leaving the College. He worked up through the ranks to become a senior entomologist before being asked, in recent years, to establish a public information operation in the bureau. Under a recent organization he became chief of the publications branch of the agricultural research service.

Hall was the key man in entomology's Centennial Commemoration program, carried out in 1954. He also is receiving much of the credit for the newly designed publications issued by the bureau of entomology during its last year, and the publications now coming from the agricultural research service.

### Robertson and Day Explain Views, Platforms

On the editorial page inside, student body president candidates, Gerry Day and Phil Robertson, discuss their platforms and the views on the students' place in SGA.

### Fischer Works To Highlight Choir Concert

The final Manhattan Friends of Music concert presented Sunday afternoon in the Auditorium by the A Cappella choir includes several original compositions and arrangements by William R. Fischer, conductor of the choir.

In 1950 Fischer wrote and dedicated to the choir a composition based upon the text of Psalm 137. It is entitled "By the Waters of Babylon." Since that time the choir has performed this work on tour and in campus concerts. His arrangements include several American Folk Songs and a portion of the Jewish service known as Tzitzit (Prayer for the Day of Atonement).

At the concert Sunday, Fischer will present another original work set to the poem "Music when Soft Voices Die" by Shelley. This work was composed in 1948.

Arrangements of Fischer's to be sung by the choir will be several American and English folk songs and spirituals, "O Dear, What Can the Matter Be," "Sweet Betsy from Pike," and "I Ain't Gwine Study War No More." The choir will sing a concert version of some of the music from Act I of "Porgy and Bess" by George Gershwin.

Robert Wilson Hays, a member of the music faculty and college organist, will contribute, along with Fischer, an original composition, "O Lord Support us All Day Long," a text composed by John Henry Newman. Hays composed this work in 1940.

Featured on the program will be the newly organized K-State Singers, a small chorale selected from the personnel of the K-State A Cappella Choir.

### Graduate Faculty Plans Discussion Of English Need

A tentative plan for meeting an English requirement for graduate students will be discussed by members of the graduate faculty in Engineering lecture hall April 26, at 4 p.m., Harold Howe, dean of the Graduate School, said.

Two proposed professional courses to be offered to graduate students who intend to become college teachers will also be discussed at the meeting, Dean Howe said.

### Slate Carries Names of 42 Office Seekers

Polls for the all-College election of student body president, student Council members, and members of the Board of Student Publications, will open tomorrow at 7:45 p.m. in Anderson hall, Seaton hall, Calvin hall, Waters hall, and Vet hall.

In order to vote students must have their activity tickets. Members of the School of Arts and Sciences should vote in Anderson; home economics students, in Calvin; agriculture students, in Waters; engineering students, in Seaton; and veterinary medicine students, in Veterinary hall. Graduate students may vote at any polling place.

Heading the list of candidates for offices are Gerry Day, VM Jr, and Phil Robertson, FT Jr, who are running for student body president.

**CANDIDATES FOR** election to Student Council from the School of Arts and Sciences are Bill Kennedy, BAA Jr; Jerry Bray, BA Jr; Joyce Larson, PEW Jr; Pat Wilkerson, BA Soph; Bunny Cowan, Psy Fr; Dave Winter, PEM Jr; Don Jones, PrM Jr; Margie Lemon, BMT Jr; Jack Barrett, BA Jr; Judy Menehan, Sp Jr; Nancy Blackburn, MEI Soph; Marilyn Smith, BMT Soph; Jim Graves, BA Soph; and Bob McDowell, Psy Fr. Of these candidates, seven will be elected to the Council.

Candidates for election to the Student Council from the School of Home Economics are Martha Helmers, HE Jr; Delaine Smith, HEA Jr; Beverly Sargent, HEJ Jr; and Charlotte Henry, HEJ Soph. Two will be chosen from this slate.

Candidates for election to Student Council from the Graduate school are Merton Melvain, Sp Gr, and Eugene Welsh, Chm Gr. One will be elected.

Candidates for election to Student Council from the School of Engineering are Dean Nehrig, CHE Soph; C. Q. Williamson, EE Sr; Mackie Murphy, CE Jr; Newton Anderson, ME Fr; Keith Swenson, ARE Soph; Mike Cornett, AGE Soph; and Louis Burmeister, ARE Soph. Three will be chosen.

**RUNNING FOR** election to Student Council from the School of Agriculture are Walt Martin, Ag Soph; Mark Drake, AH Jr; Dick Baker, AED Jr; Don Hunt, AH Jr; Gene Grabs, Ah Jr; and George Atkeson, DH Jr. Three of these men will be elected.

Candidates for election to Student Council from the School of Veterinary Medicine are Ed Gillette, VM Jr, and Warren Nichols, VM Fr. One of these men will be chosen.

Candidates for election to the

(Continued on page 6)

# SGA Presidential Candidates Discuss Student Government

The time has come for a decision. It is one you, the voter, will make this week in student government.

We, the Integrity party, have endorsed a platform which contains a basic ten-point program K-State students should have. And we have a slate of candidates which will put them into effect if elected. The platform in brief calls for:

1. Establishment of a non-profit bookstore on the K-State campus. It has been said there is not room in the new Union. Is this true? Is there not some other place a bookstore can be established on the campus? Has the student government for the past three years been considering special commercial interests rather than the welfare of all students?

2. Improvement of campus parking facilities and traffic control. We plan to end the present unjust system of punishing traffic violators.

3. Establishment of an Associated Women Students' organization (AWS). This will give K-State co-eds a governing organization similar to those that co-eds on other campuses feel have helped to solve their problems.

4. Revision of SGA committee structure and appointment system. Overlapping and duplication should be eliminated. Appointments should be made from letters of application and not on a basis of personal friendship as has sometimes been done in the past.

5. Persistent demands to the administration for more and better married-student housing. Other colleges provide married-student housing at reasonable cost. A similar program must be put into effect at K-State.

6. Raise the maximum ceiling of student wages. The present 90 cents-an-hour maximum on student wages often deprives deserving students of a fair wage and keeps the entire wage scale too low.

7. Revision of the constitution to do away with the elimination of Student Council candidates by school councils. The school councils seemingly are unable to fairly eliminate candidates. This should be done in an all-College primary election.

8. Promote the establishment of more general scholarships. Not only is K-State lacking in scholarships but most of them are very specialized and are not available to most students.

9. Student vote on all fee increases, and elimination of unnecessary existing fees. The \$10 matriculation fee paid by incoming students and the \$9 graduation fee paid by seniors should be eliminated.

10. Revision of the constitution to provide for adequate freshman representation. At present freshmen have no representative until late in the second semester. They should have representatives chosen in the fall to correct the disadvantageous position which they now hold.

We believe our platform contains very real points of need. Needs which have not been considered by the one-party system of the past. It is because of this that we of Integrity say it is time for a change.

It is your decision. Make it as you would. But be sure to make it.

Gerry Day, Integrity candidate for student body president.

Students! What is your conception of student government at K-State? Have you ever stopped to consider that you are the backbone of the SGA system on the campus? It is YOU, not political parties or candidates, that should make the decisions concerning policies to be followed in our student government.

What, then, should be the aims of a political party or SGA candidate when the question of writing a platform arises? Should one resort to merely endorsing every popular issue on the campus? If such is the case Pogo could probably be elected on a platform of free love, nickel beer, and complete abolition of all college fees.

However, I and the New All-College party do not believe that this is the proper approach. Consequently, we have presented a platform that does not have a glittering appeal on the surface, but one that embodies a great deal of constructive thought and approach.

Who should decide what are to be the policies of SGA? Should it be the political candidate attempting to gain popular appeal in a spring campaign, or should it be the students themselves once they are provided with the proper mechanisms to do so?

A major portion of the New All-College party platform is designed for allowing the students to decide what the most urgent and necessary issues really are. Allow me to quote it.—"To carry out an over-all program to increase interest and promote student body participation in SGA." Under this general heading we have included: (1) freshman representation on Student Council; (2) direct election of the Student Union Governing Board; (3) rejuvenation of SPC; and most important (4) a system of direct balloting of the students on important issues which pertain directly to them.

Surely it is clear to you that once these measures are put into effect, the entire student body can enjoy better representation and greater influence on Student Council. This, I feel, would promote the necessary general student interest to make your SGA the best of any college campus. Better SGA depends basically on only two things, good representatives and strong student support and interest. We of the New All-College party have nominated a slate of strong, well-qualified candidates who, by their past records, have proven themselves workers. These candidates will, if given the opportunity, establish the necessary reforms to allow greater student body influence in SGA.

I feel that the qualifications for an SGA president should indicate that he has worked steadily in his college career to attain the background necessary for such a position. My activities include: Homecoming committee chairman, Royal Purple staff, Alpha Zeta, Alpha Mu, Tribunal, Ag Council, president of Milling Students Association, and cheerleader.

This is my record as a student at K-State. You examine it and compare it with others, then make your choice. But, by all means, vote!

Phil Robertson, New All-College candidate for student body president.

## Today's World News

# Red Premier Delays Far Eastern Talks

Compiled from the Wires of United Press  
By DICK CARR

Bandung, Indonesia—Chinese Communist Premier Chou En-Lai forced today a postponement of an eight-nation meeting called to seek an end to the Formosa crisis that threatens war in the Far East.

The Colombo powers—India, Burma, Pakistan, Ceylon and Indonesia—announced an indefinite postponement after Chou's tactics twice halted work of the Afro-Asian conference's vital political committee.

First Chou refused to accept the United Nations definition of "human rights" in a scheduled discussion of that topic and the conference was forced to set up a subcommittee to work out another definition.

## Running Street Battles in Saigon

Saigon, Indochina—Government paratroops fought a rebel commando unit today in a running street battle that sprayed a crowded passenger bus with tommygun bullets.

First reports said one Viet Namease was killed and two wounded aboard the bus which ran into a crossfire during the second bloody outbreak in two days in this crisis-ridden city.

The street battle started shortly after noon when a truce reached recently by Emperor Bao Dai expired and his pleas for a new one to halt the spread of the civil war went ignored.

Government troops guarding the national headquarters tried to halt a truck loaded with shocktroops of the Binh Xuyen gang of ex-river pirates but the truck swerved from encircling troops and the Binh Xuyen opened fire, hitting the passenger bus.

## Chinese Reds Amass Warplanes Near Formosa

Taipei, Formosa—Some 800 Red Chinese warplanes, including modern Soviet-built jet bombers and fighters, are massed on the China mainland opposite Formosa, authoritative Nationalist sources said today.

The force is estimated to represent about three-fourths of Red China's total air strength, estimated here at 1,200.

The sources said the Reds have shifted some 500 jet fighters and bombers and about 300 propeller-driven warcraft into South China across the strait from the Nationalist island bastion.

## UN Ignores Israeli Demand in Egyptian Dispute

United Nations, N.Y.—The United Nations security council yesterday ignored Israel's demand for condemnation of Egypt for border violations and charged both nations with responsibility for restoring order along their troubled frontier.

Israeli Ambassador Abba S. Eban charged the council raised doubts of whether it "practices an absolutely balanced impartiality."

The council on March 29 condemned Israel for an attack on an Egyptian garrison in the Gaza frontier strip on February 28. Israel then called for a "clear condemnation" of Egypt for a series of border incidents since March 20.

## Politics Inspires Poetry

The campus politician sits,  
Stares at space and strains his wits;  
For on his name he hopes to tote,  
The majority of the college vote.  
He thinks, he writes, he tears his hair,  
His rival isn't playing fair;  
The opponent is a man of means,  
Even if he does wear jeans.  
What to say now, what to charge,  
Tell-um he's a thug at large;  
Dirty him like a "Kleenex" tissue,

Anything to dodge the issue.  
The voting day approaches quickly,  
Candidates are looking sickly;  
Mud and dirt at each are cast,  
And now the day is here at last.  
Party backers wring their hands,  
At their foe's shoot rubber bands;  
But here it is, Win Place and show,  
The winner's name is—POGO.

## Beer-Drinking Aids Research

(ACP)—Larry Edwards, a junior here at Rensselaer Polytechnic, probably wound up the other day as the gayest, if not the most scientific, "guinea pig" on the school's campus.

As part of the Interfraternity Council-sponsored Safety Week, Edwards volunteered to drink a can of beer every 20 minutes from 1 to 5 p.m. in the student lounge.

Purpose of the experiment was to study "reaction time, depth perception, peripheral and night vision and steadiness under the increasing effect of alcohol."

## HE Leader To Address Journalists

Mrs. Clara Gebbhard Snyder, home economist noted for her wide experience in writing, radio and television, will be guest speaker at the Matrix Table banquet, sponsored by Theta Sigma Phi, women's journalism honorary, tonight at 6 p.m. in the College cafeteria.

Mrs. Snyder, who is currently

Clara Gebbhard Snyder

employed by the National Association of Margarine Manufacturers in Lincoln, Neb., will give her speech, "Cooking on a Typewriter," before some 100 members, alumnae and friends of the organization who are expected to attend the banquet.

At present Mrs. Snyder is completing a filmstrip, "Margarine, A Modern Food," for which she wrote the script, prepared the foods and assembled the props.

In addition to a teacher's handbook to accompany the film, Mrs. Snyder has recently written a booklet, "Fats in Your Diet," and has been working on two recipe booklets for home and restaurant use.

Active in the home economics field for more than 30 years, Mrs. Snyder has had a wide range of experiences in her work. In 1930 she was instrumental in organizing the consumer education department for the National Poultry and Egg Board. Five years later she was asked to organize a similar activity for the flour and bread industries. In organizing the Wheat Flour Institute, Mrs. Snyder worked with several home economists from Kansas State, writing booklets, magazine articles, presenting food demonstrations and making food pictures.

Well known for her magazine writing, Mrs. Snyder has contributed articles to Better Homes & Gardens, and for a number of booklets published by food manufacturers. In Lincoln where she has lived since 1950, she has served as consultant on new product developments for several flour mills, and worked in other similar projects. During a recent summer, she substituted for Louise Lesslie on her homemaker's show over 26 CBS TV stations.

Mrs. Snyder is the wife of Lyold B. Snyder, professor of farm economics at the University of Nebraska.

## K-State Adventurers Vow To Navigate Kaw River

By PAUL JONES

"We shall try again," was the vow of two K-State seniors who were forced to abandon ship on an attempted canoe voyage down the Kaw river to Lawrence this weekend.

The two, Franklin Houser and Ron Webb, launched their borrowed canoe on the Blue River three miles east of Manhattan early Saturday morning. Things went fine all that day, and by dusk they were ready to camp at St. Mary's, about 80 miles downstream, and about 35 miles by highway.

However, Sunday came with a strong southeastern wind. Not only was it a direct headwind, but it caused relatively big waves, and going became tough. After two hours and eight miles Sunday, the two gave up the expedition.

Hope of reaching Lawrence was not dampened as much as the pair's feet were by the leaky boat, it was related. Plans for another try at the first available time are being made.

Only adverse effect was a case of sunburn suffered by Houser. Neither complained of their meals of Spam, beans and bread.

More than a million earthquakes occur in the world each year, but only a fraction of these are recorded.

## Art Committee Leaders Named

Committee chairmen chosen for the student outdoor art show, May 10, are Joan Guyer, HEA Soph, publicity; Lois Perry, HEA Jr, crafts; Helen Bartz, HEA Soph, painting and drawing; Marion Teare, EED Fr, hostesses; Lois Perry and Helen Bartz, taking down art work.

The art show will be held on the grounds between Calvin, the Auditorium, Nichols, and Fairchild from 10 a.m. to 5 p.m. Entries will consist of work of any student in any curriculum or school who wishes to enter. Divisions include oil painting, water colors, charcoal and pen and ink drawings, pencil sketches, and crafts.

The principal sum left by Alfred B. Nobel as the basis of funds for Nobel prize winners was \$9,000,000.

## Pre-Advisement Program Slated For Upperclassmen

A pre-advisement program for juniors and seniors will begin April 25, E. M. Gerritz, registrar, said.

Thirty-minute enrollment conferences have been scheduled by the advisers to make out a program of courses for the following semester. Line numbers will not be assigned. When possible, alternate courses will be planned.

Gerritz pointed out that this is not actually pre-enrollment, but is designed to help the students make out their program.

The most thickly populated non-metropolitan area in the world is the island of Java, part of the republic of Indonesia. Its population of nearly 53,000,000 lives in an area about the size of Alabama much of it mountainous.

## A WHOLE CABOODLE OF LUCKY DROODLES!

WHAT'S THIS?

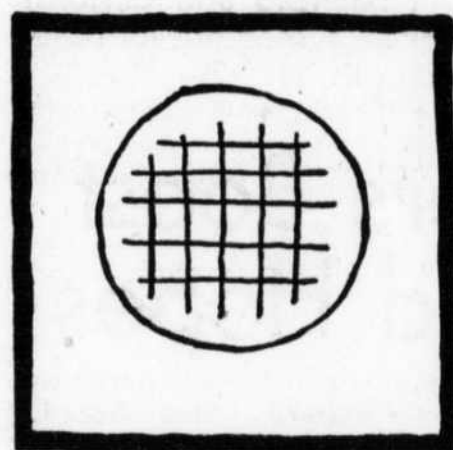

For solution see paragraph below.

**A WONDERFUL SLANT** on smoking! You'll find it in the Droodle above, titled: Tourist enjoying better-tasting Lucky Strike while leaning against tower of Pisa. If your own *inclination* is toward better taste, join the many college smokers who prefer Luckies. From any *angle*, Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Little wonder that Luckies tower above all other brands in college popularity!

## Collegian SPORTS

KANSAS STATE COLLEGIAN

Wednesday, April 20, 1955—4

### Independents Organize Two Softball Loops

Two independent softball leagues, made up of eight organized houses, have been formed with four teams in each league.

Each team will meet other members of the league twice, with the winners of each league meeting in a championship game at the end of the schedule.

League No. 1 is made up of LRK, Acropolis, Sigma Phi Nothing, and House of Breck.

League No. 2 is made up of House of Williams, La Citadel, OK House, and Sheiks of Kasbah.

In play thus far LRK has defeated both House of Breck and Sigma Phi Nothing. House of Williams has defeated Sheiks of Kasbah, and La Citadel has defeated OK House.

Games scheduled for this week pit Acropolis against LRK, Sigma Phi Nothing against House of Breck, La Citadel against Sheiks of Kasbah and House of Williams against OK House.

### Dodgers' Erskine Off to Good Start

New York (U.P.)—Carl Erskine was off toward a hoped-for good season today with two victories, one strong and one shaky, but the ace of the Brooklyn Dodger pitching staff couldn't account for the variations.

IN HIS opening-day triumph he hurled a strong 6-1 win over the Pittsburgh Pirates. Then, Monday night, he needed help from the bullpen after 5 1/2 innings to post his win over the Phillies.

"I felt just as good the second time as I did the first," he admitted. "There's just no accounting for why you are sharp one time and then aren't sharp the next time you pitch."

IT'S A QUESTION that long has been pondered by the men who make a living throwing a baseball past rival hitters.

In his first year with Brooklyn, Carl's 8-1 record helped the team to the pennant. In 1952, he had a 14-6 mark, contributing a no-hitter as Brooklyn won again. In 1953, Carl posted a 20-6 record and a league-leading .769 percentage for another flag.

Last season, despite a sore arm, he worked overtime in a losing cause. His record was 18-15.

### No-Hit No-Run Pitching Gives Hillbillys 17-0 Win

The Hillbillys, last year's independent softball champs, easily defeated the House of Breck, 17-0, in intramural softball yesterday.

### Ruth's Homer Mark Seems Safe Despite Home-Run Barrage

New York (U.P.)—Major league bats are hammering home runs at a record pace today but the odds are staggering that Babe Ruth's greatest record, 60 in a season, still will be in the books at season's end.

The crescendo of team honors has reached a terrific early season pace. But it's a different story when it comes to one man matching or shading that magic 60 which Ruth posted in 1927.

SINCE THAT TIME, five men have been within striking distance of the Bambino's mark. All of them got into the 50's—but getting up to 60 was another matter.

Everything has been done for the hitter in recent years. There can be little question but that the ball has more "jackrabbit" than it did a few years back. The clubs have conspired by moving in fences to capitalize on the turnstile lure of the home run and the home-run hitter.

Yet the three closest approaches to Ruth's record were made in the 30's. Hack Wilson of the Cubs made the first challenge in 1930 with 56. Jimmy Foxx of the A's walloped 58 in 1932 and seemed to have it in his pocket when he was injured. Hank Greenberg of Detroit matched the Foxx figure in 1938.

SINCE THEN, only Ralph Kiner, when he was with Pittsburgh, and Johnny Mize, when he was with the Giants, have reached the 50's—and the low 50's at that. Kiner and Mize tied with 51 in 1947. Kiner hit 54 in 1949.

The home-run king last season was burly Ted Kluszewski of the Cincinnati Redlegs. Yet mister muscles connected for only 49.

When a home-run hitter gets up around the 50 mark he'll find it tougher than ever. The walks will be more frequent and the good pitches few and far between.

Any slugger would like to break that 60.

as Ace Allen, Hillbilly pitcher, threw a no-hit no-run game.

In an unusual game, Sigma Chi and Alpha Gamma Rho played a game that ended in a double shut-out. Neither team had scored when the 45-minute time limit was up.

In other games yesterday, Kappa Sigma defeated Alpha Kappa Lambda, 14-4; Jr. AVMA defeated Toppers, 6-5; Sigma Phi Nothing defeated Wesley Foundation, 9-5; Hui-O-Makules defeated YMCA, 6-5; House of Williams defeated DSF, 9-6; and OK House defeated the Hosenose Gang, 5-3.

Today's schedule, at 4:15—Phi Kappa Tau vs. Phi Delta Theta, southwest field, city park; Lambda Chi Alpha vs. Sigma Alpha Epsilon, northwest field, city park; Beta Sigma Psi vs. Theta Xi, west military drill field; 1834 Club vs. Farm House, east military drill field.

At 5:15—Phi Kappa vs. Sigma Phi Epsilon, southwest field, city park; Alpha Tau Omega vs. Delta Sigma Phi, northwest field, city park; Acacia vs. Sigma Nu, west military drill field; Pi Kappa Alpha vs. Tau Kappa Epsilon, east military drill field.

Photo by J. R. McLeland

**BOOST DIAMOND SQUAD**—Baseball coach Ray Wauthier (left) gives pointers to third baseman Bob Whitehead (center) as Kerry Clifford looks on. Whitehead and Clifford, members of Bus Mertes football squad, turned out for baseball at the conclusion of spring grid drills.

### Two Gridders Boost Cat Diamond Hopes

K-State's baseball team received a boost as it started practice Monday for two league games with Colorado Friday and Saturday in Griffith stadium.

Reporting for practice were two football players who had worked in spring grid drills before reporting for action with the baseball team.

Bob Whitehead, who lettered at third base for the Wildcats last season and hit .280, will try to regain the third-base position; Kerry Clifford will be after a starting berth at first base.

"Both boys will help the club, as they have initiative and desire to win," coach Ray Wauthier said.

In the first full practice in which both competed, they both hit the ball well, he said.

The games with Colorado next week end will be the third and fourth in conference play for K-State. Last week the Wildcats

dropped a pair in their initial conference outings. These losses left the Wildcats with a 2-3 mark in overall play.

"The past few seasons we have gotten the jump on Nebraska and knocked them out of a chance at the Big Seven title, but this year they got the jump on us," coach Wauthier said.

**CENTER PROSPECTS**—Basketball coach Tex Winter (right) looks over the four cagers from whom he hopes to develop a starting center for next season. Left to right are 6-6 Parker Stotler, 6-6 Wayne Hutchins, 6-7 Joe Powell, and 6-9 Jack Parr.

## Winter Works Cagers On New Charity Lane

Work on a new offense designed for the 12-foot free-throw lane took up most of the session in K-State's spring basketball practice yesterday.

The 12-foot lane replaces the 6-foot alley that has been on basketball floors since the game began.

The Cats spent the remainder of yesterday afternoon working on fundamentals in preparation for the annual varsity-alumni game that will climax the workouts May 6. This was the second workout of a three-week practice session.

**COACHES** Tex Winter and Howie Shannon are looking for a pivot man to fill the shoes of the two graduating centers, Jerry Jung and Roger Craft.

The coaches are working with freshmen Jack Parr and Wayne Hutchins, with sophomore Parker Stotler, and with junior Joe Powell in an effort to find the answer to this problem.

"WE HAVE an abundance of good little men who are great ballhandlers and playmakers. Our big problem is in developing a big boy, and we feel that among these boys we can find the answer," Winter said.

Twenty-three cagers, 12 of them freshmen, are working out. It is expected that the squad will be cut to a more workable group of 17 or 18 men soon.

Missouri university's baseball team won the NCAA championship last year with an overall record of 22 wins and 4 losses. The Tigers also won the Big Seven flag with an 11-1 record.

## Boudreau Ponders Extra Hitting Drills For A's Infielders

Kansas City, Mo., April 20 (U.P.)—Manager Lou Boudreau was pondering today whether to have extra batting practice for his infield.

After losing three games on the road, the Athletics came home late Sunday night with a 1-4 record. Boudreau, dissatisfied with the inability of his outfielders to come through with hits, ordered his regular fly chasers—Gus Zernial, Bill Wilson, and Bill Renna—to report early for afternoon hitting drill.

**THE MOVE** paid off against the Cleveland Indians in the opener of the series Monday night. All three—Wilson, Zernial, and Renna—clouted homers, but they weren't enough.

Cleveland rallied for 3 runs in the ninth and won, 11-9.

The Tribe's comeback success apparently gave the lowly regarded A's an idea.

In the wind-up of the series yesterday, Boudreau's charges came through with five runs in the last of the ninth to wipe out a 7-3 Cleveland lead and win 8-7.

**THE BRILLIANT** finish enabled the A's to break a five-game losing streak and gave them their second win in seven starts. It came before 14,000 persons, who boosted the total home attendance for four games to 99,578.

Big Mike Garcia, one of the stalwarts of the Cleveland pitching staff, was the loser yesterday. If he wanted to blame one man in particular, it had to be Vic Power.

The A's first baseman clubbed Garcia for three hits in as many trips Monday night.

## Alpha Xi Delta Wins Girls Softball Opener

Alpha Xi Delta won over the Chi Omega-Alfa Delta Pi sororities team, 6-5, in the opening game of girls' intramural softball yesterday.

Kappa Kappa Gamma defeated Kappa Delta, 16-12, and Waltheim defeated Southeast hall, 8-6, in other games yesterday.

Two games are scheduled for this afternoon—Delta Delta Delta vs. Chi Omega-Alfa Delta Pi, and Van Zile hall vs. Clovia.

## Caddy Master Charged With Six-Ironing Caddy

Baton Rouge, La., April 20 (U.P.)—Albert Taylor, caddy master at the Baton Rouge country club, was charged yesterday with breaking a six iron over a caddy's head.

Jerry Schoonmaker of Missouri university was a 1955 baseball all-American. He hit .425 for the season.

# Dodgers Win, 7-6; A's Beat Cleveland

By UNITED PRESS

Rookies Don Zimmer and Ed Roebuck threw their weight in Brooklyn's early pennant push today as the rampant Dodgers sought a ninth-straight victory which would equal the major league record for a fast getaway. They beat the Phillies, 7-6, yesterday.

In the American league, the Kansas City A's rallied for 5 runs in the ninth inning to beat the Cleveland Indians, 8-7, and snap a five-game losing streak.

**ZIMMER**, filling in for the ailing Peewee Reese, blasted a two-run homer which produced the Dodgers' margin last night.

Roebuck, a 24-year-old right-hander, came through with a fine relief performance for the second consecutive game in the Dodgers' win over Philadelphia.

The victory ran Brooklyn's winning streak to eight games—one short of the record for a season's opening shared by the 1918 New York Giants, 1940 Dodgers, and 1944 St. Louis Browns.

**BROOKLYN'S** sizzling opening pace has shaken Walt Alston's sluggers loose from every other team in the circuit except the pennant-minded Milwaukee Braves, who squeezed out a 3-2 win over the Chicago Cubs yesterday.

The Braves, combining sound pitching with a dangerous attack, have won 5 of their 7 games to stay within 2½ games of the Dodgers.

**RIGHTHANDER** Gene Conley struck out seven batters to gain his first win of the year for Milwaukee when Bob Rush cracked in the eighth inning and forced in the winning run with four walks.

Hank Aaron, who has hit safely in all the Braves' games, tripled home a run and scored on Bobby Thomson's single to give Conley a 2-0 first-inning lead.

The Cubs battled back with single runs in the fifth and eighth innings, only to suffer their third-straight loss. They had opened the season with 4 wins in 5 games.

**THE ST. LOUIS** Cardinals beat the Cincinnati Redlegs, 6-5, on Bill Sarni's bases-filled single in the 11th inning in the only other National League game.

Bill Wilson's single with the bases filled and two out climaxed the Athletics' rally.

A RED CROSS water safety instructors school will be held in Nichols 108 every evening from April 25 to 29 from 7 to 10 p.m. The instructor will be Gilbert Gribble. Everyone interested is invited to attend, according to Katherine Geyer, professor of physical education.

MISS BETH MOTTER was judged the best qualified secretary at the second annual meeting of the Kansas division of the National Secretaries' association at Lawrence Saturday and Sunday. Miss Motter is secretary of Dr. Arthur D. Weber, dean of the School of Agriculture.

BUS MERTES, new head football coach, will be principal speaker Tuesday, April 26, at the Larned Rotary club meeting. Mertes also will address a meeting of K-State alumni to be held in Larned that night. Accompanying him on the trip will be Kenney L. Ford, K-State alumni secretary, and Ernest Barrett, Ford's assistant. Mertes was elevated to the head coaching post at K-State earlier this spring when Bill Meek accepted a bid to become head coach at Houston university.

HOW TO MANUFACTURE high quality Cheddar cheese and cottage cheese is the theme of a cheesemaker's conference, being held today in Waters hall. The meeting is sponsored by the department of dairy husbandry.

The program consists of lectures and demonstrations on various phases of cheese making. Cheddar and cottage cheese manufacturers were invited to bring samples of their products to be used in a judging contest at the conclusion of the program.

AL KING, station relations man for the National Association of Radio and Television Broadcasters, Washington, D. C., was on campus Monday inspecting radio and TV facilities and speaking before a number of radio and speech classes.

King also was a special guest at the annual initiation banquet of the K-State chapter of Alpha Epsilon Rho, national honorary radio and television fraternity, Sunday night. Honored at the banquet was Kay Hutchinson, junior from Delavan, who was recently elected national president of the fraternity for the coming year.

HOWARD T. HILL SR., former head of the department of speech and one of Kansas' best known after dinner speakers, will be principal speaker Saturday night at 6:30 at a meeting of K-State alumni, to be held at the Wichita East high school cafeteria.

Accompanying Hill for the meeting will be Pat Naughton, new assistant football coach; Kenney L. Ford, K-State alumni secretary; and Ernest Barrett, former Wildcat All-American cage star and now an assistant alumni secretary.

DR. S. M. PADY and Dr. C. T. Rogerson of botany and plant pathology will be in western Kansas April 21, 22, and 23 doing surveys of the wheat fields to determine the condition of the wheat.

MU PHI EPSILON, professional music sorority, recently held pledging services for Carol Fleming, MEI Soph; Margaret Simmons, MEI Soph; and Betty Hassebrook, MEI Soph.

1309 Anderson Ave.

Association of Land-Grant Colleges and Universities will be in regular spring meeting in Washington, D. C., April 27-28, Dr. Arthur D. Weber has announced here.

The committee advises on national agricultural legislation and Federal-states regulations, and establishes policy on requests from all land-grant colleges and university experiment stations to the U. S. Congress.

## Mother of Staters Is 'Mother of Year'

The mother of five children, three of whom either attended or were graduated from Kansas State, has been named "Kansas Mother of the Year."

She is Mrs. Ollie KeHer Knoche of Stafford.

Children of Mrs. Knoche who attended K-State are Aldean, now home demonstration agent in Russell county; Donna, a freshman in home economics teaching; and Pfc. Herman Knoche, with the army at Fort Knox, Ky.

After her husband died in 1939, Mrs. Knoche decided to go to college to better prepare herself to care for her family. In the spring of 1954 she received her B.S. from Fort Hays Kansas State college, after attending summer school since 1943. During winter months she taught in the Stafford city schools, where she is now employed.

Special recognition services for Mrs. Knoche will be held in Stafford at a date not yet set, and she also will attend ceremonies in New York City for the American Mother of the Year.

## Polls Open ...

(Continued from page 1)

Board of Student Publications are Lee Ruggels, TJ Jr; Gary Haynes, TJ Soph; Gaye Fryer, HEJ Soph; Joan Campbell, TJ Soph; and Betty Theiss, HEJ Soph. Of these candidates, three may be elected to the board.

Nearly 41 percent of the student body voted in the elections last year. A total of 1,904 ballots were cast.

## Enrollment In Education Tops 1,000

More than 1,000 students are currently enrolled in teacher education programs at Kansas State, according to Maurice C. Moggie of the department of education, in the latest issue of the K-Stater, College alumni publication.

Biggest stimulus to the teacher training program at K-State, he points out, was the establishment, in the fall of 1952, of the four-year curriculum in elementary education. Last fall 319 students enrolled in the curriculum, making it the fifth most popular at the College.

Although the first elementary education freshmen are now only juniors, some transfer students already have graduated in the curriculum, and 1955 graduates will total about 50.

K-State always has graduated a large number of secondary teachers, but quite a few have been in such academic curriculums as language, history, mathematics, and the social sciences, and never were officially identified as teachers-in-training. Beginning this fall, however, these students may enroll in a new curriculum in secondary education, and major in the department of their choice.

"Thus all prospective teachers may be identified by curriculum for the entire four years, and receive guidance appropriate to the teaching objective," Moggie commented.

Another recent development at K-State is a graduate program in physical science teaching in which ogy, physics, and education are co-the department of chemistry, geol-operating. This program features cross-department majors in the physical sciences, with a minor in education.

## Francis Reichart Wins Fellowship

Francis Reichart, Ag Soph, is recipient of a four-week Danforth summer fellowship, C. W. Mullen, assistant dean of agriculture, has announced.

The award covers expenses for two weeks at Ralston Purina company, St. Louis, July 31-August 14, and two weeks at American Youth foundation camp on Lake Michigan, August 15-28.

Danforth fellowships are awarded jointly by Danforth foundation and Ralston Purina company. Dale Fooshee, AA Sr, was the fellowship recipient last year.

## Journalists To Give Summer Workshops

Special three-week workshops in preparation of school yearbooks and in school newspapers are being planned for this summer by the department of journalism, Ralph R. Lashbrook, department head, announced.

The school yearbook workshop, to be held from June 6 to June 24, will be conducted by C. J. Medlin, adviser on the K-State yearbook and a nationally recognized authority in the field. Yearbooks prepared under Medlin's supervision have won All-American honors 19 consecutive years. Those participating in the short course will have an opportunity to plan high school yearbooks for the coming year, Lashbrook said.

Lashbrook will head the workshop in newspaper work from June 27 to July 15. The course will include lectures, demonstrations, and laboratory exercises in news writing, feature writing, editing, makeup, and management of a high school newspaper.

The workshops, each of which will carry three semester hours of graduate or undergraduate credit, are open to high school and college teachers and publications advisers who have had no journalism training or experience.

The deer family is enormously diversified. It ranges from the massive moose, which is six feet tall and weighs about 1,400 pounds, to the puda, which weighs up to 24 pounds and stands only 13 1/2 inches at the shoulder.

## Extension Service Recognized for Pioneer Program

The K-State office of general extension, along with other sponsors of a seminar on mental conditions of the physically ill, has been credited with pioneering a program offered to both professional and non-professional hospital personnel on this subject.

The National Association for Mental Health has asked the office to write an article about the seminar for its national magazine, "Mental Hygiene." An abstract of the article is to appear soon in the NAMH "Reporter."

Fifty-two hospital employees have enrolled in the seminar series, which have been held on the campus.

Other sponsors of the seminar were the Riley County Association for Mental Health and the Mental Hygiene division of the State Board of Health.

## Centennial Theme Planned For Fine Arts Festival

Two exhibitions keyed to the Manhattan Centennial celebration will be on display at the College during the fourth biennial Fine Arts Festival April 28 to May 1, and May 5-8, John F. Helm Jr., chairman of the Festival committee, has announced. One exhibition will be on art, the other on architecture.

Development of art in this region, from the Plains Indian to the present day, will be featured in an exhibition to be hung in the second floor galleries of the department of architecture and allied arts in the Engineering building.

In addition to the Indian paintings, the exhibition will feature works by such artist explorers as Alfred Miller, George Catlin, George Bingham, and Seth Eastman. Early maps of this area and a series of 11 paintings by Tom Lea, tracing the western beef cattle, also will be shown. Most of the paintings are on loan from such institutions as the Smithsonian in Washington, D.C., Joslyn museum in Omaha; Nelson gallery in Kansas City; The Philbrook in Tulsa; and the Dallas museum.

The architecture exhibition, to be placed on the third floor gallery of the Engineering building, will trace development of architecture in Kansas from territorial days to the present. It will include homes, religious buildings, government buildings, and transportation structures.

Special Fine Art Festival programs are planned for the afternoons of April 28, 29, and 30, as part of the Centennial observance.

An original drama, "Quantrill and Kansas," written by John Robson of the department of speech, will be presented on the afternoons of April 28 and April 30 in the College auditorium.

On Friday afternoon, April 29, Helm will lecture on the work of

the artist, Alfred Miller. He will discuss paintings by Miller which are reproduced in the book, "Across the Wide Missouri," by Bernard DeVoto.

There will be no charge for visitors to the exhibitions, the lecture, or the dramatic production, Helm said.

## New College Hall Named for KS Grad

The new animal industries building at New Mexico A & M college has been named Neale hall, in honor of P. J. Neale, a 1920 graduate of Kansas State who now is professor of animal husbandry at that institution.

Neale has gained world renown for his work with sheep and wool, and for 15 years has coached the New Mexico A & M College livestock and wool judging teams.

The new animal industries building, which was built at a cost of \$172,000, has been in use since January, 1952.

Neale was a native of Manhattan.

## Don Hunt Prexy Of Block, Bridle

Donald Hunt, AH Jr., has been named president of the Block and Bridle club for the 1955-1956 school year.

Other officers elected were Einar Johnson, vice president; Ray Zimmerman, secretary; Roger Rankin, treasurer; Arnold Appleby, corresponding secretary; George Shackleton, marshal; and Walter Martin, Little American Royal representative.

## Honors To Be Given Collegiate 4-H Seniors

Four seniors will be given special recognition at Collegiate 4-H club meeting tomorrow night. The seniors whose names will be revealed at the meeting, were selected on the basis of their Collegiate 4-H participation during the past 4 years, according to Walter Martin, president.

Recreation will start at 7 p.m. in Rec center, followed by the business meeting.

## Aggies Begin Pre-enrollment

A program for pre-enrolling upperclass ag students was started Monday, C. W. Mullen, assistant dean of agriculture, reported.

During April 18-30, sophomores and juniors will obtain dean's cards from the registrar's office to take to their department heads. The department heads will designate an advisor-assignment for each student.

Mullen advises students make appointments with advisor-assigners to arrange courses for next fall. He suggested that students report low grades at the time of interview. If there is probability of failure, plans can be made to repeat courses, he explained.

If it seems advisable to the advisor-assigner and the student, alternate courses may be entered on proof tickets to be taken in case a class closes or courses are repeated, Mullen added.

## Fairchild Skeletons Arouse Curiosity

The skeletons hanging from the southwest window of the top floor of Fairchild have aroused the curiosity of many observant student. According to Prof. Otto W. Tiemeier in the zoology department, the skeletons are deer carcasses which have been hung there to dry.

These wild deer were killed by automobiles east of Manhattan, he said. They were skinned and their meat was removed in the zoology department.

After the drying process the skeletons will be put in the "bug" box and Dermestid beetles will lay eggs on the bones, Tiemeier explained. The eggs will hatch into larvae which will then eat the remaining flesh from the bones. The skeletons can then be used for further study purposes, he said.

The Columbia Encyclopedia lists 58 extinct languages in the Indo-European group.

## Canfield Gets Grant For Mexican Study

Robert L. Canfield, Ar 04, is winner of the \$250 Charles Shaver scholarship award, it was announced today by Paul Weigel, head of the department of architecture. The award will help Canfield finance a trip to Mexico this summer to observe ancient and modern architecture.

Applicants for the award were judged on the basis of grades and suitability of the projects they planned. Robert McCulley, Ar 05, is the alternate.

Djakarta, capital of the young republic of Indonesia, now has a population estimated at 3,000,000 and is the largest city in southeast Asia.

## Grad To Manage Philly Orchestra

Donald L. Engle, a 1938 graduate in music from Kansas State, has been named manager of the Philadelphia orchestra.

A native of Manhattan, Engle and his family now live in Narberth, Pennsylvania.

After receiving his B.S. in music from K-State, Engle earned a M.S. degree from the Eastman School of Music of the University of Rochester, Rochester, N.Y. He was later employed by the Radio Corporation of America at their Camden, N.J., plant and was a member of the staff of the music division of the Library of Congress.

## Participants Named For Chariot Races

Relay teams for the first annual Chariot relays and riders of the chariots have been announced by the participating houses.

The relays, which are sponsored by the Lambda Chi Alpha fraternity, will take place at 1:30 Saturday afternoon in Memorial Stadium.

Participating men's organizations, their team members, the riders, and the rider's organization are:

Acacia fraternity: Bob Carson, Don Funk, Bob Kind, Don Lattner, Bob Miller, and Don Kratzer. Rider, Millie Schultz, Clovia sorority. Alpha Tau Omega: Gary Porttoff, Earl Johnston, Ken Shaw, Maurice Wikoff, Leland Fager, and Jim Goebel. Rider, Virginia Cowan, Van Zile hall. Beta Sigma Psi: Bob Rafferty, Bob Shumann, Raleigh Meyer, Ken Flagler, Ray Thaemert, and Arthur Kranz. Rider, LeAnn Riggs, Southeast hall.

BETA THETA PI: Henry Pierce, Robert Elgaard, Bob Westrup, Bob McDowell, Buddy Frye, and Garold Crulley. Rider, Pat Noll, Alpha Chi Omega. Delta Sigma Phi: Jim Conboy, Glen White, Richard Coups, Bill Kush, Jim Hockensmith, and Duane Fruechting. Rider, Jere Glover, Northwest hall. Delta Tau Delta: Corky Taylor, Bill Patton, Gary Runsey, Charles Imthurn Paul Strunk, and Wilber Schleifer. Rider, Marilyn Riley, Alpha Xi Delta.

Kappa Sigma: Duane Osborne, Allen Tompkins, Jim Scott, Don Jenkins, Jarry Moore, and Bob Welter. Rider, Janet Eddy, Waltheim hall. Kappa: Wendell Cowan, Loren Stiner, Sig Rinard, Haywood Walker, Stanley Smith, and Don Jamison. Rider, Charlene Brooks, Pi Beta Phi. Phi Delta Theta: Ed John, Bill Erickson, George Davidson, Jerry Sartorius, Tom Schicktan, and George Wilson. Rider, Joan Skupa, Kappa Delta.

PHI KAPPA TAU: Charles Mansfield, Mark Hooper, Robert Lindquist, Howard Falick, Gary Combs, and Kenton Graber. Rider, Rita Peddicord, Waltheim hall. Phi Kappa: Jim Lyle, Keith Biling, Pachin Vicens, Ron Flynn, Ben White, and Clem Wahrman. Rider, Jeannene Sampson Delta, Delta, Delta. Pi Kappa Alpha: Bill Bollinger, Dean Garrison, Keith Andler, Keith Wilson, Vic McGrew, and Jerry Metz. Rider, Judy Ross, Northwest hall.

Tau Kappa Epsilon: Lee Sinderon, Mike Cornett, Bob Doyle, Dale Cook, Stephen Ahrens, and Robert Dodson. Rider Lucy Crain, Alpha Delta Pi. Sigma Alpha Epsilon: LeClair Slade, Tom Dana, Gilbert Molzen, Chuck Zickefoose, Keith Gilliland, and Jerry Harris. Rider, Barbara Elliot, Van Zile hall. Sigma Chi: Warren Bullock, Lee Peterson, Jerry Hendricks, Gerald Mase, Bill Bales, and Jim Hocott. Rider: Margaret Allison, Clarks' Gables.

SIGMA NU: Tony Addeo, Ron Nery, Joe Moody, Frances Goos, Dennis Albright, and J. R. Snyder. Rider, Barbara Whitelaw, Kappa Kappa Gamma. Sigma Phi Epsilon: Ed Riley, Doug Rother, Dick Schaler, Terry Turner, Tom Frisbie, Murray Farr, and Dick James. Rider, Mary Deewall, 1833 Club: Gary Conner, Gary Boelme, Earl Gustafson, Bill Helvey, Bob Kidd, and Gary LaBarre. Rider, Loyce Cheatham, Chi Omega.

## Chamberlain Says Unions Help Output

The American system of collective bargaining in many ways has been an important stimulus to productivity, Dr. Neil W. Chamberlain told students in an all-College assembly this morning.

Chamberlain, an international authority in the field of industrial relations, defined productivity as "simply a statement of an input-output relationship." It is nothing for which any group or functional class is primarily responsible, he said. It is the result of a great number of factors operating jointly.

"Our productivity has tripled since the turn of the century," he said.

It is his belief that unions and collective bargaining, without any intent in that regard, are proving to be effective stimulants to productivity.

Unions, by constant demands for more, have goaded management into greater efficiency than management would have achieved without that goad, he said.

"This is a conclusion to which I have been impelled over the last few years, a conclusion contrary to that which I held only a few years ago. But it constitutes, I believe, the reality of our industrial relations."

The economist pointed out that unions provide an upward pressure on wages, which makes it necessary for management to offset wage advances by cost reduction and higher productivity.

## Campus Cop Likes Students' Courtesy, Says College Patrol Not 'Hardboiled'

By JOHNNY SALISBURY

"I think the students are doing a swell job," says J. E. Perkins, campus patrolman, in reference to the drivers on the State campus.

"When I stop a student on the campus, I seldom get any back-talk. The students have been very courteous to me," he said.

"WE WANT to get to know the kids, and we don't want them to have the idea that we are a bunch of hard-boiled cops," he said in reference to himself and other members of the College patrol.

"We are here to protect state property. This property is just as much the students' as it is ours. We're trying to help them," he said.

"There is very little speeding on the campus, but we do have accidents. The accidents are usually minor because of the slow speed," he said. The campus

## Summer, Fall A&S Students To Pre-Enroll

All Arts and Sciences sophomores, juniors, and seniors, except those in pre-vet, who plan to enroll for either summer school or next fall, should report to the head of their major department for instructions about pre-enrollment counseling, Rodney W. Babcock, dean of the School of Arts and Sciences, announced today.

The students will be assigned advisers, and must make appointments with them by April 29. Any student who does not report for pre-enrollment counseling will have to enroll during the period for special students, the last day of enrollment, Babcock said.

Further information about the program is available in the office of Dean Babcock, J117.

## High School Talent To Be Displayed At Science Fair

High school scientists within a 100 mile radius of Manhattan will be competing Saturday in K-State's first annual Science Fair, according to Don Moss, general chairman.

Science Fair entries include such things as collections of reptiles and turtles, Siamese fighting fish, dielectric heating, an aeronautical wind tunnel, chemical gardening, lightning, fuel injection for automobiles, and 3-D color television.

Students entering exhibits must have them in place in Nichols gym before 11 a.m. Saturday, and winners will be announced at 1:30 Saturday afternoon. The Science Fair exhibits will be opened to public inspection at that time and will remain on display until 6 o'clock.

The top boy and girl exhibitors each will receive all-expense trips to compete in the National Science Fair at Cleveland, Ohio, in May, and the student with the best display also will have his fees waived for his first semester of enrollment at K-State.

## Male Professor To Head HEc

A man has been selected to head the department of household economics in the School of Home Economics.

He is Richard L. D. Morse, who has been professor of family economics at Florida State university, Tallahassee, since 1947.

### Polls Open Until 5

Polls for the SGA election will be open until 5 p.m. today and from 7:45 a.m. to 5 p.m. tomorrow.

Agriculture students vote in Waters hall, arts and sciences students in Anderson hall, engineering students in Seaton hall, home economics students in Calvin hall, and veterinary medicine students in Vet hall. Graduate students may vote at any of the above polling places.

Students must present their activity tickets to vote.

## ME Senior Places First At Oklahoma

Virgil E. Carrier, ME Sr., was the winner of the first place award in the Region VIII American Society of Mechanical Engineers annual contest at the University of Oklahoma this week.

Carrier gave a paper on "Thermoelectric Power." He won over engineering students from the University of Oklahoma and five other colleges, including K-State, Kansas university, Oklahoma A&M, Arkansas university, and Nebraska university.

Carrier's paper was based on an investigation he performed at K-State on the possibilities of harnessing the radiant energy from the sun. He stated that a parabolic mirror over 400 yards in diameter would produce energy sufficient to drive a 5,000 kilowatt generator. His data compared favorably with that of others who have made investigations in this field.

## Journalism Frat To Initiate Six

Sigma Delta Chi, men's journalism honorary, will hold initiation today at 5 p.m. for six prospective members, according to Lee Rugels, president of the chapter.

Initiates will be Robert Boyd, TJ Soph; Gary Haynes, TJ Soph; Paul Jones, TJ Soph; Don Kendall, TJ Sr; Darrel Miller, TJ Soph; and Hayes Walker III, AgJ Jr.

Richard L. D. Morse

to Dean Doretta M. Schlaphoff, who announced the appointment today.

"DR. MORSE comes highly recommended as a leader in the field of family economics, and with his breadth of interest should be a valuable addition to our staff," Dean Schlaphoff commented.

At K-State Morse will be in charge of teaching and research in family economics, housing, equipment, and home management.

Morse, 38, received his B.S. degree from the University of Wisconsin in 1938 and his Ph.D. in consumption economics from Iowa State college in 1942. He also did undergraduate work at Oberlin college, and graduate work at the University of Chicago and Columbia university.

Morse was a member of the staff of Iowa State college as a researcher and teacher from 1939 to 1947, except for four years out during World War II when he served with the navy. He was discharged with the rank of lieutenant.

THE NEW household economics head devoted part time at Florida State university to research for Florida Citrus commission and he also has done special research in egg grading, transportation of farm products, measuring consumer food preferences, and family finance. He is author of numerous articles for technical publications in these fields.

Morse not only belongs to many professional and honorary home economics organizations, but has been active in both campus and civic affairs at Florida State university.

## Fair...

Topeka, April 21 (U.P.)—U.S. weatherman Tom Arnold today predicted another string of fair and warmer days for Kansas stretching into the week end.

Yesterday's temperatures were a little above normal, he said, and there was no reported rainfall.

The high temperature spread yesterday was from 77 at Wamego down to 70 at Goodland. The lows last night ranged from 25 at Goodland to 51 at Pittsburg. Most areas registered night temperatures in the upper 40's.

Oklahoma university Mothers' Day week end will be held April 30 and May 1. Awards to the mother coming the furthest distance and the mother who has the most children attending the university will be awarded, according to the Oklahoma Daily. Campus exhibits, departmental open houses, a tea honoring the mothers, a mother-daughter, mother-son bridge tournament, water and style show, are among the events planned.

Men students at the University of Texas may have individual phones in their dorm rooms next fall if they choose, according to the Daily Texan. Their phone rates will be the standard Austin rates. The individual phone system has been used successfully in other university residence halls the paper said.

Coebs at the University of Indiana are busily training for the miniature 500 tricycle race. A bicycle company is supplying the "trikes" which will be given to a children's home after the race, said the Indiana Daily Student. Men's housing units have been asked to form a cheering section for the coed teams.

A library book, missing from the Oregon State college library for over 32 years was returned last month from Orono, Maine, according to the Oregon State Daily Barometer. Bought in 1914 for the department of horticulture the book was withdrawn from the collection in 1932 after being missing for several months.

theme of the annual International Week being held on the Oregon State campus. Dinners honoring foreign students and informal discussion groups are currently being held in campus living groups said the Oregon State Daily Barometer. An International banquet, an all-school dance, and a buffet dinner will conclude the International Week program. This event is sponsored by the YWCA and YMCA.

About 40 architecture students at the University of Oklahoma took literally the advice of an instructor recently when he advised them to "go fly a kite." The instructor made the kite-building assignment just before the Easter holidays, said the Oklahoma Daily. The kite had to be a three dimension because the instructor "expected some originality."

One thousand orchid blossoms were flown from Hawaii to the Delta Gamma house at Oregon State college recently. The orchids were for a tea that was given for students interested in attending summer school at the University of Hawaii, said the Daily Barometer.

## Interested People Needed For Union Program Council

The Union governing board is now accepting applications for positions on the Union program council, consisting of a chairman, assistant chairman and secretary and the chairmen of seven sub-committees. The board feels that its appointments must be made on the basis of interest and qualification, a policy perhaps contrary to the somewhat arbitrary procedures of appointment long used by student government.

The Union board, program council, and sub-committees will set policy and carry out programs which will affect all the people connected with KSC. The decisions of these groups will be reflected in the success of the total Union program which includes not only recreational values, but opportunities for specializing students to broaden their educations, receive training in cooperation and leadership, and an overall integration of campus operations.

# Formosa Trusteeship Proposed By Ceylon

Bandung—Premier Sir John Kotelawala of Ceylon proposed to-day that Formosa be placed under a trusteeship and that the United States withdraw the Seventh fleet from Formosan waters.

The proposal, made in a press conference at the Afro-Asian conference in Bandung, would write an end to the Nationalist government of Chiang Kai-Shek and leave the Chinese Communists supreme. Matsuo and Quemoy would be given to Peiping.

Sources in the Ceylon delegation said he will ask the conference to adopt a resolution embodying his proposals and that the plan will be introduced in the political committee.

The trusteeship under his policy of Formosa for the Formosans would be in the hands of the United Nations or the five Colombo powers that called the Bandung conference—Ceylon, India, Pakistan, Burma and Indonesia.

Though his proposal would be a blow to the Nationalists, it would also be a blow to Communist aspirations to "liberate" Formosa.

Hundreds of thousands of "weekend" soldiers and airmen today ended the nation's first peacetime test of its national guard "minute-man" strength.

The surprise "operation minuteman," involving an estimated 400,000 men in all the 48 states and Alaska, was apparently a complete success.

A spot check showed that about 66.7 per cent of the nation's national guard force mobilized on the double and rushed to battle points as if they had been rehearsing for weeks.

The alert caught guardsmen going fishing, plowing their fields, returning from honeymoons, and even fighting a nip and tuck battle in a state legislature.

Within 10 minutes after the alert sounded an air national guard plane was in the air. Within 20 minutes to an hour, hundreds of jets and bombers were streaking across the skies.

London—French foreign minister Antoine Pinay today flew into London for quick talks with top British officials who are urging France to complete action on the Paris treaties for West German rearmament.

Britain is all set to follow the United States and West Germany which yesterday deposited in Bonn the first two ratification documents of the four Paris treaties.

But France, which has taken the main hurdle of parliamentary approval of the pacts, now is balking at the final steps. The French want to wait until the status of the Saar territory and its giant Roehling steel works are settled to their satisfaction.

Atlanta—Two telephone exchanges were dynamited last night in a new flareup of violence in the 39-day-old strike of communications workers in nine southern states.

Dynamite blasted holes in the roofs of exchanges in Harriman, Tenn., and Pascagoula, Miss., but caused no injury or damage to equipment.

The Southern Bell Telephone Co. said it may be forced to close the Pascagoula exchange unless adequate police protection can be furnished. Top company representatives rushed to Pascagoula for conferences with city officials.

## Union Official To Speak At Industrial Conference

James W. Click of St. Louis, a labor union official, has been announced as a substitute speaker at the K-State Industrial Relations Conference on Productivity today, W. B. Nelson, chairman of the committee in charge, said.

Click is vice-president of the International Union of Electrical, Radio and Machine Workers (CIO). He replaces David Lasser as labor's representative on the afternoon panel. He is to discuss "Productivity: A Labor View."

**SPEAKING** for management on the panel will be George G. Hagedorn, associate director of research for the National Association of Manufacturers in New York City. Hagedorn's topic will be "Productivity: A Management View."

Both speakers are to be subjected to questioning by the students following their talks.

The one-day conference opened this morning with an all-College assembly at which Neil W. Chamberlain was keynote speaker. Chamberlain, Columbia university professor of Industrial Relations as an International Authority in his field, spoke on "Labor-Management Relations and Productivity."

**ROSTISLAW DONN**, chief of the industry division of the French Embassy in Washington, D.C., will be principal speaker at a banquet tonight which concludes the conference.

His topic will be "A Comparison of Productivity in France and the United States," based on six years of observations in this country.

The conference is designed to give college students an insight into, and an understanding of, problems in labor-management relations, particularly as they affect productivity.

## Fee Grant Offered To Freshman Girls

Freshman girls may apply for a Panhellenic council scholarship for use during their sophomore year, Phil Sorenson, secretary of the general scholarship committee, announced.

The scholarship is for the amount of the resident enrollment fee for the semester and is awarded on the basis of high scholarship and the need for assistance, Sorenson said.

Applications may be made in the dean of students office in Anderson.

A scholarship will also be awarded to a high school graduate for use during her freshman year at K-State, Sorenson said.

It is estimated that more than 35,000,000 persons have been taught to read and write in Indonesia since the country declared its independence Aug. 17, 1945. The country's population, now about 83,000,000 was more than 93 per cent illiterate at the time.

## Ruggles Editor Of '55 K-Book

Lee Ruggles, TJ Jr., has been appointed by Prof. Ralph Lashbrook, technical journalism department head, to edit the 1955 K-Book.

The book put out by the Student Council each year, is sent to all freshman students who apply for admission to K-State. It explains the activities of Orientation week and tells prospective students about life on the K-State campus.

Ruggles was editor of the Collegian this year and currently holds the position of editor of the Monday edition of the daily newspaper.

Seventeen German bakers in Munich produced 10,000 loaves of bread a day for U.S. Army forces.

## New Jobs Available On Highway Patrol

Fifteen new Kansas Highway Patrol positions and nine vacancies will be filled following state civil service examinations May 7.

The 1955 state legislature authorized increasing the patrol's strength by 45 troopers, 15 in each six-month period for the next 18 months. The legislators lowered the minimum age to 22 years.

Applicants ranking highest on the written test May 7 will be called for interviews and physical performance tests, probably in early June.

Starting salary is \$275 with increases possible to a maximum of \$400, plus longevity. The patrol also has its own retirement and pension system.

Applications for the May 7 examination will be accepted by the Personnel Division, Department of Administration, 801 Harrison, Topeka, until April 26.

## Auditions Are May 7 For Music Scholarship

Auditions for the Manhattan Music club scholarship will be held Saturday, May 7, at 2 p.m., in Hamilton hall, according to Mrs. John Truax, chairman of the scholarship committee.

The scholarship provides one private lesson a week for the school year. Competition is open to anyone between the ages of 16 and 25.

## Wool Judging Contest Set For April 30

A student wool judging contest, sponsored by the Block and Bridle club of the animal husbandry department, will be held in the animal pavilion Saturday, April 30, Ernest Heitschmidt, program chairman, said.

This is the first wool judging contest to be held on the campus. Any student may enter the contest, which will have two divisions, junior and senior, Heitschmidt said.

The senior division is open to any student who has had wool judging experience, but who has never participated on the College team. The junior division is open to anyone who has never had any experience.

Cash prizes and awards will be donated by the Kansas Purebred Sheep Breeders association and the Block and Bridle club with the possibility of other awards being donated, Heitschmidt said.

## 'Conscious'es' Hurt; Thieves Return Loot

El Centro, Calif. (U.P.)—Harold Church, athletic director at Central Union high school, said today that a pair of binoculars, two starting guns, and a stopwatch stolen from the gym office have been returned through the mails with the following note:

"Our conscious'es hurt us—we have reformed."

## Integrity Caravan To Be Tonight

The Integrity party caravan which was postponed Tuesday night because of the rain will be held tonight instead.

"Those wishing to join the caravan should meet in the park by 7 p.m.," Pat Wilkerson, chairman of the caravan, said. The caravan will try to interest those who failed to vote Thursday to go to the polls Friday.

## Unusual Catch

Westport, Conn. (U.P.)—Patrick Frattino of Saugatuck netted a 200-pound, 10-foot sting ray in waters off Compo Beach while dragging for flounder. He made a similar catch last year of the species, which is rarely found in New England waters.

## Reds Face No Shopping Problems—Nothing To Buy

Washington, April 21 (U.P.)—Home economists in the United States Department of Labor have been examining the lot of the trodden-down persons behind the Red curtain.

They have discovered a serious shortage of work clothing among the gallus, or overall, set in Russia. As a matter of fact, there is a frightful crisis in consumer goods generally in the Soviet and its occupied areas.

**SOME OF** the Russian editors must not have had the proper instructions from higher up. At least, the Soviet trade union Daily Trud, according to the labor department, printed a letter a few days ago from a housewife, one V. Svistunova. She wrote from the Soviet city of Kishinev, close by the Russian-Romanian frontier.

The housewife wrote that she had a problem—she and her husband had done some major and necessary remodeling of their home and Mr. S. thought it was time to buy some new furniture.

"I WENT to the central furniture store of the Kishinev city consumer goods trade organization," she said. All she wanted for a start, she told the trade paper, was some cupboards and kitchen tables.

"The clerk looked at me in amazement," Mrs. S. said. "It was clear that the clerks in the store had forgotten the last time such similar indispensable things for every family were sold."

Mrs. S. went from store to store, wearing thin the only pair of shoes she owned. "The answer," she said, "always was the same."

**THE CLERKS** told her that cupboards and kitchen tables were not for sale. One clerk darkened an already dark afternoon by suggesting there was "nothing better than the kitchen floor for eating off of."

The woman said in her letter that she found the Ministry of Local Industrial Production in Moldevis, headed by "Comrade Atemenenko, does not consider the need of consumers."

The U.S. Labor department learned from other sources that the Kishinev woodworking factory received a lot of orders from the city trade organization during the last half-year. People desperately needed things like kitchen cabinets, cupboards, clothes-hangers, shelves, and other household furniture. The orders weren't answered.

**OTHER FACTORIES**, the Labor department found out, had orders to produce hatchet handles, clothespins, rolling pins, stools, bed stands, and other things. None of the orders were being filled.

Mrs. S. concluded in her letter to Trud that the Soviet doesn't want to bother with "trifles."

She quoted the Red leaders as saying that such was "inconvenient—it would prevent the fulfillment of the state plan."

### K-State Netmen Lose League Opener, 7-0

K-State's tennis team was defeated yesterday by Oklahoma, 7-0, in the opening meet of conference play for both squads.

The Wildcats were unable to win any of the matches and won but two sets. Don Wainscott took the first set from Bill Moran of the Sooners, 6-3, but Moran took the next two.

In the doubles, Bob Hansen and John Teas won the first set for K-State, 10-12, then lost the next two sets to Russell Fuller and John Martin of the Sooners.

The loss was the first for the Wildcats on their current road trip. They defeated Wichita, 4-3, Tuesday.

Today the Wildcats move on to Tulsa to meet Tulsa university.

Results of the Wichita meet:

Bob Hansen (KS) defeated Dick Peters (WU), 6-8, 6-4, 6-3.

Allen Austin (WU) defeated Richard Circle (KS), 6-3, 6-4.

John Deam (KS) defeated Marion Shropshire (WU), 6-1, 6-1.

Phil Gearheart (WU) defeated John Teas (KS), 0-6, 6-1, 6-4.

Don Wainscott (KS) defeated Dan Bailey, 6-1, 6-0.

Peters-Austin (WU) defeated Circle-Deam (KS), 5-7, 6-2, 8-6.

Hansen-Teas (KS) defeated Doze-Shropshire (WU), 6-1, 6-0.

### Clint Courtney Says He's Still 'Wild as Ever'

By UNITED PRESS

"Gone soft, heck!" snapped irritated Clint Courtney of the White Sox. "I'm just as wild as I ever was."

Courtney, a fearless two-fisted scrapper who has battled Jim Piersall of the Red Sox and Billy Martin of the Yankees since entering the majors three years ago, insisted he's no more peace-loving than he ever was.

"I STILL don't take nuthin' from nobody," Courtney drawled. "They say I turned into a lamb just because I got fined for one of those fights, huh? Well, whoever says it is crazy."

Courtney originally received his reputation as a firebrand for "eating out" his own pitchers and frequently firing the ball back at them twice as fast as they threw it in to him. Was he still adhering to that practice?

"Well," he said, getting rid of another mouthful, "it's just 'accordin'."

"NOW, WITH Baltimore last year, I didn't have to wake any of those pitchers up none. They had some good ones. Guys who could fire that ball, like Bob Turley, Don Larsen, and Joe Coleman. But if anyone needs to be waked up, don't worry, I'll do it all right."

Courtney, who makes his home in Coushatta, La., where he's an off-season neighbor of Joe Adcock of Milwaukee, said he was happy about the trade which sent him to the White Sox from Baltimore during the winter.

### Wide Free-Throw Lane May Affect Cage Tactics

The 12-foot free-throw lane being used in spring basketball practice by coach Tex Winter's Wildcats is one of five rule changes that will go into effect next season.

This is considered the most important rule change, since it is expected that it will necessitate a change in playing tactics by most teams.

Coach winter said as yet he has no way of telling what effect the wider lane will have on play.

THE RULE was designed to keep the big players farther away from the basket, Winter said. The Wildcats have been working some variations of the offensive pattern used last year with the center now working farther away from the basket, he said.

Another major change eliminates the two shots on an ordinary foul in the last three minutes of the game in favor of the one-and-one used during the earlier part of the game.

ALL OF THE NEW rules will be used in the varsity-alumni game May 6 at the conclusion of spring practice, Winter said.

Fundamentals and drills were the order yesterday for the Wildcat roundballers.

"At the end of spring practice we hope to know who our top 10 or 12 boys for next year's team will be," Uinter said.

You'll be pleased with a Collegian want ad.

Baseball coach John (Hi) Simmons of Missouri university coached his team to the national championship in the NCAA last year and became Coach of the Year in the process.

### Cat Baseball Team To Play Buffs Friday

Colorado university baseballers, who have been rolling unmolested through early season non-conference competition, face their first Big Seven test here tomorrow against K-State. Game time is 3 p.m.

Getting most of their mileage out of hitting rather than pitching, the Buffaloes have humbled Colorado A&M, Texas Tech, and Biggs Air Force base by lopsided scores.

They have scored five wins in five starts, never scoring less than a dozen runs per game and once running up a 20-11 win over A&M.

HARDEST HITTING Buff has been ex-gritter Carroll Hardy, who batted .563 through those first five games. His partner in the Colorado football backfield last fall, Frank Bernardi, has hit .462. In five games the Coloradoans have hit .371 as a team.

Against CU's power row, K-State diamond coach Ray Wauthier plans to use his top right-hander, Ron Bergren.

Bergren has had relief stints in two of the Wildcats' five games this season, but has yet to show a win or a loss.

SECOND WEAPON Wauthier will use in attempting to stop the stampeding Buffs is his row of lefthanded hitters. Six Wildcats in K-State's starting lineup will be swinging from the port side.

Colorado's lack of lefthanded pitchers, plus the short right-field fence in Griffith stadium, could add up to an advantage for the Wildcats.

Strengthening of the K-State line-up, which has shown a tendency to leak on defense, is expected with the appearance of two Wildcats who have finished spring football drills.

WAUTHIER said Bob Whitehead, K-State starting quarterback, would open at shortstop against Colorado. Kerry Clifford,

reserve guard on the grid team, will take over first-base duties.

Both are above-average hitters, which could add stimulus to slumping Wildcat batting. Through five games K-State has hit only .143 as a team.

Elsewhere in the Wildcat lineup, Wauthier named Larry Hartshorn, catcher; Steve Hennessey, second base; Larry Sturgeon, third base; and outfielders Dick Coupe, Bob Boyd, and Jack Smith.

LAST YEAR the Wildcats split with Colorado in a two-game series at Boulder. Both games were slugfests, with K-State winning the first one 18-4 and losing the second 10-14.

### Oklahoma Aggies Find Broadjumper On Baseball Team

Stillwater, Okla., (U.P.)—It was a circuitous route that brought Kim Ellis, a potential 25-foot broadjumper, to coach Ralph Higgins' Oklahoma A&M track squad.

The 6-3 sophomore came to Oklahoma A&M on a basketball scholarship, but was pitching baseball when Higgins lured him from on etype of spiked shoes into another.

Ellis didn't get into much action on coach Henry Iba's basketball team, and wasn't creatnig any sensations on the diamond squad, when Higgins persuaded the youngster to switch his springtime athletic allegiance from baseball to track.

### Cuban Upsets Carter In Non-Title Fight

Washington (U.P.)—Surprise winner Orlando Zulueta, whose jab-and-run tactics paid off in a split non-title decision over Jimmy Carter, today demanded a "promised" second bout with Carter, this time with the lightweight championship on the line.

"I'LL GIVE him a title shot—if he can come up with the money," answered Carter's manager.

Zulueta, fast-stepping Cuban who had lost three-straight fights and entered the ring at Uline arena a 3-1 underdog for last night's TV 10-rounder, upset the erratic champion by making double use of a brilliant left jab—to stop Carter's rushes, and to roll up points.

"CARTER'S manager promised us a title shot if Zulueta won this fight," said Hymie Wallman, manager of the Cuban. "Now we definitely want a crack at the title."

But Carter's manager, Willie Ketchum, said matching the two men again for the title won't be as simple as all that—first Zulueta has to get someone to guarantee Carter the money he wants.

"And it won't be in Washington," said the angry Ketchum, still boiling over the officials' voting that he called "a give-away decision."

### Goose Tatum Fired

Chicago (U.P.)—Goose Tatum, the clown prince of basketball and at one time the highest paid player in the game, has been fired from the Harlem Globetrotters by owner-coach Abe Saperstein.

### Free Booklet Tells How You Can Read Better, Faster, Easier

CHICAGO (Special)—Now every student can learn to zip through reading assignments quickly and easily, actually read difficult study material twice as fast with complete understanding. The secret is an amazing new simple technique, developed by Steve Warren of Chicago's famed Foundation for Better Reading.

Although most students are slow word-by-word readers, this new proven method helps anyone pick up speed, says the noted educator. Poor reading habits can cost you too much study time, make exams

harder, cause disappointing grades, and keep you from essential social activities.

To acquaint student readers of this paper with this miraculous new technique for better reading, full details are described in a fascinating booklet, "How You Can Read Better, Faster, Easier." It will be mailed free to anyone who requests it. No obligation. Address: Mr. Steven Warren, President, Dept. 9234, Foundation for Better Reading, 20 W. Jackson Blvd., Chicago 4, Ill.

EASY LIVIN'?

# Brooklyn Dodgers Win Ninth Consecutive Game

By UNITED PRESS

Those jack rabbit Brooklyn Dodgers may be clear out of sight before you can say "Jack Robinson."

Winners of nine straight games already, the Dodgers can establish a new modern major league record for fast getaways by defeating the Philadelphia Phillies today for their tenth victory in a row since the bell rang.

The Dodgers tied the record of nine in a row held jointly by the New York Giants, St. Louis Browns, and themselves when they came from behind to overtake the Phillies, 3-2, last night.

THEY LOOKED so good in winning that even their ultra-conservative skipper, Walt Alston, couldn't contain himself.

"This is the first time since I've taken over the club that it has ever played this well in the three important departments—hitting, pitching and fielding," Alston declared.

The usually solemn Brooklyn boss had ample reason to glow inasmuch as the world champion Giants are now six games behind the Dodgers and the second-place Milwaukee Braves are 2½ games to the rear.

BROOKLYN BEAT the Phillies the hard way after falling behind, 2-0, last night. Steve Ridzik held the Dodgers hitless until Sandy Amoros doubled with two out in the sixth. Then he walked two men in the seventh, hit Jackie Robinson with a pitch, and walked Duke Snider to force in a run.

Lynn Lovenguth replaced Ridzik and was greeted by Gil Hodges' two-run single. All told, Brooklyn made only three hits, but they were enough for Billy Loes to register his second win of the year even though Clem Labine relieved him in the eighth.

Bobby Thomson was the big man in Milwaukee's 9-5 victory over the fading Chicago Cubs. Thomson drove in five runs with a grand-slam homer, and a single with the bases full.

Low Burdette was the winner, but rookie Humberto Robinson came on from the bullpen in the ninth to strike out Hank Sauer

## Major League Standings

By UNITED PRESS

American League				
	W	L	PCT	GB
Boston	6	1	.857	—
Cleveland	5	3	.625	1½
Chicago	3	2	.600	2
New York	4	3	.571	2
Detroit	3	3	.500	2½
Washington	2	3	.400	3
Kansas City	2	5	.286	4
Baltimore	1	6	.143	5

### Yesterday's Results

Baltimore 6, New York 3  
Boston 1, Washington 0  
Chicago at Detroit, postponed by rain  
(Only games scheduled.)

### Today's Probable Pitchers

(Won-lost records in parentheses)  
Boston at Washington—Brewer (0-1) vs. Porterfield (1-1).  
Baltimore at New York—Kretlow (0-1) vs. Turley (1-0).  
Chicago at Detroit—Fornieles (1-0) vs. Garver (1-1).

### National League

	W	L	PCT	GB
Brooklyn	9	0	1.000	—
Milwaukee	6	2	.750	2½
St. Louis	5	3	.625	3½
Philadelphia	4	4	.500	4½
Chicago	4	5	.444	5
New York	2	5	.286	6
Cincinnati	2	7	.222	7
Pittsburgh	0	6	.000	7½

### Yesterday's Results

Milwaukee 9, Chicago 5  
St. Louis 3, Cincinnati 0  
Brooklyn 3, Philadelphia 2  
New York at Pittsburgh, postponed by rain

### Today's Probable Pitchers

Philadelphia at Brooklyn—Roberts (2-0) vs. Meyer (1-0).  
New York at Pittsburgh—Antonelli (0-2) vs. Bowman (0-0).

with the bases loaded to save Burdette's second triumph.

Lefthander Luis Arroyo of the Cardinals made an auspicious major league debut, holding the Cincinnati Redlegs to five hits in the 7½ innings he worked, and getting credit for a 3-0 victory.

Herb Moford, another rookie hurler, held the losers in check over the last 1½ innings. Joe Frazier hit a two-run homer off loser Art Fowler in the fourth inning.

The Pirates apparently were on the road to their first victory of the season with a 3-0 lead over the Giants, but rain postponed the game after Felipe Montemayor bashed a three-run homer off Ruben Gomez.

DICK LITTLEFIELD had worked three scoreless frames for the Bucs.

Baltimore registered its first victory of the American League season after six successive setbacks by beating New York, 6-3, as Erv Palica and Ray Moore collaborated on a six-hit pitching job.

Two ex-Yankees, catcher Hal Smith and shortstop Willie Miranda, figured prominently in the Oriole's triumph. Smith connected for a two-run homer in the fifth and Miranda sparkled afield, making three spectacular stops and figuring in two key double plays. Bob Grim suffered his second loss; Palica was the winner.

WILLARD NIXON of the Red Sox pitched a five-hitter to beat the Senators, 1-0, and move Boston 1½ games in front of the American League. Boston got to Chuck Stobbs for its only run in the fourth on a pair of scratch hits and rookie Norm Zauchin's single. The Chicago-Detroit game was rained out, while Cleveland and Kansas City were not scheduled.

# Sigma Nu, Farm House Win High-Scoring Tilts

Sigma Nu defeated Acacia, 13-4, and Farm House defeated 1834 Club, 11-1, in a pair of high-scoring intramural softball games yesterday. Galen Ward and Joe Moody hit home runs in the Sigma Nu victory.

Defending fraternity champion Sigma Alpha Epsilon

came through with their second-straight win as they defeated Lambda Chi Alpha, 4-2.

Tau Kappa Epsilon whitewashed Pi Kappa Alpha, 4-0, in the day's only shutout.

In other games, Phi Kappa Tau defeated Phi Delta Theta, 10-4; Sigma Phi Epsilon defeated Phi Kappa, 3-2; Beta Sigma Psi defeated Theta Xi, 8-2; and Alpha Tau Omega and Delta Phi played to a 7-7 tie.

Today's schedule, at 4:15—Delta Tau Delta vs. Alpha Kappa Lambda, southwest field, city park; Sheiks of Kasbah vs. Sigma Phi Nothing, northwest field, city park; Hui-O-Makules vs. Rho Alphas, west military drill field; House of Williams vs. OK House, east military drill field.

Games at 5:15—Alpha Gamma Rho vs. Kappa Sigma, southwest field, city park; Jr. AYMA vs. Wesley Foundation, northwest field, city park; YMCA vs. House of Breck, west military drill field; Jones Boys vs. Hosenose Gang, east military drill field.

## Smith's Dash Record Killed by Tail Wind

College Station, Texas (U.P.)—Dean Smith, University of Texas' olympic sprinter, whipped out a 9.2-second 100-yards dash time in a triangular track meet here, but a 16-mile tail wind kept him from officially breaking Mel Patton's world record of 9.3 seconds. Smith's feat, which helped Texas defeat Texas A&M and Rice in a triangular meet, marked the second time that a Texas sprinter had turned in a 9.2 clocking on the fast Kyle field track here. Carlton Terry did the same thing in 1941.

The sun supplies over three quadrillion kilowatt hours of energy every three days, more than is available in all the reserves of coal, oil, natural gas, and uranium on earth.

# Minckley Whipped Polio Without Help of Vaccine

By CHARLOTTE HENRY

Wendell Minckley won his K-letter in gymnastics the same week an effective vaccine against polio was announced. Though the Salk vaccine came too late to save Wendell from a crippling attack, he has found an effective way to combat the disease.

Working hard on special exercises and gymnastics events under the direction of gymnastics coach Frank Thompson, Wendell has strengthened the muscles that polio weakened, and has come out with a hard-to-earn letter for a bonus.

BECAUSE HIS leg muscles are still somewhat weak, he works most on the flying rings, side horse, horizontal bars, and parallel bars. "He's the best ring man and

horse man we've had this season," Thompson said.

Thompson first saw Minckley in one of his physical-education swimming classes. Knowing that he was exempt from gym courses, Thompson recognized Wendell's initiative and courage.

Thompson asked Wendell to come over to try some gymnastics events.

Wendell chose the side horse and the flying rings as his special events, and has been winning points for his gymnastics letter ever since. He's participated in every gymnastics meet this year.

"WENDELL'S BEEN a real inspiration to the rest of the team," Thompson said. "When the other fellows see him at work, they can't be discouraged; so everyone benefits from his example."

Major K-State letters in gymnastics was first authorized last year. Now gymnasts can earn a letter that has the same standing as one in football or basketball, and for fellows like Wendell it probably means even more.

Wendell is a sophomore, so has two more years of gymnastics competition. Thanks to an alert instructor, and to his own determination, they promise to be big years.

Letters for spring sports were awarded to 42 K-Staters a year ago—18 in track, 14 in baseball, 6 in tennis, and 4 in golf.

# Harridge's Assistant Serves as Policeman Of American League

Chicago (U.P.)—Most baseball figures get into the profession because they can swing a bat or throw a ball, but Bill Cutler of the American league became the policeman of the circuit because he has a steady thumb.

CUTLER, without title but virtually assistant to league president Will Harridge, first met his boss in 1946 when Harridge and former chief of impies Tom Connelly gave him a ride as a hitchhiker outside the Washington ball park.

"He told me to come and see him sometime," Cutler said today. "I wrote him from time to time, and when I got out of the army and business school in 1948 I went to work for him."

NOW CUTLER handles a large share of the paper work involving personnel on every team in the league. He and Harridge are the two men who know the exact truth concerning the reported salaries of every player in the league.

"I read the published figures all the time," Cutler said, "and sometimes I have to laugh they're so far off. But I never can tell anyone whether they're right or not."

CUTLER ALSO serves as the traffic cop for the loop, in that he informs clubs whether they can option a player or send him out on waivers when waivers expire, whether they are within their player limit, etc.

Cutler logically is an American League fan. In six years in Chicago, he has been to Wrigley field, home of the Chicago Cubs, once. But in an average year he sees the White Sox play 30 or 35 games. "I just see the National League in the world series," he said.

Average normal mortality rate in the U. S. Army is 2.2 per thousand.

# Sigma Nus, Phi Kappas Choose Officers

## Officers

New officers of Sigma Nu fraternity are Norman Dawson, commander; Frank Butler, lieutenant commander; Hoyt Eells, treasurer; Jim Krone, assistant treasurer; Roland McDaniel, recorder; Richard Whitney, reporter; James Meek, chaplain; James Furey, sentinel; Ron Coryell, marshal; Paul Woodward, social chairman; Galen Ward, rush chairman; Elton Chatfield, scholarship chairman; Daryl Pults, song leader; Leo Gray, intramural manager; Dean Hobson, assistant intramural manager; Danny McCallum, kitchen manager; John Gutschenritter, house manager; and Robert Bixby, grounds manager.

Pledge class officers of Tau Kappa Epsilon are Bob Dodson, president; Lawrence Swanson, vice-president; Steve Ahrens, secretary; Larry Light, treasurer; Dick Mendenhall, sergeant-at-arms; Dan Grubb, social chairman; and Don Anderson, IPC representative.

New Phi Kappa officers are: Tom Quint, president; Ted Johnson, vice-president; Dick Whitehair, secretary; Bob Esterl, treasurer; Hugh Nethercot, pledge trainer; Bernard White, rush chairman; Ted Johnson, assistant rush chairman; Ronald Mentgen and Jack Runyan, co-social chairman; Clem Wahrman, scholarship chairman; Jim Kastens, steward; Jim Kramer, house manager; Donald Stang, IFC; Clarence Schmidt, editor and historian; Bob Esterl, intramurals chairman; Dick Whitehair, Tom Quint, and Jim Kramer, executive council; Bill Block, sergeant-at-arms; Don Weber, song leader.

## Roses

Roses were passed at the Clovia house April 17 to announce the coming marriage of Margaret Arwood '54 and 2nd Lt. Fred Hickson. The wedding will be at the chapel at Fort Riley, May 8.

## Roberts-Ferguson

The engagement of Marya Roberts to Jerry Ferguson was announced April 17 at the Delta Delta Delta sorority. Marya is a senior majoring in English from Wichita. Jerry is attending Wichita university. An August wedding is planned.

## Brunswick-Kaeberle

Chocolates announced the engagement of Berdine Brunswick and Dr. Merlin Kaeberle, at the Clovia house March 30. Berdine is a sociology senior from Tribune and Dr. Kaeberle is an instructor in the surgery and medicine department of the School of Veterinary Medicine. A June wedding has been planned.

## Ruthrauff-Miller

The engagement and pinning of Phyllis Ruthrauff to Bob Miller was announced at the Acacia Calli Crus party April 15 and at the Pi Phi formal April 16. Phyllis is a senior in home ec and journalism from Overland Park. Bob is a vet medicine senior from Eureka.

## Engagements

### Kruger-Johnson

Chocolates at Northwest hall and cigars at the Acacia house Sunday, April 17, announced the engagement of Jean Kruger to J. W. Johnson. Jean is a freshman in home economics and clothing from Soldier and J. W. is a freshman in veterinary medicine from Cleburne.

### Strickler-Dvorak

The engagement of Shirley Strickler to Bill Dvorak has been announced. Shirley is a senior majoring in clothing retailing. Bill, a graduate of Purdue university, is an engineer for Cessna

Air Crafts Co. in Hutchinson. Both are from Hutchinson.

## Pinnings

### Green-Hedden

Chocolates at the Kappa Kappa Gamma house and cigars at the Tau Kappa Epsilon house announced the pinning of Pat Green, elementary education sophomore from Mankato, and Wes Hedden, chemistry sophomore from Wichita, Sunday, April 17.

### Dennis-Kvitle

The pinning of Ann Dennis to Martin Kvitle was announced with chocolates at Pi Beta Phi and cigars at Sigma Chi. Ann is a sophomore in medical technology from Olathe, and Martin is a senior in veterinary medicine from Wauwatosa, Wis.

### Dunn-Barrett

The pinning of Marilyn Dunn and Tom Barrett was announced at the Pi Beta Phi formal Saturday, April 16. Marilyn is an elementary education junior from Topeka. Tom is a '53 graduate of Kansas State and is now serving in the armed services at Ft. Bliss, Texas. He is a Sigma Phi Epsilon alumnus.

## Guests

Sunday dinner guests April 17 at the Acacia house were Mr. and Mrs. Raymond Brethour and Mary Brethour and Ann Adams all of Maple Hill.

Dinner guests April 17 at the Alpha Chi Omega house were Mrs. L. D. Ptacek and Mary Ann of Manhattan.

Week-end guests April 15 through 17 at the Alpha Chi house were Pat Hunter and Shirley Winterschiedt, Kansas City; Gwen Wess, Partridge; Julie Gorman, Mound City; Sara Noe, Holton; and Lou Slade, Blue Rapids.

Alpha Chi guests April 16 were Mr. and Mrs. Ottis Douglass, Emma Lou and Bobby Douglass, and Carol Lea Alexander, all of Burlington.

Southeast hall week-end guests April 15 through 17 were Jo McDaniel, Sharon Waymon, Judy Woods, Janet Newcomer, Eileen Lindley, Carmen Fox, Mary McKnight, Janice Clark, Ardyth Good, and Mrs. Ross T. Bair.

Donna Turner, Valley Center was guest at the Kappa Delta sorority, April 16.

Roy Shields, Kansas City and Ron Watters, Salina were guests at the Tau Kappa Epsilon fraternity, April 16.

June Stehwen of Caldwell, Idaho, was a guest at the Chi Omega house Saturday, April 16.

The field secretary of Sigma Phi Epsilon, William Davis from Richmond, Va., was a guest at the house this week.

Ten Pi Kappa Alpha alumni and their wives were guests at the chapter house, Sunday noon, April 17. Plans for the new chapter house were discussed.

Dinner guests at the Sigma Chi

house Sunday, April 17, were Jeannie Hunter, the Sigma Chi Sweetheart, and Pat Cain from Kansas City.

Sigma Phi Epsilon will be guests at the Alpha Xi Delta house Saturday, April 23, for a tea dance which will be held for rushees.

Professor and Mrs. C. A. Dorf were guests for dinner at the Alpha Xi Delta house April 17.

Week-end guests at the Alpha Xi Delta house April 16 were Carol Wurst and Iris Dunton of Kansas City, Mo, and Pat Wollner of the KU Medical Center.

A dinner guest at the Alpha Xi Delta house April 16 was Mrs. Stanton Blackburn of Stafford.

Guests at the Clovia house April 16 were Margaret Arwood, Smith Center; Joan Engel, Marion; Aldean Knoche, Russell and Nancy West, Atwood.

Mrs. R. R. Birch from Ithaca, N.Y., was a guest for dinner at Waltheim hall April 16.

Mrs. Blythe Potts from Kansas City was a guest of Delta Delta Delta sorority April 16 and 17.

## Pledging

Terry Poling recently pledged Acacia.

## Tea

Sigma Phi Epsilon was host at a faculty tea Sunday afternoon, April 17, at the chapter house. Those in the receiving line were Dean Becker, president; Prof. and Mrs. Conrad Eriksen; Prof. and Mrs. David Mackintosh, and Fritz Knorr.

Those presiding at the tea table were Dean Helen Moore, Mrs. Francis Castello, Mrs. E. S. Darden, and Mrs. Verne Boyd.

## Rush Week End

Clovia entertained 25 4-H girls with a rush week end April 15, 16, and 17.

Chi Omega sorority entertained rushees April 16 and 17.

## Initiations

Formal initiation was held at the Alpha Gamma Rho house April 17 for Joe Bailey, Burke

Rogers, Delmar Rieger, Marvin Showmaker, Charles Michaels, Larry Green, Lynn Perkins, John Anderson, and C. Ancel Armstrong.

Formal initiation was held at the Alpha Kappa Lambda house Sunday, April 17. Those initiated were Marlon Brack, John Slade, Penn Morton, Daniel Chajuss, Don Croy, Larry French, Craig Jackson, Bill Neuer, Raymond North, Kenneth Webber, and Bob Wilson.

## Scholarship Dinner

Kappa Delta sorority held their annual scholarship dinner Wednesday, April 20.

## Conference

Nine Tau Kappa Epsilon officers attended the Province Leadership Training conference at the Hotel President in Kansas City, April 17.

## Exchanges

The Chi Omega sorority and the Sigma Phi Epsilon fraternity will have an exchange picnic April 21 at Sunset park.

Members of Sigma Phi Epsilon fraternity were guests for an exchange supper at the Kappa Kappa Gamma house April 15.

The Chi Omegas and Alpha Kappa Lambdas had an exchange picnic Thursday, April 14.

Tau Kappa Epsilon and Sigma Chi pledges had an hour dance at the Tau Kappa Epsilon fraternity with Northwest hall, Tuesday, April 19.

## Parties

The Kappa Sigma alumni and local chapter members attended their Pig Dinner at the Skyline

Saturday, April 16. All of the national officers were present at the stag dinner. The wives had a sweetheart dinner at the Wareham hotel on the same evening.

A dance followed the dinners at the Skyline with 160 alumni and local chapter members present.

Acacia's annual chicken barbecue was held April 16 at the John Poole ranch, south of Manhattan.

Sigma Alpha Epsilon fraternity held its formal April 15 at the Country club.

Tau Kappa Epsilon's annual Sweetheart ball will be held Friday, April 21 in the Wareham Terrace room. Candidates for queen are Suzi Cliborn, Alpha Delta Pi; Dorothy Barbour, Alpha Chi Omega; Joann Ketchum, Kappa Delta; and Barbara Hunter, Alpha Chi Omega.

## Shall the Groom Be Forgotten?

One of the comedians of radio and television recently wisecracked, "Are grooms people—or just the unknown quantity in the wedding ceremony?"

I call this to your attention because it has quite a serious side too. The groom should not be overlooked when it comes to gift giving. That's the whole story in a single sentence.

Personal gifts, of course, make the perfect present for the young man getting married. If you are uncertain about what he would like, here are some suggestions that should help you do your selecting. (Here, of course).

Come in and pick out a handsome set of cuff links, either in silver or gold. The newest styles are exceptionally attractive and can be engraved with his initials if you wish. Or get him a smart leather billfold. Maybe you'd like to give him a beautiful Omega watch. Nothing could be finer. For as little as \$71.50, you can get a handsome timepiece he'll wear for years to come.

Write us today and do something "really nice" for that young man who is about to be married. Robert C. Smith, Jewelry, 329 Poyntz Ave., Manhattan, Kansas.

## Boy Scouts Here Next Week for Video Workshop

K-State will host a television workshop for Kansas and Nebraska Boy Scout executives and volunteer leaders Monday and Tuesday.

Conducting the workshop will be Bill Barton, program manager from WIBW-TV, Topeka; Mary Jo Taylor, program director for KEDD-TV, Wichita; and Ben Butler, program director for KCKT-TV, Great Bend.

Glen Rice, assistant director of public relation service for the National Council of the Boy Scouts of America, will be the principal speaker at the dinner Monday night, and will also assist with the workshop.

James A. McCain, president, will welcome the workshop participants. Others on the program include Robert Snyder and Forest L. Whan, of the speech department; Max Milbourn, director of public service; and Jack Landon, Sp Jr.

Purpose of the workshop is to instruct Boy Scout executives in the usage of television as a medium to inform the public concerning Boy Scout activities.

The program was planned by Robert DuBose, deputy regional executive of the Boy Scouts, Whan and Snyder.

The National Savings and Loan League, estimates the country's 6,000 savings and loan associations will probably make more than \$8.5 billion worth of home financing loans during 1954, as compared with \$7.8 billion during the previous record year of 1953.

## Speech Students, Faculty To Present Original Play

By DON BOYD

"Quantrill and Kansas," a play of comedy and drama in ten scenes, will be presented by the student and faculty of the speech department April 28 and 30 at 2:30 p.m. in the Auditorium, according to John Robson, associate professor of speech, and author and director of the play.

The play, following the centennial atmosphere which will prevail next week, is sponsored by the Fine Arts festival. No admission will be charged, Robson said.

"Quantrill and Kansas" concerns the life of the infamous outlaw, William Quantrill and his activities in Kansas and Missouri during the War Between the States.

The ten episodes cover a period of seven years of Quantrill's life, from the time of the outbreak of the war through Quantrill's turning from a school teacher into an outlaw.

QUANTRILL WAS a teacher in Stanton at the time of the John Brown and his massacres of Kansans. According to Quantrill's explanation, he became an outlaw when his brother was killed by a Union outlaw gang operating out of Lawrence. He joined the gang to avenge his brother's murder but was exposed and crossed over into Missouri where he organized what probably was the most notorious guerilla gang the country has known.

ROYCE JOHNSON is the narrator and guitarist of the play. Baird Miller Sp Jr, plays William Quantrill; Dave Larson, CE So, is Thomas Quantrill; Mary Lu Compton, Sp Fr, plays Jenny; William Drake, Ag Sr, as Jenny's father; Don Whan, EE Fr, as the hotel clerk; Len Marx, Sp Gr, as Jake.

Dan Hurley, Sp Gr, as Scaggs; W. R. Rader, BA So, as Cole Younger; Bob Balzerick, BA So, as the hotel manager; Richard Mansfield, PrM Fr, as the Confederate secretary of war; Patty Patton, Sp Gr, as Caroline Quantrill; and Dennis Darner, Sp So, as Jesse James.

Union outlaws are played by Merton McIlvain, Sp Gr; Lawrence Brady, DE Fr; and John Wieland, Hst Fr. Richmond girls are Dolly Hubbard, Sp Fr, Laura Lyon, Eng Sr; and Jeannie Hunter, HEA Sr.

OTHERS IN Quantrill's gang are Edward Dunn, Gov Jr; Dan Farrell, PrL So; Phil Young, AgE Fr; Eddie Slocombe, Ag Fr; and Merton McIlvain, Sp Gr.

Soldiers and civilians are played by Lou Ann Oberhelman, Sp Fr; Mary Beckmeyer, TJ So; Beverly Ringey, TJ Fr; Harold Shamburg; Verdel Wilson, Sp Jr; Mary Higgins, Eng So; Bob Balzerick, BA So; Anna Lou Shaw, Sp Jr; and Betty Ann Jose, EEJ Jr.

Dancers are Ann Lundberg, EEJ Jr; Jean Harreld, HEA So; and Eugenia Jern, HE So.

ASSISTANT DIRECTOR is Anna Lou Shaw, Sp Jr. Production advisors are Prof. Earl Hoover, Prof. Don Hermes, Prof. William Koch, Prof. John Helm, Prof. Fred Heidemann, and Prof. John Absher, all of the speech department.

## Two Firms Offer Jobs This Summer

Representatives from two companies will be on the campus this week to explain summer job opportunities with their firms to interested students, the placement bureau has announced.

Vita Craft, national cookware company, is offering summer positions as salesmen, and will have a representative here tomorrow to explain the work. A general meeting for any interested student will be held in WA328 from 4 to 5 p.m.

Summer employment for mechanical and chemical engineering juniors is offered by Socony Vacuum. A representative from that firm will hold individual interviews Friday. Students may schedule them in E109.

A schedule of the interviews follows:

Vita Craft; summer employment for interested students; April 20, 4-5 p.m., WA328.

Natural Gas Texas-Illinois Pipe Line; ME; April 21; E109.

Continental Grain; BA, accounting, AEC, milling operations; April 21; A110.

North American Aviation of Downey, California; ME, EE, CE, Arch; April 21; E109.

Farmers Home Administration; Ag; April 22; A110.

Socony Vacuum; summer employment for ME and ChE juniors; April 22; E109.

## Governor Praises Kansas Guardsmen

Topeka, April 21 (U.P.)—Gov. Fred Hall and Maj. Gen. Joe Nickell, state adjutant general, today joined in praise of the response of Kansas National guardsmen to the nationwide mobilization test yesterday.

Gov. Hall commended the entire operation and then particularly praised the performance of the Air National Guard units at Wichita.

He said, "I was particularly pleased that at M-Hour (mobilization hour) our Air National Guard had 10 jet aircraft flights of two airplanes each in the air over the city of Wichita to protect the huge defense plants located there."

Nickell estimated the percentage of effectiveness of the alert at more than 90 per cent in Kansas.

"That's fairly high," he said, "considering that about three per cent would normally be sick or out of town."

The mobilization test began at 6 p.m. yesterday in Kansas when the governor received alert orders from Secretary of Defense Charles E. Wilson. These were passed on to Gen. Nickell with the zero hour set for 7 p.m.

## Texas Seeks Salk Vaccine

By UNITED PRESS

Gov. Allan Shivers of Texas today joined the list of officials seeking independent means of getting more Salk vaccine into their states before the Polio season starts.

Shivers asked for an emergency appropriation of \$250,000 so the state of Texas can manufacture its own anti-polio vaccine to immunize the children of the poor.

The mass inoculation of first and second graders against polio

is already in full swing in Texas, as it is in other states. But officials throughout the country expressed concern over how much of the vaccine will be available by mid-summer, and how they can provide protection for youngsters not covered by the mass inoculation program.

New Zealand has more than two and a half cattle for each of its 2,088,000 people. Its sheep outnumber people almost 17½ to one.

## THE GIFT HORSE

Many of our friends will soon be graduating. What kind of gifts should we give them?

Here is no simple question. It is never simple to find gifts for people who have everything, and college students, as everyone knows, are the most richly endowed of mortals. They've got beauty and truth. They've got rhythm. They've got stout hearts, willing hands, and a clear vision that dispels the miasmas of the future as the morning sun sears away the last wisps of a cool night's fog. They've got heaps and heaps of money, as who would not who has been receiving such a huge allowance over four years of schooling?

What can we give them that they don't already have?

One infallible gift for the person who has everything is, of course, a stethoscope. New models, featuring sequined earpieces and power steering, are now on display at your local surgical supply house. Accompanying each stethoscope is a gift card with this lovely poem:

When you hear your heart beat,  
When you hear it pound,  
Remember me, your buddy,  
William Henry Round.

If, by some odd chance, your name does not happen to be William Henry Round (you're laughing, but it's possible), here is another dandy suggestion for the person who has everything — a gift certificate from the American Bar Association.

These certificates, good at your local lawyer's, come in three convenient sizes: small, medium, and large. The small certificate covers title searches and writs of estoppel. The medium size covers torts, claim jumping, and violations of the Smoot-Hawley Act. The large one covers kidnapping, murder, and barratry.

If, by some odd chance, you don't know what barratry is (you're laughing, but it's possible), it is arson at sea. This interesting crime is called after Cosmo "Bubbles" Barrat, a captain in the British navy during the last century, who was addicted to burning his ships. One man o' war after another fell victim to his incendiary bent. The Admiralty kept getting crosser and crosser, but every time they called in Captain Barrat for a scolding, he would roll his big blue eyes and tug his forelock and promise faithfully never to do it again. Oh, butter wouldn't melt in his mouth, that one!

So they would give him another ship, and he would soon reduce it to a scattering of charred spars. He burned more than 120,000 ships before he was finally discharged as "doubtful officer material."

After his separation from the navy, he moved to Vienna where he changed his name to Freud and invented Scrabble.

But I digress. I was listing gifts for the person who has everything, and here is another one. This gift, in fact, is not only for persons who have everything, it is also for persons who have nothing, for persons who have next to nothing, for persons who have next to everything, and for persons in between. I refer, of course, to Philip Morris cigarettes. Here is the cigarette for everybody—for everybody, that is, who likes a mild relaxing smoke of fine vintage tobacco in a handsome brown package that snaps open with the greatest of ease. For those, if such there be, who like dull, nondescript tobacco in a package that requires a burglar's kit to open, Philip Morris is definitely the wrong gift.

Among the newer gifts that warrant your attention is a revolutionary development in the enjoyment of recorded music. This is the Low-Fi Phonograph. The Low-Fi, product of years of patient research, has so little fidelity to the record you put on it that if, for example, you put *Stardust* on the turntable, *Melancholy Baby* will come out. This is an especially welcome gift for people who hate *Stardust*.

Finally there is Sigafos Shaving Cream, a brand new kind of cream that makes whiskers grow in instead of out. You just bite them off in the morning.

©Max Shulman, 1955

To Max's suggestion to give PHILIP MORRIS for graduation, the makers of PHILIP MORRIS, who bring you this column, add a hearty amen.

# Mirrors Show 'Ideal Female Form'; Science Strives To Correct Illusion

New York, April 20 (U.P.)—When we look into mirrors, what we see is not always what is there. Science now can give you an idea of how this illusion works in girls.

When girls look into mirrors, they're likely to see narrower waists and shoulders, shorter noses, slimmer calves and ankles, and smaller feet than are actually being reflected in the glass.

But they're inclined to eye-measure their busts on the biggish side. According to Sidney M. Jourard and Paul F. Second of Emory university, this is because girls carry around in the backs of their heads, the measurements of "the ideal female figure."

THEY PICK UP these ideal measurements here and there, from other girls who are conspicuously successful with males and, most importantly, from "Hollywood stars and beauty queens." Then, when they look into their mirrors, they'll see themselves, if it is at all possible, as they'd like to be rather than as they are.

The scientists tried out their theories on 60 college girls at Emory. They used questionnaires,

also, in their words, "assorted rulers, tape measures, calipers, and scales for direct measurement."

However, the measuring was done by Miss Fairlie Brown, a student, whose assistance Jourard and Second gratefully acknowledged in their report to a technical journal of the American Psychological association.

THE RAMIFICATIONS were somewhat complex. When we look into the mirror, our attitude toward what we see is body-chataxis. If we are delighted by what we see, then we score quite high on the body-chataxis scale—and if we shudder at it, we score very low.

The Emory girls were asked to give their reactions to their own height, weight, nose length, and the circumferences of their busts, waists, calves, and ankles. They could put down that they had felt one of the following: "Strong positive feeling, positive feeling, slight positive feeling, no feeling one way or the other, slight negative feeling, negative feeling, or strong negative feeling."

ALL THE results turned up the existence of an "ideal female figure" shared by most if not all. It showed that those girls who could, saw themselves as the ideal, more or less. It showed that those who couldn't kid themselves, had some variety of "negative feeling" about the ankles or the bust or the waist which fell short of (or exceeded) the ideal.

Jourard and Second spoke of the "tyrannical shoulds"—the "should" in regard to girls and their figures being: "One should be five feet three inches, 122 pounds, 34.83 inches in the bust, etc." When the poor female can't see herself in any other way than she is, it produces "self hate, guilt, and insecurity."

The scientists shied away from applying their scientific findings to females in general, but they did say: "A 'tyrannical should' of this nature, if true, would help account for the apparently widespread efforts among women in American society to mould and sculpture their bodies toward the ideal, by corsetry, dieting, exercise, and camouflage."

## Campus Briefs

RALPH G. SANGER, head of the mathematics department, and Professor John M. Marr, S. Thomas Parker, and William L. Stamey will attend the meeting of the American Mathematical society at the University of Chicago April 22-23.

TEN FACULTY members and graduate students from the department of bacteriology attended a meeting of the Missouri Valley branch of the Society of American Bacteriologists in Lincoln, Neb., Friday and Saturday.

Presenting research papers were W. A. Miller, A. Eisenstark, M. K. Nadel, L. B. Bernstein, and W. J. Brabender. Others attending included T. H. Lord, L. R. Fina, K. J. McMahan, Dean Weber, and Hideo Koike.

A PICNIC at the Top of the World is scheduled for the meeting of the Independent Organized House Council at 5 p.m., April 28. Softball games and election of new officers will be on the program, according to Warren Howard, publicity chairman.

ELECTION of officers for next year will be held at the Cosmopolitan club meeting Monday, April 25, announced Ali Arbab, president of the club. The meeting will be in Rec center at 7:30 p.m.

THE COLLEGE Extension club will hold their annual picnic Monday, April, 25, at Sunset park. Members are to meet at the west entrance of the Extension barracks at 5:30 p.m., announced Jon Herod, club president.

A PICNIC for members of the Home Economics and Teaching club will be Thursday in the city

park at 5:30 p.m., Verlene Sobke, reporter of the club, has announced.

THE LAST home economics lecture will be held Thursday at 4 o'clock in C-01. This lecture is for sophomores and juniors.

A panel discussion entitled, "Experience as an IFYE," will be presented by Carol Anderson, Jean Sims, Mary Alice Todd, and Carolyn Wilbur.

ONE OF the beards on campus finally paid off for Mike Mansfield from Clay Center. Mike won the prize for having the best goatee at the State theatre Wednesday night. The prizes were a rod, reel, and lure, compliments of Sears and Roebuck and \$15 credit on a mattress, compliments of the Manhattan Mattress company.

NEW OFFICERS for the Klot and Kernel Klub will be elected and installed Tuesday, April 26 in Waters 137, Kermit Adelgren, president, said.

The officers will serve for the 1955-56 school year.

JOBS TO expect after graduation will be discussed by Prof. F. W. Atkeson, head of dairy husbandry, at an Alpha Zeta meeting Thursday at 7:30 p. m. in Veterinary clinic 175.

SIX STUDENTS and faculty representing K-State's American Guild of Organists chapter attended an all day meeting including lectures and demonstrations on organ playing in Topeka, Monday. Nancy Blackburn is president of the chapter and Robert Hays in faculty adviser.

A recital was given that evening by Edward Lingel, organist and choir master of St. Mary the Virgin, in New York City.

## Scottish Mayor Says Graham Very Effective

Glasgow, Scotland, April 21 (U.P.)—An elderly Scottish mayor who saw American Evangelist Dwight L. Moody at the turn of the century said today Billy Graham is even more forceful.

Mayor James Morrison, 96, of the Ayrshire village of Stevenson, who was a platform guest at Graham's meeting last night, recalled a revival meeting of Moody's which he once attended.

"Mr. Moody was quieter and not such a good speaker as Mr. Graham," Morrison said.

Kelvin hall was packed with 17,800 persons for Graham's meeting last night, equalling the attendance record set the night before. After the American Evangelist's sermon, 491 persons came forward to "make decisions for Christ."

Altogether, 505, 870 persons have attended the "AN-Scotland Crusade" which has 10 days to go before completing the six weeks. The total of conversions rose to 12,076.

## NU Prof To Talk To Research Frat Tomorrow Night

E. F. Frolik, chairman of the department of agronomy at the University of Nebraska, will be principal speaker before the local chapter of Sigma Xi national research honorary, Friday night, April 22, following the annual spring banquet and initiation of new members of the honorary organization.

Frolik's lecture, which is open to the public, will be in King lecture room, Willard 115, at 8 o'clock.

Research in the field of irradiation genetics in maize will be reported by Frolik in a talk entitled "Using Irradiation to Produce Beneficial Mutations." The University of Nebraska researcher will enumerate accomplishments in the field and will describe various types of irradiations available, giving advantages and disadvantages of each. He also will discuss types of changes that a plant breeder may expect to induce with irradiations. His talk will be illustrated.

Frolik has been on the extension and resident staff of NU since 1936, and has been department chairman since 1952. He was in Turkey this fall to help establish an educational program similar to that in the land grant colleges.

At the banquet in Thompson hall preceding the lecture, initiation will be held for nine new full members, 18 new associate members, and recognition will be given 10 promoted from associate to full membership.

## Frosh Awarded Danforth Grant

Nathan Greene, TA Fr, has been awarded a Danforth leadership training scholarship. C. W. Mullen, assistant dean of agriculture, announced today.

The scholarship provides two weeks of leadership training at American Youth Foundation camp, Shelby, Mich., during August 15-28. Walter Martin, Ag Soph, was scholarship recipient last year.

## Male Fashions To Feature 'Tapered Look'

New York, April 21 (U.P.)—Aw, quit kidding women about their fashions, men, when your "look" for next fall already is decreed.

While women still lack the faintest clue whether they are to be H-shaped, A-shaped or perhaps S-shaped next year—men know about themselves. They are to be tapered. This is the International Look.

MEN'S FASHIONS for fall were previewed here this week in a lavish production unequalled by any Paris couturier. In a day-long show at the Waldorf Astoria Starlight Roof, attended by 400 men in the men's fashion industry who each paid \$100 for a seat, the American man of next year was pictured as a debonair fellow with a long, lean look.

The crown of his hat will be tapered, and he'll have tapered lapels, tapered trousers and tapered toes on his shoes. Oh, yes, and the ties are narrower, the hat brims have shrunk, the suit sleeves are shorter and cuffs are thinner.

SOUNDS LIKE a case of the disappearing American male. But the look is expected to produce the opposite reaction among women. Women are supposed to take note of what a man is wearing with more admiration than ever before.

"The international air—with a touch of devil-may-care," the singers who preceded each act of the men's fashion show chorused before the opening scene. The show is planned and sponsored annually by Esquire magazine, but this is the first year reporters have been admitted.

"The international look stresses speed, alertness and trim mobility," the male commentator said.

Fruits such as apples, oranges and bananas contain a sugar that is identical in food and energy values with the granulated sugar used in every home.

### France Strengthened By Productivity—Donn

By OREN CAMPBELL  
Of the Collegian Staff

Increasing productivity is strengthening France's economy and giving the French people more of a guarantee against Communism. This was told to K-State students attending the dinner meeting which closed the industrial relations conference on productivity last night.

Rostislav Don, chief of the industry division of the French embassy in Washington, D.C., said that France is now involved in a comprehensive effort to increase its productivity in a program inspired, and partly financed, by the French government.

**HE STATED** that Europeans doubt that he heralded American economy is due primarily to such traditional explanations as abundance of raw materials, the fiscal system, or the size of the available market.

Donn told the student audience that the 12,000 Europeans who have visited the United States under the Economic Aid Program see other factors as being more decisive. One of these factors, he said, is an outstanding ability to put results of scientific research to practical use through bold industrial engineering projects.

During the afternoon session, both labor and management got a chance to voice their views about productivity. Taking labor's side was James W. Click of St. Louis, Mo., international vice-president of the International Union of Electrical, Radio, and Machine Workers of the CIO. Management's views were presented by George G. Hagedorn, associate director of research for the National Association of Manufacturers in New York City.

**CLICK SAID** that labor unions welcome the advance of productivity in industry if this advance also results in greater increases in living standards.

Profits are increasing in several of our nation's large companies, he said, while wages are declining. This enables these companies to build new plants, buy more labor-saving machines, and pay lower wages.

In regard to the trend toward automatic industry, the labor representative pointed out that automation is not a gradual process, but that American industry could be completely automatic within a decade. He said if all plants were to switch entirely to automation, one man would be able to do the work of 100 men.

**HAGEDORN DEFENDED** productivity, saying that as a result of it, we do not work as hard as we used to, more persons go to school, there has been a humanization of work, and it has raised our standard of living.

The management representative said it was impossible for anyone to tell whether a productivity increase would cause either more or less jobs. As an example, he pointed to the increase in farm productivity and the decrease in number of persons living on farms, and to the increase in the number of jobs in the automotive industry because of increased productivity.

### English Prof Awarded Ford Grant

Fred Higginson, assistant professor of English, has been awarded a Ford fellowship.

The fellowship will pay traveling expenses to Yale university and pay for a year's study there. Prof. Higginson is planning to study linguistics, especially of English.

President McCain said, "A Ford fellowship is one of the most coveted awards that can be made to a faculty member. There are approximately 10 outstanding applicants for each one selected. This award reflects great credit on the college and on Professor Higginson."

Professor Higginson is the fourth member of the English department to win this award in the past four years. Others who won the award are Prof. William R. Moses; Prof. William Sylvester, who is studying at Harvard now; and Prof. James Koener, who is on a leave of absence and is observing general education at the Massachusetts Institute of Technology.

### Large Vote Expected; Polls Busy Thursday

Voting was heavy Thursday for the Student Governing Association candidates, and if the trend of heavy voting continues, it will probably set a record in student elections here at K-State, according to Gary Swanson, chairman of the election committee.

Ag school votes were not in when the count of yesterday's election was taken. The school of Arts and Sciences registered 403 votes, Home Economics, 142, Engineering, 285, and Vet school 130. Voting stopped at 5 p.m. Thursday.

The Student Governing Association will hold a banquet at the Wareham hotel next Monday night at 5:30 for winners of this week's election, said Dick Pickett, retiring president.

### YWCA Prexy To New York For Convention

Marilyn Smith, BMT Soph, president of the YWCA, has gone to New York City for the national YWCA convention April 21-27. Marilyn left by plane for the convention where she will represent Kansas state as a voting member.

Members of the convention will be celebrating the centennial of the YWCA and gifts for the centennial fund will be presented to the national board. The convention reception and birthday celebration will be at the Metropolitan Museum of Arts Monday evening, and the Centennial Rededication services will be at Radio City Music hall Sunday morning. Harold Stassen will speak at the opening session of the convention on Thursday afternoon.

In addition to the general convention session, Marilyn will be attending special meetings of the National Student assembly, which is made up of the student members of the YWCA.

**ELECTION OFFICIALS** Margery Cornwell, EEd Soph, and Pat Fobes, BA Soph, watch as early morning voters Barbara Elliott, EEd Soph, and Eddie Wallace, Mth Soph, vote in Anderson hall.

### Building Fund Gets \$2 Million

By JOHNNY SALISBURY

K-State is to receive \$2,091,664 of the \$26 million state building program now being outlined by the state architect's office for the next two years.

### Collegiate 4-H Honors Four, Plans Banquet

Four seniors received special recognition at the Collegiate 4-H meeting last night. They were Mary Alice Todd, HDA Sr, Virginia Balthrop, HDA Sr, Byron Bird, BA Sr, and Richard Reinhardt, AH Sr. John Milton, chairman of the selection committee, presented the awards.

The honored seniors have all been active in Collegiate 4-H during the past four years. Miss Todd has been an International Farm Youth Exchange student to Ireland and past corresponding secretary of Collegiate 4-H. Chairman of the radio programs this year has been Miss Balthrop. She has also helped with the 4-H Round-up. Bird is editor of the 1955 Who's Who. Bird and Reinhardt have both been past presidents.

There will be a recognition banquet for these seniors Monday at the Wareham hotel.

### Line Schedules Here For Next September

Line schedules for summer school and the fall semester are available in the College post office, Robert Anderson, assistant director of admissions, announces.

\$9,204,906 of the total \$26 million for the state is to be used for buildings at the educational institutions.

K-State's \$2 million will be used on the old veterinary hospital, veterinary research lab, engineering building, and an engineering wing, new home economics building, and sanitary sewers, R. F. Gingrich, superintendent of maintenance, said today.

Fifty thousand dollars is to be spent on the old vet hospital this year, he said. About \$140,000 is to be spent on the building before the remodeling job plans is completed. This will take three years, he said.

**AN INTERMEDIATE** floor is being put into the lobby and large animal operating rooms of the building. These were both two-story rooms. The floor is being put in to provide additional classrooms, he said.

The new home economics building gets the biggest share; \$1,500,000, of the two million. "This is priority number one on our building list," says Gingrich.

The old power plant in the engineering building is being converted into four large rooms to be used for both laboratory and classwork. The space had been used previously for a mechanical engineering research laboratory, he said. About \$9,000 will be spent on this next year, he added.

**THE DAIRY PLANT** will undergo rehabilitation at the cost of \$24,700.

Increasing the size and relocating certain sanitary sewers will claim \$10,000.

Replacing water mains, renewing sewer systems, paving pens, reconditioning floors, and roof repairs on the veterinary research lab will be done at a cost of \$7,300. Gingrich says this is, "maintenance work which is routine."

### Burns, Jern Vie For HE Positions

Kathleen Burns, DIM Jr, and Eugenia Jern, HE Soph, are candidates for Home Economics club council president.

Other candidates are Gavona Michaels, HEN Soph, and Joan Skupa, HE Soph, for vice-president; Jeanette Fry, DIM Jr, and Lois Stowell, HT Jr, for secretary-treasurer.

Home economics majors may vote in Calvin today. Phyllis Rands, DIM Jr, candidate chairman, said.

### Student Health

Two girls and five boys are patients at Student Health today. They are Arrilla Delp, Clark Borth, Donald Hodgson, Earl Johnston, Gretchen Conrad, and Dennis Drouillard.

# Delay Unnecessary On Parking Lots

Within the very near future College officials are going to have to deal with the parking problem on the campus, we wonder when that joyous day will arrive.

Parking on the campus is a serious problem at K-State, just as it is a problem at most colleges and universities in the United States.

Some colleges have taken drastic measures in an effort to solve the problem. Some have gone so far as to ban all parking on the campus. Others have banned freshmen from driving or parking on the campus. They are not discriminating against freshmen, they just don't have room for everyone who wants to drive and park on the campus.

The student parking lots at K-State are a joke. Usually you can't park in them, and if by some stroke of good fortune you do happen to find a parking place, chances are you won't be able to leave until dark.

When you have no means of marking the parking areas to tell drivers where they are supposed to park you can expect just the situation we have right now.

The solution to the problem would seem to be a hard surface on the parking lots. With a hard surfaced lot you could mark individual parking stalls and thereby fully utilize the area available for parking. Also, persons desiring to leave could do so, and you could give tickets for people who park in driving lanes because they would be marked.

Probably the best argument for the hard surface would be the elimination of the mud and dust that now characterizes the parking lots.

When the suggestion for surfacing the lots has come up before, College officials always say they want to wait until the new Union building is done so they can landscape around it. Surely the building has progressed far enough now that they can tell how much area they will need for landscaping and how much can be used for parking.

There is no excuse for parking lots such as we have at K-State. The problem is critical and the sooner College officials and students face the problem the sooner it will be solved.

Karl Gaston

# Madman or Genius?— Film Portrays John Brown

In black and white comes the story of John Brown—again. Is he a genius or a madman? This picture doesn't decide.

The show drags while Brown is in Kansas. It picks up considerably when he moves to Virginia. In Kansas Jeffery Hunter and Debra Paget are the main interest—being interested in love. Before they marry Jeff says "Elizabeth, let's get married," and that's about all. After they're married Jeff says "Elizabeth, I love you." And that's about all.

The dynamic interest of the show is Raymond Massey as John Brown. At times a tyrant, at others a man of sympathy and devotion, Massey turns out as good an interpretation of John Brown as has ever been seen on the screen. And he walks off with all honors in the symbolic court scene.

The difference between Hunter and Paget and Massey is youth against experience. Whereas Massey carries his role with assurance and really becomes John Brown, Hunter and Paget are just Hunter and Paget all the way through the movie.

As said before, the action drags through the "Bleeding Kansas" episode, but the raid on Harper's Ferry is worth seeing, even to sitting through the first part. M.T.

# Today's World News

# Colonialism Causes Afro-Asian Snarl

Compiled from the Wires of United Press

By DICK CARR

Bandung, Indonesia—The Afro-Asian conference became hopelessly snarled today on whether Communist "subversion and infiltration" constituted a new form of colonialism.

A nine-nation subcommittee trying to write a resolution condemning colonialism was unable to reach agreement and adjourned until Saturday without a decision.

Kotelawala's charges that Communism is a new form of colonialism split the 29-nation group down the middle, shocking the neutrals, the Communists and the pro-Communists.

Indian Prime Minister Jawaharlal Nehru joined Chinese Communist Premier Chou En-Lai today in denying Kotelawala's charges, and they firmly insisted that such Eastern European nations as Czechoslovakia and Poland are free and independent and not colonies of the Kremlin.

Nehru also suggested that a new form of colonialism might have arisen recently in Guatemala where anti-Communist forces, with the sympathy of the United States, were victorious.

# Nehru Angered by Turkish Skepticism

Bandung—Indian Prime Minister Jawaharlal Nehru exploded with anger today at the Afro-Asian conference when the Turkish delegate expressed open skepticism of the idea of peaceful co-existence with Communism.

Nehru, who had joined forces earlier today with Chinese Communist Premier Chou En-Lai in a defense of Communist policies in Europe, took bitter exception to remarks by Turkey's Fatin Rustu Zorlu in a no-holds-barred meeting of the conference political committee.

"War is approaching," Nehru said, and the only way to avoid it is to "lessen tension through peaceful co-existence."

The clash between Nehru and Zorlu was touched off when the Turk made a speech upholding the principles of the North Atlantic Treaty Organization and said his country was extremely skeptical of Nehru's principle of co-existence.

# Churchill Cuts Vacation for Politics

London—Former Prime Minister Winston Churchill will cut short his vacation in Sicily to return to the political wars at home, it was announced today.

The British embassy in Rome announced Churchill will leave Syracuse next Tuesday for London to join the Conservatives in the fight to retain control of the government in the May 26 general elections.

Churchill, himself, will stand for reelection as a not-too-active member of Parliament. He has announced his intentions of becoming a "backbench" member of the House if he is victorious at the polls.

In the House, meantime, opposition Laborites bid for support in the elections, charging the new budget soaked the poor and helped the rich.

Harold Wilson, board of trade president in the former labor government, also accused the Conservatives of "prevarication" on cotton problems in a fighting bid for the heavy vote cast by midlands textile workers.

# Pinay Concerned About Viet Nam Revolt

London—French Foreign Minister Antoine Pinay today forecast grave difficulties for Free Indochina where the government of Premier Ngo Dinh and rebellious religious-political sects are locked in a bloody struggle for control.

Pinay's gloomy prediction came a few hours before President Eisenhower conferred in Washington with Gen. J. Lawton Collins, his special envoy to crisis-ridden South Viet Nam. Mr. Eisenhower summoned Collins home early this week to repair on the growing threat to a full-fledged civil war in the young nation.

Pinay arrived in London yesterday for a broad review of European and Far Eastern problems with Prime Minister Anthony Eden and Foreign Secretary Harold Macmillan. He met also with other top British officials, and policy advisers during his brief stay. He returned to Paris today.

## Scholar Elected Sigma Tau Prexy

Charles Scholer, CE Jr., was elected president of Sigma Tau, national honorary engineering fraternity, announced Bryce Miller, retiring president.

Dick Horton, ME Jr., was elected vice-president; Henry Windisch, EE Jr., secretary; Robert Juckem, ME Jr., corresponding secretary; Don Lenhart, EE Jr., treasurer; and Archie Graham, ME Jr., historian.

### FOR BETTER OR FOR WORSE

The first thought that comes into our minds upon entering college is, of course, marriage. But how many of us go about seeking mates, as I like to call them, in a truly scientific manner? Not many, you may be sure. Most of us simply marry the first person who comes along. This can lead to unpleasant consequences, especially if the person we marry is already married.

Let us today make a scientific survey of the three principle causes of marriage—homogamy, personality need, and propinquity. We will examine these one at a time.

**Homogamy** means the attraction of like for like. In marriage it is rarely opposites which attract; the great majority of people choose mates who resemble themselves in taste, personality, outlook, and, perhaps most important of all, cultural level.

Take, for example, the case of two students of a few years ago named Anselm Glottis and Florence Catapult. Anselm fell madly in love with Florence, but she rejected him because she was majoring in the Don Juanian Poets and he was in the lowly school of forestry. After graduation Anselm got a job as a forest ranger. Still determined to win Florence, he read every single Don Juanian Poet cover to cover while sitting in his lookout tower.

His plan, alas, miscarried. Florence, sent on a world cruise as a graduation present, picked up the betel nut habit in the Indies. Today, a derelict, she keeps body and soul together by working as a sampan off Mozambique. And Anselm, engrossed in the Don Juanian Poets, failed to notice a forest fire which destroyed 29,000,000 acres of second growth blue spruce. Today, a derelict, he teaches Herrick and Lovelace at the Connecticut School of Mines.

The second reason why people marry, personality need, means that you often choose a mate because he or she possesses certain qualities that complete and fulfill your own personality. Take, for instance, the case of Alanson Duck. As a freshman, Alanson made a fine scholastic record, played varsity lacrosse, and was very popular with his fellow students. Yet Alanson was not happy. There was something lacking in his life, something vague and indefinable that was needed to make his personality complete.

Then one day Alanson discovered what it was. As he was walking out of his class in Flemish pottery, a fetching coed named Grace Ek offered him a handsome brown package and said, "Philip Morris?"

"Yes!" he cried, for all at once he knew what he had been needing to round out his personality—the gentle fulfillment of Philip Morris Cigarettes, the soul-repairing mildness of their vintage tobaccos, the balm of their unparalleled taste, the ease and convenience of their bonny brown Snap-Open pack. "Yes, I will take a Philip Morris!" cried Alanson. "And I will also take you to wife if you will have me!"

"La!" she exclaimed, throwing her apron over her face, but after a while she removed it and they were married. Today they live in Prince Rupert, British Columbia, where Alanson is with an otter glazing firm and Grace is a bookie.

**Propinquity**, the third cause of marriage, means closeness. Put a boy and a girl in a confined space for a long period and they will almost surely get married. A perfect example is the case of Fafnir Sigafos. While a freshman at Louisiana State, he was required to crawl through the Big Inch pipeline as part of his fraternity initiation. He entered the pipe at Baton Rouge. As he passed Lafayette, Ind., he was agreeably surprised to be joined by a comely girl named Mary Alice Isinglass, a Purdue freshman, who had to crawl through the Big Inch as part of her sorority initiation. When they emerged from the pipeline at Burlington, Vermont, they were engaged, and, after a good hot bath, they were married. Today they live in Klamath Falls, Ore., where Fafnir is in the weights and measures department and Mary Alice is in the roofing game. They have three children, all named Norman.

Get your copy, absolutely free, with the purchase of a couple packs of Philip Morris at your favorite tobacco counter. Hurry! The supply is limited.

## Prizes, Judges Announced For Saturday Chariot Races

Chariot race judges and prizes for tomorrow's races were announced today by Lambda Chi Alpha, sponsoring fraternity.

First, second, and third-place prizes will be awarded to men's organized houses, teams and women's organized houses, and riders.

Divisions and their prizes are:

**FIRST PLACE MEN'S** organized house: 18-inch traveling trophy, 21-inch console television set, 11 by 14-inch portrait of housemother or sweetheart, oil change for housemother's car, and one carton cigarettes.

**Second place men's** organized house: table lamp, football, 8 by 10-inch portrait of housemother or sweetheart, electric popcorn popper, ice cream for fraternity's Sunday dinner, fountain pen desk set, and grease and wash job for housemother's car.

**Third place men's** organized house: five baseballs, wall clock, desk lamp, table cigarette lighter, wash job for housemother's car.

**FIRST PLACE TEAM:** movie passes for one month, \$5 credit certificates for shoes, socks, sport shirts, bow ties, 8 by 10-inch photos of team, buffet dinners, steak dinners, sandwiches.

**Second place team:** swim trunks, dinners, movie passes, money clips, tie racks, credit certificates for cleaning, candy apples for a week, banana splits.

**Third place team:** sport shirts, movie passes, steak dinners, malts.

**FIRST PLACE WOMEN'S** organized house: traveling trophy, portable phonograph, silver serving tray, grease job and gas for housemother's car.

**Second place women's** organized house: 45 rpm record attachment, records, pennant, grease and wash job for housemother's car.

**Third place women's** organized house: electric clock, desk pen set, Scrabble.

**RIDER OF FIRST place** chariot: shoes, swim suit, pearls, dozen roses, \$5 cleaning certificate, (Continued on page 8)

# Dodgers Win, 14-4, Set New Record

By UNITED PRESS

The Brooklyn Dodgers trampled the Philadelphia Phillies, 14-4, yesterday to set a modern major league record of 10 consecutive victories at the start of the season. Routing Robin Roberts with a 7-run rally in the seventh inning, the Dodgers erased the previous record of nine victories in a row held jointly by themselves, the Giants, and the St. Louis Browns. The Browns did it last in 1944, the year they won their only pennant. Brooklyn hammered three Philly pitchers for 17 hits, including

home runs by Jackie Robinson, Duke Snider, Sandy Amoros, and Don Zimmer, who also had two doubles and a single.

Russ Meyer started for the Dodgers but was relieved by Joe Black in the third. Black was the winner.

In the American league yesterday, Washington defeated Boston, 1-0; the New York Yankees won over Baltimore, 14-2; and Chicago's White Sox beat Detroit, 9-1. New York at Pittsburgh in the National league was rained out.

## Santee To Try For Mile Mark At KU Meet

Lawrence—Garnished by another Wes Santee shot at the four-minute mile, the 30th Kansas Relays unfurl in Memorial stadium here tomorrow.

Topped by Texas, Houston, and Oklahoma A&M teams that will be shooting at world records in the 440 and sprint-medley relays, 70 universities, colleges, and junior colleges will send a total of 900 competitors to the post on the 30-event card.

Ten hand-picked decathlon performers begin competition this afternoon on the first five events of their gruelling test. They'll finish around noon tomorrow.

WITH SANTEE the principal magnet, the meet will draw the widest newsreel and delayed TV coverage in its history. On hand will be News of the Day newsreel; CBS-TV; Tel Ra, and Movietone. Stations KANS, Wichita; KLWN, Lawrence; and KU Sports Network will air the show.

Santee lowered his American mile record to 4:00.5 at the Texas Relays three weeks ago. He was only 10 feet short of the tape when press-box watches reached the magic 4:00.

Two former Kansas teammates, Dick Wilson and Art Dalzell, will be on hand to insure a torrid early pace. Dalzell drew Santee to records in his last four mile races—Milwaukee Journal Games, Chicago Daily News meet, Cleveland Knights of Columbus, and at Texas.

## Nineteen Cat Thinclads To KU Meet Tomorrow

K-State's 19-man track team will be in Lawrence tomorrow to compete in the annual KU Relays with approximately 70 other colleges and universities.

Last Saturday, the team finished fifth in a field of 15 teams in the Southwest Relays at Lafayette, La.

Paul Miller, K-State pole vault entry who won the pole vault with a leap of 13-7 at the Southwest meet, will be after another win in his favorite event at KU tomorrow.

ANOTHER FIRST gained by the Wildcats at Lafayette was by the distance medley relay team with a time of 10:15.

Only other individual scorer for K-State was Joe Powell, who placed third in the javelin.

Dolan McDaniel, soph sprinter, will represent K-State in three events—the 440-yard dash, 880-yard relay, and sprint-medley relay. McDaniel was high-point man in the sprint events for K-State during the indoor track season.

K-STATE entries:

120-yard high hurdles—Mike Cornett, Gary Doupnik, Jack Railsback.

440-meter intermediate hurdles—Ray Russell.

440-yard relay—Jerry Mershon, Gene Wilson, Dolan McDaniel, Marvin Chiles.

880-yard relay—Mershon, Jim Loomis, McDaniel, Chiles.

Sprint-medley relay—Joel McGill, Loomis, McDaniel, Hubert Guest.

Distance medley relay—McGill, J. D. Patterson, Glen Taplin, Darl Michel.

Shotput—Allan Muecke. Discus—Ray Fritzmeier.

Javelin—Joe Powell.

Broadjump—Wilson.

Hop-step-jump—Wilson.

Pole vault—Miller, Fred Winger.

K-State students competing unattached:

440-meter intermediate hurdles—Gene O'Connor, Stan Knowles.

Hop-step-jump—Knowles.

Steeplechase—Arlan Stackley, Terry Turner.

## Mertes Is Optimistic About Grid Fortunes

K-State's football team will face one of its toughest schedules next fall, but head coach Bus Mertes feels optimistic that his team's spirit and determination will win some ball games next fall.

"It's going to be extremely hard to win next season," said Mertes. "Let's face it—Missouri, Colorado, Oklahoma, and even KU will all be stronger. Our nonconference schedule is four or five times tougher than it has been previously."

Mertes plans to use one unit with individual substitution, and hopes to develop the proficiency of the players by continuous play at one position.

THE TEAM probably won't have the depth it had last year and will have to rely on a strong No. 1 unit, Mertes said. He added that K-State will probably go for short gains next fall.

"We'll be without Corky Taylor, for one reason. Last year, Taylor was responsible for half of the running and passing offensive gains," explained K-State's new grid mentor.

Looking back over the varsity-alumni game last Saturday, Mertes was both pleased and displeased with his team's showing.

"I DIDN'T like the fact that we didn't get to run enough offensive plays," he said. The alumni took so much time in the huddle with the clock running that it shortened the game considerably; penalties

and fumbles also took their toll at crucial times, Mertes said.

The varsity never seemed to quit trying and he was pleased with their spirit and fight, he said.

He especially pointed out the drive the Wildcats made with 3 minutes to go in the game, when Bob Whitehead grabbed the alumni kick-off on the 16-yard line and ran it back 26 yards to the 42.

SIX PLAYS LATER, with the ball resting on the alumni 9-yard line, Whitehead swept right end for a touchdown, only to have it nullified because his knee touched on the 3.

He praised the play of freshmen Ray Glaze, Ralph Pfeifer, Don Zadnik, Richard Allen, and Ellis Rainsberger.

Mertes said that he was in favor of the varsity-alumni games and believed that eventually, the annual duel would become an even more colorful event.

## Cat Netmen Lose, 2-4, To Tulsa U

K-State's tennis team was able to win only one singles match and one doubles match yesterday in losing to Tulsa, 2-4.

It was the Wildcats second loss in three outings on their current road trip. On Tuesday they defeated Wichita, but on Wednesday were defeated by a strong Oklahoma team.

John Deam was the singles winner for the Wildcats yesterday, defeating Tom Webster of Tulsa, 6-3, 6-3.

Other results: Ollie Gresham (T) defeated Bob Hansen (KS), 9-7, 3-6, 6-3.

Lynn Allen (T) defeated Dick Circle (KS), 7-5, 7-5.

Bill Coats (T) defeated John Teas (KS), 1-6, 6-2, 7-5.

Gresham-Allen (T) defeated Circle-Deam (KS), 6-1, 6-0.

Hansen-Teas (KS) defeated Webster-Mareburger (T), 8-6, 6-3.

## K-Club Members To Picnic Sunday

The K-Club will hold a picnic Sunday at 3 p.m. for K-State lettermen and their dates, club president Larry Hartshorn said.

Hartshorn asked that all members who wish to attend meet at the student parking lot by East Stadium.

Europeans working in the U. S. Army maintenance shops in Germany use scrap metal to manufacture bolts and other small parts needed each day.

**KENT POORE**, No. 1 man on the K-State golf team, lines up his sights on Wichita. The Wildcats take on the Wichita golfers this afternoon on the Country Club golf course.

## Wildcat Golfers To Host Wichita This Afternoon

K-State's golf team meets Wichita this afternoon in matches to be played at the Manhattan country club.

The Wildcats are still seeking

## Canadians Dominate NHL All-Star Team

Montreal (U.P.)—The Montreal Canadians, who lost the National Hockey League pennant and the Stanley Cup playoffs to the Detroit Red Wings, today proved to be better vote-getters than their rivals in the annual NHL all-star balloting.

The Canadians places three men, including fire-brand Maurice Richard, on the first team. The Red Wings were represented only by defenseman Red Kelly.

their first victory of the season, after dropping their first four meets. KU defeated the Wildcats Monday at Lawrence, 7 1/2-4 1/2, in the Cats' latest outing.

Tomorrow the Wildcats go to Topeka to meet Washburn, with Iowa State furnishing the next conference competition at Ames on April 30.

Kent Poore is leading player among the K-State golfers. In the four meets this season, he has been medalist for the Wildcats twice.

Hayes Walker was low scorer for the Wildcats in the loss to Nebraska with a 77. In a losing cause against KU, Dave Pfuete shot a 78.

Entries for the meet with Wichita today and with Washburn tomorrow, as announced by coach Mickey Evans, are Kent Poore, Hayes Walker, Dave Pfuete, and Jim Weatherford.

## Three New Names In Baseball Lineup For Today's Game

K-State's baseball team will take the field this afternoon against Colorado with a revamped lineup.

The Cat infield will have football players Bob Whitehead and Kerry Clifford at shortstop and first base, respectively.

Both Whitehead and Clifford are considered above-average hitters and could bolster the K-State hitting attack, currently operating at a weak .143.

Another lineup change will send Dick Coupe to the outfield.

A welcome change for the K-Staters from the Nebraska series last week end will be furnished by the fact that Colorado has righthanded pitchers. Of the five hurlers used by Nebraska, only one was a righthander.

Starting pitchers for the contests with Colorado today and tomorrow have not been named, but coach Ray Wauthier expects to start Ron Bergren in this afternoon's game. In two appearances this year, both in relief, Bergren has not figured in a decision.

Last year, the two teams split in their two-game series. K-State won one game, 18-4, and lost the other, 10-14.

Colorado is undefeated in six games this season, while K-State has a 2-3 mark.

The Wildcats will be seeking their first victory against conference competition.

## No-Hitter, 3 Shutouts Highlight IM Softball

A no-hit no-run game and three shutouts highlighted yesterday's intramural softball competition.

Jim Bennett pitched the no-hitter as House of Williams shut out OK House, 13-0. Fred Wingert hurled for Alpha Gamma Rho as they whitewashed Kappa Sigma, 3-0.

Bennett and Richard Peterson hit home runs for House of Williams.

In the third whitewash job, YMCA defeated House of Breck, 8-0. At the opposite extreme in scoring, Sheiks of Kasbah outscored Sigma Phi Nothing, 17-10.

In other games yesterday, Delta Tau Delta defeated Alpha Kappa Lambda, 8-5; Jr. AVMA defeated Wesley Foundation, 8-6; Hui-O-Makules defeated Rho Alphas, 9-5; and the Jones Boys defeated the Hosenose Gang, 11-2.

Today's schedule, at 5:15—Beta Theta Pi vs. Sigma Phi Epsilon, southwest field, city park; Phi Kappa Tau vs. Phi Kappa, northwest field, city park; Sigma Alpha Epsilon vs. Delta Sigma Phi, west military drill field; Lambda Chi Alpha vs. Theta Xi, east military drill field.

## Softball Victories To Pi Phi, Kappa

Pi Beta Phi edged out Kappa Delta, 18-17, in women's intramural softball Wednesday. Sandra Tatge pitched for the winning team. In the other game, Kappa Kappa Gamma defeated Alpha Xi Delta, 17-6, with Kathleen Barton pitching for the winners.

## A Campus-to-Career Case History

Here Ed Chandler reviews Long Distance facilities between Atlanta and Lincoln, Georgia. He is working from a layout that shows all Long Distance lines in the state.

## "My classmates talked me out of a job"

Ed Chandler had a good job all lined up long before he graduated from Georgia Institute of Technology as an Industrial Engineer. But then he changed his mind . . .

"When I got out of college in '50, I was all set to go with a company I'd worked for during a previous summer.

"But then I got called up by the Army. During the next two years I heard a lot of good things from my Georgia Tech classmates who'd gone to work for the telephone company. As far as I was concerned this was the best recom-

mendation any company could get.

"So when I got out of the Army I stopped in to talk with the telephone people. When I saw an outline of their development program, I was sold.

"My first year took me through every phase of handling and estimating costs on telephone equipment from warehouse to installation. I drew up plans for several projects, then went out in the field to see how they were carried out.

"Now I'm helping develop next year's multi-million-dollar construction program for Georgia. I've found it an interesting and rewarding job."

In the engineering department of Southern Bell Telephone & Telegraph Company in Atlanta, Ed Chandler is moving along in his career. Your Placement Officer can give you details about similar opportunities with the other Bell telephone companies like Southern Bell—also with Bell Telephone Laboratories, Western Electric and Sandia Corporation.

# Picnics, Meetings Planned By Religious Organizations

## Canterbury Club

Communion will be Sunday morning at 11 at the church. A regular meeting of the members of Canterbury club will be at 5:30 p.m. at Canterbury house. Sister Agatha, librarian at the Covenant of the Holy Nativity at the Fond du Lac Wisconsin, will talk on the training of the novice. Communion will be Wednesday at 7 a.m. in Danforth chapel.

## United Student Fellowship

Sunday at 5 p.m. members of USF will meet in front of Anderson hall for rides to a picnic and discussion at Bayer's cabin. The discussion will be on the topic, "What is the Purpose of USF?"

## Lutheran Student Association

The Kansas university Lutheran Student Association will be host to the K-State group Sunday evening. Those planning to attend should meet at the church at 2:30 p.m.

Chapel services will be Tuesday at 5 p.m. Eldon Johnson, AH Sr, will give the meditations and Kenneth Flagler, AA Fr, the liturgy.

## Kappa Beta

Kappa Beta entertained Junior Deacons and guests at a picnic Tuesday at 6 p.m. It was held at the Disciple Student Foundation because of the rain.

## Newman Club

Newman club will meet Sunday following the 10 a.m. mass. Father Weisenberg will be present. The regular weekly schedule of activities will be followed.

## Roger Williams Fellowship

Members of RWF will have a picnic Sunday. Rides will leave from the girls' dormitories and

from the church at 5 p.m. After supper, officers will be elected and a program, "Communion in Nature" will be presented.

Sunday school will be at 9:45 a.m. and morning worship at 11. A discussion group will meet at 1030 Laramie at 7:15 Wednesday. Devotions in Danforth chapel will be at 7:40 a.m. Tuesday and Thursday, and at 5 p.m. Friday.

## Westminster Fellowship

Sunday school for members of Westminster Fellowship will be at 9:30 a.m. At 3:30 p.m. couples to be married this summer will attend seminar entitled, "Mr. and Mrs. To Be."

Sunday evening fellowship at 5:30 will feature a film "Two Brothers Have I" with discussion of the film led by Betsey Thomasson.

Cabinet members of the Fellowship will meet Tuesday at 5:30 p.m. in the cafeteria.

## Wesley Foundation

Open house at the Foundation will be Friday and Saturday from 8 p.m. to 12 p.m. Bob Chandler and Leda Vernon will be host and hostess Friday night, and Don Jarchow and Donalee Meyers will be host and hostesses Saturday night.

Sigma Theta Epsilon will have formal initiation and election at 8 a.m. Sunday.

The Rev. B. A. Rogers will talk on "A Contemporary Pioneer" at the 9:50 church services at the Foundation Sunday. Church school will be at 11.

At 5 p.m. members of Wesley will have fellowship. Meredith Griffiths and Warren Lynn will be in charge.

Lunch at 5:30 and forum at 6 are under the direction of Merlin Peck and Kathy Seaton. Wil-

fred Pine, professor of agricultural economics, will talk on "Why They Nothing? We Plenty?" Carolee Fox will give the meditations and Mary Gilliland will sing.

## Wool-Judging Meet Planned

The first K-State student contest in wool judging will be Saturday, April 30, according to Ernest Heitschmidt, Ag Sr.

The contest is being sponsored by Block and Bridle and will be in the livestock pavilion at 1:30 p.m. Glen E. Thacher, field service director of the Midwest Wool association, will be the official judge.

Judging will include scoring of 10 fleeces and the placing of five classes. The junior division is open to anyone without experience, while the senior division is for students who have had wool judging experience but have never participated on the College team.

Cash awards and prizes will be donated by the Kansas Purebred Sheep Breeders association and the Block and Bridle club.

# Clinic To Replace Written Comm. IA

By ANNE HUTCHERSON

A writing clinic will be added to the Written Communications course next fall, W. C. Hummell, professor of English, announced today.

The clinic, which will concentrate on the mechanics of writing, will replace the five-hour written communications IA sections. It will involve a two-hour laboratory each week for students enrolled in regular sections who appear to need special attention.

About 200 students will be enrolled in the clinics, according to Hummell. Students will be selected for the clinics on the basis of entrance test scores and two early themes.

The clinics will be able to handle almost twice as many students as can now be accommodated in the IA sections. Also, the clinics will give the students enrolled a systematic review of English mechanics without having to give such a detailed review in the regular sections.

Two graduate assistants will be in charge of the clinics.

Another change in the written communications program for next fall will be the dropping of the entrance theme which was written during orientation testing. The leveling of freshman sections will

be done on the basis of test scores only.

Students for the developmental reading sections and honors sections will be selected according to the system now in effect.

Restaurants using flowers for everyday attractiveness, parties and banquets outnumber restaurants that do not use them two to one, according to a survey on table decorations conducted by American Restaurant Magazine.

# Alpha Chis, TKEs To Have Formals Tonight

## Picnics

Alpha Chi Omega's spring formal will be April 22 at the Country club. Dinner will be at 6:30 and the Blue Rhythms will play at the dance at 9 p.m.

Mary Ellen Douglass, president, Don Sheets, Mrs. Paul C. Jones, housemother, Mitzie Dickinson, social chairman, Jack Grier, Mr. and Mrs. Ron Dale, and Dean and Mrs. William Craig, will be in the receiving line.

In the receiving line at the Tau Kappa Epsilon formal April 22 at the Wareham Terrace room will be: Les Paul, Elaine Krob, Mrs. Metz Wright, and Dr. and Mrs. M. Harbaugh.

Acacia entertained their dates with a Calli Crus party at the chapter house April 15. In keeping with the meaning of calli crus, which is "pretty legs," the girls were dressed in shorts and received garters at favors. The party was preceded with a picnic at 5:30.

Jeanie Hunter  
Sweetheart of Sigma Chi

Jeannie Hunter was chosen Sweetheart of Sigma Chi at its annual Sweetheart Ball Friday, April 15. She is a Pi Beta Phi. Her two attendant were Ilene Parshall, Kappa Delta, and Sharon Talbott, Pi Beta Phi.

Dinner was at the Wareham hotel with the dance following at Pottorf hall. The Counts from Emporia played for the dance. In the receiving line were Mr. and Mrs. Bob Wilson, Mr. and Mrs. Frank Bradley, Mrs. Henry Boss, Gaylord Stunkel, David Evans, and Sally Leonard.

The Lambda Chi Alpha pledges had a hayrack ride Saturday night, April 16. Chaperones were Sgt. and Mrs. William F. Shepard and Mr. and Mrs. Ray Rose.

The Pi Beta Phi formal dinner was held at the Wareham hotel, April 16, with a dance at Pottorf hall. The theme of the formal was Nocturne.

## Pinnings

### Miles-Kobs

Chocolates at Van Zile and cigars at the Alpha Kappa Lambda house Sunday, April 17, to announce the pinning of Ann Miles

and Don Kobs. Ann is a junior in music education from Garden City. Don is a senior in animal husbandry from Meade.

### DeMay-Grubb

Cigars at the Tau Kappa Epsilon, Monday, April 18, announced the pinning of Dan Grubb and Joanne DeMay. Joanne is a sophomore at Nebraska university at Lincoln. She is a member of the Eta Sigma Alpha sorority. Don, who is a sophomore in pre-vet, is from McCook, Neb.

## Engagements

### Morton-Halbert

Chocolates at the Delta Delta house and cigars at the Pi Kappa Alpha house April 20, announced the engagement of Bonnie Morton to Jim Halbert. Bonnie is a physical education freshman from Goodland. Jim is a business administration freshman from Merriam.

### Brammell-Tointon

Chocolates at Northwest hall Thursday, April 14, announced the engagement of Betty Brammell and Bob Tointon. Betty, a senior in foods and nutrition, is from Perry and Bob is a senior in civil engineering from Almena.

### Morgan-Snyder

Cigars were passed Wednesday evening, April 20, at the Sigma Nu fraternity, announcing the engagement of J. R. Snyder to Ruth Morgan. Ruth is employed by the Guide Lamp Division of General Motors in Elwood, Indiana, and J.R. is a junior in radio-speech from Elwood.

### Dawson-Poore

Kent Poore and Sylvia Dawson have set their wedding date for May 29, 1955. The wedding will be in the Methodist church in Elmdale, Kansas. Sylvia is a freshman in business at Emporia State and Kent is a senior in business administration.

### Pishney-Miller

The engagement of Gene Miller and Carolyn Pishney was announced April 17 at the OK house.

Carolyn, a freshman in music from Waterville, is attending KU. Gene is a physical education sophomore from Blue Rapids.

### Davison-Knedlik

Chocolate April 13 at Van Zile announced the engagement of Cynthia Davison to Franklin Knedlik. Cynthia is a sophomore in elementary education from Waterville. Franklin farms at Waterville.

### Roberts-Hamilton

Cigars were passed at the Alpha Gamma Rho house to announce the engagement of Vern Hamilton to Jean Roberts. Vern is a sophomore in agriculture from Wellington, and Jean is a student at Phillips university at Enid, Okla.

## Weddings

### Jarbo-Patzell

Bill Patzell and Vinita Jarbo were married in Larned April 11. Bill graduated from K-State last semester and was a member of the Phi Kappa fraternity from Manhattan. Vinita is from Larned and is employed at the K-State field house.

### Murry-Ptracek

Daniel Ptracek and Margery Murray were married in Ogden April 12. Daniel graduated from K-State last semester and was a member of the Phi Kappa fraternity from Oberlin. Margery is from Ogden.

## Roses

### Scott-Katon

A red rose at the Alpha Delta Pi house Wednesday, April 20, announced the wedding date of Jeanette Scott and Jack Katon. The wedding will be May 31. Jeanette is a junior in sociology from Tulsa, Okla., and Jack is a grad-

# Class Arranges Displays For Manhattan Stores

By ELLEN FLOTTMAN

Flowers banked around an old-fashioned locket form the window display in a local floral shop planned by George Stanley, BA Jr. He is one of the six students enrolled in the Window Display class taught by Mrs. Jess Alexander, associate professor of art.

Students enrolled in this class create designs for a specific window in a Manhattan store. After choosing the store, they scout it to see what materials are available for the display. After the design is sketched, the student must convince the merchant that the design is practical and that it would draw attention.

This is the second window display Stanley has had used. His first was a men's formal wear display in a mens shop in Aggieville.

A downtown hat shop has used a window display planned by a student every Easter for several years. This year Helen Bartz, HEA Soph, did the display using pussy willows and four heads

made of chicken wire placed to resemble pussy willows. The hats were displayed on these forms.

Lettering and drawing are the usual prerequisites to the course. In the past years several students have obtained jobs through their window displays. Marlene Dienes, '52, got her job as interior decorator in Salina as a result of the display she did in class.

Mrs. Alexander says she tries to adapt the class to the needs and wants of the students. Previous to coming to Kansas State she did free lance work in New York City for Lord and Taylor and for B. Altman.

At Dumonth studios in New York she assembled children's displays. She was stylist in the display department and was in charge of all the interior display at L. Bamberger and Company in Newark, N.J.

In 1952-55 Mrs. Alexander took her sabbatical leave to study art in Paris.

# Campus Briefs

**DWIGHT A. NESMITH**, industrial engineer with the engineering experiment station, will be principal speaker at an engineering experiment station luncheon Saturday noon in the College cafeteria. Nesmith's subject will be "Industrial Development and Community Surveys."

**DONALD GEORGE SADLER** from New Zealand is the first International Farm Youth Exchangee to arrive in Kansas this year. Sadler, who will be on the campus today, will live with a farm family in Atchison county. He will also visit in Ohio and Maine before leaving the United States October 12.

**THREE AGRICULTURAL** economists left today for a three-day meeting of the Midwest sociological society in Des Moines, Iowa. They are Glenn W. Long, Randall C. Hill and James H.

Copp. Purpose of the annual meeting of the society is to discuss recent developments in sociology and related fields.

**CHARLES F. MARSH** and O. W. Bidwell are taking students of Bidwell's soils class on a field trip to northeastern Kansas. Soil development and classification will be studied on the field trip.

**FOUR K-STATE'S** discussed their European experiences at the home economics lecture Thursday. The members of the panel discussion, "Experience as an IFYE," were International Farm Youth Exchangees during the past summer, visiting four different countries. The panel members and the countries they visited were Mary Alice Todd, Ireland; Jean Sims, Belgium; Carolyn Anderson, France; and Caroline Wilbur, Netherlands.

## Races....

(Continued from page 3)

movie passes for a month, shampoo, wave and manicure, hose, 8 by 10-inch photo of winning team, cuff links, and \$2 cleaning certificate.

Rider of second place chariot: camera with flash attachment, train case, dozen roses, \$5 cleaning certificate, shampoo and finger wave, necklace, candy apples for a week, and a banana split.

Rider of third place chariot: camera, \$5 camera certificate, dozen roses, shampoo and finger wave, wildcat doll, cuff links, and a malt.

"MOST UNIQUE" chariot award to a men's organized house: \$20 merchandise certificate at a bookstore, \$5 merchandise certificate, four dozen grapefruit, and a carton cigarettes.

Officials for the race are:

Honorary referee, Dr. James A. McCain; referee, Fritz Knorr; clerks, Henry Tucker, math department, M. E. Jackson, extension department; clerk of the course, Guy Lemon, Kansas State highway road materials lab.

Head timer, Rodney W. Babcock, dean Arts and Sciences; assistant timers, Ray Rose, ass't dean Arts and Sciences, Lud Fiser, secretary of the Manhattan C. of C., and Dean Folse.

Head finish judge, William Craig, dean of students; judges, Phil Sorenson, assistant dean of students, Prof. Ralph Lashbrook, head of department of journalism, and Clyde W. Mullin, assistant dean of agriculture.

Special judge, J. C. Heintzelman will judge the most "unique chariot." Six inspectors will be announced later.

## Senior Honorary Applications Due

Applications for membership in Blue Key, senior men's honorary are available in the Dean of Students' office, Chuck Amstein, chairman of the Blue Key membership committee, announced today.

Any male student who will be a senior at K-State next year with a grade average above the all men's grade average may apply. The deadline for applications is 5 p.m. today.

## Incomparable Cleaning Service of Flawless Quality At Marden's

1309 Anderson Ave.  
for Knits, Suedes, Gabardines.

Great skill and refinement of detail expresses the care with which each individual garment is finished.

See it—  
Drive it—  
WIN IT!

You'll find a world of new fun at the wheel of a new Chevrolet—and the exciting discoveries you make can help you win one!

Driving a beautiful new Chevrolet is thrill enough any time. It is more rewarding right now, because the things you find out on your drive can help you win a 1955 Chevrolet plus a \$1,000 U. S. Savings Bond!

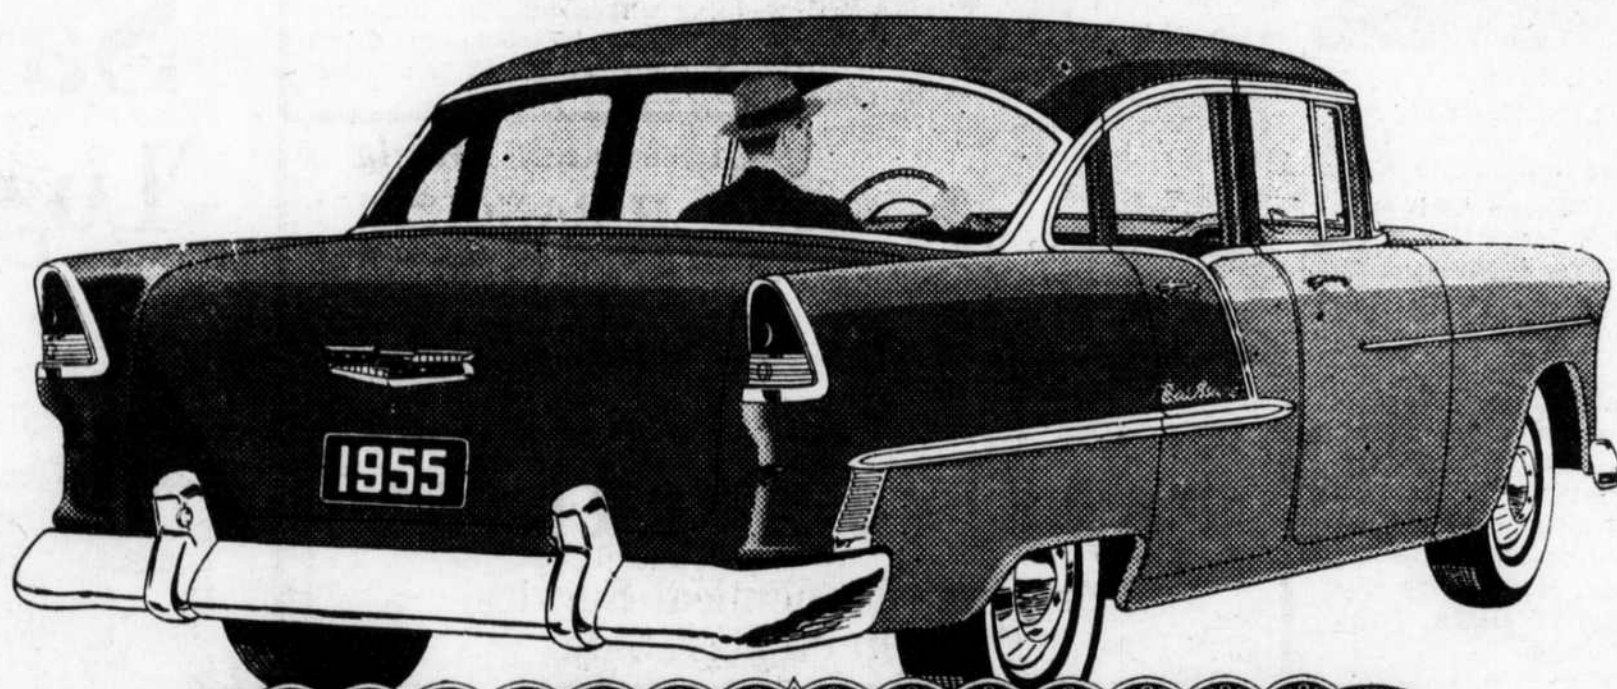

For instance, your drive will show you what it means to sit in a luxurious Fisher Body, to see all four fenders from the driver's seat, and to get a man's-size look ahead through a Sweep-Sight windshield.

You'll learn that Chevrolet puts new comfort in going! New Glide-Ride front suspension and Outrigger

rear springs. New ease to guiding the car with Ball-Race Steering. A new smoothness to all stops with Anti-Dive Braking Control. A constant flow of outside air from the new High-Level ventilation system.

You'll discover new fun whether you drive Chevrolet's new 162-horsepower "Turbo-Fire V8" or one of the two new 6's. (All with the only 12-volt system in their field.) You can learn about the smoothness of three great transmissions—automatic Powerglide, new Overdrive (extra-cost options) and Synchro-Mesh.

Come in soon. Pick up your entry blank and get the complete details on Chevrolet's big Miracle Mile Contest. It's easy to enter and you'll enjoy yourself. So drop in while there's still plenty of time left to win!

## MIRACLE MILE CONTEST

102 New Chevrolets plus  
\$1,000 U. S. Savings Bonds Given Away

It's easy! It's fun! A demonstration drive can give you clues to help you be a winner! There's no cost—nothing to buy. Come in for entry blank and complete details.

COMPLETE and OFFICIAL figures show that again in 1954—for the 19th straight year—  
**MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR!**

NUMBER 128

## Randall Crowned Queen Of Military Ball Formal

Kay Randall, Delta Delta Delta, was crowned queen of the Military ball in Nichols gym Saturday evening.

Her attendants were Charlotte Douglas, Kappa Kappa Gamma, and Sally Shafer, Chi Omega.

More than 250 couples danced to the music of Norman Lee, Capt. Richard Dineley, sponsor of Scabbard and Blade said.

Miss Randall was crowned with a cadet colonel's cap. The traditional kiss was supplied by C. Q. Williamson, head of Arnold Air Society.

The Queen and Williamson stepped through an arc of sabers and started the first dance down an aisle formed by Scabbard and Blade and Arnold Air members and their dates. The ceremony took place during intermission.

The attendants, their escorts, Col. Laurence Brown, head of Army ROTC, and Col. Milford Itz, head of Air ROTC, followed.

A number of army, air force, and navy officers attended besides the army and air force ROTC cadets.

The Queen and attendants were chosen from a group of 11 candidates nominated by Scabbard and Blade and Arnold Air. The dance was the only all-college formal of the year.

The cadet coeds from which the queens were chosen reigned over the army and air ROTC regimental review last fall as honorary lieutenant colonels.

## Home Ec Scheduling For Pre-Enrollment To End April 30

Home economics majors above the freshman rank have five more days in which to get their names on the schedule for pre-enrollment for courses for the fall semester of 1955 and for this summer. Dean Doretta Schlaphoff has announced Saturday, April 30, as the final day on which sophomores, juniors, and seniors may get onto the advisors' lists to get class schedules worked out.

"Students can make the appointment by phoning or by dropping into the office of the director of the curriculum they're in," she said, "just so they get their names on the pre-enrollment schedule by Saturday noon."

"The penalty if they don't get on the appointment schedule is that they won't be able to register either this summer or next fall until the last afternoon of the last day of enrollment," she warned. "This year's freshmen will register in September."

Directors of home economics curriculums through whom appointments are to be made this week are: Mrs. Jane Barnes, general home economics; Miss Dorothy Barfoot, art; Miss Alpha Latzke, clothing and textiles; Dr. Lois Schulz, family and child development; Miss Tessie Agan, household economics; Mrs. Beasie Brooks West, restaurant management and dietetics; Mrs. Lucille Rust, teaching; Miss Jennie Williams, home economics-nursing; Miss Helen Hostetter, home economics-journalism.

## 32 Admitted To K-State Vet School

Thirty-two K-State pre-vet students have been accepted for admission next fall by the School of Veterinary Medicine, Dean E. E. Leasure has announced.

Accepted were Franklin A. Ahrens, Thomas L. Arisman, George Betz, John C. Breithaupt, James W. Carlson, David L. Carnahan, Cecil E. Cleland, Lowell D. Cornwell, Roy M. Craig, Clement C. Darrow, Howard H. Erickson, David F. Erwin, John W. Forsberg, John T. Gangel, Samuel L. Graham, Duane L. Mach, David E. McClun, Ernest A. Money, Norman R. Morrow, Bradley P. Neer, Billy P. Patton, Gary N. Pottorff, Jimmie Rusher, Robert W. Russum, Jerry J. Schafer, James H. Smart, Ray E. Steinbach, Andrew J. Stewart, Samuel E. Straham, Samuel M. Tyson, Donald E. Wittum, and Bernard Zecha.

## Fair Again...

Topeka, April 25 (U.P.)—Serious soil erosion in southwestern Kansas was left in the wake of the week end's high winds, the U.S. weather bureau reported today.

Kansas is expected to be generally fair and warmer this afternoon and tonight with increasing cloudiness Tuesday.

## Student Health

One girl and two boys are patients at Student Health today. They are Gretchen Conrad, Roger Rankin, and Earl Johnston.

## Beta Theta Pi Wins Lambda Chariot Race

Beta Theta Pi fraternity ran away with top prizes at the chariot relays in Memorial stadium Saturday afternoon. Running on the winning team were Hank Pierce, Bob Elgaard, Bob Westrup, Bob McDowell, Gerald Culley, and Buddy Frey.

Full of Alpha Chi Omega sorority was the rider in the Beta chariot which circled the quarter-mile course in 53.4 seconds. The winning fraternity was presented with a 21-inch television set and other gifts, while prizes also were awarded to its runners. Value of all the prizes was estimated at \$600.

The second-place winner was Sigma Alpha Epsilon, with Keith Gilliland, Darwin Hester, Don Taylor, and Gilbert Molzen carrying the chariot in a 55.6-second time. Riding in the chariot was Barbara Elliott of Van Zile hall. Tau Kappa Epsilon placed

## Mexican Show To Be In J15 Tuesday at 4

"The Three Gay Caballeros" (Los Tres Alegres Compadres), a Mexican comedy, will be shown Tuesday and Wednesday at 4 p.m. in J15, according to Prof. Manuel D. Ramirez of the modern language department. It features three of Mexico's top actors and Rebeca Iturbide, rising new actress, in an action packed comedy with shooting, laughter, and song.

Jorge Negrete and Pedro Armendariz appear as the wayward sons of an equally wayward father, Andres Soler; and they, like their father, are assiduous in the art of love, quick to pick a fight, and expert at gambling and serenading.

Running time will be about two hours.

## Centennial Play Is To Feature Life of Quantrill

"Quantrill and Kansas," a play written and directed by Prof. John Robson, speech, is to be presented three times in the coming two weeks as a part of Manhattan's centennial celebration.

The production, a comedy and drama in 10 scenes, will be presented April 28 and April 30 at 2:30 p.m. and May 6 at 8:15 p.m.

The play is sponsored by the K-State Fine Arts Festival committee, and there will be no admission charge. All presentations will be in the Auditorium.

BAIRD MILLER, a Sp. Jr., heads a cast of more than 30 in the role of William Quantrill, the notorious outlaw who led the massacre at Lawrence in 1863 in which 200 white Abolitionists and 50 Negroes were killed and some \$2 million in property destroyed.

Other lead parts will be taken by Mary Lu Compton, Sp. Fr., who plays the outlaw's girl, "Genny"; and Dan Hurley, Sp. Grad., who is cast as "Skages," one of Quantrill's important raid leaders.

BIOGRAPHERS of Quantrill always have portrayed him either as an arch villain, or a hero of the South. Professor Robson, who has done extensive research about the period, doubts that either version presents a true picture.

Gerry Day

New Student Body President

## Gerry Day Elected Student Body Prexy

Gerry Day is the new president of the K-State student body. Day, (Integrity candidate) rolled up a five-to-two count over Phil Robertson (New All College) in last week's election, receiving 1,323 votes to 519 for Robertson, Dick Pickett, retiring student body president said.

Day, a member of Delta Tau Delta, led the Integrity party to control of 17 of the 22 positions. Integrity candidates captured 18 of 18 in Student Council and all three in Board of Student Publications.

Gary Haynes (Integrity-Sig Alpha) was the top vote getter, polling 1,375 for Board of Student Publications. Lee Ruggels (Int-Delt) received 1,130 votes, and Gay Fryer (Int-ADPi) 1,075 to capture the other two Board positions.

Betty Theiss (NAC-Pi Phi) received 685 and Joan Campbell (NAC-Chi O) 818, for the Board. Student Council winners and losers by schools, their party affiliations and living group, and total vote are:

ART AND SCIENCE: Newly elected—Jack Barrett (NAC-Sig Ep) 497, Nancy Blackburn (NAC-Alpha Xi) 392, Jim Graves (NAC-Sig Alpha) 389, Bunny Cowan (Int-Tri Delt) 458, Pat Wilkerson (Int-Delta Sig) 401, Joyce Larson (Int-Kappa Delt) 375, Bill Kennedy (Int-Sigma Chi) 349. Others—Marjorie Lemon (NAC-Tri Delt) 324, Jerry Bray (Int-Beta) 323, Judy Menahan (NAC-ADPi) 335, Marilyn Smith, (NAC-Pi Phi) 284, Bob McDowell (NAC-Beta) 281, Don Janes (Independent-Sig Chi) 257, Dave Winter (Ind-Ind) 256, Nancy Howard (Int-Kappa) 191, Barbara Messer (Int-Ind) 174. Howard and Messer were write-in candidates.

ENGINEERING: Newly elected—Mike Cornett (Int-TKE) 329, Mackie Murphy (Int-Ind) 312, Newton Anderson (Int-Ind) 287, and Keith Swenson (Int-Sigma Chi) 263. Others—Louis Burmeister (Ind-Ind) 157, Dean Nehrig (NAC-Beta Sig) 128, and C. Q. Williamson (NAC-Phi Delt) 126.

AGRICULTURE: Donald Hunt (Int-Farmhouse) 131, Mark Drake (Int-AGR) 125, George Atkeson (NAC-Beta) 121. Others—Dick Baker (Int-Farmhouse) 115, Arnold Appleby (Int-AGR) 62.

(Continued on page 3)

## Crops Contest To Be April 30

The annual student crops judging contest, sponsored by the K-State and Kernel Klub, will be held in the crops laboratory Saturday, Delbert Larson, program chairman has announced.

The contest is to have three divisions, senior, junior, and freshman. Each division winner will be awarded a medal, and cash awards and merchandise will be awarded the individuals placing high in the contest.

Students who have had grain judging are eligible to compete in the senior division and students who have had farm crops laboratory may compete in the junior division. Contestants will identify crop varieties and common weeds in the freshman division, Larson said.

## Alumni Day Is May 28

Alumni class reunions for every fifth year from 1890 to 1950 are slated for the week end of May 28 and 29 at K-State, Alumni Secretary Kenney L. Ford has announced.

Alumni Day, with special gatherings of classes, class portraits, luncheon and dinner, is Saturday, May 28, with Commencement on Sunday, May 29, at 2:30 p.m. in Ahearn Field House.

Alumni Day will begin with registration in Rec center Friday from 9-12. Class luncheons begin at 11:30 and will extend through the noon hour at the cafeteria. Ford said that classes ending in '0 or '5 will eat at separate tables marked with the graduate year, but that graduates from other years were welcome to join the class nearest theirs.

After the luncheon, alumni are to gather by classes on the north steps of the Auditorium for group pictures.

# U.S. Talk Terms Rejected by Reds

Compiled from the Wires of United Press  
By DICK CARR

Bandung, Indonesia—Communist China today rejected the American terms for a conference on the Formosan crisis and there were strong suggestions Peiping might use 11 imprisoned American fliers as a bargaining point.

Peiping radio announced the rejection and said the U.S. state department's answer to Premier Chou En-Lai's bid to sit down and discuss Formosa "put forward a series of unreasonable prerequisites for such negotiations."

It listed these as the participation of Chiang Kai-Shek, the call for an immediate cease-fire in the Formosa Strait, the immediate release of "all American spies" and the acceptance of a United Nations security council invitation to discuss the New Zealand proposal on the Formosan issue.

But at the same time, Prime Minister Mohammed Ali of Pakistan said he thought Red China might release the 11 imprisoned American fliers if Peiping were convinced of the United States' sincerity to negotiate the Formosa crisis.

## Free Viet-Nam Rebels Deliver Ultimatum

Saigon, Indochina—The rebel warlords of Free Viet Nam delivered an ultimatum today to Emperor Bao Dai to fire American-backed Premier Ngo Dinh Diem by next Sunday or lose his throne.

The ultimatum was given by the Binh Xuyen sect, a gang of former river pirates who control Saigon's police and vice and who are aligned with the Hoa Hoa religious sect in a "unified front" directed against Diem.

It was the second ultimatum the warlords have delivered in recent weeks. The first was to the premier himself demanding that he reorganize his government to please the rebels or face open civil war.

Today's ultimatum was addressed to the absentee emperor, still vacationing on the French Riviera.

"His majesty must decide before the end of April whether to dismiss Diem. If he does not it means civil war which at the same time will sweep away the dynasty," it said.

## Senate Republican Leader Questions Aid to India

Washington—Senate Republican leader William F. Knowland questioned today whether U.S. foreign air funds should be allotted to India in view of that country's neutral position in the cold war.

His attitude reflected a viewpoint widely held in Congress among members who are questioning or objecting to the continued inclusion of India in the foreign aid program.

Knowland gave his views to reporters in commenting on the line taken by Indian Prime Minister Jawaharlal Nehru at the Afro-Asian conference at Bandung, Indonesia.

He expressed the belief that the conference had "backfired" on the neutral Nehru and Red Chinese Premier Chou En-Lai because the anti-Communist countries in Asia had made an effective case against "the dangers of Communism."

## Two Groups Plan Reunion of Elbe River Meeting

Washington—Two groups of American veterans scheduled separate celebrations today to commemorate the anniversary of the historic World War II juncture of American and Soviet forces on the Elbe river in Germany 10 years ago.

The two groups differed, however, as to whether Russian plans to celebrate the occasion are sincere.

One group, the "American Veterans of the Elbe river link-up," voted to accept an offer of Russian army officers to attend an "Elbe river reunion" in Moscow next month.

The other group, "the Elbe national veterans committee," sharply criticized Russian plans for a reunion of Americans and Russians who were present when forces of the two wartime allies met at the Elbe.

## Little Man on Campus

by Bibler

## April Fool, Spring Brings Rash of Practical Jokes

By Associated Collegiate Press

Spring (and April Fool) in all its glory was duly noted in the collegiate press of the nation during the recent weeks. In a thousand campus newspapers were a thousand editorials or columns dedicated to the arrival or postponement of the balmy season, while April Fool editions kept ACP editors in a cold sweat trying to distinguish the ridicule from the sublime.

Spring headlines featured college elections, campus queens, proms and the inevitable "ugliest man on the campus," while the April Fool edition came in all conceivable shapes and forms: upside down, inside out and completely loaded with the most bizarre examples of writing this side of the Kremlin publicity bureau.

The Colorado School of Mine's Oredigger came up with the discovery of the world's most perfect Texan—he owns a herd of 100,000 cows that give oil. Long Island University's Seawanhaka announced the Suicide Club would meet for the last time today on the roof.

And the Iowa State Daily tells the story of the student who made a "fake" keg of dynamite, took it into a nearly-filled lec-

ture room, lit the fuse and rushed out the door as part of his April Fool endeavor. A few seconds later there was a tremendous explosion. "I failed," said the student sadly, "nobody was fooled at all. I guess I should have left out the powder."

Spring shenanigans, on the other hand, were in full bloom again this year. At Hillsdale College a pretty miss was named Miss Blood Drop of 1955 for her assistance with the recent over-the-top blood drive.

A new chain letter began to hit the campuses from coast to coast. Aimed at male students who might be tired of their wives, the letter suggests they bundle up their wives, ship them to each name on top of the letters they receive; then when their names come to the top they may receive 8,750 women. "Have faith," says the letter, "and don't break the chain. One man did and got his own wife back."

Young men's fancies also were turned to other odd accomplishments, such as the huge sign someone erected over the Student Union at South Dakota State college, reading "We Buy Hogs Every Day," or the major feat of re-parking about 15 cars on the campus of Dana College at Blair, Neb.

## Prof Numbers About on Par With Students

Putney, Vt. (U.P.)—Tiny Windham college is probably the only college in the country where faculty almost outnumber the students.

Enrollment at the proudly different school has often numbered only 12 or 15—never more than 40—while the faculty includes 10 instructors.

The two-year, co-educational school, housed in three large old houses in Putney Village, specializes in "cross exchanges" of American and foreign students. In its first three years, less than half of Windham's students were from North America.

Its English courses are representative of the difference in its structure and aims. A doctor from Colombia became fluent in English within nine weeks. Another Colombian compressed his courses into three months and now teaches English to students in his native country.

Barbara Messer 1, Nancy Howard 1, James Stamm 1, Donald Reed 1, Kermit Adelgren 1, Dave Winter 1, and George Yapf, in Agriculture.

## Two Salina Seniors Win Science Fair

Two Salina high school seniors were the top entrants in K-States first Science Fair Saturday.

The best boy's entry, and the best entry in the show was a display of snakes, both alive and in formaldehyde, by Tommy Herbert Coblenz, 18, son of Mr. and Mrs. Thomas H. Coblenz of Salina.

Best girl's entry was a display on "Turtles, Tortoises, Terrapins," by Blanche E. Garrigues, 17, daughter of Mr. and Mrs. Roy Garrigues, Salina.

Both Miss Carrigues and Coblenz will receive all-Expense trips to compete in the national Science Fair at Cleveland, Ohio, May 12-14. In addition, Coblenz, as best exhibitor, will have his fees waived for his first semester at K-State.

Division winners include Carl Warren White, Concordia; Glen F. Lojka, Cuba; Donald Wayne Thayer, Manhattan; Arthur Woolley, Salina; and Harold Lee Gier, Manhattan.

## Purple Pepsters To Meet at 5

Purple Pepsters are to meet today at 5 p.m. in J15 to discuss their entry in the Arts and Sciences carnival and plan for 1955 Homecoming.

Roll will be taken according to Gavona Michaels, publicity chairman.

Michigan was the first state to declare a bank holiday during the depression of the 1930's. Gov. William Comstock closed all Michigan banks from Feb. 14 through Feb. 22, 1933.

The Army has an authorized ratio of three physicians per 1,000 soldiers.

## FOR BETTER OR FOR WORSE

The first thought that comes into our minds upon entering college is, of course, marriage. But how many of us go about seeking mates, as I like to call them, in a truly scientific manner? Not many, you may be sure. Most of us simply marry the first person who comes along. This can lead to unpleasant consequences, especially if the person we marry is already married.

Let us today make a scientific survey of the three principle causes of marriage—homogamy, personality need, and propinquity. We will examine these one at a time.

**Homogamy** means the attraction of like for like. In marriage it is rarely opposites which attract; the great majority of people choose mates who resemble themselves in taste, personality, outlook, and, perhaps most important of all, cultural level.

Take, for example, the case of two students of a few years ago named Anselm Glottis and Florence Catapult. Anselm fell madly in love with Florence, but she rejected him because she was majoring in the Don Juanian Poets and he was in the lowly school of forestry. After graduation Anselm got a job as a forest ranger. Still determined to win Florence, he read every single Don Juanian Poet cover to cover while sitting in his lookout tower.

His plan, alas, miscarried. Florence, sent on a world cruise as a graduation present, picked up the betel nut habit in the Indies. Today, a derelict, she keeps body and soul together by working as a sampan off Mozambique. And Anselm, engrossed in the Don Juanian Poets, failed to notice a forest fire which destroyed 29,000,000 acres of second growth blue spruce. Today, a derelict, he teaches Herrick and Lovelace at the Connecticut School of Mines.

The second reason why people marry, personality need, means that you often choose a mate because he or she possesses certain qualities that complete and fulfill your own personality. Take, for instance, the case of Alanson Duck. As a freshman, Alanson made a fine scholastic record, played varsity lacrosse, and was very popular with his fellow students. Yet Alanson was not happy. There was something lacking in his life, something vague and indefinable that was needed to make his personality complete.

Then one day Alanson discovered what it was. As he was walking out of his class in Flemish pottery, a fetching coed named Grace Ek offered him a handsome brown package and said, "Philip Morris?"

"Yes!" he cried, for all at once he knew what he had been needing to round out his personality—the gentle fulfillment of Philip Morris Cigarettes, the soul-repairing mildness of their vintage tobaccos, the balm of their unparalleled taste, the ease and convenience of their bonny brown Snap-Open pack. "Yes, I will take a Philip Morris!" cried Alanson. "And I will also take you to wife if you will have me!"

"La!" she exclaimed, throwing her apron over her face, but after a while she removed it and they were married. Today they live in Prince Rupert, British Columbia, where Alanson is with an otter glazing firm and Grace is a bookie.

**Propinquity**, the third cause of marriage, means closeness. Put a boy and a girl in a confined space for a long period and they will almost surely get married. A perfect example is the case of Fafnir Sigafos. While a freshman at Louisiana State, he was required to crawl through the Big Inch pipeline as part of his fraternity initiation. He entered the pipe at Baton Rouge. As he passed Lafayette, Ind., he was agreeably surprised to be joined by a comely girl named Mary Alice Isinglass, a Purdue freshman, who had to crawl through the Big Inch as part of her sorority initiation. When they emerged from the pipeline at Burlington, Vermont, they were engaged, and, after a good hot bath, they were married. Today they live in Klamath Falls, Ore., where Fafnir is in the weights and measures department and Mary Alice is in the roofing game. They have three children, all named Norman.

©Max Shulman, 1955

For your enjoyment the makers of Philip Morris have prepared a handsome, illustrated booklet called MAX SHULMAN REVISITED, containing a selection of the best of these columns. Get your copy, absolutely free, with the purchase of a couple packs of Philip Morris at your favorite tobacco counter. Hurry! The supply is limited.

## Campus Briefs

Prof. Kinsley W. Given, speech, will be a consultant in marketing for the General Electric company this summer.

This will be the third consecutive year that he has served the chemical and metallurgical division of the company. His base again this summer will be in Ohio.

Walter C. Bowie, a 1947 graduate in veterinary medicine from K-State, has been named as an alternate for a Ralston Purina company research fellowship award for 1955-1956. Bowie is a native of Kansas City.

## Collegiate 4-H Honors Four

Four K-State seniors received special recognition Thursday from the Collegiate 4-H club for outstanding work during their four years of membership.

Those honored were Dick Reinhardt, AH Jr, Virginia Balthrop, HDA Sr, Byron Bird, BA Sr, and Mary Alice Todd, HT Jr.

The awards were presented by Charles Hoyt, assistant state club leader.

## Educational Hazard

Saybrook, Ohio (U.P.)—Having a bus at their disposal doesn't mean that some of the children being brought to school here get to ride all the way. One of the newer small bridges in the country was constructed without proper thought to the load it should carry. The loaded bus would be too heavy for it, so the children have to get out and walk across.

## CAMPUS BEAU BRUMMEL enthuses over Jockey brand underwear

Impeccably groomed Chisley J. Chisley ("Chi-chi" to his friends) says, "I like new-fashion fashion and old-fashion comfort. For instance, this week I give the nod to tartan cummerbunds and ascots of shocking pink—but every week I go for the at-ease feeling of Jockey shorts! Take it from a clothes-horse... never say Neigh to Jockey comfort!"

Whether you share Chisley's taste for sartorial splendor or not, you'll enjoy the casual, at-ease appearance that comes from wearing Jockey shorts. Better drop into your dealer's soon... buy a supply of Jockey shorts and T-shirts... and feel as good as you look!

it's in style to be comfortable... in

## Baseball Team Edges Buffs for First Loop Win

K-State's baseballers won their first game in Big Seven play Saturday afternoon as they defeated the Colorado Buffaloes, 3-2.

The Wildcats lost the first game of the Colorado series, 18-5, Friday afternoon as Wildcat pitchers gave up a total of 13 walks.

In Saturday's game, Wildcat coach Ray Wauthier sent Jim Rhoades to the mound, and Rhoades responded by holding the Buffs to only three hits.

**THE WILDCATS** faced Colorado's ace pitcher, Bob Weber, in Saturday's game. Prior to the game, Weber had won three games without a defeat. He pitched on even terms with Rhoades until the ninth, when the Wildcats broke a 2-2 deadlock to win the game.

The ninth opened with Ralph Ball striking out for the Wildcats, then Bob Whitehead hit a double down the left-field line. Bob Boyd walked on four straight balls.

## Sig Alphas Win, 12-1 In Intramural Softball

Defending softball champion Sigma Alpha Epsilon won easily from Delta Sigma Phi, 12-1, in intramural play Friday. Beta Theta Pi defeated Sigma Phi Epsilon, 12-4, in another slugfest.

In other games, Phi Kappa won from Phi Kappa Tau, 5-1, and Lambda Chi Alpha won from Theta Xi, 4-3.

Today's schedule:

At 4:15—Alpha Tau Omega vs. Beta Sigma Psi, southwest field, city park; Acacia vs. Tau Kappa Epsilon, northwest field, city park; Alpha Kappa Lambda vs. Alpha Gamma Rho, west military drill field; Toppers vs. Wesley Foundation, east military drill field.

At 5:15—Sigma Nu vs. Farm House, southwest field, city park; 1834 Club vs. Pi Kappa Alpha, northwest field, city park; Sigma Chi vs. Delta Tau Delta, west military drill field; Sheiks of Kasbah vs. Jr. AVMA, east military drill field.

## Three Cat Thinclads Place at KU Relays

Three K-State trackmen placed in individual events at the KU Relays Saturday.

Ray Russell took second in the 440-meter hurdles as Gene O'Connor, K-State freshman who competed unattached, won the event with a time of :53.7.

Gene Wilson, K-State basketball player, was fourth in the broad jump with a leap of 23 feet.

Next Saturday, the Wildcats thinclads are to take part in the Colorado university relays at Boulder.

## Cat Golfers Lose; Pfuetze Low at 74

K-State's golf team was defeated by Wichita Friday, 9½-2½, in a dual match at the Manhattan Country club.

Dave Pfuetze tied for medalist honors with Fritz Probst of Wichita by shooting a 74, four over par for the course.

The Wildcats did not win a single match, and only Pfuetze could gain a tie in his match with Angel Leon of Wichita.

Meet results:

Probst (WU), 74, defeated Kent Poore, 75, 3-0.

Harold Stover (WU), 81, defeated Hayes Walker, 82, 2-1.

Joe Korst (WU), defeated Jim Weatherford, 82, 3-0.

Pfuetze (KS), 74, tied Leon, 75, 1½-1½.

## A's Rebound To Win, 5-0, After Losing, 29-6

Kansas City, Mo. (U.P.)—The Kansas City A's discovered two things Sunday—the fans here really like them, and they may have a top-notch pitcher on the team, after all.

In spite of Saturday's humiliating 29-6 loss to the Chicago White Sox, which tied the run-scoring major league record, the A's came back yesterday to beat the league leaders, 5-0.

**THEY DID IT** behind the five-hit pitching of Alex Kellner, who became the first Kansas City hurler to go the route. They also did it with 19,446 fans cheering every movement, even before the game started.

Tomorrow night the A's meet the second-place Boston Red Sox here. Athletics' officials look for another big crowd, and manager Lou Boudreau looks for Arnie Portocarrero to prove that he, too, can add much-needed strength to the Athletics' pitching.

**IN OTHER** major-league action, Sam Jones pitched a two-hitter yesterday to give the Chicago Cubs a 2-1 victory over Cincinnati; rookie Herb Score failed for the second-straight time as Cleveland bowed to Detroit, 6-4, for their third loss in four games.

The New York Giants won a spectacular 10-inning struggle with the Brooklyn Dodgers, 11-

10; Pittsburgh beat the Philadelphia Phillies, 6-1.

Willard Nixon's two-hitter gave the Boston Red Sox a 1-0 win over the Yankees; the Baltimore Orioles beat Washington, 2-1, in the opener, but the Nats won the nightcap, 5-2.

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Tuesday, April 26, 1955

NUMBER 129

## Fall Collegian Wins First Class Award

The 1954 fall Collegian received a First-Class rating by the Associated Collegiate Press at Minnesota university, C. J. Medlin, graduate manager of student publications, announced today.

Lee Ruggels, TJ Jr, edited the newspaper last fall, and Gary Swanson, TJ Sr, was business manager.

The Collegian was one of 10 newspapers in the daily-all-enrollment classification to receive the First-Class rating. A total of 1,550 points is required for this rating. Points are based on coverage, content, and physical properties.

In his analysis of the K-State daily, G. D. Hiebert, ACP judge, complimented the Collegian on an alert news sense and cited the homecoming issue "as particularly well planned and carried out."

Hiebert suggested more use of editorials and photographs.

"YOUR WORLD news column is good but there is a need for a wider variety of column material," he said. "Perhaps a 'Campus behind the News' or human interest column would add the needed variety."

He complimented the Collegian on its inside page make-up. "You rate excellent in this department but this does not mean that greater effort might not be expended to try and brighten those ad-tight pages. However that is a problem all newspapers have," Hiebert commented.

## Three To Attend National 4-H Camp In Washington, D.C.

Three K-Staters have been named as delegates to the National 4-H club camp in Washington, D. C. June 15 to 22. The delegates are Marguerite Jahnke, EEd Fr, Leda Faye Vernon, HE Fr, and Ben Handlin, AEd Fr.

Marguerite Jahnke, Junction City, has completed 10 years of membership in the Geary county Clarks Creek 4-H club. She has been state food preparation and bread demonstration state award winner.

Leda Faye Vernon, Admire, completed both home economics and livestock projects as a member of the Lyon county 20th Century 4-H club. Judging, demonstrations, sheep showmanship, and promotional talks have won honors for Leda as a 4-H'er.

Ben Handlin, Ellsworth, is a member of the Wide-A-Wake 4-H club in Ellsworth county. In addition to completing championship livestock projects, Ben has excelled in soil conservation work during his 10 years of club membership.

## Student Health

One girl and five boys are patients today at Student Health. They are Robbie Guy, Bill Cox, Lawrence Bolch, Richard Corbin, Donald Anderson, and Earl Johnston.

## 28 Boy Scout Leaders Here For Workshop

Twenty-eight Kansas and Nebraska Boy Scout leaders have enrolled in the television workshop being sponsored by K-State.

The leaders were welcomed by President McCain yesterday. They held four sessions yesterday on television as a media of instruction and promotion of Boy Scouts. They are scheduled to hold three more sessions today.

Glen Rice, assistant director of public relations service of the Boy Scouts of America, was the featured speaker at a dinner last night. His theme was "Television and Its Uses in Promoting Boy Scout Activities." Max Milbourn, director of public service, was toastmaster.

The workshop will adjourn at 3 p. m. today.

## Petitions Available For A&S Council; Election on May 4

Students from the School of Arts and Sciences may pick up petitions for Arts and Sciences Council in the dean of students' office, Jim Graves, BA Soph, president of the Council said.

Petitions must be filled out and returned to Dean R. W. Babcock's office by 5 p. m. Friday. Each petition must have 25 signatures. Students applying for the office must have at least a 1. grade average.

Voting for the Council will be May 4. Thirteen members will be elected to the Council.

## McCain To Speak At Faculty Confab Thursday in J15

President McCain will moderate a panel discussion on the proposal for tuition-fee exchanges of faculty children among college and universities Thursday at 7:30 p. m. in J15.

The program, sponsored by the American Association of University Professors, will be open to all faculty members.

"Tuition exchange for faculty children between private institutions has been made possible," Dr. Beulah D. Westerman, president of the K-State chapter of A.A.U.P., said.

President McCain recently attended a meeting of the Ford foundation in New York where the topic was discussed.

He and the panel wish to talk over methods of applying this exchange procedure to state institutions as a means of increasing faculty salaries, Dr. Westerman said.

Faculty panel members will be Dr. Stuart Whitcomb, physics department head, Gertrude Lienkaemper, associate professor of clothing and textiles, and William Honstead, associate professor of chemical engineering.

## About 1,500 FFA Boys Expected Here For Judging, Farm Mechanics Contests

About 1,500 FFA boys are expected to attend the 32nd annual state high school vocational agriculture judging and farm mechanics contest coming up May 2 and 3 at K-State. Members of the staff of the School of Agriculture and the department of vocational education and agricultural engineering are busy planning and preparing for the event.

The Kansas Association of Future Farmers of America will hold its 27th annual program in connection with the contest.

MUCH WORK goes on behind the scenes in making the two events possible, points out Rufus Cox, chairman of the College committee arranging the event. Plans were formulated early in January and have been developing ever since.

G. B. Marion will be in charge of the judging contests, while F. C. Fenton will serve as co-ordinator of the farm mechanics contests.

A. P. Davidson, H. R. Bradley, L. F. Hall, and Loren Whippis of the vocational education office are responsible for receiving, checking, and listing all entries in judging and farm me-

chanics contests. They also take care of all applications sent in for the Star Farmer degree, and all entries in the state better chapter and speech contests, as well as plan the state FFA meetings.

KENNEY L. FORD, alumni secretary; Thornton Edwards, housing; and T. M. Evans, physical education department, will see that Future Farmers attending the two events have a place to sleep. Quarters will be provided in the men's gymnasium and in the hospital annex, while motels, private homes, and hotels will provide housing for those who cannot be accommodated on the campus.

Another group of busy men are those who have charge of the annual banquet given by members of the Manhattan Chamber of Commerce. Directing banquet plans are C. M. Skaggs, president; Lud Fiser, secretary; W. O. Rehschuh, chairman of the Chamber's agricultural committee; and D. L. Mackintosh of K-State. Assisting will be members of the K-State Block and Bridle and Agricultural Education clubs.

## Council Hears Traffic Report

A solution to the traffic regulation problem at K-State was proposed last night to the Student Council. The traffic regulation committee, headed by Bob Tointon, recommended a new penalty system, designed by a Tribunal member and a traffic control board member.

The new system is this:

The first two tickets received by a student would carry no penalty. These two tickets would allow a margin for error; that is, they would cover unintentional violations of the traffic regulations.

THE THIRD TICKET would automatically restrict the student and car from further campus driving. The student would be notified immediately of the third ticket and would be given 24 hours to report to the dean of students. Failure to report would result in temporary expulsion from school.

Any student receiving a fourth ticket would be automatically expelled from school. However, he could appeal this fourth ticket to the Tribunal. The fourth ticket would be the only one that could be appealed.

THIS RECOMMENDATION, which will be voted on at the next Student Council meeting, was a result of an investigation of the present traffic regulation problems. The committee found that there were 6,240 recorded violations on the campus from the start of the fall semester to March 29 of this year. Approximately one of two violations is actually recorded, making the number of violations even higher, Tointon said.

The committee felt that this large number of violations indicates a lack of respect among the student body for the present traffic control system. This disrespect is proved by the fact that many students fail to appear before the Tribunal when they are summoned, Tointon said. Several students who have been restricted from driving on the campus continue to use the campus streets and parking lots, he said.

ACCORDING TO the recommendation, the Student Council would have authority to make all regulations governing the three student parking lots and all student violations. This plan, if passed by the Student Council, would have to be approved by President McCain and the traffic control board.

Gerry Day was sworn in as the new student body president last night.

The next meeting of the Council will be a retreat Monday at the Top of the World.

## Kathy Burns Prexy Of HEc Council

Kathleen Burns, DIM Jr, has been elected president of the Home Economics Council. She defeated Eugenia Jern, HE Soph.

Gavona Michaels, HEN Soph, is the new vice-president of the Council. Joan Skupa, HE Soph, was the other candidate.

Jeanette Fry, DIM Jr, is secretary-treasurer. Lois Stowell, HT Jr, was the other candidate.

## Dusty ...

Topeka, April 26.—(U.P.)—The sun will shine over most of Kansas today, said U.S. Weatherman Richard A. Garrett, but it will be through a thick dust haze.

Yesterday's strong southerly winds resulted in a great deal of blowing dust, with the conditions likely to repeat today and tomorrow, he explained.

The reduced visibility caused by the blowing dust will be felt in all of eastern Kansas and as far south as Texas.

## Music Practice Today

The A Cappella Choir, Chorus, and Orchestra will rehearse the Centennial pageant music in the Auditorium at 4 p. m. today. Luther Leavengood, conductor, has announced.

## Deadline Tomorrow For Union Program Group Applications

Wednesday is the deadline for applying for the Union program committee. Applications should be turned in to Loren Kottner, Union director in A204.

"Those who wish to apply should write a letter to the Union governing board expressing their interest and the position they want and would accept," Doreen Cronkite, board member, said.

The positions for which applications will be accepted are chairman, assistant chairman, and secretary of the committee and chairmanships of seven of the program council's committees: dance, games, movies, photography and crafts, house and hospitality, special events, and library, art, and music.

## YWCA Breakfast Set for Sunday In Thompson Hall

A spring breakfast for members of YWCA will be Sunday, May 1. Ellen Flottman, chairman of the breakfast, announced today. It will be served in the second-floor dining room of Thompson hall at 8 a. m.

Tickets may be purchased from the house contact girls or at a table in Anderson hall.

Chairmen for the breakfast are Carol Shidler, food; Joan Guyer, decorations; Royanne McMullen, program; and Jane Pankratz, tickets.

"I thought I'd be considerate and tell her that her hose were wrinkled—but she wasn't wearing hose."

## Indiana Ed Wants Exams More Often

from the Indiana Daily Student

A letter to the editor in Tuesday's Daily Student objected to professors who give few examinations during the semester. The writer complained about a rather typical situation in which the instructor gives a mid-term examination and possibly one other test before the final exam.

The writer admitted how it was "easy—and comfortable—to drift through the term with a few exams."

"But then," the letter went on "It's that 'all or nothing' feeling that come at final examination time when I know that my whole grade is determined by my final and maybe one other exam."

We agree with this student's paradox-like feeling about TOO FEW EXAMINATIONS. Letting a semester's grade depend on one or two tests is letting a grade depend too much on uncontrollable, extraneous variables. Poor health, emotional upset, or any one of many variables on a particular day can determine a student's grade more than the studying he has done during the term.

Also, the "cram artist" shines on these "tests" of what he has "learned" in the course. Furthermore, many instructors and students agree that by our mistakes we learn. Thus the examination becomes another facet of the learning process.

We strongly recommend that Faculty Council at its meeting next Tuesday give due consideration to this problem. Perhaps the group or the Dean of Faculties could send a bulletin to the department chairman calling this situation to their attention for action.

Though this plea for more examinations seems to be a strange request to make as the beautiful Spring weather just begins to arrive, we are merely looking ahead to the hot weather during final exam week.

## Calendar

- Delta Tau Delta open house, 1 p.m.

## Dorm Has Ghost; Spooky Sparks

(ACP)—Boarders at Quinlan Hall on the campus of Spring Hill College didn't mind the ghostly footsteps in empty corridors, nor the eerie murmurings and clanking chains that disrupted the wee hours of the mornings. They were willing to overlook the hollow laughs that came out of nowhere, too.

But they were finally aroused by multi-colored sparks erupting from a wash basin in one of the rooms. Investigation proved no electrical connections anywhere near the sink, nor were any cigarettes dropped in the basin.

All attempts to locate the source of the spookery, reports The Springhillian, have been without success.

## Today's World News

# Russians Approve Vienna Conference

Compiled from the Wires of United Press

By DICK CARR

Moscow—The Soviet Union agreed today to an ambassadors' conference in Vienna proposed by the Western allies to draft a treaty freeing occupied Austria.

The Russians also accepted the Western proposal that the Vienna conference of ambassadors begin on May 2.

The Soviet government made its position known in identical notes to the United States, Britain and France. The notes pointed out, however, that the Soviets did not believe the conference was the "shortest way to reach the necessary agreement on the Austrian problem."

The Western proposal was made in notes from the Big Three on April 22.

## U.S. Embassy Freezes Vienna Personnel

Vienna—The U.S. Embassy has frozen key personnel in their Vienna posts pending outcome of Austrian treaty moves and the U.S. Army may order a similar move, it was disclosed today.

An American embassy spokesman said that home leave and other travel plans have been suspended for essential personnel, ranging from career diplomats to stenographic workers. U.S. Marines on guard duty at the embassy also were frozen.

"It is not a blanket cancellation, but it will affect a good many people," the spokesman said.

He said the order would remain in effect for an indefinite period, at least for the duration of the Big Four talks on an Austrian state treaty expected to open here May 2.

## Nationalists Reassured of U.S. Island Policy

Taipei, Formosa—Premier O. K. Yui reassured Nationalist legislators today that the United States was not demanding the evacuation of Quemoy and Matsu islands.

Nationalist quarters had expressed fear Adm. Arthur Radford, chairman of the joint-chiefs of staff, had flown here from Washington to demand their evacuation in return for a cease fire.

Vice Adm. Alfred M. Pride today announced formation of a "Formosa liaison center" which will coordinate U.S. and Nationalist military activities in the Formosa strait.

The center will be under Pride's command. This, in effect, will give him a guiding hand in all military action in the strait in the future.

## Communists Tighten Berlin Blockade

Berlin—The Communists are tightening their grip on West Berlin in a series of moves like those which led to their blockade of 1948-1949.

West German and allied officials are watching developments closely. But they doubt, as things are now, that the Reds will try again to isolate the western part of the city completely.

The new Communist crackdown was launched at midnight March 31.

At that time the Reds imposed what was called a "pocketbook blockade" of the American, British and French sectors of the city.

The "blockade" took the form of exorbitant tolls on the trucks which roll over the 110-mile superhighway linking Berlin to Western Germany.

In their crackdown the Communists increased truck tolls about 1,100 per cent. A truck which had paid a tax of \$5 to move over the highway was assessed \$55.

A wave of alarm swept through the Western part of the city, because nearly half of the city's supplies are brought by road from West Germany.

SCHUEUS

THE FAMILY HOUSE

## Cycle Craze Hits Nations Campuses

(ACP)—A new cycling vogue is sweeping the American campus, according to reports from various college presses. University of Southern California's Daily Trojan revealed the two-seater, or tandem, is the current rage on their campus.

At Bowling Green, Ohio, the new queen of the fifth annual Delta Upsilon Bike Race will be chosen by Eddie Fisher. The marathon race will last 11 hours.

## TKE's Outscore Acacia, 23-1, in Softball Slugfest

Tau Kappa Epsilon ran up the highest score of the season in intramural softball yesterday as

they defeated Acacia, 23-1. John Dorst, Bob Doyle, and pitcher Bob Bowlby hit fourmasters for Tau Kappa Epsilon.

A pair of one-hit shutouts also marked yesterday's play.

BETA SIGMA PSI with Dick Froberg on the mound defeated Alpha Tau Omega, 9-0. Alpha Gamma Rho with Fred Wingert pitching shut out Alpha Kappa Lambda, 8-0.

In two other one-sided games, Jr. AVMA defeated Sheiks of Kasbah, 16-3, and Farm House defeated Sigma Nu, 11-4.

In other games, 1834 Club defeated Pi Kappa Alpha, 9-8; Sigma Chi defeated Delta Tau Delta, 9-4; and Toppers won from Wesley Foundation, 6-1.

### TODAY'S SCHEDULE:

At 4:15—House of Breck vs. Hui-O-Makules, southwest field, city park; Jones Boys vs. House of Williams, northwest field, city park; Phi Delta Theta vs. Phi Kappa, west military drill field; Theta Xi vs. Sigma Alpha Epsilon, east military drill field.

At 5:15—Dho Alphs vs. Hillbillys, southwest field, city park; DSF vs. OK House, northwest field, city park; Beta Theta Pi vs. Phi Kappa Tau, west military drill field; Delta Sigma Phi vs. Beta Sigma Psi, east military drill field.

## Waltheim Wins In Girls' IM Softball

Waltheim hall overran Van Zile hal, 22-0, in a girls' intramural softball game yesterday. Barbara Puhr pitched for the winning team.

Kappa Kappa Gamma defeated Delta Delta Delta, 15-3, in the other game played yesterday.

Pi Beta Phi plays Chi Omega-Alpha Delta Pi, and Northwest plays Clovia in games today.

## Dodger Manager Fined; First Time in Career

Brooklyn (U.P.)—Walt Alston's argument with umpire Babe Pinelli in last Friday night's game with the New York Giants cost the Brooklyn manager a \$50 fine. It was Alston's first fine in his managerial career.

## Baseball Team To Play Frosh This Afternoon

With cancellation of a scheduled baseball game against Hutchinson Naval Air station today, the K-State varsity will play the K-State freshmen this afternoon in Griffith stadium.

Cancellation of the Naval Air game was made necessary by a Naval Air policy which eliminated the post baseball team.

WARREN POLAK is scheduled to be starting varsity pitcher, coach Ray Wauthier said. Don Spohn has been selected to start for the freshmen.

Thursday afternoon, another game between the varsity and freshmen is scheduled for Griffith stadium.

IOWA STATE is to be the Wildcats' next Big Seven opponent in two games here May 2 and 3. The Cyclones lost to Missouri, defending league champion, Saturday by a score of 7-0.

Going into the Iowa State series, the Wildcats will have a mark of 3-4 in scheduled competition, and a Big Seven mark of 1-3. The Cats' lone victory in league play was by a 3-2 margin over Colorado Saturday in their latest start.

## Cat Basketballers In First Scrimmage

The second week of spring basketball practice opened yesterday with the first scrimmage of the spring session.

Coaches Tex Winter and Howie Shannon worked with four different units in an effort to select the

top 10 or 12 boys for next year's squad.

More individual attention will be given these men in an effort to strengthen K-State's Big Seven entry next season, Winter said.

The Cats also continued to work out with the new 12-foot free-throw lane rule. "This rule will not make a lot of difference in our offense, although a few variations will have to be added," Winter said.

Winter plans to send the team through extensive scrimmages this week and next, and will wind up the spring drills with the annual varsity-alumni clash May 6.

## Huskers Batter KU As Greenlaw Fans 17

Lawrence (U.P.)—Kansas meets Nebraska in baseball today and the Jayhawks will be trying to avenge the 13-1 thumping the Cornhuskers handed them here yesterday.

Nebraska got 17 hits while Husker pitcher Willie Greenlaw was striking out 17 batters. The win gave Nebraska three victories and no losses in the Big Seven.

Greenlaw also hit a home run with a runner on base.

Kansas has a 4-7 season record.

The ferret, which is still trained to catch rats, gets its name from Gaelic and ancient Celtic. Ferret means cunning or crafty one.

## New Managers Find 'Same Old Teams'

### BY UNITED PRESS

Mike Higgins has the Boston Red Sox four positions better off than they were a year ago today, but most of the other new managers are finding they have the "same old teams."

It adds up to a bitter blow for the "baseball second-guessers union" which contends that last year's pilots was responsible for everything that went wrong.

IT COULD BE causing some red faces among general managers who made the manager the "goat" of a poor 1954 campaign.

Marty Marion of the Chicago White Sox and Mayo Smith of the Philadelphia Phillies are the only other new pilots who have their teams doing about as well as they did in the first two weeks of last season.

MARION HAS the White Sox leading the American league just as they did a year ago under Paul Richards, and Smith's Phillies are in fifth place in the National league just as they were on this date last year under Steve O'Neill.

But those who expected miracles from Charley Dressen of the Washington Senators, Bucky Harris of the Detroit Tigers, Lou Boudreau of the Kansas City Athletics, and Richards' Baltimore Orioles have been rudely surprised. They'd all gladly settle for the starts their teams made last year.

HERE'S HOW the new pilots have fared:

Higgins—With a 7-4 record the Red Sox are tied for second place. A year ago they had a 4-6 record and were tied for seventh place.

Marion—The White Sox' current 6-3 record and first-place standing is equal—or even slightly better—than their 7-4 mark which was good enough for first place in 1954.

Smith—The Phillies have a 6-6 current record compared to 5-6 last season, but they're in the same spot in the standings—fifth.

Dressen—The Senators were tied for second place with a 6-4 record a year ago. Today, they're tied for fourth with a 5-5 mark.

## Delaine Smith Wins Art Design Award

Delaine Smith, HEA Jr, created the design for the certificate of merit that was presented to participants in K-State's first Science Fair, Saturday.

Delaine's design was picked by the Science Fair committee from entries submitted by members of the Advanced Design class, taught by Prof. Dorothy Barfoot.

The design is an ink drawing, and its various parts represent the different phases of science.

## Roland Swim Heads Business Students

Roland Swim, BAA Soph, is the newly-elected president of the Business Students association for 1955-56.

Other officers are Matthew Unger, BAA Soph, vice-president; Warren Hurt, BAA Soph, treasurer; Phyllis Walker, BA Soph, secretary; and James Dotson, BA Jr, publicity director.

## Pat Humble Prexy Of Future Teachers

New officers of the Future Teachers of America are Patsy Humble, president; Merle Nay, vice-president; Janet McNutt, corresponding secretary; Conrad Smith, treasurer; Mary Hannaford, recording secretary; and Joan Ketchum, chairman of committees.

## Andler To Head Political Scientists

Harold Andler, Gov Jr, was elected president of the Political Science club at a meeting last week. Other officers elected are Clifford Gordon, PrL Jr, vice-president, and Josephine Ransdell, Gov Soph, secretary.

A picnic at the Top of the World has been scheduled for Monday, May 2.

## Tromble To Head Home Ec Sorority

Avis Tromble has been elected president of Omicron Nu, honorary home economics sorority. Other officers elected were Patricia Casey Burton, FdN Jr, vice-president; Jan Boster, DIM Jr, secretary; Lois Stowell, HT Jr, treasurer; and Doreen Cronkite, HEJ Sr, editor.

Installation of officers will be Monday, May 9, at Dr. Dorothy Harrison's home.

More than \$30,000,000 will be spent in modernizing Irish railroads, extending the services, introducing diesel engines, reducing the fuel bills one half and adding 340 passenger cars and 3,300 freight cars.

Kansas State College, Manhattan, Kansas, Wednesday, April 27, 1955

NUMBER 130

## NCAA To End Year Probation

K-State is no longer on athletic probation. President McCain received a telegram from the National Collegiate Athletic Association yesterday removing the College from the year-long probationary period effective May 7.

K-State was placed on probation May 7, 1954, for a period

of one year for malpractices in athletics that occurred prior to 1952.

The President said, "It is of course gratifying that the probationary period has been removed. Perhaps it is appropriate at this time to call attention to the fact that the NCAA made it clear at the time the probationary period was imposed that all the cases were several years old and did not effect persons now connected with the athletic program at the College."

At the time the College was placed on probation, the NCAA commended K-State officials for their aggressiveness and positive action in correcting the malpractices which resulted in the suspension.

The probation period did not effect the College's scheduling or eligibility in NCAA events during the past season.

Main criticism at the time the penalty was handed out was that prior to 1952 certain Wildcat club funds had been mishandled.

Also, the College was criticized by the NCAA for a "general looseness and laxness" in the administration of its athletic affairs. Some of the instances cited by the NCAA went as far back as 1947.

### Commencement Fees Are Due This Friday

Graduating seniors are reminded that they must pay commencement fees before Friday, April 29. They should make their payments at the cashier's office in Anderson.

### Greek Pledges Plan for Picnic This Saturday

A picnic, sponsored by the Inter-Pledge Council, is planned this weekend for all fraternity and sorority pledges, junior actives, and their guests.

Time of the affair is 4 p.m. Saturday. Jim Halbert, publicity chairman, has announced. It will be held at the "bottom of the top of the world," north of town.

Food will be furnished by the council, and will come out of profits made at a pledge dance held in February. Tickets for guests may be obtained from Jerry Theis, 340 North Sixteenth.

This year's picnic is the first one held by the council. Halbert said. It is hoped that the picnic will be an annual affair.

Next regular meeting of the council will be held in the form of a picnic in Sunset park May 10. Food will be furnished by the Acacia fraternity. It is for IPC representatives only.

### Red Cross Class Has 45 Enrolled

Forty-five persons are enrolled in the Red Cross water safety instructors school being held in Nichols 108 every evening this week from 7 to 10, according to Katherine Geyer, professor of physical education. The instructor is Gilbert Gribble.

### Sorority Plans Scholarship for Foreign Student

Members of Pi Beta Phi sorority will give a scholarship to pay room and board expenses of a foreign woman student here next year.

Applications are now being received from undergraduate women students who want to study in the United States, but cannot afford to pay their housing expenses. The applications are being handled through the Institute of International Education in New York City.

"Providing free room and board for a foreign student is a pioneering step for K-State, and a sign of really opening our arms to foreign students," said Phil Sorensen, assistant dean of students. "This is a wonderful effort toward improving foreign relationships, and equally wonderful for K-State students to recognize the possibilities in a foreign student exchange program. I hope the idea is successful and will be carried out by other organizations in the future," he said.

The sorority's plan for helping a foreign student were started during LIFT Week. Bill Allaway, director of the YMCA at K. U. told members about a program at K. U. by which 20 Greek and independent houses provide free room and board for a foreign student there.

"Although this idea is new on our campus, I sincerely hope it will become as successful here as it has on other college campuses," Sorensen said.

### Student Health

One girl and seven boys are patients at Student Health today. They are Joan Skonberg, Bill Cox, Lawrence Bolch, Donald Anderson, Earl Johnston, Richard Corbin, Roger Parsons, and Paul Wallace.

## Two Coeds To Reign As Manhattan Royalty

Two K-State coeds have been chosen to head the Manhattan centennial royalty. Sue Hostinsky, ChW Soph, was picked as Centennial queen, and Marlene Young EEd Fr, was named Pageant queen. Announcement of the queens was made last night at a pre-Centennial dinner sponsored by the Soroptimist club.

Miss Hostinsky, who represented Sigma Delta Chi, professional men's journalism fraternity, competed with 11 other candidates in a beauty contest at the dinner. Judges were Mrs. Fred Hall, wife of the Kansas governor; Anthony Ferrara, stage manager of the Starlight Theatre in Kansas City, Mo.; and Brig. Gen. John R. Beishline of Fort Riley.

Miss Young was a candidate of the Kiwanis club. She was chosen by balloting, with each purchaser of a pageant ticket entitled to one vote. She was Homecoming queen last fall, and was drum major of the marching band.

One of the attendants to the Centennial queen is Martha DeGraff, Art Fr, who was sponsored by Alpha Xi Delta sorority. Miss DeGraff was chosen St. Patricia to reign over the Engineering Open House last month.

Maridell Smith, EEd Fr, is one of the attendants to the Pageant queen. Both queens and their attendants will ride in the Centennial parade tomorrow afternoon.

Other K-State coeds who were entered in the Centennial queen contest were Ilene Parshall, HT Jr, sponsored by the Diligent Deltas home demonstration unit; Charlene Kay Brooks, HE Soph, sponsored by the Manhattan Business and Professional Women's club; and Charlene Bell, EEd Jr, sponsored by the Randolph Business Men's club.

Two events are on the pre-Centennial calendar for today, with the three-day celebration to begin tomorrow. At 2 p.m. today a historical marker will be erected on Bluemont hill to commemorate the landing of the steamship Hartford, which brought some of the town's earliest settlers here.

The site of the marker will overlook both the Blue and Kaw rivers, the junction of which marks the landing point of the Hartford on June 1, 1855.

A centennial forum dinner will be held at 6:15 p.m. today at the Wareham hotel, with George Green, Oklahoma City lawyer and son of pioneer Manhattan residents, as guest speaker. The dinner is being sponsored jointly by the county historical society and the city Chamber of Commerce.

### Cooler . . .

Topeka, April 27.—(U.P.)—Another day of blowing dust in the west and thunderstorms in the east was predicted for Kansas today by U.S. weatherman Tom Arnold.

A cold front is moving in across northwest Kansas to cause the dust and thunderstorms, he explained, and temperatures in all parts of the state can be expected to drop between 10 and 20 degrees. The conditions will continue throughout tomorrow, he said.

Traces of rain were reported at Emporia and Chanute last night but not enough to relieve the dryness.

## KS To Host FFA, Vo-Ag State Contest

K-State will play host to nearly 1,200 Kansas vocational agriculture students and their instructors Monday and Tuesday when the 27th annual meeting of the state association of Future Farmers of America and the 32nd annual state vo-ag judging and farm mechanics contests will be held here.

VO-AG teams from 138 towns and 102 farm mechanics teams have registered.

William D. Gunter Jr., 20, of Live Oak, Fla., national president of FFA, will address the FFA House of Delegates meeting Monday evening in the College Auditorium. He also will speak at the Manhattan Chamber of Commerce awards banquet which closes the two-day meetings and contests.

Monday night at the House of Delegates meeting winners of the chapter achievement contest will be announced. Gold emblems will be awarded to the chapters judged best by a committee of FFA state officers and faculty. Silver and bronze emblems will go to chapters next in line.

THE CHAPTER with the highest safety rank will be given the state FFA safety award, \$100 from the FFA Foundation, Inc.

Special music will be furnished by the K-State Singers, an ensemble of members from the College A Cappella choir.

Tuesday the 26th annual state FFA public speaking contest will begin at 8 a. m. The 27 contestants will be divided in three groups in which they will give their eight to ten minute talks. First and second place winners in each group will compete at 2:30 p.m. for the final judging.

### Local Draft Board Announces Special Qualification Test

College men interested in taking the Special College Qualification test at the local draft board in Manhattan may sign up for the test to be held May 19, according to the secretary of the Board.

The test is a make-up test for those who were unable to take the test during October or April.

Persons who wish to take the test should pick up application cards at the local board as soon as possible. The card must be postmarked by May 9 in order for the applicant to take the test.

Photo by J. R. Mclelland

MARLENE YOUNG, EEd Fr, watches as Sue Hostinsky, ChW Soph, receives her bouquet of flowers from Anthony Ferrara, stage manager of the Starlight theater in Kansas City, Mo. Mr. Ferrara was one of the judges who picked Miss Young as Manhattan's Pageant queen and Miss Hostinsky as Centennial queen at a dinner last night in the Wareham hotel.

# Parking Penalty Plan Worthy of Inquisition

A court from which there is no appeal—we thought these went out with the Inquisition. However, this was the proposal of the traffic regulations committee of the Student Council Monday night.

The committee consisted of Bob Tointon, chairman, Martha Helmers, Jan Austin, Barbara Hart, Shirley Sarvis, Mark Drake, and Gerry Day. Its purpose was to "investigate and recommend changes for improvement in a penalty system, traffic regulations, and traffic enforcement."

After sifting through the lengthy report, we find the facts plain. The committee has proposed a no-appeal system for campus parking violations and automatic expulsion from College upon receipt of the fourth ticket.

The committee report submitted by Tointon says that under the present system "a premium is placed on dishonesty." It continues, "If a student appealing a ticket chooses to misrepresent the truth, he can always get the violation excused." We question this and ask corroboration from students who have appeared before the Tribunal. Tointon also feels that "if the student is honest, he usually will not even appeal the ticket." We should hate to see all students who appear before the Tribunal indiscriminately labeled "dishonest."

The committee admits that "sometimes there is a question as to whether a ticket was given justly." However, by eliminating all appeal, they have suggested aggravating this situation by placing the blame on the student, rather than on the traffic officer in case of a mistake.

"There is no means of enforcing the regulation requiring the student who is on the restricted list to take his car home," the committee says. They suggest alleviating this by sending the student home instead.

The committee also believes that enforcement officers have the attitude, "Why should we issue tickets when all the Tribunal does is excuse the violations when they are appealed?" Where before the Tribunal has acted as judge and jury, the enforcing officer will act as lawman, prosecutor, judge, and jury.

The actual recommendation of the committee concerning the penalty system was that the first two tickets be disregarded as "courtesy tickets." The third ticket would "automatically restrict the student and car from further campus driving." There would be no appeal permitted for these three tickets no matter what the circumstances.

Upon receipt of a fourth ticket, under the proposed penalty system, the student is automatically expelled from school. The student is allowed to appeal only the fourth ticket to the Tribunal immediately prior to expulsion, if he has supporting evidence that may cause the Tribunal to excuse the fourth ticket. The Tribunal in no case has authority to restore a student's parking privilege.

The discrepancies in the above paragraph should be obvious to even a casual observer. If a fourth ticket means automatic (and we suppose immediate) expulsion from school, how could a student appeal prior to his expulsion? If a third ticket automatically restricts the student from driving on campus, and if the campus cops issue tickets only on the campus, there could be no possible excuse for having gotten a ticket whether the student was parking illegally or not. Dean Craig half humorously suggested that he hoped that sickness and death would be sufficient excuse for violation. (He did not make it clear who must die to constitute "sufficient

excuse.") The term "supporting evidence" is not clear—must one have eye-witnesses, fingerprints, or merely a sworn affidavit?

The committee says that a chance to appeal the fourth ticket is sufficient for the "honest" student. However, if any fourth ticket is obvious violation of the restrictions resulting from the third ticket, how can there be any appeal? We contend that there is no legitimate appeal, and automatic expulsion is the only result.

We wonder whether the Council has ever considered what expulsion from College would mean to those students who are eyeing careers or who are being eyed by the draft board? Attorney General Fatzer has ruled that to impose a monetary fine for campus traffic violations is illegal. Therefore, the Council seeks to impose an almost incalculable penalty in terms of time and money lost and deprivation of a semester's college credits. This delays the graduation of some students and could deprive many of the opportunity of graduation altogether. Also, in words that could never be erased, the student's transcript would show the world that he had been "expelled for disciplinary reasons."

This is the penalty the Student Council seeks to impose upon a violator of parking regulations. We hold that this is harsh beyond reason.

Any action that may be taken on this proposal would be effected by the "lame duck Council," if action is rushed through the next Council meeting. It was only on the suggestion of Dean Craig that the Council did not vote on the proposal Monday night. We have no doubt that the proposal would have passed verbatim if Council members vote the way they talk.

The Council finally admitted that an expression of student opinion might be valuable before any action was taken. We hope that students will form an opinion and express it to the Council. We also remind the students that if a vote is taken next week, it is the members of the old Council, and not the newly-elected members who will vote. One political party stated that referendum to the students should be used on important questions. We think that is important enough to warrant referendum before approval.

We can only hope that the Council (during its "retreat" to the Top of the World next Monday) will see fit to reconsider the committee recommendations most carefully.

**Downtown a parking violation costs a quarter—here is can cost a college education.**

## Today's World News

# Statehood Pending For Hawaii, Alaska

Compiled from the Wires of United Press  
By DICK CARR

Washington—The House rules committee has given a green light for House action on a bill granting statehood to Hawaii and Alaska. But House leaders have not said when they propose to call up the controversial measure.

The rules group sent the bill to the floor yesterday under a procedure banning all amendments. Seven hours was allotted for general debate.

The Eisenhower administration favors immediate statehood for Hawaii but opposes admission of Alaska at this time. Hawaii is generally considered a Republican territory. Alaska normally votes Democratic.

Last session the house passed a separate Hawaii measure but the Alaska bill died in a House rules committee pigeon hole. The Senate passed a combined bill.

## Philippines Propose Large 8-Nation Army

Baguio, P.I.—The Philippines proposed today the formation of an eight-nation army to police Southeast Asia against Communist aggression.

The proposal, made during a meeting of Southeast Asia Treaty organization military planners, called for an army "bigger than the force which the United States had in the Southwest Pacific in World War II."

Reliable conference sources said the Philippines' surprise proposal was made during the Monday meeting. Details were kept secret under the strict security wraps of the 86 military experts who are attempting to force a master defense plan against Red aggression.

## Winds Force Big Atom Show Postponement

Atomic Test Site, Nev.—The atomic energy commission called off today's scheduled atomic blast 45 minutes before shot time because of adverse winds.

This created a king-size transportation and hotel reservation headache, since some 4000 observers, civil defense workers and newsmen already were on the site awaiting the blast.

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendar kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

## Hillbillys Win, 11-0, Stay Undeclared

The Hillbillys, defending softball champions in the intramural independent division, won their second-straight shutout and remained undefeated yesterday as they trounced the Rho Alphas, 11-0.

Two other teams remained undefeated. Hui-O-Makules of the independent division won their third-straight as they defeated House of Breck, 7-4. Beta Sigma Psi defeated Delta Sigma Phi, 10-3, for their third-straight win in the fraternity division.

Two games were postponed because of Angel Flight practice on the military drill field. These games were to pit Sigma Alpha Epsilon against Theta Xi, and Phi Delta Theta against Phi Kappa.

In other games yesterday, OK

House defeated DSF, 8-6; Beta Theta Pi defeated Phi Kappa Tau, 11-3; and the Jones Boys and House of Williams played to a 4-4 tie.

Today's schedule:

At 4:15—Lambda Chi Alpha vs. Alpha Tau Omega, southwest field, city park; Farm House vs. Pi Kappa Alpha, northwest field, city park; Sigma Chi vs. Kappa Sigma, west military drill field; Sigma Phi Nothing vs. Jr. AVMA, east military drill field.

At 5:15—Tau Kappa Epsilon vs. Sigma Nu, southwest field, city park; Acacia vs. 1834 Club, northwest field, city park; Delta Tau Delta vs. Alpha Gamma Rho, west military drill field; Toppers vs. Sheiks of Kasbah, east military drill field.

## NU Posts 4-0 Mark With Win Over KU

Lawrence (U.P.)—The University of Nebraska yesterday posted its fourth Big Seven baseball victory without a loss, defeating the University of Kansas, 11-0.

Nebraska pitcher Fran Hofmaie held the Jayhawks to 3 hits while his mates collected 15 and took advantage of six Kansas errors.

The biggest Nebraska show came in the sixth inning when the Cornhuskers pushed 5 runs across the plate.

## OU on NCAA Probation; KS Removed from List

Chicago (U.P.)—The University of Oklahoma, one of the nation's football giants, was on two years probation today as the National Collegiate Athletic association handed out some of the stiffest infraction penalties on record.

At the same time, two institutions—Kansas State and North Carolina State—were restored to good standing. They had been placed on probation May 7, 1954.

Oklahoma was accused of offering prospective student-athletes "cost free education" after their eligibility had expired, of paying medical expenses for wives and children of athletes, and of paying other fringe benefits.

Cincinnati university was suspended from the NCAA for one year, which included a ban on participation in national championships.

## Varsity Baseballers Trounce Frosh, 12-2

The varsity baseball team defeated the freshmen, 12-2, in a wind-blown seven-inning game at Griffith stadium yesterday as most of the members of both squads saw action.

Second baseman Steve Hennessey's grand-slam homer over the deep right-field wall in the fourth inning highlighted a 7-run outburst by the varsity that broke open a close 2-0 contest.

Freshman hurler Dale Jackson

was the victim of the outburst, even though he gave up only two hits in the inning. Errors played a big part in his downfall.

The varsity had scored a pair of runs off of Don Spohn in the first to take their 2-0 lead. Bob Whitehead's triple was the big blow of that inning.

The varsity added their final three runs in the sixth; the frosh pushed across single runs in the fifth and the seventh.

The varsity outit the frosh, 10 to 7.

Spohn gave up 6 hits for 2 runs in the three innings he worked for the freshman; Jackson gave up 2 hits and 7 runs in two innings; and Jim Murray allowed 2 hits and 3 runs in the last inning.

## Pi Beta Phi Wins In Girls' Softball

Pi Beta Phi sorority edged out Chi Omega-Alpha Delta Pi, 15-12, in girls' intramural softball yesterday. Kay Aye and Sandra Tatge pitched for the winners.

Alpha Xi Delta plays Kappa Delta, and Southeast hall will play Van Zile hall in games this afternoon.

# Spinach a Favorite At College Cafeteria

By MARY FICKEL

College boys like spinach, red gelatin salads, and lots of fruits and vegetables, according to instructors in the Kansas State cafeteria. Instructors say they have observed that the 300 faculty members and students, most of whom are boys who eat there have "general good, all around food habits."

"When the students first come in the fall, they have a tendency to choose meat, potatoes, and bread, says Mrs. Marjorie Hemphill, instructor in quantity food preparation. "But as the year progresses, they readily accept a variety of fruits and vegetables to establish a more balanced diet," she adds.

Persons who eat at the cafeteria show preference for simple, more common foods and often become suspicious of new foods. Such foods as plain rolls, cherry pie, meat loaf, stew, and chocolate cake are most popular because they are more "like the foods at home."

MRS. HEMPHILL pointed out that customers may like a food quite well one year and not at all the next. She said one "has to feel her way" in planning menus for a group which includes faculty, students, and even some townspeople. Their likes and dislikes occur in stages.

Mrs. Merna Zeigler, of the institutional management department, who is in charge of beverages, says milk is chosen more often than tea and coffee, although iced tea has remained popular all year round. Approximately 20 gallons of milk is sold in glasses each day.

Mood, background, color, and price are definitely factors in food selection cafeteria instructors say. What a student is used to eating at home or the section of country he comes from influences his food habits greatly.

Price is always an important object in food selection. A large plain roll is chosen more often than a muffin and a piece of cake, more often than two cookies because the customer feels he is getting more for his money.

CUSTOMERS ARE probably

attracted more than they realize by the color of certain foods, cafeteria helpers believe. Why a person chooses a red gelatin salad rather than a green gelatin is certainly a point to be considered in planning menus for a large group of people.

Mrs. Hemphill says that customers are often swayed in choices of food by their names. Most prefer that the food be identified by its ingredients rather than as leftover delite or some other name given it. Weather, class schedules, seasons, and the day of the week are other factors to be considered in planning foods, Mrs. Hemphill noted.

The cafeteria director explained that specials are offered to students as a financial aid as well as a help to nutrition needs and aid them in forming a menu pattern. When students first eat at a cafeteria, she explains, they don't know how to select a balanced meal because it is so easy to choose a high protein and carbohydrate meal. The special includes a meat dish, choice of one vegetable or one salad, one roll or bread, butter, dessert, and tea or coffee.

Mrs. Hemphill said the cafeteria staff always welcomes suggestions in planning and preparing the food.

## Yearbook Adviser Writes Mag Article

C. J. Medlin, graduate manager of the College student publications is author of the lead article in the May issue of The Bulletin of The Columbia Scholastic Press Advisers association.

It is entitled, "How to Work with Your Staff to Produce the Best Yearbook."

Medlin is author of "School Yearbook Editing and Management," the standard text in the field, and is recognized as one of the nation's leading authorities on school yearbooks. Books prepared under his direction have rated "All American" for 19 consecutive years.

Pretzels were once used as a reward when monks gave them to children who mastered their prayers.

WILL YOU  
REMEMBER  
YOUR  
MOTHER?

By Bob Smith

It has been said that the word "Mother" is the greatest in the English language—or any language, for that matter. It symbolizes the love that all of us feel for the great lady who cared for and pampered us through all the days and nights when we were growing up.

When we attained womanhood and manhood Mother never got over that love for us. We're still "her little boy or little girl" and we'll always be tied—sentimentally at least—to her maternal apron strings.

Very soon now Mother's Day is coming. I call this to your attention—although I probably don't need to—because of all the people who deserve a memento of your love, she stands out above them all.

Will you remember Mother on Mother's Day? Of course you will. And if you want to get her something especially nice, you'll come here and let us help you select an enduring gift for her. Hundreds of gifts are here. Gifts in gold. Gifts in silver. Watches. Jewelry. Any one will make her genuinely happy—and you can easily afford the gift you'd love to give for our prices are most reasonable. Come in today. Robert C. Smith Jewelry, 329 Poyntz Ave.

**QUANTRILL PLAYS** a little rough, says Dan Hurley, Sp Gr, as Baird Miller, Sp Jr, applies the strangle hold. Mary Lou Compton, Sp Fr, says it's only a play though and is to be presented at 2:30 p.m. today and Saturday in the College Auditorium.

## Parade Will Start 100-year Festival

A parade at two p.m. today and a pageant at eight p.m. this evening marks the opening of Manhattan's three-day centennial celebration. Indian exhibitions, a style show, a shaving contest, and other events will be featured during the affair.

The celebration will climax weeks of preparation and a gradual build-up to the final fling of centennial festivities by the Manhattan residents, businessmen, the College, its faculty, and students.

A TWO HOUR parade which is divided into six sections including religion, education, agriculture, military, business, and transportation will begin Manhattan's 100 year festivities. The parade will be led by a color guard unit and the K-State marching band. William Sykes, the oldest living male graduate of K-State, will be in the parade.

A WIBW-TV bus will be in the parade and will televise the parade as it progresses westward along Poyntz avenue to eleventh street, North to Moro, west to Manhattan, and south to the City park where it will disperse.

The first showing of Manhattan's historical pageant will get under way at 8 p.m. this evening in Ahearn Field House. The pageant will be shown Friday and Saturday nights also, and the Centennial and pageant queens will be presented at each showing. Miss Suzanne Hostinsky, ChW Soph sponsored by Sigma Delta Chi, professional journalism fraternity, has been chosen as Centennial queen and Miss Marlene Young, EEd Fr, sponsored by the Manhattan Kiwanis club, will reign as Pageant queen.

The pageant was written by Prof. Earl Davis, head of the English department, and directed

(Continued on page 8)

## Radio Stations Will Present 3-D Broadcast

Radio stations, KSDB-FM and KSAC, will feature a stereophonic sound broadcast on the K-State Engineer show tomorrow at 5:15 p.m.

Stereophonic sound will be explained by Don Moss, assistant professor of electrical engineering. During a portion of the broadcast two tapes which were recorded simultaneously will be played, one over KSAC and one over KSDB-FM. Persons, with two radio sets, will be able to get a three-dimensional sound effect by tuning their sets to the two stations.

"his broadcast is the third in a series of three on 'The Science of Sound.' Other broadcasts reviewed sounds and their uses and electronic reproductions of sound.

This is the first attempt K-State has made at using stereophonic sound in radio broadcasting," Dwight Nesmith, assistant professor at the Engineering Experiment station, said.

## Student Health

Eleven students are patients at Student Health today. They are Joan Skonberg, Bill Cox, John Jackstis, Lawrence Bolch, Ollie Bowman, Donald Anderson, Herbert Morton, Richard Corbin, Roger Parsons, Paul Wallace, and James Myers.

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Thursday, April 28, 1955

NUMBER 131

## Eisenhower To Attend Dedication of Building

### Fine Arts Features 'Quantrill'

The Fine Arts festival opens this afternoon, featuring a centennial theme in drama and exhibitions.

John Robson's play, "Quantrill and Kansas" (The Story of an Outlaw), will be presented at 2:30 in the Auditorium. There is no admission charge, and the play will be presented again Saturday afternoon at 2:30.

"The Manhattan Story," a seven-scene pageant written by Earle Davis, head of the English department, begins in Ahearn Field House at 8 tonight, Friday and Saturday.

EARL HOOVER, of the speech department, directs the pageant. Manhattan townspeople and some K-State students are participating in it.

An exhibition of art in Kansas from the Indian to the present time opens at 1 p.m. in the architecture department galleries on the second floor of Seaton Hall, the engineering building. A painting done by a plains Indian on a buffalo skin is featured in the exhibit.

Included in the list of painters whose work is exhibited are Birger Sandzen and John Steuart Curry. A watercolor by Dr. Milton S. Eisenhower is shown.

John F. Helm Jr., of the department of architecture and allied arts, will discuss the paintings in the exhibition at 1:30 in the second floor architecture galleries this afternoon, and again Saturday.

ANOTHER EXHIBITION traces the development of Kansas Architecture. Ronald Whiteley, of the department of architecture and allied arts, will discuss this exhibit tomorrow afternoon in the third floor architecture galleries.

A lecture on Alfred Jacob Miller, famous artist-explorer, will be given tomorrow afternoon by John F. Helm Jr. It begins at 2:30 in Engineering lecture hall.

The exhibitions will be open until 8 this evening. Other events are planned for May 5, 6, 7, and 8, the second week-end of the festival.

## Cooler...

A frost warning is out for the extreme northeastern part of Kansas tonight. Fair weather is predicted for this afternoon and early tonight. It will be cooler in the east and extreme south-central areas with scattered light frost in the extreme northeast tonight. The low tonight will be in the thirties except in the southeast where the low will be near 40 degrees.

Manhattan had .55 inch of rain last night, according to the physics department.

### Gardner Censured

Jack Gardner, former Wildcat basketball coach, has been censured by the National Collegiate Athletic Association for "unsportsmanlike and unethical conduct" for recruiting procedures. See story on page 6.

## Architecture To Celebrate 50th Year

The 50th anniversary of the founding of the curriculum in architecture will be observed at a special dinner tomorrow night, to be attended by many of the department's more than 600 graduates from all over the United States.

Paul Weigel, who has been head of the department for 34 years, also will be paid special honor at the dinner. Weigel is retiring from administrative duties July 1 under a Board of Regents' ruling, though he will continue to serve on the staff until he reach the age of 70.

AMONG THOSE who will appear on the program will be Henry Russell Hitchcock, distinguished architectural historian and consultant for the Museum of Modern Art, New York City; and L. Burr Smith, a 1926 graduate who now heads the department of architecture at the University of Nebraska. Ernest Cooke, Webster Groves, Mo., a 1932 graduate, will be toastmaster.

Special guests will include Mrs. Frank Boyd Sr., Mankato, who once worked with J. D. Walters, founder of the architecture curriculum; and representatives of the College administration.

WALTERS OBTAINED permission of the Board of Regents to organize a regular four-year course in architecture in 1903, and the curriculum was established in 1904. Cecil F. Baker replaced Walters as department head in 1917, and Weigel became the department's third head in 1921.

Weigel received his degree in architecture from Cornell in 1912, and worked in various offices in New York state, and as a designer on Panama Canal construction work. He was a lieutenant in the field artillery during World War I, and upon his return, conducted a private practice in New York City before accepting an appointment at K-State in 1921.

WEIGEL HAS served as president of the Kansas chapter of the American Institute of Architects, and president of the National Association of Collegiate Schools of Architecture.

In 1947, he became the first architect in Kansas to be named a fellow in the American Institute of Architects. This is the highest honor bestowed by the AIA, and was in recognition of Weigel's outstanding work in architectural education.

## To Speak At Assembly On May 10

Milton S. Eisenhower, the only graduate of K-State to return later to be president, will be paid additional honor by his alma mater May 10, when the new classroom building is officially named "Eisenhower Hall."

According to President McCain, Eisenhower, brother of President Eisenhower, will be on the campus that day for the dedication, and to address the annual Honors Day assembly.

AMONG GUESTS who will be present for the occasion is Gov. Fred Hall, who will bring greeting to the Honors assembly from the state of Kansas.

A graduate in industrial journalism in 1924, Eisenhower spent 19 years in government service before becoming president of K-State in 1943. He left K-State in 1950 to become president of the Pennsylvania State university, which this year is celebrating its centennial as a land-grant institution.

In the past decade Eisenhower has been called upon with increasing frequency, by three different presidents of the United States, for special missions. One of the most important of these was in 1953, when he visited Latin America countries as special ambassador and personal representative of the President.

APPROPRIATIONS for the new classroom building, which is to be named in Eisenhower's honor, were secured during his administration, though construction was not completed until January, 1952.

## Blue Key Selects 13

Blue Key, men's senior honorary, selected 13 men last night for membership.

They are George W. Atkeson, Leon H. Armantrout, Richard J. Baker, Gerry Day, Mark K. Drake, Robert D. Ecklund, Martin Eby, Donald W. Hunt, Donald R. Janes, William C. Kennedy, Richard R. Robertson, Lee Ruggels and Raymond Russell.

An initiation banquet will be held at 6:30 p.m. Tuesday, May 3, in the Gillett hotel. After the initiation banquet, new officers will be selected.

Membership in Blue Key is based on leadership ability, moral character and a grade average above the all-men's grade average.

Each year Blue Key sponsors the homecoming ball, the selection of the queens, and awards a \$200 scholarship to a junior male student.

# Parking Plan Blasted By Letters to Editor

To the Editor:

Elections are over and promises to do what the students want seem to have been forgotten with the elections.

The Student Council now has a proposal before it which states that students may not appeal parking tickets, since the students' appeals "are not the truth but merely excuses." According to this proposal three such tickets would automatically restrict the student from driving on the campus, and a fourth ticket would mean expulsion from school. (The fourth ticket could be appealed, but since the student was obviously driving on campus, or he wouldn't have gotten the ticket, no excuse, short of sickness or death, would be valid.)

The council could well pass this proposal, unless the students object to it.

It seems to me that the majority of students on this campus are honest, and I don't feel it is the council's duty to judge appeals for traffic violations dishonest. That's why KSC has a tribunal.

Most of us have been brought up to believe that whenever we are accused of a crime, justly or unjustly, we have the right to a trial by jury. I can see no reason why this freedom would be denied us by a Student Council.

Even in the cruel outside world, a misdemeanor, such as a parking violation, is not serious enough to cause restriction of freedoms.

I think the students should object to this proposal strongly so that the student council won't pass it.

Joan Albers, TJ Fr.

To the editor:

With less than a week having transpired since the spring election, the smashing reforms promised by the men of Integrity are already beginning to lose the shiny halo so recently placed over them. The recent proposal of the traffic regulations committee to expell all students guilty of four parking violations without the right of appeal is a stab in the back to the hundreds of K-State tsudents who in good faith cast their ballots for the Integrity party.

The editorial in the Collegian yesterday very adequately exposed the fallacies of the new proposal on parking penalties. It is not necessary to review the faults of the proposal. However, one thing is necessary. That is to clear up just which political party is trying to put this through.

Notice please, that the committee that wrote the proposal

was headed by one of the chief organizers of the Integrity party and the person who was elected to the position of senior class president by the Integrity party last fall. Included on this committee is none other than the newly-elected student body president, plus two of the Integrity party's Student Council candidates. There were no New All-College party candidates on the committee.

Incorporated within the New All-College party platform was a proposal to refer important issue to the students for a direct referendum. I am heartily in favor of doing this with the proposal on parking penalties. However, I am only a newly-elected member of the Student Council, and the council is now in "lame-duck" session. We have no vote until Monday, May 9. I sincerely hope the men of Integrity will relax their efforts to push this present proposal through and allow the new council to work out a better approach to the parking problem at K-State.

Jim Graves, BA Soph.

## Engineer's Income Can Reach Mark Of Half a Million

N. J. (U.P.)—A bright young engineer, with an early start, has a good chance of earning nearly half a million dollars in his lifetime.

If he launches his career in his early 20's and retires in his early 60's he can pocket—before tax deductions, of course—a minimum of about \$325,000. With a little luck, he may pass the \$1,000,000 mark.

A survey, conducted by the Stevens Institute of Technology here, was based on questionnaires sent to 5,300 Stevens alumni. Questions were asked concerning salary, type of position, nature of outside interests and number of years out of college.

It was found that the average Stevens graduate earned more than \$5,000 a year within three years of graduation. Ten to 12 years later, nearly half were able to double their incomes.

By the time many Steven's graduates were ready to retire, they were commanding salaries ranging from \$15,000 to \$20,000 while holding down policy-making jobs in industry. A few reached the \$150,000 bracket.

There are more than 60,000,000 licensed automobile drivers in the United States.

## Drury Gives Blood For Crash Victims

(ACP)—An emergency plea for blood donors following the crash of an American Airliner near here recently resulted in 90 Drury College, Springfield, Mo., students answering the call within a few hours.

According to the Drury Mirror, 12 were killed in the crash and 23 injured. A special shipment of blood, to be flown in from St. Louis, was grounded because of bad weather. Red Cross officials asked Drury students for assistance in the emergency, and 90 volunteers from the campus rushed to the blood center. Fifty of them gave blood that day, the balance being asked to return the following day in case the emergency still existed, the Mirror reported.

# Rebels Fire Saigon, Hundreds Are Killed

Compiled from the Wires of United Press

By DICK CARR

Saigon, Indochina—Rebellious warlord troops opened fire on government forces in Saigon today, touching off bloody fighting that raged for hours until loyal reinforcements roared into the city in tank-led convoys and regained control.

Early this evening at least 120 dead and 300 wounded were counted in suburban Cholon alone, and government quarters said the overall death count may reach several hundred. Hundreds more were wounded, some of them burned to death in the fires that raged uncontrollably through the grass shacks housing refugees from Communist-controlled North Viet Nam.

The fighting flared when troops of the Binh Xuyen gang of ex-riper pirates ambushed a government convoy moving through the crowded streets. It flashed across the city and soon a quarter of Saigon was in flames while the streets echoed to the sounds of artillery and machine guns.

The Binh Xuyen, sworn to overthrow the government of American-backed Premier Ngo Dinh Diem, shelled the premier's palace residence but failed to hit the main building. Black smoke, apparently from rebel gasoline pumps, billowed across the city.

## 'Survival City' Atom Test Postponed Again

Atomic Test Site, Nev.—The jinxed attempt to subject "Survival City, U.S.A." to an atomic attack was postponed today for the third consecutive day, posing a distinct possibility that the explosion could not take place until Sunday, perhaps even Monday.

The atomic energy commission announced only 15 minutes before the scheduled early morning blast time that weather conditions were unacceptable and the shot was being set ahead tentatively 24 hours until Friday morning.

But earlier today the test organized had reported that if the shot was not fired this morning, weather fronts moving on Nevada from the Pacific ocean probably would preclude completing the experiment until at least Sunday.

It was also possible that the front might not move far enough past the Nevada test site, 75 miles northwest of Las Vegas, to permit a Sunday morning firing.

## Nine Americans Killed in Far East B-29 Crash

Tokyo—A U.S. Ar Force B-29 bomber crashed in flames killing nine airmen near Naha, Oknawa, while on a routine flight today, Far East Air Force headquarters reported.

An air force spokesman said only the briefest details were available here.

He said reports reaching Tokyo said that the American bomber crashed in an open field in the vicinity of Naha.

The plane, which was on a routine mission, was based on Okinawa but the air force spokesman said he did not know which of the island's two air bases—Naha or Kadena—it belonged to.

## Fear Slowup of Salk Vaccine Program

New York—A scientist and a scientific administrator close to the development of the Salk anti-polio vaccine said today that what they had most feared might happen, had happened—and it endangered the whole big-scale program to conquer paralytic polio in a comparatively short time.

They referred to 11 children coming down with polio after they had been vaccinated with vaccine prepared by one of the six pharmaceutical houses licensed by the federal government to make it.

"Properly prepared and properly used, the vaccine is completely safe and completely effective," Dr. Jonas E. Salk said.

**FORMAL GARDENS**, located east of Dickens hall, will be used to accentuate the landscaping of the new home economics building.

## Gardens To Complement New Home Ec Building

By BEVERLY LEE

Present plans for K-State's formal gardens include extending them around the south side of the proposed home economics building, according to Prof. L. R. Quinlan, of the horticulture department. The home ec building will be located east of the gardens.

The gardens are now in five separate sections, but when the first planting was done in 1921, one long garden was designed. Professor Quinlan redesigned the garden in 1928 and planted cross hedges to separate it into five gardens.

**THE POOL** was built in the fall of 1927 and the rose arches were put in at the same time the cross hedges were planted. The gardens now consist of a water garden in the center, a bulb garden to the south, a rose garden to the north, and a perennial garden at each end.

There are flowers blooming in the gardens from March through January, beginning with the crocuses and the scillas. The Christmas rose has bloomed in three inches of snow in January, Quinlan said.

There are 16 to 10 species of perennial native Kansas flowers in the gardens, and the hedges are native red cedar.

**"THIS IS** a way of showing Kansans how they can use the native flowers in their gardens," Quinlan said. "We recommend the use of more native flowers."

Some necessary planting is done each year, but there are no annuals planted. The perennials bloom each year without replanting them.

The physical plant has charge of the maintenance of the gardens. During the summer one man can take care of them, but in the spring and the fall additional workers are needed.

**THERE HAVE** been many visitors at the gardens, especially during the growing season. Garden clubs tour it frequently and used to even hold their meetings there. "Before the Chapel was built, weddings were held in the gardens," Quinlan said. The couple stood under one of the rose arches and music was usually provided by a violin. He said he didn't know of any weddings there since the Chapel has been built.

## Delts To Be Hosts For Conference

More than 80 students from 23 colleges and universities will be on the campus attending the Western division conference of Delta Tau Delta fraternity this week end.

President McCain will deliver the opening address Friday at 10 p. m. in Engineering Lecture hall, Phil Diehl, Ag Sr., said today.

The conference is a semi-annual affair held at various schools throughout the Western division of the fraternity which includes all Delt chapters west of the Mississippi. This is the first time it has been held at K-State, Diehl said.

## Chemistry Awarded Two \$1500 Grants

Two \$1500 fellowships have been awarded to the chemistry department, Dr. Ralph E. Silker, head of the department, announced.

Stanolind Foundation Inc. will give a graduate student \$1500 plus tuition for 1955-56. They will also pay the department for chemicals and expendable supplies used by the students.

K-State is also receiving one of two research fellowships set up by Dowell Inc. of Tulsa. A graduate student will be awarded \$1500 for 1956.

## Dairy Club Elects Hoyt President

Rodger Hoyt, DH Jr., was elected president of the Dairy Club, Tuesday evening.

Other officers elected are Millcent Schultz, HDA Jr., vice-president; David Brammell, DH Jr., secretary; Ray England, Ag Fr., treasurer; John Melton, parliamentarian; Ancel Armstrong, DH soph, program chairman; Jack Van Horn, Ag Fr., agriculture council representative; George Atkeson, DH Jr., secretary of Little American Royal; and Robert Bozworth, AgC Soph, vice-chairman of Little American Royal.

## Dairy Judging Prizes Shown In West Ag

Prizes for the Intracollegiate Dairy Cattle judging contest are on display in the dairy display case in West Waters hall.

A silver platter will be awarded the high individual in the junior division and a silver pitcher goes to the winner of the senior division.

**THE CONTEST** which is sponsored by the Dairy Club will be in the livestock pavilion at 1 p.m. Saturday.

The senior division is open to any student who has taken or is taking a dairy judging course. The junior division is open to those students who haven't taken any of these courses, Bill Bergman, president of Dairy club, said.

The senior division judges will place eight classes of dairy cattle and give three sets of oral reasons. The Junior division participants will place six classes of cattle and give one set of oral reasons.

**A COMMITTEE** of judges will make the official placings. One man is responsible for the placing of the classes of each breed. The judges are Professors F. W. Atkeson, G. B. Marion, Erie E. Bartley, F. C. Fountaine, and Earl L. Farmer, of the dairy husbandry department.

Prizes will be awarded to the top four individuals in each breed of each division. Other prizes include model cows, electric dehorners, cash, pen and pencil sets, and subscriptions to magazines.

## New Street Lights For Campus Drive

Five new street lights were put in operation early this week on the Vattier street drive near the Danforth chapel, R. F. Gingrich, maintenance superintendent announced.

Work had been under way for about two weeks. Gingrich said that they are secondhand poles purchased from the town of Stockton.

Plans call for more new lights this summer to be placed around the Veterinary Hospital and Anderson hall.

Even freight trailers are now "personalized." Trailmobile component parts can be assembled into thousands of different designs to meet the needs and personal desires of truck owners.

## Exams Reveal One in Six Needs Speech Treatment

By WILMA DENHOLM

One out of every six students, examined upon enrolling, are found to have speech difficulties, according to Dr. John W. Keltner, head of the speech department.

Every incoming freshman and transfer student is given the speech examination.

Since speech correction work is still in its infancy at K-State, and since severe cases require a lot of patience and long continued treatment, only students most in need of help get into the remedial program.

**MRS. JOYCE RYAN**, one of the speech therapists, has 17 students—the worst of the cases—who come several times a week for help.

Among the 17, 10 have articulation problems, three stutter, two have voice problems, and two have hearing problems. The ones with hearing problems come in once a month for help.

Some of the students have multiple handicaps, she reports—both a voice and an articulation problem. Among "articulation problems" are substitution of "w" for "f" for "th" in such words as the "r" in words like "round" and "three." Some don't pronounce the vowels correctly. Cure may

take a month or it may take years. Stutterers are slowest to yield to treatment, Mrs. Ryan says.

**MRS. GLADYS REED**, another speech therapist in the department, has four students with severe articulation problems.

Next year the speech department will add a new assistant professor in speech therapy, according to Dr. Keltner. The clinic will also be expanded and its services and facilities broadened so as to help more students.

"We are requiring 15 hours training for those students who want to become speech therapists," Dr. Keltner said.

"We hope soon to prepare public school speech therapists with a BS and a MS degree. People in speech correction work find it very rewarding and stimulating work," commented Dr. Keltner.

**"SINCE ORAL** communication is one of our most important skills, the speech therapist plays a very important role in any education program.

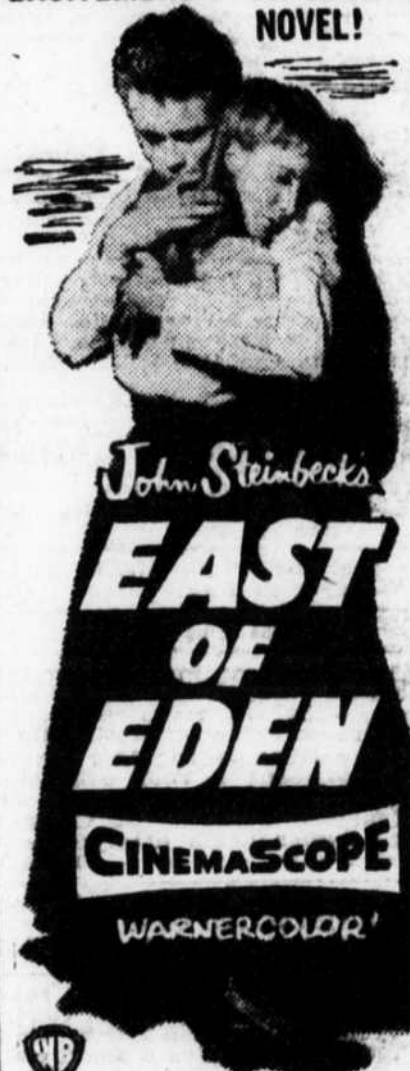

"It is his job to assist those who have special difficulties that cannot be handled in the usual classroom," Dr. Keltner said.

# Art Major Displays Work at Show, Says Children Understand Modern Art

By VIRVE ALTAU

"Please touch," read the sign in front of a sculpture made by Joan Hahn, Art Gr. The sculpture, a piece of modern art, was recently displayed at a Clay Center city school annual art show.

Visiting parents did not believe their eyes but they seemed to enjoy feeling the texture of the stone with their fingertips as much as the kids did.

**THE SCULPTURE** got dirty, but Joan, the art teacher, did not mind. She had scored a new triumph in her little crusade for bringing art closer to the people. "I knew they wanted to get the feeling of it," she said.

An art major, Joan is minor-ing in psychology, and she hopes to get her master's degree this spring. Socially, she is Mrs. Richard Hahn, and her husband is a graduate student in chemistry. The two were married in spring 1953 in Joan's hometown Osage City. They both received their undergraduate training at Bethany.

Dick helped his young wife with setting up the art show and taking it down. "Kids call him 'our assistant art teacher,'" Joan says, smiling. She teaches grade school kids from third grade on, and junior high.

**"CONTEMPORARY ART,"** Joan explains, "is not hard to understand if you keep the elements of good design in mind. A work of art is good when its composition, lines, and color are pleasing to the eye. If these standards are met, the art work may look like nothing you've ever seen before."

The young art teacher is convinced that the kids she is teaching understand modern art—"Why, they've grown up with it, and practice it every day in school."

**SHE BELIEVES** water color is the best medium for children, but added that they need other kinds of work for variety. At the art show, wire sculpture, hand puppets, block printing, stitch-ery, silk screen, and paper mache work were exhibited besides water color paintings and murals.

"Never ask a kid 'What is this?' if he shows you his drawing," Joan advises. "The question would embarrass and probably hurt him because it implies you don't understand him. 'Would you tell me about your picture?' is the better approach," Joan explains.

"Very few children ever have

trouble getting started in drawing. As a rule, they are enthusiastic about creative art, and fun to work with. It is the job of the art teacher to keep them in a creative mood, Joan said.

She says many children get self-conscious in fifth and sixth grades when they become aware of "the right kind of art" as pointed out by their parents. Parents often influence their work by telling them what and how they should paint. As a result, kids may lose their ability to create, and may start copying.

**"THIS I WANT** to prevent," says Joan firmly. "Children must never copy anything. They should paint things they are familiar with in the way they see them. Kids should always be able to identify themselves with the work they are doing."

Joan has found parents to be very co-operative once she has explained the score to them. "They seem to appreciate my point of view and many of them have told me that they would love to start all over again and study art the way their kids do—using their own imagination instead of copying and doing patternwork."

## Engineering Grants Offered For KS, KU—Total \$6,000

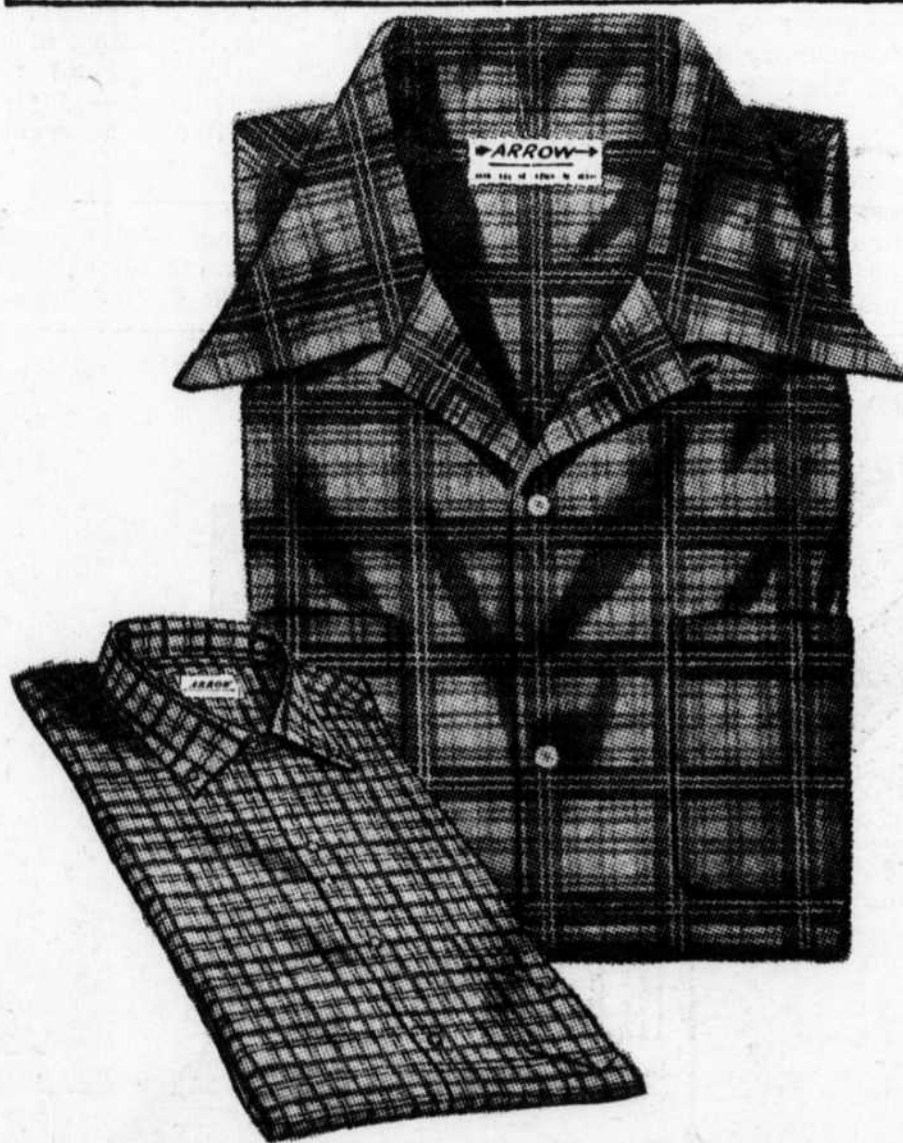

Two four-year scholarships totaling \$6,000 will be made available this fall to high school seniors planning to enter the Schools of Engineering at K-State and the University of Kansas. One scholarship at each school will be worth \$750 per year.

**PREFERENCE** will be given to sons of employees of the Ehrsam Manufacturing company of Enterprise, the scholarship donor, and residents of Dickinson county. Other high school graduates throughout the state, however,

will be eligible to compete for the annual \$750 awards.

**CONDITIONS** for the awards will be the same at both K-State and KU. Selection of the recipient will be made by each school on the basis of independent college tests plus high school records, with consideration being given also to the candidate's character and leadership abilities. Financial need of the applicant will be a major factor in making the selection.

**THE EHRSAM** scholarships can be renewed each year for four years provided the student maintains a B grade average.

Even the **S Q U A R E S**  
are cool these days

You're living back in the cutaway days if you're not keeping calm and cool in our Arrow walking shorts and gingham shirts. We're stocking a wonderful selection in both departments...so, come in out of the sun. It's cooler inside...inside one of these smart Arrow summer combinations. Arrow gingham shirts from \$3.95. Arrow walking shorts, \$3.95 to \$5.95.

## Campus Briefs

**DR. L. D. ELLSWORTH** of the physics department, will attend an American Physical Society meeting in Washington D.C. Thursday and a meeting of the chairmen of Carnegie Committees York City on Friday.

**DR. W. H. HONSTEAD**, head of chemical engineering, will attend tute of Shemical Engineers in a meeting of the American Institute of Chemical Engineers in Houston, May 1, 2, 3, and 4.

**TEN PHYSICS** club members and three faculty members took a field trip to Kansas City Tuesday to visit the KU Medical Center and the Washburn university observatory.

Those attending were Dr. R. D. Dragsdorf, Dr. Basil Curnutte, and D. A. Rittis, physics staff members. Students attending were Richard Anderson, Pys Gr; Robert Circle, Pys So; Ralph Deltenre, Pys Sr; Don Brown, Pys Sr; Dick Stirtz, Pys Jr; Raimo Bakis, Pys Gr; George Gallagher, Pys Gr; Bill McBratney, Pys Fr; and Marvin Root, Pys Gr.

**C. J. MEDLIN**, graduate manager of student publications will be at the University of Michigan Saturday to conduct a session for yearbook editors at a 28th annual meeting of the Michigan Interscholastic Press association. The conference is sponsored by the University of Michigan.

**DORETTA SCHLAPHOFF**, dean of home economics, attended a tea for women of the Atchison County home demonstration units, at Effingham, Monday. She spoke to the high school student body on the benefits of coming to K-State.

**PROFESSORS** A. Bower Sager, George D. Wilcoxon, and William F. Zornow from the history, government and philosophy de-

partment will attend a meeting of the Mississippi Valley Historical Society in St. Louis, Mo., Thursday through Saturday. Ex-president Harry S. Truman's address is to be the highlight at Friday night's session.

**ESTHER M. CORMANY**, associate professor of clothing and textiles, will attend a meeting of the Technical Committee of Textiles and Clothing for the North Central Region in Chicago April 28, 29, and 30.

**R. M. KERCHNER**, James D. Graham, William C. Ford, J. E. Wolfe, and E. L. Sitz, all on the staff of the electrical engineering department, attended a meeting of the American Institute of Electrical Engineers Monday at Kansas City.

# Fraternity Queens Named at Spring Formals

Joanne Ketchum, Kappa Delta, was crowned Tau Kappa Epsilon Sweetheart at the Red Carnation Ball, Friday, April 22. Attendees were Dorothy Barbour and Barbara Hunter, Alpha Chi Omega.

LES PAULS PRESENTS carnations to Joanne Ketchum, sweetheart of Tau Kappa Epsilon.

ga, and Suzie Clieborn, Alpha Delta Pi.

Dr. M. J. Harbaugh was speaker at the dinner in the Wareham Terrace room.

Shirley Davis, Alpha Delta Pi, was crowned sweetheart of Alpha Tau Omega fraternity at the White Tea Rose formal April 23, at the Wareham hotel. Her attendants were Loretha Allen, Francis Reichart, JoAnn McCluggage, Chi Omega, and Carolyn Buchanan. Those in the receiving line were Mrs. L. E. Keefe, Mr. and Mrs. J. E. Bredenberg, Mr. and Mrs. Charles Arthur, Mr. and Mrs. Bruce Karns, and Mr. and Mrs. J. P. Angle.

## Parties

Farm House's spring formal will be April 30 at Pottorf hall. Stan Larson, president, Mrs. E. L. Taylor, housemother, Mr. and Mrs. Pierce Wilson, and Dean

Helen Moore, will be in the receiving line.

Members of Farm House fraternity will entertain guests at their Sweetheart dinner, Sunday, May 1, at the chapter house.

The members of Sigma Phi Epsilon and their dates will be entertained at an Hawaiian party Saturday, April 30, at the fraternity house.

The Phi Kappa Taus entertained their dates with a picnic Sunday afternoon, April 24, at Sunset park.

The Lambda Chi Alphas held a steak fry last Saturday night on top of the world. Chaperones were: Mrs. E. M. May, Mr. and Mrs. Frank Mosier, and Prof. and Mrs. Edwin C. Lindly.

Sigma Alpha Epsilon fraternity entertained rushees with a party at KDR April 23.

A flower garden was the decoration theme of the spring formal at Southeast hall April 22. In the receiving line were Loralle Ballou, Jack Bishop, Mrs. Virginia Moore, Mr. and Mrs. John Gibson, Pat McCarty, and Duane White, Gailynn Krey, sang "An Old Fashion Garden" during in-

termission. Pat McCarty was formal chairman.

Members of Delta Sigma Phi entertained their dates with a house party Friday night, April 22.

## Pinnings

Roberts-Dawson

Cigars at the Sigma Nu house April 17 announced the pinning of Norman Dawson to Nancy Roberts. Norman is a junior in business administration from Elmdale and Nancy is a freshman at Washburn university. She is a member of Kappa Alpha Theta.

Rankin-Schneider

The pinning of Serena Rankin to David Schneider was announced with chocolates at Pi Beta Phi and cigars at Sigma Chi. Serena is a junior in art from Port Arthur, Texas, and David is a senior in speech from Norton.

Ernzen-Pollom

Chocolates at Van Zile Hall April 24 announced the pinning of Dorothy Ernzen and Jim Pollom. Dorothy is a senior in physical education from Atchison. Jim, a senior in physical education, is from Manhattan and a

member of Sigma Alpha Epsilon fraternity.

Castle-Boatman

Rex Boatman passed cigars at the Lambda Chi Alpha house Sunday to announce his pinning to Coralei Castle of Norton. Coralei is in nursing at Hays and Rex is a sophomore in elementary education from Almena.

## Roses

Mordy-Schneider

Roses at Delta Delta Delta sorority April 24, announced the engagement of Charlene Mordy and Phil Schneider. Both are from Manhattan. Charlene graduated from K-State last year and is teaching at Chapman. June 12 is the wedding date.

Bettis-Dunn

Roses at the Pi Beta Phi house, April 20, announced June 4, as the wedding date of Beverly Bettis and 2nd Lieut. William M. Dunn. Beverly is a sophomore in home economics and nursing from Kansas City, Mo., 2nd Lieut. William Dunn is stationed at Fort Sill, Okla.

Lundberg-Cordes

Roses at the Pi Beta Phi house, April 20, announced June 5 as

the wedding date of Ann Lundberg and Don Cordes at the First Presbyterian church in Manhattan. Ann is a junior in elementary education, and Don is a Beta Theta Phi and a senior in business administration and accounting. Both are from Manhattan.

## Engagements

Greenleaf-Wolfe

Cigars at the Sigma Nu house announced the engagement of David Wolfe and Jean Greenleaf. David is a freshman in business administration from Wichita and Jean is a senior at Wichita West.

Todd-Hansen

The engagement of Norma Jean Todd and Robert Hansen was announced April 24 with chocolates at Roger William Fellowship. Norma is a speech education junior and Robert is a psychology junior. Both are from Manhattan.

## Pledgings

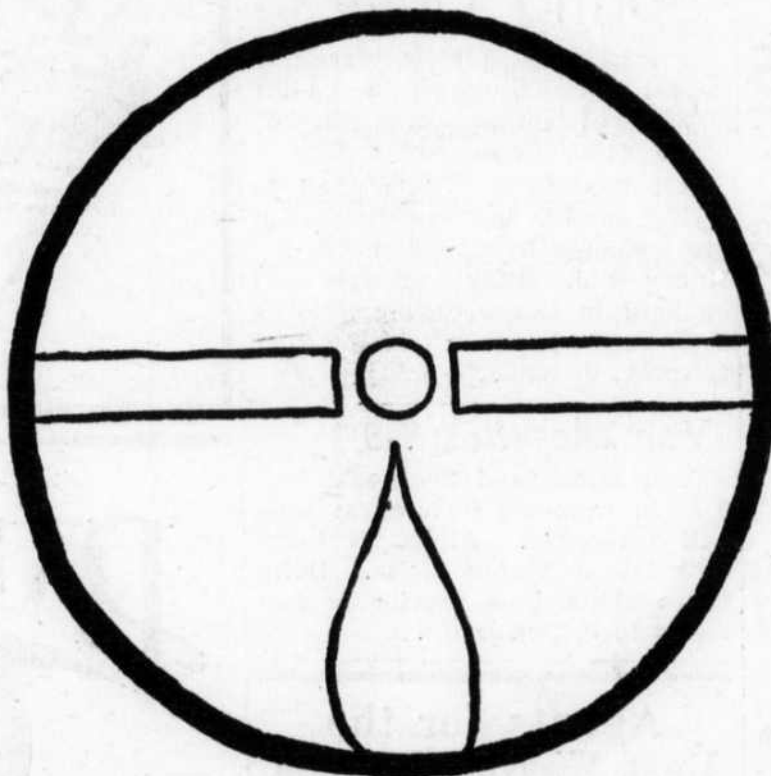

Paul Faidley, was formally pledged by Farm House, April 20.

Dave Rathbone is a new pledge of Theta Xi fraternity.

Bruce Champlin is a new pledge of Sigma Phi Epsilon.

## LUCKY DAY! MORE LUCKY DROODLES!

WHAT'S THIS? For solution see bottom paragraph.

## STUDENTS! EARN \$25!

Lucky Droodles\* are pouring in! Where are yours? We pay \$25 for all we use, and for many we don't use. So, send every original Droodle in your noodle, with its descriptive title, to: Lucky Droodle, P. O. Box 67, New York 46, N. Y.

\*DROODLES, Copyright 1953 by Roger Price

"IT'S TOASTED" to taste better!

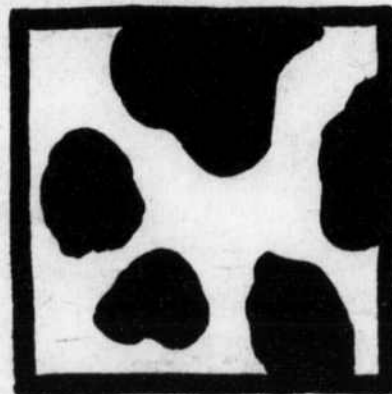

YOU GET MORE deep-down smoking enjoyment from Luckies than any other brand. The reason, plain and simple, is that Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then that tobacco is *toasted* to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. You'll enjoy the Droodle above, too; it's titled: Three on a match—Luckies, of course. Whenever smokers put their heads together, they agree you can't match a Lucky for flavor. Come light-up time, enjoy a better-tasting Lucky yourself!

# Jack Gardner Censured For 'Unethical Conduct'

Jack Gardner, former K-State basketball coach who left here in 1953 to become cage coach at Utah, was censured by the National Collegiate Athletic association yesterday for "unsportsmanlike and unethical conduct" in his recruiting procedures two years ago.

Gardner was censured mainly for his "unethical" tactics that led to the transfer of Gary Bergen and Art Bunte to Utah. Bergen as a K-State student and Bunte was from Colorado university.

Neither K-State nor Utah was considered at fault in the controversy, according to recommendation of the NCAA ethics committee.

WALTER BYERS, executive director of the NCAA's policy-making council, announced the action.

Gardner's censure took place at a regular meeting of the council in Chicago Tuesday. The parties involved were notified before a public announcement was made, Byers said.

The ethics committee at the hearing included Paul D. Hinkle, Butler university director of athletics and new president of the National Association of Basketball Coaches; N. M. McKnight, dean of students at Columbia; and Victor O. Schmidt, commissioner of the Pacific Coast conference.

Months of work and study of 37 articles of "information and evidence" on the Gardner case were included in the committee reports.

The committee reported to the council that it found that during the summer of 1953 Gardner "actively but covertly carried beyond reasonable limits his contact with three Kansas State College varsity basketball players in an obvious effort to persuade them to transfer from Kansas State to the University of Utah."

In addition to Bergen, the other Wildcat players involved were Jerry Jung and Roger Craft, both of whom remained here.

BERGEN AND BUNTE went to Utah and last winter sparked that team to the championship in the Mountain States athletic conference, and to a spot in the NCAA playoffs.

"Mr. Gardner resorted to deception, himself, and encouraged devious and deceptive behavior by advising the student-athletes to collaborate in not revealing their projected transfers to the officials of their institutions until time to matriculate at the University of Utah," the committee said.

In pointing out that Gardner was still a K-State employee at the time of the violation, the committee said:

"... he resigned his position at Kansas State effective September 1, 1953, with accumulative leave until September 30, 1953, to become head basketball coach at the University of Utah. He was placed on the ... Utah payroll effective July 1, 1953.

"Mr. Gardner, therefore, had a legal and moral responsibility to Kansas State college although it

might be noted that he could have relieved himself of the legal responsibility without financial sacrifice since he was on the University of Utah payroll effective July 1 of that year," the committee said.

THE COMMITTEE said "bitterness of an unusual degree" affected the relationship of Gardner and Director of Athletics Larry (Moon) Mullins of K-State.

"This affected both men's actions and views," the report said. "This was reflected in the various newspaper reports. Yet the committee finds it difficult to conclude that Kansas State college authorities engaged in unethical conduct in connection with the press treatment of the case.

"The committee further believes that if the executive administrations of the two institutions had taken prompt and positive action, they could have solved the problem at an early date," it said.

"According to the information submitted to the committee, the president and athletic director at Kansas State college attempted to contact their counterparts at the University of Utah when the press reported the pending transfer of Mr. Bergren," the report went on.

"Apparently nothing concrete developed from these calls, and the result was a cleavage between the athletic and executive administrators of the institutions, instead of the cooperation and teamwork needed to solve the problem."

## Kluszewski Doesn't Worry About Homers

New York. (U.P.)—Ted Kluszewski isn't worried about threatening Babe Ruth's home-run record of 60 in a season, but the muscular first baseman of the Cincinnati Redlegs admits that "the closer I can come the worse it will get."

YOU MIGHT think that the pressure would be telling on Big Klu right now. He led the majors in home runs last season with 49, and has been given the green light to swing away this season.

But mister muscles holds that

it all combines to help instead of hinder.

"I've proved to myself now that I can do it," he explains carefully.

"When you're fighting to reach the top, say in the matter of hitting home runs, you have a tendency to tighten up. When you try too hard you overswing, and the first thing you know you've lost your timing."

Ted's system for battling this pressure is 'just to swing and let the home runs take care of themselves."

THEY FIGURE to "take a long trip" when Kluszewski meets them squarely. Regarded as the most powerful man in baseball, the 6-2 235-pound infielder is a man of whom it is said "even his sweat has muscles."

Yet it wasn't until last season, his eighth in the majors, that those muscles really paid off. He compiled his highest big-league batting average with a .326 mark as he led the majors in home runs, and in runs batted in with 141.

## Wrestlers Plan Spring Drills

Fritz Knorr, Wildcat Wrestling coach, has announced a 10-day session of spring drills for K-State wrestlers beginning May 2.

All K-State men interested in trying out for the wrestling team are welcome to attend the drills, Knorr said. Daily workouts will be held in the wrestling gym at 3:30 each afternoon starting next Monday, he said.

## Van Zile Wins 9-8

Van Zile edged Southeast hall 9-8, in women's intramural softball yesterday. Alpha Xi Delta forfeited to Kappa Delta. Delta Delta Delta had previously forfeited to Kappa Delta.

## Baseballers To Play Frosh Team Today

The freshman baseball team, who lost to the varsity, 12-2, in a practice game Tuesday afternoon, will get another crack at the varsity in a game at Griffith stadium this afternoon.

Coach Ray Wauthier said he would start pitcher Al Schoof for the varsity. He will also use Warren Polak, Jim Rhoades, and Ron Bergren.

Don Spohn is to be starting hurler for the frosh.

The varsity broke open a 2-0 contest Tuesday by scoring seven runs in the fourth inning. Highlight of the inning was a grand-slam home run by Steve Hennessy.

The varsity also scored two runs in the first and three in the sixth. The frosh pushed across single runs in the fifth and seventh.

## Golf, Tennis Teams Into Week-End Play

K-State's golf and tennis teams are both scheduled to see action this week end. The tennis team meets Wichita here Saturday. The golf team is scheduled for a match with Omaha university at Omaha Friday, then goes to Iowa State Saturday.

Kent Poore, Hayes Walker, Jim Weatherford, and Dave Pfuetze will make up the K-State golf team. They will be seeking win No. 1 of the season. To date the team has lost five and tied one.

The tennis team has a 2-3 mark for the season. Their last victory was over Wichita.

Bob Hansen, John Teas, Rich-

ard Circle, John Deam, and Dor Wainscott will furnish the opposition for the Wichita netmen.

# Athletics' 17 Home Runs Top American League

By UNITED PRESS

No one is calling them Boudreau's Bombers yet, but it was worth noticing today that the first five hitters in the Kansas City lineup have smashed 17 homers—as many as any other American League team has made altogether.

There is power in the top of the A's lineup—and not just Vic Power, either. He's the leadoff man with three homers, but look who comes after him. Bill Renna, hitting next, also has three homers, then comes Jim Finigan with four, Gus Zernial with four, and Bill Wilson with three.

**TO TOP IT OFF**, there's a home-grown sore-armed pitching castoff from the Cardinals, Cloyd Boyer, who hurled the A's to their third-straight triumph, 6-2, over Boston yesterday.

Boyer gave up three hits and received fine support from Renna, Zernial, and Wilson, who hit homers. Zernial's came with two men on base.

The only other crew with as many homers is the White Sox, and they made eight of their 17 against Kansas City. Seven were hit in that 29-6 nightmare last Saturday.

The fans have all but forgotten that rout because Kansas City hasn't lost since, and Boyer's triumph was the most encouraging of all.

The tall righthander, who was

born just up the pike in Liberty, Mo., used a sharp curve which indicated his arm trouble is just a memory.

He struck out four and walked six, but bore down whenever in real trouble to top the Red Sox ace, rangy Frank Sullivan.

In a 17-inning thriller, longest in the majors since June 23 of

last season, Cleveland downed Washington, 6-5, on a rally touched off by Joe Altobelli's double.

Jim Hegan's sacrifice, and two intentional passes ordered by Nat manager Charley Dressen, loaded the bases, but Bobby Avila nullified the strategy with a game-winning sacrifice fly.

The last 17-inning game in 1954 found Baltimore edging Boston, 8-7.

CLEVELAND had gone scoreless from the fifth and Washington from the seventh before the last-ditch rally. Al Rosen hit a two-run Cleveland homer. Mickey Vernon hit his first homer of the year for Washington with two men on base.

In other American League games, the White Sox pounded out a 14-hit, 13-4 triumph over the Yankees, and Detroit topped Baltimore, 11-3.

In the National league, Brooklyn topped Cincinnati, 7-2, in a "walkathon" in which the Dodgers drew 13 passes and the Redlegs 6; Milwaukee defeated the Giants, 9-6; and Pittsburgh won from Chicago, 4-1, on Bob Purkey's four-hitter. St. Louis at Philadelphia was postponed because of cold weather.

**BILLY LOES** gave up only one hit before a blistered finger forced his retirement in the eighth. Ed Roebuck gave Cincy only one more hit in relief. Brooklyn clinched it with a three-run rally in the fourth in which Roy Campanella's two-run single was the big hit. Loes won his third game.

Milwaukee made 12 hits including a homer and two singles by Bobby Thomson and homers by Danny O'Connell and Hank Aaron. Gene Conley gave up just two hits until the ninth, when the Giants made five runs, three on a pinch homer by Hank Thompson. It was Conley's second triumph.

Pittsburg made 13 hits in winning its second game after losing eight in a row. Dick Groat set the pace with three singles.

Walt Drope hit two homers and a double for Chicago, and relief pitcher Billy Pierce retired 14 men in a row after starter Virgil Trucks yielded first-inning Yankee homers to Hank Bauer and Andy Carey.

Whitey Ford, kayoed in a five-run first, saw his string of 21 scoreless innings broken and also lost his first game after three victories for the New Yorkers.

Detroit gave Steve Gromek solid support for his third victory, with Frank House hitting a grand-slam home run. Jim Delsing drove in three runs with a double and two singles. Chuck Diering homered for Baltimore.

## A's Expect Sellouts For Yankee Games

Kansas City, Mo. (U.P.)—The New York Yankees, once owners of the American Association baseball team here, came to town today for their first two-game set with Kansas City's Athletics.

If the renowned Yanks anticipated an easy assignment, there were thousands of baseball-mad enthusiasts ready to warn them they were in for a surprise.

Parke Carroll, the A's business manager, said both games—tonight and tomorrow night—were complete sellouts, except for 6,000 general admission tickets which will go on sale when the park gates open.

**THAT COUNT** mean as many as 65,000 persons will witness the battles with New York. If the weather is favorable, as forecast, there will be a scramble for standing-room-only.

Triumphant over the Boston Red Sox for the second-straight time, 6-2, to make it three wins in a row, the As were "riding high" for the coming of the Yanks.

Manager Lou Boudreau had to make a late change in his pitching plans for the series when Alex Kellner was stricken with virus flu. The husky southpaw, who hurled two of the A's first four victories, was confined to his bed and probably is lost to the team for 10 days.

**AS A RESULT**, Boudreau nominated right-hander Johnny Gray to oppose New York's Bob Grim tonight. It will be little Bobby Shantz for the A's in the finale tomorrow night.

But, despite the A's three wins in a row, pitching continues to be the team's big problem.

Boudreau shuffled two hurlers, Leroy Wheat and Oscar VanBrabant, off to Columbus Tuesday shortly after the signing of Vic Raschi.

The maneuver still left him with a bundle of 16 pitchers, five or six of whom will be heading for destinations unknown within the next two weeks.

**"I FIGURE ON 10 or 11 pitchers,"** Boudreau said. "I haven't decided definitely on the figure yet. We'll have a roster meeting this weekend and some decision may come then."

When asked to name the staff members who have clinched pitch-

ing berths, Boudreau listed Alex Kellner, Arnie Portocarrero, Cloyd Boyer, Bobby Shantz, Tom Gorman, Art Ceccarello, then suddenly stammered: "No I can't name anybody who has cinched a job, not yet."

He shifted the subject to Kellner and Shantz, and heaped praise on Kellner for his "great job" in blanking the White Sox, 5-0, last Sunday.

**"SHANTZ** had an off day against Chicago," Boudreau said. "The thing that we were concerned about was his arm."

"It didn't stiffen up after his second straight appearance as it did after seven innings of work in Chicago April 14. Bobby said his arm felt fine. It was his lack of control that got him out of there. But Shantz will get that control back."

About Rachi, he commented:

**"WE CERTAINLY** are looking for help, and if his back is all right, which he says it is, we are going to give him a chance to prove that he can help."

## Ezzard Charles Loses by TKO

Miami Beach, Fla. (U.P.)—Kayo winner Johnny Holman, jubilant at his biggest paycheck and biggest victory, made plans for moving up the heavyweight ladder today, but battered loser Ezzard Charles hollowly declared he still wants one more shot at the title.

Holman, a whopping 5-1 underdog, was losing when he suddenly unleashed a furious attack in the ninth round and technically knocked out Charles at 2:48.

## Wingert's Shutout Gives AGR's Third Win, 10-0

Alpha Gamma Rho's Fred Wingert threw a two-hit shutout at Delta Tau Delta yesterday as the AGR's won their third game without a defeat.

The score was 10-0 and the win was Wingert's third straight shutout. The only blemish on the Alpha Gamma Rho record is a 0-0 tie with Sigma Chi.

In a pair of lopsided wins, Jr. AVMA defeated Sigma Phi Nothing, 16-0, and Pi Kappa Alpha defeated Farm House, 20-5.

At the opposite extreme, Sigma

Nu nosed out Tau Kappa Epsilon, 4-3, and Acacia won a close game from the 1834 Club, 5-4.

In other games yesterday, Lambda Chi Alpha defeated Alpha Tau Omega, 6-4; Toppers defeated Sheiks of Kasbah, 10-6; and Sigma Chi vs. Kappa Sigma was postponed because of 14-weeks tests.

Today's schedule:

At 4:15—YMCA vs. Hillbillies, southwest field, city park; Hose-nose Gang vs. House of Williams, northwest field, city park; Sigma Phi Epsilon vs. Phi Kappa Tau, west military drill field; Sigma Alpha Epsilon vs. Beta Sigma Psi, east military drill field.

At 5:15—House of Breck vs. Rho Alphas, southwest field, city park; DSF vs. Jones Boys, northwest field, city park; Phi Delta Theta vs. Beta Theta Pi, west military drill field; Theta Xi vs. Alpha Tau Omega, east military drill field.

## K-State Students Prefer Basketball

Basketball is slightly more popular than football at K-State.

This was indicated in a recent survey of radio and television habits of K-State students which was conducted by students in the radio and TV curriculums.

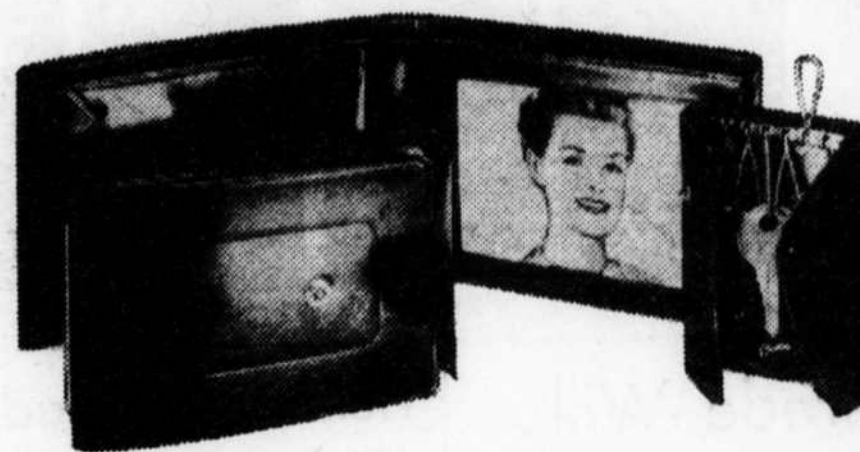

More than 95 per cent of the students questioned said they listened to broadcasts of basketball games played away from home. Slightly more than 90 per cent listened to broadcasts of away-from-home football games.

More men than women listened to football broadcasts, but the women students listened to cage games as often as the men.

## Don Cockell Batters Sparemate in Workout

San Rafael, Calif. (U.P.)—Don Cockell, who meets heavyweight champion Rocky Marciano in a title bout at San Francisco May 16, battered sparemate Bob Albright during a workout yesterday before a large crowd here. Albright knocked Cockell down in a workout last week.

# 35 Journalists To Receive K-Key Awards

Thirty-five students will receive gold K-Key awards for outstanding work on student publications this year, Prof. Ralph Lashbrook, chairman of the Board of Student Publications, announced today.

The annual awards dinner, at which the keys will be presented, will be May 3.

To be selected to receive a key, students must do outstanding work on the editorial or business staff of the Collegian, the Royal Purple, or edit the student directory.

**THOSE SELECTED** for outstanding writing or editing for the Collegian are Delphine Atkinson, TJ, '55; Oren Campbell, TJ Sr.; Carolyn Jones, TJ Jr.; Kathleen Kelly, HEJ, '55; Don Kendall, TJ Sr.; Darrel Miller, TJ Soph.; Lee Ruggels, TJ Jr.; and Margaret Tracy, TJ Sr.

For outstanding work on the Collegian advertising staff: Richard Gallion, Gov Sr.; Dorothy Kuhlman, TJ Sr.; Janet Myer, Mth Jr.; Louis Sable, TJ Jr.; and Betty Theiss, HEJ Soph.

For outstanding writing or editing for the Royal Purple: Ann Beckmeyer, Eng Sr.; Janet Duy, TJ Jr.; Janice Hipple, HEJ Jr.; Sam Logan, TJ Jr.; Phyllis Ruthrauff, HEJ Sr.; and Marlene Von Bose, HEJ Sr.

**FOR OUTSTANDING** work on the Royal Purple advertising staff: Joan Campbell, TJ Soph.; Peggy Howard, HEJ Jr.; Liz Lambert,

BA Sr.; and Jane Wilkinson, Eng Soph.

For outstanding work on the Royal Purple business staff: Doris Allen, Soc Jr.; Carolyn K. Berg, EED Fr.; Mary Louise Ek, HEJ Soph.; Carol Shideler, DIM Soph.; Eloise Sparks, TJ Soph.; and Connie Taylor, HEJ Fr.

Students earning keys for work on both the Collegian and Royal Purple editorial staffs are Beverly Sargent, HEJ Jr.; Doreen Cronkite, HEJ Jr.; Karl Gaston, TJ Sr.; and Gary Haynes, TJ Soph. Gary Swanson, TJ Sr., earned a key for work on both the editorial and business staffs of the Collegian.

Elinor Faubion, HEJ Sr., will be honored with a key for her work as editor of the Student Directory.

## Pathologists Predict Less Wheat Injury

Eastern Kansas losses to wheat by soil-borne mosaic virus this year will probably be only about one third what they were last year.

That was the prediction this week of Webster Sill Jr., K-State plant pathologist, and Hurley Fellows, USDA plant pathologist, following a recent survey of all counties east of Highway 81 in the state.

Last year soil borne mosaic losses in eastern Kansas were estimated at \$3,000,000.

"While the virus is present in hundreds of fields, the severity of infection is far less than last year in almost all fields," Sill and Fellows commented.

The worst hit fields are found in the Kaw valley, from Junction City east beyond Lawrence. Here losses in some of the fields may run 10 per cent, or a little more. Also, some fields with rather severe infections were found in Johnson, Brown, Lyon, and Harvey counties.

## Cosmopolitan Club Elects President

Surendra Patel, ME Gr, from India, was elected president of the Cosmopolitan club for the coming year at the meeting Monday, April 25.

Other officers elected were James Craig, Ent Gr, from Nigeria, vice-president; Esther Valdes, from Santa Fe, N.M., secretary; Subhi Qasem, Ag Fr, from Jordan, treasurer.

Gurdasmal Shivnani was appointed committee chairman for the club's booth in the Arts and Science fair. Bhagirath Persaud was appointed committee chairman for the club's picnic which will be held in May.

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Friday, April 29, 1955

NUMBER 132

## Manhattan's History Presented in Pageant

The opening performance of "The Manhattan Story," a pageant about Manhattan's history, was given last night at the Ahearn Field House.

The pageant, written by Earle Davis, head of the English department, depicted Manhattan's history from the coming of Coronado to Kansas to the time a railroad was extended to Manhattan.

A cast of nearly 150 persons were fully costumed as settlers, Indians, Spaniards, and soldiers for the various scenes.

IN THE opening scene, showing Coronado coming to Kansas, members of Alpha Tau Omega fraternity and the Kickapoo Indian tribe from Horton performed an Indian dance.

A square dance was performed by the Manhattan Square Dance club. The dancers rode onto the stage in three covered wagons.

Other scenes depicted the debate on the Kansas-Nebraska bill, the founding of Manhattan, and the founding of K-State.

The climax of the pageant occurred when a miniature train was driven onto the stage in a scene about the coming of the railroad. Thirty members of Pershing Rifles participated in the scene.

THE PAGEANT was direct by Earl G. Hoover, professor of speech. Donald F. Hermes, assistant professor of speech, designed the scenery. The lighting was designed by O. D. Hunt, professor of electrical engineering.

William Fischer, associate professor of music, and Thomas Steunenberg, professor of music, arranged the pageant music.

Music was furnished by members of the College-Civic orchestra and the College chorus, directed by Luther Leavengood, professor of music.

## Spring Finals To Begin One Hour Earlier

Final exams will begin an hour earlier this semester as part of an experimental change, E. M. Gerritz, assignments and schedule committee chairman, said today.

Two hour exam periods will begin at 7 a.m. instead of 8 as in previous schedules. There will be two exam periods in the morning ending at 11. After a lunch break, they will begin at 12 and end at 6. The evening exams will be from 7 to 9. There will be no exams on Wednesday or Thursday evenings and none on Friday afternoon, Gerritz said.

This is part of an experiment to improve the exam schedule. The assignment and schedule committee is currently studying the schedule to determine whether more changes should be made. They expect to make recommendations to the faculty senate this fall.

## Play Cast Convincing In 'Quantrill'

By MARION TALLEY

"Quantrill and Kansas," (The Story of an Outlaw) played its premier performance yesterday at 2:30 p.m. to a small, but responsive group in the Auditorium.

Written by John Robson of the speech department, the story concerned the latter years of Quantrill's life, from the time he turned outlaw until his death. Baird Miller, Sp Jr., handled the lead role with ease.

Slow-moving at first, the play picks up considerably with the third scene and ricochets through to the end with only minor slow parts. Len Marx, Sp Gr, as Jake fills out his character's boots, and Dan Hurley, Sp Gr, as Scaggs makes a convincing villain. One of the best scenes in the antagonism shown between these two men in the fifth scene.

The sacking of Lawrence and death of the characters, however, cannot be taken seriously. Most of the laughs were to be found in the scene in Lawrence, where both Jake and Scaggs were killed. The fight in this scene between Scaggs and Quantrill was done as if there really was a grudge between the two and the only part in the play that extracted applause from the audience.

## Student Health

Seven boys are patients at Student Health today. They are Bill Cox, Edwin Rieg, Ollie Bowman, Herbert Morton, Richard Corbin, Paul Wallace, and James Myers.

## Council Petitions Due For Arts and Sciences

Petitions for the Arts and Sciences Council are due by 5 p.m. today, according to Jim Graves, president of the Council.

The petitions should include 25 signatures, the applicant's grade average, and his college activities. Petitions are available in the Dean of Students' office and should be turned into the office of the Dean of Arts and Sciences in J 117, Graves said.

## Phems To Hold HS Play Day Here Saturday

"Centennial" is the theme for the annual Play Day Saturday sponsored by Phems, women's physical education club. 80 girls are expected to attend, according to Barbara Puh, PEW Jr., and Dolores Hess PEW Soph, co-chairmen.

REGISTRATION WILL begin at 8:30 a.m. and as each girl registers she will be placed on a team. Using the Centennial theme, the teams will have such names as Indians, Pioneers, Cowboys, Wagon Wheels, Woodsmen, Trappers, Sun Bonnets, Scouts, Petticoats, and Hunters.

The entire morning will be spent playing such games as basketball, kickball, volleyball, basketball relays, line soccer, and deck tennis. The physical education majors will give an exhibition of fist-ball. A free hour for swimming will be held in the afternoon.

FOLLOWING LUNCH, the visiting high school girls will present skits, which will center around the Centennial theme. A tea in Nichols gym followed by a tour of the campus will end the day's activities.

Chairmen of the various committees are Sandra Tatge, PEW Sr, hospitality; Delila Clark, PEW Jr, program; Joyce Larson, PEW Jr, grounds; Eugenia Sweedlun, PEW Sr, refreshments and foods; Becky Lowell, PEW Sr, publicity; Evie Starr, PEW Jr, services; DeAnn Mackie, PEW Soph, and LeRoyce Maddux, PEW Fr, entertainment; Norma Eversole, PEW Soph, equipment; Pat Rogers, PEW Jr, officials; and Joyce Davisson, PEW Soph, finance. Miss Eva Lyman is faculty adviser.

## Advisement Program Is Not Enrollment, Says Registrar

By CHARLOTTE HENRY

The program of advisement announced last week for prospective juniors and seniors is not pre-enrollment, but a step toward it, according to E. M. Gerritz, director of admissions and registrar.

Essentially, the enrollment process will be the same for a K-State junior or senior this summer and next fall—cards to fill out in Rec center, the picture, a check for the cashier, and a trek to Nichols gymnasium to pull cards.

THE ONLY REAL difference is that instead of hunting up a faculty member representing his

curriculum to make out his first proof ticket, he will have the one made out during his pre-enrollment counseling.

Then, any faculty member can assign him line numbers, and he can try to pull his cards.

But, the cards may not all be there. In that case, he and a faculty assigner in the gymnasium at enrolling time will work out alternate schedules until they find one that works.

ADVISEMENT WILL not insure that a card is being held for him in any course. It is meant to give each K-State student a session with a faculty member closely related to the curriculum in which he is en-

## Review, Banquet To Honor Dean

Rodney W. Babcock, retiring dean of the School of Arts and Sciences, will be honored at a joint air force and army ROTC review Tuesday and at a banquet Thursday.

Lt. Gov. John McCuish will represent the state of Kansas in the review honoring Dean Babcock. Col. Brown

will represent the army ROTC, and Mrs. Itz in the absence of Col. Itz, will represent the AFROTC.

President McCain will represent the College.

The review will be at 3:30 Tuesday on the military science drill field.

A PORTRAIT of Babcock, painted by Mrs. Alfreda Johnson Peterson, will be presented to the College at the banquet Thursday in Babcock's honor. Dean and Mrs. Babcock will be guests of honor at the banquet. Their three children, John, Elliot, and Mrs. Jean Lee have been invited to the banquet honoring their father.

The banquet, sponsored by the Arts and Sciences faculty, will be Thursday at 5:45 in Thompson Hall. Dr. Howard T. Hill of the speech department will be toastmaster.

Prof. C. M. Correll, will offer the invocation. Orval Ebberts, assistant dean of Arts and Sciences, will speak on behalf of the dean's office. R. I. Throckmorton, dean emeritus, will speak for the council of Deans. H. W. Davis, professor of English, will present the portrait which will be accepted on behalf of the College by F. D. Farrell, president emeritus.

A VOLUME of letters from his friends will be presented to Dean Babcock at the banquet.

The committee for the banquet is headed by Earle Davis, head of the English department. Other members are Prof. Sanger of the mathematics department; Prof. Harbaugh of general studies; Prof. Foltz, head of the bacteriology department, and Prof. Hill of the speech department.

Dr. Babcock will retire June 30.

## McCain Names Advisors To Appoint Dean

Ralph G. Sanger, head of the mathematics department, Fritz Moore, professor of modern languages, and Finis Green, head of the education department, have been appointed by President James McCain to investigate candidates for the office of Dean of the School of Arts and Sciences.

The committee will advise the President on persons both on and off the campus in regard to choosing a dean. The committee will also make arrangements for interviews with persons being considered for the position.

So far, the committee has screened many persons all over the country for the position, and has compiled a list of people whom will be given serious consideration, President McCain said.

## Intramural Debate Teams Announced

Six teams will be competing in the intramural debate semifinals this week end, Charles Goetzinger, debate coach, announced. The teams will be competing for a trophy and steak dinners.

Team members are Edward McCoy, Sp Fr, and Howard Petracek, BA Jr; Tom Bowman, ChE Fr, and Gordon Bute, Sp Fr; Pat Loyd, EE Fr, and Harry Knapp, PrL Jr; Barbara Messer, BMT Fr, and Jo Forbes, PrL Soph; Jim Zahnley, Chm Fr, and Larry McDonald, ME Fr; and Jim Shane, PrV Fr, and Gene Randall, AA Soph.

## Ed Gillette Named by Union Board

Ed Gillette, VM Jr, was appointed chairman of the Union program council at the meeting of the Union governing board last night.

Only two other offices were filled as a result of the meeting last night. Sharon Diamond, Soc Soph, was appointed assistant chairman and Mary Lu Compton, Sp Fr, secretary.

"Because of the lengthy consideration given each applicant, the board reached a decision on only three positions," said Doreen Cronkite, HEJ Sr, Union board member. "Applications for other positions will be considered at the meeting next Monday."

Applicants not appointed at this meeting will be reconsidered for their second and third choice positions.

The seven committee chairmanships will be decided at the next meeting. Membership of the Union program council will be made up of chairmen of the eight committees.

There were 102 applicants for the ten positions, said Miss Cronkite. Chairmen will be selected for the following committees, dance, movies, games, special events, hospitality, photography and crafts, and music, library and arts.

## Mortar Board Taps Sixteen

Sixteen coeds have been tapped for membership in Mortar Board, senior women's honorary.

New members are Doreen Cronkite, HEJ Sr.; Beverly Sargent, HEJ Jr.; Judy Menelan, Sp Sr.; Pat Humble, HT Jr.; Kathleen Burns, HEE Jr.; Martha Helmers, HE Jr.; Marilyn Heter, Soc Jr.; Wanda Stalcup, HEE Jr.; Margie Lemon, BMT Jr.; Janet Myer, Math Jr.; Carolyn Jones, TJ Sr.; Ann Shaw, Sp Sr.; Joan Sargent, Soc Jr.; Jeanice Blauer, HT Jr.; Jan Boster, DIM Jr.; and Lois Force, EED Jr.

Golda Crawford, assistant professor in the department of general studies, has been elected to honorary membership.

# Parking Plan Fair, Honest Students Won't Get Ousted

To the Editor:

Everyone is aware that parking tickets may occasionally be issued unjustly. Nevertheless the majority of students who park on the campus do so without penalty. By parking and driving in a legal manner it is possible to avoid getting any tickets at all.

If emergencies do arise each student is permitted three tickets before being restricted from driving on the campus. Surely three life and death situations in one school year will be adequate for anybody.

A fourth ticket, if issued, is not for a simple parking violation but for a willful violation of the student's self-incurred restriction from campus driving.

I have received many tickets in nearly five years at Kansas State and every one of them was given to me because I took a calculated risk and parked where I knew I had no right to park, hoping that I could get away with it. It is a safe bet that 99 out of every 100 tickets are acquired in just this manner. Three tickets without expulsion ought to take care of the one in 100 that is innocently acquired. Campus parking rules are clearly defined and given to every car owner at registration. Ignorance is no excuse.

In other words, no serious, conscientious student who is really interested in going to school will ever be expelled. The only ones who will suffer are those who are enjoying a four-year social lark at someone else's expense and who would rather be expelled than comply with the simple rules of courtesy and safety which are always necessary when 5,000 people are placed in an area the size of this campus.

Chet Ward, VM Jr.

# WACs Get Beauty Tips

By CLAIRE COX

New York. (U.P.)—The nation's 40,000 service women are getting a free mail order beauty lesson, thanks to socialite Mrs. John Hay Whitney and the toilet goods industry.

Mrs. Whitney, one of the beautiful former Cushing sisters of Boston now married to millionaire sportsman-philanthropist Jock Whitney, decided nearly three years ago that the girls in uniform needed some sprucing up.

Guides to good grooming for women in the armed forces have been sent to 80 installations around the world with the blessing of the Defense Department.

The 40-page booklet contains detailed instructions on how to lose or gain weight and how to exercise. There are chapters on cleanliness, the care of the hair and skin and, perhaps most important of all, what to do about tired, aching feet (massage them with cold cream every night).

There is a whole section devoted to the best way to brush teeth, with diagrams, and girls with delicate skin are advised to bleach their freckles with hydrogen peroxide.

This was especially true, he said, when beauty expert Myra N. Conklin, author of the booklet, included a chapter on baths and how to take them. She went into a long discussion of how to use bath salts, bath oils and various other toilet goods.

"We were brought up a bit short," Mayham said, "when the Defense Department told us there is only one post in the United States with anything except showers."

That meant Miss Conklin had to devote more space to how to take a shower (not too hot), not too cold and never right after a meal).

A Danish pathologist, Carl Oluf Jensen, estimated the fact that cancer can be transmitted by inoculation.

# Calendar

# Viet Nam Loyalists Win Bloody Battle

Compiled from the Wires of United Press

By DICK CARR

Saigon, Indochina—Government troops destroyed the headquarters of the rebel Binh Xuyen gang and drove its commandos back to a river island today in a great but bloody civil war victory for pro-American Premier Ngo Dinh Diem.

The counter-attacking loyal troops, moving under cover of heavy mortar barrages, shattered the rebels, main strongpoints in a two-day battle that killed several hundred persons, wounded nearly 1,000 and left 10,000 persons homeless.

Dem strongly indicated he would spurn the orders of Emperor Bao Dai to go to the Riviera and give up control of the loyal army which won its victory today in a battle that raged without letup from 6 a.m. until 2 p.m. through the burning city.

Reliable informants said Gen. Paul Ely, the French Supreme Commander, consulted with American officials in Saigon on a joint effort to win a cease-fire. But the effort failed when Diem defied his emperor and decided the time had come to smash the rebels.

# Russia Agrees to Austrian Air Force

Vienna, Austria—The Russians today sprang a new diplomatic surprise by agreeing to formation of an Austrian Air Rescue force and to "consider full air sovereignty for the nation."

Soviet high commissioner I. I. Ilyichev proposed that Austria should be allowed to buy and operate five helicopters and five light planes for mountain rescue work. The proposal, made at a meeting of the four-power allied council, completely reversed previous Soviet policy.

Britain's Sir Geoffrey Wallinger promptly countered that Austria should be granted "full air sovereignty"—including the right to operate commercial airliners. He was seconded by U. S. high commissioner Lleyellyn E. Thompson.

Ilyichev, with rare good nature, agreed to have the question of full air sovereignty submitted to the allied council's air directorate for "consideration and study."

# Americans Reported in Russian Labor Camps

Vienna, Austria—A group of Austrians returning today from long Soviet imprisonment said at least one American was being held in the Russians' Potma slave labor camp south of Moscow.

They identified him as Johnny Hopkins and said he told them he was arrested in Berlin in 1952 while serving in the U.S. Army.

They were not clear whether he was a soldier or a civilian employed by the army.

The weary, ailing Austrians said a second American known to them only as "Dimmler" or "Duemmler" was being held in a camp in Central Russia. They could give only the phonetic spelling of the name and were hazy on identifications.

The group of Austrians was made up of 13 men and one woman.

# New Violence on Southern Labor Scene

Atlanta—Shots and dynamite blasts echoed across the southern labor scene last night.

A hail of shotgun pellets and brickbats injured four persons at a picket line of striking Louisville and Nashville employees and dynamite blasts damaged two exchanges of the Southern Bell Telephone company.

Police said the violence erupted at a picketline at Covington, Ky., when a truck bearing non-striking workers moved among pickets at the entrance of an L&N yard.

The incident followed a wave of heightened violence in the South's other major strike, called by the CIO Communications Workers of America against the Southern Bell Telephone co. Both strikes are in their 47th day.

# Movies

# 'East of Eden' Scores For Steinbeck, Kazan

# CAMPUS

Elia Kazan has done it again. This time he has taken one of the more ordinary novels of John Steinbeck and transformed it into a dynamic motion picture about a boy searching for love from his father.

The acting is superior in this picture. Raymond Massey is his usual confident self and a rising star in the Brando-realism tradition, James Dean handles the lead with confidence. Julie Harris, imported from Broadway, makes a convincing Abra.

**CENTENNIAL PAGEANT ROYALTY**—Centennial Pageant Queen Marlene Young, EEd Fr, and her attendants Maridell Smith, EEd Fr, and Mary Ann Chamberlain ride in the parade that opened the Centennial celebration here yesterday. The 75-minute parade covered a two-mile route and was seen by approximately 20,000 people. Miss Young and Sue Hostinsky, the Centennial Queen, were introduced at the first performance of the Centennial Pageant last night at Ahearn Field House.

## Journalism Awards Given for Work On Collegian, RP

Four student journalists are winners of Journalism Memorial awards, Prof. Ralph Lashbrook, chairman of the Journalism Memorial Fund committee, announced at journalism lecture yesterday.

Winners are Karl Gaston, TJ Sr., and Doreen Cronkite, HEJ Sr., \$25 each for outstanding work on the Collegian; Phyllis Ruthrauff, HEJ Sr., \$50 for outstanding work as editor of the 1955 Royal Purple; and Gary Swanson, TJ Sr., \$50 for his successful two semesters as business manager of the Collegian.

The award for outstanding work on the Collegian was divided between Gaston and Miss Cronkite. Gaston is editor and Miss Cronkite is associate editor of the K-State daily.

**THE ANNUAL AWARDS** made by the Journalism Memorial Fund committee, which includes members of the K-State journalism staff, are in memory of the eight graduates and former students of the K-State journalism department who lost their lives in World War II. They are designed to stimulate interest in professional and scholastic achievement in journalism.

Lee Ruggels, TJ Jr., was named winner of the Arthur Capper award for his superior attainment in technical journalism. He was selected by the K-State journalism faculty and his name will be engraved on the Capper plaque in Kedzie hall. Ruggels was editor of the 1954 fall semester Collegian and will edit the 1955 K-Book.

**THE CAPPER** plaque was first presented to the Department of Journalism by the late Senator Arthur Capper in 1929. After the 10 shields on the plaque were filled with names, he presented a second plaque in 1939 and a third plaque in 1949.

Helen Hamilton Barnes, HEJ Sr., and Cynthia Carswell, January graduate, were presented national Sigma Delta Chi scholarship certificates as the two ranking highest scholastically in the 1955 graduating class.

Gary Swanson, TJ Sr., was presented a certificate from Sigma Delta Chi as the outstanding male journalism graduate.

U. S. restaurants serving breakfast outnumber those that don't survey by American Restaurant magazine.

What young people are doing at General Electric

## Young manager handles finances for building of \$5,000,000 plant

In the next ten years, the demand for General Electric industrial heating equipment will double. To meet this demand, a giant new plant (model at right) is being built at Shelbyville, Indiana.

The plant will cost \$5,000,000, and the man responsible for handling finances for the entire job is 32-year-old R. E. Fetter.

### Fetter's job is important, responsible

Dick Fetter's work as Financial Manager of the Department began long before General Electric started building the plant. He and his group first had to estimate probable operating costs and predict whether the plant would be profitable.

Now, during construction, Fetter's chief concern is keeping track of all the expenses on this multimillion-dollar project. When the plant is completed, he will set up a complete financial section and manage everything from tax, cost, and general accounting to payrolls, budgets and measurements, and internal auditing.

### 25,000 college graduates at General Electric

This is a big job. Fetter was readied for it in a careful step-by-step program of development. Like Fetter, each of the 25,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When young, fresh minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

**DICK FETTER** joined G.E. in 1947 after receiving a B.S. from Bucknell University, and serving 32 months in the Air Corps. At G.E. he completed the Business Training Course, class of '49.

# Coach Winter Selects Probable Cage Starters

By JOAN ALBERS

Tex Winter is predicting an "improved ball club" next year as his starting lineup begins to take shape in spring drills.

Named by Winter as probable starters are Jack Parr, 6-9 freshman, at center; Larry Fischer, 6-4 freshman, and Dick Stone, 6-3 junior, at the forwards; and Fred Schneider, 6-3 sophomore, and Pachin Vincens, 5-9 sophomore, at the guards.

Winter says he has been concentrating mostly on offense during the spring practice session.

"WE HAVE BEEN trying to eliminate offensive mechanical errors," he said. "Thus far, the boys have shown quite a bit of improvement in this phase."

Winter added that he wants to concentrate on defense next winter before the season begins, and thus will try to balance the offense and the defense. The team also will have to work on ball control next winter, he said.

The team has been scrimmaging during practice this week.

"WE ARE TRYING to pick 10 or 12 of the better boys from the 23 out for practice, and these scrimmages should determine who they are," Winter said. "Next winter, we can concentrate on those 10 or 12 boys."

The public will get a chance to see next season's probable lineup in action May 6 when they meet the alumni in the annual varsity-alumni game which will close out a spring drills.

Four men from the starting five of the 1950-51 team that played Kentucky for the national NCAA championship are planning to play in this game, Winter said.

THEY ARE center Lew Hitch, forward Hoot Gibson, and guards Ernie Barrett and Jim Iverson.

Other stars of past years who plan to play in the game are Don Upson, Harold Howie, Al Langdon, Lloyd Krone, and Clancy Brannum.

Jerry Jung, Roger Craft, and Kent Poore, seniors on this year's team, also will play with the alumni. Seniors Nugent Adams and Jim Smith will be unable to play because of injuries, Winter said.

## IM Swimming, Track Set for Next Week

Intramural swimming has been set for Monday, Tuesday, and Wednesday nights of next week, May 2-3-4, Frank Myers, director of intramurals, has announced.

The intramural track meet will be run off Saturday, May 7, Myers said. All events not finished that day will be completed May 12, he said.

Swimming competition will begin at 7 on each of the scheduled nights in the Nichols gym pool.

JACK PARR, 6-9 freshman, is being groomed to fill the vacant center spot on next season's Wildcat basketball team, and has been named by coach Tex Winter as a probable starter.

## Varsity Rallies In Ninth Inning To Beat Frosh

K-State's varsity baseball team scored a run in the last half of the ninth inning to defeat the freshmen team, 5-4, yesterday afternoon in a practice game at Griffith Stadium.

The varsity had gone in front, 1-0, in the second inning and retained a lead through seven innings.

IN THE TOP of the eighth with the varsity leading 4-1, the freshmen went to work on Warren Polak, fourth varsity pitcher, and scored three runs to tie the score, 4-4.

Polak led off for the varsity in the last half of the ninth with a single, then advanced to second as Jack Smith drew a base on balls. Bob Whitehead then singled between first and second to drive in the winning run.

THE GAME was a pitcher's duel as three freshmen hurlers allowed 5 runs and 7 hits, while walking 2 and striking out 6.

The varsity used four pitchers, who allowed 4 runs and 4 hits, while walking 3 and striking out 5.

Keith Jackson, Don Spohn, and Harold Whitaker pitched for the freshmen. Daryl Parker, Ron Bergren, Jim Rhoades, and Warren Polak hurled for the varsity.

The K-State baseball team had a 3-10 mark in Big Seven play a year ago.

# Wildcat Netmen To Host Wichita

The K-State tennis team will be looking for its third victory over a nonconference opponent when it plays host to Wichita on the home courts tomorrow afternoon.

The team's season record now stands at 2 wins and 3 losses. The Cats have defeated Mankato (Minn.) State teachers college and Wichita, and have lost to Washburn, Tulsa, Oklahoma.

The losses to Tulsa and Washburn were by 4-3 scores and could have gone either way, Karl Finney, head tennis coach, said.

The cat netmen will jump into conference play May 7 when they meet Missouri here. The matches with conference opponents do not count in conference standings, but serve as warmups for the conference meet in Lawrence May 20 and 21, Finney said.

Coach Finney expects the conference meet to be a fight between Oklahoma and Colorado for the championship. He says he has no

idea where K-State will finish, but expects the Cats to make a good showing.

Finney says he has been purchasing equipment for the K-State courts, as they will be the site of the conference meet next year.

New nets will have to be obtained for the east courts and new poles erected for them, he said.

The K-State baseball team hit .276 and fielded .909 during the 1954 season.

## Beta Sigs Trounce SAE's, Win No. 5

Beta Sigma Psi softballers defeated Sigma Alpha Epsilon, defending champion in the fraternity division, 9-1, in the top game of yesterday's intramural schedule.

The win was the Beta Sigs' fifth in a row and gave them the undisputed championship of their group while knocking the Sig Alphas out of the championship race. It was the Sig Alphas' first defeat after three-straight wins.

The Hillbillies, defending champions in the independent bracket, came through with their third win without a defeat as they set down the YMCA by a 7-1 score.

In other games in the independent bracket, House of Breck defeated the Rho Alphas, 11-8; the Hosenose Gang defeated House of Williams, 7-2; and the Jones Boys defeated DSF, 9-1.

In other fraternity games, sig-

ma Phi Epsilon defeated Phi Kappa Tau, 18-6; Beta Theta Pi defeated Phi Delta Theta, 5-3; and Theta Xi defeated Alpha Tau Omega, 14-5.

### TODAY'S SCHEDULE:

At 5:15—Delta Sigma Phi vs. Lambda Chi Alpha, southwest field, city park; Sigma Nu vs. Pi Kappa Alpha, northwest field, city park; Tau Kappa Epsilon vs. 1934 Club, west military drill field; Farm House vs. Acacia, east military drill field.

Three postponed games will be played tomorrow afternoon. Frank Myers, director of intramurals, said. They will pit Sigma Alpha Epsilon vs. Theta Xi, Phi Delta Theta vs. Phi Kappa, and Sigma Chi vs. Kappa Sigma.

Games scheduled for next Monday will be postponed until Thursday because of ROTC drill, he said.

## Baseball, Baby Daughter Share Whitehead's Time

By DON BOYD

When spring football practice closed, quarterback Bob Whitehead packed away his pads and stepped into a dual role as shortstop on the K-State baseball team and as father of a baby girl named Linda Jo.

Which of these two roles takes the most time is hard to determine, Whitehead says, but it's a safe bet that his 3-week-old daughter can hold her own against baseball.

RESERVING the night for his family, Bob's afternoons are spent breaking in at his new position at shortstop. He had played third base until this spring, when he was shifted to the new position.

Whitehead still prefers third base though, and is convinced that he is a better third baseman than shortstop. Last year, he played at third and was among the top hitters on the team with a .289 average.

Bob lettered in both football and baseball at Cleveland high school in St. Louis, Mo. During the summer, he played baseball with an advertising firm team in St. Louis.

WHITEHEAD thinks the K-State team is shaping up fairly well. "I think we have the hitters and fielders, but are weak on pitchers," he said. He singled out pitcher Jim Rhoades for praise.

Bob said he felt that the loss of Jim Logsdon from the outfield has hurt considerably. Logsdon suffered a dislocated shoulder during spring football practice.

"OF THE BIG SEVEN teams we've played, I would say that Nebraska is the strongest in the league," he said. "Of course, we haven't played Missouri yet."

Whitehead has mixed emotions about choosing between baseball and football. "I like them both about the same, but in their seasons," he said.

### A's Pick Up Pitcher For Waiver Price

Kansas City, Mo. (U.P.)—The Kansas City Athletics have picked up pitcher Lou Sleater from the New York Yankees for the \$10,000 waiver price.

Sleater, who came to the Yankees late last year, did not pitch for New York this season.

BOB WHITEHEAD, quarterback on the Wildcat football team, is taking over the shortstop spot on the K-State baseball team this spring. Whitehead was a third baseman a year ago.

### Game Ends in Tie In Girls IM Softball

Pi Beta Phi and Kappa Kappa Gamma tied yesterday in women's intramural softball, 12-12. In the other game yesterday, Waltheim ran over Northwest, 15-0.

Games scheduled for Monday are Delta Delta Delta vs. Alpha Xi Delta, and Waltheim vs. Clovia.

## Cat Trackmen To Two Meets This Week End

K-State's four-man hurdle corps and the Wildcats top pole vaulter are set to compete in the Drake Relays tomorrow, while a 19-man crew is entered in the Colorado Relays at Boulder.

Track coach Ward Haylett explained he had sorted his talent into the two groups according to their chances.

"I didn't feel there would be much for the hurdlers to compete in at the Colorado meet, since they run only one hurdle race there. I also wanted to split my two top pole vaulters—Paul Miller and Fred Wingert."

Going to Drake are hurdlers Ray Russell, Mike Cornett, Gary Doupnik, and Jack Railsback, plus Miller.

RUSSELL, who stepped the 400-meter hurdles in 54 seconds at the Kansas Relays, will run the 440-yard intermediates and the 120-yard high hurdles. He will join the other three Wildcat hurdlers in the 480-yard shuttle relay. Cornett will pair with Russell in the 120 highs.

Miller won the Louisiana Relays pole vault with a record-setting height of 13 feet, 7 inches, and established a mark of 13-8 1/2 in indoor competition. He tied Stew Walker of Colorado at 13-7 1/2 at the Big Seven indoor meet.

At Colorado, Haylett will concentrate on the relay events. He will enter a quartet of Wildcat runners in each of the five relays scheduled.

K-STATE ENTRIES at Colorado: 440-yard relay—Jerry Mershon, Gene Wilson, Doelan, McDaniel, Marvin Chiles.

880-yard relay—Mershon, Jim Loomis, McDaniel, Chiles.

1 mile relay—McDaniel, Loomis, Joel McGill, Chiles.

Two-mile relay—Darl Michel, Glen Taplin, J. D. Patterson, Hubert Guest.

Distance medley relay—Patterson, Guest, Gene Youngstedt, Whitney Hicks.

Shot put—Allan Muecke, Bill Carrington.

Discus—Ray Fritzmeier.

Javelin—Joe Powell.

High jump—Gene Wilson, Jim Delker.

Pole vault—Wingert.

Broad jump—Wilson, Ray Beikman.

## Yanks Overpower A's Before Record Crowd

Kansas City, Mo. (U.P.)—The Yankees spotted the Athletics a pair of first-inning runs last night and then turned on their vaunted power for an 11-4 victory before 32,559 persons, the largest crowd to witness a sports event in Kansas City.

Don Larsen's fine relief pitching featured the New York triumph which boosted the team into the American League lead with a 9-5 record.

BOB GRIM started for New York in the team's first appearance in Kansas City, but he developed a blister on his pitching hand and had to leave the game. Larsen took over in the second and gave up only five hits in eight frames.

Larsen's hurling and the slugging of Andy Carey, Elston Howard, and Mickey Mantle combined to spoil the occasion for Kansas City's baseball-hungry fans.

THE HUGE CROWD spilled over the new double-deck Municipal stadium, and hundreds watched the entire game in the standing-room area.

The Yanks wiped out the early Kansas City lead by scoring three times in the third.

Kansas City used five hurlers, including Lou Sleater, the southpaw obtained only yesterday from the Yankees.

Vic Power homered for the A's.

In other American league games, Boston edged the Chicago White Sox, 3-1; and Detroit beat Washington, 4-1.

In the National league, Brooklyn won from Chicago, 4-2, for a 13-2 record and a 4-game lead in the league; the Giants beat St. Louis, 6-4; Philadelphia edged Milwaukee, 3-2; and Cincinnati edged Pittsburgh, 3-2.

# Greek Houses Entertain With Week-End Rush Parties

## Rush Weekend

The Sigma Nu's entertained 40 rushees April 15, 16 and 17.

Chi Omega sorority entertained 30 rushees April 23 and 24.

Alpha Xi Delta entertained rushees during the week-end of April 23 and 24.

They had an exchange tea dance with the Sigma Phi Epsilon fraternity Saturday afternoon, April 23.

Phi Beta Phi entertained rushes April 23 and 24.

## Pledgings

Bob Gillespie and Raleigh Eggers have recently pledged Alpha Tau Omega.

New pledges to Alpha Gamma Rho are John Milton, Jack Van Horn, Dean Peter, Ed Dillinger, Thearean Towns, Don Perkins, Darwin Francis, Don Miller, Vern Miller, Vern Hamilton and Allan Henry.

## Parents' Day

Members of Farm House fraternity were host to their parents at dinner Sunday, April 24, at the chapter house.

The members of Theta Xi fraternity were host to 40 parents Sunday, April 24, at their annual Parents day.

The Phi Kappas held parents day Sunday April 24. Twenty-eight parents attended.

## Initiations

Delta Sigma Phi held formal initiation Sunday, April 24, for Gary Blum.

Bishop John D. Franz of Dodge City was initiated into the Phi Kappa fraternity last Saturday as an honorary member.

## Mother's Day Dinner

Beta Theta Pi fraternity had over 200 at their Mother's Day dinner April 24.

Following entertainment the mothers had a meeting.

## Pledge Sneak

The pledges of Sigma Phi Epsilon took a week-end sneak to Missouri university, April 23.

## Convention

Members of Sigma Phi Epsilon chapters in Kansas and Missouri attended a rush meeting at Missouri university April 23. Those attending from the Kansas State chapter were Dean Becker, Jack Barrett, Jerry Warner, and Jim Brass.

## Exchanges

Lambda Chi Alpha entertained Pi Beta Phi with an hour dance, Thursday, April 21.

Alpha Xi Delta and Alpha Kappa Lambda had an exchange picnic at Sunset park April 21.

## Guests

Jane Moore of Columbia, Mo., was a guest at the Chi Omega sorority April 23 and 24.

The girls in the Ellen Richard's home management house entertained the 5 girls in the Margaret Ahlborn lodge with a Dutch tea April 20.

Caroline Wilbur, an International Foreign Youth Exchange student to the Netherlands last year, showed the slides she had taken there.

Elizabeth Kooyman from the Netherlands served candy from her country. Neeltje Platteeuw also from the Netherlands served cake she had prepared from a Dutch recipe. Both are graduate students who live at the home management houses.

Dinner guests at the Phi Kappa Tau house April 24 were; John Furrer, Bob Gowens, Jerome Ewald, Jerry Whipple, Jack Bash, and Ken Brackney.

Lyle Maddux of Deerfield and Vance Carson of Clifton were guests April 23 and 24 at the Phi Kappa Tau house.

Bob and Jack Gillespie of Brownstown, Indiana, were guests recently at the Phi Delta Theta house.

Patti Cristenson was a Sunday dinner guest at the Phi Delta Theta house.

Dinner guests April 24 of Alpha Tau Omega fraternity were Kay McCoy, Alice Dowell and Lyn Bayles of Cottey College; Francis Reichart from KU; Loretha Allen of Baldwin; Bill Hoppes from Kansas City; and Shirley Davis.

Noema Braman, of El Dorado, and Janet Thompson were dinner guests April 24 at the Acacia house.

Guests at Southeast hall April 23 through 24 were Mrs. Ross T. Bair, La Vonne Brown, Glenda Clare, Janice Caspar, Mrs. Muriel Grockett, Rose Lee Keen, Jodee Knarr, Mary Lou Leavitt.

Week-end guests at the Kappa Kappa Gamma house April 23 were Pat Bullock, Clay Center; Judy Benedix, Kansas City; and Sally Albright and Carmen Paul, Augusta. Mary Ellen Chiles was a dinner guest April 24.

Guests at the Tau Kappa Epsilon fraternity April 23 were Joyce Skinner, Karlene Bailey, Carol Zeller, Topeka; Liz Mathe-wiz, Joce Karber, Claudia Mins, Kansas City, Mo.; Marilyn Duncan, Clearwater; Donella Vosburg, Cheney; Allen Peters, Salina; Ron Watters, Salina; and Richard Schrader, Wichita.

Barbara Griffie, Topeka, was a guest at Kappa Delta sorority April 23.

## Hundred Air Conditioners Purchased for Departments

One hundred-six new air conditioners have been purchased for year-round offices on the campus, but only four have been put into operation, according to R. F. Gingrich, physical plant head.

Gingrich said that the reason is that the conditioners came with special electrical plugs, and the college has been unable to get electrical outlets to fit them. One special outlet was made and installed in the housing director's office so that his four units could be operated.

Approximately 90 per cent of the new units have been installed. Several are yet to be placed in the new engineering wing and Eisenhower hall, Gingrich said.

At present there are no plans for air conditioning classrooms, the plant head said.

A. R. Jones, dean of financial administration, said the 106 new units had been obtained "at approximately one-half of their retail cost." Money for the units came from the various departments that received them.

## Church News

# YW Breakfast To Feature Installation of New Cabinet

Installation of the new cabinet and the new advisory board members of the YWCA will take place at the spring breakfast of the YW May 1. The breakfast will be served in the second-floor dining room of Thompson hall at 8 a.m.

A rededication ceremony will follow installation. Marilyn Smith, the new president of the YWCA, and Royanne McMullen are in charge of the ceremony.

### United Student Fellowship

Members of USF will meet at 5 p.m. at the church for dinner Sunday. Following dinner there will be a tour through one of the Manhattan mortuaries.

### Gamma Delta

A trip to Lawrence for a picnic with K.U. Gamma Delta members has been planned for Sunday. Lutheran church at 2:15 p.m. The meeting will last from 4:30 p.m. Members are to meet at St Luke's to 7:30 p.m.

### Roger Williams Fellowship

A spring retreat for RWF will be at Lake Shawnee Saturday afternoon at the convenience of the students. The Rev. J. Kenneth Huyck, First Baptist church; Dr. Max Morgan, First Baptist church of Topeka; and Dr. Max McLeod, head of the anatomy department, will conduct seminars in keeping with the theme of the retreat, "Building Bridges."

Dr. Emerson Abendroth, Presbyterian student pastor, will be in charge of a Galilean service. Plans will be made for next year.

Sunday school will be at 9:45 for those not going to the retreat. Devotions in Danforth chapel will be at 7:40 a.m. Tuesday and Thursday, and at 5 p.m. Friday.

### Wesley Foundation

Open house Friday night is under the direction of Dean Zimmerman and Shirley Hollinger. Gary Swenson and Grace Schmidlein are in charge of the Saturday night open house.

Church services will be at 9:50 with Dr. S. Walton Cole of the First Methodist church talking on "What Asia Means to You."

Seniors will be guests of the Foundation at the Senior Farewell dinner Sunday at 5 p.m.

At the 6 p.m. forum, Warren Remple, director of the K-State YMCA, will discuss, "What Can We Do As Students to Promote Brotherhood."

### Lutheran Student Association

A picnic has been planned for the Lutheran Student association Sunday. Those attending should

meet at the church at 4:55 p.m. The program on attitudes will be presented by graduate students.

Janet Wilkins, Hst Gr, is in charge of the chapel services Tuesday at 5 p.m.

K-State will be hosts to Little Ashram, a meeting of Lutheran Students from the Midwest region, at Camp Washunga Friday. Colleges from Nebraska and Kansas will be represented. Registration will begin Friday at 8 p.m. and the meeting will close Sunday at 10 a.m.

### Newman Club

A picnic in Sunset Park has been planned for Newman club members Sunday at 6 p.m.

Discussions will be held in J 15 at 7 p.m. Monday. Choir practice at Seven Dolors will be Tuesday at 7:30 a.m. Daily rosary is in Danforth chapel at 4 p.m. and mass at 7 a.m. Friday.

### Sigma Eta Chi

A Founder's Day dinner for Sigma Eta Chi will be in Pine's banquet room Tuesday at 6:15 p. The dinner is in honor of the 10th anniversary of the organization at K-State. Installation of officers will follow the dinner.

### Kansas State Christian Fellowship

KSCF will have a bible study meeting Friday at 7 p.m. in A 212.

### Kappa Beta

Martha McReynolds, HDA Sr, and Marianne Bradshaw, EEd So, will be honored at the Senior Dinner for Kappa Beta girls Tuesday at Koller hall. Initiation of

# Why do more college men and women smoke VICEROYS than any other filter cigarette?

BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
3. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
4. Smokers en masse report that filtered Viceroy's have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
5. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip... and Viceroy's cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette... that's why VICEROY is the largest-selling filter cigarette in the world!

## Television Workshop Aids Scout Leaders

A television workshop was held on the campus this week to acquaint Boy Scout executives with the use of TV to promote scouting and the scouting program, Ken Thomas, chairman of the planning committee, said.

Over 20 executives from Kansas, Nebraska, and Missouri attended the two-day workshop. These representatives came from all councils that have a television station in operation within their council, Thomas added.

TELEVISION PROGRAMS have and are being given to promote scouting, he said. Arrangements were made at this workshop for two scouting telecasts. Thomas said one will be given from Hutchinson and the other from Wichita. The group was broken down into

units of four men during the workshop. On the final day each group prepared and presented a 15-minute program. The entire group viewed these shows in the College's closed circuit studios, he said.

The programs given by the scout leaders illustrated, what mothers can do to entertain their children on rainy days, fund raising campaigns, and a camporee with emphasis on the construction of a signal tower.

THOMAS SAID A speech given to the group by Glen Rice, assistant public relations director of the Boy Scouts, at a dinner meeting was one of the highlights of the workshop.

"Television is one of the most powerful ways to promote the scouting program. Promotion of the program is essential to raise funds for the rapidly expanding organization. In the past six years the number of scouts in America has increased by over 70 per cent while the funds for operating the program have increased by only 50 per cent," Rice told the group.

Station KEDD of Wichita, station WIBW-TV of Topeka, and the Harry Turner advertising agency of Topeka were represented at the workshop, Thomas said.

## A&S Carnival Theme Named

"Younger Than Springtime" is the theme for the annual Arts and Science carnival, Joan Sargent announced today. It will be held Saturday, May 14, on the tennis court.

The carnival will feature dancing to the music of Fred Meinholdt and his band.

It is sponsored by the Arts and Sciences Council to raise funds to publicize the various departments in Arts and Sciences at Kansas State.

## Milling Honorary Initiates Members

Initiation ceremonies were held Tuesday by Alpha Mu, honorary milling fraternity, according to Harry Vis, MT Sr, president.

The newly-initiated members are Brent Adair, AEe Soph, Thomas Barnes, FT Sr, Daniel Chajuss, MT Soph, Roy Cooley, MT Soph, Franklin Frewen, MT Sr, Ronald Grittman, MT SR, Norman Kastner, MT Sr, Donald Pope, MT Soph, William Simpson, MT Jr.

## Song Titles Named For Interfrat Sing

Songs to be sung at Interfraternity Sing in the Auditorium, Thursday May 5 at 7:30 p.m. have been announced by Wayne Sheets, chairman of the Interfraternity Sing committee.

In order of their appearance, the houses, their songs, and their song leader are Sigma Nu, "Knights" and "A Rose and a Star," Daryl Pults; Kappa Delta, "Kappa Delta Garden of Dreams" and "KD Blues," Ilomay Williamson.

Pi Kappa Alpha, "Honeymoon" and "PiKA Stein Song," Ross Miller; Alpha Chi Omega, "Firelight Serenade" and "Alpha Chi Round," Charlene Wess; Sigma Alpha Epsilon, "Violets" and "Marching," Kenneth Stocks.

PI BETA PHI, "I Dreamed of a Dream" and "Follow the Arrow," Carol Antic; Phi Delta Theta, "Drums" and "Always This Song," Sax Stone; Alpha Xi Delta, "Dedication" and "Blue and Gold Dream," Nancy Blackburn; Sigma Phi Epsilon, "Sig Ep Marching Song" and "Sigma Phi Epsilon Sweetheart," Jim Moore. Delta Delta Delta, "Tri Delta Guest Song" and "Under the Moon," Wanda Stalcup.

DELTA TAU DELTA, "Come Drink a Toast to Delta Tau" and "Delta Sweetheart," Ed Gillette; Kappa Kappa Gamma, "God Gave to the Wisemen" and "Kappa Kappa Gamma," Marilyn Doran; Sigma Chi, "Sweetheart of Sigma Chi" and "Marching Song," Dave Schneider; Chi Omega, "We're Southern Born" and "My Chi Omega," Betsy Thomasson; Beta Theta Pi, "The Loving Cup" and "The Beta Marseillais," Charles Amstein.

Two fraternities Alpha Tau Omega and Farmhouse have withdrawn from the sing. Intermission entertainment will be a quartet from Farmhouse. Members of the quartet are Charles Esslinger, Bob Sanford, Darrel Gale, and Leonard Schwab, Sheets said.

## Homecoming Queen May Be Announced Earlier Next Year

The Homecoming committee has made tentative plans to announce the Homecoming queen in advance of the game, instead of at halftime as has been the custom. The queen will be able to rule over several Homecoming activities, and a better build-up for the game will be achieved, Phil Robertson, Homecoming committee chairman has announced.

The identity of the queen will probably be revealed at a faculty talent show, to be held not before Thursday in the week, he said. Tours through the new student union will be another feature of Homecoming, Robertson said.

The committee also has planned a "competitive theme" contest for Homecoming, with all decorations to follow the theme whenever possible, Robertson said.

## ROTC Corps To Honor Dean Babcock

Guest of honor at the spring review tomorrow of the more than 2,000 K-State army and air force ROTC cadets is to be Dean R. W. Babcock, who retires July 1.

The cadets also presented a review Friday afternoon for their commanding officers, both of whom are leaving K-State soon for new assignments.

Col. Laurence C. Brown is going to the Army War College, while Col. Milford Itz is being assigned to the Air War College, Air University, Maxwell air force base, Alabama.

Many of the military awards normally announced at the spring review were presented during the Friday afternoon ceremonies.

Awards to Army ROTC cadets included:

Sons of American Revolution medals were awarded to Richard C. Rice, Gerald L. Zachariah, Eugene M. Cramer, and Gary B. Rogers.

Combat Forces Journal medals were awarded to Duane M. Stoskopf and Roger L. Rankin; the anti-aircraft artillery association ROTC medal to Roger P. Reitz; the American Legion medal to Carl L. Granberg; and the Scabbard and Blade medals to Darold K. Barb and James F. Shane.

Kansas Veterinary Medical association medals were presented to Rollin W. Vickery and Raymond D. Cooper. Roger P. Reitz was designated a distinguished military student.

Awards to air force ROTC cadets included:

Boeing aviation award to Richard A. Pickett; the Fairchild aircraft award to Sax A. Stone. Distinguished students were Vaden E. Davis Jr., George E. Shute, and Lowell E. Socolofsky.

Convair aircraft award went to

(Continued on page 4)

## Awards Given 5 Vet Seniors

Outstanding veterinary seniors at K-State received recognition at the annual Junior American Veterinary Medical association dinner and dance Saturday night.

Hiram H. Faubion was awarded the AVMA Auxiliary award of \$25 and certificate for outstanding leadership and active duty among student organizations and contributions in the School of Veterinary Medicine.

Ridge Scott was awarded the Kansas Veterinary Medicine association's certificate and \$15 for general proficiency in four years of professional study. Richard E. Hudson also received the AVMA certificate and \$10. Rollin W. Vickery and Raymond O. Cooper received gold medals and certificates for the outstanding seniors in veterinary ROTC.

Dean E. E. Leasure, Veterinary Medicine, distributed certificates, signed by the veterinary faculty members, attesting to the membership in Junior AVMA, and administered the Veterinarian's oath to the seniors.

Gerry Day, VM Jr., was toastmaster.

## Student Health

Eight students are patients at Student Health today. They are Bill Cox, Gordon Doyle, Marion Steer, Arlan Stackley, Bill Harris, Joe Horton, and Paul Wallace.

## Fischer To Head Architect Dept.

Appointment of Emil C. Fischer to head the department of architecture and allied arts at K-State was announced today by Dean M. A. Durland, of the School of Engineering and Architecture.

Fischer succeeds Prof. Paul Weigel, who has been head of the department since 1924. Professor Weigel will be retired from administrative duties July 1, under the Board of Regents ruling.

THE NEW HEAD of architecture currently is professor of architecture in charge of senior design courses at Ohio State uni-

## Council Cut Of Candidates To Be Today

The final 30 candidates for election to the Arts and Sciences Council will be chosen at 3 p.m. today in the Student Union by an election committee, Jim Graves, president of the council, said.

There was some doubt yesterday about the validity of the 26 freshmen petitions. The freshmen petitions, however, will be considered with the 28 petitions from upper classmen in the final eliminations today, Graves said.

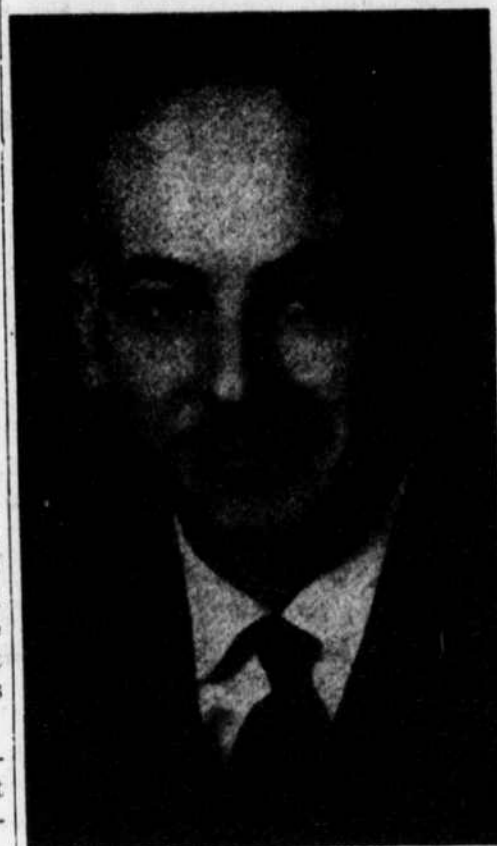

A CLAUSE in the Arts and Sciences charter that says "no student shall be eligible to membership on the Arts and Sciences Council who has not completed two semesters at K-State and who has less than a 'C' average for the previous semester." However, Graves said that he thought freshmen could be elected since the Council will not take office until next fall. This was done last year.

However this clause was misinterpreted last year to prevent pre-veterinary students from petitioning for office. The April 12, 1954, Collegian carried a box from the Council that "there are no representatives for pre-vet since the students are not eligible until they have completed two semesters of college." The assumption was that they would be juniors and in Vet school when they take office.

APPLICATION from pre-veterinary students will be considered this year in the representation from the curriculum of biological science, Graves said.

Biological science gets two representatives; humanities one; social science, four; business administration, three; technical journalism, one; music, one; physical science, one; and geology, one.

According to the charter the election is to be sometime before May 15. The council has not set the exact date yet.

Emil C. Fischer

versity. During several summers he has been visiting critic in architectural design at the University of Michigan and at Cornell. He was on the staff of Pratt Institute from 1937 to 1942, and has conducted seminars in residential design and construction at Columbia University.

In addition to teaching and his own architecture practice in New York, he found time to collaborate on designs for several Broadway productions, including "Thee Men on a Horse," "Awake and Sing," "Gentlemen of the Jury," and "Gentle People."

FISCHER IS a registered architect in New Jersey, and Ohio and has engaged in a considerable amount of private practice. Currently he is president of the Columbus, Ohio, chapter of the American Institute of Architects.

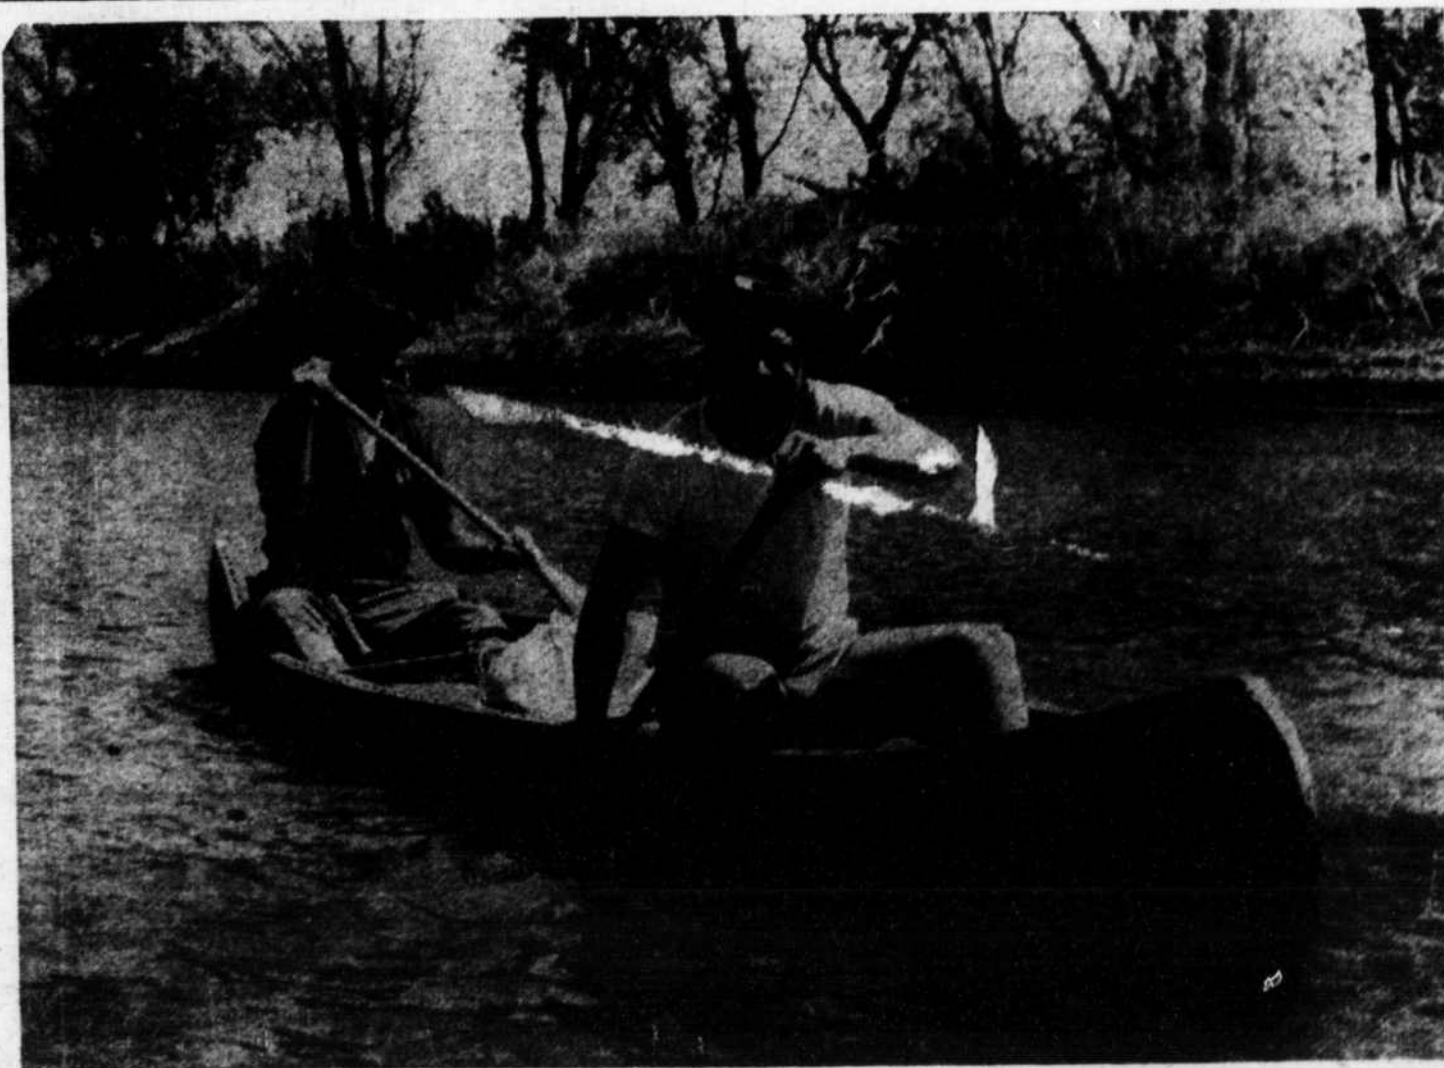

His education includes an A.B. from Columbia College and Bachelor of Architecture and M.S. in Architecture from Columbia University. As an undergraduate he received the Alpha Rho Chi medal and the A.I.A. medal. He spent the year of 1952 in travel through England, France, Italy, and Holland.

Fischer is married and has two children, Craig, 17, a freshman in pre-med at Ohio State; and Keith, 9.

## Bridge Meet Won by Four

Four K-State students who participated in a contract bridge tournament March 19 have been named winners of the K-State tournament, said Phil Sorensen, assistant dean of students. The students are Charles Beazer, ME Jr., Kenton Graber, CHM Sr., Murray Farr, EE, and Edward Mackender, BA Sr.

Sorensen received a letter from J. Wayne Stark, chairman of the National Intercollegiate Bridge Tournament committee, confirming the K-State winners. Teams representing Texas university and Whitman college won the national championship.

Collegian photo by Gary Haynes

LAWRENCE—52 HOURS—Ron Webb, PrL Sr, and Franklin Houser, PrL Sr, shove off for Lawrence in their 18-foot canoe. Leaving Manhattan Friday at noon, they arrived in Lawrence early Sunday, 52 hours later. The two carried provisions for four days, paddled by day and camped at night. An earlier attempt failed when high winds and waves forced them ashore near Maple Hill.

# Big 4 Austrian Talks Underway in Vienna

Compiled from the Wires of United Press

By DICK CARR

The Big Four ambassadors to Vienna sat down today with the Austrian foreign minister to begin work on a state treaty restoring to the nation the independence it lost in 1938 when it was annexed by Nazi Germany.

The conference will decide whether Austria is to become a sovereign nation neutral between East and West or remain under four power occupation.

Delegations of the United States, Britain, France, Russia and Austria met in the marble conference chamber of the four-power allied council building this morning. There were optimistic statements from all, but there was a general realization the way ahead was difficult.

The four power ambassadors meeting is one of a series paving the way for a four power foreign ministers meeting later this summer. Western Big Three delegates have been meeting in London to map out definite plans for the formal Big Four talks.

A clue to the success of the foreign ministers meeting will come from the Vienna treaty meeting.

## SEATO Representatives Disagree on Defense

Baguio, P.I.—SEATO military planners clashed today on how the eight allied nations, including the United States, will meet Communist aggression in Southeast Asia.

The second and probably last week of secret conferences to put teeth into the Manila Pact opened with a new sense of urgency brought on by the South Viet Nam crises.

Philippine Sen. Joe P. Laurel ruffled the SEATO meeting by announcing he was opposed to sending Filipino troops into a SEATO defense area.

Thailand's chief delegate, Maj. Gen. Surajat Charuseni, said his nation already is capable of defense against Communist aggression.

## AFL, CIO Heads Plan Merger Convention

Washington—AFL and CIO officials met today with plans to complete preparations for the final step in their merger—a joint convention by the end of the year.

There were indications that the joint unity committee may be able today to approve a final draft to a constitution for the merged organization, arrive at a proposed name for the combined AFL and CIO, and agree on a date and place for a joint convention.

There was some expectation that they might decide to postpone both the AFL and CIO 1955 conventions until December and hold a joint ratifying convention immediately afterwards at the same place.

## Japan Makes Trade Pact with Red China

Tokyo—Japan and Communist China have reached agreement on a trade pact which falls far short of promises to "open the China market" to Japan, it was reported today.

A group of Japanese businessmen and politicians and a Peiping trade delegation agreed to exchange 30,000,000 pounds sterling (\$84,000,000) worth of goods in the next 12 months—about the same as Japan's trade with Nationalist China.

Negotiations said the twin barriers of the embargo on certain strategic goods shipments to Communist China and unwieldy financial arrangements will cut the total by one-third or more.

## Weather Forces 7th Postponement of Atom Test

Las Vegas, Nev.—"Operation Cue," the nuclear detonation designed to demonstrate defenses of American cities against atomic attack, was postponed for the seventh straight time today by unfavorable weather conditions. Hopes of setting the 40 kiloton device off in its tower a few blocks north of survival town on Yucca Flat today were dashed last night when meteorologists found conditions were "not acceptable," presumably because of adverse wind and clouds.

(The information in this column is obtained 24 hours before publication from the social calendars kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

# Colleges Have Relays In Soapboxes, Pushcarts

By PHYLLIS OLSON  
of the Collegian Staff

Women motorists at the University of California will be given an opportunity to demonstrate their skill in the "Powder Puff Push" division of the Theta Xi Pushcart Relays May 6. Entries in this division will have three women relay pushers propelling the cars, according to the Daily Californian.

An unusual type of soap box derby event, called the "Campus Town Races," will be introduced at the University of Colorado this year. A relay-type race, the soap box must be driven by a female and each team must have five men and a coach. Each man will push the car once around the parking lot with the girl at the wheel. Organizations must construct their cars at a maximum cost of \$15, said the Colorado Daily.

Beginning with the fall semester senior women at the University of Colorado will not have to keep hours. Individual keys will be given to each senior woman.

Calling hours for men at wo-

men's houses will be longer next year at the University of Kansas. Calling hours for men will start at noon on weekdays next year instead of at 4 p.m., said the University Daily Kansan. For summer school, closing hours were extended to 11 p.m. These changes were brought about by the AWS organization.

Officers and members of sixty inactive campus organizations at Indiana University, Bloomington, will be subpoenaed to appear before the Senate Activities Committee at the college soon. The members will have to explain why they have been laggard in promoting campus activities. According to the Indiana Daily Student, the constitutions of campus organizations are subject to revocation unless their officers can show that their groups are functioning with a purpose.

The University of Minnesota library recently received more than 1,700 books from a former General Mills executive. Much of the recent donation of books is general literature, history, biography, economics, and fiction, said the Minnesota Daily.

## Rhoades To Pitch Against Cyclones

K-State's baseball team will return to action today as it faces Iowa State at Griffith stadium. A second game with the Cyclones is scheduled for tomorrow. Starting time is 3 p.m.

Jim Rhoades will be the Cats' hurler. Rhoades has a 2-2 record for the season.

The Wildcats return to loop play after a week's layoff. They took advantage of this break, however, by playing and winning a pair of games with the K-State freshmen.

IOWA STATE comes to Manhattan from Nebraska where they split a two-game series with the potent Cornhuskers.

In the first game, the Cornhuskers defeated Iowa State, 16-0, but Iowa State bounced back to take the second game, 5-3.

Iowa State now has a loop mark of 1-2, and an overall mark of 4-5.

Five lettermen from last season are on the Cyclone squad—two pitchers, one catcher, one infielder, and one outfielder.

In other games played by loop members last week, Nebraska defeated Kansas twice, 13-1 and 10-0. Colorado lost to Wyoming, 8-7, then defeated Regis, 24-4.

Defending Big Seven champion Missouri was defeated twice by Oklahoma, 4-2 and 4-0. The Sooners were defeated earlier in the week by Oklahoma A&M, 8-7.

### CONFERENCE STANDINGS:

	W	L	Pct.
Oklahoma	2	0	1.000
Nebraska	5	1	.833
Colorado	1	1	.500
Missouri	1	2	.333
Iowa State	1	2	.333
Kansas State	1	3	.250
Kansas	0	2	.000

## Tennis Team Wins From Wichita, 5-2

The K-State tennis team brought its season record up to the .500 mark Saturday with a 5-2 victory over Wichita on the local courts. The team has won three matches and lost three.

### The results:

Allen Austin (W) defeated Richard Circle, 6-1, 6-2.  
Bob Hansen (KS) defeated Dick Peters, 8-6, 6-3.  
John Deam (KS) defeated Marion Shropshire, 6-4, 6-1.  
Phil Gearheart (W) defeated John Teas, 6-2, 6-4.  
Don Wainscott (KS) defeated Dan Bailey, 6-0, 6-1.  
Deam-Circle (KS) defeated Austin-Peters, 6-4, 6-4.  
Hansen-Teas (KS) defeated Shropshire-Georheart, 6-2, 6-2.

## Cat Trackmen Place Second At CU Relays

K-State track entries captured second place in the Colorado Relays Saturday by winning three relay events and one individual event.

K-State entries in the Drake Relays placed in three of the four events in which they were entered.

At Boulder, a relay team composed of Jerry Mershon, Jim Loomis, Dolan McDaniel, and Marvin Chiles won the 440 and 880-yard relays.

IN THE MILE relay, Joel McGill replaced Mershon on the team, and the Wildcats captured another first place.

Dolan McDaniel won the 100-yard dash, with Jerry Mershon finishing second.

In other events at Boulder, Ray Beikman placed second in the broad jump, Fred Wingert finished in a two-way tie for second in the pole vault, and Joe Powell was third in the javelin.

IN THE DRAKE meet at Des Moines, Iowa, Ray Russell placed second in the 440-yard intermediate hurdles, and Paul Miller finished in a five-way tie for second in the pole vault.

The 480-yard shuttle hurdle relay team of Gary Dounnik, Jack Railsback, Mike Cornett, and Russell finished fourth.

Next Saturday the Wildcat track team is scheduled to go to Lawrence for a dual meet with KU.

## Sigma Chi Wins, 3-1, In IM Softball Game

Sigma Chi defeated Kappa Sigma, 3-1, in a make-up softball game Saturday afternoon. The Sigma Chi's have only a tie with Alpha Gamma Rho to mar a perfect record.

All games scheduled for Friday were postponed because of a joint army-air force ROTC drill.

With a total of 16 games yet to be played, the group leaders and contenders in the fraternity and independent brackets are as follows:

### Fraternity

Group I—Beta Theta Pi, 3 wins, 1 loss; Sigma Phi Epsilon, 3-1; Phi Kappa, 2-1.

Group II—Won by Beta Sigma Psi, 5-0.

Group III—Sigma Nu, 3-1; Farm House, 3-1.

Group IV—Alpha Gamma Rho, 3 wins, 1 tie; Sigma Chi, 2 wins, 1 tie.

### Independent

Group I—Won by Jr. AVMA, 4-0.

Group II—Hillbillies, 3-0; Huio-Makules, 3-0.

Group III—Jones Boys, 3-0; House of Williams, 3-1.

## IM Swimming Meet To Begin Tonight

Intramural swimming gets under way tonight at 7 p.m. in Nichols gym, Frank Myers, director of intramurals, said.

Last year, Beta Theta Pi scored 58 points to Sigma Chi's 50 to win the fraternity swimming crown. The Hillbillies scored 51 points to Jr. AVMA's 46 to take the title in the independent division.

Preliminaries on tonight's agenda are in the 40-yard freestyle, 80-yard breaststroke, 80-yard backstroke, and 100-yard freestyle.

Preliminaries in the remaining events are scheduled for tomorrow night, while all finals events will be run off Wednesday night.

## A's Beat Senators, 16-10, Move Into Fifth Place

Kansas City, Mo. (U.P.)—It may come as a surprise to the majority of baseball fans throughout the country, but the Kansas City Athletics are not in last place in the American league.

As a matter of fact, the potent-hitting, so-so pitching A's are in fifth place in the junior circuit, 3 games out of the first division.

And it was their 16-10 3 1/4-hour victory over the Washington Senators yesterday that helped put them there.

TONIGHT the A's play Washington again before closing their home stand with single games Tuesday and Wednesday against last-place Baltimore. The Baltimore series precedes a 20-game road trip for the Athletics.

Cloyd Boyer (1-0) is scheduled to go against Washington's John Schmitz (2-0) tonight.

Cleveland, of course, helped the A's by tripping the Boston Red Sox twice, dropping the Beantowners to sixth place, .023 behind Kansas City.

HITTING IS the hallmark of the A's thus far. Only three times in 15 games have Kansas City hurlers been able to go nine full innings.

Bobby Shantz (1-2) did it against New York, Boyer did it against Boston, and Alex Kellner (2-0) performed, what in Kansas City is called a feat, against Chicago. This gives the A's an average of almost three pitchers a game.

On the other hand, Kansas City, which was considered a long shot to win the pennant and was almost unanimously picked to end in the cellar, has power at the plate.

FOR INSTANCE, against Washington the A's got 16 hits and 16 runs to match the Senators' not-shameful 10 hits and 10 runs.

Vic Power, Kansas City first baseman, is third in American League batting with a .414 average. Power also is tied for third in the league in runs scored, having

Chicago 8-4, Philadelphia 7-2  
St. Louis 4-0, Pittsburgh 3-7

ing crossed the plate 17 times. Shortstop Jim Finigan is tied for fourth with 16 runs.

For the A's it was another comeback trail yesterday in which manager Lou Boudreau called on four pitchers while his batters slapped around six Washington hurlers. It was the first meeting of the season between the two clubs.

Art Ditmar started the game for the A's in shaky fashion, allowing five runs in the opening frame on a hit batsman, a single, a walk, and a sacrifice and the first of two home runs by Ed Fitzgerald. The A's came back with three runs in the first inning and two more in the second.

WASHINGTON opened a barrage in the fourth inning to score four more runs. Eddie Yost homered, Pete Runnels singled after Ditmar gave up a walk, Mickey Vernon tripled, and Fitzgerald rapped another over the fence. Arnie Portocarrero then was summoned to stem the tide.

The A's got two runs in their half of the fourth, Washington scored one in the fifth, and Kansas City put across two in the fifth and one in the sixth to tie the game, 10-10.

A SEVENTH-INNING splurge by Kansas City earned six runs and the victory margin. Dean Stone, who relieved Ted Abernathy, second of the Nat pitchers, walked Jim Finigan, the winning run. Camilo Pasqual came in to relieve Stone and Gus Zernial promptly doubled Finigan home to give the loss to Stone.

Calvin B. Coffin; the Lockheed aircraft award to Martin K. Eby; the North American aviation awards to Gerald A. Bradley, Fred C. Casterline, Jerry L. Merzhon, Ralph S. Titus, Donald H. Lenhart, and Stanley W. Brama.

Republic aviation award went to John B. Slaughter; Chicago Tribune gold medals to Sam Peplatt and Ray Z. Zimmerman; silver medals to Gaylord M. Stunkel and Richard D. Weidler.

Sons of the American Revolution medals went to Leo W. Stolzer, John E. Ricklefs, Nathan R. Greene, and Ora L. Hoyt; K-State letter awards for rifle marksmanship to Braman, Floyd H. Bayer, John T. Gangel, George J. Vetsch, Terry L. Poling, Paul C. Parsons, and Donald D. Argabright; Douglas Aircraft traveling trophy to Miss Jean Cooper, honorary cadet colonel.

## Alpha Kappa Psi Pledges Nine Men

Alpha Kappa Psi, professional business fraternity, had formal pledging ceremonies for nine new pledges.

Pledged were Joseph Breitenstein, BA Fr, Don Weixelman, AEC Sr, Bob Sellberg, BAA Jr, Bob Steele, BA Fr, Allen Muecke, BA Jr, David Abernathy, BA Jr, Elmo Lund, BA Jr, David Chambers, BA Soph, and Theodore Leonard, BA Jr.

## Med Tech Group Announces Pledges

New pledges and initiates of Alpha Delta Theta, honorary medical technicians' club, have been announced by Dollie Lewis, retiring president of the organization.

The initiates are Charlotte Douglas, Judy Deewall, Ann Dennis, Mildred Enegren, and Sandra Kail, all sophomores.

Freshman pledges are Jolene Boehner, Jean Cooper, Rose Mary Groyon, Marcie Hesler, Patricia Lutz, Marion McKelvy, Barbara Niccum, Nancy Pfeiffer, Etta Mae Sanderson, Shirley Younkin, and Sally Smith.

Sophomore pledges are Carmen Crossfield, Lila Lemmer, Barbara Mattox, Carrie Beth Moffatt, Mary Ann Stevenson, and Mary Jane Whipple.

## Geology Honorary Elects Officers

Richard Hooker, Geo Jr, has been elected president of Sigma Gamma Epsilon, honorary scholastic fraternity for geology majors, for a one year term.

Other officers are Gene Ratcliff, Geo Jr, vice-president; Harold Brown, Geo Jr, secretary; and Paul Strunk, Geo Jr, corresponding secretary.

The Army has only 345 officers and enlisted men in its worldwide military attache system.

KANSAS STATE COLLEGIAN  
Monday, May 2, 1955-4

## Ballard Elected Med Tech Prexy

Virginia Ballard, BMT Soph, was elected president of Alpha Delta Theta, honorary medical technicians' club.

Other officers are Margie Lemmon, BMT Jr, vice president; Jean Cox, BMT Soph, corresponding secretary; Kay Randall, BMT Soph, recording secretary; Ann Dennis, BMT Soph, treasurer.

Sheila Dicken, BMT Soph, program chairman; Pat Decker, BMT Soph, social chairman; Merleen Trout, BMT Jr, projects chairman; and Sue McDowell, BMT Soph, historian.

## Faculty Honors Dietetics Seniors

Dietetics seniors and graduate students were entertained by faculty members of the department of dietetics and institutional management at the home of Mrs. Bessie West, head of the department.

Students honored at the dinner were Wilma Larkin, DIM Sr, Elizabeth Burke, DIM Sr, Marian Hamilton, DIM Sr, Luetta Bartel, DIM Sr, Vida Shippy, DIM Sr, Pat Traugott, DIM Sr, Margaret Harmon, DIM Sr, Alberta Holder, DIM Sr, Nel Plattewu, IMG Gr, Kay Ohata, IMG Gr, and Shirley Judy, IMG Gr.

## Debate Fraternity Chooses Pledges

Harry Knapp, PrL Jr, and Tom Bowman, ChE Fr, were recently elected into membership in Delta Sigma Rho, national honorary debate fraternity, Don Cordes, president of local chapter, said. Initiation is scheduled for May 10.

NUMBER 134

## ROTC Review Today To Honor Babcock

Rodney W. Babcock, retiring dean of the School of Arts and Sciences will be honored at a joint Army and Air Force ROTC review today at 3:30 p.m. on the Military science drill field.

Dean Babcock, Col. Laurence Brown and Major Dale Ward of the Military Science department; Col. William Stevenson, ROTC inspector; and Dean A. L. Pugsley, dean of academic administration, will drive around the lines in three jeeps which have been provide for the occasion.

There will be 880 air force cadets on review, 692 army cadets, and 90 members of the Angel's Flight.

DEAN PUGSLEY will present Dean Babcock with a citation from the Military Science department.

The citation reads:

"The Department of Military Science and Tactics and the Department of Air Science do hereby make public recognition of the services rendered by their military co-ordinator, Dean Rodney W. Babcock, dean of the School of Arts and Sciences, Kansas State College of Agriculture and Applied Science. Dean Babcock's diligent efforts in co-ordinating administrative arrangements between the ROTC detachments and Kansas State College have been of immeasurable value both to the military departments, and to the College. This scroll is presented as tangible evidence of the sincere appreciation conveyed by the military department to Dean Babcock for his contribution to the ROTC program."

LT. GOV John McGuish, who was scheduled to be at the review, informed the ROTC department yesterday that he would be unable to attend because of other urgent business.

President McCain will also be unable to attend the review.

Following the joint review, the Army ROTC will have its annual formal inspection. Col. Stevenson of Washington University, St. Louis, Mo., will inspect the troops.

The formal inspection, originally scheduled for tomorrow, was moved up in order to pay tribute to Dean Babcock, Col. Brown said.

## Registration Today, Tomorrow for Teas

Panhellenic teas for women interested in going through rush week next year will be Saturday, May 14. Registration for the teas will be in Anderson hall today and Wednesday.

Girls going to the teas will be divided into groups and will go through each of the sororities. Attendance at the teas will not require attendance to rush week.

## Rain . . .

Topeka, (U.P.)—A moderate rain belt is moving eastward across Kansas today bringing with it cloudy skies and some hail.

U.S. Weatherman Tom Arnold said it passed southwest and central Kansas last night and should be arriving in the eastern half of the state sometime today.

## No Action By Council On Traffic

Gerry Day, student body president, told Student Council members last night that he had been told by the attorney general's office that the attorney general had never interpreted the question of whether monetary fines for campus traffic violations would be illegal or not.

In light of the new information, the Council reached no decision on punishment for campus parking violations.

IT WAS LEARNED this morning that Attorney General Edward F. Arn informed A. R. Jones, dean of financial administration, by letter in July, 1947, that Arn was of the opinion "that the Board of Regents and Administrative heads could not lawfully assess and collect fines for campus traffic violations."

In a letter to Board of Regents Secretary Hubert Brighton, dated May 6, 1953, Attorney General Harold Fatzner re-affirmed the opinion of Arn—that a fining system for traffic violations would be illegal.

The Council last night selected five more members for the traffic committee, which will study the traffic problem further. New members are Bunny Cowan, Psy Fr; Jim Graves, BA Soph; Keith Swenson, ArE Soph; Pat Wilkerson, BA Soph; and Bill Kennedy, BAA Jr.

THE COUNCIL also heard a report on the Association of Women Students given by Avis Tromble, HE Jr, delegate to a recent AWS convention in Lawrence. The possibility of establishing AWS on the campus was discussed.

Campus beautification was discussed for future action by the Council. The Council felt that something should be done to improve the campus lawn and control the weeds.

Other problems discussed were improvement of freshman orientation, stimulation of student interest in student government, teacher evaluation, and curriculum evaluation.

## Union Board Picks Seven Chairmen

Seven committee chairmen of the Union program council were appointed at the Union governing board meeting last night.

Those selected from the 102 applicants were Conrad Smith, Gov Jr, dance; Gary Rumsey, AEd Fr, movies; Delaine Smith, HEA Jr, music, library, and art; Roger Tointon, Ar 02, hospitality; J. R. McLeland, Psy Sr, photography and crafts; Carl Dahl, AEd Soph, special events; and Peter Patchin, FT Jr, games.

These seven and the chairman of the promotion committee will make up the membership of the Union program council. Officers of the council were chosen last week. They are Ed Gillette, VM Jr, chairman; Sharon Diamond, Soc Soph, assistant chairman; and Mary Lu Compton, Sp Fr, secretary.

Members of the above seven committees will be appointed next Monday at a joint meeting of the Union governing board and the Union program council. The committees will be made up of the 102 applicants according to the preferences they stated, Leon Armantrout, board chairman, said.

## Student Health

Eight boys and two girls are patients at Student Health today. They are Marylyn McCready, Ruth Knapp, Bill Cox, Gordon Rieg, George Betz, Arlan Stackley, Roland Swim, Bill Harris, Joe Horton, and Paul Wallace.

## Arts & Sciences To Elect Council

Candidates for election to the Arts and Sciences Council were picked last night from the petitions submitted to the Council.

The elections will be tomorrow from 8 a.m. to 5 p.m. in Anderson hall. In order to vote students must be members of the School of Arts and Sciences and present their activity tickets.

## Applications Available For SGA Positions

Applications are being taken for apportionment board, recording secretary of Student Council, and attorney general of the Tribunal, Gerry Day, student body president, said.

Students wishing to apply for these positions should write a letter of application giving interest and qualifications. Application letters should be left at the dean of students' office. Applications are due by 5 p.m. Friday.

## Chimes Taps 14 Sophomores

Fourteen coeds were tapped for membership in Chimes, junior women's honorary, last night.

New members are Marjorie Badeker, DIM Soph; Margery Cornwell, Eng Soph; Sharon Diamond, Soc Soph; Gaye Fryer, Clo Soph; Arline Gray, Eng Soph; Marjorie Hamon, HE Soph; Charlotte Henry, HEJ Soph.

Eugenia Jern, HE Soph; Marylyn McCready, Eng Soph; Shirley Sarvis, HE Soph; Marilyn Smith, MNT Soph; Ramona Tucker, HT Soph; Joan Trimmell, HE Soph; and Betty Winkley, HE Soph.

Initiation ceremonies and a breakfast honoring the new members were held this morning.

## Nay To Head State Teachers

Merle Nay, vice-president of the K-State Future Teachers of America, was elected state FTA president at a convention Saturday at Washburn university. Lois Force, EEd Jr, was elected corresponding secretary of the state organization.

Nay will attend a national education conference in Chicago and national FTA meetings in Washington, D.C. this summer.

John W. DeMand, associate professor of psychology, is the new sponsor of the state FTA.

## Golfers Give \$1,000 To State for Turf Research Work

The U.S. Golf association has made a \$1,000 grant to K-State for turfgrass research work here, Dr. W. F. Pickett, horticulture department head, announced.

The K-State grant is part of more than \$11,000 from the national golf fund, which was distributed through the golf association's green section committee for research. It was presented to President McCain by Robert W. Willits and Chet Mendenhall, both of Kansas City, Mo., representatives of the U.S. Golf association.

The money for research comes from the National Golf tournament sponsored by LIFE magazine and the USGA. The \$1,000 presented K-State came from the 1954 golf tournament at Baltusrol when Ben Hogan gave handicaps and defeated challengers throughout the U.S.

## Only One Violator Tried by Tribunal

Only one traffic violation case was tried by the Tribunal last night.

Four tickets credited to Herbert Schultz, BA Soph, were transferred to his wife's name since he did not own the car. Mrs. Schultz works for the College, and the case was turned over to the dean of the school in which she is employed. The car has only had a staff sticker for about two weeks.

FLY IN THE OINTMENT—Charlene Brooks, HE Soph., auditions for honors as person "most off key" during the Pi Phi song practice last night. Agreeing that her sharps were sharper than most are, left foreground, Carol Antic, FdN Jr, Sharon Talbott, EEd Soph, and standing, Marilyn Dunn, EEd Jr, Barbara Hoff, Hst Sr, Norma Mase, HE Jr, and Carol Clark, Mth Sr.

# Viet Nam Troops Clean Out Rebels

Compiled from the Wires of United Press  
By DICK CARR

Saigon, Indochina—Government troops opened an extermination campaign today against the last groups of rebels in the outskirts of Saigon. Bitter fighting developed when the insurgents fought back with tanks.

The government announced earlier it had thrown the last rebel forces out of Saigon's twin city of Cholon, but new nests were discovered along the Chinese Arroyo (canal) and several battalions moved in behind a heavy mortar barrage.

French officers followed the fighting from an army helicopter fearful that the battles raging near the Nhabe bridge would spread to a huge French army transmission depot. More than 35,000 French troops were alerted for trouble.

The new battles blazed as the revolutionary junta backing Premier Ngo Dinh Diem called for mass demonstrations and rallies throughout South Viet Nam backing its resolution dethroning Emperor Bao Dai and proclaiming Viet Nam a republic.

## Austria Fears a Soviet Alliance

Soviet plans to turn a projected eight-nation Eastern European "NATO" into a reality raised fears today in Austria that its hopes for sovereignty would be threatened by such an alliance.

The Big Four is now meeting in Vienna to write a treaty restoring Austria's freedom, but Austrians said they feared the new Communist block would exert strong pressure on its Eastern frontiers once it is free.

Moscow radio announced today that Russia and the seven satellite nations and Chinese Communist observers would meet in Warsaw May 11 to discuss plans for a joint military command and to conclude a mutual aid and friendship pact.

The eastern nations involved are East Germany, Poland, Czechoslovakia, Romania, Albania, Bulgaria and Hungary. The frontiers of Hungary and Czechoslovakia surround Eastern Austria in a pincers more than 300 miles long.

## Stern Measures Proposed in Southern Strikes

Atlanta—The governor of one southern state involved in an eight-week communications strike indicated today he would ask the legislature to give him powers to operate public utilities and in another state a fresh outburst of violence was reported.

Gov. James E. Folsom of Alabama issued a statement sympathetic to the Communications Workers of America (CIO) and said he expects to recommend to the legislature, which convenes today, "some kind of public operation" of a strike-bound company.

A dynamite blast smashed windows of a telephone exchange at Knoxville, Tenn., early today and rocked homes in a suburban neighborhood, police reported.

Police said the dynamite, set off between the exchange and another building, smashed windows of both structures and of homes 100 yards away but no one was injured.

## Navy To Have Atomic Warships in Ten Years

Washington—The U.S. Fleet will boast a "variety of types" of nuclear-powered warships within 10 years.

The navy, already making "great progress" with nuclear submarines, now is "on the threshold of developing advanced atomic reactors for large surface ships."

Adm. Robert B. Carney, chief of naval operations, made those statements today to the United Press in written answers to questions. Questions were submitted following congressional criticism that the navy was "dragging its feet" in converting to nuclear propulsion and was "a little slow" in developing new weapons for the Nautilus class of atomic submarine.

The criticisms came respectively from Sens. Henry M. Jackson (D-Wash.) and Clinton P. Anderson (D-N.M.).

## Final Examination Schedule

Second Semester 1954-55

	7-9 am	9-11 am	12-2 pm	2-4 pm	4-6 pm	7-9 pm
Monday May 23	W 9	Writ. Comm. I & II	W 2	T 2	T 4	Prin. Sec. Educ. Gen. Psych. Ed Psych I&II
Tuesday May 24	Fresh Chem. Child Guidance I	T 10	T 11	Intro. Soc. Science I Econ. I Bus. Org. & Fin. Farm Org.	W 4	Man's Phy Wd Gen. Phy I&II Eng. Phy I&II Hlhd Phys. Desc. Phys. Agric. Phys.
Wednesday May 25	W 8	Intro. Soc. Sci. II and T 8	Biol. in Rel. to Man General Botany	Intro. to Humanities and W 11	Welding Family Rel. Bus. Law I Foods I	
Thursday May 26	T 9	W 1	W 3	T 3	Metals & Alloys Bus. Law II	
Friday May 27	W 10	T 1				

I. Tu 8, Tu 11, etc. All classes meeting at the various class hours on a schedule which includes Tuesday, i.e., Tu, TT, TTS, Daily, TWTF, MTWTF, TWTF, TuFS, TuS, TTFS, MTu, MTWF, MTWT, and all classes meeting at the various hours on ThS, and ThFS.

II. W 1, W 2, etc. All classes meeting at the various class hours on a schedule which includes Wednesday, but does not include Tuesday, i.e., MWF, WF, WS, W, MThS, MWS, and all classes meeting at the various hours on MTh, MS, MF.

III. Classes meeting only once a week on M, Th, F, or S will be examined during the last regular class meeting May 16-21.

Mondays only—Mon., May 16  
Thursdays only—Thur., May 19

Fridays only—Friday, May 20  
Saturdays only—Sat., May 21

(Classes meeting on Tuesdays only or Wednesdays only follow the regular schedule above.)

IV. Note that special examination periods are scheduled for the following courses: Agricultural Physics, Biology in Relation to Man, Business Law I & II, Business Organization & Finance, Descriptive Physics, Economics I, Educational Psychology I & II, Engineering Physics I & II, Family Relations, Farm Organization, Foods I, Freshman Chemistry, General Physics I & II, General Psychology, Household Physics, Intro. to Humanities, Intro. Soc. Sci. I & II, Man's Physical World, Child Guidance I, Metals and Al-

loys, Prin. Second. Educ., Welding, Written Communications I & II.

V. Candidates for degrees are expected to attend classes up to the beginning of the college final examination period (May 23). Each instructor will determine the manner in which his students who are candidates for degrees shall complete their work in his course in accordance with policies of the department. (Minutes of General Faculty, August 3, 1949.)

VI. Final examinations are a requirement of the College and must be given during the final examination period as scheduled here.

VII. No classes shall meet for recitation during the five days of the examination period, and no examination period (May 23). this period, except as scheduled.

## Our Readers Say—

# Must Solve Problem Before Expelling Victims

To the Editor:

There's an old saying which goes: "Ask a man who owns one". In my case "Ask a man who owns several hundred". I'm talking about those blushing, pink, little pasteboards known affectionately to K-Staters as parking tickets.

This letter is directed to the proposed "solution to the traffic regulation problem" by the traffic committee. This "new-deal" is designed to better control students parking and to make them have more "respect" for the traffic system. (Respect, it seems comes from expulsion from school). The students I'm sure are aware of the problem (example: 6,240 violations since fall). At present if you drive, you can't park; and if you park, you can't drive. But let's not punish for the evil created by the problem. The solution is to do something about the problem. By its own admission the

committee states that offenders are mounting by numbers. And now the committee would get even tougher with all the offenders, under its new "penalty system".

Under this plan two tickets are given without any trouble. But watch out for that third one. Out of the clear blue sky comes the "word"—student restricted from campus for the rest of the year. The student must also appear before the dean of students within 24 hours after the "word" and, the committee adds, any failure to comply will result in immediate dismissal from school. Then, almost apologetically, the committee adds: "...he could appeal this fourth ticket to the Tribunal. The fourth ticket would be the only one that could be appealed." The offender is ALWAYS guilty on the first three - with no right to prove himself otherwise. The old policy of "guilty until proven innocent."

There is plainly not enough parking area on campus property. Either there must be more parking lots created, or no one should be allowed to drive or park on campus. The present rules regarding parking are often not clear. (Even the Traffic Control Board and the Tribunal disagree often on how to interpret the rules).

Last fall in the "gripes" assembly I suggested a plan for taking care of parking offenders. This was never acted upon, or even discussed as far as I could ever ascertain. I suggested a time period of restriction from campus based on the number of tickets received. (Three months suspension for three tickets, four months for four tickets and so on, up to six tickets when the student would be restricted for the remainder of the year.) Then if another ticket showed up dismissal would result.

To my way of thinking to dismiss a student from school on the basis of a few parking tickets is completely out of proportion.

Shore up the traffic rules, and try to solve the parking situation, instead of trying to put an ax on the wrong end.

Ralph S. Titus, Sp Sr.

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendars kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

Tuesday, May 3

**LARRY HARTSHORN**, Wildcat catcher, tags out Jerry Steiert of Iowa State at home plate in the top of the fifth inning to halt a Cyclone uprising. Steiert tried to score from third as the Wildcats were attempting to pick a man off first base.

## Baseballers Lose, 10-6, To Play Again Today

By MYRON SEIRER

K-State's baseball team, defeated 10-6 by Iowa State at Griffith stadium yesterday, will try to get back on the winning trail this afternoon at 3 in the second game of the series.

The Wildcats carry a 1-4 Big Seven record into this afternoon's game. They stand at 3-5 in all games played.

Iowa State started yesterday's scoring in the second inning as Arnie Gaarde hit a home run with two on base to give the Cyclones a 3-0 lead.

**THE CYCLONES** continued the scoring in the third with 2 runs, and increased their lead to 9-0 with 4 in the sixth.

K-State threatened in the first inning with runners on second and third and two men out. But Dale Drum, Iowa State's starting pitcher, struck out Larry Sturgeon to retire the side.

In the sixth, the Wildcats scored 2 runs and had the bases loaded when the side was retired.

Bill Sinderson, K-State's second pitcher, opened the bottom of the seventh with a single as the Wildcats started a rally that netted 3 runs to bring the score to 9-5.

**THE CYCLONES** picked up their final run in the eighth on two hits, an error, and a hit batsman.

K-State was trailing 10-5 in the bottom of the ninth as Bob Boyd stepped to the plate and hit a home run over the right-center-field wall.

After two were out, Steve Hennessey hit a single, and Dick Coupe moved Hennessey to second as the Cyclone second baseman muffed his ground ball. The rally ended at this point as Kerry Cliff-

ford forced Coupe at second for the final out.

Dale Drum, starting and winning pitcher for Iowa State, allowed 2 runs on 5 hits in 6 innings, while striking out 5 and walking 2.

Steve Kostakos hurled the last 3 innings for Iowa State and allowed 4 runs on 4 hits, while striking out 4 and walking 3.

**JIM RHOADES** was losing pitcher for K-State as he pitched 5½ innings and allowed 9 runs on eleven hits, while striking out 5 and walking 3. Rhoades now has a 2-3 mark won-lost for the season.

Bill Sinderson hurled the final 3½ innings, allowing 2 runs and 4 hits striking out 1, and walking none.

## IM Swimming Preliminaries Tonight at 7

Preliminaries set for tonight at 7 are in the 120-yard medley relay, 160-yard freestyle relay, and 80-yard individual medley relay. Finals will be tomorrow night.

Last night's results:

### 40-Yard Freestyle

Fraternity—Pat Roberts, Pi Kappa Alpha, 22.0; Jerry Warner, Sigma Phi Epsilon, 22.4; Charles Jolley, Sigma Nu, 22.4; Dick Haines, Delta Tau Delta, 23.2; Henry Pierce, Beta Theta Pi, 23.4.

Independent—Jerry Fitzgerald, Hillbillies, 20.1; Milton Mathews, Hillbillies, 21.7; T. Onuma, Hui-O-Makules, 21.8; Ira Kaminsky, Hillbillies, 22.4; Alton Wilson, Jr. AVMA, 23.1.

### 80-Yard Breaststroke

Fraternity—Don Unruh, Sigma Alpha Epsilon, 1:06; C. Q. Williamson, Phi Delta Theta, 1:07; Dirks McGinnis, Sigma Nu, 1:07; Pat Loyd, Delta Tau Delta, 1:09; Bob Griffith, Sigma Alpha Epsilon, 1:09.

Independent—Bill Cole, Hillbillies, 1:12; T. Onuma, Hui-O-Makules, 1:11.9; Ira Kaminsky, Hillbillies, 1:17; Larry Nelson, 1:37.

### 80-Yard Backstroke

Fraternity—Stan Knowles, Sigma Alpha Epsilon, 1:06.4; Bob Ives, Kappa Sigma, 1:07.3; Dirks McGinnis, Sigma Nu, 1:08; Roger Craft, Sigma Phi Epsilon, 1:10.5; Jon Hunsberger, Sigma Chi, 1:11.3.

Independent—Jim Vines, Hillbillies, 58.2; Larry Northway, Hillbillies, 1:10; Earl Tobler, Jr. AVMA, 1:17.2; Joe Ward, Jr. AVMA, 1:26.7; Larry Burdge, YMCA, 1:28.5.

### 100-Yard Freestyle

Fraternity—Dave Dickens, Sigma Alpha Epsilon, 1:04.8; Charles Jolley, Sigma Nu, 1:06.8; Bob Griffith, Sigma Alpha Epsilon, 1:07.7; Henry Pierce, Beta Theta Pi, 1:12.3; Bob Ives, Kappa Sigma, 1:14.

Independent—Don Matsuoka, Hillbillies, 1:03.5; Milton Mathews, Hillbillies, 1:05.5; Bill Cole, Hillbillies, 1:12; Chester Ward, Jr. AVMA, 1:41.5.

## Second Place Cubs No Surprise to Hack

By UNITED PRESS

The second-place Chicago Cubs are being called the "surprise team" of 1955 so far, but they're certainly no surprise to manager Stan Hack, who drew a lot of horse laughs in the spring when he predicted they might wind up in the first division.

"There's a much better spirit on the club," Hack says. "You won't find any defeatist complex around here any more."

Last season, for example, the Cubs didn't win a game in Philadelphia, but last night they swept their three-game series with the Phillies by winning a game that was suspended Sunday, 4-2, then beating Robin Roberts, 2-1, in the scheduled contest.

At Kansas City, Roy Sievers and Jim Busby each smashed two homers to lead Washington to a 12-1 victory over the A's. Southpaw Johnny Schmitz gave up 12 hits, including a homer by Gus Zernial, but was an easy winner.

In other American League games, Detroit plastered the New York Yankees, 7-1; and Cleveland beat Boston, 3-2.

In the National league, Pittsburgh beat St. Louis, 5-1; and Brooklyn edged Milwaukee, 2-0, in 12 innings.

Top Wildcat pitcher during the 1954 season was lefthander Jim Rhoades, who had a 3-2 record.

## THE GREAT CAP and GOWN CONTROVERSY

The cap and gown season is upon us, and with it comes the perennial question: which side of the cap should the tassel hang on?

This is an argument that arises every year to roil the academic world, and it is, alas, no closer to solution today than it was in 1604 when Fred Tassel invented the troublesome ornament.

Fred Tassel, incidentally, never made a penny from his invention. The sad fact is he never took out a patent on it. This tragic oversight becomes understandable, however, when one considers that patents were not invented till 1851 by Fred Patent, himself a pitiable figure. A compulsive handwasher, he died in his fourteenth year, leaving behind a wife and five spotless children.

But I digress. We were discussing which side of the cap the tassel should hang on.

For many years the universally accepted practice was to hang the tassel over the front of the cap. This practice was abandoned in 1942 when the entire graduating class of Northwestern University, blinded by tassels hanging in their eyes, made a wrong turn during commencement exercises and ended up at the Great Lakes Training Center where, all unwitting, they were inducted into the Navy for five year hitch.

There is one school of thought—large and growing daily larger—which holds that the tassel should be worn on the same side you carry your Philip Morris cigarettes. Thus a quick glance will show you where your Philip Morris are and save much time and fumbling.

This makes a good deal of sense because when one wants a Philip Morris, one wants one with a minimum of delay. One does not relish being kept, even for a second, from the clean, delicate flavor of Philip Morris, so artfully blended, so subtly concocted to please the keen and alert taste buds of young smokers. One chafes at any obstacle, however small, that is put in the way of enjoying this most edifying of cigarettes, so pleasing to the perceptive palate. Here, in king size or regular, at prices that do no violence to the slimmest of budgets, is a firm white cylinder of balm and pure, abiding content.

There is another group, small but vocal, that insists the tassel should hang over the back of the cap. The tassel, they say, is a symbol like the bullfighter's pigtail, signifying honor and courage.

They are wrong. Bullfighters wear pigtails for only one reason: to keep the backs of their necks warm. Do you have any idea what a draft a bull makes when he rushes past you? A plenty big one, you may be sure.

In fact, upper respiratory infections, contracted in the wake of passing bulls, are the largest single cause of bullring fatalities. I have this interesting statistic from the Bullfighters Mutual Life Insurance Company of Hartford, Connecticut, one of the few insurance companies in Hartford, Connecticut, which writes insurance exclusively for bullfighters. Incidentally, Hartford, the insurance capital of America, is a most interesting city and well worth a visit if you are ever in New England, as north-eastern United States is, for some reason, called. Hartford can be reached by bus, train, plane, and the Humboldt Current. Try to make your visit in spring, when the actuaries are in bloom.

But I digress. We were talking about what side to wear the tassel on. An ingenious solution to this troubling problem was proposed a few years ago by Fred Sigafoos, perhaps better known as "The Quoit King of Delaware." An early forbear of Mr. Sigafoos, Humboldt Sigafoos (who later invented the current which bears his name) was granted a monopoly by King George III on all quoits manufactured in Delaware. Somehow the royal appointment was never rescinded and from that day to this, every quito made in Delaware has been a Sigafoos Quito.

Well, sir, Fred Sigafoos once suggested that an equitable settlement to the great tassel controversy would be to starch the tassels so they stood upright and hung on no side of the cap at all. Mr. Sigafoos was, of course, only seeking to broaden his market, because after graduation, what can you do with an upright tassel but hurl quoits at it?

©Max Shulman, 1955

The makers of PHILIP MORRIS who bring you this column make no recommendation about what side to hang the tassel on. But with cigarettes they say: Stay on the gentle, tasty, vintage side—with PHILIP MORRIS, of course.

# Effingham Boy Named To Head State FFA

Larry Figgs, 18-year-old senior at Atchison County Community high school, Effingham, will head the 7,500 boys in the Kansas Association of the Future Farmers of America for the coming year.

He was elected president last night at the 27th annual meeting of the FFA House of Delegates at K-State.

Other officers elected by the nearly 300 delegates from approximately 150 FFA chapters were: Dean Ebel, Wamego, vice-president; Loy Reihardt, Chanute, secretary; John McComb, Washburn Rural of Topeka, treasurer; Manuel Bruch, Kingman, reporter; and Ray Drumright, Harper, sentinel.

Elected by the delegates as 'Honorary State Farmers' were W. M. Arnold, director of the State Board for Vocational Education, and C. C. Eustace, state supervisor of agricultural education for the State Board for Vocational Education. In addition, 145 State Farmers were elected and initiated.

The Kansas FFA farm safety award was given to the Little River chapter.

Results of the annual high school judging and farm mechanics contests, held at K-State Monday and today will be announced at the awards banquet tonight. Approximately 1,200 FFA boys and instructors are attending the FFA and judging events.

# Granzow, Toplikar, Mugler Rank High In Judging Contest

Martin Mugler, AEd Sr, Harry Granzow, AEd Soph, and Fred Toplikar, Ag Fr, were top winners in the annual student Klod and Kernel judging contest held Saturday. Mugler won the senior division, Granzow the junior division, and Toplikar the freshman division.

Placings in each division were: **FRESHMEN**—Toplikar, first; David Mugler, AEd Fr, second; Richard Miller, AA Soph, and Elson Seitz, Ag Fr, tie for third.

**Juniors**—Granzow, first; Richard Froberg, AEd Soph, second; and Richard Rudman, AEd Soph, third.

**Senior**—Mugler, first; Cletis Wilson, AEd Sr, second; and Richard Baker, third.

**HIGH MEN** in identification in the three divisions were Toplikar, Froberg, and Arther Armbrust, Ag Soph.

High men in judging in the three divisions were Seitz, Granzow, and Dale Perkins, AEd Jr.

Martin Mugler was high man on grading.

# Howard Hill Places Second At KU Contest

Howard T. Hill, Sp Sr, won second place in the Kansas Oratorical contest Saturday at Kansas university. His speech was entitled "To you, Personally," referring to juvenile delinquency.

The contest was the first in a series being sponsored by the KU speech department. All senior and junior colleges in Kansas were invited to send contestants.

# Fly Club Meeting Tonight in MS 206

Officers of the Fly club will be elected for next fall at the meeting today at 7:30 p.m. in MS206, announced James L. Knoblauch, EE Fr.

The constitution committee also has the club's constitution ready for adoption. The club will vote on the proposed constitution.

# DOWNTOWN CHEF CAFE

CATERS TO STUDENTS

# Jo Forbes Prexy Of Chancery Club

Jo Forbes, PrL Soph, has been elected chief justice of the Chancery club for the fall semester.

Other officers are Dan Farrell, PrL Soph, associate justice; David Brace, PrL Soph, clerk of the Supreme Court; and Ed McCoy, Sp Fr, bailiff.

The Chancery club is a club for pre-law students and others interested in law.

# Tom Johnson Head Of Architect Group

Tom Johnson, Ar Jr, has been elected president of the K-State chapter of the American Institute of Architects.

Jerry Gasparich, Ar 03, was elected vice-president, George Jeffers, Ar 03, secretary, Jere Johnson, Ar 03, treasurer, and Keith Swenson, ArE Soph, publicity chairman.

Kansas State College, Manhattan, Kansas, Wednesday, May 4, 1955

NUMBER 135

Collegian photo by Gary Haynes

**FAREWELL** to an old friend—Dean Rodney Babcock stands in silent appreciation as he is honored by both air and army ROTC units. A full-dress review was held Tuesday for the retiring dean, whose resignation will be effective July 1.

## Chanute Team Is Winner of FFA Contest

Chanute high school Future Farmers of America upset a two-year domination of the state high school vocational agriculture judging and farm mechanics contests when they edged out the Clay County team in the over-all contest.

Winning, however, is not new to FFA teams coached by Charles Carter, the Chanute vocational agriculture instructor. Chanute was the state winner in 1952, finished third in 1953, and was second last year.

Chanute this year topped all teams in both farm mechanics and judging events. Newton was second and Coldwater in the judging events, while Alma was second and Yates Center was third in the farm mechanics contests.

Chanute FFA boys ranked 1-2 in the farm mechanics division with Lester Hole first and Paul Johnson second. Norman Nelson of Alma was third.

Loy Reinhardt, Chanute, was individual in all judging events, with Jim Allen, Newton, second; and Donald Alexander, Coldwater, third.

John McComb of Washburn Rural High School, Topeka, who Monday night was elected treasurer of the state organization for the coming year, won over 29 other contestants in the state FFA speech contest. His topic was "Make Your Soil Stay at Home".

Others placing high in the contest were James Ellis, Olathe, second; Loren Mall, Clay Center, third; Laverne Tuttle, Garden City, fourth; Franklin Donnel, Syracuse, fifth; and Doug Battershell, Erie, sixth.

## Student Health

One girl and four boys are patients at Student Health today. They are Marlene Barthuly, George Betz, Joe Horton, Bill Harris, and Paul Wallace.

## Royal Purple Photos On Sale in Kedzie

Pictures from the 1955 Royal Purple have been returned from the engraver and will go on sale tomorrow in K103 at 10c each.

Entire panel pictures of fraternities, sororities, and organized houses can be purchased if called for before Friday.

## Symphonic Band Ends Season With Series of Concerts

The College symphonic band is presenting concerts at Wamego, Herington, and Chapman this week on its annual spring tour, according to Richard Coy, director.

The 70-piece band gave a concert last night at Wamego high school, as part of Wamego's fine arts week program; and performed at Herington high school this morning. It is to be at the Dickinson County Community high school this afternoon.

The symphonic band closes out the year Sunday with the annual "Pops" concert, to be presented at 4 o'clock in the College auditorium.

Featured in the four concerts will be an arrangement of a selection from Richard Strauss' "Rosenkavalier," in a special arrangement by Wayne Henderson, zoology student from Salinas, Calif., and a tympany player in the band.

Another highlight will be the "Kansas Wildcats March," which was written especially for Kansas State by John Philip Sousa.

Most of the numbers will be works for band by contemporary composers. These will include Howard Hanson's "Chorale" and "Alleluia"; Virgil Thomson's "A Solemn Music"; Walter Schuman's "George Washington Bridge"; Gordon Jacob's "Music for a Festival"; and Jaromir Weinberger's "Concreta for Tympany". The latter number features four trumpets, four trombones, and four tympanies.

## Home Ec Dean Has Interviews With 80 Girls

Seniors in home economics are now evaluating their college curriculums. Through personal interviews with Dr. Doretta Schlaphoff, dean of the School, Dr. Schlaphoff is talking with 79 graduating seniors this week to hear their reaction and suggestions concerning college courses.

Dr. Schlaphoff said she has scheduled the interviews to "get acquainted with the School, getting acquainted with the graduating seniors, and encourage those with ability to do graduate work."

The girls interviewed say they feel that the conferences are beneficial and worthy of continuance in future years.

One commented, "It gave me a chance to realize more clearly just what I had achieved in four years. I also understood the value of some courses I had not appreciated earlier."

## Ag Association Picks Eleven As Nominees

Candidates for offices in the Agricultural Association have been announced, Dick Pickett, president, said.

Those nominated for the offices of president and vice-president were Bill Ericson, AH Jr.; Stan Larson, AEd Jr.; Walter Martin, Ag Soph; and George Atkeson, DH Jr.; Dick Baker AEd Jr.; and Arnold Appleby, AEd Soph, were nominated for secretary, and Lloyd Christie, DH Jr., and Don Hunt, AH Jr., for treasurer. Mark Drake, AH Jr., was nominated for manager of the Ag. Barnwarmer, and Ray Zimmerman, Ag Soph, and Nelson Galle, AEd Soph, for assistants.

The nomination committee was composed of the present officers, the Ag Council members, and the presidents of all departmental clubs.

This is not a final list and nominations will be taken from the floor Thursday in Ag Seminar, Pickett said.

## Seaton Dedication Scheduled Tomorrow

K-State's engineering building will be formally named in honor of Roy A. Seaton, dean emeritus of the School of Engineering and Architecture, at a general engineering assembly Thursday afternoon at 4 in the Auditorium.

The building will be formally named Seaton Hall by Pres. James A. McCain, and Dr. F. C. Farrell, president-emeritus, will read the citation.

## Ag Minister From Spain Visits Here

Rafael Cayestany, Spanish minister of agriculture, arrived yesterday to visit the K-State campus as one stop on his month-long tour of the United States.

Cayestany and top agricultural officials who are accompanying him on the tour, spent this morning seeing the College agronomy and horticulture farms and the animal husbandry barns and experimental grazing plots.

This evening they will be honored at a dinner at the College cafeteria. President James A. McCain is scheduled to bring the welcome, while A. D. Weber, dean of the School of Agriculture, will explain K-State's organization and operation. The Spanish visitors are particularly interested in learning how a typical land-grant institution such as Kansas State College coordinates its resident teaching, research, and extension functions.

The Spaniards wind up their visit at K-State tomorrow morning with visits to some of the experimental laboratories. They are particularly interested in the milling and baking laboratories, and in the wheat breeding plots.

Upon leaving Manhattan, the foreign visitors will fly to Peoria, Ill., where they will be guests of an equipment manufacturer.

Meeting Cayestany at the airport Tuesday afternoon were W. F. Pickett, College liaison officer for foreign affairs; H. E. Myers and C. Pears Wilson, associate director and assistant director, respectively, for the Kansas agricultural experiment station; and C. C. Burkhardt, of the department of entomology.

## Milling Students Represent Seven Foreign Nations

Students from seven foreign countries are enrolled in the milling department this semester, according to Dr. J. A. Shellenberger, department head.

"Since K-State has the only four year feed milling curriculum in the world, and the only four year curriculum in flour milling in the western hemisphere, it is only natural that many of our students are from foreign countries," Shellenberger commented.

Students enrolled in the department are from Turkey, Israel, Finland, Columbia, Pakistan, Canada, and Holland.

In other years, Dr. Shellenberger said, there have been students in the department from Iran, Iraq, Egypt, Norway, Sweden, Denmark, Germany, Switzerland, England, China, Formosa, Japan, Argentina, Bolivia, Brazil, Mexico, Greece, Italy, and Spain.

M. A. Durland, present dean of engineering, will will preside, while Bob Tointon, CE Sr and president of Engineering council, will be chairman.

Dean Seaton has been associated with K-State for 53 years.

Dean Roy A. Seaton

He entered K-State as a student in 1901 and was connected with the school until 1954, when he reached retirement age.

After his graduation in 1904, Seaton was immediately named to the staff. In 1920 he became dean of the School of Engineering and Architecture and director of the Engineering Experimental Station. In 1949 Seaton was named building expeditor.

During the early years of World War II, Seaton organized and directed the engineering, science, and management war training program for the United States office of education. This organization is a national program of short courses in more than 200 colleges and universities.

Seaton has been chairman of the Kansas Registration Board for Professional Engineers since it was organized in 1931, and is a past president of the Society for Promotion of Engineering Education. He received the SPEE Lamme medal for outstanding achievement in engineering education.

Seaton is to be guest of honor Thursday noon at a luncheon to be given by department heads who served under him during his 29 years as dean.

## Middle East IFYEs Visit on Campus

Three International Farm Youth Exchange students from the Middle East are visiting on the campus this week, according to Charles Hoyt, assistant state 4-H club leader. The exchangees are Abdel Farrag of Egypt; Samson Maghsoodpur, Iran; and Shaker Mufarrij of Lebanon.

Since the IFYE program was started in Kansas in 1948 more than 85 exchangees have lived with almost 200 rural families of the state, Hoyt commented.

# Viet Nam Assembly Meets a Day Early

Compiled from the Wires of United Press  
By DICK CARR

Saigon, Indochina—Premier Ngo Dinh Diem summoned the national political assembly to meet a day early today in an apparent struggle for power with the revolutionary committee that demands the firing of absentee Emperor Bao Dai.

Diem called the delegates to his presidential palace for a meeting this morning to precede the scheduled session called for tomorrow by the revolutionary junta. The junta is expected to dominate tomorrow's session.

When the 1,000 representatives began pouring into the yellow stucco presidential palace an organization committee handed out a three-point "plan of decision" put forward by Diem for their approval. It appeared to fall far short of the revolutionary committee's demands.

Diem asked that Bao Dai turn over his civil and military powers to a national assembly, that the powers meanwhile be given to Diem while he organizes elections for a national assembly within four months, and that Bao Dai not change premiers in the meantime.

The revolutionary committee demanded Bao Dai be deposed outright and that the French expeditionary corps be withdrawn.

## Mendes-France Bids for Party Power

Former French Premier Pierre Mendes-France began a political comeback campaign today and immediately scored a political victory over his enemies in the Radical-Socialist party.

The dynamic premier was voted out of office by the National Assembly last Feb. 5 after former premier Rene Mayer, one of the members of Mendes-France's own party, turned against him.

Today Mendes-France began a battle in Paris for uncontested control of the Radical-Socialist party. But before the one-day meeting opened with cries of "Mendes back to power" he achieved a major coup.

He succeeded in getting the Congress to put on its agenda for debate the question of reforming the old party rules.

The presidents and general secretaries of the regional radical federations supported his move by a narrow margin of 96 to 87—an indication of the fight ahead.

After the vote Mendes strode into the plenary session to the cheers of the delegates. A few boos came from his enemies.

## Austrian Talks Skip Two Points, Tackle Third

Vienna, Austria—The five power conference writing a state treaty for Austria skipped over two major stumbling blocks today and took up a third—Soviet demands for huge economic concessions from Austria as its price for freedom.

The conference, in a long session described as "unpleasant," was unable to agree yesterday on Soviet demands that the treaty provide for the return of 36,000 anti-Communist refugees, and on the size of a defense army for a free and independent Austria.

It is believed these and other possible stumbling blocks may have to be left up to the Big Four foreign ministers for settlement. Neither the Soviet nor the West showed signs of backing down on either. The United States was reported strongly opposed to "selling out" the refugees.

## Nationalist Chinese Claim Damage of Red Gunboats

Taipei, Formosa—The Nationalist Chinese Air Force reported its planes had "heavily damaged" three Communist Chinese 300-ton gunboats southwest of Quemoy today.

An air force communique said columns of smoke were seen rising from the gunboats. The planes returned safely to their base, the communique added.

This was the first Nationalist Chinese air action since last Saturday when aircraft damaged six Chinese Red ships in the same Quemoy area.

Otherwise, military activity in Formosa strait was limited.

## Final SEATO Meeting Today

Baguiu, P.I.—The SEATO military conference met for its final working session today and the U.S. delegate said the eight-nation alliance is ready to repel Communist aggression in Southeast Asia at a moment's notice.

Navy Capt. William T. Kenney, leader of the American delegation, said the groundwork has been laid for a SEATO fighting force and "we are ready today."

Interpraternity Sing, Auditorium, 7:30 p.m.

## Dogs Bite Most, But Gophers Get Their Nips Too

Los Angeles, (U.P.)—The Animal Regulation department made a "Be kind to animals week" announcement today that 16,401 persons were bitten in Los Angeles last year by dogs, cats, racoons, skunks, rodents, birds, and privacy-loving gopher.

Dogs topped the nip-list with 14,887 bites and cats were second at 1,092. Hamsters took a surprise third place with 81 victims, followed by rats, rabbits, monkeys, mice, horses, squirrels, gophers, chipmunks, guinea pigs, racoons and a few skinks.

Fifteen persons were pecked by our feathered foes. The offenders included parrots, parakeets, chickens, ducks black-birds, a cockateel, a penguin and a seagull.

The seagull bit a Los Angeles manufacturer on the finger, and the penguin pecked the nose of an overly inquisitive 10-year-old school girl.

But to illustrate that 95 per cent of the nippings wouldn't happen if people were more careful, chief animal inspector Bert E. Morse tells the story of a matronly San Fernando valley woman.

"She saw a funny little animal dart into a hole in her front lawn," he said. "She got down on her hands and knees and peeked into the hole. A gopher poked his head out and bit her on the tip of the nose."

## Dover Expects Many To Try Channel Swim

By Robert Musel

Dover, England, (U.P.)—This little town, flanked by the towering white cliffs, smugly expects a boom year in English channel swimming this summer despite the predictions that, as a sport or stunt, the hard way across the water is finished.

"They say that every year, pay no attention," grinned the old salt in front of Annie Kidd's East Cliff hotel, headquarters for channel swimmers.

"My granddad says they were claiming no one would have any reason for trying after Matthew Webb swam it in 1875—and there have been hundreds following him."

The lure of swimming this moody, chilly ditch escapes most people. But it must have a terrific pull because some of those who have tried it before are returning for another dose of self-inflicted suffering.

And how they suffer! There are, of course, super athletes like Florence Chadwick of San Diego who finished her 20-mile swim with a sprint.

But most of the starters, especially those who fail, are little more than mumbling automatons, numbed by agony, by the time they are hauled from the water.

Nevertheless, Bill Floyd, the

Folkestone cop who is head of the Channel Swimming Association, says that he has had notifications from 30 prospective starters and more are expected before the water warms up enough to sustain human life early July: Floyd is cautious but he feels this eightieth anniversary (dated from Webb's swim) will set a record.

Dover's unique industry already is stirring to life. The Burwill family, which provides pilots and boats for swimmers, is laying in a supply of grease and first aid equipment. The grease protects swimmers from the cold.

The East Cliff hotel is ordering hundredweights of steak and potatoes—the staple pre-swimming diet. Strong-armed young men are practicing to row along in the training swims. Retiring seamen confide to visitors that a good observation point is just near the ruined Roman lighthouse above the east cliff which lit the way for Caesar's galleys 1900 years ago.

There may be several firsts this year. Miss Chadwick, the handsome, former stenographer is going to try to swim the channel both ways non-stop and set a woman's record each way.

Dr. George Brewster, 64, is going to make his 15th or 16th try to become the oldest successful channel swimmer.

Roberto Maddalena of the Argentine, who is 13, will try to become the youngest successful swimmer. He will be 14 when and if he makes the attempt. The present youngest is Philip Mickman, 17, of Britain.

## Red Is Sexiest, Says Tufts Poll

(ACP)—Red was declared the "sexiest" color by 66 per cent of those sampled in a poll by the Tufts College Weekly. Slinky black garnered 25 percent of the votes. Nine per cent of the voters—all men—gave their preference to lavender.

Women polled by the college were almost unanimous in voting for "firy, brazen, and active" red as the most sexy color.

Analyzing the data, the Tufts Weekly concluded that "the bold red color of the Stars and Stripes still represents courage, as it did in the days of Betsy Ross."

An unspecified number of appointments to the U. S. Military Academy at West Point are allotted to sons of Congressional Medal of Honor winners.

Photo by J. R. McLeland

**K-STATE ALUMS** who starred in basketball pause as they practice for Friday night's alumni-varsity game. Left to right are Roger Craft, 1954-55 center; John (Hoot) Gibson, 1951-52 forward; Lew Hitch, 1950-51 center now with the Minneapolis Lakers; and player-coach Ernie Barrett, 1950-51 all-American guard.

## Varsity Cagers To Play Intrasquad Game Tonight

Wildcat varsity basketballers will square off against each other in Ahearn gym tonight as coach Tex Winter runs them through an intrasquad game in preparation for Friday's tussle with K-State alumni.

The varsity began its final week of spring drills last night with a review of fundamentals and offensive formations. A review session Thursday is to follow tonight's scrimmage.

**THE SQUAD** will be split into two equal camps tonight and will play a regulation game. Game time is 7:30, and there will be no admission charge.

"We did the same last year," Winter explained. "This gives us a pair of spring games to help get adjusted to the rules changes, and tonight's intrasquad game will help us shake down our lineup for the alumni game Friday."

**THE ALUMNI** team will be

rough, Winter said. He pointed out that such stars as Lew Hitch, who is now with the pro Minneapolis Lakers, all-American Ernie Barrett, and Jim Iverson will be present.

"But they'll know they've been in a game," Winter said.

## Netmen To Play Washburn Today

The Wildcat tennis team will be after its fourth win of the season this afternoon when it plays host to Washburn on the local courts. The netmen have a 3-3 won-lost mark at present.

## IM Swimming Finals Tonight

Finals in intramural swimming are set for tonight in Nichols gym. Frank Myers, director of intramurals, said. Preliminaries were run off Monday and Tuesday nights.

Last night's results:

**Individual Medley Relay**  
Fraternity—Dave Dickens, Sigma Alpha Epsilon, 55.5; Dirks McGinnis, Sigma Nu, 58.9; Wallace Brown, Sigma Chi, 59.0; Tony Wilcox, Sigma Alpha Epsilon, 1:01. Roger Craft, Sigma Phi Epsilon, and C. Q. Williamson, Phi Delta Theta, tied for fifth at 1:04. Only the four fastest times in each event qualify for the finals.

**Independent**—Jim Vines, Hillbillies, 55.0; Charles Hudson, Jones Boys, 1:03.5 (only two entered).

**120-Yard Medley Relay**  
Fraternity—Sigma Alpha Epsilon, 1:18; Sigma Chi, 1:19.8; Delta Tau Delta, 1:24.4; Sigma Phi Epsilon, 1:38; Alpha Kappa Lambda fifth with 1:39.

**Independent**—Hillbillies (only team entered), 1:14.

**160-Yard Freestyle Relay**  
Fraternity—Sigma Nu, 1:35.4; Sigma Alpha Epsilon, 1:37; Beta Theta Pi, 1:39; Sigma Phi Epsilon, 1:39.1; Sigma Chi fifth with 1:41.2.

**Independent**—Hillbillies (only team entered), 1:30.

# Cat Nine Defeated By Iowa State, 3-0

By MYRON SEIRER

K-State's baseball team yesterday lost its fifth game out of six in Big Seven competition as Phil Groth of Iowa State pitched a four-hitter to beat the locals, 3-0, at Griffith stadium.

Ron Bergren pitched for K-State and was charged with his second defeat.

**IOWA STATE** scored its initial run in the first inning. Leadoff man Charles Rasmussen drew a walk, then was forced out at second as Gary Thompson was safe on a fielder's choice. Thompson stole second, then scored as Dick Bertell got the first Cyclone hit.

With two out in the second inning, Arnie Gaarde got the second Cyclone hit, but was picked off first for the final out of the inning as he wandered too far away from the base.

The pickoff play went from the pitcher, to first, to shortstop, and back to first before the tag could be made.

The Cyclones' final two runs came in the sixth as John Jervis walked and Dave Campbell doubled, sending Jervis to third. Both men scored as Stan Peacock hit a single.

Iowa State threatened to score again in the ninth on two hits but, with runners on first and second, Bergren retired the side.

**K-STATE HAD** runners on base in every inning except the fourth, sixth, and ninth, but was unable to score.

In the seventh, Larry Hartshorn, first batter for the Wildcats, got a single but Groth quickly ended the threat by striking out the side.

Each team committed one error, both by the pitchers. In the fourth, Bergren tried to pick a Cyclone baserunner off of second base, and threw the ball into center field.

**GROTH COMMITTED** his error in the fifth as he fielded a high bouncer off the bat of Jerry Kerbs and threw wild to first base.

Bergren, in addition to allowing 3 runs, gave up 8 hits, struck out 8, and walked 3.

Groth struck out 11 and walked 3 in addition to giving up 4 hits.

Next games for the Wildcats are on May 9-10 against Missouri, defending Big Seven champs at Columbia.

## Nine Varsity Wrestlers Earn Letters

Nine Wildcat wrestlers have been named to receive letters for the 1955 season, and 11 freshman grapplers are candidates for numerals, subject to the customary scholastic requirements.

Letters will be awarded to Roland Alexander, Dale Blume, John Bradshaw, Gary Darter, Ken Ellis, Dick Fixsen, Kyle Mines, Joe Landholm, and Ken Spicher.

Freshman numeral candidates are Jesse Daniels, Marvin Everist, Robert Foster, Raymond Glaze, Bob Gramzoe, Edward Harrington, Gary Haller, Virgil Hecker, David Nittle, Calvin Schwalbe, and Tom Skelton.

K-State wrestling coach Fritz Knorr called the Wildcat freshmen "one of the top squads of recent years." Since the Cat mat team loses only one graduating, Spicher, Knorr said he expected a considerable increase in team strength next season.

The Wildcats finished fourth in the Big Seven wrestling tournament this year, and had a dual-meet record of 4 wins, 5 losses, and 1 tie over the regular season.

## Postponed IM Tilts To Begin at 4:15 p.m.

Six postponed intramural softball games in the fraternity division will be played this afternoon, Frank Myers, director of intramurals, said.

Games postponed from Friday, April 29, pair Delta Sigma Phi vs. Lambda Chi Alpha, southwest field, city park; Sigma Nu vs. Pi Kappa Alpha, northwest field, city park; Tau Kappa Epsilon vs. 1843 Club, west military drill field; Farm House vs. Acacia, east military drill field. These games are set for 4:15.

Games postponed from Tuesday, April 26, pair Phi Delta Theta vs. Phi Kappa, west military drill field; Theta Xi vs. Sigma Alpha Epsilon, east military drill field. These games will be played at 5:15.

## Free Lance Writer To Speak in Kedzie

John Gartner, a 1925 K-State journalism graduate and now a free lance writer, will be the speaker at journalism lecture Thursday at 4 p.m. in K211.

Gartner, editor of the 1924-25 Collegian, is the author of more than 200 short stories and articles for outdoor magazines and was west coast editor of the Outdoorsman magazine for three years.

He has written four novels for boys. They are "Rock Taylor, Football Coach," "Ace Pitcher," and "Cager's Challenge." The fourth novel, "Sons of Mercury," has been sold and will be published in January. In addition to free lance writing, Gartner teaches journalism and creative writing at Wilson high school in Long Beach, Calif.

At K-State Gartner participated in all varsity sports. He coached football, basketball, and track at Manhattan high school for three years and football and track at Long Beach, Calif., until 1943, when he gave up coaching and started his writing career.

At present Gartner is traveling on a Ford Foundation Fellowship, visiting high schools throughout the country which have outstanding student publications.

### Chemical Society Hears Statistical Consultant

How statistics can be used to improve experiments was the topic of a speech given by W. J. Youden, statistical consultant to the scientific staff of the National Bureau of Standards, at the American Chemical Society's final lecture of the year Tuesday night.

where he compiled an exhibition of South American architecture for the Museum of Modern Art.

He will speak in the College auditorium at 3 Friday afternoon on "Modern Architecture in the Two Americas," and also will be the principal speaker Friday night at a dinner observing the 50th anniversary of the department of architecture and allied arts. The banquet will honor Paul Weigel, who is relinquishing administrative duties after 31 years as head of the department.

### Grad Students Schedule Picnic

Members of the Graduate Student Association will have a picnic in the shelterhouse at Sunset Park Saturday evening, May 7, Dale Olson, president, said. At the picnic they will elect officers for the summer school sessions.

Anyone needing a ride to the park should be at the west entrance of the temporary student union at 5 p.m., Olson said. Following a social meeting, the picnic will start at 6 p.m.

You'll be pleased with a Collegian want ad.

## Sauter-Finegan Here For Dance Saturday

The Sauter-Finegan band will play here Saturday in a combined concert and dance as the last name band of the year. The group presented a concert here last year.

The concert will be in the Auditorium beginning at 7:15 p.m. The dance will be in Ahearn Gymnasium and is scheduled to start at 9:45.

Tickets are on sale in Anderson this week. An admission will be charged for the concert, but couples may attend the dance if one of the two shows an activity card.

ED SAUTER and Bill Finegan, rated among the top five arrangers in the country by music critics, launched their first successful recording, "Doodletown Fifers," for RCA Victor in 1952.

Since that time, they have recorded several hits—among them are "Moonlight on the Ganges," "Yankee Doodletown," "The Honey Jump," and "Midnight Sleigh-ride."

"The music of our band can best be summed up in two words—color and mood," both Sauter and Finegan say. "Everything we write will attempt to create a certain mood that is consistent with the composition and a certain color that blends in with the mood. All of this, with a strong beat will give the public what we think is good dance music."

THEY EMPLOY any instrument or sound that will give a realistic sound to their music. For example, in "Midnight Sleigh-ride," the sound of horse's hoofs pounding on packed snow is Bill Finegan beating on his chest with his hands.

The pair's musical aggregation number 25, including 5 saxophonists who double on the flute, piccolo, oboe, English horn, bass clarinet, and recorders (a woodwind instrument). A rhythm section includes a piano, bass, drums, a guitar, a harp, and a tuba.

A percussion section completes the list of 25 with a xylophone, marimba, chimes, triangle, celeste, tympany, glockenspiel, tambourine, kettle drums, thunder drum, street drums, and toy snare drums.

"WE HAVE included an actual percussion section, aside from the drummer, because we feel that percussion sounds are needed to add color and thus broaden the musical spectrum of our arrangements," explained Ed and Bill.

## Oklahoma A and M Honors Dr. Cox

Dr. Rufus Cox, head of the animal husbandry department, has been honored as an "outstanding graduate" of Oklahoma A. and M. college.

Cox received a plaque and commendation from President Oliver S. Willham of Oklahoma A. and M. at the Oklahoma Livestock Feeders' Day program, April 16.

He was selected "for his fine record and outstanding work as an educator." His picture will hang in the animal husbandry building at Oklahoma A. and M.

## Student Health

Patients at Student Health today are Marlene Barthuly, Joe Horton, Bill Harris, Paul Wallace, Suphorn Phalajivin, and Richard Peak.

# Married Housing Near Says President McCain

## Few Voters, Confusion in A&S Election

Less than eight per cent of the students in the School of Arts and Sciences voted in the council elections yesterday, with only 166 ballots cast.

Students in the curriculums of biological science, physical science, and technical journalism will re-vote tomorrow for their candidates. The polls will be open from 8 a.m. to 5 p.m. Students must have activity tickets to vote.

THERE WAS a mix-up at the polls on the physical and biological science ballots. These ballots were declared invalid because the two curriculums were mixed up in the voting early yesterday morning, due to a lack of ballots for the physical science curriculum.

In technical journalism there was a tie vote between Joan Albers, TJ Fr., and Connie Taylor, EEd Fr. Each girl received seven votes.

Bob McDowell, Psy Fr., was the top vote-getter, polling 40 votes from the curriculum of social science. Others elected to the council from the curriculum of social science were Bev Guindy, EEd Soph, 32 votes; Karen Smith, EEd Fr, 32 votes; and Nancy Howard, EEd Fr, 31 votes. Sharon Diamond, Soc Soph, received 24 votes; Jo Forbes, PrL Soph, 23; Harry Knox, Psy Soph, 17; and Ray North, Psy Fr, 18. Karen Milner, EEd Fr, received one write-in vote.

STEPHEN WECKEL, ME Jr, 20 votes; Don Taylor, BA Soph, 25 votes; and Diane Benedix, BA Jr, 27 votes, were elected to the council from the curriculum of business administration. Dave Pfuetze, BA Soph, received 12 votes.

Jim Stewart, Geo Soph, nine votes, won over Paul Strunk, Geo Jr, five votes, in the curriculum of geology.

Rachel Pickett, MEI Fr, three votes, won over Nancy Blackburn, MEI Soph, one vote, in the curriculum of music.

Marylyn McCready, Eng Soph, 16 votes, won over Mary Lu Compton, Sp Fr, nine votes, in the curriculum of humanities.

## Tomorrow Deadline For SGA Applications

Tomorrow is the deadline for applications for appointment to the apportionment board, recording secretary of Student Council, and attorney general of the Tribunal, Gerry Day, student body president, said today.

Students wishing to apply for these positions should write a letter of application, giving interests and qualifications. Application letters should be left in the dean of students' office, Day said.

## Seaton Hall Dedication Today at 4

K-State's engineering building will be formally dedicated to Roy A. Seaton, dean emeritus of the School of Engineering and Architecture, at a general engineering assembly today at 4 p.m. in the Auditorium.

Dean Seaton has been associated with K-State since 1901, when he entered K-State as a student.

President McCain will name Seaton Hall formally, and Dr. F. C. Farrell, president emeritus, will read the citation.

M. A. Durland, present dean of engineering, will preside at the dedication, and Bob Tointon, CE Sr. and president of the Engineering council, will be chairman.

## Ol' Swimmin' Hole Dangerous, Says Student Health Doc

Swimming or wading in such places as Pillsbury crossing, Wildcat creek, or the Kaw river is dangerous and should be avoided, Dr. Benjamin Lafene, director of student health, warns.

Broken glass and tin cans have been thrown in these areas which may result in injury. Water is highly polluted with organisms that will cause gas gangrene "if students don't get medical attention immediately in case of injury," he cautioned.

## Revenue Bonds Can Be Issued For Financing

By LEE RUGGELS  
Of the Collegian Staff

Permanent married student housing at K-State ready for occupancy in the fall of 1956 is highly probable, President McCain said today.

President McCain was commenting on a ruling made yesterday by Attorney General Harold R. Fatzer to the Board of Regents that revenue bonds can be issued to finance construction of dormitories for married students as well as for unmarried students.

"The ruling by Fatzer should certainly expedite greatly the plans the College has been working on for several months to construct permanent dormitory apartments for our married students," he said.

"We have been exploring fully the possibility of building apartments through the Endowment association. The ruling opens up an attractive alternate possibility. Detailed plans of two types of apartments are under consideration at the present time and have been for several weeks.

"THIS PHASE of the planning is so far developed that as soon as arrangements are made for financing we should be read to go," he said.

A United Press story yesterday said that although Fatzer's interpretation arose over the question of proposed dorms at K-State, the ruling would apply equally to construction of dormitories at the University of Kansas or any of the other state educational institutions.

"We contend that the word 'dormitory' as used in the law means housing, living space and so forth," he explained. "Thus it would apply to both married and unmarried students."

He cautioned the Board of Regents, however, to carefully examine the long-range need for constructing permanent dormitories for married students.

THE PRESENT high-level of married persons attending school may not continue, Fatzer said, and this possibility could both reduce the attractiveness of the revenue bonds to buyers and later require modifications of the dormitories for use by single students. This is a matter for the Board to decide, he said.

President McCain said Fatzer made this interpretation from a 1947 law.

"No money will come from the ad valorem educational building fund tax for state institutions. The College will sell bonds to finance the entire cost of the construction whether financed through either of the two methods under consideration," he said.

About 250 dormitory-type apartments will be constructed to begin with, if the plans are approved. They will be divided into one and two bedroom sections.

PRESIDENT MCCAIN pointed out that the 168 married student apartment in Elliot Court will be torn down in the next 8-10 years to make room for the proposed men's dorms.

More than 15 per cent of our present enrollment, about 800 families, are married students. This number will increase 40 per cent in the next ten years. That would mean at least 1,400 married students at K-State then. They must be taken care of, he said.

The plans are to locate them on six acres of the Linn tract just west and northwest of the North Campus trailer court and on College owned land north and west of that area. This location is west of the Dairy barns, he said.

## Interfrat Sing In Auditorium Tonight at 8

Interfraternity Sing will be tonight at 8 p.m. in the Auditorium. Fifteen fraternities and sororities will compete for trophies.

Sigma Nu, Kappa Delta, Pi Kappa Alpha, Alpha Chi Omega, Sigma Alpha Epsilon, Pi Beta Phi, Phi Delta Theta, Alpha Xi Delta, Sigma Phi Epsilon, Delta Delta Delta, Delta Tau Delta, Kappa Kappa Gamma, Sigma Chi, Chi Omega, and Beta Theta Pi are entered in the Sing, and will appear in the order listed.

A quartet from Farm House will provide entertainment between numbers and during intermission. The members of the quartet are Charles Esslinger, Bob Sanford, Darrell Gale, and Leonard Schwab.

## Annual Shakespeare Dinner On May 10

The twenty-fifth annual Shakespeare dinner will be May 10 at 6 p.m. in Thompson hall. The dinner, sponsored by the English club, each year features a different aspect of William Shakespeare's life.

This year Dr. Hardin Craig, a member of the English department of the University of Missouri, will talk on "Hamlet is Everyman". Dr. Craig has written several books on Shakespeare and in 1951 edited "The Complete Works of Shakespeare."

# 700 To Receive Degrees At Spring Commencement

Names of more than 700 candidates for degrees from K-State at spring commencement exercises were announced today by Ellsworth M. Gerritz, director of admissions and registrar.

Because of the large number of degrees to be conferred, no formal commencement address is planned. President James A. McCain will speak briefly, and greetings to the class will be given by a member of the Board of Regents.

The commencement exercises will be Sunday afternoon, May 29, in Ahearn Field House.

Degree candidates are:  
**DOCTOR OF PHILOSOPHY**—Edmond J. Kantack, Burnadine Langston Lewis, Roscoe Warfield Lewis, Anthony Joseph Luzzio, Huey Pledger Jr., Fawzy Yousef Refai, Brij Kumar Srivastava, Vishnu Swarup, Benjamin Augustus Simmons.

**DOCTOR OF VETERINARY MEDICINE**—Edward Shaler Ackerman, John Armstrong Allen, Winfred Allen Andrews, Harry Jesse Baker, Larry Dale Barbee, George Harold Barney, William Joseph Braken, Clair Edward Butler, Bobby Lamar Caraway, Douglas Leon Church, Dale William Claybaker,

(Continued on page 7)

# Seek Housing Solution For Married Students

The possibility of a solution to the married students' housing problem at K-State is discussed in a front page story in today's Collegian.

A ruling handed down by the Kansas Attorney General saying that revenue bonds could be used to finance married students housing may make it possible to start construction on such units in the very near future. The Attorney General said that money earmarked for dormitories could be used for married students' units as well as for single students' housing.

However, the Attorney General questioned whether the need for married students' housing would continue long enough to warrant building permanent housing for them. He said it would be a question for the Board of Regents to consider whether such housing would be warranted. He urged them to consider the question carefully so that it married students' housing were built, it wouldn't have to be converted to single units sometime in the future if the married student enrollment declined.

K-State officials have recognized the housing problem here and they recognize that it involves not only the single students, but also the married students. Asking for an interpretation of the laws shows that K-State administrators are interested in solving the married students' problems.

K-State officials are convinced that the married students housing problem will remain critical in future years and they have investigated several possible solutions to the problem.

Studies of student bodies on campuses all over the country in recent years have shown that more college-age students are married now than ever before. The studies also show that it isn't just the veterans and older students who are getting married.

Also, with the world situation what it is, it isn't likely that world tensions will be lessened any great amount in the near future, nor will the draft likely be discontinued. As long as this is true there will be older students going to college and a good portion of these students will no doubt be married.

Here at K-State over half the students in the veterinary school are married. So, it would seem that the need for married housing will continue for a long time in the future.

We hope the Board of Regents will give the problem a thorough investigation in order to find out what the need married students' housing problems are. If they find the need for such housing will continue, we hope they can give the green light to a building program for married students, not only at K-State, but all state schools where the need is apparent.

Karl Gaston

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendars kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

Delta Delta Delta spring formal, Wareham.

## Lenses Can Make Eye Color Change

New York (U.P.)—Now girls actually can "change" the color of their eyes, thanks to the latest development in invisible eye glasses.

Small plastic lenses that cover only the iris of the eye are made in different colors by Fluidless Contact Lenses, Inc. Blue eyes can be made to look brown or vice versa. Television personalities whose eyes are such a light shade they photograph badly solve their problem with tinted contact lenses.

The plastic bits that cling to the eye have been getting smaller and smaller since the first contact lenses were developed. Tinted, iris-covering lenses and even tinier clear plastic lenses that cover only the pupil of the eye are the latest developments.

There is only one problem with changing eye shades. The tinted lens covers the pupil too, so you'll be looking at the world through blue or brown-tinted glasses.

Fifty-two per cent of Michigan's 36.5 million acres of land, or 19 million acres, is classified as forest land.

## Atom Test Smashes Survival Town, USA

Compiled from the Wires of United Press

By DICK CARR

Atom Test Site, Nev.—The hell-fire of atomic destruction smashed "Survival Town, U.S.A." today as the most powerful nuclear explosion this year was set off to test how well an everyday American community can survive atomic attack and how quickly and effectively civil defense can move to aid the stricken area.

It was also an indoctrination course—the first—for U.S. armored task forces simulating a break-through of an enemy position behind atomic firepower.

The white heat of nuclear fury burst just before dawn with the force of 40,000 tons of TNT—greater by far than any atomic detonation ever witnessed before in the United States by a non-military, non-technical audience.

The blast was only one mile from the edge of a typical American town, dubbed "Survival Town" and populated only by mannequins, anaesthetized dogs and some 500 rats.

Its brilliant flash shot man-made sheet lightning across the dark skies of at least six Western states. It produced a deadly beautiful fireball that awed the observers and 2,300 soldiers in trenches, tanks and armored vehicles.

Eleven army volunteers, 10 of them soldiers and one civilian, crouched in reinforced trenches 1½ miles (2,600 yards) from the base of the 500-foot tower atop which the blast was triggered.

Fifty-ton Patton tanks occupied by armored task force personnel and newsmen were only 3,100 yards from the tower—roughly 1½ miles.

### Russia Yields on Two Issues of American Treaty

Vienna, Austria—The Soviet Union yielded today to the West on two of the biggest points of dispute in the Austrian treaty, and the U.S. Army made public its plan to withdraw American troops from Austria.

Russia officially withdrew demands for an article that could force the repatriation of 36,000 anti-Communist refugees and to another article that would have put a 53,000-man ceiling on the future Austrian defense army.

"We will be able to have the kind of army we want," a spokesman for the Austrian federal chancellery announced.

In a release of American troops, U.S. Army headquarters announced the "probabilities of withdrawal" of occupation forces from Austria and gave instructions as to how the evacuation will be carried out.

The Austrian spokesman said the Russian concessions on articles 16 and 17 followed a series of telephone talks today between Soviet Ambassador I. I. Ilyichev and the Kremlin.

Ilyichev indicated earlier he would drop the two articles but lacked authority until he checked with Moscow.

The treaty, when completed, will restore Austria's freedom and end the 10-year four-occupation. The time for pulling out the occupation troops was reported to be the last major article blocking agreement.

### Viet Nam Revolutionaries Vote to Oust Bao Dai

Saigon, Indochina—A nationwide convention called by Free Viet Nam's revolutionary council today adopted a motion deposing Bao Dai as emperor and giving approval to Premier Ngo Dinh Diem to set up a new provisional government.

The delegates passed the resolution by a show of hands, demonstrating their faith in the military junta and its policy of turning Free Viet Nam into a republic despite American warnings that the country is not ready for such a step.

The vote came in the midst of a growing demand to "liberate" North Viet Nam from the Communists—the junta's apparent answer to recent charges it was infiltrated with Communists and former followers of Red leader Ho Chi Minh.

## POGO

"THIS IS A FISH?" Ann Weathers, HEJ Soph, seems to be saying about J. Cranston Heintzelman's "Fish." The piece of sculpture is part of the Fine Arts Festival art exhibit on display in Engineering hall.

## Plains Indians' Paintings Featured in Art Exhibit

By ANN WEATHERS

Maps of Kansas from 1748 to 1869, an early plains Indian skin painting of a buffalo hunt, contemporary paintings by American Indians showing the old ceremonies and dances of the Plains Indians, are part of the exhibition for the Fourth Biennial Fine Arts Festival.

The exhibition, planned around Manhattan's centennial, is on the second floor of Engineering Hall.

The development of painting in Kansas started with the work of the early Plains Indians, who did much of their art work on animal skins. "Buffalo Hunt", a scene depicting the annual Indian life before the coming of the white man, showing the old ceremonies and dances, have been done by contemporary Indian artists.

SIX MAPS of the Kansas territory from 1748 to 1869 show the rapid development of the land as the white settlers pushed the Indians farther and farther west to the Colorado border.

As the white man began to penetrate Kansas, early explorer-artists recorded their impression of the land and the Indians. "White Plume", by Alfred Jacob Miller, is a painting of the great-great-grandfather of former Vice-president Charles Curtis.

Much of the work in the exhibit was done by native Kansas. John F. Helm Jr., professor of painting, said. Two paintings by the famous Kansas artist, John Stuart Curry, "Sun Dogs" and "Hounds and Coyote" are included, as well as "Landscape" by Dr. Milton S. Eisenhower, former K-State president.

"IT MIGHT be mentioned that very recent work often loses any regional characteristics, becoming rather international in style," Helm said. "The strong regional tendencies of the thirties, represented in this exhibition by the work of John Stuart Curry, is not evident today to any great extent."

"It is interesting that we find

no artist who develops a technique and type of thinking which really represents Kansas or interprets the state until we come to Birger Sandzen. With him, one can say Kansas art really begins," Helm went on to say. Samples of his work include "Fall in the Mountains", "Poplars by Moonlight", and "Lake in the Rockies."

WORKS OF four K-State faculty members are included in the exhibit. J. Cranston Heintzelman's sculpture, "Fighting Cock"; "Fish", and "Contemplation"; John F. Helm's "Mesa", "Spring", "Mountain Thrust", "Three Trees", and "Mine Tiples"; and Hobart Hays "Matador", "Blues Singer", "After Hours", "Pensive Child", "Life Drawing No. 1", and "Life Drawing No. 2". E. J. Tomasch's "Warriors", "Composition No. 1", "Composition No. 2", "Figure Study".

Eleven paintings of the cattle industry in North America begin from the unloading of the first cattle in North America at Vera Cruz, 1521, up through the Texas longhorns and branding scenes to the final painting of the Chicago slaughter house, and are part of the work of Thomas Lea.

## Summer Jobs Available; 300 Needed To Move 10th

By ELAINE OLSON

A request for 300 men and women has been placed at the Kansas Employment office of Manhattan, J. Elmer Des Jardins, head of the office announced today.

This order was placed by a moving van company for employees to move the 10th division from Fort Riley.

As far as job possibilities for students this summer, it is too far away now, Des Jardins said. The student looking for a summer job must take into consideration that the job he will most likely find will be the outdoor type. Most of the inside jobs are permanent positions.

"A STUDENT looking for work would have to look for a seasonal job," Des Jardins said.

The male students should be able to find jobs on construction work, which will include road work, construction of the new city building, and construction of new houses, Des Jardins said.

The harvest also brings demands for extra employees, Des Jardins said. This includes the wheat harvest and detasseling of hybrid corn. The wheat harvest reaches the Manhattan area about June 20.

FORT RILEY provides an outlet for employment in the area and is a good source for jobs, Des Jardins said. Every employee must have either a civil service rating or be able to pass a civil service test.

Tests are being given almost every week at Fort Riley so by making the proper application, and taking the test, a student could be ready to go to work by the time school is out.

Jobs for girls are not as good in this area as for boys, Des Jardins said. Girls best opportunity for jobs is at Fort Riley.

JOBS WILL be vacated by the moving of the 10th Division so if the girls will file Form 57 and can pass a civil service examination she will be ready for the job when the semester ends, Des Jardins said.

Summer recreational facilities are expanded in Manhattan during the summer. This creates many jobs for the women college students, Des Jardins said.

Restaurants and cafes often have job openings Des Jardins said. Some women students may find jobs filling vacancies created by regular employees on vacation.

Salaries in the Manhattan area are comparable to other areas of the same size and nature, according to Des Jardins.

## Block and Bridle To Have Judging Contest May 14

The annual Block and Bridle student livestock judging contest will be held Saturday, May 14, in the livestock pavilion, Eldon Johnson, program chairman, said.

The contest, which begins at 8 a.m., will offer 62 prizes to the winners, including \$50 in cash prizes and 35 prizes in magazine subscriptions and livestock supplies.

The contest also features two divisions, junior and senior. In addition to the prizes offered three high men in the senior division will be given a 3-day trip to a livestock marketing school at St. Joseph, Mo., courtesy of the St. Joseph livestock marketing foundation.

The junior division is open to any K-State student whose college judging experience has been only elements of animal husbandry laboratory. Students who have had additional training will compete in the senior division.

Registration for the contest is May 12-13 in the east wing of Waters hall, Johnson said. The event will be concluded when awards are made at a steak fry Saturday evening.

## Senior Applies Math To Win \$50 Award

Loyce Darbe, EE Sr., won a second place prize of \$50 dollars for a paper, "Elements of Switching Algebra," in a seventh annual John Costelow student paper competition recently in Kansas City, Mo.

Darbe said he spent approximately 25 hours on his entry. The paper dealt with the application of mathematics to switching circuit design problems. His composition was 12 pages long complete with diagrams.

He chose his own topic, as did the other entrants, and was edged out of first place by a Kansas University student who wrote a paper on "The use of electronic devices as applied to the hardening of the arteries."

The first place winner received an award of \$75.

## Dodgers Make A Believer of Eddie Stanky

By UNITED PRESS

The Brooklyn Dodgers made a believer out of even Eddie Stanky today.

Stanky, who refused to be impressed by "all those stories I've been reading about Brooklyn," couldn't help but be influenced by the 12-4 beating the Dodgers handed his Cardinals in the first meeting of the season between the two clubs last night.

The fiery little Cardinal manager, skeptical about all those recent reports on Brooklyn's power, glumly saw the evidence for himself as Gil Hodges, Duke Snider, and Roy Campanella each exploded homers in the Dodgers' 17th victory in 19 games.

**SOUTHPAW** Johnny Podres wasn't spectacular in giving up 9 Cardinal hits, including homers by Rip Repulski and Ken Boyer, but he was good enough to register his second victory and pitch Brooklyn's eighth complete game of the young season.

Kansas City moved to within 1½ games of the first division with a 6-5 triumph over last-place Baltimore.

Hoot Evers put the Orioles in front with a 3-run homer off Vic Raschi in the first inning, but the Athletics pecked away with two runs in the bottom of the frame and single runs in the next four innings. Gis Zernial and Joe Astroth homered.

**IN OTHER** American League games, the Washington Senators edged the Chicago White Sox, 5-4; New York's Yankees blasted Cleveland, 11-5; and the Boston Red Sox edged Detroit, 3-2, in 11 innings.

In the National league, the New York Giants went 11 innings before edging out a 4-3 decision over the Chicago Cubs; Cincinnati whipped the Philadelphia Phillies, 7-3; and Pittsburgh shaded Milwaukee, 5-4.

## Sig Alphas, Hillbillys Win IM Swimming

Sigma Alpha Epsilon captured the fraternity intramural swimming title last night with a total of 66½ points. The Hillbillys, with 82 points, won the independent title.

Trailing the Sig Alphas in the fraternity division were Sigma Nu, 43½ points; Sigma Chi, 33; Sigma Phi Epsilon, 31½; Beta Theta Pi, 30; and Delta Tau Delta, 26.

The Hillbillys dominated the independent bracket, as their closest rival, Jr. AVMA, had only 12 points. Jr. AVMA was followed by the Hui-O-Makules with 9 points.

### FRATERNITY division results:

Individual medley—1st, Dave Dicken, Sigma Alpha Epsilon, 56.06; 2nd, Wilcox, Sigma Alpha Epsilon; 3rd, McGinnis, Sigma Nu; 4th, Brown, Sigma Chi.

160-yard freestyle—1st, Sigma Nu, 1:37; 2nd, Sigma Alpha Epsilon; 3rd, Beta Theta Pi; 4th, Sigma Chi.

120-yard medley relay—1st, Sigma Alpha Epsilon, 1:18.7; 2nd, Sigma Chi; 3rd, Delta Tau Delta; 4th, Sigma Phi Epsilon.

120-yard freestyle—1st, tie between Dave Dicken, Sigma Alpha Epsilon, and Charley Jolley, Sigma Nu, at 1:03.5; 3rd, Pierce, Beta Theta Pi; 4th, Griffith, Sigma Alpha Epsilon.

80-yard backstroke—1st, Stanley Knowles, Sigma Alpha Epsilon, 1:02.3; 2nd, Ives, Kappa Sigma; 3rd, Craft, Sigma Phi Epsilon; 4th, McGinnis, Sigma Nu.

80-yard breaststroke—1st, Harold Unruh, Sigma Alpha Epsilon, 1:05; 2nd, Williamson, Phi Delta Theta; 3rd, Griffith, Sigma Alpha Epsilon; 4th, McGinnis, Sigma Nu; 5th, Lloyd, Delta Tau Delta.

40-yard freestyle—1st, Charles Roberts, Pi Kappa Alpha, 22.0; 2nd, Jolley, Sigma Nu; 3rd, Warner, Sigma Phi Epsilon; 4th, Haines, Delta Tau Delta.

### INDEPENDENT division results:

Individual medley—1st, Jim Vines, Hillbillys, 55.0; 2nd, Hudson, Jones Boys.

160-yard freestyle relay—1st, Hillbillys, 1:26 (only team entered).

120-yard medley relay—1st, Hillbillys, 1:14 (only team entered).

100-yard freestyle—1st, Don Matsuoka, Hillbillys, 1:02; 2nd, Mathews, Hillbillys; 3rd, Cole, Hillbillys; 4th, Ward, Jr. AVMA.

40-yard freestyle—1st, Jerry Fitzgerald, Hillbillys, 21.6; 2nd, Onuma, Hui-O-Makules; 3rd, tie between Mathews, Hillbillys, and Kaminsky, Hillbillys.

80-yard breaststroke—1st, Bill Cole, Hillbillys, 1:11.2; 2nd, Kaminsky, Hillbillys; 3rd, Onuma, Hui-O-Makules; 4th, Nelson, YMCA.

80-yard backstroke—1st, Jim Vines, Hillbillys, 57.2; 2nd, Northway, Hillbillys; 3rd, Ward, Jr. AVMA; 4th, Tubler, Jr. AVMA.

At birth a black bear cub weighs from 9 to 12 ounces, which is about 1/200 to 1/250 of its mother's weight. It is about eight inches long, blind, and covered with a dark hair so thin that it is practically naked.

DANGEROUS CROSSING

**ATHLETIC SCHOLASTIC HONOR ROLL**—The varsity athlete with the highest grade average each year for the next 32 years will have his name engraved on this plaque. Larry Hartshorn, Charles Zickefoose, and Jerry Mershon are the athletes pictured here. They are three contenders for the award this year.

## Plaque Will Honor Athletes' Scholarship

A bronze plaque, the James Richard Koefod Memorial Award to honor scholastic achievement of K-State lettermen in major sports, has been placed on the east wall inside the main entrance to Ahearn gymnasium.

Each year, the name of the varsity letterman with the highest grade average for the preceding two semesters will be cast on a bronze plate which will be placed on the plaque.

The winner of this award also will receive a letter from the president certifying the award. The department of athletics has agreed to frame these letters before presentation to winners.

To receive the award, the letterman must have a grade average in excess of 2.25.

This recognition is to continue annually for the next 32 years. If no letterman has a grade average in excess of 2.25 in any given year, the space for that year will be left vacant.

This award was established by Prof. and Mrs. Paul E. Koefod as a memorial to Professor Koefod's brother, James, who died in World War II.

This year's winner will be announced sometime next fall, Koefod said. The winner will unveil the plaque, and a formal dedication is planned for this time.

Seventeen athletes have been named as contenders for this year's award on the basis of their fall-semester records.

They are Kent Poore, BA Sr.; Bob Boyd, TJ Soph; Larry Hartshorn, PEM Jr.; Kenneth Long, BA Jr.; Ellis Rainsberger, PEM; Cletis Wilson, AEd Sr.; Charles Zickefoose, Ar 02; Elmer Bates, AA Jr.; Dane Bruster, VM Jr.; Ray Fritzmeier, EE Soph; Jerry Mershon, PrL Sr.; Paul Miller, ME Jr.; Gary Pottorff, PrV Soph; Fred Wingert, VM Jr.; and Gary Doupnik, BA Soph.

The purposes of the award, according to Koefod, are to emphasize to athletes the importance of good scholarship, and to inspire scholastic achievement among athletes.

Warm weather's a "breeze"  
... in our fine Arrow knits.

We won't have these luxury shirts in long. We never do, for they sell by the dozens. Arrow knitted sport shirts are so good for casual occasions, you'll certainly want more than one. These shirts are porous, to keep you cool... skillfully tailored to keep you happy. Practical, too, they'll help save your regular shirts from constant trips to the laundry. Fine Arrow knitted sport shirts in solids and patterns are priced at \$3.95.

**REBOUND!**—Varsity cagers fight over a rebound in last night's intrasquad game. The game went into overtime before the Yellow team composed of probable starters won, 67-62, as Dick Stone hit 23 points and frosh center Jack Parr added 19.

## Yellows Edge Greens, 67-62, in Overtime Tilt

The Yellow basketball team, composed of probable starters on next season's Wildcat varsity, won an intrasquad game from the Green team, 67-62, in overtime last night in Ahearn gym.

Sparked by junior forward Dick Stone and freshman center Jack Parr, the Yellows jumped off to an early lead, but had to come from behind in the final half to gain a tie at the end of regulation time.

**THEY CLOSED** a 10 point gap to tie the score at 57-57 on Pachin Vicens free throw with a minute to go. In the overtime, they poured in 10 points to the Green team's 5.

Parr, playing most of the way at center, hit 19 points, and Stone fired in 23. Most of Stone's points came on long shots.

The Yellows, with Parr, Stone, Vicens, Fred Schneider, and Ron Flynn starting, jumped off to a quick 15-2 lead.

**THE GREEN** team, paced by Joe Powell, Jack Kiddoo, Eddie Wallace, and Wayne Hutchins, pulled within 4 points at 15-19 midway through the first half, then fell behind, 25-32, at half-time.

The Greens began closing in on the Yellow team early in the second half. Parker Stotler sank a

layup and a free shot midway through the half to tie the score, 40-40, then sank a long push to put the Greens ahead, 42-40.

Bob Jedwabny dropped in a free throw for the Yellows, but Larry Fischer hit a layup to keep the Greens ahead, 44-41. Parr then hit four consecutive charity tosses to put the Yellows on top, 45-44.

An 11-point spurge by the Greens gave them a 55-45 lead late in the second half, but they could manage only one field goal in the final minutes as Bill Laude, Dean Plagge, Vicens, Parr, and Schneider totaled 12 points for the Yellows to tie the score at the end of regulation time.

Powell was high scorer for the Green team with 12 counters, while Kiddoo and Hutchins followed with 11 and 9, respectively.

### THE BOX SCORE:

YELLOWS—67			
	FG	FT	PTS
Schneider	1	4	6
Stone	11	1	23
Laube	1	2	4
Parr	6	7	19
Plagge	1	2	4
Vicens	1	4	6
Flynn	1	0	2
Jedwabny	0	3	3
Totals	22	23	67
GREENS—62			
	FG	FT	PTS
Powell	5	2	12
Fischer	2	2	6
Hull	4	1	9
Stotler	2	1	5
Hutchins	3	3	9
Kiddoo	5	1	11
Wallace	2	2	6
Matuszak	1	0	2
Flynn	1	0	2
Totals	25	12	62

## Cat Netmen Lose To Washburn, 6-1

K-State's tennis team was defeated by Washburn, 6-1, yesterday in matches on the K-State courts. Don Wainscott was the only winner for K-State.

Saturday the Wildcats are to meet Missouri here.

## Cat Thinclads To Lawrence For KU Meet

A rapidly improving K-State track team meets its toughest test of the season Saturday when the Wildcats face the talent-loaded KU Jayhawks at Lawrence.

In spite of a strong showing at both the Colorado and Drake relays last week end, track coach Ward Haylett has forecast "the worst whipping a Kansas State team has ever taken" in the dual at KU.

"It is doubtful if K-State has a chance at more than one or two wins, and the Jayhawks could score as many as 9 or 10 'slams' in the 15-event program," Haylett said.

**TIME WAS**, the Wildcat coach pointed out, when the two teams were sure to have close meets. Once, shortly before World War II, K-State had a string of seven straight victories in duals with KU, he said.

"This all has been changed in the past few years, however," Haylett said. "Present strength of the KU track squad, and the strong emphasis on the sport at KU gives the Jayhawks the upper hand."

**AT THE DRAKE** Relays, Wildcat hurdler Ray Russell was second in the 440-yard hurdles, and pole vaulter Paul Miller tied for second with a vault of 13-6. K-State's shuttle-hurdle team of Jack Railsback, Gary Dounnik, Mike Cornett, and Ray Russell placed fourth.

Meantime, other Wildcat thinclads placed a strong second in team standings at Boulder. Competing against 11 other colleges and universities, K-State managed three first-place finishes and one third.

The Wildcats dominated relay competition, winning the 440-yard event in 42.2 and the mile in 3:21. They also set a new meet record by winning the 880-yard relay in 1:27.4.

**TEAMING FOR** the quarter- and half-mile events were Jerry Mershon, Jim Loomis, Dolan McDaniel, and Marvin Chiles. Sophomore Joel McGill replaced Mershon in the mile relay.

Gene Youngstedt, J. D. Patterson, Hubert Guest, and Glen Taplin finished third in the distance medley relay at Colorado.

## Sigma Nu Softballers Gain Tie in Group III

Sigma Nu defeated Pi Kappa Alpha in intramural softball yesterday behind Bill Schaulis' two-hitter to move into a first place tie in fraternity Group III with the Farm House.

Farm House defeated Acacia, 9-2. Darrell Gale had the big blow for the Farm House, a home run. Both teams now have 4-1 records.

**PHI KAPPA** defeated Phi Delta Theta, 12-9, in a slugfest that saw a six-run Phi Delt rally in the last inning fall short. The win moved Phi Kappa into a first-place tie with Beta Theta Pi and Sigma Phi Epsilon in Group I. All three have 3-1 records.

Other scores yesterday—Delta Sigma Phi 9, Lambda Chi Alpha 8; Tau Kappa Epsilon 7, 1834 Club O; Sigma Alpha Epsilon 5, Theta Xi 0.

Games postponed from Monday, May 2, will be played this afternoon in addition to a game between Beta Theta Pi and Phi Kappa to break a group tie. This game will be played at 4:15 on the field south of President McCain's home.

**IN OTHER** Games, at 4:15—Kappa Sigma vs. Delta Tau Delta, southwest field, city park; Wesley Foundation vs. Sheiks of Kasbah, northwest field, city park; Rho Alphas vs. YMCA, west military drill field; OK House vs. Jones Boys, east military drill field.

At 5:15—Alpha Kappa Lambda vs. Sigma Chi, southwest field, city park; Sigma Phi Nothing vs. Toppers, northwest field, city park; Hillbillys vs. Hui-O-Makules, west military drill field; Hose-nose Gang vs. DSF, east military drill field.

## Twenty Alumni Cagers To Play Here Friday

About 20 alumni are expected to gather here for the annual varsity-alumni basketball game Friday, Ernie Barrett, player-manager of the alumni, said.

Among those expected to be pre-

sent are Lew Hitch, John (Hoot) Gibson, Roger Craft, Jim Iverson, Gene Stauffer, Don Upson, Jerry Jung, Jim Tangeman, Bob Garcia, J. R. Snyder, Perk Reitemeier, Clancy Brannum, Lloyd Krone, Bob Johnson, Rick Harman, and Kent Poore.

**THE STARTING** lineup for the alumni is expected to Hitch, 1950-51 center now with the Minneapolis Lakers; Gibson, 1951-52 forward; Roger Craft, 1954-55 center; Barrett, 1950-51 all-American guard; and Jim Iverson, 1951-52 guard.

"If we're hitting a good percentage of our shots, I think we'll give them a hard time," Barrett said. "I'm looking forward to the game, because this is the first time we've had a representative group of alumni present, as far as I can remember."

**DUE TO THE** varsity being in good physical condition their fast break will be their most outstanding weapon," Barrett said. Being out of shape physically will be to the disadvantage of the alums, he added.

He expects both teams to use a man-to-man defense.

## Wildcat Golfers After First Win

K-State golfers will be seeking their first win of the season this Saturday as they meet Missouri on the Manhattan Country Club course.

In four meets during the past week, the Wildcats were unable to come up with a win.

On Friday they competed in a triangular meet with Omaha and Colorado at Omaha. Omaha won the meet with 17½ points, Colorado was second with 14½, and K-State finished third with 4½.

Saturday they met Iowa State at Ames, Iowa, and were defeated, 7-5.

Drake defeated the Wildcats on Monday, 7½-4½. Kent Poore was medalist in the meet as he shot a one-under par 71.

Nebraska defeated the Wildcats, 9½-2½, Tuesday in a meet at Lincoln.

In addition to being medalist in the Drake meet, Poore won his matches in all four meets.

Ireland offers the tourist a unique wealth of memories of the distant past, including pagan forts, tumuli, early Christian oratories, medieval monasteries and ancient castle rich in historic associations.

# Students Honor Mothers with Special Dinners

## Parents' Day

Parents' day at the Tau Kappa Epsilon will be Sunday, May 8.

Alpha Chi mothers were honored with a dinner May 1 at the chapter house.

The Sigma Chis had 105 guests at their Mothers' Day week end April 30 and May 1. The mothers arrived Saturday and had tea at the home of Mrs. Arthur Peine at 2 p.m.

After a buffet supper at the chapter house many of the guests attended the centennial pageant. Following church Sunday, May 1, the week end climaxed with dinner at the house.

Acacia members honored their mothers with a Mothers' Day dinner Sunday, May 1. Fifty-two guests were present.

The Kappa Sigmas entertained their parents at a dinner Sunday, May 1. Eighty guests were present.

Forty-two mothers were honored with a Mothers' Day dinner at the Kappa Kappa Gamma house Sunday, May 1.

Delta Sigma Phi entertained with a Mothers' Day dinner Sunday, May 1. Over 100 guests were present.

The mothers of the members of Sigma Phi Epsilon were honored with a Mothers' Day dinner at the chapter house May 1.

The Alpha Xi Deltas had Mothers' Day dinner Sunday, May 1. Thirty-three mothers were present at the dinner. A program of singing and skits was given for entertainment.

Mrs. C. E. McDowell, president of the Mothers' club, presented Martha DeGraff with a scholarship ring for outstanding grades during the year.

## Engagements

### Cronkite-Clair

Chocolates at the Alpha Delta Pi paddle party Wednesday night, April 27, announced the engagement of Doreen Cronkite and Ronald Clair. Doreen is a senior in home economics journalism from Manhattan. Ron is a senior in mechanical engineering from St. John.

### Lewis-Graham

The engagement of Joanne Lewis and Robert W. Graham was announced with chocolates at Van Zile Wednesday, April 27. Joanne is a sophomore in business administration from Overland Park. Bob is from Hackensack, N.J., and is now stationed at Fort Riley.

### Hahn-Garrelts

The engagement of Lois Hahn to Bill Garrelts was announced at the Alpha Xi Delta spring formal at the Country club Friday, April 29. Lois is a senior in elementary education from Ellsworth. Bill is a junior in business administration from McPherson and a member of Sigma Phi Epsilon.

### Stephenson-McCallum

Cigars at the Sigma Nu house announced the engagement of Danny McCallum and Donna Stephenson. Danny is a sophomore in agriculture from Elmdale and Donna is employed with the Exchange National bank in Elmdale. June 19 is the wedding date.

### McKelvey-White

The engagement of Barbara McKelvey to Sgt. John W. White was announced at Waltham hall Sunday, May 1. Barbara is a senior in home economics teaching from Leoti. John is from Lovett, Texas. He is now in the service stationed at Ft. Riley. The wedding will be in August at Leoti.

### Younkin-Vinson

The engagement of Carolee Younkin and Ralph Vinson was announced at Northwest hall. Carolee is a freshman in home economics from Larned. Ralph, a sophomore in veterinary medicine at Illinois university, is a member of Lambda Chi Alpha. An August wedding is planned.

## Pinnings

### Weathers-Gallion

Chocolates at the Alpha Delta Pi house and cigars at the Alpha Kappa Lambda house announced the pinning of Ann Weathers and Dick Gallion, Sunday, April 24. Ann is a sophomore in home economics from Topeka, and Dick is a senior in government from Garden City.

### Lauber-Burke

Chocolates at the Alpha Delta Pi house and cigars at the Theta Xi house announced the pinning of Datha Lauber and Marty Burke Wednesday, April 27. Datha is a senior in clothing and textiles from Yates Center, and Marty is a senior in business administration from Hutchinson.

### Sesher-Kretzer

The pinning of Doug Kretzer to Susan Sesher was announced at the Alpha Kappa Lambda house with cigars. Doug is a junior in electrical engineering from Hutchinson. Susan is also from Hutchinson.

### Schroeder-Lee

Dick Lee and Marilyn Schroeder announced their pinning Friday night at the Alpha Kappa Lambda Pernet ball. Dick is a senior in mechanical engineering from Raytown, Mo. Marilyn is also from Raytown.

### Amend-Hughes

Cigars at the Sigma Phi Epsilon house Saturday, April 30, announced the pinning of Eldon Amend and Carolyn Hughes. Eldon is a pre-med junior from Sterling. Carolyn attends Dodge City Junior college.

### Wonder-Knostman

Cigars at Beta Theta Pi and chocolates at Pi Beta Phi Sunday, May 1, announced the pinning of Margaret Wonder to Harry Knostman. Margaret is a freshman in art from Manhattan. Harry is a senior in civil engineering from Wamego.

### Voth-Friesen

The pinning of Donna Voth to Jerry Friesen was announced at the Alpha Xi Delta spring formal at the Country club Friday, April 29. Donna is a sophomore in business administration from Newton. Jerry is a senior in civil engineering from Hutchinson and a member of Alpha Kappa Lambda fraternity.

### Sinderson-Sievers

Cigars at the Tau Kappa Epsilon fraternity Sunday, May 1, announced the pinning of Lee Sinderson and Trudy Sievers. Trudy works in Downers Grove, Ill. Lee, also from Downers Grove, is a sophomore in agricultural engineering.

### Wade-Peak

Chocolates and cigars Sunday, May 1, announced the pinning of Jackie Wade and Dick Peak. Jackie, a junior in psychology from Kansas City, Mo., is a member of the Kappa Delta sorority. Dick, a senior in feed technology, is from Manhattan. He is a member of the Sigma Alpha Epsilon fraternity.

## Roses

### Hair-Filbert

Roses at Waltham hall April 27 announced the approaching marriage of Ruth Hair to Edward Filbert. Ruth is a sophomore in home economics and art. Edward is a '51 graduate of Fort Hays and is a Tau Kappa Epsilon alumnus. He is now serving in the armed services at March AFB at Riverside, Calif. Both are from Ness City. The wedding will be at Ness City June 10.

## Special Dinners

Eleven seniors were honored at the Kappa Delta senior dinner Sunday, May 1. They were Marie Eggerman Bauer, Logene Britton, Betty Fahlsing, Wilma Larkin, Phyllis Latzke, Dianne Nemeth, Diana Siemers, Donna Turnbull, Better Turner, Caroline Wilbur, and Ilomay Williamson.

Medals were awarded outstanding Theta Xi members Sunday, May 1, at a dinner at the chapter house. The active award was given to Don Garrett, active athlete award to Leon Stanton, pledge award to Keple Disney, pledge athlete award to Gene Longhofer. The active with the highest scholastic average for the year was Wayne Sheets and the pledge with the highest scholastic average was Frank Kreidler.

## Rush Weekend

Clovie entertained with a rush week end April 30 and May 1.

## Exchanges

Acacia had an hour dance with Kappa Delta April 28.

## Officers

New alumni officers of Theta Xi fraternity are: Bob Smith from Manhattan, president; Ben Blackburn from Topeka, vice-president; Stub Rowland from Wichita, secretary; and Dode Beck from Manhattan, trustee.

Officers of Theta Xi fraternity are: Don Hamilton, president; Duane Santela, vice-president; Bill Stanners, treasurer; Mel Vareiss, house manager; George Looby, assistant house manager; Wayne Riley, corresponding secretary; Don Garrett, member at large; George Looby and Bill Cady, trustees.

## Parties

The Sigma Phi Epsilon chapter house was transformed into the Hawaiian Islands for a house party Saturday, April 30. Fraternity members and their dates dressed in Hawaiian costumes.

The Kappa Sigmas had their Black and White spring formal Friday, April 29. The dinner and dance were at the Wareham Terrace room.

The Alpha Xi Delta sorority Pink Rose formal was held Friday, April 29. The dinner was at the Skyline with the dance following at the Country Club. Matt Betton played for the dance.

Sue McDowell, president; Al Steunenber; Mrs. A. W. Landstrom, housemother; and Mr. and Mrs. William Baehr were in the receiving line.

The members of the House of Williams will entertain their dates and guests at Christos Mill with a dinner and dance Friday, May 6.

The Phi Delta Thetas held a house party April 30 for twenty-one rushees. The party had a carnival theme. Mr. and Mrs. H. O. Stone were the chaperones.

The Phi Kappas will hold their annual "Fish Formal" Friday night, May 6, at the Country club.

The Alpha Gamma Rho's entertained their dates with a steak fry May 1. Other guests attending were Mrs. Charles Kipfer, Mr. and Mrs. R. F. King and Mr. and Mrs. Leonard Schruben.

Delta Delta Delta sorority will have their spring formal Friday. The banquet will be held at the Wareham hotel followed by a dance at Pottorf hall.

## Picnic

Waltham hall had a picnic at the city park Wednesday evening, May 4.

## Deferment Test Set for May 19

A selective service make-up test will be given May 19 for students who are interested in getting a college draft deferment or who missed the last qualification test, according to Sumner Morris, director of the student counseling center.

Students desiring deferment from service to complete schooling should get an application form from the counseling center in Anderson hall or from the Manhattan draft board before May 9. Applications must be in the mail by May 9, Morris said.

To be eligible for the college qualifications test, an applicant must be pursuing a full-time college course leading to a degree and must be registered with the selective service.

The test to be given May 19 is a make-up test for the two given in December and April, Morris said.

Japan's Inland Sea is 250 miles long and embraces more islands than any other sea, says the National Geographic Society. They number 700 to 3,000, depending upon whether 'island' can be applied to islets and the fantastic rocks that jut up as much as 100 feet above the water.

# HE More Rugged at Home Say Dutch Grad Students

By JO ANN HUNT

No electives to choose from, three foreign languages required, and only four weeks of summer vacation. This may sound terrible to American students, but it is regular procedure in home economics schools in the Netherlands, according to Nel Platteeuw and Elizabeth Kooyman, Dutch home economics instructors, who are working toward their master's degrees here at K-State.

The Dutch home economics schools differ from American ones in that the home economics school is a special school in itself. It is not a part of any college. At present very few men attend the school. Students in classes are divided according to different ages and backgrounds.

The subject matter is divided into three parts: foods and nutrition, household economics, and clothing. Miss Kooyman says she feels that more material is covered in a year in Dutch schools than in the U. S. but the subject matter is similar to ours. The year is not divided into semesters as is ours.

THROUGH the assistance of Dr. Margaret Justin, dean emeritus of the School of Home Economics, while she was in the Netherlands, Mrs. Platteeuw and Miss Kooyman received scholarships from K-State. They were also awarded Fulbright travel grants.

Both women are working for their master's degree in home economics and will return to The Hague to teach. Miss Kooyman is specialized in household economics and teaches all home economics courses except clothing. Mrs. Platteeuw is specializing in institutional management and has taught only foods and nutrition.

## A & S Honorary Chooses 18 New Members

Eighteen girls were recently initiated into Phi Alpha Mu, scholastic honorary for junior and senior women in the School of Arts and Sciences.

Those initiated are Lavoy Good Sheel, EEd, Sr; Jocelyn Liebler, Eng Grad; Sue Martin, BMT Jr; Mary Ardis Smith, ML Sr; Janice Waide, Psy Sr; Diane B. Weixelman, TJ Jr; Jo Ann Whittaker, Soc Sr; Joan Sargent, Soc Jr; Janet Sue Peterson, EEd Jr; Leona Kraus, BA Jr; Patricia Ann Kollman, BA Jr; Carolyn Jones, TJ Jr; Joan Hunsberger, Eng Jr; Janet Boettcher, MEI Jr; Carol Clark, Mth Sr; Carol Collins, Hst Jr; Ann Parish Edmonds, BMT Jr and Marilyn Heter, Soc Jr.

Janice Waide was elected president of the organization and Janet Boettcher is vice-president. Joan Hunsberger is secretary-treasurer.

## YWCA Installs New Officers

The YWCA installed new officers at a spring breakfast in Thompson hall Sunday. Judy DeWall, publicity chairman, said.

The new officers are: Marilyn Smith, BMT Soph, president, Margie Lemon, BMT Jr, vice-president, Margery Cornwell, Eng Soph, secretary, and Joan Skupa, HE Soph, treasurer.

KANSAS STATE COLLEGIAN  
Thursday, May 5, 1955-8

## Campus Briefs

ELECTION of officers will be held Thursday at a meeting of Home Ec Clothing-Retailing club. The meeting will be in C218 at 4 o'clock. All members are urged to be present, said Cynthia Henning, secretary.

THE HOME ECONOMICS Extension club will have a picnic Thursday at Sunset park, Jo Ann Hunt, president of the club, announced. Members are to meet at the east entrance of Anderson hall at 5:30 p.m. Election of officers for next year will be held, Miss Hunt said.

WILLIAM CATHCART, K-State agricultural economist, left Monday for a week's interviews with alfalfa dehydrator managers in Winfield and Lamar, Colo.

DORETTA SCHLAPHOFF, dean of the K-State School of Home Economics, is at Michigan State college, East Lansing, attending a doctoral forum sponsored by the research department of the American Home Economics association. Representatives from 16 colleges are participating in the meeting.

JOHN F. HELM JR., of the K-State department of architecture and allied arts, will be one of the

principal speakers Monday, May 9, at the Kansas Wesleyan university Festival of Fine Arts program.

Helm will speak on "Tendencies in Contemporary Painting."

THIRTY-SEVEN members of the Bi-Phy-Chem club of Lincoln high school in Kansas City will visit the campus today, according to L. W. Dewhirst, instructor in zoology.

The club makes a visit to some nearby college each spring and last visited K-State four years ago.

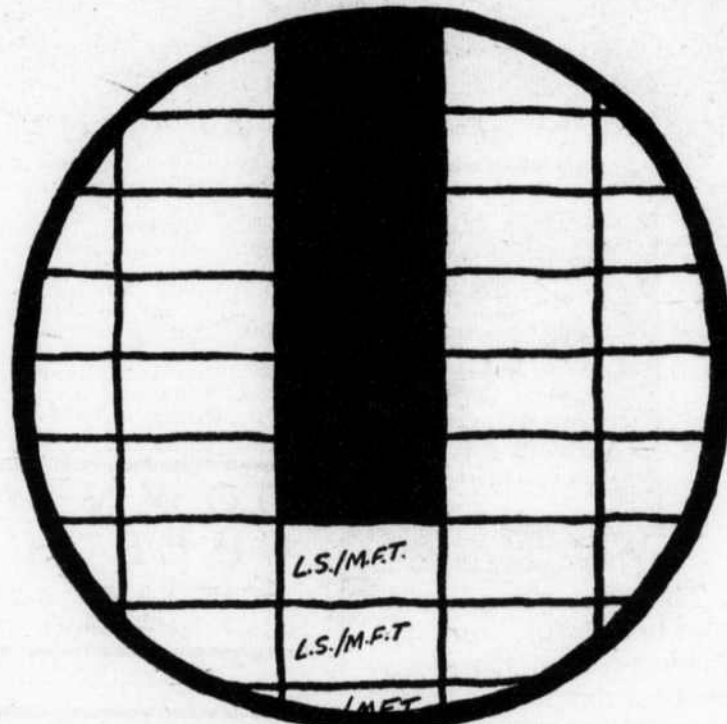

PROF. LOUIS H. DOUGLAS of the department of history, government and philosophy, will attend the annual meeting of the Midwest conference of political scientists at Purdue university May 5-7. He is to present a paper on rural politics.

SHIRLEY BESSEY, extension home economist, will assist with the Kansas Recreation workshop, to be held May 9-13 at the encampment building on the State Fair grounds, Hutchinson. Attending the workshop will be teachers, extension workers, and rural recreation leaders.

WHAT'S THIS? For solution see paragraph below.

YOU GET A GOOD CLOSE-UP of college smokers' preference for Luckies in the Droodle at right, captioned: Lucky Strike column in a college cigarette-vending machine. On campuses all over America, college students automatically get Luckies. Why? Simply because Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' good-tasting tobacco to make it taste even better...

cleaner, fresher, smoother. Next time it's light-up time, why don't you pull for Luckies?

DROODLES, Copyright 1953 by Roger Price

"IT'S TOASTED" to taste better!

Better taste Luckies... **LUCKIES TASTE BETTER**...Cleaner, Fresher, Smoother!

NUMBER 137

## Modern Architecture Is Fine Arts Topic

Henry Russell Hitchcock, noted architectural historian and consultant for the Museum of Modern Art in New York City, is featured today on the Fine Arts Festival program. His lecture, "Modern Architecture in the Two Americas," will be at 3 p.m. in the Auditorium.

The last production of "Quantrill in Kansas" (The Story of An Outlaw) will be presented in the Auditorium at 8:15 p.m. There is no admission charge.

**ACTIVITIES TOMORROW** will include the Kansas Art Education Association meeting. Dwight Kirsch will give a lecture in Engineering lecture hall on "American Painting Today." Kirsch is director of the Des Moines Art Center, Des Moines, Iowa.

The Resident String Quartet will give a recital at 3 p.m. tomorrow in the department of architecture and allied arts studio.

A movie, "The Drawings of Leonardo da Vinci," with commentary by Laurence Olivier, will be shown in Engineering lecture hall at 4 p.m. tomorrow.

**THE EXHIBITIONS**, showing development of paintings and architecture in Kansas, will be open tomorrow, and after 2 p.m. Sunday afternoon.

The Symphonic Band's "Pops" concert Sunday is the last event scheduled in connection with the festival. Under the direction of Dick Coy, the band will begin the concert at 3 p.m.

Committee members who planned the Fine Arts festival were John F. Helm Jr., chairman, A. L. Pugsley, Earl Hoover, Luther Leavengood, and Bert Cross.

## ASME's To Hear McCain Monday

President James A. McCain will be principal speaker Monday night at a meeting of the Kansas City section of the American Society of Mechanical Engineers.

Dr. McCain's topic will be, "The Science and Art of Human Relations."

## Next Year's Major Dates To Be Set

Representatives of college organizations are asked to come to joint meetings of the Student Activities Board and the Calendar of College Activities Committee to be held next Tuesday at 4:00 p.m. and May 12 at 7:15 p.m., said Phil Sorensen, assistant dean of students.

The two meetings will be in Anderson hall 212.

"IN AN EFFORT to eliminate activity calendar conflicts and to anticipate the demand for certain facilities next year, the calendar committee and the activities board are jointly sponsoring two pre-scheduling meetings," said Sorensen.

He urged that organizations sponsoring an event that is important and will affect a number of students, should pre-schedule the event at the meetings.

College departments planning conferences, dramatic productions, and concerts, major student organizations, such as ISA and IFC, and organizations that sponsor all-college events as Engineers' Open House, the Ag Barnwarmer, Hospitality Days, Little American Royal, and others are asked to come to the meeting May 10.

**ON MAY 12**, a meeting will be held for social chairmen, representatives of living groups, and representatives of other student organizations that sponsor events that effect a significant number of students, such as 4-H, Jr. AVMA, and associations.

Representatives should come prepared to indicate tentative dates for events, Sorensen said. A tentative calendar for the coming year could then be prepared.

Sorensen added the further emphasis is put on the necessity for pre-planning with the scheduled opening of the K-State Union about February 1, 1956. From that date on, Union facilities will probably be crammed with events. An indication of plans now may make a real difference next winter in scheduling the facilities, said Sorensen.

## A&S Curriculums Vote

Students in the curriculums of biological science, physical science, and technical journalism can vote for their candidates for Arts and Sciences council today. The polls will be open until 5 p.m. today in Anderson. Students must have their activity tickets in order to vote.

## Architecture Anniversary Dinner Tonight

Reservations for a dinner observing the 50th anniversary of the founding of the curriculum in architecture have been made by 114 persons from ten states. The dinner will be held tonight in the Cafeteria.

Paul Weigel, who has been head of the department for 34 years, will be paid special honor. Weigel is retiring from administrative duties July 1 under a Board of Regents' ruling, though he will continue to serve on the staff until he reaches the age of 70.

Henry Russell Hitchcock, noted architectural historian and consultant for the Museum of Modern Art, New York City, will be featured on the program.

L. Burr Smith, a 1926 graduate who now heads the department of architecture at the University of Nebraska, will also be on the program. Ernest Cooke, Webster Groves, Mo., a 1932 graduate, will be toastmaster.

Special guests will include Mrs. Frank Boyd, Sr., Mankato, who once worked with J. D. Walters, founder of the architecture curriculum; and representatives of the College administration.

## Sigma Chi, KD Take Trophies

Kappa Delta and Sigma Chi won first place trophies at Interfraternity Sing last night. Pi Beta Phi placed second in the sorority division, while Phi Delta Theta was second in the fraternity group, and Beta Theta Pi was third.

Sorority trophies were awarded by Charlene Bell, president of Panhellenic Council, and fraternity trophies were awarded by Jerry Schrader, president of Interfraternity Council.

### BULLETIN

A score that was added incorrectly by one of the judges may result in a reversal of the second and third place trophies originally awarded to Phi Delta Theta and Beta Theta Pi, according to Wayne Sheets, Sing chairman.

The incorrect total on one of the score sheets was not discovered until after the judges had left and the trophies had been awarded. The decision on the reversal will come tomorrow from the judge, who will be consulted on the correct interpretation of his score sheet.

"Kappa Delta Garden of Dreams," and "KD Blues," were the songs sung by the first ranking Kappa Deltas. Sigma Chi sang the "Marching Song," and "Sweetheart of Sigma Chi" to win first in the Sing.

**PI BETA PHI** sang "I Dreamed of a Dream" and "Follow the Arrow." "Drums" and "Always This Song" won second place for the Phi Deltas. Beta Theta Pi sang "The Loving Cup" and "The Beta Marsellaise" to win third.

Judges for the Sing were Donald H. Miller, Chapman; Paul Ryberg, Salina; and Gladys Nygren, Topeka. Wayne Sheets was Interfraternity Sing chairman, and S. W. Gunter and Eleanor Griffith were on the Sing Committee. S. W. Gunter acted as Master of Ceremonies for the Sing.

**A QUARTET** from Farm House sang before the presentation of the trophies. Members of the quartet are Charles Esslinger, Leonard Schwabb, Bob Sanford, and Darrell Gale.

## Bell Installed as Panhellenic Prexy

New officers of the Panhellenic Council, sorority governing organization, were installed at the Kappa Kappa Gamma house last week.

President of the group is Charlene Bell, Chi Omega. Other officers are Gaye Fryer, Alpha Delta Pi, vice-president; Eleanor Griffith, Kappa Kappa Gamma, treasurer; and Avis Venburg, Kappa Delta, secretary.

## Newman Clubs Convene Here

The Kansas Regional of Registered Newman clubs will meet at K-State Saturday, according to Mary Beckmeyer, TJ Soph, publicity chairman.

The purpose of this meeting is to discuss the organization of a Kansas Newman club. Each of the following schools will be represented by two delegates: KSTC at Pittsburg, KSTC at Emporia, Fort Hays, Washburn, Wichita U, KU, and K-State.

This will be the first meeting of representatives from clubs all over Kansas. All K-State Newman club members may attend the meetings in J15 and 16 beginning at 1 p.m. Lunch will be in the cafeteria from 11 a.m. to 1 p.m.

## Student Health

One girl and four boys are patients at Student Health today. They are Shirley Davis, Joe Horton, Bob Jones, Paul Wallace, and Bill Harris.

**THE SIGMA CHIS** sing, as the first place trophy they will soon win stands gleaming in the spotlight. They were led in their singing by Dave Schneider, Sp Sr. Three trophies were awarded to fraternities, two to sorority entrants.

**CAROL ANTIC**, Pi Beta Phi, Ilomay Williamson, Kappa Delta, Dave Schneider, Sigma Chi, Sax Stone, Phi Delta Theta, and Charles Amstein, Beta Theta Pi, stand with the trophies won by the singing they directed.

# KU Sigs Have Derby Day, Pittsburg Auctions Off Car

Alpha Phi sorority at Kansas University won the second annual Sigma Chi Derby Day recently when 11 sororities competed in races on the tennis courts at the Sigma Chi house. Skinned knees and bruises were suffered in each of the nine vents, said the University Daily Kansan. Events this year included a four-legged race, the backwards basketball dribble, musical buckets, the water-filled balloon relay, sack race, egg in spoon relay, the leap frog race, the pony express race, and the grapefruit relay.

A 1935 Plymouth will be auctioned at the Pittsburg college campus soon, and proceeds from the sale will go to the World University Service. The car was donated by a music teacher at the college and was reported to be in excellent running condition. The campus YWCA painted and completely reconditioned the car. A limited number of late leaves for the girls in the dorms will go to the highest bidders. The money from this project will enable students in other countries to continue their education, according to the Collegio.

Phi Sigma fraternity at Syracuse University recently washed cars, inside and outside for 50 cents. Proceeds from the car

wash went to benefit the Rheumatic Fever foundation, said the Syracuse Daily Orange.

Students in the Radio Advertising class at Syracuse University had a welcome surprise recently when Lee Meriwether, 1954 Miss America, talked to the class. Students were in their class room waiting for their instructor who was giving them a test that hour when to their surprise the 1954 beauty queen walked in. They had the test the next day, according to the Syracuse Daily Orange.

Early morning acrobats were once again in their glory at the annual Dawn Yawn dance at the University of Colorado, recently. Sponsored by Mortar Board, the dance was held at 5:30 a.m., said the Colorado Daily.

A social fraternity at the University of Oklahoma, held its second annual Santa Fe Boxcar party recently. The event took place on the railroad sidings. Three boxcars and a flatcar were used for dancing and entertainment, said the Oklahoma Daily. The cars were loaned to the fraternity by the Santa Fe railroad company. Members and guest were dressed as hobos and food was broiled over a charcoal fire.

The annual Spaghetti Splurge

was held at a sorority house at Syracuse University, recently. Sponsored by alumnae of the sorority proceeds from the 95-cent meal went to the National Society for Crippled Children and Adults, according to the Syracuse Daily Orange.

Hundreds of odd articles will be sold soon at an auction sponsored by Alpha Phi Omega at the University of Oklahoma. This is the fraternity's annual lost and found auction. Lost possessions range from hair tonic to an old-fashioned one piece bathing suit. Other odd articles are a baby bib, kite string, and kewpie doll. Last year's auction brought the organization \$70, said the Oklahoma Daily.

A giant ferris wheel, sponsored by four fraternities and sororities at Syracuse university will be the highlight at the Campus Chest Carnival this year. Members of the sororities will dress in carnival attire to add color to the annual affair. Prizes will be awarded for the most unusual booth and for the largest amount of money collected by the booth. Groups sponsoring booths will donate both their expenses and time with the entire proceeds going to Campus Chest, according to the Syracuse Daily Orange.

## Today's World News

# Bao Dai Flight Home Expected in Viet Nam

Compiled from the Wires of United Press

By DICK CARR

Saigon, Indochina—Emperor Bao Dai summoned his personal pilot to France, it was disclosed today, and reports immediately swept Saigon he was preparing to return to South Viet Nam for the first time in two years.

Bao Dai, in an exchange of messages with Premier Ngo Dinh Diem earlier this week, expressed a desire to return here from the French Riviera in an effort to save his threatened throne.

The emperor's own pilot received an urgent summons in Dalat, Bao Dai's palace north of Saigon, to hurry to Cannes where the playboy monarch has been living since April 1953. The pilot managed to get the last available seat aboard a French plane which took off for France last night.

## Queen Elizabeth Disbands Parliament

London—Queen Elizabeth II disbanded Parliament and signaled the start of the campaign for the May 26 election today in a speech expressing hope for "fruitful negotiations with the Soviet Union."

The Queen's speech was read for her by officials in the House of Lords and then in the House of Commons.

The Queen also framed a royal proclamation to be issued later in the day formally dissolving Parliament.

The dissolution of Parliament marks the beginning of the all-out political campaign which will culminate in the voting for a new Parliament in general elections May 26.

## Survival Town Survivable

Survival Town, Nev.—Survey teams revealed today that damage to the homes, furnishings and fixtures of atom-blasted Survival Town was high, but many residents of such a community could have escaped death.

Their chances for survival would depend not so much on how far they were from the center of a nuclear explosion as on the type of home they lived in.

Two of three dwellings reduced to rubble were of frame construction, the third of brick. All three were about a mile from the atomic tower that itself was vaporized by the explosion.

## Polio Inoculating To Be Done by Summer

Washington—The National Foundation for Infantile Paralysis reported today that it expects to finish inoculating most of the nation's first- and second-graders before schools close for summer vacations.

It also said it is confident state and county health authorities will try to keep their clinics running to take care of any children not reached by summertime.

Foundation officials conceded a serious lag in Salk vaccine supplies has thrown their mass immunization program somewhat out of kilter. But if no more hitches develop, they figure they can get two shots to most of the 9,000,000 children in their program before schools let out.

## First Death in Southern Strikes

Atlanta—A rail striker was shot to death last night in a skirmish with non-striking employees in heightened violence of two major Southern strikes, authorities reported today.

The first death in nearly eight weeks of violence in the twin rail and communication strikes occurred in gunplay after several cars bearing strikers ran a company truck off the road, it was reported.

The shooting, near Mount Pleasant, Tenn., delayed negotiations toward settlement of the Louisville & Nashville railroad strike, but federal mediators in Washington sought to resume the talks today.

## Calendar

Disciples Student Fellowship retreat, Lake Shawnee, Topeka; 12 noon.

### Sunday, May 8

Kappa Kappa Gamma picnic, bottom of the Top of the World, 5 p.m.  
K-State Players banquet, Wareham, 4 p.m.  
Pi Kappa Alpha dinner, 12 p.m.  
College Band "Pops" concert, Aud 4 p.m.

### Monday, May 9

Miniwance club picnic, 5 p.m.  
Pershing Rifles drill, MS drill field, 5 p.m.  
Pershing Rifles, MS211, 7:30 p.m.  
Naval Reserve Electronic class, classroom barracks "B" 101, 104; 7 p.m.

# Just Changing Occupation, Dean Goes Back to Math

By BEVERLY LEE

You don't retire from work, you just retire from one job and go into another, Dean R. W. Babcock, of Arts and Sciences, said in a recent interview.

Dean Babcock will be instructing in the mathematics department next year. "So you see, I'll be right back where I was before I came here," he said.

PRIOR TO coming to K-State in 1930, he was a professor in mathematics at DePauw. He received his A.B. from the University of Missouri in 1912. In 1915 he received his M.A. and in 1924 his Ph.D. from the University of Missouri.

Dean Babcock was a professor in math at Evansville junior college from 1912 to 1914. He instructed math at Pennsylvania in 1915 and at Wisconsin from 1916 to 1925. He then became assistant professor at Wisconsin and served there until 1929 when he was made a professor at DePauw. The following year he came to K-State to be Dean of Arts and Sciences.

BABCOCK IS affiliated with many organizations including the American Mathematical society, the Mathematical Association of America, Phi Kappa Phi, Pi Kappa Delta, Lambda Chi Alpha, and Gamma Alpha, a graduate scientific fraternity of which he is a past president. He is also listed in Who's Who in America.

An active civic worker, Babcock served on the Manhattan Board of Education for 14 years, ending in 1947. He is a member of the Chamber of Commerce and is a faculty adviser for Lambda Chi Alpha fraternity.

When he first came to K-State, Babcock conducted a church school class for freshman men at Wesley Foundation and continued this for 15 years. "The last year I had the class, only two boys came because of the man shortage during the war," he said. "But I threatened that if one of them ever quit coming, I'd put the other one in a class of girls, so they both stuck it out." At the present time he is a member of the Board of Trustees of Wesley Foundation.

AFTER SERVING as local president of Kiwanis in 1949, he was advanced to lieutenant governor of division four of the Kansas district in 1952. His job was to supervise the activities of the clubs in Junction City, Sa-

lina, Marysville, Concordia, Belleville, and Manhattan.

In his leisure time, Babcock says he works crossword puzzles and would like to play golf, but is not able to because of the loss of vision in one eye. He enjoys travel and has driven through every state in the Union and parts of Canada and Mexico.

"I've never been abroad, though, and don't have any immediate intentions of going," he said. His plans do include a summer vacation, which has been impossible up to now, because of his year-round job. Most of his vacations have been during the winter.

"WHEN WE vacation we just wind up the buggy and away we go, wherever the spirit moves us," he said. "We don't visit relatives or take care of business, but just go where we want

to." He confessed that he frequently gets lost on the way back and often ends up in unexpected places. "The last state in the Union that I visited was Alabama, and that was just by chance, not knowing where I was," he said.

The Babcocks have three children, two sons and a daughter, all of whom attended K-State. Elliot graduated in physics, John in electrical engineering, and Jean majored in home ec and nursing.

Dean Babcock is very proud of the fact that his family has grown from five to ten members in the last few years. In addition to the original members, he now has a daughter-in-law, a son-in-law, two granddaughters, and one grandson. All members of his family were on hand for the ceremonies Thursday.

Dean Rodney W. Babcock

## Summer School Offers Recreational Activities

By PAT CLARY

Summer time is fun time, even for college students, insists Frank J. Anneberg, Manhattan Recreation director.

"The Manhattan Recreation commission offers a variety of activities for student participation," said Anneberg, "that will put spark into every summer school day."

EQUIPMENT of all types may be checked out with no charge

from the recreation office in the Community building at 114 N. Fourth. This includes croquet, horseshoe, badminton, volleyball, softball, and baseball. Table games are a favorite for evening parties, Anneberg reported.

College men have an opportunity to play ball during the summer on teams organized by the commission. Rosters for the Bombers baseball team and the eight-team softball league have not yet been completed.

"Any student wishing to play ball may call 8-5329 and ask to be placed on a team," the director said.

MANHATTAN'S city park is also for students' use, with the equipment here including archery, horseshoe, croquet, and tennis.

The municipal swimming pool will be open to the public, beginning May 30 from 1-9 p.m. daily. Again this year there will be Red Cross adult swimming lessons.

For a balanced recreational program, Anneberg suggests participation in the square dance club, the timing association, (stockcar racers' club), and similar interest groups. Information about club meetings can be obtained at the recreation office.

MARRIED STUDENTS with children will appreciate the summer play-grounds operated by the commission. Anneberg said several KSC students are play-ground directors and others are assisting in various parts of the summer recreation program.

These activities, along with the theaters, skating rinks, riding academies, and bowling alleys give students a wide choice in occupying their leisure time, he said.

## Recital Monday By Organ Guild

Six members of the K-State chapter of the American Guild of Organists will present a recital Monday at 8 p.m. in the College Auditorium.

Four of the six members on the program are graduating seniors, said Professor Robert W. Hays, faculty adviser of the chapter. Nancy Blackburn, MEI Soph, is president of the chapter.

Those who will play in the recital are Wilma Jo Larkin, DIM Sr; Roger Reitz, PrM Sr; Charles Amstein, PrM Sr; Jane Compton, ChW Sr; Theodore Stewart, Fort Riley, and Miss Blackburn.

## Miller, Weaver To Recite Tuesday

Ross Miller, MEI Jr, and Jerry Weaver, Ar 04, will be presented in a joint recital by the department of music Tuesday at 8 p.m. in the College Auditorium.

Miller, a flutist, is a student of Vallie Kirk, temporary music instructor. His accompanist is Nancy Leavengood, a graduate student in music.

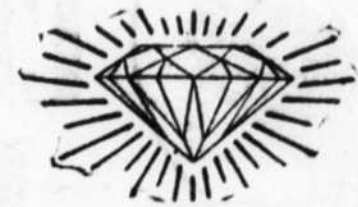

Weaver, a pianist, is a student of Professor Charles Stratton.

The mainland area of Australia is 2,948,366 square miles.

## Betas, Sig Eps To Meet In Softball Playoff Today

Beta Theta Pi defeated Phi Kappa, 10-0, behind the one-hit pitching of George Bemis in a Group I playoff game yesterday afternoon.

As a result of the win, the Betas will play Sigma Phi Epsilon for the Group I championship at 4:15 this afternoon on the west military drill field.

**SIGMA CHI** defeated Alpha Kappa Lambda, 4-2, to move into a first-place tie in Group IV with Alpha Gamma Rho. The two teams will play for the group championship at 5:15 this afternoon on the west military drill field.

In the independent division, the Hillbillies defeated Hui-O-Makules, 8-0, behind the one-hit pitching of Richard Allen to win the Group II championship.

In Group III of the independent division, the Jones Boys won their fourth straight as they defeated OK House, 11-2. This win gives them the group championship.

In other games yesterday afternoon, Delta Tau Delta defeated Kappa Sigma, 8-6; Sigma Phi Nothing defeated Toppers, 8-4; DSF defeated the Hosenose Gang, 5-4; the Sheiks of Kasbah forfeited to Wesley Foundation; and YMCA forfeited to the Rho Alphas.

**YESTERDAY'S** games completed the regular intramural softball schedule. The three group ties will be played off this afternoon, with semifinals in both divisions scheduled for next Monday, and finals scheduled for Tuesday.

Games this afternoon—Beta Theta Pi vs. Sigma Phi Epsilon, west military drill field, 4:15; Sigma Chi vs. Alpha Gamma Rho, west military drill field, 5:15; and Farm House vs. Sigma Nu, east military drill field, 5:15.

### KU Cagers To Play Wisconsin Next Year

Lawrence (U.P.)—The University of Kansas will meet one new opponent in the 1955-56 basketball season.

Kansas will meet Wisconsin December 10 at Madison in the first cage game between the two schools.

## Giants Say Braves Still Team to Beat

New York (U.P.)—The New York Giants pointed to the baseball history book today to lessen their concern over Brooklyn's dazzling getaway, and they still figure that the Milwaukee Braves were going to be "the team to beat."

As individuals, the Giants talked cautiously. Yet they emphasized that Brooklyn has blown massive leads before and that they, themselves, are better off now than they were at this time last year. The overall answer, they figure, will be in the pitching.

"**WE'VE ONLY** played 18 games, which means that with 136 games ahead of us there is an awful far piece to go," said captain Alvin Dark, as the team reached .500 for the first time this season. "Last year we were 9-11 at about this time before we started to roll."

The strong point in their favor is a solid belief they can beat the Dodgers. They point significantly at the fact that as late as mid-August of 1951 the Dodgers had a 13½-game lead—and the Giants still caught them to win the pennant in a dramatic playoff.

"**THAT MILWAUKEE** pitching is the big worry for anybody who wants to worry," Dark said. "It will make the Braves tough when those August doubleheaders roll around."

## Lefty Fails as Catcher, Makes Good at First

By UNITED PRESS

Dale Long, victim of one of baseball's most bizarre experiments, was in another rare position today—he could say "I told you so" to General Manager Branch Rickey of the Pittsburgh Pirates.

Four years ago Rickey decided Long couldn't make the big-league grade as a first baseman and announced he was converting him into a left-handed catcher.

The move defied tradition because baseball men insisted there just "couldn't be such an animal," Long agreed, but went along with the experiment.

It failed, but Long still thought he could make good as a first sacker and today he's proving his point with a .364 batting average that is a major factor in the Pirates' sudden emergence as respectable citizens in the National league.

**THE 29-YEAR-OLD** 210-pounder from Green Bay, Wis., capped the comeback yesterday when he drove in six runs with three doubles and a sacrifice fly, and started a triple play as the Pirates beat the Milwaukee Braves, 9-4.

The victory was the fifth straight for the Pirates—second longest of the Rickey regime—and their eighth in 11 games. They'll equal the Rickey regime record of six wins in a row if they beat the New York Giants tonight.

Long, who has 3 triples and 5 doubles among his 16 blows this season, started his great day yesterday by driving in the first Pittsburgh run with a sacrifice fly in the first inning.

In the fifth, he doubled to drive in 2 more runs and in the sixth he lashed another double with the bases filled to drive in 3 more.

**THEN, IN THE** seventh, his 6-4½ height was put to good use when he leaped to spear a line drive by Eddie Mathews and start the season's first triple play.

Long threw to Dick Groat, covering second, for a second out and took the shortstop's throw to first to complete the triple killing.

Nelson King received credit for his first win with the aid of Vernon Law's relief.

The loss was the fifth in a row for the Braves, who slumped 2 games below the .500 mark with a 9-11 record. They are 9 games behind the first-place Brooklyn Dodgers, who beat the St. Louis

Cardinals, 4-3, yesterday for their seventh-straight triumph and No. 18 in 20 games.

The Giants downed the Chicago Cubs, 6-3, and the Detroit Tigers defeated the Boston Red Sox, 3-2, in the only other games.

Pinch hitter Al Walker, batting for the first time this season, drove in the winning run with a sacrifice fly for the Dodgers. Duke Snider had walked to open the eighth inning, and raced to third base on Roy Campanella's sacrifice when the Cardinals left the base unguarded.

# 'Old Men' To Challenge Varsity Cagers Tonight

A team of "old men" basketball players, dating back only as far as the 1950-51 K-State team, will challenge the Wildcat varsity in Ahearn gym tonight in the annual varsity-alumni basketball game. Tipoff is set for 7:30.

Player-coach for the grads is Ernie Barrett, all-American guard on the Wildcats' 1950-51 team which went to the NCAA finals against Kentucky.

Barrett has announced a starting alumni five including himself and Jim Iverson, 1951-52 star, at guards; Roger Craft, leading scorer on last season's team, at center; Lew Hitch, 1950-51 Wildcat center now playing for the Minneapolis Lakers professional team, and John (Hoot) Gibson, 1950-51 star, at forwards.

ALL FIVE of these grads have been in close touch with basketball. Gibson and Iverson have been active in service basketball since graduation, and Barrett played with the Boston Celtics during the 1953-54 season.

Varsity coach Tex Winter said he would try to make up in numbers what his current crop of cagers may lack in skill, explaining that he planned to use three complete teams during the game.

The Wildcat coach listed a probable lineup that included four returning lettermen from last season plus 6-9 freshman Jack Parr at center.

STARTING WILDCAT forwards will be Dick Stone, 6-3 junior, and Fritz Schneider, 6-3 sophomore. Both were regulars last season. At guards Winter listed 5-9 sophomore Pachin Vicens and 6-1 soph Ron Flynn.

Vicens averaged 10.8 points a game last season to rank as K-State's second-leading scorer.

Parr, a pre-med student from Richmond, Va., seems to be the most promising candidate for the vacant post position. Second tallest Wildcat cager in K-State history (only Jerry Jung at 6-11 tops him), Parr collected 19 points in an intrasquad tussle Wednesday night.

Parr played the entire 40 minutes as Winter alternated sophomore Parker Stotler and freshman Wayne Hutchins against him.

The game, a no-admission affair, will close spring drills for the varsity.

Probable starters:

Varsity	Pos.	Alumni
Stone (6-3)	F	Hitch (6-7)
Schneider (6-3)	F	Gibson (6-3)
Parr (6-9)	C	Craft (6-7)
Vicens (5-9)	G	Barrett (6-3)
Flynn (6-1)	G	Iverson (5-11)

## Golf, Net Teams To Play Missouri

K-State golfers and netmen clash with Missouri tomorrow in meets here in Manhattan.

The golfers will be after their first win of the season, while the tennis team will be attempting to even its season record at four wins and four losses.

The golf team lost all four matches on a northern swing the past week end. Top K-Stater during the trip was Kent Poore, who was medalist in a dual with Drake, and won his matches in all four meets.

The tennis team lost to Washburn university Wednesday, 6-1, as Don Wainscott was the only Wildcat who could come up with a win.

WILDCAT STARS will be plentiful when the K-State alumni meet next season's basketball varsity in Ahearn gym tonight at 7:30. A top man for the varsity will be Dick Stone (left) who scored 23 points in an intrasquad game Wednesday night. Lew Hitch (right) was center on the 1950-51 team and is now with the Minneapolis Lakers.

## Nixon Drives Yanks Daffy With His Deep Breathing

New York (U.P.)—If you are one of those unfortunates who flub a needed three-foot putt, gutter the ball when you have to make a spare, or choke up on the speech which sounded so fine in your bedroom, take a tip from Willard Nixon.

Nixon is the strapping right-hander of the Boston Red Sox who has been driving the New York Yankees daffy for two years. He beat them four times last season.

THE YANKEES say they can't understand it, yet it's merely a matter of "diaphragmatic breathing."

Of course, the big Georgia boy

needs a fine fastball and a good changeup to make it stick. But one of the reasons why he's off to a fine start this year is plain old deep breathing.

The word on this comes from Jack Lacy, who made his fortune teaching some 100,000 sales executives and salesmen how to breathe to eliminate tension.

HE MAY HAVE trouble selling this to the Yankees, but Jack says what he did for Nixon wasn't "anything very startling."

"Willard used to have a lot of trouble in every game because he would fight himself, run out of gas, and be unable to finish nine innings," Lacy explains. "When they started to hit him he'd tighten up."

Jack Fadden, the Bosox trainer, is a friend of Lacy's. He knew of the work Lacy was doing teaching people how to relax in front of audiences, and in other critical situations.

Working on the Shakespeare theory that all the world's a stage, he asked Lacy to take a hand.

"Fadden brought Nixon to me, and I merely taught Willard how to use breath control, or deep breathing," Lacy relates. "As soon as he started to breathe properly, he lost his tension and quit fighting himself."

## Sports Banquet Next Wednesday

K-State's spring sports banquet to honor varsity lettermen and freshman numeral winners in baseball, tennis, track, golf, gymnastics, and wrestling has been set for Wednesday, May 11, in Thompson hall.

The banquet will be a stag affair, athletic department officials said. They urged all former K-men and sports fans to attend.

More than 40 Wildcat lettermen and almost that many freshman numeral winners are expected to be named.

## KU Freshman May Get NCAA Discus Record

Lawrence (U.P.)—A discus toss of 171 feet, 6 inches by Al Oerter, University of Kansas freshman from New Hyde Park, N.Y., may set a new NCAA freshman mark for the event, track coach Bill Easton said today.

Easton said he had forwarded the mark to NCAA officials for confirmation.

## KU's Nieder Threatens Hackney's Shotput Mark

Lawrence—Bill Nieder, Kansas' rangy shotputter, goes after his fourth record in five starts here tomorrow when the Jayhawks shoot for their ninth consecutive victory of a 36-meet outdoor dual track series against K-State.

Elmer Hackney's current meet

shotput record of 55 feet, 11 inches set for K-State in 1939 has been unapproached since the old "One-Man Gang" used it for a new intercollegiate mark almost two decades ago.

His successor, Rollin Prather, never came within a foot of it in this dual meet, nor did Nieder last year as a sophomore.

But the Mount Oread junior has improved considerably since that time. He threw 56 3/4 at the Kansas Relays, 56-1/2 in a dual against Oklahoma A&M, 56-9/16 at the Kansas Relays, and 56-3/4 at the Drake Relays.

His Kansas Relays' mark of 56-9/16 is the longest in Big Seven or state history, supplanting Hackney's old mark which long had stood as a distance measure for all Sunflower musclemen.

FOUR OTHER meet records will be under heavy pressure. These include the quarter, which K-State's Sam Jones has held at 48.9 since 1941; the javelin, 198-3/4 by Milo Farnetti of KU in 1942; the pole vault, 13-3 by Don Bird of KU in 1939; and the mile relay, 3:20.4 by K-State in 1951.

Any one of a trio of KU javelin throwers seem capable of bringing down the mark in that event. Les Bitner is the chief threat with a top mark of 236-3/4. Don Sneegas has a mark of 217-8/16.

Willie Jones of KU could supplant the existing 440 mark, as he has run 48.0 in the event.

K-STATE'S Paul Miller is a threat to the pole-vault mark. He topped 13-6 at Drake, and cleared 13-7/8 in the Big Seven indoor meet.

## Twenty-two Games On Cage Schedule

Twenty-two K-State basketball opponents for the 1955-56 season were announced today by Larry (Moon) Mullins, director of athletics. Final arrangements have not yet been made on another game, Mullins said.

The schedule:

- December 6—Texas Tech, Manhattan.
- December 10 — Indiana U, Bloomington.
- December 12—Drake U (site pending).
- December 17—Washington U, Manhattan.
- December 19—Open.
- December 21 — Houston U, Houston.
- December 27-29—Big Seven tourney, Kansas City.
- January 4—College of Pacific, Manhattan.
- January 7—Iowa State, Ames.
- January 10—Oklahoma U, Norman.
- January 14—Kansas U, Manhattan.
- January 21—Missouri U, Columbia.
- January 30—Oklahoma U, Manhattan.
- February 4—Colorado U, Manhattan.
- February 6—Nebraska U, Lincoln.
- February 11 — Colorado U, Boulder.
- February 13—Wyoming U, Laramie.
- February 20 — Nebraska U, Manhattan.
- February 25—Iowa State, Manhattan.
- March 3—Missouri U, Manhattan.
- March 6—Kansas U, Lawrence.

# Vets Form KSCVO, Number 18 Per Cent

By ORVAL JACKSON

Because of the desire of the veterans to be represented in the student governing body by one of their own kind, the Kansas State College Veterans organization was formed this year, said Mackie Murphy, former president.

At the beginning of the fall term of 1954, a group of veterans banded together with the purpose of furthering the cause of student government at Kansas State college in an effort to present the wants and needs of the veteran through better representation, according to Murphy.

KSCVO believes that the wants importance because there are 914 and needs of the veterans are of importance because there are 914 veterans enrolled at Kansas State. This means that approximately 18 per cent of the students now enrolled are veterans, according to the veterans office.

KSCVO supports the following points:

- (1) The starting of a college book store or book exchange.
- (2) The improvement of housing for married students.
- (3) The removal or reduction of assessments.
- (4) Representation on student government.
- (5) Social functions for veteran students.

**MEMBERSHIP** in the veterans organization is open to all students, including graduate students, in Kansas State college who are veterans of the armed forces, Murphy said.

The governing body of KSCVO consists of the general assembly, the executive council, and the officers of the organization. In the general assembly, each member has a vote. The assembly meets the first Monday of each month, he said.

The executive council consists of 14 members, 12 of which are elected by the general assembly. The remaining two members are the president and vice president. Six members are elected to the executive council each semester to serve a term of one year, according to Murphy.

**THE OFFICERS** of KSCVO are elected by the general assembly

## Munkres To Head Klod, Kernel Club

Kenneth Munkres, TA Jr., has been elected president of the Klod and Kernel club for the 1955-56 school year.

Other officers elected were Ludwig Bezemek, TA Soph, vice-president; Carlyle Thompson, Ag Fr, secretary; Francis Holmes, Ag Jr, treasurer; Carl Dahl AEd Soph, sergeant-at-arms; Clint Pierce, Ag Fr, corresponding secretary; and Carl Glocker, TA Soph, Ag Council representative.

to serve a term of one year. Elections are the last meeting night of the school year, he went on.

This is not the first veterans club to be started at Kansas State. One was organized following World War II when a great many veterans enrolled. By 1949, the veterans had all but disappeared from the college scene and the organization folded. Following the Korean war, the veterans swarmed back to the campus and the need again arose for a veterans organization.

The faculty advisers for the veterans group are Wendell Kerr and Charles Goetzinger.

## Journalists Receive K-Key Recognition

Thirty-five students were honored at the annual Board of Student Publications recognition dinner Tuesday.

C. J. Medlin, graduate manager of student publications, presented gold K-Key awards to the students for outstanding work on student publications this year.

Master of ceremonies at the banquet was Prof. Ralph Lashbrook, journalism department head. He presented the speaker H. W. Davis, retiring faculty member of the board.

The 1954-55 student members of the board were Doreen Cronkite, John Eidson, Carolyn Jones, and Diane Weixelman.

## Blue Key Initiates Elect New Officers

Blue Key, senior men's honor fraternity, elected officers after their initiation banquet last night, Hiram Faubion, retiring president, said.

Those elected were Martin K. Eby, CE Jr, president; Don Janes, PrM Jr, vice-president; George Atkeson, DH Jr, treasurer; Bob Ecklund, AgJ Jr, secretary; Lee Ruggels, TJ Jr, corresponding secretary.

The next meeting of Blue Key will be held in the student union at 5 p.m. Monday. The activities of Blue Key will be discussed at that time.

## Noise Insurance

Valdese, N. C. (U.P.)—Mr. and Mrs. John Mosteller had a modern brick home but lacked one thing necessary to a happy wedded life. So they went to the nearby Morgantown welfare office and adopted six children, including an eight-day-old boy. "We got sick and tired of working all day and coming home at night to nothing but quietness," said Mosteller.

# Fraternity Officers Installed

## Officers

The Kappa Sigmas installed their officers for the fall semester of 1955 Wednesday, May 4. They are Jack Scott, president; Don Jenkins, pledge trainer; George Reeder, secretary; Jarro Moore, treasurer; Allen Tompkins, grand master of ceremonies; Robert Welder and Duane Osborne, guards.

Newly appointed officers of Theta Xi fraternity include: Leon Stanton, pledge master; Gerry Carlisle, assistant pledge master; Terry Quinn, social chairman; Glen Taplin, alumni relations; Duane Santala, scholarship; Mel Bareiss, rush chairman; Bill Staners, intramural manager; Bill Jones, publicity chairman; Don Garrett, chaplain; Keple Disney, IFC representative; Arch Weaver, activity chairman; Jim Weatherford, song leader; George Looby and Bill Cady, house marshals.

New Phi Delta Theta officers are: Phil Robertson, president; Richard Renfro, reporter; John Spangler, secretary; Bob Newland, treasurer; W. R. Rader, alumni secretary; Alden Dunkelberger, librarian; Larry Wise, historian; Mark Elliott, chaplain; Fred Hart, warden; Darrell Feaker, social chairman; and Larry McCully and Charles Tuttle, I.F.C.

New officers of Alpha Tau Omega fraternity are Bill Eddy, worthy chaplain; Bob Breithaupt, worthy scribe; Allen Alsen, worthy keeper of annuals; Leland Fager, worthy sentinel; Herschel Staats, worthy usher; Dean Joslin, pledge trainer; and Ken Shaw, house manager.

## Pinnings

Shafer-Risjord

Chocolates at the Chi Omega sorority Sunday, May 1, announced the pinning of Sally Shafer and John Risjord. Sally is a senior majoring in elementary education from Overland Park and John is a student at William and Mary college of Williamsburg, Va. He is a member of the Pi Kappa Alpha fraternity there.

Bortz-Chitwood

Chocolates at the Chi Omega house Wednesday, May 4, announced the pinning of Jean Bortz and Larry Chitwood. Jean, a senior in home economics, is from Downs and Larry is stationed at Montgomery, Ala. He is a graduate of K-State and member of Delta Tau Delta.

## Engagements

Franklin-Klein

The engagement of Dee Lores

Franklin and Kendall Klein was announced at Waltheim Hall on May 1. Dee attended K-State and is now at the K.U. medical center. Kendall, also a former K-State student, is now in the service. Dee is from Atwood and Kendall is from Burdette.

Polson-Kenneth

Chocolates at Van Zile hall May 2 announced the engagement of Louise Polson and Kenneth Kemp-lay. Louise is a senior in medical technology from Vermillion. Kenneth is a freshman in electrical engineering from Centralia.

## Wedding

McCracken-Stewart

Prudence McCracken of Manhattan and Lt. David Toups Stewart of Louisiana were married April 16 in Manhattan. Prudence is a freshman in speech. She is a member of Alpha Xi Delta sorority. David is stationed at Fort Riley.

## Guests

The Phi Kappa Taus held their Mother's Day dinner Sunday, May 1. Those present were Mr. and Mrs. Cecil Beazer of Sedan; Mr. and Mrs. Charles Baker of Russell; Mrs. Al Schuetz of Merchier; and Mrs. F. Charles of Jetmore.

Mr. Curtis Weiland of Morrowville was a dinner guest at the Phi Kappa Tau house Saturday, April 30.

Jack Ansen, assistant National secretary, of Oxford, Ohio will be

guest at the Phi Kappa Tau house May 4 to 6.

Pat Wollner and Caroline Hol-loway from the KU medical center were week-end guests at the Alpha Xi Delta house April 29 and 30.

Mrs. Agnes Wyatt, Jameson, entertained the girls in the Margaret Ahlborn lodge with a dinner in celebration of the Manhattan centennial.

Sunday, May 1 dinner guests at the Alpha Gamma Rho house were Mr. and Mrs. Hans Anderson from Jamestown.

## Senior Dinner

The graduating seniors of Pi Kappa Alpha were honored at a senior dinner Wednesday, May 4, at the chapter house. John Saylor, president, gave a short speech on behalf of the chapter. Don Cox gave a thank you in behalf of the graduating seniors.

## Hodges To Speak To Extension Club

Prof. J. Hodges of the agricultural economics department will speak on "Practical Farm Management" at a meeting of the College Extension club Monday at 7:15 in room 116 of the Extension barracks.

Election of officers for the coming year will be held.

# \* New RCC Chairman Named For Meetings Next Year

New committee chairmen for the Religious Coordinating Council were named at a meeting of the Council last week. John Wright and Harry Kaper were appointed over-all chairmen by Gorman Groth, president of the Council. Other committee heads are Bob Robinson and Ross Miller, program; Earl Hammond and Avis Tromble, classroom; Jim Boyd and Don Lewis, organized houses; and Mona Latham and Rachael Pickett, publicity.

Proposed topics for next year's RCC meeting were listed by Bob Robinson, program committee. They are Comparative Religions, Religion and Rural Life, Religion and Personal Life, and LIFT Week.

The next meeting of the Council will be May 12.

## Lutheran Student Association

Don Peterson, TA Sr, and Jim Boddiger, MT Sr, are in charge of the senior program for the L.S.A. picnic Sunday. Those attending are asked to meet at the church at 5 p.m.

## Theta Epsilon

Election of officers for Theta Epsilon will be Tuesday in the home of Mrs. Paul Young, 1220 North Eighth street.

## Newman Club

There are no more meeting scheduled for Newman club this semester; however the weekly activities will continue. Monday will be discussions in J15 at 7 p.m.

Tuesday choir practice will be at Seven Dolors at 7:30 p.m.

Tuesday choir practice will be at Seven Dolors at 7:30 p.m. Daily rosary will be in Danforth chapel at 4 p.m. and mass will be Friday at 7 a.m.

## Kappa Beta

Jeanette Fry, DIM Jr, was installed as the new Kappa Beta president Tuesday evening following the senior dinner at Koller hall. Other officers installed were: Ellen Flottman, Clo Jr, vice-president; Mary Lou Ficke, EEd Fr, secretary; Maggie McKelvey, Clo Jr, secretary. Miss Gwendolyn Tinklin, faculty sponsor, conducted the service.

Martha McReynolds, HDA Sr, and Marianne Bradshaw, EEd So, were recognized as outgoing members.

Mary Lou Murry, HE Fr, and Mary Lou Fox, HDA Fr, were initiated prior to the dinner served by church women.

## Disciples Student Foundation

DSF will go to Lake Shawnee near Topeka this week end for a spring retreat. Rides will be available from the Foundation house at 12:30 p.m. Saturday. Bill Hall from Indianapolis, Ind., will be the principal speaker at the retreat.

Officers elected to head DSF next fall are Walt Martin, president, Mary Lou Ficke, 1st vice-president, Larry Wasson, 2nd vice president, Sandra Smercheck, secretary, and Ellen Flottman, treasurer. Those officers will be installed May 15.

## Sigma Eta Chi

A picnic Tuesday will end the semester activities for Sigma Eta Chi. Members are asked to meet at Southeast at 5:30 p.m.

A farewell to seniors was May 3 in Pine's banquet room. Leona Manz, national secretary from Junction City, addressed the group. Betty Dietrich, HE Jr, retiring president, served as toast-mistress.

Mary Fran Perkins, BMT So, was installed as the new president. Other officers installed were: Jan Follmer, HEJ Jr, vice-president and pledge trainer; Joyce Thompson, EEd Fr, corresponding secretary; Jo Ann McCluggage, HE So, recording secretary; Dorothy Crawford, HE So, treasurer; Joyce Brodrick Hst So, program chairman; Kay Scott, EEd So, social chairman; and Telse Junge, BMT, Fr, historian.

## Gamma Delta

Gamma Delta will have a picnic Sunday. Members are to meet at St. Luke's Lutheran church at 5 p.m.

## Wesley Foundation

Hamburgers and entertainment are planned for Wesley members Friday at 5:30 at the Foundation. Jim Windle and Carolyn Lusk are in charge of the hamburger fry.

Open house Friday will be from 8 to 12. Arrangements for the open house have been made by LeRoy Stayton and Dorothy Fox. Richard Chandler and Peggy Tillotson are in charge of the Saturday evening open house.

New members of Sigma Theta Epsilon will be initiated Sunday at 8 a.m. Following initiation, the new officers will be installed. W. H. Sill, assistant professor of botany and plant pathology at K-State, will talk to the group.

The Rev. B. A. Rogers will talk at 9:50 a.m. Church Sunday.

Church school will be immediately after church.

Installation of the new Wesley officers and Council will be Sunday evening during the time forum is usually held. Merlin Peck is in charge.

## Roger Williams Fellowship

Graduating seniors of RWF will be honored at a Senior Day picnic Sunday. Members are to meet at the church at 5 p.m.

Sunday school will be at 9:45 and church will be at 11.

"The Forgotten Man," a play written by Jewell Tull, will be the program at the Sunday evening service at 7:30. Bob Hansen, Ronnie Butler, Norma Todd, Joe Bayles, Jack Van Horn, and Marge Garrison are in the play.

Devotions in Danforth chapel will be at 7:40 a.m. Tuesday and Thursday and at 5 p.m. Friday. "Predestination" will be discussed at the study group Wednesday evening at 1030 Laramie.

## Eleven Engineers Into Honorary

Pi Tau Sigma, mechanical engineering honorary scholastic fraternity, initiated 11 members Thursday, April 28.

The initiation was held in engineering lecture hall, followed by a banquet at Keck's.

Prof. Robert E. Crank made the membership presentations and Dean M. A. Durland was the speaker at the banquet.

Those initiated were: Roland McDaniel, Charles Callahan, Harold Gabrielson, Archie Graham, Robert D. Miller, Harold Lonsinger, Jules Newman, Robert Juckem, James Rogers, Eldon Zeller, Donald Schimpf, and Roger Wilcox.

## Med Tests Saturday

Medical college admission tests will be given Saturday at 8:30 a.m. in A226, Mrs. Audrey Patterson, counseling center, announced today.

## Judges Named For Livestock Judging Meet

Official judges for the Block and Bridle student livestock judging contest have been named. Eldon Johnson, program chairman, announced. The contest is May 14 in the animal pavilion.

The contest features two divisions, junior and senior. Students will place beef cattle, sheep, hogs and quarterhorses. Their placing will be judged by prominent livestock men and members of the animal husbandry department, Johnson said.

Judging the beef division will be Frank Wilson, manager of the C K ranch and Prof. F. W. Bell. Judges for the sheep division will be Herman Popp, farmer from Haven, Kansas, and Prof. T. Donald Bell.

The swine division will be judged by Don Spalding of the St. Joseph livestock marketing exchange, and Prof. C. E. Auel. Quarterhorse division judges will be Elmore Stout, rancher from Cottonwood Falls, Kansas, and Carl Menzies, animal husbandry instructor.

Prof. Don Good has been named referee judge of the contest, Johnson said.

Businessmen traveling on German railroads out of Berlin find many trains equipped with offices and all necessary supplies, as well as efficient multi-lingual secretaries.

## Dairy Judging Tomorrow at 1

Prizes valued at more than \$100 will be awarded winners in the collegiate dairy products judging contest Saturday at 1:00 p.m. in WA28, according to William Bergman, Dairy club president.

Persons who have taken dairy products judging courses will judge in the senior division, and those who have not will be in the junior division.

Ice cream, milk, cheese, and butter will be judged. Prof. W. H. Martin and Dr. W. D. Rutz will be the official judges for the contest.

The prizes include silver trophies for winners of each division, pen and pencil sets, magazine subscriptions, and cash awards, Bergman said.

The male prairie chicken has a wind sac on his throat with which he makes a booming call.

# Formosan Says Country United Behind Chiang

By MARILYN LEEPER

The Formosan people are now united behind Chiang Kai-Shek and his forces. So declared Lun-je Wei, a K-State graduate student and native Formosan, in an interview at the College Wednesday.

He feels Formosa is becoming more democratic, like our nation, despite there having been only one political party there. "The Formosans now have free elections," he said, "and the mayor of Taipei is not a member of the Chinese Nationalist party."

THERE IS much more chance for a higher education now than when the Japanese ruled, said Wei. "Under the Japanese it was very hard to get the opportunity to attend the Taipei Imperial university, now renamed National Taiwan University." In Formosa, 90 per cent of the people are literate, higher than any other nation in the Orient, he said.

"The biggest surprises in the United States for me," Wei said, "is that there are so many cars and such fine highways. The mass production of cars with everyone always getting new ones is different than at home in Formosa. Also your country is so much less crowded than mine."

Wei is doing graduate work in mechanical engineering at K-State college. He has been in this country since last May. He received an assistantship from K-State.

WEI'S WIFE is now teaching in the primary schools at Taipei, the capital of Formosa. He will re-

ceive his master's degree in engineering in August, then hopes to be able to have another year of study in the United States before he returns to his job as engineer in the Taiwan Sugar corporation. "Formosa is the second largest sugar producing country in the world," he said. "Cuba is first. Rice is our other main product."

"Kansas summers are very hot compared to those of Formosa where the temperature rarely gets above 100 degrees," said Wei. The winters in Formosa average a mild 40 degrees. "The name Formosa which is Portuguese, mean 'beautiful'." The Portuguese sailors who were the first westerners to explore it, gave it this name. The Chinese name for the island, Taiwan, means "Terraced Bay," Wei said.

## Raymond Russell Heads Alpha Zeta

Raymond Russell, VM Jr, has been elected chancellor of Alpha Zeta, agricultural honorary fraternity.

Other officers elected are Henry Burmeister, AgE Jr, censor; Walter Martin, Ag Soph, scribe; Lloyd Christie, DH Jr, chronicler; Ernest Henderson, VM Jr, treasurer; and Henry Black, VM Jr, sergeant-at-arms. Prof. Walter H. Smith, animal husbandry department, replaced Prof. Merton Otto, agricultural economics department, as faculty adviser.

## 'Quantrill' To Be Last Time Tonight

The final performance of "Quantrill and Kansas" will be presented tonight at 8:15 in the College auditorium.

This will be the third presentation of the Fine Arts festival play of the life of the Kansas outlaw, as written and directed by Professor John Robson, of the speech department.

Previous performances were given last week during the centennial. Tomorrow's performance is the first night presentation. No admission will be charged.

Response to the play has been encouraging, Prof. Robson said, especially since this is the premier showing of the historic Quantrill's life.

He estimated that between 400 to 500 people saw last Saturday's matinee performance.

## Honorary Degrees To Vet Med Wives

Honorary degrees were presented to the wives of the seniors in Veterinary Medicine Wednesday in Rec center. Dr. E. E. Leasure, dean of the School of Veterinary Medicine, presented the honorary degrees to 39 "senior" members of the Junior AVMA Auxiliary.

Dr. Howard T. Hill, professor of speech department, addressed the Auxiliary and husbands of the seniors. His topic was "A Word to the Wives."

Installation of officers followed the presentation of honorary diplomas.

## Phys Ed Group Elects President

Delila Clark, PEW Jr, is the newly-elected president of Phems, women's physical education club.

Other officers are LeRoyce Maddux, PEW Fr, vice-president; Dolores Hess, PEW Soph, secretary-treasurer; and Barbara Puhf, PEW Soph, program chairman. Miss Eva Lyman is faculty adviser.

## Veterans To Have Picnic Saturday

All Veterans are invited to a picnic Saturday afternoon at 2 p.m. on the Top of the World. Entertainment and refreshments will be included in the afternoon activities.

Those wishing to attend should sign up in the Veterans' Service office by Friday, according to Calvin Glenn, Veterans organization president.

# Summer School To Offer Cool Library, Hot Classes

By JOHNNY SALISBURY

Summer school catalogs are available in the registrar's office, Paul M. Young, summer school director said, so if you need a few hours or grade points, summer school may be the answer.

"Courses are being offered in all departments except machine design this year," Young said. The summer term begins on June 6 and ends August 8, he added.

SUMMER SCHOOL teachers are, for the most part, regular faculty members of the College.

You won't have to "sweat it" this summer though, because the College Library will have an air-conditioned reading room.

This air-conditioned reading chamber and the recreational program, which includes all-College parties, outdoor dances on the tennis courts, intramural athletics for both men and women, outdoor movies, music events, guest artists, issues of the Collegian, are included in summer fees. Kansas residents pay \$53 (minus \$10 if the matriculation fee has already been paid and nonresidents \$103 (minus \$20 if the matriculation fee has been paid.)

President McCain is to speak at the first assembly, Young said.

Although the recreational program does not include supervised tennis and swimming, both the College and the city of Man-

hattan provide facilities for such activities.

CLASSES FIT into the picture somewhere. For 3 credit hours, the summer student attends class five times 60 minutes at a stretch, no Saturday classes. The classes will begin at 7:30 a.m., will adjourn for lunch at 12 noon, resume at 1 p.m., and at 5 p.m.

Nine hours is the maximum, without a dean's permit, one hour is the minimum, Young said.

The summer school catalog states that the placement bureau, student health, the student counseling center, and the temporary student union will all be functioning for the convenience of the summer student.

The Army Field Band has traveled more than 300,000 miles during the past eight years.

VOLUME LXI

Kansas State College, Manhattan, Kansas, Monday, May 9, 1955

NUMBER 138

## Assembly Will Honor Seniors

Thirty-three seniors are to be honored at the annual Honors Day assembly tomorrow at 9:30 a.m. in the Auditorium. They have been selected from this graduating class on the basis of activities and grades.

Featured speaker will be Milton S. Eisenhower, former

K-State President who will be on the campus attending dedication ceremonies of the classroom building named in his honor.

Eisenhower will discuss the place of liberal education in the land-grant college program. The title of his address will be "The Land Grant Idea: An Intellectual Conflict."

Eisenhower was President of K-State from 1943-1950 and was the only graduate of K-State to return later to be President.

A GRADUATE in industrial journalism in 1924, he worked in government service for 19 years before taking over as President of K-State. He left K-State in 1950 to become president of Pennsylvania State university.

Eisenhower has served on special missions for three Presidents of the United States. In 1953, he acted as special ambassador in the Latin American countries for the United States.

It was during Eisenhower's administration that plans for the classroom building were made. The new building was completed in 1952, and it now houses the office of the dean of the School of Arts and Sciences as well as the offices and classrooms of the department of English, speech, modern language, history, government, and philosophy.

AMONG THE distinguished visitors expected to attend the Honors assembly and dedication of Eisenhower hall are Governor Fred Hall and Lester McCoy, chairman of the Board of Regents. Governor Hall will speak briefly at the assembly.

Eisenhower's assembly speech will be broadcast by KSAC.

## Five Picked In New Vote

An additional 118 persons voted in the Arts and Sciences council election Friday to elect five more council members.

Connie Taylor, EEd Fr, 24 votes, won over Joan Albers, TJ Fr, seven votes, in the technical journalism curriculum.

Janis Broman, Chm Fr, nine votes, won over Russell Bradley, Chm Fr, four votes, in the physical science curriculum.

Charles Broman, PrM Jr, 21 votes, and Jean Cox, BMT Soph, 20 votes, won in the biological science curriculum. Mack Boelling, PrM Fr, had 18 votes; Shiela Dicken, BMT Soph, 15 votes.

Barbara Puhr, PEW Soph, received two write-in votes to win over Robert Reece, PEM Soph, one vote, in the curriculum of physical education.

Other council members elected Wednesday are Stephen Weckel, BA Jr; Don Taylor, BA Soph; Dianne Benedix, BA Jr; Jim Stewart, Geo Soph; Rachel Pickett, MEI Fr; Marilyn McCready, Eng Soph; Bob McDowell, Psy Fr; Karen Smith, EEd Fr; Bev Guinty, EEd Soph; and Nancy Howard, EEd Fr.

## Larson To Head Ag Association

Stanley Larson, AEd Jr, was elected president of the Ag association at Ag seminar yesterday. Dick Pickett, retiring president said.

Other officers elected were: Wlter Martin, Ag Soph, vice-president; Richard Baker, AEd Jr, secretary; Lloyd Christie, DH Jr, treasurer; Mark Drake, AH Jr, Ag barnwarmer manager; and Ray Zimmerman, Ag Soph, Ag barnwarmer assistant.

## Rain . . .

Topeka, May 9. (U.P.)—Good rains fell over parts of Kansas last night with the heaviest moisture coming in the southeast. U.S. weatherman Richard A. Garrett said today.

More than a half inch of rain was reported in over a dozen locations including Osage City, Winfield and Sedgwick. Manhattan received .28.

More rain is expected in the wake of the cold front moving across Kansas to day. It already has passed Goodland on its way east and will have cleared the state by tomorrow morning.

## Jane Compton Wins Fulbright Scholarship

Jane E. Compton, a senior in child welfare from Manhattan, was announced today as winner of a Fulbright scholarship for the 1955-1956 academic year, according to Harold Howe, dean of the graduate school and Fulbright adviser at K-State.

Miss Compton, the daughter of Mrs. L. L. Compton, 1200 Kearney, will study social work at the University of Briston, in England.

Activities of the K-State senior during her collegiate career include Home Economics Council, Student Council, Artist Series committee, senior honors committee, faculty council on student affairs, freshman orientation, Wesley Foundation, and Kappa Phi. She is a member of such honorary organizations as Omicron Nu, Mu Phi Epsilon, Chimes, Mortar Board, and Phi Kappa Phi, and also won Phi Kappa Phi freshman recognition and sophomore honors. She has held scholarships from the Manhattan Music club and the Home Economics club.

The Fulbright scholarships are for graduate study abroad under the United States educational exchange program. Students are selected by the board of foreign scholarship, members of which are appointed by the President.

The Fulbright program is designed to promote better understanding of the United States in other countries, and to increase mutual understanding between the people of the United States and other countries. Funds used under the Fulbright act are foreign currencies obtained through surplus property sales abroad.

## Journalism Dept. Gets Accreditation

The Technical Journalism department has again been approved and accredited by the American Council on Education for Journalism, according to Ralph R. Lashbrook, head of the department.

Lashbrook was notified that the department's three principal sequences, News-Editorial, Home Economics and Journalism, and Agricultural Journalism, have been accredited. The three curriculums have been on the accredited list since early in 1948 when the accrediting committee of the A.C.E.J. visited the campus and inspected the department.

Last December the accrediting committee spent two days on the K-State campus, attended classes, inspected facilities, interviewed faculty members, administrative officers, and students, questioned employers of journalism graduates throughout the country, and checked on the journalism departments' relations with newspapers in the state. Twelve or more additional institutions will be re-examined next year. The committee hopes to re-examine all schools every five years.

Kansas State's Department of Journalism has been accredited since 1922 when it was one of 15 schools admitted to the American Association of Schools and Departments of Journalism. It was one of the first state colleges admitted to membership.

## RP Pictures on Sale

Pictures used in the 1955 Royal Purple will be on sale in Kedzie 103 today and tomorrow, according to Prof. C. J. Medlin, graduate manager of student publications.

## Student Art To Be Shown Tomorrow

What is being done in the art department is to be shown in the outdoor art exhibition tomorrow, according to Joan Guyer, publicity chairman.

The exhibits will be placed between Calvin, the Auditorium, Nichols, and Fairchild between 10 a.m. and 4 p.m. Paintings and drawings will be displayed on wire along the walks and crafts will be in display cases.

Any student can enter his oil paintings, water colors, charcoal and pen and ink drawings, pencil sketches, or any type of crafts.

Entries must be in the home economics art office by 5 p.m. Monday.

The exhibition is sponsored by the Home Economics Art club.

## U.S. Releases Secret Patent Of K-Stater

Among secret documents declassified last week by the government and released to the public was one of the patents taken out by the government during World War II in the name of Assoc. Dean A. B. Cardwell, Arts and Sciences.

At the time Cardwell was on leave from his duties as head of the department of physics at K-State to serve as research physicist at Oak Ridge.

The document declassified was the invention of an ion source used in the Uranium Electromagnetic Separation plant at Oak Ridge during World War II.

Cardwell holds other invention patents which are classified and have not yet been released.

The release of the patent information is in line with the policy of the atomic energy commission of progressively declassifying information dealing with research and other facets of atomic energy having to do with peaceful applications.

Jane E. Compton

## \$250 Scholarship Given for Study Of Meat Problems

Establishment of an annual \$250 graduate scholarship for work in meat problems was announced this morning by Mrs. George F. Andrews, Kanopolis, president of the Kansas Cow Belles.

The presentation of a \$500 check to Dean Harold Howe of the K-State graduate scholarship committee, to cover the awards for the first two years, was made by Mrs. Andrews. She explained that the Cow Belles organization, which is made up of wives of members of the Kansas Livestock association, hoped to promote greater use of meat through research.

The award was announced in connection with the annual Livestock Feeders' Day activities at K-State.

## Student Health

One girl and two boys are patients at Student Health today. They are Beverly Miller, Bill Harris, and Paul Wallace.

## Student Ideals High, Retiring Prof Says

College students today have higher ideals than ever before, J. O. Faulkner, retiring professor of English, said in an interview.

Faulkner, who will retire this spring after 33 years of teaching at K-State, said that this changed outlook on life may be the result of the changed thinking of students today.

"Students during the past few years are more concerned with social and economic problems of the world than in previous years," Faulkner went on to say.

"THESE STUDENTS have their individual opinions about religion, government, education—and they want to express them. If I run

counter to their opinions, I have to give my reasons."

Concerning his retirement, Faulkner said, "I have been so busy planning my work for my classes that I have not given any thought to planning for my retirement."

"I have no hobbies," he continued. "Nor am I going fishing. And I'm not going to write a book. Of course, I'm going to do a lot of reading—a pastime I began when I was about 5."

ASIDE FROM his work, Faulkner's chief interest is his home. He enjoys cooking—not fancy foods—just plain dishes, well prepared.

Born in Virginia, Faulkner came to K-State from Pennsylvania state in 1922 where he received his

Master's degree. He received his bachelor's degree from Washington and Lee university.

Since 1931 Faulkner has been a member of the College catalogue committee. In 1950 he became chairman of the English literature program of the English department.

HE IS A member of the Kansas Association of Teachers of English and was publisher of their bulletin for 18 years. He is also a member of the committee on college reading of the National Council of Teachers of English, and for 12 years has edited the section of Greek literature of their publication.

Faulkner has been a contributor to "The English Journal," and other professional publications.

## It Must Go Gingrich Says

By NANCY MCKENIFF

It's not long for this world! R. F. Gingrich, physical plant superintendent said.

Gingrich was speaking of the battered, forlorn bit of metal resting behind the home management houses. Identified as a former trailer-bus, it gazes at the world through shattered windows and wrecked frame.

THE BUS, which has long mystified viewers as to its origin and purpose, seems to have become just a weather-beaten part of campus scenery.

However, during the war years, this truck-drawn Ford bus was owned by the United States government and was used at various fort throughout the country. After it was discharged in 1946, it, together with 12 similar buses, was sold to K-State.

THE COLLEGE purchased the buses as part of a plan for freshman transportation to the College from living barracks at Fort Riley. The plan was never enacted so the buses were never used in this capacity and were then distributed to various departments on the campus.

Possession of this particular bus was taken by the horticulture department, which converted it into a storage compartment. The bus served in this capacity until it outlived its usefulness. It was then returned to the care of the physical plant.

Since its disposal by the horticulture department two years ago, the bus has stood unmovingly, flaunted only by glances and the weather.

## Hitch, Gibson Lead Alums To Victory

The Wildcat alumni proved to the varsity basketball team that they could still play basketball as they defeated the varsity, 75-67, Friday night, to end spring cage drills.

With Lew Hitch and John (Hoot) Gibson, starters from the NCAA finalist team of 1951, leading the way, the alumni took over the lead after several early ties and then were victorious.

**THE VARSITY**, behind by as much as 20 points midway through the second half, made a brilliant rally near the end of the game, but did not have enough to overcome the old grads.

Hitch, now playing with the pro Minneapolis Lakers, led both teams in scoring with 20 points. Gibson was next with 18—12 of them in the first half. Ernie

Barrett, 1951 all-American, added 12.

Jack Parr, 6-9 freshman, looked impressive for the varsity, getting 15 points to lead their scoring. Pachin Vicens added 12 and Fritz Schneider 11.

The game ended the three-week spring-practice session for coach Tex Winter's crew.

**THE PURPOSE** of the practices was to form the nucleus for next year's basketball team. With the results of the practices, coach Winter hopes to be able to pick his best 10 or 12 boys for next season.

Much time has been spent working on offensive variations brought about by the wider free-throw lane.

While the wider lane will not necessitate an extreme change in the offensive pattern, it will cause the teams to make minor changes in some phases of their game.

## Baseballers To Play At Missouri Today

The K-State baseball squad will be after its second Big Seven win of the season when it clashes with Missouri at Columbia today and tomorrow. The Cats will be taking their 1-5 league mark against the team that won the NCAA title a year ago.

Daryl Parker has been named by coach Ray Wauthier to start

today's game. Jim Rhoades will pitch tomorrow's contest.

The Wildcat lineup is expected to include Larry Hartshorn behind the plate, Kerry Clifford at first base, Steve Hennessey at second, Bob Whitehead at shortstop, and Jerry Kerbs or Ralph Ball at third.

In the outfield, from left to right, will be Jack Smith, Bob Boyd, and Dick Coupe.

Righthander Norm Stewart, a star on the Tiger basketball team in addition to being the top Missouri hurler, is expected to pitch one of the games against K-State.

Missouri, after winning the NCAA crown a year ago, is finding the going rough this season: They have lost twice to Oklahoma and rank fourth in the league with a 2-2 mark. K-State is sixth.

## KU Trackmen Whip K-Staters, 92½-38½

Four records were broken Saturday at KU defeated K-State, 92½-38½, in a dual track meet at Lawrence.

Marvin Chiles was the K-State record-breaker. Bill Nieder, Les Bitner, and the mile-relay team broke records for KU.

K-State entries captured first place in the 440-yard dash, 220-yard low hurdles, and pole vault. KU won the other 12 events and swept the mile run, two-mile run, and javelin.

Chiles, winner of the 440-yard dash, set a new record of 48-7 seconds.

Nieder with a shot-put toss of 56-9, broke the record of 55-11 set by Elmer Hackney of K-State in 1939.

A javelin mark set by Mike Farnetti of KU in 1942 was erased as Bitner tossed the javelin 211-10½.

The mile relay record of 3:20.4 set by K-State in 1951 was erased by a KU quartet with a time of 3:20.

Winners for K-State, in addition to Chiles, were Ray Russell in the 220-yard low hurdles, and Paul Miller in the pole vault. Russell ran the hurdles in 24.8 and Miller vaulted 13 feet.

## Cat Golfers Win; Pfuetze Low at 71

A one-under-par 71 by Dave Pfuetze aided the K-State golfers in defeating Missouri, 7-5, here Saturday for their first win of the season. Pfuetze defeated Duncan Matteson, 3-0.

Hayes Walker was the other K-State winner as he defeated Don Collier, 3-0.

## Sig Alphas, Hillbillies Lead in IM Track

Sigma Alpha Epsilon and Hillbillies are early leaders in their respective divisions with five events in the intramural track meet completed.

Finals in the 100-yard dash, 110-yard low hurdles, shot put, broad jump, and 440-yard dash will be run at 4:15 Thursday in Memorial stadium.

Saturday's winners:

### 880-Yard Run

Fraternity—1st, Paul Strunk, Delta Tau Delta; 2d, J. R. Snyder, Sigma Nu; 3d, Bob Elgaard, Beta Theta Pi; 4th, Bob Westrup, Beta Theta Pi; 5th, Byron Shields, Sigma Chi.

Independent—1st, Edwin Dillinger, DSF; 2nd, Ray Glaze, Hillbillies; 3d, Ken Spicher, Hillbillies; 4th, Harold Stauffer, YMCA; 5th, (tie) Vern Howell, Del Holm, Jones Boys.

### High Jump

Fraternity—1st, (tie) Jerry Jung, Jack Kiddoo, Sigma Alpha Epsilon; 3rd, two-way tie; 5th, five-way tie.

Independent—1st, Allen Hastings, Hillbillies; 2nd, (tie) Rule Olson, Hillbillies, Raymond Pippin, House of Williams; 4th, two-way tie.

### Pole Vault

Fraternity—1st, (tie) Keith Wilson, Pi Kappa Alpha, William Ryan, Delta Tau Delta, Marlon Brack, Alpha Kappa Lambda; 4th, Gary Rumsey, Delta Tau Delta; 5th, three-way tie.

Independent—1st, Pete Ever-

ests, Hillbillies; 2nd, Allan Hastings, Hillbillies; 3rd, Harold Stauffer, YMCA.

### 440-Yard Relays

Fraternity—1st, Sigma Alpha Epsilon; 2d, Beta Theta Pi; 3d, Pi Kappa Alpha; 4th, Sigma Chi; 5th, Delta Tau Delta.

Independent—1st, Hillbillies; 2d, Jones Boys.

### 880-Yard Relays

Fraternity—1st, Sigma Alpha Epsilon; 2d, Beta Theta Pi; 3d, Sigma Nu; 4th, Delta Tau Delta; 5th, Sigma Chi.

Independent—1st, Hillbillies; 2d, Jones Boys.

## Marathon Tennis Match

A marathon match in which 48 games were played to determine the winner of one match highlighted action here Saturday as K-State's tennis team lost to Missouri, 5-2.

## Betas, AGR's Win IM Softball Playoffs

Beta Theta Pi defeated Sigma Phi Epsilon, 12-2, Friday, in intramural softball to win the Group I fraternity crown. George Bemis pitched for the Betas, and Dick Stone hit a two-run homer.

Fred Wingert won his fourth-straight game Friday as Alpha Gamma Rho defeated Sigma Chi, 4-2, in a second playoff.

The win moved the AGR's into the fraternity semifinals with Beta Theta Pi, Beta Sigma Psi, and the winner of the Farm House-Sigma Nu game.

Farm House and Sigma Nu were rained out Friday. The game was rescheduled for today at 5:15 on the east military drill field.

The semifinals will be Tuesday and the finals Wednesday.

# What's in a Name

By BEVERLY RINGEY

Have you ever wondered what it would be like to have a famous name? Well, some 21 K-State students could tell you. They have names that everyone recognizes.

There are two "Poets" in the student directory. English poet, John Milton, and Scottish poet Robert Burns, are represented. Also two authors—Charles M. Sheldon (In His Steps), and Margaret Mitchell (Gone With the Wind). To finish out this group are playwright Eugene O'Neill, and orator Pat Henry.

From the acting field are found such notables as John Payne, James Stewart, Bob Hope, and Will Rogers. From the entertainment field is singer, Frankie Lane, and TV stars Robert Montgomery, Gary Moore, and Arthur Godfrey.

John Alden, a Mayflower pilgrim, and Bobby Jones, the golfer, are listed along with Mary Marvel, the comic-book heroine.

Dignity and distinction is given to the campus by the presence of two "Presidents" and two "generals." The Presidents are John Tyler, 10th President of the U.S., and Woodrow Wilson, 28th President. Nathan Green, an American Revolutionary war general, and William Sherman, Civil war general famous for his "Sherman's march through Georgia," finish out the list of prominent and widely known individuals, but not the list of unusual names found in the student directory.

A club made up of these people would prove interesting. Marilyn Buick, Richard Hudson, Maurice Chrysler, Darrell Ford, Donna Lincoln, David Kaiser, and Dennis Fraser are listed.

It's all in a name.

## Alumni Dinner To Be May 28 For Seniors

Graduating seniors are invited to attend the annual alumni-senior dinner Saturday, May 28, in the College cafeteria. This dinner will mark the beginning of graduation festivities for approximately 700 students.

The Alumni association was organized by the senior class of 1879, of which William Sikes, K-State's oldest male graduate, was a member. Two purposes of the alumni group are to promote interest in Kansas State and to promote fellowship among alumni, Ford said.

Developing fund activities to provide money for scholarships and loans is a primary concern of the association. It sponsors a class reunion every five years.

## Burmeister Chosen IOHC President

Louis Burmeister, ArE Soph from La Citadel, has been elected president of the Independent Organized House Council for next year. Other officers are to be elected in fall.

The eight independent houses belonging to IOHC are Kasbah, House of Breck, House of Jerichos, House of Williams, Acropolis, La Citadel, Signa Phi Nothing, and O.K. House.

KANSAS STATE COLLEGIAN  
Monday, May 9, 1955-4

## Campus Briefs

DR. JOHN L. WEST, professor of pathology, will attend the North Central States Poultry Disease conference May 17-18 at Purdue university.

DR. D. S. FOLSE, associate professor of pathology, is attending the meeting at the University of Pennsylvania on "Symposium on Animal Disease," a collection of opinions on this subject.

MRS. MYRTLE G. CORRELL, household economics, was in Chicago attending a meeting of the research committee in family economics for the north-central region. Eight state were to be represented at the meeting.

"GOOD SPEECH Makes Good Sense" is the title of an article by John Keltner, head of the speech department, which appears in the current issue of Adult Leadership, a publication of the Adult Education association of the USA.

TWO MEMBERS of the department of industrial engineering and industrial arts will be in Stillwater, Okla., May 9-11 to assist in a three-day "metal institute."

A. E. Hostetter will lecture on "Equilibrium Diagrams and Their Application," while Dale E. Zabel will talk on "The Microscope, An Inspection Tool."

NUMBER 139

## Speaker Stresses Need For Liberal Education

### KS Praised For Broader Instruction

The need for increased emphasis on a liberal education in land-grant and other colleges was stressed in this morning's assembly address by Dr. Milton S. Eisenhower, former president of K-State, and now head of Pennsylvania State university.

In today's technical world, the liberal aspect of a college education has largely been overlooked, President Eisenhower said.

**TECHNICAL TRAINING** is not the primary aim of a land-grant college, he explained. Originally the erecting of a land-grant college was to tempt people to enroll in school and to provide them with a relatively low-cost education, he said.

Rapid technological growth has bypassed the growth of liberal education. "The liberal should be inseparable from the practical," President Eisenhower said.

"A total experience is one that liberates the mind to realize the moral validity of judgment," he said.

**DOCTOR EISENHOWER** lashed out at the educators who maintain that a land-grant institution is one that should devote its program mainly toward a high-level technical training.

When educators say there is not time for both the liberal and practical, so therefore the liberal should be sacrificed, it's nonsense, President Eisenhower said.

The idea that liberal should be separated from the practical is a popular misconception in many of the land-grant institutions, he continued.

**WITHOUT THE** liberal, a college education is merely a trade-school education. The liberal curriculum gives purpose and integrity to education, he maintained.

President Eisenhower said many educators are looking up to K-State for taking the lead in trying to put the true meaning of the land-grant law into effect.

Among the honored guests introduced by President McCain were Gov. Fred Hall, who gave a short closing address; state Senator Lloyd Ruppenthal; members of the Board of Regents, Lester McCoy, chairman, Garden City; Oscar Stauffer, Topeka; Mrs. Elizabeth Haughey, Concordia; Willis Kelly, Hutchinson; and Hubert Brighton, secretary of the board, Topeka.

### Student Health

One girl and two boys are patients at Student Health today. They are Lucille Crain, Bill Harris, and Paul Wallace.

Collegian photo by Gary Haynes

**VISITING** after assembly this morning, President McCain, former president Milton S. Eisenhower, and Governor Hall look over a schedule of the afternoon's activities.

### Senior Invitations Here

Seniors may pick up their commencement invitations in K101 now, Byron E. Ellis, superintendent of the KSC Press, said today. The office is open from 8 a.m. to noon and from 1 p.m. to 5 p.m.

### Election Today For Engineers

Engineering students will be able to vote for officers of the Engineering association until 5 p.m. today in the Engineering building. Bob Tointon, president of the Engineering association, said.

Candidates and the office they are running for are Donald Lenthert, EE Jr., and Dick Horton, ME Jr., president; Larry Rash, ME So., and Charles Scholer, CE Jr., vice-president; Bill Teaford, Bill Borland, ME Jr., Eddie Fowler, EE Jr., and George Wilson, EE Jr., secretary.

Roland McDaniel, ME Jr., Tom Bowman, ME So., and Monroe Funk, CE Jr., treasurer; Harold Lonsinger, ME Jr., Open House manager; Fred Suellentrop, ME So., Keith Swenson, ArE Soph, Bob Rafferty, ME Soph, and Keith Small, ME Soph, junior representative.

### Cool...

Topeka, May 10 (U.P.)—Rains fell over much of Kansas last night, the U.S. weather bureau reported today, but they were quite variable.

Temperatures will average between five and eight degrees below seasonal normals.

## Paul Weigel Foundation Established

A Paul Weigel Foundation, to provide scholarships to worthy students in architecture, was announced Friday night at a dinner observing the 50th anniversary of the establishment of the architecture curriculum in the School of Engineering and Architecture.

The Foundation was established by friends and former architecture students to honor Paul Weigel, who is retiring as head of the department of architecture and allied arts.

One scholarship of \$200 will be available this fall to a student in architecture, and more \$200 scholarships will be available in the future from earnings of the fund.

Establishment of the Foundation was announced by Ernest Cooke, Webster Groves, Mo., a 1932 graduate and co-chairman of the committee of former students who spearheaded the Foundation drive.

A citation to Weigel was presented by Linus Burr Smith, head of the department of architecture at the University of Nebraska and K-State graduate. It read, "In expression of their admiration and respect for the man and in recognition of his thirty-four years of service to education and the profession of architecture, the graduates of Kansas State, the former students, the architects of the Institute, and his host of friends this day pay honor to Paul Weigel, and commend him to the high esteem of all scholars and lovers of beauty... May 6, 1955."

## Friday 'Style' To Be Shorts—A&S Council

Friday will be "Bermuda Shorts Day" on the campus, Joan Sargent, chairman of the Arts and Sciences carnival, said. The Arts and Sciences Council is urging all arts and sciences and other students to wear Bermuda shorts to classes Friday to publicize the Arts and Sciences carnival Saturday night.

**THE CARNIVAL** will start 9 p.m. Saturday night and close at midnight. It will be on the tennis courts.

Reigning over the carnival will be the "Queen of Queens," who will be chosen from the major college queen of this year. Candidates are Bonnie Morton, Barnwarmer queen; Marlene Young, Homecoming queen; Margie Slaughter, Royal Purple queen; Kay Randall, Military Ball queen; Martha DeGraff, St. Patricia; Becky Culpepper, I. P. C. queen; and Jean Cooper, Honorary Cadet Colonel.

Voting will be Thursday and Friday in Anderson hall, the Union and the Canteen.

**FREDDIE MEINHOLDT** and his orchestra from Topeka will play at the dance, which is featured as part of the carnival.

## \$10 Increase Awaits OK By Regents

By LEE RUGGELS  
Of the Collegian Staff

Student enrollment fees will go up \$10 a student a semester, Gerry Day, student body president told the Student Council last night. The increase must be approved by the Board of Regents.

If the increase is approved, it will go into effect next fall. The \$10 increase includes \$4 to operate the student union and \$6 for general administration. The proposal, as told by President McCain to Day, also calls for doing away with the present \$10 matriculation fee charged all new students and the \$9 graduation fee charged seniors.

**DAY SUGGESTED** that the Council send a letter through President McCain to the Board of Regents saying that the Council was on record as endorsing doing away with the matriculation and graduation fee. This was done after some discussion as to whether the Council should also go on record as opposing the \$6 increase.

Day said McCain said the fee increase was coming in an area where students have no control. Council member Newton Anderson said that he felt the letter should also include how the Council felt on the fee increase. "I think we should go on record as opposing it. We are not just up here to talk to each other," he said.

The Council voted 9-4 to endorse the two fee drops, not mentioning the increase.

**THE COUNCIL** also sent a letter to the Board of Regents stressing the need for married housing, voted down a proposal to amend the constitution to include freshman representation, approved a fining system for traffic control, elected officers, and appointed several committee members.

Mark Drake was elected chairman of the Student Council; Mike Cornett, vice-chairman; Bill Kennedy, treasurer; Joyce Larson, corresponding secretary; and Bunny Cowan, parliamentarian. Keith Swenson was appointed to the Student Council position on the union governing board to fill the vacancy left by Ferol Fell.

Marge Badeker, DIM Soph, was appointed recording secretary, a position which can not be held by a Student Council member.

**A FINING SYSTEM** was recommended to control the parking situation, although the attorney general's office in Topeka has held this to be illegal. Day said that President McCain told him that he believed the fining system was a borderline case and that if he (McCain) talked to Attorney General Harold Fatzer and pointed out the parking problem here, the ruling might be changed.

The recommendation calls for an increasing fine system with a \$1 fine for the first ticket; \$3, second; \$6, third; \$10, fourth; and \$15, fifth. After six or more tickets the Council recommended that the student be sent to the President of the College for disciplinary action. Tickets would accumulate for a one-year period.

**THE COUNCIL** recommended an alternate system similar to the one now in effect, if the fining proposal is again ruled illegal. The proposal says that the first two tickets are to be considered courtesy tickets and can not be appealed, and the third, which restricts, must be appealed within 48 hours after it is received.

Arnold Appleby, AgE Soph, Lee Ruggels, TJ Jr., and Tom Bowman, ChE Fr, were appointed to the apportionment board.

Today's World News

# Big Four Meeting Gets Ike Approval

Compiled from the Wires of United Press  
By DICK CARR

Paris—President Eisenhower has agreed to a Big Four meeting with the premiers of Russia, France and Britain and the invitation will go to Moscow within 24 hours, informed sources said today.

The NATO council of foreign ministers formally approved the plan, and a high NATO conference source said the invitation may be sent today.

Mr. Eisenhower posed three conditions for the top level talks, the sources said. Secretary of State John Foster Dulles will transmit them today to Britain and France who had asked for the meeting "at the summit."

The conditions were:

1. That the foreign ministers accompany the government heads and hold separate sessions which would tackle the real substance of the subject under discussion.
2. That the meeting last less than a week.
3. That there be no agenda.

The big four meeting, originally proposed by then prime minister Winston Churchill, would try to ease the cold war tensions. It would be the first meeting of the four heads of government since the Potsdam conference in 1945.

## American Sabrejets Down Two Migs

Tokyo—American Sabrejets, outnumbered two to one, shot down two Communist Migs and damaged a third in a blazing battle off the coast of North Korea, the air force announced today. No American planes were lost.

The air force said a flight of 12 to 16 Communist Migs attacked a flight of eight Sabrejets "over international waters" off North Korea and that the Americans returned the fire, shooting down two and sending a third into a smoking dive toward the Yellow sea.

"The U.S. Air Force fighters, all assigned to the 35th squadron of the eighth fighter-bomber wing, were on a patrol mission off North Korea when the attack occurred," the announcement said.

"After the Migs began firing at the Sabres the American planes returned the fire. In the ensuing battle two Communist pilots bailed out and the third plane was last seen diving straight down trailing smoke."

"The Communist planes initiated the attack approximately 50 miles southwest of Sinuiju," the air force said.

## Viet Nam Premier Forms New Government

Saigon, Indochina—Premier Ngo Dinh Diem cleared the last rebel troops from Saigon today and promptly formed a new government to draft the first free elections in South Viet Nam.

The American-backed premier named a new cabinet which included members of the revolutionary junta which supported him in his struggle for power with absentee Emperor Bao Dai.

The new cabinet included no members of the various rebel warlord and religious sects that touched off Free Viet Nam's civil war in a bloody but vain effort to oust the anti-Communist premier with a coup.

Official reports warned that armies of the rebel warlords were massing to the southwest of this capital of South Viet Nam for a possible counter-offensive against the premier.

## Chou-En-Lai Stalls British on Red Views

London—Chou En-Lai has told Britain he intends to clarify Communist China's views on Formosa talks with the United States "in due course," the foreign office disclosed today.

But the Red Chinese premier did not say when he would do so.

A foreign office spokesman said the Communist Chinese premier at last received Britain's envoy in Peiping yesterday regarding a clarification of Red China's offer at the Asia-Africa conference at Bandung to talk over a Formosa settlement with the United States.

Chou promised British charge d'affaires Humphrey Trevelyan his government's views "in due course," the spokesman said.

Trevelyan had been trying for days to see Chou and seek a clarification of the feeler he threw out at Bandung.

## Bulgarian Flies to 'Eastern NATO' Meeting

Soviet premier Marshal Nikolai Bulganin flew to Warsaw today to counter Western diplomatic victories in Europe with an "Eastern NATO" of 80 to 90 satellite divisions backed by Russian nuclear weapons.

The conference opens in Warsaw tomorrow among Soviet Russia and its seven East European satellites—East Germany, Romania, Bulgaria, Albania, Czechoslovakia, Hungary and Poland. Red China sent an "observer."

Added importance was given to the meeting by the presence of the Soviet Premier and Foreign Minister Vyacheslav Molotov, Defense Minister Marshal Georgi Zhukov and Deputy Foreign Minister Valerian A. Zorin.

# Experts Say Gay Paree Needs Costly Face-Lifting

Paris (U.P.)—The experts shake their heads sadly and agree that the queen of cities, gay Paree, is showing her age.

Paris has grown too fast, her circulation is sluggish and her face has been lined by time.

THE SITUATION is critical and the cure extremely costly. The lowest estimate is that it would take \$162,857,142 to make a good start at remedying the ills of the capital.

That is the opinion of 200 architects, traffic experts and city planners who completed an extensive diagnosis of Paris.

They found that the capital grew too quickly with too little planning, that it overbalances the rest of the nation as the economic and cultural nerve center and that its rising traffic is slowly smothering it.

TO START with the experts found there is an imbalance between Paris and the rest of the nation. In its radius of little more than 20 kilometers is packed one-seventh of the total population of France.

Into Paris, as into the hub of a wheel, runs every major road,

railway and airline in France. Paris is the magnetic pole of the French economy, the seat of the stock exchange and the center of culture.

More than 62,000 college students—more than half of the college students in all France—are enrolled in Paris universities.

Furthermore all of this activity—or certainly 80 to 90 per cent of it—is concentrated in only 16,000 acres of Paris' total of 3,000,000. That area runs from the Arch of Triumph to the Louve, left of the Seine to Mont Sainte-Genevieve and right of the river to the grand boulevards and up through Montmartre.

"THE CITY of Light" is being slowly suffocated by its traffic problem and poor layout.

The central market place (Les Halles), in the heart of the tourist area, causes such traffic tie-ups that, although the heavy trucks roll in from the country shortly after midnight, the jam often continues until 4 p.m.

The police department figured out for the experts that there are 10 private cars for every one public bus, yet private cars carry only 30 per cent of the people who daily ride to work in Paris.

IN THIS CENTRAL section, more than 80 per cent of the buildings are over 100 years old, the experts said, and many thousands were built during the aesthetically unsatisfactory period of the second empire.

Paris is gradually being abandoned as a residential center, the experts said, because of the heavy traffic, the noise and the somewhat startling fact that one out of every three residential buildings in the area lacks basic conveniences such as gas, water, electricity and plumbing.

THE VAST majority of Parisians live in the other sprawling areas of the city which, like Topsy, just grew without planning, adequate facilities, sufficient space or beauty.

An adequate building program would involve underpasses and parking spaces, widening of narrow streets, building of speedways and new parks, schools and hospitals for outlying areas.

After the preliminary "modernizing," huge sums would have to be voted every year to keep up with the speed of modern living, the experts concluded.

## Colorado Frosh Can't Have Cars

(ACP)—Freshmen won't be allowed to bring their cars to Colorado university next year, but the ban is strictly from an academic point and not to solve parking problems, the school's board of regents said recently.

A study of first-year students who have trouble making the grade scholastically showed that more freshmen with cars are on academic probation than those who rely on their feet for transportation.

The new ruling is expected to ease the traffic situation, nevertheless, as a recent campus survey showed more than 4,400 student automobiles registered at the university.

# Thinclads To Host NU in Home Meet

The only home track meet on the K-State schedule will be run this afternoon at 3:30 as the Wildcats meet the Cornhuskers from Nebraska in Memorial stadium.

Nebraska has won one of four dual meets this season, that win being over Minnesota, 67-55. They have lost meets against loop members Oklahoma, Colorado, and Iowa State.

K-State was defeated by KU Saturday in its only dual so far this season.

**BY COMPARISON** of marks set in past meets, the teams are closely matched. Events in which marks are almost even are the 100, shot put, and high jump.

Ray Fritzmeier has a distance of 129-4 3/4 in the discus, compared to 129-3 for Len Rosen of Nebraska. Rosen's 47-7 in the shot put betters the 47-6 by Allen Muecke of the Wildcats. In the high jump, Gene Wilson has leaped 6-2, but Ray Kelley of Nebraska has cleared 6-3 5/8.

**MARVIN CHILES**, top K-State dashman and winner of the 440 at KU Saturday, is entered in the 220. He will face Brien Hendrickson, Nebraska's top dashman.

Doug Gibson, top hurdles man for Nebraska, is one of three Nebraska entries in the 220-yard low hurdles to oppose Ray Russell, Mike Cornett, and Gary Doupnik. Russell was winner of the 220-hurdles event at KU.

Pole vaulter Paul Miller, other K-State winner at KU, and Fred Wingert are entered against Nebraska's Jim Hofstetter, Don Blank, and Alan Aden in the pole vault.

**MILLER HAS** topped 13-8 5/8, and Wingert 13-6, while only Hofstetter has done better than 13 feet for Nebraska.

Meet entries:

100-yard dash—(KS) Dolan, McDaniel, Jerry Mershon; (N) Bob Niemann, Hendrickson.

220-yard dash—(KS) McDaniel, Mershon, Chiles; (N) Niemann, Hendrickson.

440-yard dash—(KS) Chiles, Joel McGill, Jim Loomis; (N) Charles Gibson, Bob Andersen.

880-yard run—(KS) Hubert Guest, J. D. Patterson, Gene Youngstedt; (N) Hugh Osmera, J. R. Batie.

1 mile run—(KS) Glen Taplin, Darl Michel, Guest, Youngstedt; (N) Osmera, Lee Carter.

Two-mile run—(KS) Whitney

**MARVIN CHILES** will be a top K-State entry in the Wildcat dual with Nebraska this afternoon. Chiles set a new 440-yard dash record for the KU meet Saturday with a time of 48.7 seconds.

Hicks, Taplin, Michel; (N) Carter, Dick Watson.

120-yard high hurdles—(KS) Jack Railsback, Russell, Cornett; (N) Warner Olson, Rod Schroeder, Gibson.

220-yard low hurdles—(KS) Russell, Cornett, Doupnik; (N) Gibson, Olson, Schroeder.

**MILE RELAY**—(KS) McDaniel, Loomis, McGill, Chiles; (N) Gibson, Niemann, Andersen, Hendrickson.

Shot put—(KS) Bill Carrington, Charles Zickefoose, Muecke; (N) Rosen, Ron Betters.

Discus—(KS) Joe Powell, Fritzmeier, Zickefoose; (N) Rosen, Betters.

Javelin—(KS) Dane Bruster, Gary Pottorff, Powell, Miller; (N) Lee Roberts, Carl Vondra, D. Gibson.

High jump—(KS) Jim Delker, Powell, Wilson; (N) Charles Smith, Stan Matzke, Kelley.

Broad jump—(KS) Kenny Nesmith, Carl Hobson, Ray Beikman, Wilson; (N) Niemann, Kelley.

Pole vault—(KS) Miller, Wingert; (N) Hofstetter, Blank, Aden.

## Tigers Rout K-State Nine; 2d Tilt Today

Lefty Jim Rhoades will go to the mound today at Columbia, Mo., in an effort to beat the rampaging Missouri baseball team, which routed the K-Staters, 19-1, in the first of a two-game series yesterday.

Missouri pounded out 14 hits off the combined offerings of Daryl Parker and Bill Sinderson, while the K-State defense committed 7 errors.

In the meantime, the Wildcats were held to 3 hits by Ed Cook of the Tigers. Cook walked 9 and struck out 9. The lone K-State run came in the top of the first inning as shortstop Bob Whitehead was batted home by second baseman Steve Hennessey.

The Wildcats' 3 hits included a double by catcher Larry Hartshorn, and singles by outfielders Bob Boyd and Jack Smith.

Top hitter for the Tigers was right fielder Bob Musgrave, who hit a homer, a triple, and a single. First baseman John Davis of Missouri added a home run and a double.

K-State now has a 1-6 won-lost record in Big Seven play. Missouri, defending Big Seven and NCAA titlist, has won 3 and lost 2.

## Netmen Sweep Husker Meet

The Wildcat tennis team swept all seven matches from Nebraska netmen yesterday to run their season's record to four wins and five losses.

The 7-0 win broke a losing streak for the K-Staters. Last week, they lost to Washburn university, 6-1, and to Missouri university, 5-2.

The complete results:

Bob Hansen, KS, defeated John Schroeder, NU, 6-1, 6-1.

Richard Circle, KS, defeated Steve Sutton, NU, 6-0, 4-6, 6-1.

John Deam, KS, defeated John Moran, NU, 6-0, 6-3.

Don Wainwright, KS, defeated John Ford, NU, 6-4, 6-1.

John Teas, KS, defeated Tom Stitt, NU, 6-2, 6-1.

Circle-Deam, KS, defeated Schroeder-Moran, NU, 6-1, 6-2.

Hansen-Teas, KS, defeated Sutton-Stitt, NU, 6-3, 6-1.

## Matthews Picks Rocky To Win Over Cockell

Seattle, Wash. (U.P.)—Harry (Kid) Matthews, who has fought both heavyweight king Rocky Marciano and challenger Don Cockell, predicted today that the champion would retain his crown by a knockout before the end of the fifth round in the bout on May 16.

Matthews, who lost to Cockell three times and was knocked cold by Marciano in their only go, said he had to "give the nod to Rocky."

## Holt, Misak, Minckley Awarded Gym Letters

Gymnasts Wendell Holt, Dale Misak, and Wendell Minckley have been awarded letters for the 1954-55 season, coach Frank Thompson has announced.

Misak has been elected captain of the 1955-56 gymnastics team.

while Minckley was nominated as Most Inspirational Gymnast for the past season, Thompson said.

Freshman numeral awards went to Allen Olsen and Wendell Cowan.

Minckley's award came as he used gymnastics to help overcome an attack of polio. He won his varsity letter in his first year of competition.

The gymnastics team will end its season with a pair of exhibitions at the McPherson May festival next Friday. In team competition, the K-Staters compiled an 8-6 record for the past season.

There are no seniors on the squad, and next season's team could have more depth than any of the past K-State gym teams, Thompson said. In addition to the lettermen, Thompson lists eight freshmen who could bolster the team next season.

## Hillbillys, Jr. AVMA To Play for IM Title

The Hillbillys, 8-0 semifinal winners over the Jones Boys in an independent division intramural softball game last night, clash with Jr. AVMA at 5:15 tonight on the west military drill field for the independent division championship.

Semifinals in the fraternity bracket will also be played tonight, Frank Myers, director of intramurals, said. A meeting was scheduled for 11:45 a.m. today to set pairings.

Sigma Nu edged Farm House, 4-3, yesterday to become the fourth team to enter the semifinals. Other teams competing for the championship are Alpha Gamma Rho, Beta Theta Pi, and Beta Sigma Psi.

Bill Schaulis pitched a 2-hitter yesterday to pace Sigma Nu to its win. Bob Sanford gave up 7 hits for Farm House.

Ace Allen pitched a 1-hitter as the Hillbillys beat the Jones Boys. Allen gave up 1 walk and struck out 8.

Bill Biberstein of KU was fifth in the NCAA 120-yard high hurdles event a year ago with a time of 14.5 seconds.

## Willard Telescope Presented to College

A \$1,425 telescope was dedicated to the College on the roof of Willard hall yesterday.

Bill Winter, president of the student chapter of the American Institute of Physics, made the presentation to R. W. Babcock, Dean of Arts and Sciences, who accepted on behalf of the college.

The telescope has a seven and one-half inch refractor lens and will magnify up to 400 times.

"It's biggest use will be to interest students in physical science," said Dr. Stuart E. Whitcomb, head of physics. It will be used for work in Astronomy, taught by Jack Robinson, assistant professor in general studies. It may also be used for some research problems in astronomy.

"It is planned that open houses will be held periodically to enable college and high school students and townspeople to observe the planets and the moon," Dr. Whitcomb said.

The telescope was purchased from Perkin, Elmer, and Moffitt in New York City in 1939.

"The reason it hasn't been mounted before is because it was believed that the vibrations on the roof of Willard would be too great," Whitcomb said. "However, after studying it, they found that this wouldn't be a problem."

Last year the American Institute of Physics members visited Washburn Observatory while on a tour. They then became interested in mounting the telescope at K-State.

A concrete base was poured and the telescope was mounted on it. A housing was then built to cover the telescope and the last coat of paint was put on Monday. The work was done by the members of the organization.

## Entrants To Sign Tomorrow, Friday For Judging Event

Registration for the Block and Bridle judging contest will take place Thursday and Friday in East Ag from 8 to 12 a.m., according to contest chairman, Eldon Johnson, AH Sr.

The contest will begin at 8 a.m. Saturday, and is open to all Block and Bridle members and any others interested. Entrants will judge cattle, sheep, horses, and swine.

Entrants placed in the junior division will judge eight classes and write four sets of reasons for their ratings, while those in senior division will judge 12 classes and give oral reasons on eight.

Five men in the senior division who receive the highest ratings will win a trip to St. Joseph, Mo., to a three-day marketing school sponsored by the St. Joseph Marketing foundation.

Other prizes, including cash awards, magazine subscriptions, and supplies, will be awarded at the Block and Bridle steak fry at the Orval Burtis ranch Saturday night. Those planning to attend may get rides to the ranch by meeting at the Pavilion at 5:30. Prof. D. L. Mackintosh and assistant Prof. Ralph Soule of animal husbandry are in charge of the steak fry.

## Honors Day Planned For HE Students

Outstanding home economics students will be honored at an annual Home Economics Recognition Day program Thursday. The program will be in Rec center beginning at 4 o'clock.

Girls in home economics who have won scholarships this year, and for the coming year, will be introduced.

A scholarship will be given to a freshman student with the highest grade average. The Martha S. Pittman award, in honor of the former head of the foods and nutrition department, will be awarded to a sophomore and a junior.

The Borden award will be awarded to some outstanding senior student, and a scholarship sponsored by the Home Economics clubs will be given to some junior student.

Carol Antic, FdN Jr., will be mistress of ceremonies.

## Horton Named President Of Engine Council

Dick Horton, ME Jr., was elected president of the Engineering council yesterday.

A total of 206 engineering students voted in the election yesterday to choose the officers of the engineering council for the 1955-56 school year.

Other officers are Larry Rash, ME Soph, vice-president; Eddie Fowler, EE Jr, secretary; Marianne Wilkinson, Ar Fr, treasurer; Keith Swenson, ArE Soph, junior representative; and Harold Lonsinger, ME Jr, Open House manager. Marianne Wilkinson won on a write-in ballot.

## Student Health

One girl and four boys are patients at Student Health today. They are Lucille Crain, Paul Wallace, Bill Harris, and Cecil Taylor.

## KS Coeds of 1900 To Wear Orchids At Spring Reunion

Women who graduated from Kansas State in 1900 will have orchids to wear on the campus when they return May 28 and 29 for their 55th reunion.

C. A. Chandler, a 1900 graduate, will furnish orchids to all women who graduated in 1900, according to Kenney Ford, alumni secretary. Chandler is president of the Chandler Landscape and Floral company in Kansas City.

C. M. Correll, College historian, is in charge of arrangements for the reunion of the Class of 1900.

## Voice in Union Given to 109

Committees for the Union program council were appointed Monday night at a joint meeting of the council and the Union governing board.

All those who applied for positions on the program council were put on the committees appointed Monday or on the Union promotion committee that was appointed earlier.

## Phil Sorensen Leaving For Year's Study

Philip H. Sorensen, assistant dean of students the past three years, will enroll in the Stanford university graduate school June 21 to complete work toward a doctorate in educational psychology.

Sorensen is the winner of an Abraham Rosenberg fellowship, a graduate scholarship offered by Stanford. He hopes to complete work toward the advanced degree by the summer of 1956.

A native of Washington, Sorensen received his B.A. and M.A. degrees from Washington State college in 1948 and 1950, and has done advanced work at the University of Oregon, Stanford, Kansas State, and Reed College.

## Profs Are Authors Of New Textbook

First copies of a new textbook on electrical engineering which was written by two members of the department of electrical engineering have been received in the department, according to R. M. Kerschner, acting head.

The text, "Basic Theory in Electrical Engineering," was written by R. G. Kloeffer, department head who now is on leave for confidential work with department of defense in Washington, D.C., and E. L. Sitz, professor of electrical engineering.

Published by the MacMillan company, the text was prepared for an introductory course in electrical engineering and will be offered at the sophomore level.

The Union governing board went on record as favoring finding a job in the Union for everyone who applies.

The Union program council is made up of the eight committee chairmen and the council officers, Ed Gillette, chairman, Sharon Diamond, assistant chairman, and Mary Lu Compton, secretary.

The committees are as follows: Hospitality—Roger Tointon, chairman, Mary Beckmeyer, Jacqueline Johnson, Marilyn McCready, Waldean Kretzmeier, Barbara Messer, Mary Lee Durland, Wendell Holt, Richard Jones, Dixie Viar, Burnette Earp, W. Penn Morton, Wanda Stalcup, Sue Wyant, Lou Ann Oberhelman, and Marilyn Anderson.

Photography and crafts—J. R. McLeland, chairman, Linnea Brown, Alan Van Nice, Warren J. Keegan, Gene B. Martin, Shirley Deters, Claudette Frank, John Slade, Gary Latham, Eugenia Jern, and Gary E. Trull.

Special events—Carl Dahl, chairman, Jay Humburg, Don Lverenz, Floyd Griggs, Keith Chrisman, James Perkins, Lois Cowan, Loralle Ballou, Connie Taylor, Nancy McQueen, Kathleen Dodd, Sylvia Gaddie, and Yvonne O'Donnell.

Music, Library, and Art—Delaine Smith, chairman, Mary Lou Tjaden, Pat Craven, Karen Peterson, Sandra Smercheck, Beverly Miller, Jean Cooper, Joyce Broderick, Marjorie Roark, Martha DeGraff, John Rickles, Ronald Parks, and Darlene Nelson.

Dance—Conrad Smith, chairman—Nancy Forrester, Kenneth Wells, Fred Hart, Jon Levin, Norman Benzinger, Larry Wise, James Gates, John Watt, Sandra Mueller, C. Q. Williamson, Ramona Tucker, Marion McKelvey, Jere Glover, Karen Milner, Joan Skupa, Nancy Howard, and Phyllis Morris.

Movies—Gary Rumsey, chairman, Margie Lemon, Margery Cornwell, Gary Galyardt, Bruce Wren, Ruth Pickett, Carol Shideler, Anita Fulhage, and Madelyn Neff.

Games—Peter Patchin, chairman, Jacqueline Wade, Janis Broman, Patricia Fobes, Becky Culpepper, Kay Benjamin, Lila Orme, Judy Crawford, Karen Smith, Harriet Myers, John Alden, Robbie Guy, Robert Reece, James Hotchkiss, Hayes Walker, George Hooper, Don Parrish, and Phyllis Loseke.

Promotion—Carolyn Clark, chairman, Gaye Fryer, Robert McDowell, Beverly Ringey, Betty Theiss, Lance Gilmore, Richard Carr, Jim Graves, Royanne McMullen, Hoyt Eells, Doreen Cronkite, and Don Jones.

## Art Students Plan Field Day

Seventeen students enrolled in ceramics and problems in pottery will attend the Decorative Art show in Wichita tomorrow, Mrs. Louis Hafermehl, instructor, announced.

The show, sponsored by the Wichita Art association is one of the two largest craft shows in the United States. The exhibits have been selected from several thousand submitted by residents of the U.S. and foreign countries. Pottery, ceramic sculpture, silver smithing, and enamel work will be on display.

Collegian photo by Gary Haynes

TRYING OUT their Bermuda shorts for the Arts and Sciences carnival Friday are Bonnie Morton, Barnwarmer Queen; Marlene Young, Homecoming Queen; Margy Slaughter, Royal Purple Queen; Becky Culpepper, IPC Queen; Martha DeGraff, St. Patricia; Kay Randall, Military Ball Queen, and Jean Cooper, Honorary Cadet Colonel. One of these girls will be selected "Queen of Queens" at the Arts and Sciences carnival.

# Big Peace Program Proposed by Russia

Compiled from the Wires of United Press  
By DICK CARR

Moscow—The Soviet Union published today a mammoth peace proposal including a world disarmament plan it said could "end the cold war."

Publication coincided with reports in diplomatic circles Soviet premier Marshal Nikolai Bulganin would agree in principle to an invitation by the West to attend a Big Four meeting "at the summit."

Bulganin was in Warsaw where the Soviet and seven East European nations were expected to set up today an "Eastern NATO" to counter the rearming of West Germany.

The Soviet proposal called for withdrawal of occupation forces from East and West Germany, the setting up of international controls to prevent war preparations and the banning of atomic warfare. It would be fully effective by the end of 1957.

The declaration, to be presented to the United Nations for adoption, would limit the Soviet, Communist Chinese and U.S. armies to 1,500,000 men each and the armies of Britain and France to 650,000 each.

## New Violence Erupts in Viet Nam

Saigon, Indochina—Strong rebel forces attacked government troops in the southern "rice bowl" of Free Viet Nam today, ending a week-long lull in the civil war.

The fighting erupted in the rice-rich Mekong river delta between the armies loyal to American-backed premier Ngo Dinh Diem and the rebel troops of the Hoa Hao Buddhist religious sects.

Official French and Viet Namese sources said casualties were "high among civilians in the area but that chaotic conditions in the war zone slowed an accurate count."

Refugees streaming into Saigon with their belongings brought the first news of the new attacks. They said Hoa Hao troops opened an artillery bombardment that wrecked the towns of Sadec and Mytho southwest of Saigon.

Long-haired General Ba Cut, fanatical leader of the Hoa Hao forces, launched a string of heavy attacks in a wide circle along the lower Mekong after a series of harassing raids which started Monday night.

## Japanese Ferry Boats Collide; 46 Dead

Tokyo—More than 140 persons drowned or were missing when one ferry boat collided with another today and sank within a few minutes. Speedy rescue work saved at least 636 other persons.

The government-owned Japan National railway, which operated both ferries, gave these casualty figures:

Dead 46, missing 97, rescued 636, including two Americans. Fifty-one of the survivors were injured.

Other reports listed as many as 65 dead.

Many of those aboard the doomed ferry Shitun Maru, which had been raised after sinking in a similar accident five years ago, were school children on an excursion.

The Shitun Maru sank in the fog-shrouded waters of Japan's scenic inland sea after colliding with the Uko Maru. Both vessels were equipped with radar to guard against such collisions.

## Health Service Launches Salk Vaccine Check

Washington—The public health service launched a batch-by-batch safety check of Salk polio vaccine today in an attempt to break the stalemate in the stalled inoculation program.

The health service sent a team of scientists to the Park-Davis laboratories at Detroit to inspect its vaccine production and safety procedures. Experts will visit other manufacturers later.

Three polio cases were reported yesterday in Pennsylvania. They were the first among children inoculated with vaccine produced by the Wyeth laboratories of Philadelphia. A state health official said, however, the cases "could fit in with the normal incidence and not be due to the vaccine."

Idaho yesterday reported the third death in the state among 15 children who have contracted polio after receiving Salk shots. One has died in Louisiana and one in Hawaii.

## NATO Council Ends Sessions with Big 4 Hope

Paris—The North Atlantic Treaty organization's council of foreign ministers ended a historic session today with an official blessing of a Big Four conference "at the summit" with Russia this summer.

The NATO council wound up its three-day meeting here with a final communique which hailed West Germany's new place in the Western alliance even as the Soviet Union organized an "Eastern NATO" in Warsaw.

Speaking in the name of the council, Canadian external affairs minister Lester Pearson called a new Soviet peace plan "interesting and perhaps important."

At the same time, the council expressed the hope that the proposed meeting between the heads of government of the United States, Britain, France and the Soviet Union would lead to progressive disarmament.

## Medical Artist Aids Doctors In Operation

Ann Arbor, Mich. (U.P.)—Mrs. Carlos Lopez, faced with the job of supporting herself and her two children when her husband died, has turned her life into one of the most unusual in the nation.

Without any medical training, she has become a key figure in many of the cancer research projects at the University of Michigan.

She is one of the few expert medical artists in the nation.

THE MEDICAL ARTIST'S job is to complement the work of cameras. Being selective, the artist can highlight details of an operation which the surgeons want recorded and a camera misses.

Mrs. Lopez became a medical artist after her husband, a nationally-famous artist, died in 1953.

Clad in a surgical cap and gown, she circles operating tables during cancer surgery at the University.

"WHEN THEY CALL me in, something big is up and they make certain I can see," she said.

Later she sketches the operation's sequence, from memory.

Mrs. Lopez, studied at the old Detroit Art Academy. It was there she met her husband. They were married in 1933 when he became director of the academy.

But her only medical training and knowledge came from "books and friends." She consistently amazes the surgeons with the minute details she captures which even medically-trained people miss.

## Little Man on Campus by Bibler

## Hillsdale Sorority Party Begins in Wee Hours

(ACP)—A sorority at Hillsdale College scheduled an informal party recently starting at 5 a.m. and extending until 9 a.m.

The coeds called for their dates, entertained them with a floor show, danced to recorded music, and then served orange juice, doughnuts, and coffee. The Hillsdale Collegian, campus paper, suggested it was "something new in the line of informals."

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendar kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

**PAUL MILLER** soars over the crossbar at 13 feet to win the pole vault in a dual met with Nebraska. The K-Staters won from NU yesterday, 92-39.

## Cat Track Team Wins From Huskers, 92-39

By winning 7 of 9 track events and 4 of 6 field events, K-State's track team defeated Nebraska, 92-39, yesterday in a meet in Memorial stadium.

Marvin Chiles, who broke a meet record in winning the 440-yard dash at KU Saturday, set a new NU dual meet record in the 440 with a time of 49.1.

Only double winner in the meet was K-State's Ray Russell. Russell won both the 120-yard low hurdles and 220-yard high hurdles. He was high point man of the meet with 10 points.

Douglas Gibson was high for Nebraska with 7 points. Gibson placed second in the 220-yard high hurdles and in the javelin, and was third in the 120-yard low hurdles.

Other winners in the meet were Paul Miller (KS), pole vault; Kenny Nesmith (KS), broad

jump; Stan Matzke (N), high jump; Joe Powell (KS), javelin; Leonard Rosen (N), discus; Allen Muecke (KS), shot put.

Also Dolan McDaniel (KS), 100-yard dash; Jerry Mershon (KS), 220-yard dash; Hubert Guest (KS), 880-yard run; Glen Taplin (KS), mile run; Lee Carter (N), two-mile run; mile relay, won by Nebraska.

## Hillbillys Win In IM Softball

The Hillbillys won the independent championship in intramural softball last night with a 3-1 win over Jr. AVMA as Ace Allen pitched a 2-hitter.

Alpha Gamma Rho and Beta Sigma Psi won close semifinal games in the fraternity division to move into the finals in their bracket. They meet at 5:15 today for the fraternity crown.

The AGR's shaded Beta Theta Pi, 1-0, as Fred Wingert pitched a no-hitter for the winners. He struck out 13, and only one Beta reached first base—on an error.

Dick Froberg hurled a 2-hitter for Beta Sigma Psi as his team scored one run in the third and another in the fourth to win, 2-0.

In the independent title game, the Hillbillys pushed across a run in the first, then Jr. AVMA tied the score with a run in the second. The Hillbillys won the game with a 2-run outburst in the third.

## Tigers Blast Cats With Four Homers

Missouri's baseball team defeated K-State, 15-2, yesterday for the Tigers' second-straight win over the Wildcats. Missouri beat K-State, 19-1, Monday.

Jerry Schoonmaker led the Tiger hitters with two home runs. Buddy Cox and George Gleason also homered for the Tigers. K-State scored both its runs in the seventh when Larry Hartshorn hit a homer with Bob Whitehead on base.

Jim Rhoades was losing pitcher, and now has a 2-4 won-lost mark for the season.

K-State is scheduled to play KU in a two-game series Friday and Saturday at Griffith stadium.

## Sports Banquet Tonight

K-State sports fans will honor Wildcats taking part in spring sports at a banquet in Thompson hall at 6 tonight.

Attending the banquet will be varsity and freshmen athletes from baseball, tennis, track, golf, gymnastics, and wrestling teams. Varsity lettermen and freshman numeral winners in wrestling will be presented their awards at the banquet.

Main speaker will be Dean Rodney Babcock of the School of Arts and Sciences.

Roscoe and Burnadine Lewis

## A Family Enterprise

# Couple Earn PhD's

By BILL SWART

Roscoe W. and Burnadine L. Lewis, K-State graduate students, will be the first married couple to earn doctorate degrees at K-State when they graduate this spring. There is no known record that such an event has happened before. The Lewis's and their 10-year-old daughter, Rosette Yvonne, reside at 51-A Hilltop Courts.

Lewis, who will get a PhD in animal nutrition, did research on broilers, studying the influence of different feed ingredients on the flavor and chemical properties of the birds. Mrs. Lewis' degree will be in foods and nutrition. She did research on the fat stability of turkeys.

It is only by coincidence that both are receiving Doctor's degrees, according to Mrs. Lewis.

"WHEN ROSCOE decided to get a PhD in 1952, I came along to Manhattan so we could live together. My plans were to get a job here and I had no intention of continuing school," she explained.

"The only job available in my field was at the College in the foods and nutrition department. I started work as a research assistant and took a few courses. As time went on I became greatly interested in research and one year later I decided to work on my Doctor's degree."

Mr. Lewis agreed that getting this far in college is a happy event for any family. He mainly attributed their accomplishment to the fact that they have been fortunate in avoiding accidents and illness.

"SINCE WE are raising a family, an accident or illness could have stopped school for both of us. We now realize more than ever how fortunate we were," he said.

"Going to school together has been much better than doing it independently. We've always enjoyed doing things together so naturally we enjoyed our school work more this way."

Roscoe and Burnadine first met while attending Prairie View A&M college in Prairie View, Texas, where they both received their Bachelor of Science degrees. After graduation they were married in 1942.

BEFORE SERVING 14 months in the field artillery, Roscoe taught vocational agriculture. After his release from the Army in 1945, he continued teaching in the same field until coming to K-State in 1951 to work on a Master's degree in poultry nutrition.

When Roscoe was in the Army, Burnadine taught high school chemistry. During the years 1945-51, she taught home economics in high school and earned a Master's degree in foods and nutrition by attending summer school at Colorado A&M.

As for the future, they have no definite plans except that they hope to stay together and work in the field of research.

## Ag Seniors To Meet Tomorrow for Photos

Graduating seniors in agriculture are to report to Illustrations hall Thursday from 3 to 5 p.m. to have individual pictures taken for the dean's permanent record, Clyde Mullen, assistant dean of agriculture, announced today.

## HE Extension Club Elects New Officers

Ardella Rusk, HE Jr., was elected president of the Home Economics Extension club for the coming year. Other officers include: Shirley Hundley, vice-president; Betty Sellers, secretary; and Ann Eklund, treasurer.

## Union Will Be Done Oct. 28 Says Builder

By BEVERLY LEE

Construction of the new Student Union is progressing on schedule and should be finished by October 28, according to H. E. Milligan, contractor.

However, this does not mean that the building will be ready for occupancy, says Loren Kottner, director of the Student Union. After the construction is finished, all of the furniture will have to be purchased and placed in the building.

**MOST OF** the staff members will have to be hired at that time also, Kottner said. The only full time members employed before that time will be a program adviser and a food service supervisor.

"We have set February 1 as a tentative date for beginning the operation of the Union," Kottner said. He said this date is definitely subject to chance and could be altered as much as several months either way. A delay in any materials ordered could cause the opening date to be postponed.

**ONE OF** the big delays in the construction has been the thermopane glass for the windows, Milligan said. The glass is double thickness and is all custom made. The workmen have received all but 100 panes now, and should get those soon, he said.

The plasterers are working in the ballroom now and as soon as they finish all of the plastering will be completed. The acoustical tile is available for use, and will be put on as soon as all the plaster is dry, Milligan said.

**THE TILE** on the walls of the kitchens and the restrooms is completed, and it will be laid on the floors soon. Each room has a different color of tile and some have modernistic designs. Workers are preparing to lay cinnamon colored tile on the terrace adjoining the ballroom now.

After the tile is laid on the floors of the kitchens, aluminum acoustical ceilings will be put in. Aluminum is being used so that it may be washed easily.

Conveyors have been installed in each kitchen so that the dishes may be sent downstairs to the dishwashing area. Trays of food can also be sent upstairs for banquets. The conveyors are automatically fixed so they cannot move when a person reaches in to remove a tray, and thus protects him from getting his arm caught.

**ONE FREIGHT** elevator has been installed in the building and there are places for two passenger elevators. "We're not installing passenger elevators, but they can be put in later," Milligan said. They are not being installed at the present in order to save expense.

The workers are through with the top floor now, as it won't be completely finished with plaster and paint until later, Milligan said.

## Students Total 600 In Pre-Enrollment

Prospective students who took advantage of the pre-enrollment testing program numbered 600, E. M. Gerritz registrar, announced.

Students were tested at 12 centers in March and April. They were given a scholastic aptitude test and an English achievement test, and were given a chance to make their application for admission.

These prospective students will come to the campus at scheduled times between July 5 and August 12 to pre-enroll.

## Graduating Seniors Should Check at PO

All graduating seniors should check at the College post office for instructions from the registrar's office concerning graduation before the end of this week, according to Robert Anderson, assistant registrar.

## Junior Wins Engineering Scholarship

Donald H. Lenhart, EE Jr., was announced today as winner of a \$750 Magnolia Petroleum company scholarship for the 1955-1956 school year.

Lenhart was selected jointly by the College and by the company, according to R. M. Kerchner, acting department head, who announced the award.

**THE SCHOLARSHIP** is one of 19 which Magnolia is giving nationally for the coming year to encourage, assist, and recognize outstanding students in the fields of petroleum engineering, geophysics, geology, mining engineering, and electrical engineering.

Lenhart, the son of Mr. and Mrs. Howard Lenhart, 1729 Salina, Wichita, was selected on the basis of high scholarship, extracurricular activities, and need.

**BESIDES STANDING** among the top students in his class, Lenhart is a member of the Student Council, the student branches of the American Institute of Electrical Engineers and the Institute of Radio Engineers, and the national honorary engineering organizations of Eta Kappa Nu and Sigma Tau.

He also is plans and training officer in the Pershing Rifles and has been supply officer for the unit; secretary and vice president of the Boy Scout service fraternity; and treasurer of the West Stadium House Council.

## Student Health

One girl and three boys are patients at Student Health today. They are Treva Westfall, Bill Harris, Cecil Taylor, and Paul Wallace.

## Carnival Queen Balloting Begins

Voting will begin today for the "Queen of Queens" who will reign over the Arts and Sciences carnival Saturday night from 9 until midnight.

Candidates are Bonnie Morton, Barnwarmer queen; Marlene Young, Homecoming queen; Margie Slaughter, Royal Purple queen; Kay Randall, Military Ball queen; Martha DeGraff, St. Patricia; Becky Culpepper, IPC queen; and Jean Cooper, Honorary Cadet Colonel.

Voting booths will be in Anderson Hall, the Union and the Canteen.

**THE CARNIVAL** and dance at which Freddie Meinholdt and his orchestra from Topeka will play will be held on the tennis courts. In case it rains Saturday night, the carnival will be in Nichols gym.

Twenty booths have been entered to date, according to Joan Sargent, chairman of the Carnival committee. Several more entries are expected before tomorrow.

The following booths have been entered:

Arts and Sciences council—a "professor auction" Professors A. D. Miller, Charles Goetzinger, Kingsley Given, Stuart Whitcomb, Paul Heppe, H. W. Davis, Earle Davis, Norman French, and Alice Becker and Marilyn Tavares will be auctioned off for two hours servitude the following day.

ISA—a hand writing analysis and an archery booth

College 4-H—a dunking booth.

**STUDENT INDUSTRIAL** Arts and Industrial Engineering—golf putting booth.

Pi Beta Phi—jail booth. For a small fee the Pi Phi's will lock someone up for as long as the buyer wishes.

Cosmopolitan club—A native dance.

Lambda Chi Alpha—"Wreck the Model T."

Mortar Board—a valuable objects auction. Such things as excuses from classes and tickets to park in front of Eisenhower hall will be auctioned off.

YWCA—a jelly throw.

YMCA—ring the leg. Participants in this booth will try to ring girls legs.

Alpha Delta Tau—white mice race.

Tau Kappa Epsilon—ring the duck.

Phi Kappa Tau—"Pie the Guy"

Alpha Xi Delta—campus profile. The ideal campus profile will be determined.

Phi Delta Theta—rat races.

Northwest hall—"Cinderella ball." Dances will be sold.

Delta Delta Delta—"Bust a Balloon."

## Rain . . .

By UNITED PRESS

Three southeast Kansas rivers, the Marmaton, the Neosho and the Marais Des Cygne, are nearing bankful stages today following last night's heavy rains.

The U.S. Weather bureau today reported the Marmaton river will crest at Fort Scott at about 34 feet, two feet above bankful, sometime this afternoon resulting in a slight overflow.

The Neosho will crest at about 16 feet, six feet below bankful, tonight at Parsons and at 14 feet, three feet below bankful, Friday morning at Oswego. The Marais Des Cygne will rise to about half bankful on Friday at Trading Post.

## Dairy Club Judging Winners Announced And Prizes Awarded

Winners of the dairy products judging contest sponsored by the Dairy club were announced Tuesday.

The winner of the junior division was Damon Slyter, AEd Sr. Lloyd Christie, DH Jr., was first in the senior division. Slyter was presented a silver platter and Christie a silver pitcher.

The winners following Slyter in the junior division in judging all products were second, Rodger Hoyt, DH Jr; third, John Bircher, DM Soph; and fourth, Roy Henry, AEd Soph.

**THE SENIOR** division winners besides Christie were second, Donald Weissbeck, DM Soph; third, Ray England, Ag Fr; and fourth, Ancel Armstrong DH Soph.

First in judging milk in the junior division was Damosa Slyter. He was followed by John Bircher, and Roy Henry, AEd Soph.

Leonard Slyter, AEd Sr. was first in the senior division. Following him were Donald Weissbeck and Lloyd Christie.

**THE TOP** ice cream judges were Lloyd Christie, Leonard Slyter and Ancel Armstrong in the senior division and Rodger Hoyt, Dwight Haddock, AEd Fr, and Damon Slyter in the junior division.

Cheese judging was won by Donald Weissbeck, Ray England, and Paul Sullivan, AgC Soph, in the senior division and Damon Slyter, John Milton, Ag Fr, and Rodger Hoyt in the junior division.

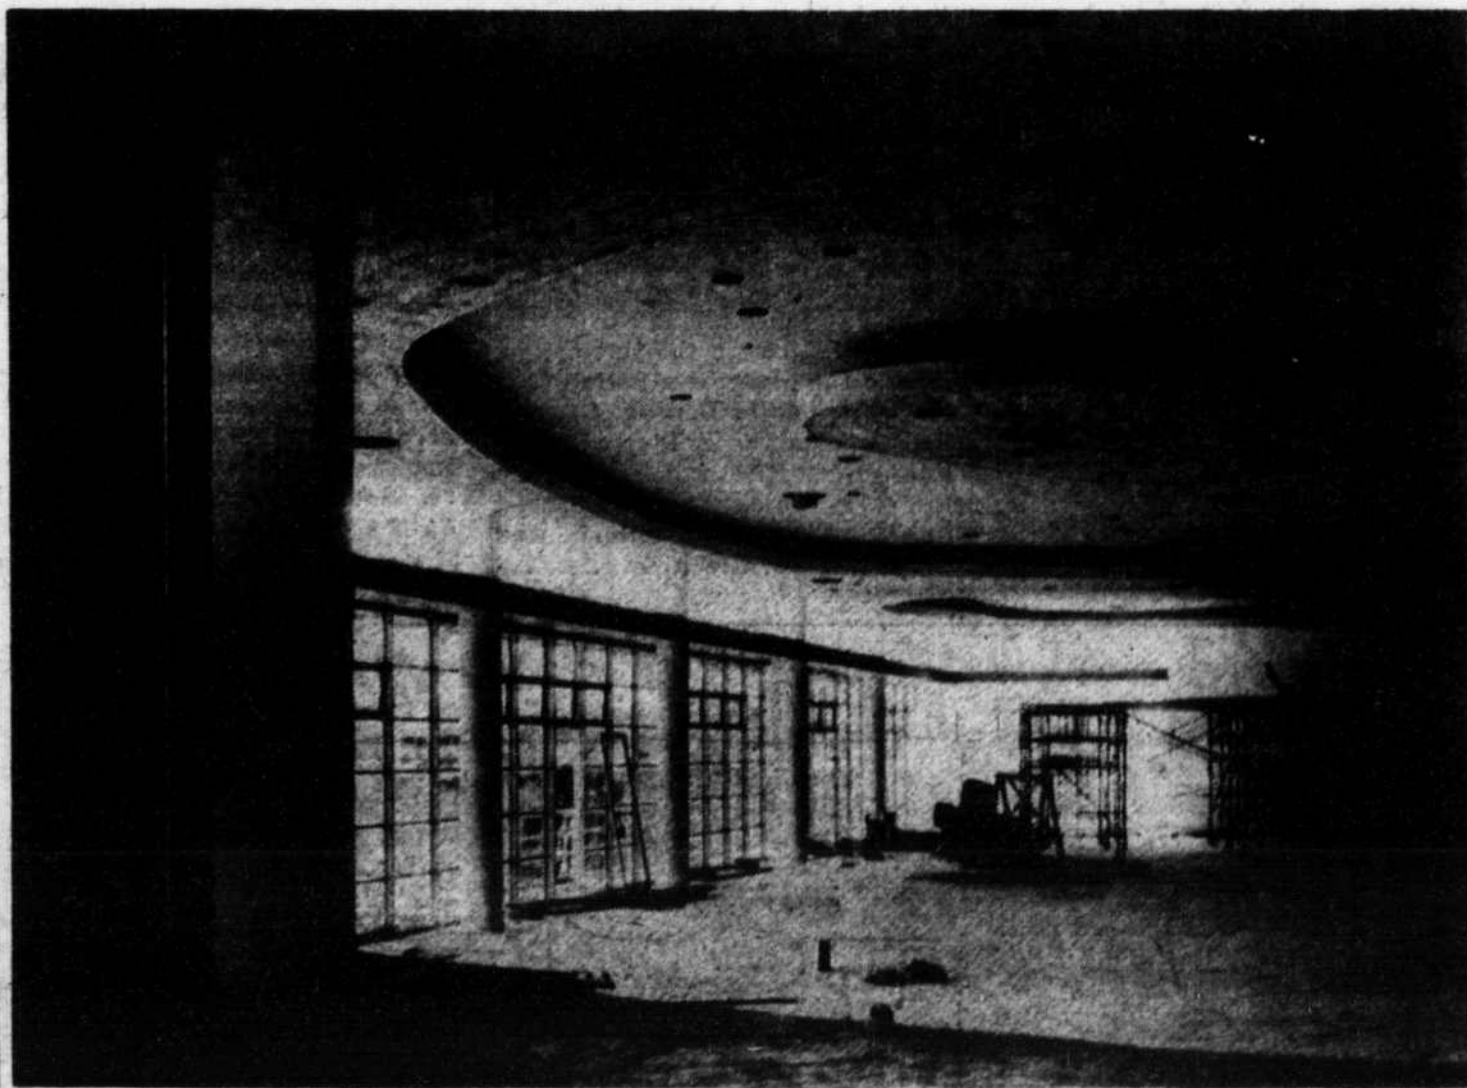

Photo by J. R. McLeland

**THE MAIN** Ballroom of the new Student Union takes shape as plastering nears completion. The building will be completed this fall, but probably will not be ready for use until early next spring.

# Dulles-Faure Talks Mend Indochina Rift

Compiled from the Wires of United Press  
By DICK CARR

Paris—Secretary of State John Foster Dulles and Premier Edgar Faure announced early today they had reached "complete agreement" on the Indochina crisis that brought a dangerous diplomatic rift between the United States and France.

In what appeared to be a major victory for American foreign policy France agreed to join the United States in supporting Premier Ngo Dinh Diem in his battle to save Free Viet Nam from Communism. Emperor Bao Dai would remain as head of state.

The Franco-American agreement on Indochina came in a meeting that ended shortly after midnight this morning. It was not a contractual agreement but set out what Faure called the "complete harmony of views" between France and the United States.

Faure, who recently called Diem "incapable" of doing his job, agreed reluctantly to back him. But the two nations demanded early elections in Viet Nam—the French want them in July—and that Diem's government should be "strengthened" or "broadened."

Both France and the United States agreed to remove officials who cannot carry out their nation's policies. The United States also promised to use its influence to try to get Diem to tone down anti-France sentiments and propaganda.

## Soviet Balk Threatens Austrian Treaty

Vienna, Austria—Secretary of State John Foster Dulles postponed his plans to fly here today from Paris because of a last-minute Soviet balk that threatened the signing of an Austrian state treaty.

The government controlled Austrian network said British Foreign Secretary Harold Macmillan also refused to come to Vienna unless the treaty draft were agreed upon.

British officials said Sir William Hayter, their ambassador in Moscow, was expected to fly to Vienna later today in connection with the projected Big Four foreign ministers meeting here this week end.

The officials said if the Big Four ministers meet on schedule they are expected to discuss arrangements for a four-power meeting between the heads of government.

Austria's freedom was hanging in the balance in the war of nerves fought across the conference table and a conference source said, "it's just a question of who has the best nerves"—the West or the Russians.

Dulles announced early today in Paris he will not come here until the Big Four ambassadors reach agreement on the treaty—that he will not sit down in an unofficial Big Four foreign ministers conference to thresh out the treaty details.

## Reds Accuse U.S. Air Force of Intruding

London—Communist China accused the United States today of sending Sabrejets over Communist territory as part of a "criminal plan" to intimidate the Chinese people and prevent the "liberation" of Formosa.

The charges by Peiping radio marked the second time the Communists accused the U.S. Air Force of "intruding" over the Chinese mainland in the battle in which U.S. sabrejets shot down two Migs and probably shot down two more.

The Communist version of the air battle differed sharply from the U.S. version. The Reds said they shot down one Sabre, damaged two and lost no planes. The Reds also said the battle took place over Communist territory.

The United States made a strong protest to Communist China yesterday for the "unwarranted and illegal attack" of the Chinese planes against the Americans and said the attack occurred "over international waters."

Today the air force in Tokyo released further details of the incident. It disclosed a fourth Mig probably was shot down in the unequal battle involving eight Sabre and 32 Migs, of which 12 to 16 attacked.

## Congressmen Ask Investigation of Oveta Hobby

Washington—Two Democratic House members demanded today that the President order Mrs. Oveta Culp Hobby to answer congressional charges that she approved the polio vaccination program "without adequate testing" of the vaccine.

They urged the House banking committee to request President Eisenhower to direct the secretary of health, education and welfare to appear and "answer all pertinent questions" about the temporarily-stalled vaccination program.

The request was contained in a resolution drafted by Rep. Abraham J. Multer (D-N.Y.). He said he would call for a vote on it at a secret committee meeting today because Mrs. Hobby has turned down three invitations to testify.

Rep. Charles A. Vanik (D-O.), whose daughter already has received her first Salk vaccine shot, said he would support Multer's resolution.

"Mrs. Hobby licensed the vaccine without adequate testing and should be brought before the committee to explain her actions," Vanik told a reporter.

## Calendar

Thursday, May 12

Religious Co-ordinating council, T206, 7:30 p.m.  
Poultry club, Ag137, 7:30 p.m.  
Wildcat Fencing club, N108, 7 p.m.

Alpha Kappa Lambda-Kappa Kappa Gamma card party, 7 p.m.  
Home Economics Art club picnic, Sunset park, 5:30 p.m.  
Horticulture club picnic, Keen farm, 5 p.m.

Friday, May 13

Free movie, "Farewell to Yesterday," Engineering Lecture hall, 7:30 p.m.  
Kappa Kappa Gamma spring formal, Country club, 9 p.m.  
Alpha Delta Pi spring formal, Wareham Terrace room, 6:30 p.m.  
K-State Christian Fellowship, A212, 7 p.m.  
Faculty square dancing, Tennis courts, 8 p.m.  
Northwest hall spring formal, 9 p.m.  
Sigma Chi house party, 9 p.m.

## Texas Staters Solve Mystery Of Shirt Spots

(ACP)—One of the biggest mysteries on the campus of Texas State college—"The Shirts with the Yellow Spots"—has finally been solved.

The scene is the college laundry. The puzzle: why were the yellow spots appearing on all the white shirt collars after they had been laundered? And, to add to the mystery, why did the spots appear only on the left collar of each shirt?

Research staff members were called in from the College of Household Arts and Sciences, but days of careful watching and study revealed only more yellow spots, always on the left collar only.

Chemicals and formulas were changed, equipment torn down and put together again, padding on the steam ironers were stripped off and replaced but still: more yellow spots. The search narrowed down to a concentration of alkaline which caused scorching in the shirt presses. Where did the alkaline come from? Nobody knew.

Officials were ready to tear their hair and burn down the laundry when somebody turned their attention to an innocent-looking pan of tap water with a small cloth in it. And then the problem came to light. The cloth had been used to dampen areas of the shirts which had dried before they were ready for the pressers. The operator always put the cloth down on the stack of shirts on the left collar. Due to the extreme alkaline content of water in Denton, the pan had become the holder of alkaline salts. The rag soaked up the salts, which was transferred to the shirts. The culprit was sentenced to death in the incinerator.

## Little Man on Campus

## Magician's Book Exposes Crooked Gambling Tricks

By THOMAS WEYR

Vienna (U.P.)—A retired police inspector and a professional magician have published a 150-page report on the art of crooked gambling as practiced in Vienna card rooms. Their findings can be summed up in a sentence:

"If you want a guarantee against being cheated, don't play."

Some 5,000 Vienna cafes and bars are licensed for card gambling. Former Inspector Ernst Sprung and his magician collaborator, A. Allen, estimate that 30,000 Viennese sharpsters make a crooked living at the tables.

THINGS HAVE reached the point, they say, where crooks prey upon crooks. In such games, all players know trickery is afoot and try to outmatch each other in skulduggery. The crook with the craftiest technique wins.

A smoldering cigarette, a smile, the clearing of a throat—these or any of 1,000 other seeming commonplaces may be the gimmick that takes the pot.

Sprung and Allen say the purpose of their book, titled "Luck—Adjusted," is to reveal various forms of trickery and try to show the amateur how helpless he is against experienced card-sharps.

The Sprung-Allen book describes a long list of sleight-of-hand tricks, including old fashioned card-up-sleeve devices, and illustrates them with photographs.

IT DEMONSTRATES how the backs of cards can be "read" by crooks through scores of marking methods—some as subtle as the delicate nick of a fingernail on the edge of a card.

One gambler even used the sun to mark his cards—by putting

them outdoors for varying degrees of bleaching.

Sprung and Allen warn particularly against two kinds of cards in common use in Europe, the "Scotch" and the "Lightning," so named because their backs are decorated with Scotch tartans and lightning flashes. These types are more easily tampered with than most, they claim.

THE BOOK ALSO describes a number of gambling gadgets the inspector and the magician encountered during the years they prowled gaming haunts in search of evidence. One pipe-smoking crook had a tiny mirror built into his pipe, for instance. Colored spectacles have been put to many shady purposes.

Sprung and Allen say that of all crooked gaming practices, the hardest to detect and beat are signals. A cigarette that droops from one corner of a player's mouth may signal spades. A casual pluck at a kibitzer's lapel could mean the ace of hearts. A finger bent a certain way might mean anything its owner intended it to.

"Gamblers ring an infinity of changes on the language of signals," Sprung said. "And if they are good at their game, there is absolutely no way to detect them."

## POGO

## By WALT KELLY

**ARRANGEMENT** of the receivers for the stereophonic sound broadcast over KSAC tomorrow afternoon is shown above. Simultaneous recordings of a portion of the symphonic band's concert were made last Sunday and will be played on the Engineer show tomorrow.

## College Radio Stations Team Up To Give 3-D Broadcast

Radio listeners in the Manhattan area will have an opportunity to hear the College symphonic band in a stereophonic sound demonstration tomorrow afternoon at 5:15 on the K-State Engineer program.

A portion of the Band's "Pops" concert was recorded Sunday with microphones placed on either side of the Band. One of the recordings will be played over KSAC, while the other will be played simultaneously over the student training station, KSDB-FM.

If the sets are tuned equally, the listener will get the feeling that the sound is covering a wide area—much as would be the case were the Band in the same room with the listener.

The program is the fourth in a series on sound which the K-State Engineer has sponsored. A stereophonic sound program was also produced last week, with the engineers demonstrating use of the process to give the effect of a passing band.

## Campus Boasts Many Kinds of Trees, Shrubs

By ROYANNE McMULLEN

There are 190 different species and varieties of trees and 300 different species and varieties of shrubs on the K-State campus, according to the records kept by Prof. Leon R. Quinlan of the horticulture department.

These trees and shrubs were not found here when the College was built. They have all been planted except for a very few.

The campus was originally a farm. The only trees growing here were the red cedars between the Eisenhower hall and Anderson hall, the two locust trees in front of Willard, the big elms north of the Cafeteria, and the Pin oaks near the Vattier entrance.

NOW K-STATE is considered an arboretum (tree garden) or park for growing trees. The unusual item about the arrangement of the trees on the campus is that they are planted informally instead of under formal planning.

The trees are grouped according to their types. For instance, there are groups of evergreens, elms, and oaks.

Prof. Ray A. Keen of the horticulture department said that besides the trees and shrubs native to Kansas, there are many unusual varieties on the campus.

**NORTH OF** the President's home is a Chinese scholar tree that is the biggest west of the Mississippi. Its circumference equals 12 feet while the average circumference of this tree in other places is 3 to 4 feet.

Along the path to Aggieville are found the ginkgo trees. These are called living fossils because they are the last of their kind. Temple court yards in Japan are the only source of these trees, and they do not grow wild in any place.

Kansas, according to Professor Keen, is the only state in the United States that does not have a native pine. Here on the campus 18 different pines have been introduced and grown.

**TREES FROM** all over the world are planted here. Some are from England, Scotland, Austria, Norway, Russia, China, Holland, Korea, and Manchuria.

Very little care is needed to keep the trees on the campus growing. Professor Keen said the tulip tree across from Holton hall and the wild cherry tree by the President's home have probably received the most attention and care.

## New Products, Ideas Usher In Springtime

New York, May 12 (U.P.)—New products and novel ideas to make life happier are bustin' out all over this spring.

They've opened a hair reviving center for men here and somebody announced a new window flower box that won't warp, crack or peel.

**A HOUSEHOLD** spray just out (by the way, there is no connection between any of these developments, so far as this writer knows) is said to retard soil on the furnishings, and a foundation garment company is making girdles and brassiers that somehow have "a secret sanitizing process" built in.

Brides can trade in the old family silver to apply on the payments for a new set, and little boys just got a go ahead to play with dolls from a psychologist hired by a toy company.

**ALL IN ALL**, there are signs that this past winter was a busy one. Women soon will be able to buy a new eye makeup reported to impart "the gentle-eyed kitten-of-the-Nile look." And the convention of cosmetic chemists hold a panel discussion tomorrow on wrinkles—so anything could happen before another winter.

While wives adopt the kitten-of-the-Nile look, husbands may just possibly come home with a cat-who-swallowed-canary expression—if their hair revival spreads.

**THEY TURN** a man's hair back to its boyish shade, or as they tell the timid ones at the new Gourelli Men's Hair center, they "work the natural color back into graying hair with such skill and discretion that years disappear without telling how."

Women don't like to tell how, either.

## Student Recital Monday Night

Fifteen students will present an advanced student recital Monday at 8 p.m. in the College Auditorium. The department of music is sponsoring the recital.

The students who will participate in the recital are: Jerry Weaver, Ar04, pianist; Jane Compton, ChW Sr, pianist; Nancy Leavengood, graduate student in music, pianist; Sandra Smerchek, MEI Fr, cellist; Royce Johnson, MGS, baritone.

Kent Smith, tenor; Nancy Blackburn, MEI Soph, organist; Carol Snodgrass, ME Soph, violinist; Joann White, MGS Soph, pianist; Georgiana Rundle, MAV Fr, soprano; Rachel Pickett, MEI Fr, pianist; Karen Peterson, MGS Fr, pianist.

Marcia Grockett, MEI Fr, violinist; Beverly Miller, Mus Fr, violinist; and Ross Miller, MEI Fr, flutist.

## Dames Club Elects Officers

Helen Pollart has been elected president of the Dames club for the fall semester, Marilyn Webb, retiring president, said.

Other officers elected were: Betty Kruger, vice president; Margaret Machmeister, treasurer; Betty Gillam, secretary; and Winona Marsh, club hostess.

## Shafer Heads Radio-TV Club

Beth Shafer, Sp Jr, was recently elected president of Alpha Epsilon Rho, national radio-TV honorary. Other officers are Harry Shank, Sp Soph, vice-president, and Jeanie Hunter, Sp Jr, secretary-treasurer. New members of the honorary are Dave Schneider, Sp Sr; Harry Shank, Sp Soph; Dan Hurley, Sp Gr; and Merton Melvain, Sp Gr.

## Bee Activity Demonstrated In New Fairchild Exhibit

By KITTY OSWALD

Live bees now inhabit Fairchild hall. On the second floor of the museum a demonstration beehive has been set up by Dell Gates, extension specialist in the entomology department.

These bees live in a glass window case and have access to the outdoors. So far they have not collected enough of their own honey to survive, so are supplied with honey produced by other bees last season.

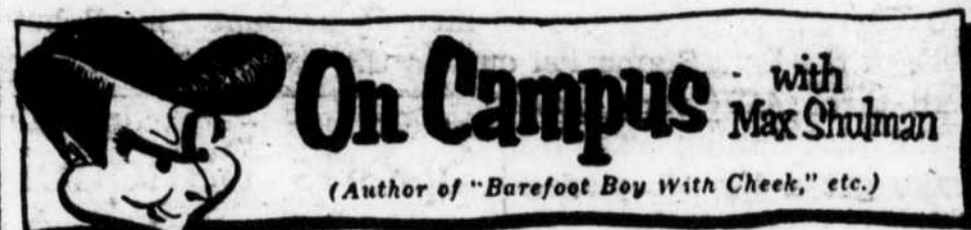

Several new exhibits have been added to the museum during the past two years. Dr. Donald Ameel, head of the zoology department, reported.

An evolution-of-man display on second floor will interest many anthropology students. Prof. Charles Lockhart set up this com-

mercial exhibit. Professor Lockhart is also responsible for an exhibit of shells from the South Pacific.

Animal skulls may be viewed in the floor cabinets on first floor. Dr. Earl Herrick has arranged this display and is now making arrangements for a collection of African game animal heads to be exhibited.

Several other displays have recently been set up. Among these is a display on Kansas fishes by Dr. Robert Moorman.

## SUMMER IS ICUMEN IN

*Sumer is icumen in;  
Lhude sing cuccu!*

Thus, as every schoolboy knows, begins T. S. Eliot's immortal *Hiawatha*. And no wonder "The Boy Orator of the Platte" (as T. S. Eliot is commonly called) was moved to pen such light-hearted lines! For summer (or the "vernal equinox" as it is frequently referred to) is the happiest season of the year, mild and balmy and contented-making.

Which brings us, of course, to Philip Morris Cigarettes. They, too, are mild and balmy and contented-making. But that is not all. They are also genial, placid, and amiable. But that is still not all. They are, moreover, smooth, pacific, and lenient. But hold! There is more. They are, in addition, tranquillizing, clement, and dulcet.

Indeed the list could go on and on, until every adjective is exhausted that would describe the mildness of Philip Morris, the subtlety of their blending, the delicacy of their flavor. What more perfect companion could be found to a summer's day? What more apt complement to a summer's night?

If you have been pleased with Philip Morris through the winter and spring—as who has not who has a taste bud left in his head?—you will find your pleasure compounded, your enjoyment trebled, when you smoke Philip Morris in the warm and joyous months before you.

My own plans for the summer (except that I will smoke Philip Morris through all my waking hours) are still vague. I have been invited to attend a writers conference, but I don't think I'll accept. I've been attending writers conferences for years, and I always have a perfectly rotten time. The trouble is that Alexandre Dumas and Harriet Beecher Stowe are always there. Not that I have anything against these two swell kids; it's just that it breaks my heart to see them. They're so in love—so terribly devoted and so hopelessly! Dumas will never divorce Jane Eyre while she is with Peary at the North Pole, and Miss Stowe has long since despaired of getting her release from the Pittsburgh Pirates. So hand in hand, brave and forlorn, they go from writers conference to writers conference while Dumas works on his monumental *Stover at Yale*.

No, thank you, I'll do without writers conferences this summer. I think instead I'll try to improve my fishing. As Izaak Walton once said, "No man is born an artist or an angler." I often turn to the works of Walton (or "The Fordham Flash" as he is familiarly called) when I am searching for a choice aphorism. In fact, I told him so when we met some years ago at a writers conference. Walton was accompanied, as always, by Henrik Ibsen (or "The Pearl of the Pacific" as he is known as). They—Ibsen ("The Pearl of the Pacific") and Walton ("The Fordham Flash")—were collaborating on *Mister Roberts* at the time, but they fell to quarreling and abandoned the project and the world, as a consequence, was deprived of a truly robust and entertaining comedy.

It is not uncommon, I must say, for writers to fall into dispute. They are, after all, a sensitive and high-strung lot. I'll never forget what William Makepeace Thackeray (or "The Body" as he was universally called) once said to me. "You show me a good writer," said Thackeray, "and I'll steal his wife."

Well, as I was saying, I think I'll give writers conferences a miss this summer, and I recommend that you do the same. Why don't you just take it easy? Swim and fish and sail and smoke and read and sleep and tan your lithe young limbs. I want the best for you because—if I may get a little misty in this, my final column of the year—I think you should know that it's been real kicks for me, delivering this nonsense to you each week.

And in conclusion let me state what Jane Austen (or "Old 54-40 or Fight" as she is called the world over) once said to me. "Nothing is so precious as friendship," she said, "and the richest man in the world is the one with the most money."

## AGR's Win Frat Crown, Beat Beta Sigma Psi, 3-1

Alpha Gamma Rho won the fraternity title in intramural softball yesterday by beating Beta Sigma Psi, 3-1, as Fred Wingert pitched a one-hit game.

Wingert also struck out 12 men to account for all but three of the Beta Sigma Psi outs in the five-inning game.

All three AGR runs came in the first inning as Mark Drake got a hit off pitcher Dick Froberg of Beta Sigma Psi. Larry McGhee reached first on an error, and pitcher Wingert bunted safely to load the bases.

John Schlesener then hit a double to centerfield to score Drake and McGhee. Wingert scored the third AGR run on Tom Heinz's single.

Beta Sigma Psi's run came in the fourth inning when Don Lavrentz tripled with a runner on first base.

## Slugger Hopes He's Whipped Temperament

Milwaukee, Wis. (U.P.)—Eddie Mathews, Peck's bad boy turned good, said today he hoped his temperament was behind him.

"I've been trying hard," Mathews said. "I hope I have changed for the better. I'm trying hard not to be temperamental."

EDDIE, the National League home-run king in 1953 who was up with the leaders last year, had his troubles keeping his feet on the ground for a while. A standard joke around Milwaukee became "Mathews fell out of a hotel but never hit the ground."

He wound up in the arms of the law and on the front page of a local newspaper last summer after a bit of fast nocturnal driving.

NOT NOW, says Eddie, who has been a husband since last summer and is soon to be a father.

"I think the family life helped a lot," Mathews said. "It gave me something to occupy my time. We bought a home in Brookfield. It keeps you busy putting around the house."

A year ago a picture of Mathews "putting around the house" would have seemed as remote as one of manager Charlie Grimm crocheting.

MATHEWS was dogged with a slump during the Braves' recent road trip, and said he still wasn't out of it despite a single and home run against St. Louis last Sunday.

"I'm not worried about it," Mathews said. "I think I'll do as good as last year . . . as soon as it gets hot . . . in August. They haven't been giving me much to swing at."

## Sports Banquet Fetes Wildcats On Six Teams

More than 90 K-State athletes from six varsity sports were honored last night at the spring sports banquet.

Only lettermen announced at the annual affair were three gymnasts. Gym coach Frank Thompson named Wendell Holt, Wendell Minckley, and Dale Misak to receive letters.

HOLT RECEIVED the high-point trophy for best showing during the past season, Minckley was named most inspirational gymnast, and Misak was named next season's gym captain.

Roland Alexander was voted most outstanding Wildcat wrestler by his teammates, and received a gold trophy. Alexander, a junior, had a 10-3 record the past season, and placed second in Big Seven competition.

KEN SPICHER, senior wrestler, was elected honorary captain of the 1954-55 Wildcat mat team; Gary Haller was named freshman team captain.

## Schoolboy Dashman Equals Owens' Mark

Dallas (U.P.)—A thin Texas schoolboy who's run circles around his collegiate contemporaries in the 440-yard dash this spring is really a hurdler at heart and has a 400-meter hurdles berth on the U.S. Olympic team next year as his goal.

He is 17-year-old Eddie Southern, a Dallas high senior who twice last week end lowered the national interscholastic 440-yard dash record and equalled Jesse Owens' 22-year-old 220-yard dash mark.

But, his 47.4 and 47.2 records on successive days in the 440, and his 20.7 220-yard dash left him a bit disappointed even though they bested anything the collegians had posted this season.

He had his heart set on breaking the high hurdles state and national record of 14 seconds flat.

# Jim Hearn's Comeback Makes Durocher Happy

By UNITED PRESS

Leo Durocher was happy today to admit he was all wrong, because Jim Hearn is making things all right for the New York Giants.

"I handled him wrong last season," the Giants' manager said. "I lost confidence in him, but I promised I wouldn't do it again this year."

Hearn, who won only eight games in 1954, paid another dividend on Durocher's new policy last night when he pitched the Giants to a 6-3 decision over the Cincinnati Redlegs.

IN A FEW short weeks he has made the full turn—from the No. 1 disappointment of last season to the team's No. 1 pitcher this year.

It was the third-straight victory for the steadily improving Giants, and was especially heartening because the Chicago Cubs snapped the runaway Brooklyn Dodgers' 11-game winning streak with a 10-8 win a few hours before the world champions took the field in Cincinnati.

The Giants still are 8½ games behind Brooklyn, but they served notice on the Dodgers that even

an occasional slip will be penalized.

The Dodgers' streak—longest of the season—ended when Ernie Banks hit a grand-slam homer and Dee Fondy homered with two on for the Cubs.

The Dodgers fought to catch up with a 14-hit attack including

## Secretary Has Seen Many Changes in Cat Athletics

By JOHNNY SALISBURY

Athletic facilities and the athletic program have changed considerably at K-State since Mrs. Bessie Norcross began her career as secretary here 26 years ago.

Mrs. Norcross, who began as a secretary in "dear old Nichols" for the physical education department, worked with the football coaches when she first came to K-State.

SHE SAYS the players now are different than they were then. The main difference is the athletic scholarships, she adds. The players used to report for football drills because they loved to play, she said.

"When the offices were in Nichols, I knew a lot of the players personally, because they would come in to see the coach," she said.

HAVING THE offices in Ahearn gym has its advantages though, she said. When she first went to work for the college the facilities were adequate, but the athletic program kept growing and the need for more and better facilities became greater, she pointed out.

"Moving from Nichols to the new offices was like moving to heaven," she said. The last few years in Nichols were pretty crowded ones, she said. "Everyone had a desk, but the desks were sure close together."

Mrs. Norcross names one of her

big thrills as "pinch hitting" for Lynn Waldorf's secretary. "I was quite impressed by him," she said. Waldorf spent one year at K-State and produced the Big Seven championship football team of 1934.

"THIS IS one of the bad things about the coaching profession," she said. "I just get used to their way of doing things and they leave."

Bill Meek gets Mrs. Norcross' vote for "most impressive coach." She said that Meek was always immaculate, precise, and a perfect gentleman.

# Wildcat Netmen, Golfers Defeat Jayhawk Teams

## Tennis Team Edges KU, 4-3

The Wildcat tennis team edged Kansas university's netmen, 4-3, on the local courts yesterday to even its season record at five wins and five losses.

John Teas and Bob Hansen won the final doubles match for K-State to edge out the Hawks.

This was the second consecutive win for the K-Staters, who blasted Nebraska, 7-0, Monday.

The complete results:

Bob Riley, KU, defeated Bob Hansen, KS, 9-7, 6-0.

Dick Circle, KS, defeated Dave Kane, KU, 6-4, 10-8.

John Deam, KS, defeated Don Franklin, KU, 6-2, 6-4.

Del Hadley, KU, defeated Don Wainscott, KS, 3-6, 6-1, 8-6.

John Teas, KS, defeated Bruce Wenger, KU, 6-2, 3-6, 8-6.

Riley-Kane, KU, defeated Circle-Deam, KS, 6-2, 6-1.

Hansen-Teas, KS, defeated Franklin-Hadley, KU, 6-1, 3-6, 6-3.

## Axe Swings In Majors

By UNITED PRESS

The axe swung throughout the big leagues—and it hit a lot of guys hard.

Enos Slaughter, dealt to Kansas City by the Yankees, swallowed a lump in his throat and mumbled, "I never had much of a chance."

Southpaw Hal Newhouser, released outright by Cleveland, tried to take the news nonchalantly but didn't quite make it as he said, "I know I can still help some club."

Catcher Mickey Grasso, handed his release by the Giants, didn't know where to turn. "This is the first time I've ever been released in my life," he said.

All this took place Wednesday when the clubs feverishly pared their rosters to get down to the required 25-player limit by midnight.

"I hate to send anyone out," Yankee manager Casey Stengel said, frowning. "It's tough on everyone concerned."

## Cockell's Corner Asks Ban On Blood-Stopping Drugs

San Francisco (U.P.)—A possible row over the use of blood-stopping drugs by heavyweight champion Rocky Marciano shaped up yesterday when Don Cockell's manager said he would demand they be banned in next Monday's title fight at Kezar stadium.

Teddy Waltham, the general secretary of the British Boxing Board of Control, also moved into the picture on behalf of Cockell by asking a strict check on rough-house tactics by Marciano.

JOHN SIMPSON raised the issue on the use of the blood-stopping drug, called Monsell's Solution, by Marciano's handlers.

Marciano, who bleeds easily and who has scar tissue over both eyes plus a damaged nose, has needed applications of drugs to stop the flow from cuts in previous fights.

Simpson asked that the California Boxing commission make certain Marciano's handlers do not use the drug on any cuts Monday. It is banned in many states because of the danger of infection. Dr. Don Lastreto, a commission physician, said it was not forbidden in California.

HOWEVER, Willie Ritchie, former lightweight champion who is the commission's chief inspector for the northern district of the state, said the drug was forbidden. Waltham, who is helping look

JOHN TEAS won his singles match in the KU meet yesterday, then teamed with Bob Hansen to win a doubles match as K-State won, 4-3.

## K-State Golfers Win 2d Straight

An 8-4 win over Kansas university on the Manhattan Country Club course yesterday gave the K-State golf team its second consecutive win.

The K-Staters, after getting off to a slow start with nine losses and a tie, have come back strong in their latest two matches to beat Missouri and KU.

Kent Poore tied with Bob Richards, KU's No. 1 man, for low score in the meet. Both men shot 73's.

Richards' 73 was good for a 3-0 win over Dave Pfuette of K-State, who shot a 78.

Poore's 73 gave him a 3-0 win over Pete Rush of KU, who also carded a 78.

Hayes Walker of K-State shot a 76 to edge Noel Rooney's 77 and win his match, 2-1.

Jim Weatherford of K-State defeated Mark Neuder of KU, 3-0, outshooting Neuder 75 to 83.

## IM Track Meet Is Postponed

Finals in five intramural track events scheduled for 4:15 this afternoon in Memorial stadium have been postponed until Monday at 4:15 because of rain.

Sigma Alpha Epsilon and the Hillbillies lead in their respective divisions with the track meet half completed. Finals in the 880-yard run, high jump, pole vault, 440-yard relays, and 880-yard relays were run last Saturday.

Finals Monday will include the 100-yard dash, 110-yard low hurdles, shot put, broad jump, and 440-yard dash.

## Particular People

Birmingham, Ala. (U.P.)—Fant H. Thornley, director of the Birmingham Public Library, says television has actually stimulated interest in reading. The combined city and county circulation for the year ended August 30 was 1,524,096, largest circulation since the depression year of 1933 when "many persons did not have anything to do but read."

## Reiser Taking Chance Again On Baseball

Atlanta (U.P.)—Pete Reiser, whose only fault was that he played the game too hard, is taking one more chance on baseball, a chance he figures can make or break him—or even kill him.

Reiser, who sparked the Brooklyn Dodgers during the 1940's, is coming back as a bush-league manager. As a manager, Reiser could heal his scars. The dizzy spells that recall that moment in 1947 when he hit the wall in Brooklyn could be forgotten.

REISER still seems to want to play the game too hard. The 35-year-old veteran thinks perhaps he should be a playing-manager because the "fans want it"—even though he knows it would be best to stay off the field.

"I know I'd be better off to stay out of the games," said the new manager of the Thomasville (Ga.) Dodgers, "and I know that one more blow on the head might finish me."

"BUT STILL there are a lot of fans down there who would like to see me play a bit, even as a pinch hitter. I'm going to stay on the active list until I have to make my cuts, and I should know what I will want to do by then."

Only a few hours before he spoke, Reiser had made his first appearance as a pinch hitter, and he was hit by a pitched ball. He was hit on the knee, luckily. A high one could have ended his new career.

# K-State, KU Hope To Escape Cellar

By MYRON SEIRER

A battle to help decide the cellar team in Big Seven baseball for the current season will develop here Friday and Saturday when KU moves in to do battle with the Wildcat baseball team.

KU won its first conference game, 11-10, Tuesday in the second game of a doubleheader with Colorado. Colorado had jumped into a 9-0 lead in the first four innings but could not hold the lead.

THE WILDCATS lost a two-game series to Missouri on Monday and Tuesday and now have a 1-7 mark. Daryl Parker was the losing pitcher in the first game as K-State was defeated 19-1. Jim Rhoades suffered his fourth setback of the season in the second game as Missouri took a 15-2 decision.

Jack Smith was leading hitter for K-State against Missouri with 3 hits in 6 times at bat.

LARRY HARTSHORN collected 3 hits in 8 times at bat. One of these was a home run that drove in both K-State runs in the second game.

Hartshorn entered the series with 7 hits in 19 trips to the plate for a .368 average. He now has 10 hits in 27 trips for .370.

Bob Whitehead, third-leading hitter for K-State going into the Missouri series, had a .353 average, but saw his average take a 45 point drop when he collected only 2 hits in 9 trips to the plate. He now stands at .308.

Steve Hennessey, second-rank-

ing K-State hitter going into the Missouri games, saw his average drop from .357 to .273 as he got only 1 hit in 8 trips to the plate.

Team standings:

	W	L	Pct.
Nebraska .....	6	2	.750
Oklahoma .....	3	1	.750
Iowa State .....	5	2	.714
Missouri .....	4	2	.667
Colorado .....	2	3	.400
Kansas .....	1	5	.167
Kansas State .....	1	7	.125

Friday's schedule—KU-K-State at Manhattan; Missouri-Nebraska at Lincoln; Oklahoma-Iowa State at Ames.

Saturday's schedule—KU-K-State at Manhattan; Missouri-Nebraska at Lincoln; Oklahoma-Iowa State at Ames.

## Athletics' Portocarrero Placed on Disabled List

Baltimore, Md. (U.P.)—Arnold Portocarrero, 23-year-old Kansas City Athletics pitcher, has been placed on the 30-day disabled list because of a torn muscle in his right arm. The injury was discovered by Dr. George Bennett at Johns Hopkins hospital.

Portocarrero, who had a 9-19 won-lost record in 1954, has lost three games this year without a victory.

# Three Sorority Formals Highlight Social Calendar

KANSAS STATE COLLEGIAN  
Thursday, May 12, 1955-6

## Parties

The Clovia spring semi-formal was May 7 at the Wareham Sunflower room. In the receiving line were Jeanice Blauer, Lenoard and Mrs. H. H. Haymaker.

Delta Delta Delta held its annual spring formal May 6 with a banquet at the Wareham hotel followed by a dance at Pottorf hall. Dream garden was the theme. In the receiving line were Jan Hipple, Ron Nery, Mrs. Huntington, Mr. and Mrs. Robert Walderstedt, and Mr. and Mrs. Charles Goetzinger.

Members of Kappa Kappa Gamma will entertain their dates and guests at their annual spring formal banquet and dance at the country club Friday night, May 13.

The members of Pi Kappa Alpha will be hosts at a beach-comber party and rush week end Saturday, May 14. A picnic will be followed by a dance.

A picnic for Kappa Kappa Gamma members and their dates was held Sunday night, May 9 at the bottom of the top of the world.

## Wedding Dates

### Holling-Nichols

The wedding date of Naomi Holling and Warren Nichols was recently announced at Southeast hall and at the Alpha Gamma Rho house. They will be married on June 12 at the Evangelical United Brethren church in Alton. Naomi is a freshman in home economics and teaching from Alton. Warren is a member of Alpha Gamma Rho fraternity. He is a freshman in veterinary medicine and is from Alton.

### Sebolt-Kirtton

Marlena Sebolt recently announced her wedding date at Southeast hall and the Alpha Gamma Rho house. She will be married to Kenneth T. Kirtton of La Harpe on July 23 at the First Christian church in Independence, Mo. Marlena is a freshman in institutional management and is from Independence. Kenneth, a member of Alpha Gamma Rho, is a sophomore in dairy husbandry.

## Engagements

### Enegren-Jewett

The engagement of Mildred Ruth Enegren and Melvin D. Jewett has been announced. Mildred is a sophomore in biological science from Conway Springs. Melvin is a junior in architectural engineering from Halstead.

### Olson-McIntosh

The engagement of Janice Olson, EEd Sr from Manhattan, and Merlin McIntosh, CE Soph from Rochester, N.Y., was announced Wednesday, May 4. Chocolates were passed at the Kappa Kappa Gamma house and cigars at the Beta Sigma Psi house.

## Pinning

### Bras-Ott

Jane Bras announced her pinning to Jay Ott at the Tri-Delt formal dinner at the Wareham hotel on May 6. Jane is a freshman in elementary education and is from Kansas City, Mo. Jay is a junior in pre-law at Kansas university. He is a member of Sigma Nu fraternity.

## Rush Weekend

The Phi Delta Thetas held rush activities last week end. Twenty rushes attended.

## Special Dinners

One hundred and fifteen attended the Parents' Day at the

Kappa Delta sorority Sunday, May, 8.

Tau Kappa Epsilon held their parents' day Sunday, May 8 with 134 guests.

Delta Tau Delta fraternity held their Mothers' day dinner Sunday, May 8.

One hundred and twenty-six persons attended the Pi Kappa Alpha mothers day dinner Sunday May 8, at the chapter house.

Parents' day was held at the Alpha Gamma Rho house Sunday May 8. There were 120 guests.

## Initiation

Formal initiation was held at the Sigma Phi Epsilon house Sunday, May 8, for Bob Sears, Duane Carter, Joe Fife, Doug Roether, and E. J. Lindahl. Following initiation the fraternity members attended the Presbyterian church. Sunday night the pledge fathers of the new initiates treated them to a steak dinner at Keck's.

## Officers

Beta Sigma Psi officers for the fall semester next year are Walter Dietz, president; Bob Rafferty, first vice-president; Dean Nehrig, second vice-president; Jerry Bennett, secretary; Art Kranz, treasurer; Jim Bowers, assistant treasurer.

LeRoy Luedders commissary; Maynard Esau, assistant commissary; Bernie Klover, athletic manager; Elmer Karstensen, historian; Ken Flagler, social chairman; Leon Fick, song leader; Fred Saenger, rush chairman; Les Olsen, corresponding secretary; Don Kozisek, alumni chairman; Clark Borth, scholarship chairman; Frand Ahrens and Wally Schmid, I.F.C. representative; and Terry Bruce, chaplain.

Newly elected officers of Sigma Alpha Epsilon are Bill Sinderson, president; Jim Graves, scholarship chairman; Ed Macklin, pledge trainer; Mike Stout, secretary; Paul Fraser, correspondent; Jack Kiddoo, chaplin.

## Guests

Week-end guests at the Beta Sigma Psi house were Terry Kennedy and Helmer Junghans, Junction City, and Raymond Meyer, Girard.

Clovia guests May 7 and 8 were Nancy West, Atwood; Donna Childs, Colby; Margaret Mayes,

Wichita; and Maxine Waite, Winfield.

R. M. Sears of Topeka was a dinner guest at the Sigma Phi Epsilon house May 6.

Jerry Furgeson from Wichita was a guest at the Sigma Phi Epsilon house May 7 and 8.

Dinner guests of Delta Delta Delta May 8 were Mrs. Kenneth Chappell, Mrs. Harry Kugler, and Mrs. W. D. Cowen from Manhattan, and Mrs. Thelma Roberts of Wichita.

Guests of Delta Delta Delta May 7 and 8 were Carolyn Eby from Wichita, Susan Schober, Carolyn Morford, and Cathy Schulteis of Topeka, and LuAnn Sheldon from Kaney.

Guests at Southeast hall May 6 through 8 were Nancy McElderly, Sara Jo Pursley, Karen McAuley, Mrs. Virginia Bodelser, Nella Byran, Naomi Flipse, Deanne Murray, and Janet Schiefer.

Noema Braman of El Dorado was a guest May 6 through 8 at the Alpha Chi Omega house.

Mr. and Mrs. John A. Mentgen, Marysville, and Mr. and Mrs. Frank Ludwig and Frankie, Topeka, were Sunday dinner guests at Van Zile Hall May 8.

Sunday dinner guests at the Phi Kappa house were Mr. and Mrs. Jack Dolphin and their four children. Mrs. Dolphin is the daughter of the Phi Kappa house-mother, Mrs. W. F. Theisen.

Guests at the Alpha Xi Delta house the weekend of May 7-8 were Mrs. Janis Jackson Ferguson and Nathalie Nickelson from Wichita; and Frankie Morris from Coldwater.

## Exchanges

The Kappa Delta sorority and the Theta Xi fraternity will have an exchange picnic and softball game May 12 at Sunset park.

The members of Theta Xi and Tau Kappa Epsilon will hold an exchange picnic Tuesday, May 10, at Sunset park.

## Dinner Guest

The Phi Delta Thetas held their senior dinner Wednesday night, May 11. Dean Merrill Durland was a guest at the dinner. Seniors honored were: Bob Clarke, Darrel Dean Lowell, Bob Featherston, and Dick Waugh.

# Campus Briefs

**AWARDS TO** winners in the dairy products judging contest held Saturday will be presented at Dairy club meeting today at 7:30 p.m. in WA244, William Bergman, contest chairman, said.

**DR. W. LOEGERING**, a pathologist from Washington, visited the botany department Monday to consult with Dr. W. Haskett and C. O. Johnston concerning the work being done on cereal rust at K-State.

Loeering is in charge of cereal rusts in the division of cereal crops, bureau of plant industry, U.S. Department of Agriculture, Beltsville, Maryland.

**WILLIAM CATHCART**, K-State agricultural economist, is conducting a student marketing class field trip to Kansas City today.

**DR. G. B. MARION** of the dairy husbandry department is judging Brown Swiss Spring cattle shows. He was in Dodge City Monday and is in Wellington today. He will go to Fredonia on

Wednesday and to Topeka, Thursday.

**FORMER K-STATE** students, A3c Nathaniel L. Quick, was recently named Airman of the Month of the 3585th Flying Training squadron at Gary Air Force base at San Marcos, Texas.

Quick attended K-State last year and enlisted in the air force last July.

**JACK NORTHAM** of the department of mathematics and the statistical laboratory, has received a fellowship in business sponsored by the Foundation for Economic Education. He will spend six weeks this summer with the Kansas City Life Insurance company.

**PROBLEMS OF** surface water storage in Kansas will be discussed by two Kansas State College civil engineers before the regular engineering experiment station luncheon Saturday noon in the College cafeteria.

Speakers will be V. H. Rosebraugh and W. F. Robohn.

# Foreigners Take to Bugs

Foreign students do not feel out of place in Prof. D. A. Wilbur's course in "Staple Crop Entomology."

The reason is not hard to discover. This spring, for example, 12 of the 16 students enrolled are from foreign lands. There are three from India, two each from

the Philippines, Hawaiian Islands, and Jordan, and single students from Nigeria, Pakistan, and Canada.

Though Wilbur always has a large number of foreign students in this class, this is the first time the enrollment has been predominately foreigners.

Oddly enough, most of the students are enrolled in such curriculums as botany and agronomy, and are taking the course to become better acquainted with entomological phases of their chosen work.

Wilbur's course is concerned primarily with use of cultural methods (plowing and cultivating) to control insects, as well as use of resistant varieties and a study of dates for planting, and other environment factors.

While use of chemicals is considered, it is not stressed since use of chemicals is limited for the principal staple crops—corn, wheat and other small grains, and alfalfa. Also, the use of chemical control is stressed in other courses.

# Navy Officer Plans Talks with Seniors

Seniors interested in being officers in the U.S. Navy will be given a chance to talk to a navy representative on the campus May 17, Chester E. Peters, director of placement, has announced.

Lt. (jg.) William F. Mauer will set up an office in the temporary Student Union on that day. Tom Hardy, graduate assistant at the placement bureau, is in charge of arrangements, and further information may be obtained from him or the bureau.

# Sabrejets Undamaged in Dogfight with Commies

Kunsan, Korea, May 12 (U.P.)—A 24-year-old American Sabrejet pilot said today he shot down one of the Communist Migs in the air battle off Korea Tuesday while another Red fighter was spitting bullets at him from behind.

The U.S. air force said altogether American Sabrejet pilots shot down two Migs and possibly four in the clash, thus raising its claim of Red planes "probably" destroyed. The Soviet-built fighters failed even to hit the American jets.

First Lt. Robert M. Donahue of Montgomery, Ala., told how he chased his Mig and kept shooting at it all the time another Mig was firing at him from his rear.

"I CONTINUED firing," Donahue said. "I saw an explosion on his wing and tail section and then a tail piece came off."

The other "Mig-killer," Capt. Robert J. Fulton, 30, of Bernardsville, N.J., told his story in a matter-of-fact terms.

"I picked up one Mig in my sight," he said, "and when I came into range I opened fire and scored it."

First Lt. James E. McInerney, Jr., 25, of Garden City, N.Y., left one Red plane hurtling toward the sea in smoke—rated by the air force as a probable kill.

"When the enemy flight poured

in on us I was No. 3 man," McInerney said. "They overshot us and I hit one with three separate bursts. I first saw smoke, part of the tail break off and then heavy blue smoke."

His wingman, 2nd Lt. Harold B. Petersen, 23, of Brooklyn, N.Y., then radioed that more Migs were approaching.

"WE SEPARATED and headed home," McInerney said.

First Lt. Burt C. Phythyon, 26, of Wadsworth, Ohio, saw one of the Mig pilots bail out of his bullet-riddled plane.

"I saw pieces falling off while smoke encompassed him," Phythyon said. "The Mig rolled to the left and the pilot tumbled out the tail."

Donahue circled two parachutes floating toward the sea after battle "to determine if they were ours."

"They weren't," he said.

The flight of eight U.S. Sabrejets encountered about 32 of the Migs but only 12 to 16 of the Red fighters actually attacked, the American fliers said.

Lt. Col. Robert E. Dawson, who led his 35th fighter-bomber squadron in the 8-minute dogfight, said "after the initial engagement 'he flight broke up into individual fights."

"After the hostile aircraft broke off and departed from the area, we likewise, although being capable of staying in the air, broke off the engagement."

DAWSON AND the other pilots denied Peiping radio's claims that three American Sabres were hit by Red gunfire. He also rejected the Red charge that the Sabrejets violated Red China's territory by flying over its islands.

"We were at no time over the islands," Dawson said, "although they were visible to the west of us."

He added that the Sabrejets never got closer than 15 miles from Communist territory.

The Americans saw no markings on the Migs nor did they determine the nationality of the Mig pilots. But Peiping radio said the planes were Chinese Communist.

## Grab Your Specs, Folks! It's Bird-Watching Time

By VIRVE ALTAU

Now is the time to obtain a pair of binoculars and go bird-watching!

The vireos, flycatchers, orioles, and tanagers (all species of birds) have arrived from the tropics. The warbler wave is due here any time, spelling the climax of spring migration.

"Warm south wind brings the brightly-colored little warblers up in clear nights. Their faint lisps and zips seem to fill the sky as they pass overhead in the dark," says Scott Searles, Jr., associate professor of chemistry.

"BLUEBIRDS came through in April. Some of them are nesting here now. The beautiful Baltimore orioles are already in, as well as the brilliant-colored painted buntings. Kingbirds have also come through."

The eastern kingbird loves to sit on telephone posts and fences, very erect, resembling a rather dignified gentleman in his evening suit and immaculate white vest. The western kingbird has a pastel colored ashy-gray head and breast, reddish-brown wings, and yellow belly.

"During migration peak," Dr. Searles explained, "you can see a variety of birds almost any time of the day, but they don't like to fly in hot weather. They like the sun, but not when it is too hot. The best time to go bird watching is one hour after sunrise. The birds are hungry and active then."

HE SAID birds are much more easily accessible and conspicuous than mammals who do their hunting at night. For instance, it is extremely difficult to see coyotes or moles who are in hiding during the day.

"For some people, observation of birds may be a tradition, a science, a hobby, or a bore," Dr. Searles said. "To me, it is a plea-

sure. It's fun to just see these beautiful little creatures, to notice all the fascinating detail and variation, to enjoy their graceful form and flight and song."

Christopher Columbus was America's first bird-watcher. President Eisenhower has found bird watching a good relief for tension. He is not the only military leader interested in birds. A British general in Germany was picked up in Berlin by the Russians as a suspicious character because he was wandering about looking into the trees with a pair of binoculars.

KINGS, presidents, prime ministers, generals, admirals, governors, senators, motion picture stars, and other glamorous and important persons have been interested in birds.

"Today so many people are taking to the out-of-doors that a man who does not watch birds or grow flowers, collect minerals, study the stars, or show a little interest in at least one of the natural sciences, is likely to feel uneasy about it and offer his excuses," Roger T. Peterson said in his book, "Birds Over America."

### Phys Ed Seniors Feted at Dinner

Twelve seniors majoring in women's physical education were honored at a dinner Tuesday at Keck's. They were Joyce Davisson, PEW Sr., Sally Davis, PEW Sr., Dorothy Erzen, PEW Sr., Marie Erzen, PEW Sr., Donna Lincoln, PEW Sr., Patricia Rogers, PEW Sr., Marilyn Rush, PEW Sr., Grace Schmidlein, PEW Sr., Shirley Smith, PEW Sr., Eugenia Sweedun, PEW Sr., Sandra Tatge, PEW Sr., and Becky Lowell, PEW Sr.

Installation of officers followed the dinner.

## Metal Craft Students Save By Making Own Jewelry

By ELLEN FLOTTMAN

Sterling silver pins that in a jewelry store would sell for \$12 or more apiece are being made in K-State classes for less than \$1.

Students in Metal Crafts under the directorship of Prof. Alice Geiger, design and make their own costume jewelry as a class project project.

### White House Says Mamie 'In Usual State of Health'

Washington, May 12 (U.P.)—Mrs. Mamie Eisenhower is completely recovered from her spring bout with the flu but she still is taking it easy on social activities.

Gen. Howard Snyder, White House physician, said today her condition is "about her usual state of health."

She and the President and her mother, Mrs. Elivera Doud, are planning to observe Mrs. Doud's 77th birthday Friday night at their Gettysburg, Pa., farm.

The White House said they probably will drive up when Mr. Eisenhower gets through with his cabinet meeting tomorrow, about noon. They probably will return to Washington Sunday evening.

Meanwhile, the President is continuing to fill some of his wife's social engagements. Today's calendar included the congressional club cotillion, a group of children of members of Congress who originally were scheduled to meet Mrs. Eisenhower.

The emphasis for these pieces is on design. During the project the students continue to work on the design. They can keep experimenting until they are completely satisfied with it.

Some students put semi-precious stones in their rings. Mary Alice Todd, HDA Sr., used twisted wire to mount a stone her grandfather had found in Colorado.

IN ADDITION to making a ring and pin, which are required projects, students make as many more items as time permits. Some art majors will finish four projects during the semester.

Peggy Williams, HDA Jr., chose for her third project to make a pair of cuff links to give her uncle. She said, "In this way I can give him something that he couldn't buy for himself."

The design she used in a flat, irregular shape with a raised and also irregular center. Earrings and tie pins are also made for advanced projects by the six girls enrolled this semester.

## Legislative Council Restores Power To Lt. Governor

Topeka, May 12 (U.P.)—The Kansas legislative council reversed itself on a decision made two years ago and restored yesterday to its chairman, the Lieutenant-Governor, power to make committee appointments.

Gov. Fred Hall, who was Lieutenant Governor when the power was withdrawn in 1953, commended the council. He said "it is an indication the council has decided to put factional policies aside and will work for harmony."

The power to name committee members was deprived Hall because of conflicts within the state's Republican party.

Committee appointments and the assignment of legislative proposals, another duty restored to the Lieutenant Governor were scheduled to take place in today's meeting.

Yesterday the council rejected further study on a move which would require all boards, commissions, and councils to hold open meetings. The council also discontinued a study of a plan to remove ad valorem taxes except when approved by a referendum.

Among the proposals considered was one which would encourage private investors by tax waivers to undertake slum clearance projects.

### Marketing Classes To Hear Salesman

Mr. S. J. Lyon, salesmanager of the Interstate Electronic Supply corporation of Wichita, will speak to the marketing classes today at 4 p.m. in J15. Mr. Lyon will talk on the marketing operations of an electronic supply company.

The talk is one of a series and any interested persons are welcome to visit the lecture. The last lecture of the series will be next Thursday at 4 p.m.

# 'Operation Gyroscope' Expected To Increase Housing Problems

By CLAYTON HERMAN

K-State married students, faculty, and Fort Riley soldiers will be competing for housing in Manhattan this fall when "Operation Gyroscope" sends the Tenth Infantry division to Germany and rotates the First Infantry division to Fort Riley.

Army personnel from Germany are expected to arrive at Fort Riley in three contingents, beginning July 24, according to Lud Fiser, chamber of commerce secretary. Between 400 and 700 soldiers are expected on that date and an equal number every fifth day for the next 30 days.

**TWO LATER** movements are planned, to complete the operation by December 1. Army representatives will notify the Manhattan chamber of commerce 30 days in advance of shipments, giving number of personnel and dependents. With this information, arrangements may be made to provide housing, Fiser said.

The Army expects approximately 1,200 off-post dwellings will be needed by married soldiers. Fiser said Junction City and other communities surrounding Fort Riley will furnish liv-

ing accommodations, not leaving the total burden upon Manhattan.

Reports indicate about one thousand soldiers with families are now living in Manhattan. About 350 families are expected to be shipped to Germany, according to Army plans.

**A RECENT** survey shows that more than 900 College faculty and students with families live in Manhattan dwellings. Thornton Edwards, College housing director, said it is impossible to tell how many housing accommodations will be needed this fall. "A decrease is not expected," he said.

Fiser said emergency plans are to set up a housing bureau to work with the Army to provide housing for married personnel. Citizens are being encouraged to invest in house building programs. "The biggest problem," he said, "is to provide units that will accommodate children."

A housing development, to be administered by the College, is being planned. Completion of the project depends upon finance and other building needs of the College, Edwards said. At present, the College provides 288

apartments and 82 trailerhouse lots for married students.

**HE ADVISES** students who will need housing this fall to register in the housing office before leaving on vacation. When Army personnel start moving in at a rapid rate, students will be notified. It may be necessary for students to rent apartments a month or more in advance to be assured of living quarters in September, he said.

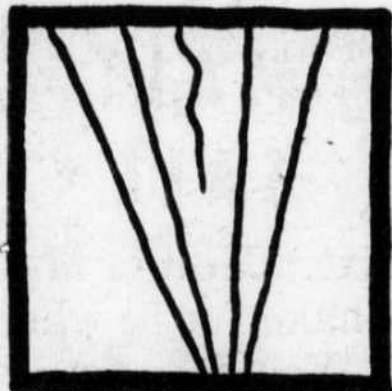

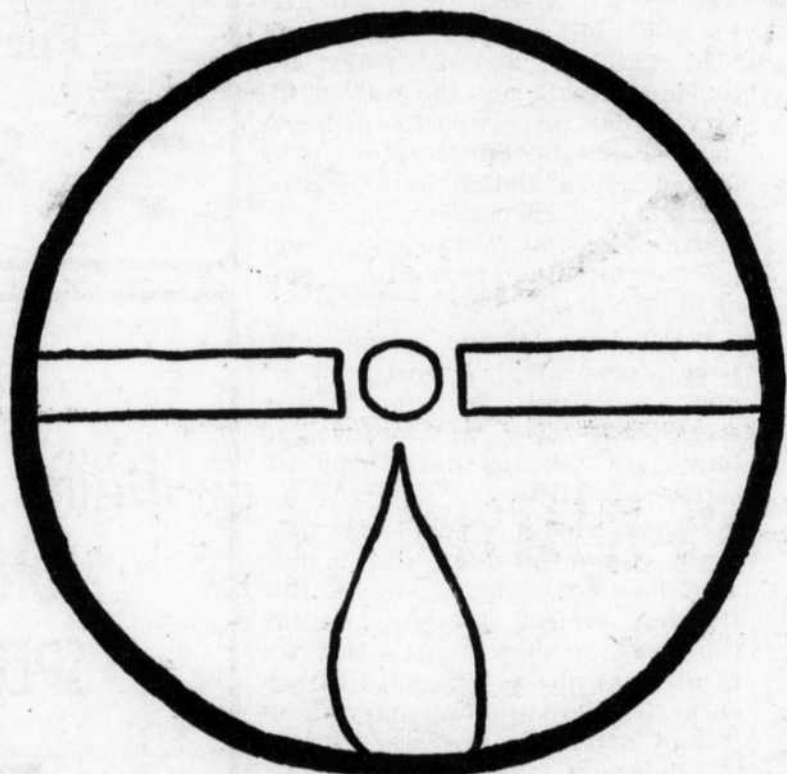

Edwards said if the housing shortage becomes critical, it is possible for married students to rent a room, and eat out, until apartments become available. "We plan to do everything possible to supply living quarters for married students," he said.

Fiser praised Operation Gyroscope as a means of eliminating housing shortages. "If soldiers know they will be stationed in one place for a number of years, they will be encouraged to build homes."

"When transfers are made, a house will probably be sold or rented to a soldier's replacement. This will relieve cities near Army posts of a problem of supplying housing for married soldiers," he said.

Kansas State College, Manhattan, Kansas, Friday, May 13, 1955

NUMBER 142

## Harman Is President Of Alumni

Richard J. (Rick) Harman, All-American cage star, is the newly-elected president of the K-State Alumni association, Kenney L. Ford, alumni secretary, announced today.

Harman, a 1950 graduate, now is manager of the Myron Green Cafeteria of Kansas City, Mo. He and the other new officers, who were elected by mail ballot, will be installed at the Alumni association's annual meeting May 28.

Elected to the board of directors were Mrs. Donna Duckwall Brainard, Abilene; Walter C. Peirce Jr., Hutchinson; Patricia Ann Beezley, Topeka; Floyd E. Ricker, Garden City; and Merrill H. Werts, Topeka.

R. M. (Susie) Sears of Topeka is the retiring president.

## B-29 Display To Be Shown By Air Force

An air force B-29 Superfortress medium bomber will be displayed in or near the Manhattan city park Saturday and Sunday.

The big plane's visit to Manhattan will usher in Armed Forces day, to be observed throughout the country on Saturday, May 21. It will be sponsored by the United States air force in co-operation with the air force ROTC unit and the Manhattan Chamber of Commerce, Air Reserve unit and Civil Air Patrol.

STRIPPED OF its wings, engines and tail assembly for highway travel, the Superfort's 99-foot-long fuselage has been mounted on two trailers and further modified so spectators can enter and inspect its interior.

Visitors walking through the B-29 will see the once-secret World War II Norden bombsight; the pilot, co-pilot and other crew positions; control equipment which aim and fire the plane's 12 .50 caliber machineguns by remote control, and dummy bombs in the bomb bays.

This special air force display was modified by technicians of the USAF Orientation Group of Wright-Patterson Air Force base, Ohio. Airmen of that organization will accompany the Superfortress here to explain its equipment and instruments to visitors.

## Profs To Lead State Groups

Two Kansas State professors were chosen to head statewide associations at meetings this weekend.

D. J. Ameel, head of the department of zoology, was elected president of the Kansas Academy of Science at the Academy's annual meeting this weekend at KU. C. T. Rogerson of the K-State department of botany was re-elected secretary.

At another meeting this weekend in Lawrence, A. H. Brayfield, head of the department of psychology, was named president of the Kansas Psychological association. He will take office in 1956.

## Home Ec Recognition Day Honors Scholarship Winners

Thirty-four home economics students were honored at an annual Home Economics Recognition Day program yesterday in Rec center.

The program was held to give special recognition to girls who have been scholastically outstanding during the school year. Announcements of scholarship awards that have been held this year were made.

DEAN DORET M. Schlaphoff stressed the importance of scholarship in college. "Scholarship in college is a good clue as to how people will tackle situations after they get out of college," Dr. Schlaphoff said. The world needs people who can grasp knowledge accurately, can develop judgment, and can display leadership qualities, she said.

Dean Schlaphoff read the names of all girls in home ec who have maintained an over-all grade average of 2.5 or better. Jane Compton, ChW Sr, had the highest grade average of any senior.

Mariellen Jones, HDA Sr, representing Omicron Nu, home ec honorary, announced that Fleeta Weigel, HEN Soph, and Maurine Ulrich, HEN Soph, had the highest freshman scholarship for the 1954-55 school year.

DR. LOIS SCHULZ, head of the child welfare department, presented Velma Finkenbinder, HE Fr, and Patricia Newell, HDA Fr, who held the Kroger award this year.

Sears-Roebuck scholarship holders, Mary Emily Booth, FdN Fr, Carol Gillen, HT Fr, Janet Teague, HEN Fr, Thayla Webb, HT Fr, Judy Williams, FdN Fr, Martha

Zimmerman, HEJ Fr, and Geraldine Woodward, HT Fr, were presented.

The Fern and Sheldon Storer award was given to Eula Fowler, ChW Sr Marjorie Hamon, HE Soph; Carol Wilkins, HE Fr; Betty Straub, ChW Jr; Alice Schulze, HT Soph; and Ellen Baker, HT Sr.

PROF. GWENDOLYN Tinklin, acting head of foods and nutrition, presented the Martha S. Pittman award to Marilyn McNelis, FdN Soph, and Virginia Adamson, DIM Soph. This award is given in honor of Miss Pittman who is a former head of the foods and nutrition department.

Miss Tinklin announced that Wilma Larkin, DIM Sr, has been a holder of the Borden award for scholarship during the present academic year.

Beverly Sargent, HEJ Jr, retiring president of Home Economics council, presented the Home Economics club scholarship to Treva Moss, HT Jr.

She also announced the new Home Economics Council officers. They are Kathy Burns, DIM Jr, president; Gavona Michaels, HEN Soph, vice-president; and Jeanette Fry, DIM Jr, secretary-treasurer.

THE SOROPTOMIST award was presented to Jan Boster, DIM Jr; Joan Trimmell, HE Soph; and Martha Stowell, HT Jr. This award, given in honor of Margaret Burtis, a former K-State student and a member of the Soroptomist club, was announced by Lucile Rust, professor of vocational education.

A restaurant management scholarship, sponsored by the Kansas Restaurant Association, was presented to Mary Fickel, RM Soph,

## Apportionments Tentatively Set

The Apportionment Board met last night to give tentative approval to requests for funds made by K-State organizations for 1955-56 school year. These figures will receive final approval this fall.

Funds amounting to \$117,985 have been tentatively approved. Available funds for 1955-56 have been estimated at \$128,540.67 by the Apportionment Board.

### English Proficiency Grades Are Posted

English proficiency grades will be posted today on the Deans' bulletin boards and on the English proficiency bulletin board, according to Prof. Nellie Aberle, chairman of the examinations committee.

## Royal Purples Are Shipped, Here Monday

Word has been received that the 1955 Royal Purple will be shipped from Kansas City this week end, said C. J. Medlin, graduate manager of student publications.

"If the yearbooks arrive on time, distribution will start Monday morning at 8 in K103," Medlin said. It will not be necessary for students to show their activity tickets to get the yearbook.

Any student who has paid the activity fee both semesters is entitled to a copy of the book at no further cost. However, students who had paid the activity fee for only one semester, may get a copy of the yearbook by paying an additional \$3.

The office will be open for distribution of the books from 8 a.m. till noon, and from 1 to 5 p.m. all next week. It will not be open Saturday afternoon.

Athletics was approved the largest chunk of the funds with \$38,500, the same as they received this year. They requested \$40,000.

THE ROYAL PURPLE and Collegian were allowed a total of \$50,600; the Royal Purple \$31,100 and Collegian \$19,500, both receiving approval on the amounts requested. This is a slight increase over the amount used this year.

Social and Recreational committee was tentatively approved to have \$6,300, the amount requested. It is \$2,690 less than the \$8,990 they received this year.

Student Governing association was approved \$4,700, the amount requested, a slight increase over this year.

JUDGING TEAMS were tentatively approved to receive a total of \$4,150. Livestock will receive \$1,800, the same as received this year but \$100 short of the \$1,900 requested; meats \$700 of the \$825 requested; dairy \$750, which was requested, but \$50 less than this year; poultry \$250 of the \$280 requested; crops \$300 of the \$325 requested; wool \$350 of the \$450 requested.

K-State Players were tentatively approved \$3,000, an increase of \$400 over this year's fund. They requested \$4,225.

Music groups were approved \$4,825. Band and orchestra were tentatively approved \$3,200, the same as this year, but \$1,700 short of the \$4,900 requested; choral fund \$1,025 also the same, but \$1,415 short of the \$2,440 requested; and the band trip \$600 of the \$700 requested.

DEBATE AND oratory will receive after final approval this fall \$2,250 of \$4,160 requested; Engineer's Open Houses \$1,630 of the \$1,930 requested; Hospitality Days \$1,000 of the \$1,070 requested; Rifle team \$530 of \$529.50 requested; Lift Week \$300 of the \$477 requested; and mock political convention \$200 of the \$600 requested.

Agricultural Economics club and Alpha Epsilon Rho, honorary radio guild, requested \$350 and \$150 respectively but this was not approved by the oBard.

## Panhellenic Open House Saturday

About 85 girls are to attend a Panhellenic tea Saturday from 1 to 5 p.m., Charlene Bell, president of the Panhellenic Council, said today.

The tea is being held to acquaint freshmen and upperclassmen who are not members of Greek organizations with the sororities, she said.

The group will be divided into four sections and each section will visit all the sororities. The girls will spend about 20 minutes at each house and will be served tea once during the afternoon, she said.

## Student Health

Seven boys are patients at Student Health today. They are Gary Nielan, Cecil Taylor, Bill Harris, Harley Butts, Frank Hopkins, James Starns, and Paul Wallace.

# College Fees Increase May Be Big Item in Student's Budget

The President announced to the Student Council this week that there will be a \$6 increase in fees beginning with the fall semester next year. Added to the \$4 increase to the student activity fee to operate the Union, it will mean that each student will pay \$10 more each semester.

However, all of this money will not be increased revenue to the College. Discounting the \$4 to the Union, the other \$6 will go for the administration of the College. Two fees, the \$10 matriculation fee and the \$9 commencement fee have been discounted, so with this loss of revenue Dean Jones estimates the increase in fees will amount to about \$32,000 a year in added revenue.

Also, \$4,000 of this money will go to the Registrar to provide free transcripts for graduates. At the present time a graduate can request one transcript free but any others after that cost \$1 each. This fee, termed a nuisance by the President, will be discounted, and a graduate can now request a reasonable number of transcripts and receive them free.

It would be almost impossible for anyone not connected with the College to tell if the fee increase is necessary or justified. A person would have to be very familiar with the subject and have a knowledge of the entire K-State budget to answer that question.

Several students and student organizations have voiced the opinion that they weren't told about the increase nor was their opinion asked. The President has said many times that he wants to bring before the student body or their representatives any increase in student activities fees. The President said he felt this money is the students' and they should have a say as to how much is charged because the College can run without it.

However, in the case of the proposed fee

increase now before the Board of Regents for approval, the money will be used for administrative purposes, and the President did not ask for student opinion on the matter because he said he felt that persons entrusted with the operation of the College would be the only ones qualified to know whether the increase was necessary or justified.

It seems somewhat unfortunate that the increase should come at the same time as an increase in the student activity fee so that all together it will amount to \$10 a semester a student.

Actually when you compare the cost of education at a state school with the cost at private schools the fees paid are unimportant. But that is why state schools were set up to be financed by the taxpayers. They must be careful that they don't price themselves out of the range of many students. Right now there is a fairly large gap between the fees charged as some of the smaller state schools and those charged here.

Another unfortunate thing about the increase in fees is that it comes when Kansas is suffering from one of its worst droughts. Experts tell us farm income is way down in Kansas. The College placement bureau has found that out of its biggest jobs has been to find part-time jobs for working student who have found that poor crops leaves them short on money to attend schools. A student trying to work his way through school will find that extra \$10 fairly hard to pay each semester.

As we stated before, one would have to know the situation completely to determine if the increase in fees is necessary. Undoubtedly the College administrators have examined the situation and decided the fee increase is necessary at this time. Probably the increase would have been easier to take if the students had been better prepared for it by the administration. —Karl Gaston

## Food and Guilt

Savannah Beach, Ga. (U.P.)—Prisoners awaiting trial in the Savannah Beach jail should eat lightly if they have guilty consciences. If found innocent, the city pays for the food they consumed in jail; if guilty, the cost is added to their fines.

# Why do more college men and women smoke VICEROYS than any other filter cigarette?

BECAUSE ONLY VICEROY GIVES  
YOU A PURE, NON-MINERAL,  
NON-TOXIC FILTER WITH  
20,000 FILTER TRAPS  
IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
3. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
4. Smokers en masse report that filtered Viceroys have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
5. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip... and Viceroys cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette... that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 TINY  
FILTER TRAPS...  
plus Richer, Smoother Flavor

## K-State, KU To Play Doubleheader Here

The two Big Seven basketball teams trying to avoid the cellar spot in league play meet in a doubleheader here tomorrow at 1 p.m. when K-State plays Kansas university in Griffith stadium. The first game was to be played today, but was postponed because of wet grounds.

Also this week end, two teams trying to climb into the first-place position meet at Ames, Iowa, where Iowa State plays host to Oklahoma.

**FOR THE FIRST** game against KU, Coach Ray Wauthier has announced Ron Bergen as starting pitcher, with Jim Rhoades scheduled to start the second game.

In his last starting assignment, against Iowa State, Bergen lost 3-0, while giving up 8 hits, walking 3, and striking out 8.

Both K-State and KU have found the going rough against other conference opponents. K-State has won only 1 game in 8 conference starts, while KU shows 1 win in 6 starts. The lone win for each team was over Colorado.

**MONDAY AND** Tuesday, K-State took lickings from Missouri by scores of 19-1 and 15-2.

In a doubleheader Tuesday against Colorado, KU lost the first game, 3-0, but won their second conference game of the season in the second game, 11-10.

As a team the Wildcats have a team batting average of only .194 in 11 games, while KU has a team average of .225 in 12 games.

## Gardner Receives Coaching Award

Jack Gardner, former Wildcat cage coach now coaching at Utah, recently was awarded the Dale Rex Memorial award, one of the highest honors that can be given to a Skyline conference coach.

## Four New Players With Kansas City

There is some sunshine for the Kansas City A's, despite their sixth-place position in the American league.

The A's now have four new players on their roster. Outfielder Enos Slaughter and pitcher Johnny Sain came to the A's from the Yankees Wednesday just before the 25-man squad-cut deadline. The A's also picked up pitcher Ray Herbert from Detroit, and outfielder Harry Simpson from Cleveland.

## Netmen Seek Sixth Victory

A chance to move above the .500 mark looms before the K-State tennis team as it moves from Omaha, Neb., today to take on Omaha university netmen. The K-Staters now have a 5-5 won-lost mark for the season.

Tomorrow the Wildcats close out their regular-season schedule with matches against Iowa State at Ames. Only remaining competition on the schedule is the Big Seven meet at Lawrence next week end.

The Cat netmen will be looking for their third consecutive win this afternoon. They swept all seven matches from Nebraska Monday to win, 7-0, then edged KU Wednesday, 4-3.

Top K-Stater against KU was John Teas, who won a hard-fought singles match, 6-2, 3-6, 8-6, then teamed with Bob Hansen to take the final doubles match, 6-1, 3-6, 6-3, and give the Wildcats a 4-3 victory. Other winners against KU were Dick Circle and John Deam.

## Five Marks in Jeopardy At I-State Track Meet

Five meet records are in jeopardy today as a 25-man Wildcat track squad takes on Iowa State in a dual meet at Ames.

The K-Staters are competing in their third dual meet of the outdoor season. They were blasted by KU, 92½-38½, Saturday at Lawrence, then walloped Nebraska, 92-39, here Tuesday.

Dual meet marks expected to fall today are in the pole vault, high jump, 440-yard dash, javelin, and mile relay.

**PAUL MILLER** and Fred Wingert of the Wildcats and Hal Mullinson and Ken Mallas of the Cyclones all have registered better marks than the 13 foot 5/8 inch standard set by Wingert a year ago.

Wildcats Gene Wilson and Joe Powell and Cyclones Jim Stewart and Bob Clark all have bettered the 6-1 3/4 mark in the high jump that has stood since 1948.

Marvin Chiles set a dual mark of 48.7 for the 440 in the dual with KU Saturday. The standard for K-State-Iowa State duals is

49.0, set by John Stodgell of the Cyclones last year.

**JAKE MUEHLENTHALER** of Iowa State has thrown more than 20 feet farther than the 187-9½ dual javelin mark, and is considered almost a cinch to set a new mark today.

In the mile relay, Iowa State's foursome has times of 3:19.1, 3:19.7, and 3:20.1 this year, and must be considered a serious threat to the 3:21.4 record.

## Cooper Queen Of A&S Carnival

Jean Cooper, BMT Fr, was crowned "Queen of Queens" at the Arts and Sciences carnival and dance on the tennis courts Saturday night.

Bruce Bellamy, Sp Sr, crowned the queen and presented her with a bouquet of roses. Miss Cooper was chosen from

the seven all-school queens by a student vote last week. She is the Honorary Cadet Colonel of Angel Flight.

THE CARNIVAL and dance drew a capacity crowd of 250 people, according to Joan Sargent, chairman of the carnival committee. Fred Meinholdt and his band played for dancing from 9 to 12 p.m.

Twenty booths were entered in the carnival. Money taken in from the booths will be used by next year's Arts and Sciences Council to interest high school seniors in coming to K-State, Miss Sargent said.

The Pi Beta Phi "jail booths" made the most money. Any person could be locked up for the price of a penny a minute.

The "car crash" booth sponsored by Lambda Chi Alpha was one of the biggest successes, Miss Sargent said.

THE ARTS and Sciences Council held a "professor auction." Prof. A. D. Miller, Charles Goetzinger, Kingsley Given, Stuart Whitcomb, Paul Heppe, H. W. Davis, Earle Davis, Norman French, and Alice Becker and Marilyn Tavares were auctioned off for two hours servitude Sunday. Goetzinger, assistant professor of speech, was auctioned for the most money—\$3.65.

## Committee Picks Homecoming Theme

"Sooner or Later" will be the theme of next year's Homecoming, Phil Robertson, Homecoming committee chairman announced yesterday.

Homecoming will be October 29 against the University of Oklahoma. The Homecoming program is to last for the entire week, Robertson said.

"We feel that the theme is broad enough so it won't effect house decorations in any way," Robertson added.

## Applications Due

Applications for attorney general of the Tribunal are due today, according to Gerry Day, student body president. Letters of application should be taken to the dean of students office or sent to the Student Council meeting.

## Rain . . .

Topeka, May 16 (U.P.)—A drenching southwest Kansas rain that measured more than 4 inches at one point probably will be followed by additional moisture tonight on a wider front.

U.S. Meteorologist Richard Garrett, chief of the Topeka weather bureau, said the situation is favorable for "considerable moisture" from a cold front moving slowly eastward from the Rockies.

Ahead of the front, Garrett said, southerly winds should produce welcome rainfall over much of Kansas, beginning in the tonight and spreading to the east by Tuesday evening.

Last night rain broke out in the southwest corner of Kansas, dumping 4.21 inches at Sublette. Liberal was soaked with 2.37 inches, while Syracuse reported 1.12, Big Bow .75, Garden City .68, and Dodge City .15.

The moisture is helpful in conditioning the southwest ground for sorghum planting.

Earlier Sunday, Caldwell to the east received .55 of an inch.

North central Kansas now is perhaps the area needing rain most.

## KSC Calls For Bidding On Building

Bids for the plumbing, heating, and electrical systems of the new \$1,300,000 animal industries building are due in the state architect's office June 15, R. F. Gingrich, maintenance superintendent, said Friday.

The building should be completed in about 3 years, he said. It is the first of two units that will house animal industries. The second unit is to be constructed at an estimated cost of \$1,095,000. The campus development committee has not yet obtained appropriations for the second unit. Money for the first unit was appropriated by the 1953 legislature.

When the first unit is completed, some classes now being held in Waters hall will be moved into the new building. The stock pavilion will be vacated too. These vacancies will be filled according to the recommendations of the campus development committee, Gingrich said.

## Regional Club Organized for Kansas Newman

A Kansas Regional Newman club, which will be known as KR, was formed by representatives of KU and K-State during a recent meeting at Manhattan. A constitution is being drawn up by the constitution committee composed of delegates from KU.

Temporary officers for next year are: chairman, Mark Hooper, NE Fr; vice-chairman in charge of extension, Buzz Ordonir from KU; chaplain, The Rev. George Towle from KU. A secretary from K-State will be appointed.

Veronica Roll, first vice-chairman of the central state providence of Nebraska university, assisted with the organization.

All schools with Newman clubs will be invited to join.

## Royal Purples Arrive

The 1955 Royal Purples have arrived.

They may be picked up in K103 anytime during regular class hours, Prof. C. J. Medlin, graduate manager of Student Publications has announced.

Activity tickets are not necessary, he said.

## KS Student Killed in Car Wreck

Junction City, May 16. (U.P.)—John W. Baughman II, ME Soph, and 20-year old heir to a trust fund totaling more than \$3,000,000, was killed in a highway accident near here yesterday.

Baughman was the grandson of the late John W. Baughman, of Liberal, owner of thousands of acres of wheat and cattle land in Kansas, Colorado, Oklahoma, Texas, and New Mexico.

Officers said young Baughman, a student at K-State, was enroute to his home at Liberal when he apparently fell asleep at the wheel of his automobile early yesterday. The car struck a bridge abutment on highway 18, fifteen miles west of here. Officers said the automobile apparently was traveling at a high rate of speed.

The elder Baughman, who died last year at the age of 82, willed his grandson half of an estate totaling about \$6,800,000, with the money to be held in trust until young Baughman was 35. In event of the grandson's death, the trust would go to his children, and if he had no children it would go to nephews and nieces of the grandfather.

Nieces and nephews are Walter Baughman, Glen Baughman, Mrs. Lela Baughman McHenry and Miss Letha Baughman, all children of Harry S. and Gertrude B. Baughman, Cheney.

The other half of John W. Baughman's estate went to his widow.

## Fraternity To Build New Chapter House

Acacia fraternity broke ground at 3 p.m. Sunday for a new \$125,000 house at the corner of Hunting and Lee, according to Bob Jepson, chapter president.

The fraternity's modernistic two-story house, designed by Bill Caton an architect from Winfield and an Acacia alumnus, will accommodate 45 men. The house is expected to be completed by the spring of 1956.

Ground breaking ceremonies were part of a week-end observance of Acacia's Founders Day, celebrating the 51st anniversary of the fraternity.

Dr. N. D. Harwood, mayor of Manhattan and an Acacia, and Bob Crandle, national president of Acacia performed the ground breaking. Dr. Howard T. Hill, an Acacia alumnus, gave the dedication speech.

Among honored guests present at the groundbreaking was Don Paynter, the national councilor of Acacia.

The Acacia house is now located at 340 North 16th. The fraternity was organized on the campus in 1903.

## Foreign Movie To Be Shown Tuesday at 4

"Vienna Melodies," a popular Austrian movie with English subtitles, is to be shown Tuesday and Wednesday at 4 p.m. in J15, according to Prof. Manuel D. Ramirez.

Running time will be approximately 80 minutes.

The movie will conclude the modern language film program for 1954-55. Three series of films were offered. The first series, which began last October, presented famous novels and short stories adapted to the screen.

The second series featured productions of interest to drama and music students. "Vienna Melodies" belongs to this category. A movie version of the German operetta "The Merry Wives of Windsor" was presented earlier.

A third series consisted of miscellaneous popular German, French, and Spanish films.

"We plan to continue these film series next year, and hope to build up a good audience," Prof. Ramirez commented.

## Martin Is Prexy Of ME Honorary

New officers of Pi Tau Sigma, mechanical engineering honorary, are Gene Martin, ME Jr, president; Bob Juckem, ME Jr, vice-president; Roger Alexander, ME Jr, recording secretary; Roland McDaniel, ME Jr, corresponding secretary; and Jules Newman, ME Jr, treasurer.

## Student Health

One girl and three boys are patients at Student Health today. They are Patricia Johnson, Keith Wilson, Paul Wallace, and Stanley Rieb.

## Museum Has 510 Visitors During April

Museum visitors at Kansas State college during the month of April numbered 510. This figure includes only those who registered.

The museum has been reduced to one half of the size it was seven years ago. Originally the museum included four floors on the east side of Faichild hall.

The attic room with a skylight was first used for the display of live reptiles. Geological specimens were previously displayed on the third floor. Now both of these floors are used for classroom and research space.

Only two floors remain for use as a museum in Fairchild hall.

## NASM To Inspect Music Department

Rogers Whitmore, chairman of the department of music at the University of Missouri, will be on the campus today and Tuesday to examine the K-State department of music for full membership in the National Association of Schools of Music.

According to Luther Leavengood, the K-State department successfully passed a preliminary examination in 1953 and was admitted to associate membership in the NASM at that time.

# West Agrees To Counter Red Plan

Compiled from the Wires of United Press  
By DICK CARR

Vienna, Austria—The Western foreign ministers reached full agreement on a broad European security plan to counter Russia's bid to neutralize Germany, informed diplomatic sources said today.

The Western ministers were on their way home today after signing an Austrian state treaty with Soviet Russia that rolls back the iron curtain for the first time and promises the long-awaited break in the cold war.

Diplomatic sources said Western experts will begin shortly preparing a joint allied plan for the unification of Germany within a broad European security system based on phased East-West disarmament.

Soviet foreign minister Vyacheslav M. Molotov made it clear yesterday that Russia wants the neutralization of Germany on the pattern of the Austrian settlement, and that that was the price the West would have to pay for a unified Germany.

A rearmend West Germany is a keystone of Western policy in Europe and the allies believe it was this new strength that helped win the Austrian treaty.

A high American official said the Soviet withdrawal from Austria marked a trend "which is going to have a profound effect on the rest of Europe" and predicted it was a "general moderation" of Soviet policy toward the slave nations under its thumb.

## Adenauer Sweeps German State Election

Mainz, Germany—Chancellor Konrad Adenauer won a resounding vote of confidence for his pro-Western and German rearmament policies in Sunday's election in the state of Rhineland-Palatinate, final returns showed today.

His Christian Democrats won an absolute majority in the state parliament. This in turn boosted his control over the federal Bundesrat (upper house of Parliament) since the Bundesrat members are named by the state assembly.

Adenauer's party bettered its already secure position in the strongly Catholic and conservative state in the first elections since sovereignty. It did so at expense of the anti-rearmament Socialists who campaigned for a "new approach" to the problem of German reunification.

The Christian Democrats won 51 out of 100 seats in the state parliament, a gain of eight over their previous holdings. This means the state's four deputies to the federal parliament from Rhineland-Palatinate will support him on vital rearmament legislation.

## Red Fuel Buildup Reported by News Agency

Taipei, Formosa—The Tatao news agency of the ministry of interior said today the Chinese Communists had stockpiled enough jet fuel at coastal airfields for a major air effort against Formosa and its island outposts.

The agency said fuel sufficient for 5,000 missions had been stored at Luichiao airfield alone. The agency, which claims close Nationalist intelligence sources, said truckloads of jet fuel were sighted en route from Shanghai and Hangchow.

Luichiao is within easy fighter range of Matsu and Quemoy islands and Formosa itself. The Tatao agency said jet fuel for the fields originally came from the Romanian oilfields via tanker.

Publication of the oil report coincided with appearances of a new-type Mig 15 in the Formosa strait. These improved Mig types clashed in a 10-minute dogfight with Nationalist thunderjet fighter-bombers this week end, but neither side reported damage.

## GM May Offer Alternate to Annual Wage

Detroit—General Motors Corporation was reported ready today to make a "significant counter-proposal" to the CIO united auto workers demands for a guaranteed annual wage.

The meeting, which followed a 12-day recess in the negotiations for a new contract between the company and the union, was considered by most observers as the first of the final phase of the negotiations between GM and the UAW.

The reports said GM was getting ready to propose a modified form of the UAW and a wage increase of at least six cents an hour.

Although the annual wage is the central issue in the negotiations for a new contract to replace the current five-year pact between GM and the union, the UAW also is seeking a wage increase and other benefits.

## Bridge Game

Louisville, Ky. (U.P.)—Fifteen large bridges span the Ohio river in the 664 miles the river borders Kentucky, from Catlettsburg on the east to Wickliffe near the Mississippi. The oldest of these is the suspension bridge between Cincinnati, Ohio, and Covington, Ky. It was started in 1856 by John Roebling, who also engineered the Brooklyn bridge and is regarded as the father of the modern suspension bridge.

The highest point on earth is Mount Everest at 29,141 feet, and the lowest is the shore of the Dead Sea, 1,292 feet below sea level.

### Cats Split with Hawks, To Play Huskers Today

With the six-hit pitching of Jim Rhoades and the timely hitting of Kerry Clifford, K-State defeated KU, 9-7, in the second game of a doubleheader Saturday. The Hawks won the opener, 6-2.

The Wildcats are to meet Nebraska today and tomorrow in a two-game series at Lincoln.

RHOADES gave up three hits in the first five innings and went into the sixth with a 9-1 lead, but KU put on a rally to score six runs and make the score 9-7.

Clifford drove in 5 runs with a single and home run. His single in the fourth drove across 2 runs, and his homer drove in 3 more in the fifth.

Gary Fenton was the starting and losing pitcher for KU. He was relieved by Ben Dalton with the bases loaded and one man out in the fourth.

KU won the opener as Wayne Tiemeier bested Ron Bergren in a pitcher's battle. Both Tiemeier and Bergren allowed five hits but KU put men on base on a fielder's

choice and two walks in the first inning. They scored on a single by Gary Padgett, who later scored KU's fourth run of the inning.

TIEMEIER hit a home run in the sixth inning with a man aboard to score the final two runs for KU.

League standings:

	W	L	Pct.
Oklahoma	5	1	.835
Missouri	5	2	.714
Nebraska	7	3	.700
Iowa State	5	4	.556
Colorado	2	3	.400
Kansas	2	6	.250
Kansas State	2	8	.200

### Wilt the Stilt To Enter KU

Wilt (The Stilt) Chamberlain, 7-foot 2-inch Philadelphia high school basketball star, will enter the University of Kansas next fall, university officials announced Saturday.

Dr. F. C. (Phog) Allen, KU coach, said the announcement came as a "joyous surprise."

### Trackmen Defeated; Five Records Fall

Kansas State lost its first dual track meet in history to Iowa State, 72½-58½, Friday at Ames as five new records were set in the meet.

Entries from Iowa State set four new records and settled for a tie in the fifth one as Paul Miller of K-State and Harold Mullison of the Cyclones both cleared 13-1 in the pole vault.

The old record of 13-5½ was set last year by Fred Wingert of K-State. Wingert tied for third place with Ken Mallis of the Cyclones Friday.

Ray Russell led K-State scoring by winning the 220-yard low hurdles and finishing second in the 120-yard high hurdles, for a total of 8 points.

Other first place winners for

the Wildcats were Jerry Mershon in the 220-yard dash and Whitney Hicks in the two-mile run.

The Wildcats go to Lawrence Friday to compete in the Big Seven meet, which is to be run Friday and Saturday.

## Faculty To Honor Fourteen Professors

Fourteen retired or retiring K-State faculty members, only one of whom has been associated with the institution fewer than 25 years, will be paid special honor Monday afternoon at a general faculty meeting in Rec center, A. L. Pugsley, dean of academic administration, said.

Previously, retired faculty members were recognized at the annual alumni-senior banquet in the spring. However, the Faculty Senate recently decided it would be more appropriate to have the recognition at a general faculty meeting in the spring before the faculty members retired.

CONSEQUENTLY, those who retired last July 1, as well as those to retire July 1, will be recognized this year.

Those who have reached emeritus status, or who will reach emeritus status as of July 1, (with date of original appointment at K-State) include: J. W. Zahnley, agronomy, 1915; J. S. Hughes, chemistry, 1910; C. W. Colver, chemistry, 1919; J. F. Merrill, chemistry, 1921; A. A. Holtz, economics and sociology, 1919; R. W. Conover, English, 1915.

J. O. FAULKNER, English, 1922; L. P. Washburn, physical education, 1926; W. R. Brackett, physics, 1919; J. C. Peterson, psychology, 1917; Forrests Frazier, civil engineering, 1911; Louis M. Jorgenson, electrical engineering, 1925; Rosamond Kedzie, art, 1938; and James W. Linn, extension dairy husbandman, 1924.

The other K-State staff members were recognized previously and will not be included in the ceremonies Monday. R. A. Seaton, dean emeritus of the School of Engineering, retired July 1, 1954, but was recognized when he retired as a dean. H. W. Davis, who retires July 1 of this year, was recognized when he retired as head of the department of English.

## Rain . . .

Topeka (U.P.)—Kansas' expected outbreak of rain has slowed its approaching pace but may be even more generous because of the delay.

This was the gist of a report today by U.S. Meteorologist Richard Garrett, head of the Topeka weather bureau.

For eastern Kansas, he said, the rain forecast will have to be backed up 24 hours. In the northwest, St. Francis reported .83 of an inch of rain and Goodland got .18. There were no other measureable amounts reported in the last 24 hours to the state weather office.

## Student Health

Three girls and six boys are patients at Student Health today. They are Marcille Madden, Joyce Bott, Naomi Lockard, James Knoblauch, Stanley Rieb, Roger Bean, Kenneth Kirton, Keith Wilson, and Paul Wallace.

## Fifteen More To Graduate On May 29

Fifteen more persons have been added to the list of candidates for degrees at the annual spring commencement exercises May 29, E. M. Gerritz, director of admissions and registrar, said.

Those added include: Doctor of philosophy—Benjamin Augustus Simmons. Master of Science—Claude Thomas Wright.

Bachelor of science—Orval Wayne Linder, Rex Delbert Parks, Edward L. Mackender, Clarence Frederick Steinbach, James Howard Robbins, Thomas Joseph Helms, John Lewis Fish, Glenn Jerome Lincoln, Dennis Francis Kane, Kent Lane Smith, Harold David Morgan, and Allan George Potter.

Two-year certificate in agriculture—Kenneth Gardner Thomas.

## Six Dietetics Seniors Accept Internships

Six K-State senior dietetics students in the School of Home Economics have accepted internships for their fifth year of training. Mrs. Bessie Brooks West, department head, announced today.

Wilma Larkin will intern at the University of California, Berkeley; Luetta Bartel will be at the University of Colorado Medical center, Denver; Marian Hamilton will go to the Veterans Administration center, Los Angeles; Margaret Harmon is to intern at University hospital, Ohio State university, Columbus.

Vida Shipley and Patricia Traugott will be at the University of Kansas Medical center, Kansas City.

## Fourteen Initiated Into History Frat

Fourteen students were initiated into Phi Alpha Theta, history honorary, at a banquet last week. Initiated were: Inez Alsop, associate professor of history and government; Edward Cavanaugh, Hst Gr; Zachaeus Ekwebelem, Soc Jr; Richard Gallion, Gov. Sr; Marcia Gordon, Gov Sr; Shirley Neal, Hst Gr; Vera Pletcher, Gov Sr; Mary Eileen Roberts, Hst Gr; Lowell Socolofsky, Hst Sr; John Stockmyer, Gov Jr; and George Wilcoxson, professor of history, philosophy, government, and general studies.

NUMBER 144

## SC Initiates Amendment For Frosh Councilmen

### Frats Pledge 86 Staters Since Jan. 20

Eighty-six K-State men have pledged social fraternities since January 20, V. D. Foltz, faculty adviser, announced last week.

Seventeen of the pledges are for the colony of Delta Upsilon recently founded at K-State. The organization, now known as "The 1934 club," will petition for a charter in the fall of 1956.

Delta Sigma Phi has 15 new pledges, and Alpha Gamma Rho 11.

Those pledged:

Alpha Gamma Rho—Edwin T. Dillinger, Darwin Francis, Vernon L. Hamilton, Allan Henry, Donald D. Miller, Tommy L. Miller, John Milton, Don G. Perkins, Harry Dean Peter, Therean Towns, Harold Van Horn.

ALPHA KAPPA LAMBDA—Leonard Lloyd Drumright, Chester Norman Benzinger.

Alpha Tau Omega—Dale Blume, Raleigh Logan Eggers, Robert Gillespie, Eldred Eugene Randall, Merlin Duane Smith.

Beta Sigma Psi—James A. Brown, Ted M. Carney, Howard Erickson, Henry E. Kramer, Robert H. Maze, Ravon Thaemert.

Delta Sigma Phi—Dennis Dravillard, Richard Evers, Chester Good, Robert H. Goodin, Lewis Paul Haney, John Richard Johnson, Lee Johnson, Noel Rayburn Lippe, Cameron Eugene Moore, Wayne R. Mowrer, Vernon Earl (Continued on page 3)

### Bowman Heads Forensic Union

Tom Bowman, ChE Fr, was elected chairman of the Forensic Union for next year. Dennie Joy, EEd Soph, was elected vice-chairman, and Barbara Messer, BMT Fr, was elected secretary-treasurer.

Elected to the executive council were Jim Graves, BA Soph; Ray North, Psy Fr; Don Butcher, GA Fr; and Karen Milner, Sp Fr.

### 750 Senior Invitations On Sale in K101

Seven hundred and fifty senior invitations are available to graduating seniors in K101, Byron Ellis, superintendent of the KSC Press, said today.

The extra announcements may be purchased during the regular office hours.

### Dick Horton Receives \$100 Grant-in-Aid

Dick Horton, ME Jr, has been announced as winner of a \$100 Sigma Tau Foundation grant-in-aid provided by L. F. Kepley, vice-president of the Inland Construction company of Omaha, Neb.

Horton was selected over applicants from K-State, Nebraska university, and Kansas university. He is an honor student, is active in the student branch chapter of the American Society for Mechanical Engineers, and is the newly-elected president of the Engineering association.

### Two Referred To Dean Craig By Tribunal

Both cases arraigned before the Tribunal last night were referred to the dean of students for action.

Dick Gallion, Gov Sr, who had four tickets, had his case referred to Dean Craig. Gallion's car was used by the Collegian advertising department and had received two of the tickets when it was used for this purpose. A request for a special parking permit for this purpose had been refused.

Gallion had also been sick with glandular fever and was not able to walk long distances. He did not have a parking permit from Student Health.

Another student with four tickets was referred to Dean Craig, with the recommendation that he be restricted from driving on the campus.

### Amendment To Councils For Okay

A proposed constitutional amendment to provide for freshmen representation on the Student Council last night and sent to the school council for their approval.

The amendment, if it goes into effect, provides that two freshmen be elected the first semester of their freshman year by the members of their freshman class. To go into effect, the amendment must be approved by four of the six school councils.

THE COUNCIL also appointed a bookstore-study committee, asked that College lawns be improved, and appointed several summer committees.

A Tribunal ruling was necessary to settle a question of procedure in the voting of the freshman representation amendment. Since the Constitution says that 3/4 of the Student Council must approve an amendment, the Tribunal was asked if this meant 3/4 of the total membership (20). The Tribunal said it did.

VOTING AGAINST the motion were Don Hunt and George Atkeson. For were Pat Wilkerson, Bev Sargent, Charlotte Henry, Joyce Larson, Merton Melvain, Mackie Murphy, Keith Swenson, Bill Kennedy, Jack Barrett, Newton Anderson, Mike Cornett, Jim Graves, Bunny Cowan, Warren Nichols, and Dean William Craig.

A motion by Graves was unanimously passed that "a permanent committee be established to conduct an exhaustive study of the possibilities of establishing a non-profit, on-the-campus bookstore."

"1. This committee be required to hold weekly meeting and submit a report to each regular meeting of the Student Council."

"2. THIS COMMITTEE will be set up for the full academic year of 1955-56 or until the bookstore is successfully established."

Newton Anderson was appointed chairman.

Collegian photo by Gary Haynes

A LONG LINE of students quickly formed in front of Kedzie hall yesterday as students came for their 1955 Royal Purples. Journalists handing out books were swamped all day as approximately 4,000 Royal Purples were handed out. Students who have not received their yearbooks are requested to pick them up today or tomorrow, C. J. Medlin, graduate manager of student publications, said.

# Neutralized Germany Goal of Red Leader

Compiled from the Wires of United Press  
By DICK CARR

Vienna, Austria—Soviet foreign minister Vyacheslav H. Molotov made it clear today that Russia will press for the neutralization of Germany when the Big Four meet this summer.

Molotov flew back to Moscow today to set the time and place of the meeting "at the summit" with Soviet premier Nikolai Bulganin.

Before leaving he told newsmen he hoped the signing of the Austrian state treaty would be "the pattern for the solution of other international problems."

The treaty establishes Austria as Europe's newest neutral, and his statement was regarded as a direct reference to Germany, the chief concern at the moment of Soviet policy in Europe.

"I am convinced that the conclusion of the treaty will contribute to peace in Europe and the world," Molotov said.

Molotov was the last of the Big Four foreign ministers to leave Vienna. He stayed behind and stole a march on the West by holding surprise "friendship meetings" with high Austrian officials.

## French Guard Against Viet Nam Terrorists

Saigon, Indochina—French authorities clamped new security measures on all military installations in South Viet Nam today to guard against new outbreaks of terrorism against French troops.

Twenty French soldiers were injured, one critically, when unidentified attackers tossed a hand grenade into the courtyard of the Francis-Garnier barracks last night while soldiers were attending an open air movie.

The revolutionary committee said its supporters were not responsible for the attack.

The incident came a few hours before French ground troops Commander Gen. Marcel Gambiez and Gen. Tran an Minh commander of the 1st South Viet Namese military district, issued a declaration of "solid fraternity."

They issued a joint communique denying reports "that conflict is on the point of breaking out between Viet Namese forces and the French expeditionary force."

## Red Premier for Formosa Negotiation

Tokyo—Chinese Communist premier Chou En-Lai renewed his offer today to negotiate directly with the United States but made it clear he was interested chiefly in negotiating the withdrawal of U.S. armed forces from Formosa.

Chou, in a review of the Bandung African-Asian conference broadcast by Peiping radio, emphasized Peiping's intention of "liberating" Formosa but said Communist China was willing to "liberate" it by negotiation rather than through military force.

Chou rejected any idea of a cease fire for the Formosa strait and said this was an impossibility because Formosa is an integral part of China and that it was a matter to be settled by the Peiping government and by no other authority.

Peiping radio broadcast the 5,000-word text of the report Chou made before the standing committee of the National Peoples Congress.

## Soviets Agree to Discuss Berlin Cold Blockade

Berlin—The Soviets agreed today to discuss with the Western allies plans to lift the East German Communist cold blockade of West Berlin.

Soviet high Commissioner G. M. Pushkin said he would meet with the Western allied ambassadors to discuss the exorbitant taxes on trucks supplying West Berlin with food, an American spokesman announced.

The meeting was set for Friday morning at Soviet headquarters. The Western allied ambassadors, in a note to Pushkin on May 7, suggested the meeting be held May 20 at the same time in Soviet headquarters and Pushkin accepted the proposal.

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendar kept in the dean of student's office. If it is not accurately listed there, it will probably be wrong here, too.)

## Woman Objects To Third Ticket

Newburgh, N.Y. (U.P.)—Mrs. Sarah Stiltner told the judge she didn't mind paying for parking tickets when she had broken the law. So, she paid for two—but balked at the third.

The ones she paid for were for overnight parking of two cars in front of her house. But a ticket for parking her car in front of a driveway was another matter.

In the first place, said Mrs. Stiltner, she didn't park in front of a driveway. Somebody must have pushed her car there.

Secondly, it was in front of her own driveway and if she didn't object, she didn't believe the police should.

City Judge Anthony J. Favino dismissed the summons.

## Bradley Man Coins Hollyw'd Adjective

Peoria, Ill. (U.P.)—If Hollywood producers are looking for better adjectives to describe their work, Franklin Schlatter may be able to help.

The 21-year-old Bradley university history major offers "sucosendous" as a substitute for some of the more tired descriptives such as "colossal" and "sensational."

He coined the word by putting together parts of various adjectives, he said.

## Wrong Month

Detroit, Mich. (U.P.)—Dr. and Mrs. Benjamin Seabrook discovered violets blossoming in their backyard—on November 25.

## 1955 Baby Can Expect Long Life, Much Company

By PATRICIA WIGGINS

Washington. (U.P.)—The baby born in 1955 may look forward to lots of company and can expect a ripe old age.

Dr. Martha M. Eliot, director of the Children's Bureau, the Department of Health Education, and Welfare, says that if the present trend continues, the 1955 baby crop will top the 1954 record high of an estimated 4,100,000 by about 80,000.

SHE ALSO REPORTED that the 1955 baby's chance of growing up are the best ever. Ninety-six per cent will reach 21, and life expectancy will be close to 70—compared with 50 for babies born at the turn of the century.

What about all those years in between? Dr. Eliot never makes such predictions, but statistics show these prospects:

About 51 per cent will be boys.

About three of five will be born in cities or suburbs.

ABOUT TWO OF THREE will give their first squalls east of the Mississippi River.

About 42 per cent will have or acquire two or more brothers and/or sisters.

Mothers of one of five will hold an outside job during the baby's lifetime.

More than half of the 1955 babies will complete high school and more than one in four probably will go to college.

While everything 1955's baby encounters will be of interest to the Children's Bureau, Dr. Eliot

said those tots who arrive prematurely will get special attention. Here's why.

The "phenomenal" progress made against infectious diseases in infants has left premature birth as the largest single cause of infant mortality.

THE FIVE TOP threats to infant life today are premature birth, congenital malformation, respiratory failure, birth injuries, and influenza. In 1916 the five were diarrhea, premature birth, pneumonia and influenza, congenital malformation, and congenital debility.

With one out of 14 babies born prematurely and the death rate among them in their first month of life more than 20 times that for normal babies, solutions to present mysteries of premature birth would do much toward decreasing infant mortality rates.

## Huskers Top Cats In Pitchers' Battle

Dick Grier of Nebraska and Daryl Parker of K-State tangled in a pitchers' duel at Lincoln yesterday, with Grier gaining the verdict, 6-2.

Parker had allowed only 2 runs on 5 hits going into the last of the eighth, when Nebraska came up with 4 runs on 3 hits, 2 errors and a sacrifice. Grier allowed 6 hits and struck out 13 Wildcat batters.

The two teams meet again today.

In another conference game, Missouri defeated Kansas, 11-2. Bill Heitholt was losing pitcher for the Jayhawks in his first start of the season.

The Tigers got to Heitholt for 12 hits as Kansas was held to 9 scattered hits by Gene Gastineau and Jack Davis. Davis was winning pitcher.

The two teams meet again today in a game that will be the last home affair of the season for Kansas.

## Sooners Hire Cage Coach

Norman, Okla.—Doyle Parrack, whose Oklahoma City university teams went into regional NCAA play three times in eight years, was named basketball coach of the University of Oklahoma this week.

He moves 20 miles from OCU to the Big Seven Sooners. They are expecting him to produce a cage team as strong as the Oklahoma football powerhouse, it is reported.

Parrack succeeds Bruce Drake, who is reported to have resigned under pressure after a losing season.

## Vaulters Top Entries For League Meet

Lawrence — A Colorado pole vaulter who recently joined the Big Seven's 14-foot elite, and an Iowa Stater whose coach says he'll reach that circle, will top a fine field which goes after the 27th Big Seven outdoor track and field title here Friday and Saturday.

The Coloradoan is Stew Walker; the Cyclone is Hal Mullinson. Coach Frank Potts lifted Walker out of the intramural ranks last year. To date he's tied for two conference indoor championships. Furthermore, he became the league's sixth 14-footer two weeks ago by soaring 1/4 inch beyond that height to win the Colorado Relays.

Mullinson was off to a fine indoor start until leveled by sickness a couple of weeks ago before the conference meet in Kansas City. He set school indoor mark of 13-4 7/8 and at the Drake Relays hoisted over 13-6 to erect a new school outdoor figure. With a season of competition remaining, his coach thinks he'll climb to 14-0.

## Marciano Wins by TKO Over Gallant Englishman

San Francisco (U.P.)—Rocky Marciano will defend his heavyweight title against a new opponent in September, but gallant Don Cockell, who won American hearts last night with his game stand against the champ, also probably earned a re-match.

Promoter Jim Norris said today he hoped to arrange another Marciano-Cockell fight "in the not too distant future," but stated definitely that "Marciano will defend again in September."

It was Norris who said Cockell won American hearts, and every emotionally stirred fan who saw the fight in Kezar stadium or on closed-circuit theater television had to agree with him.

FOR COCKELL at the finish was a bloody study in raw courage.

Unbeaten Rocky, making his fifth defense of the world heavyweight crown, used his brand new left uppercut effectively against the champion of the British Empire and scored a technical knock-out over him at 54 seconds of the ninth round.

"I did most of my damage with the left uppercut," said the unmarked champion today. "It's a new punch I've been practicing a lot. Of course, I worked on his body too."

THE COMBINED head and body attack before 15,235 fans in the chilly stadium hammered chunky Cockell into bloody helplessness, floored him three times, and stopped him in the ninth round.

Hours after the fight ended, it was announced that the bout grossed \$196,720. Pre-fight predictions from the promoters were for a \$350,000 gate and an attendance of 28,000.

Rocky, fresh from his 48th-straight victory as a professional, praised lavishly the brown-haired hog farmer of Hiram, England. The swarthy "Rock" from Brockton, Mass., declared, "I've fought

a lot of brave men in my time, but this fellow was tops."

The courageous challenger disclosed that John Simpson, his irate manager, had wanted to stop the fight in the sixth round—"but I wouldn't let him."

"I was bound I'd beat him, and I'm sorry I didn't," said the brown-haired guy. "But I'd like to fight him again."

According to promoter Norris of the International Boxing club, Don will get another shot at the title "just as soon as he goes out and gets himself two or three good wins."

VOLUME LXI

Kansas State College, Manhattan, Kansas, Wednesday, May 18, 1955 VOLUME LXI

## Dedication Planned For Dykstra Clinic

Dr. E. E. Leasure, dean of the School of Veterinary Medicine, today named veterinary dignitaries who will arrive from all parts of the nation June 2 for the Dykstra hospital dedication and golden anniversary of the veterinary degree at K-State.

The dedication will be at 2 p.m. on that day and the clinic will be open to the public from 8 a.m. to 5 p.m., Dean Leasure said. The 17th annual conference for Kansas veterinarians will follow, June 3 and 4.

Among those attending the dedication will be: John B. McCuish, lieutenant governor Kansas; Lester McCoy, chairman, state board of regents; Dean Floyd Cross of Colorado A&M; Dr. E. F. Kubin, member Kansas Veterinary Medical Association; and Dean W. A. Hagan, New York State Veterinary College.

All graduates of the K-State School of Veterinary Medicine, parents of this year's seniors, members of the Kansas legislature, and leaders in the field of veterinary medicine have been invited to the combined anniversary celebration and hospital dedication, Dean Leasure said.

## Car Embarrasses Owner by Antics

In a freak accident on the campus last night a 1949 Chevrolet owned by James L. Smith, BA Jr., rolled away from its parking place near Holton hall, jumped a curb to roll across the lawn in front of Dickens hall, and stopped against a light pole near President McCain's house.

The car jumped two curbs and dodged trees across the lawn of the President's house before stopping against the light pole. Damage to the car was minor.

## Men Eligible for Draft Should Fill Out Forms

Men students subject to call to military service this summer should fill out form SSS109 and leave it at the Registrar's office before the end of the semester, E. M. Gerritz, registrar, announced today.

Students may get the forms in Anderson 104.

## President Has Busy Schedule

President McCain is addressing graduating classes at five Kansas high schools this spring, as well as two college graduating classes.

The President spoke at the Colby commencement Monday night, was at Goodland last night and will be at Osawatomie, May 19; Great Bend, May 20; and Ottawa, May 27.

He also will be principal speaker at the K-State commencement exercises, May 29, and the following morning will speak at the Oklahoma A&M college commencement.

## Scholarship Given By Mortar Board

Mary E. Booth, FdN Fr, and Geraldine Woodward, HT Fr, have been awarded \$100 Mortar Board scholarships for next year. Martha Carter, president of the organization, announced.

Each year Mortar Board awards the scholarships to outstanding freshman girls for use during their sophomore year.

## Girls Organize To Investigate Forming AWS

A drive to determine whether an Associated Women Students organization is desirable for K-State has been started by a committee composed of the girls who attended an AWS convention in Lawrence during the Easter vacation.

During the summer, the committee plans to draw up a questionnaire which will be circulated among the women students to determine whether they are interested in organizing an AWS. The committee is also sending for constitutions of AWS organizations at other colleges.

Heading the committee is Rachel Pickett, HEI Fr. Janet Teague, HEN Fr, is vice-chairman; Avis Tromble, HE Jr, secretary-treasurer; and Anne Manion, ML Fr, publicity chairman.

Dean Helen Moore and Virginia Smith, director of Van Zile are faculty advisers of the committee.

AWS, if adopted, would give women students a chance to make many of their own regulations such as rules concerning closing hours and discipline.

## Student's Rites Held in Liberal This Afternoon

Funeral services for John W. Baughman, student who was killed in a car wreck near Junction City Sunday, will be held at 2 p.m. today in Liberal.

Baughman was killed when he apparently fell asleep at the wheel of his car Sunday. The car hit a bridge abutment west of Junction City.

Baughman was heir to a \$3 million trust fund left him by his grandfather, John W. Baughman, of Liberal.

The 20-year-old mechanical engineering sophomore was the son of Robert W. Baughman of Liberal.

## Death of Student Believed Suicide

Pranab Kumar Duttaroy, 22-year-old graduate student assistant in soils who died yesterday apparently committed suicide, according to Dr. W. H. Clarkson, Riley county coroner.

Duttaroy suffered an attack at his rooming house at 1010

Pranab Duttaroy

Vattier shortly after noon. His landlady, Mrs. Edith Hughes was attracted by his screams and found him in his room holding his head.

Several students rushed the Indian student to the College hospital, but he was unconscious on arrival and died around 12:15, shortly after his admittance.

Dr. W. H. Clarkson, coroner, said that a "considerable amount of cyanide" was found in the body and unquestionably caused his death. He added that they did not know how the poison was administered. Dr. Clarkson said that a suicide note found in the student's room bearing his initials read, "Father, forgive me." It was also learned that Duttaroy left a four page letter written the night before in India dialect, which has not been translated. Duttaroy, whose home is in Calcutta, was born April 12, 1933. He graduated from the Mrimunjoy School in 1947, and received his Bachelor of Science in Agriculture from Calcutta university.

In his first semester at K-State Duttaroy made straight A's. He also assisted Dr. F. W. of the agronomy staff with fertility studies. He was taking final examinations this week and had applied for a graduate assistantship.

## Graduates Placed in 160 Teaching Positions

Teaching positions for 160 K-State graduates for the coming school year have been announced by Chester Peters, director of the College placement office.

The group includes 97 who are being placed for the first time, and 63 who are advancing to better positions or switching into administration.

Peters commented that demand is still far greater than the supply for both secondary and elementary teachers.

"MORE PRINCIPALS, superintendents, and school board members have been on the K-State campus this year to interview than ever before," he noted. "Also, there has been an increase in the number of people from out-of-State who are interviewing our graduates."

Greatest shortages, Peters said, are in the fields of elementary education, home economics, vocational agriculture, science, mathematics, and English.

Beginnings salaries generally are up from \$100 to \$200 over

those received by K-State graduates last year. Those entering the elementary field are getting between \$3,100 and \$3,200; those in home economics start at from \$3,400 to \$3,500; and those in vocational agriculture start around \$4,250.

Though only in the third year of the new elementary school curriculum, K-State has placed 41 beginning elementary teachers. More than 300 students now are enrolled in elementary education, and the College has more than 1,000 students in teacher preparation at all levels.

NAMES OF students placed for the first time, with their home addresses and new positions follow:

Men's physical education—Harold Duby, to Vermillion; James D. Iverson, to Clay Center; Clarence Reitemier, to Victoria.

Social science—Stanley E. Banks, to Highland park high school at Topeka; Carol Collins, to Abilene; Mariam Albert Dimmitt, to Highland Park high school, Topeka; Robert Gene Rumble, to Oberlin; Claude E. Spencer, to Highland Park high school, Topeka.

Science—Dean Gamble, to Macksaville; Joyce Elaine Davisson, to Minneapolis; Donna Lincoln, to Garrettsville; Patricia Ruth Rogers, to Paola; Marilyn Lou Rush, to Emporia; Sandra Ann Tatge, to Hiawatha; Eugene Lou Sweedlum, to Shawnee-Mission, Merriam.

Math—Asel W. Harder, to Greenburg; William C. Smith, to University of Idaho.

Art—Janet Corwin, to Ottawa; Karolyn King, to Shawnee-Mission,

Merriam; Doris Ann Winzeler, to McPherson.

ENGLISH—Ann Jane Beckmeyer, to Belleville; Jean Carol Sims, to Council Grove; Margaret Ann Tracy, to Council Grove.

MUSIC—Nancy Hasselbroek, to Edgerton; Myrna M. Hilton, to Burlington; Phyllis Ann Latzke, to Scott City; Nancy R. Leavenwood, to Junction City; Kent L. Smith, to Wakefield; Homay Williamson, to Waterville.

Vocational agriculture—Lewis Eggenberger, to Winfield; Norman Haigh, to Fredonia; Edgar N. Hinkle, Jr., to Riley; Keith J. McFall, to Preston.

Home economics—Ellen M. Baker, to Kansas City; Carolyn Ruth Chesney, to Hill City; Cynthia Ann Collingwood, to Gillette, Wyo.; Margery B. Davidson, to Mankato; Mary Bernice Dolan, to Miltonvale; Delphine E. Egidy, to Olathe; Betty Fahising, to Plainville; Joyce L. Finch, to Kansas City; Bonnie Fuller, to Clearwater; Marilyn Helkes, to Blue Rapids; Kathleen P. Henderson, to Smithtown, New York; Sylvia Jane Hyde, to Smith Center; Agnes A. Wyatt, Jimerson, to Robinson; Carol Rosemary Kennedy, to Garden City; Beverly Ann Larson, to Herington; Helen L. Morris, to Wakeeney; Carol J. Peterson, to Ulysses; Dorothy Russell, to Baldwin; Virginia Russell, to Kinsley; Berta Brown Van Diest, to Bogie; Marjorie Alys, to Oberlin; Ruth Ann Waller, to St. George; Betty JoAnne Turney, to Lincoln.

ELEMENTARY—Patricia Allison, to Topeka; Marianne Jo Bradshaw, to Turon; Shirley T. Bretz, to North Star school in Kearney county; Judith Ann Dierdorff, to Salina; Lois Milleson Eberle, to Junction City; Shirley Folsche, to Oberland Park; Eula Frances Fowler, to Topeka; Norma Jane Funk, to Myranda school in Riley county; Nancy Jo Gingrich, to Randolph; Shirley Goff, to Milford; Gwen A. Gregg, to Manhattan; Albert May Grieshaber, to Alton; Lois Ann Hahn, to Topeka; Martha Horton,

to Junction City; Betty Kelswetter, to Ottawa; Peggy F. Kelsey, to Ottawa; Donna King, to Grandview school, Riley county; Nilwon D. Kraushaar, to Topeka; Janet Larson, to Ottawa; Joyce E. Larson, to Denver, Colo.; Mildred Leikam, to Cimarron; Carole Ann Marler, to Concordia; Margaret Mina Mitchell, to Wakefield; Leona Mae Nelson, to Concordia; Dianne S. Nemeth, to Topeka; Jacqueline Ann Newell, to Great Bend; Janice Jean Olson, to Topeka; Cynthia Peterson, to Topeka; Blythe Guy Potts, to Kansas City; Velda J. Reiff, to Enterprise; Rosalie M. Rezac, to Wabunsee county rural school; June Rhoades, to Ogden; Marilyn J. Riley, to Portland, Ore.; Philip Carey Schneider, to Abilene; Anne Glanville Schultz, to Belvue; Marvel J. Scott, to Meade; Betty Smith, to Junction City; Evelyn M. Spangenberg, to Junction City; Lois Steadman, to Topeka; Phyllis Ann Wampler, to Palco; Lola Marie Wooley, to Palco.

PERSONS PREVIOUSLY placed, who are moving into administrative work, or to better positions, include:

Administration—Jack Bell, to be principal at Selden; Robert L. Gresham, to be superintendent at Kanorado; Darrell D. Bentz, to be elementary principal at Minneapolis; K. O. Esping, to be assistant superintendent at Downey, Calif.; Dean Larson, to be superintendent at Louisville; David Linn Livers, to be high school principal at Cimarron; Gordon Wilson, to be superintendent at Latham.

Men's physical education—Bernard K. Chadd, to Dorrence; Wayne Craven, to Shawnee-Mission; Merriam; Harold Bryan, to McCook, Neb.; Lawrence D. Scarbrough, to Reserve; Stanley L. Watson, to Kincaid.

Social science—Ralph N. Dickerson, to Bazine; Howard Marks, to Des Moines, Iowa; Floyd Wendell

Nyquist, to Wichita; Harold Pryor, to Hutchinson.

Industrial arts—Warren Fouse, to Cunningham; Jack Ames Hanney, to Irving; Thomas P. Ingenthron, to Victoria.

SCIENCE—Mary F. Hodgson, to Shawnee Mission, Merriam. Math—Vernon D. Nyhoff, to Muskegon, Mich.

English—Barbara Adan Hunter, to Hazel Grove school, Kansas City. Commerce—Robert M. Benignus, to Holisington.

MUSIC—Richard Coy, to Southwestern State College, Weatherford, Okla.; Scott Funston, to Riley; Elizabeth Ann Portschi, to Colby; Alice Elizabeth Wynn, to Minneha school district, Wichita.

Vocational agriculture—Dale E. Brooks, to Clay Center; Eugene Cleland, to Wellsboro; Truman Diener, to Hillsboro; Clifford Elliott, to Fairview; Philip Finley, to Norton; Frank Hutchinson, to Hoxie; Harry Longberg, to Wetmore; John T. Nace, to Delphos; Floyd E. Nighwonger, to Claflin; Carl W. Stauffer, to Minneapolis; Allen E. Starosta, to Dodge City; Henry Van de Riet, to veteran's instructor at Concordia; Richard E. Wieser, to Burlingame; Kenneth R. Wilson, to Leoti; Karl Will, to Oakley; John Wilson, to Wakefield; Dale Wooley, to Parker; Billy Wood, to Morrowville.

Home economics—Loretta Ault, to Geneseo; Mrs. Jack Bell, to Selden; Mary Elizabeth Brewer, to Ottawa; Mary Jane Mell, Day, to Beverly; Patricia Dwerikotte, to Concordia; Mildred Fuller, to Natoma; Mary Ellen Hirsch, to Shawnee-Mission; Josephine P. Murphy, to Louisburg; Ethelyn P. Rees, to Solomon; Margaret Lucille Robbins, to Shawnee-Mission; Merriam; Naomi Louise Wolf, to Alma.

Elementary—Joyce Marie Bigham, to Pratt; Nora Lee Eddy, to Topeka; Herman F. Freeman, to Covey Creek school, Dickinson county; Virginia Faye Irvine, to Minneapolis; Donald E. Shorman, to Talmage; Virginia Van Amburg, to Salina; and Royce N. Vathauer, to Manhattan.

# U.S. Jets Make 4,800 Mile Flight

Compiled from the Wires of United Press  
By DICK CARR

Newcastle, Australia—Four U.S. Air Force F-84 Thunderjets streaked here today from Tokyo on a record-breaking 4,800-mile non-stop flight that demonstrated American ability to strike anywhere in the Pacific.

The flight of the fighter-bombers which are capable of carrying an atom bomb from New York to Moscow was marred by the crash in Japan of one of two escorting planes. The pilot was not seriously hurt, but was hospitalized.

The 4,800-mile flight was the longest ever made by single engine jets. They refueled in air over Guam, Port Moresby and Townsville, Australia, from KB-29 flying tankers sent ahead to demonstrate the air force's long range plans.

The arrival at Williamtown, Royal Australian Air Force base, touched off a two week "operation handclasp" goodwill visit to Australia which also carried the assurance that the big U.S. Far East Air Forces stand by to aid Australia as in the last war or move into troubled Southeast Asia quickly if needed.

The four planes left Tokyo Tuesday afternoon and landed here eleven hours and one minute later—just one minute more than the air force had estimated.

## Dulles Looks for Iron Curtain Roll-Back

Washington—Secretary of State John Foster Dulles believes the Big Four top-level talks will open new opportunities to roll back the Russian iron curtain now shrouding Eastern Europe.

Officials said today this was one of the most significant points behind Dulles' dramatic foreign policy "chat" with the American people last night.

Seated in President Eisenhower's private office, the secretary of state told a nationwide radio and television audience that the newly-signed Austrian state treaty is a beacon of hope to oppressed peoples everywhere. Dulles said the treaty, which assures withdrawal of occupation troops, is sure to have "tremendous impact" in Soviet-dominated Czechoslovakia, Hungary and other satellites.

He noted that a Big Four meeting could discuss the Soviet-occupied countries of Eastern Europe and the problem of international Communism—along with German unification, disarmament, and atomic weapons.

But he cautioned against over-optimism. No all-embracing rainbow, he said, will come from the meeting of the Big Four heads of government. The conference will only show "new paths" to peace if the United States sticks to its policy of strength in dealing with Russia.

## Chinese Students Stage 'Stay-In' Strike

Singapore—Thousands of Communist-inspired Chinese students staged "stay-in" strikes today and another reign of terror was feared.

"We are prepared to resist," one of the student leaders said. "We will not open on our terms."

The schools were closed by the government rioting last week and the closing of United Press correspondents.

The schools were opened today and students who have been feuding with police for more than a year returned under the government regulations.

## U.S. Senator Predicts Atom-Ship

Washington—Sen. Henry M. Jackson said today the navy is on the threshold of a "big breakthrough" into atomic power for surface ships as well as submarines.

A year from now, Jackson said in an interview, he expects the navy to present "a vastly expanded program" for construction of atomic submarines.

In addition, he said, the navy is making progress in developing an atomic-powered aircraft carrier. But he expressed doubt that this ship will be included in the next military budget.

## Retired Colonel Resumes College

Stanford University, Calif. (U.P.)—There's an undergraduate student, a senior at Stanford university who is "rounding out his education" at the age of 60 after time out for two world wars and an engineering career.

Lt. Col. Howard V. Hunter is picking up the college education he interrupted during his junior year at the University of California to join the army in 1917.

However, he has switched from his old engineering course to study the humanities and science subjects.

"I CHOSE liberal arts studies to round out my education to help me enjoy life," Hunter explained. "I expect many retired men, whose training has been on the technical side, to start returning to universities to take up cultural subjects."

Hunter entered the Army during World War I to serve as a second lieutenant with the 63rd Infantry at the Presidio of San Francisco. He was at Camp Meade, Maryland, awaiting shipment overseas when the fighting ended.

Between wars he became an engineer for the American Telephone & Telegraph Co., of New York, and on the side served for 20 years on the New York County Grand Jury.

HUNTER WENT back to the Army as a Signal Corps major in 1943, serving at the Pentagon. Because of his knowledge of French and communications, he was sent to Allied headquarters in French North Africa. There he served for a year as chief of wire maintenance, travelling from Casablanca to Tunis. Later he served in Italy and France.

Hunter returned to the telephone company and active Signal Corps reserve duties, from which he retired in October, 1953.

## Little Man on Campus by Bibler

## Driving License Tests Really Rugged in Vienna

By THOMAS WEYR

Vienna (U.P.)—Driving license tests here are reputed to be the world's stiffest. Besides proving you can drive, you have to know how to take a car apart and put it together.

Moreover, you must pass a college type of test in traffic law and undergo a complete physical examination.

THE TESTS are so tough that few Viennese try for a license without graduating first from an approved driving school. Scores of schools have mushroomed as post-war traffic has increased, and newcomers to Vienna are astonished at the number of cars bearing "Traffic Academy" signs.

Applicants are advised to complete 15 driving lessons—plus their homework—before trying solo. Such a course costs about \$50. No one is admitted to the exams without proof he has been to a licensed school or had private training with a learner's permit.

THREE ORAL tests are conducted by three different examiners.

If you pass the examiner on Austrian traffic law, you move on to an engineering examiner who tests your knowledge of how

an automobile works and how to repair any kind of breakdown. Test headings include "engine," "brakes," "gears," "steering," "carburetor" and "tire structure."

The third part of the oral covers "Behavior in Dangerous Situations"—what to do when your car skids on ice, catches fire or gets involved in other awkward predicaments.

"IF AT ANY point during the examination the candidate is found wanting, the tests are stopped and he must repeat the whole examination, including those parts he had already passed," applicants are warned.

The physical examination is approximately the same as that required for life insurance.

# Sooners Whip Buffaloes; Cats Lose to Huskers

Oklahoma strengthened its hold on first place in the race for the Big Seven baseball championship yesterday by defeating Colorado twice, 8-4, and 8-0.

At Lincoln, Neb., K-State was defeated by Nebraska for the fourth time this season as Fran Hofamier and Willie Geenlaw, two lefthanders, combined in a two-hit pitching effort to win, 8-3.

Ron Bergren was the losing pitcher for K-State.

Missouri kept its title hopes alive yesterday as Norm Stewart,

backed by 19 hits, pitched the Tigers to a 16-1 win over KU. Stewart allowed 6 hits and struck out 16 KU batters.

Oklahoma has four games remaining on its schedule, two each with Kansas and K-State, the two clubs holding down the Nos. 6 and 7 spots, respectively, in league standings.

K-State is scheduled to play Oklahoma at Norman on Friday and Saturday.

League standings:

	W	L	Pct.
Oklahoma	7	1	.875
Nebraska	9	3	.750
Missouri	7	3	.700
Iowa State	5	4	.556
Colorado	2	5	.286
Kansas	2	8	.200
Kansas State	2	10	.167

# Card Pitchers Have Become World Beaters

By UNITED PRESS

There was a time when Eddie Stanky would look at his St. Louis Cardinals' pitching staff and shudder, but today things have changed—it's the opposing clubs who look at it and shudder.

Once considered just a bunch of second-raters, the Cardinal pitchers suddenly blossomed into a staff of world-beaters with a record of only one run allowed in the last four games.

ROOKIE Larry Jackson, a 23-year-old righthander, pitched the Cardinals' third shutout in their last four games when he blanked Brooklyn, 3-0 last night.

Jackson scattered 10 hits in handing the Dodgers their first whitewashing of the season. The win boosted the Cards into third place in the National league.

JOE NUXHALL helped Cincinnati climb into sixth place with a 9-2 victory over the Pirates, who dropped their sixth game in a row.

# Marciano Earns \$120,000, Heads for Month Vacation

San Francisco (U.P.) — World heavyweight champion Rocky Marciano picked up some of the easiest money he ever made—approximately \$120,000—today for his victorious battle with Don Cockell, then decided to take a month's vacation in California.

While the bruised and beaten Cockell prepared to leave tomorrow, apparently glad to shake the dust of California from his shoes, Marciano agreed this is the golden land.

"My wife Barbara and I are going to do a little sightseeing and just rest for a while before returning East," said Marciano.

Rocky was pleased to find that his nose, which had to be rebuilt with plastic surgery after his last battle with Ezzard Charles, withstood the test of his latest battle.

"It was a little red when I looked at it in the mirror," Rocky said with a grin, "but it wasn't

sore at all and now I don't have to worry about that item anymore."

The Rock said he is ready to meet all comers—including Cockell in England—if manager Al Weill so decrees.

Cockell wants another fight with Marciano—but there is one stipulation.

"I would like to fight him in either London or New York," he said, "but not in California."

You'll be pleased with a Collegian want ad.

# Young scientist works on new ways to handle "hot" radioactive fuel

Whenever uranium is "burned" in an atomic reactor, certain valuable elements such as plutonium are left behind in the "ash."

These products are highly radioactive, but they must be recovered because of their great value to the atomic energy program.

This is the job of 31-year-old H. Ward Alter, Supervisor of the Separations Chemistry Unit at the AEC's Knolls Atomic Power Laboratory, which General Electric operates in Schenectady, N. Y.

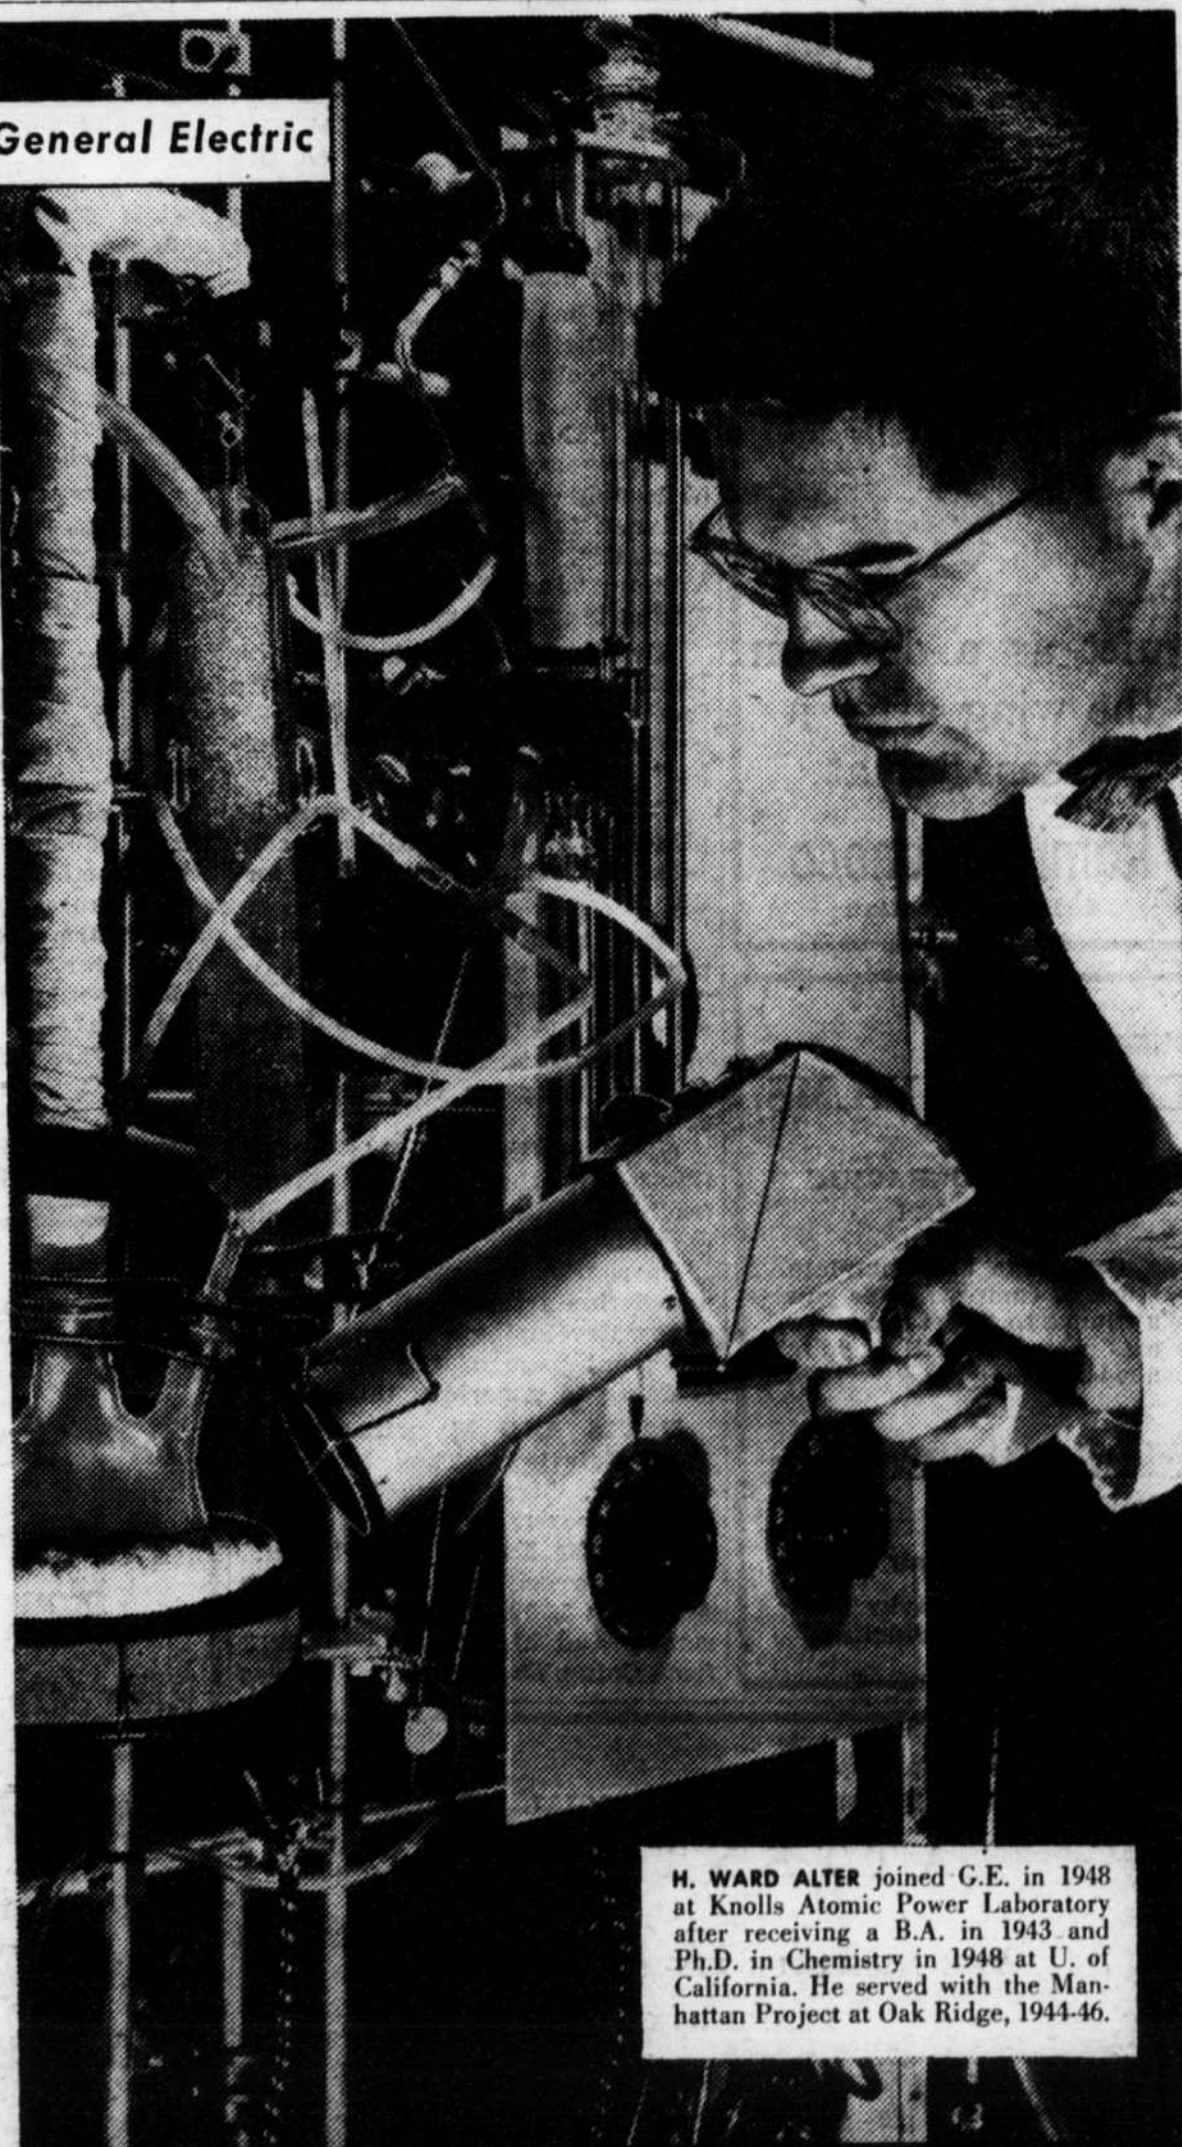

## Alter's Work Is Vital, Important

Alter is doing his job well. He has already received the Coffin Award, General Electric's highest honor, for developing an apparatus that makes possible faster, safer, and more efficient recovery of the valuable elements in the "ash."

The work done by Alter and his group helps lower costs, increase efficiency and expand our knowledge of the chemical processing of spent radioactive fuels.

## 25,000 College Graduates at General Electric

When Alter came to General Electric in 1948, he already knew the work he wanted to do. Like each of the 25,000 college-graduate employees, he was given his chance to grow and realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

H. WARD ALTER joined G.E. in 1948 at Knolls Atomic Power Laboratory after receiving a B.A. in 1943 and Ph.D. in Chemistry in 1948 at U. of California. He served with the Manhattan Project at Oak Ridge, 1944-46.

Progress Is Our Most Important Product

# Hal Davis Ends 42 Years As Familiar K-State Figure

By ANNE HUTCHERSON

Forty-two years on the College faculty have established for English Professor H. W. Davis a reputation as perhaps one of the most colorful personalities ever associated with K-State.

Professor Davis, well-known to thousands of Kansans through his contacts here and a syndicated column widely published in the state, has personified the College to many.

"Davis is the guy who symbolizes K-State more than any other individual I have had contact with," C. J. Medlin, graduate manager of student publications, said.

MEDLIN SAID that everywhere he met K-State alums, even in France and England, they asked about H. W. Davis.

Davis, who retires this semester, has always been interested in students and his philosophy is that "colleges should be run for the benefit of students, not faculty."

During his tenure at the College, Davis has served students not only as an instructor but has advised College publications and has taken an active interest in College athletics and dramatics. He has served on the Board of Student Publications since it was established in 1918.

Of his work on the board, Ralph Lashbrook, head of journalism, said, "He always has been able to understand and properly evaluate the viewpoint of students. As a result students have always respected his judgment and have been willing to carry out the decisions of the board."

FOR A TIME, Davis also served

H. W. Davis

as adviser to the Royal Purple. C. J. Medlin recalls that Davis was adviser in 1920 when he was editor of the Royal Purple.

"Davis was always ready to roll up his sleeves and write or edit. He is one of the few men I've known who is an adviser in a true sense of the word—he will tell you what to do and help you, but he won't dominate," said Medlin.

Davis has taught many courses in journalism and has always written columns. For many years he wrote a column for the alumni paper, "The Industrialist," called "Sunflowers." The humorous and philosophic column was syndicated and run in many Kansas papers. Currently, Davis writes a daily column, "Just a Minute," for the Manhattan Mercury.

Always interested in athletics, Davis used to broadcast College football games for KSAC. He also wrote sports for "The Industrialist."

FOR MANY MANY years, he played semi-pro baseball and consequently this sport is his favorite.

Davis used to appear in College produced plays back in the days "when faculty and students both were eligible to participate." Now he writes critical reviews of all College plays for the Manhattan newspapers.

Of his retirement this spring, Davis said that he was leaving teaching both with and without regrets.

Currently he plans to write non-fiction articles and books. He is now developing a thesis on what the front page of the newspaper is doing to American thinking.

DAVIS AND his wife live at 1727 Fairview. They have one daughter, Mrs. Dougal Russell, who is secretary to Earle Davis, head of the English department.

Davis received his Bachelor's degree in 1909 from Indiana university and his Master's in 1913 from Columbia university. He was

elected to Phi Kappa Phi, and was a member of Sigma Phi Epsilon. After receiving his Master's, Davis came to K-State where he became head of the English department in 1921 and held that position until 1950.

Davis has served as head of the Public Exercise committee and also served on the College Apportionment board.

He is a member of the National Council of Teachers of English, the American Association of English Professors, and was at one time president of the Kansas College Teachers of English.

## K-Staters To Work At Rock Springs

Four K-Staters are among staff members who will work this summer at Rock Springs ranch, state 4-H center near Junction City.

The camping season opens May 27 and closes on Labor day. More than 5,000 campers, including 4-H club members, Girl Scouts, kayettes, church groups, and home makers are scheduled to be at the center during the season.

K-State students appointed to supervise the camp recreational facilities are Arinetta Bolton, HDA Jr; Ralph Bauman, AEd Fr; Jim Hundley, AEd Soph; Jacqueline Johnson, FdN Soph; and Richard Livingston, ChE Fr.

### FOR RENT

Unfurnished apt for rent. Three rooms and bath, \$40.00, plus electricity. College couple preferred. Ph. 59243. 145-147

27' 54 Rollahome house trailer, modern shower & tub, TV cabinets radiated heat. Priced for quick cash sale. Contact Fred Wagner, Hays Trailer Co. Ogden. 145-147

Two room furnished apartment available for summer months only. 620 Moro. Ph. 52295. 144-146

Basement apartment, three rooms with bath. \$60 per month. 1725 Anderson, Ph. 84045. 143-145

Nice three room apartment for summer only. Call 82376. 142-146

Upperclass men double room one block from campus. Fall or summer and fall. Ph. 84389. Dtr

Rooms for men. Private entrance and bath. Large rooms with double bed and lounge. Cool in summer, warm in winter. Garage extra if wanted. Phone 82030. Dtr

**TYPEWRITERS:** Standard & Portable all makes. Free delivery & pick up at your convenience. Rent may apply toward purchase. REPAIR all makes. Ph. 85551. Crane & Co., 722 N. 4th.

We rent refrigerators, washers, sewing machines, cleaners, waxers. Westinghouse and Thor products. Guibransson pianos, musical instruments and supplies. SALISBURY'S in Aggieville. Dtr

Tuxedos and white dinner jackets. Woody's in Aggieville. Dtr

### ROOM FOR RENT

Summer basement room for men. Second door from campus. 1219 Thurston. Tel. 84796. See or call after 5 p.m. Dtr

### FOR SALE

1941 Plymouth coupe. Good shape. Call 68074 or 65B Hilltop. 143-146

27-ft. Streamlite house trailer. Good condition. To be sold to highest bid made by Friday. 26 West Campus Courtss. 143-146

### BUSINESS SERVICE

Radio Service, tubes and parts home and car radios repaired. Young Radio Service. 504 N. 3rd. 82926 Dtr

### MISCELLANEOUS

Attention students! Take advantage of the Dairy Ann's FREE snack delivery service while studying. Malts, shakes, sundaes, sandwiches. Delivered at 7, 9 and 11 p.m. Ph. 85149. Dtr

**GRADUATES NOTICE.** We are taking reservations for trailers. Come to us with your moving problems. **NATIONWIDE SERVICE.** SMITH TRAILER RENTAL, 120 E. POYNTZ. Dtr

### LOST

Billfold, in center section of Ag building, 2nd floor. Keep money, return papers and billfold. Lloyd Marshall, Ph. 69417. 143-145

White leather jacket. \$5 reward. Contact Ernest Schmidt, North Campus Courts, or Box 176, College Post Office. 143-145

### WANTED

1 or 2 riders to the East coast. Leaving Friday, May 27. Call 68962. Ask for Dick Bennett. 143-146

### MOVING

Inexpensive furniture transportation. Protection by liability insurance. Any distance considered. See Larry A. Jackson, 69-B Hilltop, Ph. 66687. 142-146

### HELP WANTED

Would like to contact young man interested in caring for a lawn through summer. Phone 85104. 143-146

### RIDES AVAILABLE

Anyone wishing ride to Seattle and other Pacific Northwest points or other points north and west of Kansas, Ph. 83400. 143-146

Leaving for Los Angeles, Calif., May 28. Want one passenger. Call Stan at 68763 between 5-7 p.m. 143-146

Student desires ride to Colfax, Washington. Will share expenses. Contact Gerald E. Thiersten, 217 West Stadium, Ph. 69960. 143-145

## Dean Schlaphoff To Receive Honor

Doretta M. Schlaphoff, dean of Home Economics, is one of seven outstanding women in home economics selected to appear on the "Parade of Personalities" program, part of the 46th annual meeting of the American Home Economics Association this June in Minneapolis.

## Ag Council To Consider Tribunal Appointments

Agricultural students interested in positions on the tribunal should plan to attend the special meeting of the newly elected Ag Council, Thursday, at 4 p.m. in the Waters reading room, according to Stan Larson, president of the Council.

## Summer Camps Set For ROTC Students

About 78 advanced army ROTC students and about 74 air force ROTC students will report to summer camps for four week sessions beginning June 19 until September 3.

These Army men will report to Fort Carson in Colorado on June 25:

## Fire Control Display Set For Today

A fire demonstration illustrating proper use of equipment for extinguishing fires will be conducted this afternoon at 4 west of the engineering shops building, according to J. J. Smaltz, professor of industrial engineering and arts.

The fire fighting demonstration will be conducted by students in Prof. Smaltz's industrial safety class to show the proper chemical extinguisher to use on various fires. The students will start fires and show how some chemicals accelerate the fire rather than put it out, Prof. Smaltz said.

**VIRGIL CARRIER, ME Sr.** and **William Sartorius, IE Jr.** will act as master of ceremonies. Anyone interested in the demonstration is invited to watch, Smaltz said.

**Ronald Clair, ME Sr.** and **William Iott, ME Sr.** will demonstrate the use of asbestos suits and blankets in a fire. Water sprinkler heads, which automatically turn on when the fire reaches a certain temperature, will be shown by **Harold Velasquez, IA Jr.** and **William Piper, IA Sr.** A soda acid extinguisher will be used on a rubbish fire by **Hubert Smith, ME Sr.** and **John Youngberg, ME Sr.** and **Raymond Simpson, ME Sr.** and **Lloyd Craig, IA Sr.** will show how the same soda acid extinguisher should not be used on a gasoline fire.

**JAMES HOTCHKISS, IE Soph.** and **Harold Wilcox, ME Jr.** will use a vaporizing liquid extinguisher on a gasoline fire and **Maurice Goff, IA Sr.** and **Robert Exline, IA Jr.** will use a foam extinguisher on a gasoline fire.

The proper and improper ways of putting out a magnesium fire will be shown by **Carroll Orr, IE Sr.** and **David Houston, IA Jr.** **Jerald Logan, IA Sr.** and **Fred Shore, IA Sr.** will demonstrate a carbon dioxide extinguisher on a running fire.

**A K-STATE** psychologist, Prof. **Walter H. Crockett**, has been awarded a \$1,600 research grant by the Social Science Research Council, New York City. The grant is to support a series of investigations to find out how accurately people judge one another and to determine what factors enable some persons to make more accurate judgments than others.

**Ronald O. Barton, Ludwig Bezemek, Sheldon Bogen, Edward K. Bowdon, Richard F. Boyd, Jan Brumm, James Conboy, Peter Dahlquist, David Dary, Norman Dawson, Walter Dietz, Hoyt Eells, Douglas Eriksen, Robert Esterl, Frank M. **CONSTRUCTION** on the new auditorium addition to Danforth chapel continues as laminated wood arches dominate the scene. When completed, the \$131,000 auditorium will seat approximately 470 persons in addition to the chapel.

## 156 Seniors To Receive Gold Bars

About 156 graduating seniors in advanced air force and army ROTC will receive commissions as second lieutenants in the Army reserve and Air Force reserve at commencement exercises, May 29.

Candidates for commissioning in the army reserve:

**Richard Ahlvers, Robert Beal, Ann Belden, Bruce Bellamy, Duane Blackwood, Kenneth Cousins, Eugene Cramer, Marvin Decker, Norval Deschner, James Drolte, Thomas Duggan, Burton Eddy, Carl Granger, Jr., Jerry Hampton, Kenneth Hebrank, Howard Hill, Jr.**

**CARTER HOSTETTLER, Franklin Houser, Warren Howard, Kendal Hower, Edwin Jenkins II, Herbert Lee, Richard Lee, Edward Mackender, Carl Nestler, Kent Poore, Roger Reitz, Ronald Riggs, Gary Rowley, Weldon Russell, William Sheets, George Sherman, Ross Siegle, Willis Skinner, Don Slade, Damon Slyter, Leonard Slyter, Duane Stoskopf, James Tangeman, Wayne Thies, Arlon Thompson, Richard Thompson, Harold Tumaz, Charles Wilson, and John Augustus Youngberg.**

Those receiving commissions in the army veterinary corps are:

**Edward Shaler Ackerman, Winfred Andrews, Harry Jesse Baker, Clair Butler, Raymond Oscar Cooper, Byron Denholm, Hiram Faubion, Robert Featherston, John Ferguson.**

**RICHARD FISH, Dale Gigstad, Ross Kettler, Martin Kvitle, Earl Leslie, Dudley Pautz, James Payne, Melvin Pettit, Eugene Rizek, Richard Sambol, Rollin Vickery, Sonald Waddell, Richard Lester Wampler, Carroll Welch, Meredith Wiltfong.**

Those receiving commissions in the air force reserve are:

**Pelham E. Adams, Dean E. Alexander, Gary D. Atkinson, Donald W. Ayers, William H. Bergman, Gerald A. Bradley, John A. Bradshaw, Donald D. Brown, Earl M. Brown, Harold J. Burre, Fred C. Casterline, Ronald Keith Clair, Calvin B. Coffin, Harry D. Dible, Roy E. Drum, Dean P. Dyer, John R. Eldson, Jimmie L. Fink, Norman H. Fitzsimmons, Jerry A. Friesen.**

**HERBERT B. FUNK, George R. Gammell, Edward Le Roy Griffin, Thomas E. Gillen, Charles N. Grandy, Kenneth K. Gowdy, Joseph Habr, Loren E. Harris, Steve E. Hennessey, Charles E. Hill, Charles E. Imthurn, Morris C. Jones, Donald L. Jordon, Norman D. Kayner.**

**Robert F. Layton, James A. Loomis, Darrel D. Lowell, William E. Mann, Duane C. Martin, James I. Mattson, Wessley R. McMillen, Jerry L. Mershon, Ronald J. Meyers, Richard M. Miller, Raymond E. Morris, Martin G. Mugler, Carl R. Myers, Ronald E. Myers, Glenn E. Neis, Joseph K. Nevins.**

**ELGENE R. NICHOLS, Douglas Overall, Gilbert N. Park, James L. Parks, Donald C. Peterson, Richard A. Pickett, Daryl E. Pultz, Richard R. Reinhardt, Warren D. Reynolds, Ernest H. Schmidt, Paul G. Schmidt, Walter Eldon Schoen, Wayne O. Sheets, Gabriel Seidman, Frederick L. Shore, Cecil R. Shove.**

**Thomas William Skinner, James A. Smith, Kenneth D. Smith, Richard M. Smith, Robert E. Smith, Clinton L. Stalker, Jr., Howard D. Stitt, Ralph S. Titus, Charles M. Teed, Philip J. Unrein, William A. Wareham, John A. Weese, and Willard A. Wright.**

**THOSE RECEIVING** commissions in the veterinary corps of the Air Force reserve are:

**William Bracken, Donald Cox, Barry Emerson, James Feeter, Marcus Humphrey, Harold Jenkins, and Thomas Pollard.**

## Korean Veterans Must Sign for GI Checks

Korean veterans should sign the payroll before the end of the semester, according to **Wendell Kerr**, veterans' service officer.

Kerr also asks that veterans be sure to leave their summer addresses with his office so that checks can be mailed without any delay.

## Ag Experiment Work Under Inspection

**Dr. D. L. Espe** of the federal office of experiment stations is spending two weeks at K-State in discussions with **Dr. Arthur D. Weber** and members of the Kansas agricultural experiment station staff.

**Dr. Espe's** mission is the annual review of research being done with federal grant-in-aid funds. K-State has research projects financed by the state, federal grants-in-aid, USDA funds and personnel, and by commercial funds.

The review by **Dr. Espe** and co-workers is concerned with research projects using grant-in-aid funds. K-State has 96 such research projects on which \$345,000 in federal grants is being spent this year.

## Rock Springs Spring Cleanup Project of 4-H

The Collegiate 4-H club will hold their annual spring cleanup at Rock Springs ranch near Junction City on Saturday, May 21, beginning at 9 a.m., according to **Virginia Devinish** of Salina, chairman of the cleanup committee.

The Rock Springs house cleaning is an annual spring project for the Collegiate 4-H'ers, who go out for one day to at least partially clean up the camp in preparation for the oncoming horde of campers.

The K-State students clean out the swimming pool, clean out tents and put canvas on them, take mattresses out of storage and put them on beds, mow the grass around the tent areas and around the administration buildings, clean the kitchen and dining room, put up volleyball nets and fix up softball diamonds, and other odd jobs.

Around 6 o'clock the Collegiate 4-H'ers will have a picnic and a songfest, followed by a late swim, if the weather is favorable.

## Ag Sophomore Wins Blue Key Scholarship

**Arnold Appleby**, sophomore in ag education from Formoso, Kansas, has been named as the winner of a \$200 Blue Key scholarship, according to **Bill Bergman**, chairman of the Blue Key scholarship committee.

Appleby was just recently honored at ag seminar for having the highest grades in the School of Agriculture as a freshman. He holds offices in the Block and Bridle club, Ag Education club, and Alpha Gamma Rho fraternity. He is an active member of Alpha Zeta, Collegiate 4-H club, and college pep band.

Applicants should have a two point grade average or better, with emphasis being placed on leadership potential, and some consideration being given to need, **Bergman** said.

## Vet Leaders To Dedicate New Clinic

Many of the nation's leaders in the field of veterinary medicine will be at K-State early in June.

They will be here June 2 to participate in the dedication of the new Dykstra Veterinary hospital and the observance of the 50th anniversary of the establishment of a four year curriculum in veterinary medicine.

Among those planning to attend the celebration, as well as to participate on the program for the 17th annual conference for Kansas veterinarians June 3 and 4, will be **Dr. Voyd Cross**, dean of the Colorado A&M College Veterinary School and president-elect of the American Veterinary Medical association; **Dr. C. A. Brandly**, head of the Department of Veterinary Science at the University of Wisconsin.

**Dr. W. A. Hagan**, Dean of the New York State Veterinary college; **Brig. Gen. E. W. Young**, chief of the veterinary division, office of the surgeon general, Washington, D.C.; **Brig. General W. O. Kester, USAF(VC)**, office of the surgeon general, Washington, D.C.; all are K-State graduates except **Dr. Cross**.

**Dr. E. E. Leasure**, Dean of the K-State School of Veterinary Medicine, said all of the school's graduates, as well as members of the Kansas Legislature and leaders in the field of veterinary medicine, have been invited to the golden anniversary celebration and hospital dedication.

# Neutrality Rejected By Border States

Compiled from the Wires of United Press  
By DICK CARR

Italy, West Germany and Yugoslavia rejected today in advance Soviet long-range plans to convert them into neutral buffer states between West and East.

Premier Mario Scelba outlined Italy's position in a fighting speech before a group of farmers in Rome last night in a speech Western diplomats said was a major step in halting Italy's dangerous drift toward neutralism.

In Bonn, Chancellor Konrad Adenauer sent out orders to his key ambassadors in Washington, London and Paris to return next week for "consultations and instructions" to counter the Soviet campaign to neutralize Germany.

The policy was sounded by Soviet Foreign Minister Vyacheslav Molotov in Vienna this week before he returned to Moscow from signing the Austrian state treaty. He made it clear he would press for Germany's neutrality during the Big Four talks "at the summit."

Western diplomats pointed out Adenauer recalled the three ambassadors at the moment the West was making serious preparations for the Big Four talks with the Soviets. It coincided with the Soviets major campaign to weld the 70,000,000 Germans into a neutral bloc.

Yugoslavia expressed its opposition to neutrality for Yugoslavia through the official press, and reacted with a firm no to foreign suggestions that Soviet leaders may succeed in neutralizing the nation when they confer with Marshal Tito late this month.

## Israeli Force Attacks Egyptian Outpost

Tel Aviv, Israel—Israeli armed forces attacked an Egyptian army outpost in the Gaza strip early today in "retaliation" for an Egyptian landmine ambush that killed three Israeli officers, an army spokesman announced.

A Cairo communique reporting the latest bloody incident along the tense border claimed the Israelis suffered "heavy casualties" and left behind large quantities of ammunition and explosives. It said the Egyptians had no casualties.

Lt. Col. Salah Gohar, chief of the Palestine affairs department, said the Israeli casualties were confirmed "by the presence of many pools of blood and abandoned, blood-stained clothes."

An Israeli army unit stormed the Egyptian position near Kissufim last night and blew up all installations, an Israeli spokesman said. The attacking troops suffered no casualties in the operation, the spokesman added.

The Egyptians manning the stronghold fled before the installations were destroyed, the spokesman explained.

The Israeli army said the raid was carried out "in consequence" of Tuesday's explosion of an Israeli army vehicle in the Kissufim area. The blast killed three officers and wounded two others.

Israeli authorities have blamed the Egyptians for the landmine ambush. They said other anti-vehicle mines have been discovered in the area and have been turned over to United Nations observers. Some of the mines have been inscribed "made in Egypt," the authorities said.

## Communist Guards Fire on West Berlin Taxi

Berlin—Communist border guards fired on a West Berlin taxi today and East Germany further tightened its "baby blockade" on the western half of this divided city deep in Red territory.

Red police pegged seven shots at the taxi as it drove along a border road on the boundary of the British sector of Berlin and the Soviet zone of Germany. Western police reported no one injured.

A British military police jeep patrol raced to the scene of the shooting but the Red border guards had withdrawn.

The Communists clamped new restrictions on inter-zonal travel on the eve of a meeting of the Big Four ambassadors to Germany on the Communist "pocketbook" blockade of West Berlin.

Western officials said the Reds sharply reduced the flow of East Germans to West Berlin and West Germany as well as cutting down the number of West Germans permitted to enter the Soviet zone.

## Polio Cases Up From Last Year So Far

Washington—The U.S. public health service said today that 189 new cases of polio were reported in the nation during the week ended May 14.

That represented an increase of about 27 percent over the 149 cases reported during the preceding week. It was about 25 percent more cases than the 151 reported during the corresponding week of 1954.

The total number of polio cases for this calendar year stood at 1,786 compared at 2,271 in the comparable period of last year. For the "disease year" starting April 1, there have been 722 cases in 1955 compared to 718 in 1954.

## Calendar

Thursday, May 19

Poultry club, Ag137, 7:30 p.m.  
Wildcat Fencing club, N108, 7 p.m.  
Orchestra, M101, 7:30 p.m.  
Pershing Rifles drill, MS drill field, 5 p.m.  
Gamma Delta church service, Danforth chapel, 5 p.m.  
Navy Reserve, A109, 7:30 p.m.  
Collegiate 4-H, Rec center, 7 p.m.

Home Economics teaching club, 1611 Laramie, 4 p.m.

Friday, May 20

K-State Christian Fellowship, A212, 7 p.m.

## Guild Helps Trace Irish Ancestors

Dublin (U.P.)—A new effort to bring dollars to Ireland has been started by a man who believes Americans of Irish descent want special but inexpensive attention when they come here to find out about their ancestry.

Vincent J. Ryan got the idea for his Irish Ancestry Guild when he started getting letters from America asking for background on Irish surnames.

HE HAS TAKEN over a castle at Clew Bay in County Mayo to house American visitors who want to spend all, or part, of their vacations here living in Irish surroundings while the guild traces their forefathers.

Ryan said that too often Americans go home with a wrong impression of the Irish way of life.

"The guild has made hundreds of friends, particularly among Americans, through its work in explaining the origin, meaning and location of Irish family names, and in providing maps and information on every aspect of Irish life," Ryan said.

"MANY AMERICANS, in their letters, have deplored the fact that there is no cultural center to receive them when they visit Ireland, where they may receive a friendly welcome and be made to feel at home as well as being given advice on tracing their origins. Rosturk Castle is the guild's answer to need for giving the perfect welcome to our visitors."

Ryan said hostesses, "chosen for their charm, personality and knowledge of Irish life and customs," will insure that the guests receive a warm and friendly Irish welcome.

THE CASTLE IS steeped in atmosphere. Coats of arms of Irish families and priceless old paintings look down from the walls of the rooms. In the library are books and maps outlining the origin and history of all the famous Irish families. Paneling from wrecked Spanish galleons is a feature of the dining room, and outside there is a private beach about which many tales of smuggling and slaughter have been written.

Croagh Patrick, Ireland's holy mountain, is across the bay; out to sea is the famed Clare Island, former headquarters of Grainne O'Malley, one of the greatest woman chieftains in Irish history, in the grounds are the ruins of a fortress built by Grainne.

GUESTS CAN FISH, boat, swim, visit the islands, travel the countryside with the hostesses—or just drink Gaelic coffee in the Blue Room.

## Little Man on Campus

by Bibler

## Man Sinks Millions In Hawaiian Resort

By GEORGE REMINGTON

Honolulu (U.P.)—Industrialist Henry J. Kaiser, who came to Hawaii for a vacation 5 months ago and is still here, wants to spend \$110,000,000 on a resort development to lure more tourists to the islands.

The tourists are eager to come, he believes. What Hawaii needs is a place to put them.

The territory also needs more tourist business to take up the slack in her economy, where government activities and the sugar and pineapple industries leave off.

KAISER'S ANSWER is a \$20,000,000 project to create an 18-acre eyesore area on Waikiki beach into the biggest single resort ever developed in the islands. There would also be a \$50,000,000 resort on a man-made island off Waikiki, and a \$40,000,000 development on the Kona coast of the island of Hawaii, 200 miles southeast of Honolulu.

"The vacation business is a new industry in a new era," the 73-year-old former shipbuilder said in an interview. "People are getting twice as much vacation time as they used to. Right there you have a 100 per cent increase in the vacation industry."

Kaiser said Hawaii is the most likely spot to draw tourists because it is the only truly year-round resort area accessible to most Americans.

"THERE'S A NEED for more vacation facilities—a human need. I've always found you could be successful wherever you could find a human need and make an effort to fill it," he said.

Kaiser and his wife came to Hawaii in February, 1954, for a

visit. They soon succumbed to the lure of the islands and bought a beach home in the luxurious Kahala district for \$187,000.

Since then Kaiser and a team of experts have been knee-deep in plans for the resort development. One phase is expected to be a fabulous hotel similar to Miami's new Fontainebleau.

THE HAWAII developments doesn't mean Kaiser is pulling out of any of the other big deals he is involved in, such as \$40,000,000 project to build autos for Argentina and a \$56,000,000 contract to bore a 13-mile tunnel through solid rock and then build a dam in Australia.

But the tourist enterprise has a special interest for the man who is most famous for his shipbuilding exploits in World War II.

"You see, when I was 22 I decided Florida never would develop a tourist business and passed up a chance to be in on the ground floor there. Then I went on to figure that Palm Springs and Las Vegas were desert sand-traps and always would be."

"I don't want to miss the boat again."

## Student Union Won't Hurt Business, Merchants Say

By ANNE HUTCHERSON

How will the opening of the new Student Union next year affect the business of Manhattan merchants? Recent interviews with Manhattan merchants indicate that they do not expect their business to be greatly affected by the Union.

Dale Simmons, owner of the Canteen, said he thought that his business would suffer for about three months after the Union opens. Then, he believes, his business will return—after the newness of the Union has worn off.

If business returns as he expects, Simmons plans extensive remodeling of the Canteen.

TED VARNEY, owner of the college bookstore in Aggieville, said his business will not be harmed if the Union does not include a cooperative bookstore, such as is being considered.

Even if the Union did operate a cooperative bookstore, Varney said he did not believe his business would be affected.

"The trend of such bookstores has been that, unless they are subsidized by taxes, they cannot offer lower prices than private bookstores," Varney said.

One reason that such bookstores cannot sell at lower prices, Varney said, is that they would have essentially the same operating expense as private bookstores.

"ANOTHER REASON that tax-subsidized college book stores usually must charge retail prices is

that they must help meet the expenses of the college union in which they are located," Varney said. "Or else, the college itself needs the profit of retail prices on books."

Unless the college charges retail prices on books, it will probably have to charge higher student fees, Varney went on to say.

"Selling books is not really a very profitable business," according to Varney. "Considering that the owner of a bookstore must hire people and pay taxes, he is pretty lucky if he can put in his pocket a fraction out of every dollar he takes in."

BOOKS COME sixth in a list of student expenditures, Varney said. The student spends most on food. Next comes housing, tuition, clothing, entertainment, and finally books.

R. J. Cunningham, manager of the Pla-Mor bowling alley at 316 Houston, said that the bowling alley in the Union would not harm his business because the great bulk of his customers are townspeople and soldiers from Fort Riley. He said that several years ago he had more student customers when the fraternities had a bowling league.

Cunningham said the Union bowling alley would help his business in the long run by stimulating interest in bowling.

Manhattan has long needed another bowling alley, Cunningham said, to take care of the many people interested in bowling.

## Freshman Repeats Father's Honors In 4-H Club Work

For the first time in Kansas 4-H club history, the daughter of a winner of the coveted annual trip award to the National 4-H club camp in Washington, D.C., has been chosen to make the trip.

Leda Faye Vernon, HE Fr, will attend the camp from June 15-22 in recognition of her outstanding 4-H leadership and project accomplishments.

Since becoming a 4-H member over 10 years ago, Leda has been outstanding in 4-H events, including judging, demonstrations, sheep showmanship and promotional activities.

As a third-time national camp winner she will attend 4-H Round-up on the campus this summer.

Last December Leda received a national achievement scholarship for \$300 at the 4-H Club Congress in Chicago.

As a delegate to the National club camp, Leda will become a member of the Master 4-H club, composed of the Washington trip winners. Among present members of this club are four K-Staters, Luanne Hicks, HDA Jr, Marilyn Pence, HE Fr, Gary Neilan, AgJ Soph, and Irma Sjo, Soc Soph.

## Airline Positions Open to Coeds

Girls interested in positions as airline hostesses or reservationists are being offered a chance to apply for jobs with the Braniff International Airways, the College placement bureau has announced.

The company will not have a representative on the campus this year, the bureau said, but application blanks and necessary information may be obtained at the bureau office.

## Graduates Choose Summer President

Bennie Cooper, Sta Gr, has been elected president of the Graduate Student association for the summer session, Dale Olson, retiring president, said.

Other officers elected were: Francis Welsh, Chm Gr, vice-president; Victor Adler, Ent Gr, corresponding secretary; Eugene Lutz, Chm Gr, treasurer; Grace Cables, FdN Gr, social chairman; and Jane Lewis, Clo Gr, program chairman.

## Art Professor Displays Work

Paintings, drawings, wood carvings, and ceramic objects created by Louis Hafermehl, assistant professor of painting and drawing, are being featured this week in a one-man show at Cranbrook Art academy, near Detroit, Mich.

Hafermehl has been studying at Cranbrook since last fall and will receive his master's degree from that school this month. He will teach painting there this summer but will return to K-State in the fall.

Hafermehl has presented one-man shows in Salina, Hutchinson, and Manhattan. His paintings have been exhibited in the Nelson Art gallery in Kansas City and in the Josslyn Memorial Art gallery in Omaha.

A graduate of Bethany college at Lindsborg, Hafermehl joined the K-State staff in 1946. He has studied at Chicago Art institute and at the Art Students' league in New York City.

## Alpha Kappa Psi Will Initiate 14

Fourteen new members will be initiated into Alpha Kappa Psi, professional business fraternity today at 7 p.m. in Thompson hall.

The new initiates are Dave Pfeutze, Joe Breitestein, Bob Sellberg, Ted Leonard, Don Weixelman, Allen Muecke, Dave Abernathy, Elmo Lund, David Chamber, Pat Wilkerson, Chad Sims, Wayne Forsberg, Allan Van Nice, and Bob Steele.

## SCIENCE MADE SIMPLE: NO. 3

Once again the makers of Philip Morris, men who are dedicated to the betterment of American youth, have consented to let me use this space, normally intended for levity, to bring you a brief lesson in science.

It is no new thing, this concern that the makers of Philip Morris feel for American youth. Youth was foremost in their minds when they fashioned their cigarette. They were aware that the palate of youth is keen and eager, awake to the subtlest nuances of flavor. And so they made a gentle and clement smoke, a suave blending of temperate vintage tobaccos, a summery amalgam of the most tranquil and emollient leaf that their buyers could find in all the world. And then they designed their cigarette in two sizes, king-size and regular, and wrapped them in the convenient Snap-Open pack, and priced them at a figure that youth could afford, and made them available at every tobacco counter in the land.

That's what they did, the makers of Philip Morris, and I for one am glad.

The science that we take up today is called astronomy, from the Greek words *astro* meaning "sore" and *nomos* meaning "back." Sore backs were the occupational disease of the early Greek astronomers, and no wonder! They used to spend every blessed night lying on the damp ground and looking up at the sky, and if there's a better way to get a sore back, I'd like to hear about it. Especially in the moist Mediterranean area, where Greece is generally considered to be.

Lumbago and related disorders kept astronomy from becoming very popular until Galileo, a disbarred flenser of Perth, fashioned a home made telescope in 1924 out of three Social Security cards and an ordinary ice cube. What schoolboy does not know that stirring story—how Galileo stepped up to his telescope, how he looked heavenward, how his face filled with wonder, how he stepped back and whispered the words heard round the world: "L'etat, c'est moi!"

Well sir, you can imagine what happened then! William Jennings Bryan snatched Nell Gwynne from the shadow of the guillotine at Oslo; Chancellor Bismarck brought in four gushers in a single afternoon; Hal Newhouser was signed by the Hanseatic League; Crete was declared off limits to Wellington's entire army; and William Faulkner won the Davis Cup for his immortal *Penrod and Sam*.

But after a while things calmed down, and astronomers began the staggering task of naming all the heavenly bodies. First man to name a star was Sigafos of Mt. Wilson, and the name he chose was Betelgeuse, after his wife Betelgeuse Sigafos, prom queen at Michigan State College from 1919 to 1931.

Not to be outdone, Formfig of Yerkes Observatory named a whole constellation after his wife, Big Dipper Formfig, the famed dirt track racer. This started the custom of astronomers naming constellations after their wives—Capricorn, Cygni, Orion, Ursa Major, Canis Major, and so forth. (The Major girls, Ursa and Canis, both married astronomers, though Canis subsequently ran off with a drydock broker named Thwaite Daphnis.)

After naming all the heavenly bodies, the astronomers had a good long rest. Then, refreshed and brown as berries, they undertook the gigantic project of charting the heavens. Space is so vast that it is measured in units called "light-years." These are different from ordinary years in that they weigh a good deal less. This, of course, is only relative, since space is curved. As Einstein laughingly said, "E=mc<sup>2</sup>."

Well, I guess that covers astronomy pretty thoroughly. But before we leave this fascinating topic, let us answer one final question: Is there life on other planets?

The answer is a flat, unequivocal no. Recent spectroscopic studies have proved beyond a doubt that the atmosphere of the other planets is far too harsh to permit the culture of the delicate vintage tobaccos that go into Philip Morris Cigarettes... And who can live without Philip Morris?

©Max Shulman, 1955

This heavenly column—like the author's more earthy ones—is brought to you by the makers of PHILIP MORRIS cigarettes—who feel you'll find real enjoyment in their product.

## Old English Barn May Be Pilgrims' Ship, Mayflower

Jordans, England, May 19 (U.P.)—There is a shabby, old barn in a little settlement of the Society of Friends, the Quakers, that is either one of the most important relics of American history—or just a shabby, old barn.

Practically everybody agrees that the framework of the barn was made from the timbers of a ship named "Mayflower" sold for salvage to farmer William Russell in 1628.

But was it THE Mayflower, the one that took the Pilgrims to Massachusetts in 1620? I wish I knew. All I can say after checking around is that some people think it is, but more think it isn't.

THE STORY begins when farmer Russell bought the ship hulk for what was then the equivalent of about \$500. He upended it on his property in this backwater of London and it made a very serviceable barn indeed.

Some 30 years later he sold all his property to the Friends.

It was in his original farmhouse that William Penn and other Quakers were arrested in 1670 and sent to prison even though they argued they were only worshipping as conscience dictated.

As time went by the barn became a community center for the Friends, some of whom began to wonder whether the similarity of name might be more than coincidental. One of these was Dr. James Rendel Harris, curator of manuscripts of the John Rylands library in Manchester and a well-known scholar and author.

HE WROTE a book in the 1920's which argued that a crack in one of the beams arched across the barn checked with a similar crack in one of the Mayflower beams as reported in the journal of William Bradford, governor of the Plymouth colony.

Dr. Harris convinced a lot of people, but some of his old associates in the Quakers wonder whether he was writing with tongue in cheek.

"He was a great leg-puller," said Stephen Thorne, recording clerk of the Quakers.

Speaking for the Quakers, Thorne said they made no claim that the old barn was the original Mayflower.

And the ancient buildings preservation trust, under whose jurisdiction the barn would come if it were the Mayflower, reports that although the main timbers appear to be ship's timbers, there is no evidence they came from the colonists' boat.

PROJECT Mayflower, which plan to sail a replica of the Mayflower to the United States next year as a gesture of Anglo-American unity, is building its craft from plans by naval architect William A. Baker of Hingham, Mass. The model of the Mayflower from the Boston state house has been sent here so the builders can duplicate its exterior decoration.

Why not measure the old barn if an exact replica is wanted?

"We don't regard the barn as the original Mayflower," said Michael Mordaunt-Smith, one of the officials of the project.

So the weight of expert evidence is against the barn.

But here's something to think about: Johanna Jones, widow of Christopher Jones, master of the Pilgrims' Mayflower, received permission to sell the ship as salvage in 1624. Four years later a "Mayflower" became a barn in Buckinghamshire.

Were they the same?

# Summer Wedding Plans Announced with Roses

## Roses

### Dierdorff-Staley

Roses at the Alpha Xi Delta senior dinner Thursday, May 12, announced the wedding date of Judith Dierdorff to Donald R. Staley. They will be married on June 5 at the First Methodist church in Smith Center. Judy is a senior in elementary education from Smith Center. Don is a graduate of Kansas State from Salina.

♦ ♦ ♦ ♦

### Talbott-Goss

Roses at the Pi Beta Phi house, May 8, announced September 13 as the wedding date of Sharon Talbott and Max Goss. Sharon is a sophomore in elementary education and Max is a junior in physiology and a Sigma Chi. Both are from McPherson.

♦ ♦ ♦ ♦

### Conboy-Mansfield

Roses at Waltham hall announced the engagement of Phillis Conboy to Charles Mansfield. Phillis is a senior in speech from Larned. Charles is a senior in physical education from Clay Center. June 1 is the wedding date. The wedding will be in Larned.

♦ ♦ ♦ ♦

### Johnston-Reese

Roses at Waltham hall, May 11, announced May 29 as the wedding date of Nancy C. Johnston and 2nd Lieut. Jerry Reese. Nancy is a junior in elementary education from Wichita. Jerry graduated from Kansas State in January. He was a major in business administration and accounting. Jerry is from Hiawatha.

♦ ♦ ♦ ♦

### Kowalski-Bruno

Roses at Waltham hall, May 11, announced June 18, as the wedding date of Shirley Kowalski and Lou Bruno. Shirley is a junior in home economics and teaching from Emporia. Lou is from the Bronx, N.Y., and is stationed at Ft. Riley.

♦ ♦ ♦ ♦

### Olson-Harris

Roses at Van Zile hall Thursday night announced the approaching marriage of Phyllis Olson and Loren Harris. The wedding will be June 5 at the Ada Lutheran church, Kackley. Phyllis is a senior in technical journalism from Scandia. Loren, a senior in agricultural administration is from Clayton.

♦ ♦ ♦ ♦

### Kelsey-Coen

Roses at Van Zile hall Thursday night announced June 26 as the wedding date of Peggy Kelsey, a senior in elementary education from Ottawa, and Marion Coen also of Ottawa. The wedding will be in the Trinity Methodist church in Kelsey.

♦ ♦ ♦ ♦

## Engagement

### Rundell-Haegert

Chocolates at Waltham hall May 10 announced the engagement of Jo Anne Rundell to Daryl Haegert. Jo Anne is a sophomore in home demonstration agent from Pierceville. Daryl is a junior in agriculture education from Esbon.

♦ ♦ ♦ ♦

## Pinnings

### Szychowski-Johnson

Bill Johnson passed cigars at the Lambda Chi Alpha house Sunday, May 16, to announce his

pinning to Betty Szychowski. Bill is a freshman in agriculture from Leavenworth and Betty is now working in Leavenworth.

♦ ♦ ♦ ♦

### Cobun-Duckworth

The pinning of Nancy Cobun to Bill Duckworth was announced with chocolates at Pi Beta Phi, May 11. Nancy is a sophomore in psychology from Hiawatha. Bill graduated in January and is now in Des Moines, Iowa.

♦ ♦ ♦ ♦

### Markle-Stockham

The pinning of Jim Stockham and Shelley Markle, both of Lyons, was announced recently at the Sigma Alpha Epsilon house. Jim is an architecture freshman and Shelley is a pre-nursing sophomore at Kansas university.

♦ ♦ ♦ ♦

### Cary-Funk

Cigars at the Acacia house May 4 announced the pinning of Jo Ann Cary and Benny Funk. Jo Ann is a senior in sociology from Manhattan and Benny is a business administration senior from White City.

♦ ♦ ♦ ♦

### Belcher-Mendenhall

Cigars at the Tau Kappa Epsilon house announced the pinning of Dick Mendenhall and Diane Belcher Sunday, May 15. Diane works in Hutchinson. Dick, a junior in applied geology, is from Partridge.

♦ ♦ ♦ ♦

### Lentz-Pults

Carolyn Lentz and Daryl Pults announced their pinning May 15 with chocolates at Waltham hall and cigars at the Sigma Nu house. Carolyn is a junior in clothing from New Point, Mo. Daryl is a senior in agricultural administration from Horton. They are planning an August wedding.

♦ ♦ ♦ ♦

## Guests

Week-end guests at the Kappa Kappa Gamma house May 14 were Maryolive Manly and Carol Cooper of Kansas City.

♦ ♦ ♦ ♦

Delta Sigma Phi guests May 15 were John Murray, Pratt; Duane Vise, Don Vise, Wichita; and Byron Worts, Valley Falls.

♦ ♦ ♦ ♦

Southeast hall guests May 13 through May 15 were Mary Ellen Lackey, Mary Milbourne, Janie Haines, and Mrs. George Urban.

♦ ♦ ♦ ♦

Guests at the Alpha Chi Omega house May 13 through May 15 were Lou Slade, Blue Rapids; Shirley Winterscheidt, Kansas City; and Jean Sheets, Clifton.

♦ ♦ ♦ ♦

Pat Henry and Miriam McAuley were Sunday dinner guests at the Phi Kappa Tau house.

♦ ♦ ♦ ♦

Mr. and Mrs. Bob Bill, Albuquerque, N.M., were guests at the Tau Kappa Epsilon fraternity, May 15.

♦ ♦ ♦ ♦

Dinner guests at the Kappa Delta sorority Sunday, May 15, were Miss Marilyn Tavares, and Prof. and Mrs. Earl Hoover and daughter Mollie.

♦ ♦ ♦ ♦

Sunday, May 15 dinner guests at the Alpha Gamma Rho house were Mr. and Mrs. F. C. Hall, Mrs.

George Gemmell, Mr. and Mrs. Albert Kipfer of Wichita, and M. H. Coe, representing national Alpha Gamma Rho of Chicago.

♦ ♦ ♦ ♦

Dale Allen was a dinner guest at the Kappa Delta sorority Sunday, May 15.

♦ ♦ ♦ ♦

Mr. Lun-ju Wei, a Kansas State graduate student from Formosa, was a dinner guest at the Ellen Richards home management house Monday evening, May 9.

Mr. Wei showed slides of his country, the Kansas State campus, and the Colorado U. campus. Also during the evening Neeltje Platteuw and Elizabeth Kooyman from the Netherlands showed slides taken of their native country.

Refreshments were Indonesian tea and French pastry prepared and served by Miss Platteuw and Miss Kooyman. Both are graduate students who live at the home management houses.

♦ ♦ ♦ ♦

## Parties

The Beta Sigma Psi held their Gold Rose formal, May 14, at the chapter house. In the receiving line were Walter Dietz, president; Mrs. John W. Seaton, house mother; Dr. and Mrs. Arlin Feyerherm, and Prof. and Mrs. William Honestead.

♦ ♦ ♦ ♦

Clovie entertained their Manhattan alumnae with a picnic Sunday, May 15, at Sunset Park.

♦ ♦ ♦ ♦

Delta Sigma Phis entertained their dates with a sailors' ball Friday night, May 13.

♦ ♦ ♦ ♦

An exchange card party between Kappa Kappa Gamma and Alpha Kappa Lambda was held Thursday, May 12.

♦ ♦ ♦ ♦

Shipwreck was the theme of the Tau Kappa Epsilon house party Saturday, May 14.

♦ ♦ ♦ ♦

Kappa Deltas entertained their dates at a picnic in Sunset park Friday, May 13.

♦ ♦ ♦ ♦

The Beta Theta chapter of Phi Kappa Tau of KU visited the Alpha Epsilon chapter of Phi Kappa Tau of K-State Saturday, May 14. The two chapters had a baseball game in which K-State won 16-15. A picnic on Bluemont hill was held following the game.

♦ ♦ ♦ ♦

The Phi Delta Thetas held their annual She Delta party Saturday, May 14.

♦ ♦ ♦ ♦

The Pi Kappa Alphas and their dates were entertained at a Beachcomber party Saturday, May 14. Rushees and their dates were guests.

♦ ♦ ♦ ♦

The Sigma Chis entertained their dates at a picnic Friday night, May 13, around the barbecue pit behind their chapter house.

♦ ♦ ♦ ♦

## Senior Dinners

The members of Theta Xi fraternity honored their senior members May 11 at the senior dinner. Seniors honored were: Richard Rice, Frank Wylie, James Weatherford, Walter McKim, Wayne

Sheets, James Moore, Ronald Frahm, and Martin Burke. Mr. and Mrs. Bob Smith from Manhattan were guests. Mr. Smith is the alumni president.

♦ ♦ ♦ ♦

The seniors of Sigma Phi Epsilon will be honored at a dinner Wednesday, May 18, at the chapter house.

♦ ♦ ♦ ♦

Janet Corwin and Doris Salter were honored at the Senior dinner at the Alpha Chi Omega house Wednesday, May 11.

♦ ♦ ♦ ♦

The Phi Kappas held their senior dinner Wednesday night, May 11. Mr. and Mrs. Don Weixelman of Manhattan were the guests. Seniors honored were: Harry Vis, Jim Tighe, Floyd Niernberger, and Leo Paulich.

♦ ♦ ♦ ♦

The 13 graduating seniors of Alpha Xi Delta sorority were honored at a senior dinner Thursday May 12, at the chapter house.

Stephanie Clayton gave the senior will. Their prophecy was given by Beth Fulton.

♦ ♦ ♦ ♦

The 10 graduating seniors at Waltham hall were honored with a dinner Wednesday, May 11. Dean Helen Moore was a guest.

♦ ♦ ♦ ♦

A senior dinner at the Kappa Kappa Gamma house, Sunday, May 15, honored ten girls.

They were Joe Larson, Elizabeth Lambert, Carol Collins, Ann

Lyon, Martha Nell Carter, Ann Beckmeyer, Verdel Wilson, Sylvia Hyde, Janice Olson, and Pat Harpster.

♦ ♦ ♦ ♦

## College Girls Enjoy Large Food Variety, Dietitian Says

By KITTY OSWALD

Senior girls eat and enjoy a wider variety of foods than freshman girls, Mrs. Florence Walker, Van Zile dietitian, said.

The older girls have been introduced to new foods during their college years and have come to like many of them.

The Kansas girl's tastes are "unsophisticated" upon her arrival at college. She is unacquainted with some of the more expensive foods and the less widely used foods, such as shrimp, mushrooms, and broccoli, Mrs. Walker said.

**THE GOOD** old standbys—hamburgers, hot dogs, and ice cream—rank highest on the preference list of the girls living in these dormitories. For vegetables they like peas, corn, and green beans best.

These are all foods which the girls have known most of their lives. Some of the more unpopular foods among the girls are liver, turnips, and beets.

During the first few weeks of college, the dietitians at the dormitories don't confront the freshman girls with any unusual foods. They introduce new dishes gradually to girls and are careful to serve with these strange dishes

some of the more popular foods, Mrs. Walker explained.

**A POLL** OF the senior girls living at Waltheim hall indicated that they have learned to eat many new foods. Many of these are vegetables, such as broccoli, brussels sprouts, cauliflower and cooked cabbage.

Many new dressings were tried for the first time at college and are now liked by these girls. Veal, lamb, and corn fritters are other newly acquired foods on their "like" list.

Waltheim girls prefer eggs for breakfast, but Northwest girls like sweet rolls. Lemon pie is another favorite of the Waltheim girls.

With the coming of spring weather the girls' fancy has now turned from rich desserts and coffee to fruit and ice tea, Mrs. Walker said.

### Joan Albers Awarded \$160 Pi Beta Phi Grant

Joan Albers, TJ Fr, has been awarded a \$160 Pi Beta Phi scholarship for use during her sophomore year.

The scholarship is based on scholastic ability shown during the freshman year, and also upon financial need.

## K-State's Only Chinese Coed Plans To Teach at Formosan University

By JO ANN HUNT

K-State's only Chinese coed, Yvonne Chen, is a graduate student in chemistry.

Before coming to the United States, Miss Chen studied at the National Taiwan university in Formosa, where she received her degree in chemical engineering. For one year she was an assistant teacher in Taipei, Formosa, at the Institute of Technology.

Miss Chen applied for admission to many schools in the U.S. She was offered a scholarship to Southern Methodist university. On the ship she came here on, there were three Chinese students who had scholarships for study at K-State.

**SHE DECIDED** to come here with them because she dreaded going on to SMU where she didn't know anyone. After she arrived here she was granted a half time research assistantship in chemistry. For her research problem, she is work with egg yolk. She hopes to get her master's degree in May, 1956.

Miss Chen said that her junior high school chemistry teacher was so enthusiastic about chemistry, that she decided to go into chemistry. She hopes to go back to Formosa and teach at the National Taiwan university.

"The situation in China is not too bad," says Miss Chen. "The peace between the Communists

and the Nationalists will take time." The Chinese people don't want another war. So much destruction has been done and so many lives have already been lost, she says.

**THE CHINESE** people are not interested in politics, Miss Chen says. Many people in China farm small amounts of land and barely exist. The Nationalists didn't help these people but the Communists "promised" them help.

Most of the farming class is very ignorant and if they have enough land from which to make a living they are satisfied, Miss Chen says. The Communists won their followers by promising to split up the large holdings of land of the wealthy and give it to the poor.

Formosa was occupied by the Japanese for 50 years. It was returned to China following World War II. Naturally there was a great deal of Japanese influence during those 50 years. Under Japanese control, most educated people spoke Japanese, Miss Chen said.

**BUT THEY** soon learned to speak Chinese after their liberation. In fact they excel the mainland Chinese in ability to speak the pure Mandarin dialect which the government is encouraging all Chinese to use.

Eighty per cent of the Formosans can read, a much larger percentage than on the mainland.

The Formosans are very industrious, obedient, and patriotic, Miss Chen says.

Miss Chen says that all production has increased in Formosa since Japanese control was ended. Crop production has increased and railways and highways are being improved and new ones developed, she says.

**MANY CHINESE** housewives work outside the home, since they have maids to do their housework. Many of them work as clerks, nurses, and teachers. A large number of them write novels, too.

Miss Chen says she likes sports very much and enjoys listening to music. She says basketball is the most popular sport in China.

"It was strange to see so many students driving cars on the campus," Miss Chen commented.

### Ben Cooper Heads Graduate Students

Bennie Cooper, Sta Gr, has been elected president of the Graduate Student association for the summer session, Dale Olson, retiring president, said.

Other officers elected were: Francis Welch, Chm Gr, vice president; Victor Adler, Ent Gr, corresponding secretary; Eugene Lutz, Chm Gr, treasurer; Grace Cables, FdN Gr, social chairman; and Jane Lewis, Clo Gr, program chairman.

### Officers Named For HE Clubs

Officers for the 1955-56 school year have been elected for home ec clubs, Beverly Sargent, HEJ Jr, retiring president of Home Economics Council, said.

The newly-elected officers and their clubs are: Dietetics and Commercial Demonstration club: Jan Boster, DIM Jr, president; Nancy Elliott, DIM Soph, vice-president; Melva Huseman, DIM Soph, secretary-treasurer; and Virginia Adamson, DIM Soph, reporter.

Art club: Delaine Smith, HEA Jr, president; Lois Perry, HEA Jr, vice-president; Helen Bartz, HEA Soph, secretary; and Marian Teare, EEd Fr, treasurer.

Journalism club: Gaye Fryer, HEJ Soph, president; Jane Kamisato, HEJ Jr, vice-president; Charlotte Henry, HEJ Soph, secretary; and Janet Follmer, HEJ Jr, treasurer.

Teaching club: Martha Helmers, HE Jr, president; Marion Hazlett, HE Soph, vice-president; Beth Fulton, HT Jr, secretary; Mary Alice Toburen, HT Jr, treasurer; and Ruth Chaffee, HT Jr, membership.

Extension club: Ardella Rusk, HE Jr, president; Shirley Hundley, HDA Fr, vice-president; Betty Sellers, HDA Fr, secretary; and Ann Eklund, HE Fr, treasurer.

Child Welfare club: Betty Straub, ChW Jr, president; and Phyllis Evans, ChW Soph, secretary-treasurer.

KANSAS STATE COLLEGIAN

Thursday, May 19, 1955-6

## Cats To Meet OU In Season Finale

K-State ends its Big Seven baseball season this Friday and Saturday with a two-game series against league-leading Oklahoma at Norman.

Oklahoma has a 7-1 mark going into the series. The Sooners' latest victim was Colorado, who they defeated in a doubleheader Tuesday, 8-0, 8-4.

The Wildcats have a 2-10 mark against loop competition. They were defeated Tuesday by Nebraska, 8-3. They lost all four of their games with Nebraska this season.

Colorado and Kansas university are the two conference teams defeated by K-State.

Coach Ray Wauthier said he expects to use Daryl Parker and Jim Rhoades as the starting pitchers against Oklahoma.

Rhoades has been K-State's winning pitcher in both conference victories. He pitched a three-hitter in defeating Colorado, 3-2, and a five-hitter in defeating KU, 9-7. His season's record is 3-4.

Parker has a 1-3 mark for the season. He held Nebraska to 2 runs and 5 hits in seven innings Monday, then in the eighth Nebraska scored 4 runs on 3 hits and 2 errors to win, 6-2.

Second baseman Steve Hennessey will not make the trip to Oklahoma, coach Wauthier said. The coach is not sure whether Bob Whitehead and Bill Sinder-son will make the trip.

"They may stay behind to study for their final exams next week," he said.

## Oklahoman Seeks Loop Discus Mark

Lawrence—The Big Seven has produced only four discus throwers who have recorded 160-foot tosses.

One of the most recent of them, Bob Van Dee of Oklahoma, will aim at his first title and the meet record here Friday and Saturday when conference trackmen meet for the 27th outdoor loop track meet.

Van Dee four times has exceeded the conference record of 160-5 1/4, established by Nebraska's Edsel Wibbels in 1940.

Longest of these was a third-place cast of 162-4 3/4 at the Drake Relays last month. This not only is a Sooner school record but a state mark as well. Van Dee followed with a toss of 161-1 1/4 as the Redshirts upset Oklahoma A&M in a dual.

He originally broke John Shirk's long-standing Sooner record as a sophomore last year by winning the Texas Relays at 159-3. He moved that ceiling to 160-9 in a dual against Nebraska. That remained his all-time best until the recent Drake games.

## Big Leagues Worried by Attendance

New York—Major league baseball, in the words of Commissioner Ford Frick, isn't "worried" today over the lack of attendance.

The commissioner said he is merely "concerned."

The fact remains that the fans are becoming more and more noticeable by their absence.

SO THE COMMISSIONER has hired an "independent survey outfit" to find out why. This could be a tipoff that the situation has become critical. The baseball moguls seem really worried.

But do they need a survey to read the handwriting on the outfield wall, For free, Mr. Commissioner, here's what's wrong with baseball:

1. Free television.
2. The games are running too long.
3. No parking facilities when you do go.
4. Club censorship which has reduced players from free souls chock full of color to virtual automatons in flannel.

FRICK'S SURVEY undoubtedly will reveal that free television is the No. 1 culprit.

If you can sit in a relaxed, convivial group in your living room—for free—and watch your favorite big-league team go through its paces, it is a cinch that you aren't going to pay hard-earned money to sit on a relatively uncomfortable seat for the same privilege.

## Mancuso Named K-Club President

Bob Mancuso was elected president of K-Club at a recent election, outgoing president Larry Hartshorn said.

Other officers elected for the K-Club, made up of K-State lettermen, are Roland Alexander, vice-president; Ron Nery, secretary; and Doug Roether, treasurer.

The University of Southern California won the 1954 NCAA track and field meet with 67 points. Missouri university scored 11 points, KU had 4, and Oklahoma 1 1/2.

## Ex-Center Fielder Wins Fourth Game as Pitcher

By UNITED PRESS

Ex-outfielder Hal Jeffcoat might land the Chicago Cubs in first division and himself in a fancy five-figure salary bracket, all because he had sense enough to attach a 75-cent pitcher's toe plate to his shoe.

Jeffcoat, who made the switch from center field 13 months ago because he couldn't hit well enough, was hitting on all cylinders from the mound today with a 4-0 record and a 2.70 earned-run average.

THE 30-YEAR-OLD fastballer, whose pitching already has been labeled "strictly first class" by Milwaukee coach Bucky Walters, turned in a brilliant double-duty effort yesterday in winning one game and saving another as the Cubs swept a twin bill from the faltering Phillies, 3-2 and 7-5.

Jeffcoat came out of the bullpen in the ninth inning of the opener after Richie Ashburn had doubled off Sam Jones to lead off the frame, and Peanuts Lowrey had singled Ashburn to third.

GRANNY HAMNER'S sacrifice fly scored Ashburn, but Jeffcoat retired Dell Ennis and Willie Jones on pop-ups to end the game.

Again in the nightcap, Jeffcoat relieved John Andre with one out in the fourth after the Phillies went ahead, 4-2, with the help of homers by Stan Lopata and Murry Dickson.

Jeffcoat limited Philadelphia to one run the rest of the way, picking up his fourth triumph when the Cubs scored 4 runs in the fifth on a walk, a single by Eddie Miksis, a triple by Gene Baker, and a homer by Bob Speake.

TED TAPPE and Ernie Banks also homered for the Cubs, while Bobby Morgan did likewise for the Phils.

The two victories moved Chicago into second place, 7 1/2 games behind Brooklyn, and the two losses gave Philadelphia a record

of 15 defeats in the last 16 games.

Harvey Haddix and Barney Schultz combined to hold the Dodgers to 7 scattered hits and give the Cardinals their fifth-straight victory, 3-2. When Brooklyn scored in the fourth, it marked the first run off Cardinal pitching in 26 innings.

Southpaw Johnny Antonelli of the Giants pitched a six-hitter against his former Milwaukee teammates, beating them, 4-2.

Rudy Minarcin, making his first big-league start, pitched Cincinnati to a 5-1 victory over Pittsburgh with the help of Ted Kluszewski's two-run homer and Wally Post's two-run double.

CLEVELAND, the pace-setter in the American league, buried Boston under a 19-0 bombing that included homers by Vic Wertheim, Ralph Kiner, and Hank Majeski. Rookie southpaw Herb Score held the Red Sox to 3 safeties and struck out 9.

## Australia Is Working Hard To Keep 1956 Olympics

Melbourne, Australia (U.P)—Australia came perilously close to losing the 1956 Olympic Games, but now the nation is pulling as a team to make the next international sports classic the best yet.

For five years, Australia had squabbled about putting a track and field stadium on its hallowed Melbourne Cricket Ground; about importation of horses; about the bicycle track; about wages for union builders; about accommodations for visitors.

A plain-talking visit to Melbourne last month by Avery Brundage, International Olympic Committee president, served to awaken Australia to the fact it still was in danger of the disgrace of having the Olympics moved elsewhere.

THE GAMES begin in November, 1956, which is Australia's summer weather.

Brundage said he wanted "proof positive" Australia could put on the Olympics when he goes to the IOC meeting in Paris next month for the committee's review of the 1956 Games.

Australia now is busy giving that proof.

Labor troubles have been overcome and work is going full steam on the main stadium on the cricket

ground. Officials expect to be finished in June, 1956.

It will accommodate 120,000, compared with Helsinki's 80,000, and the previous highs in Los Angeles of 105,000 in 1932, and in Berlin of 90,000 in 1936.

IT'S FULL speed ahead, too at Olympic park—an old sports arena about half a mile from the cricket ground. It will have a cycling track, and football and hockey fields, as well as a "futuristic" swimming pool.

There had been a hassle over the cycling track. Plans had been made for a 250-meter board track. Then the International Cyclists union said the track must be the regulation 333.3 meters and made of concrete. Melbourne builders gave in on that.

The impasse over Australia's stringent quarantine restrictions on horses were solved by moving the equestrian events to Stockholm, Sweden.

BIGGEST NUT yet to crack is construction of an Olympic village to house the 5,000 athletes who will compete. It is being built in a self-contained township within 20 minutes travelling time of the stadium.

At the 1952 Games in Finland, the Communist athletes were housed in a camp completely separate from those of the Western democracies. This time, they will be all together and it may lead to some friction off the field.

Hotels already are almost completely booked. Melbourne organizers are lining up accommodations for 30,000 in private homes during the Olympics.

Wonderful things happen when you wear it!

The inevitable choice for the special occasion—because a fragrance is as memorable as the gown you wear. Perfume from \$3; de luxe toilet water and dusting powder, each \$1.75 (all plus tax). Created in England, made in U.S.A. Yardley of London, Inc., 620 Fifth Avenue, N. Y. C.

# Cage Future for Wildcats Looks Bright, Winter Says

By JOAN ALBERS

"I think our basketball future looks brighter than any time since I've been at K-State," Tex Winter says.

By the future, Tex meant the immediate future—next year to be exact.

"However," Tex continued, "I would predict that whoever is coach at Kansas university two or three years hence will receive the Coach of the Year award.

"IF THIS BOY from Philadelphia (Wilt Chamberlain) is as good as they say he is, and he probably is, KU could have a strong basketball team after next year," Tex commented. "They say he can run the quarter in 48.8 and high jump 6-7.

"Agility and speed—what more could you want in a basketball player?" Tex asked.

There is some doubt that the "joyful surprise" Dr. F. C. Allen, KU coach, felt was based solely upon Chamberlain's agility and speed. They say the boy from Philadelphia is 7-feet 2-inches tall.

Tex commented that he was "unjoyfully unsurprised" at the news that Chamberlain will enroll at KU next fall.

JACK PARR, K-State's freshman center from Richmond, Va., is one reason Tex is elated about K-State's basketball prospects for the coming season.

Parr, who is 6-9, scored 15 points in the recent varsity-alumni game, and seems to have the potential to become one of the best centers in the Big Seven this coming season.

Nine other freshmen are among the 17 players Winter has chosen for his squad from the 22 men out of spring basketball practice.

Five of the remaining upperclassmen are lettermen. They are Dick Stone and Gene Wilson, who have lettered two years; and Pachin Vicens, Joe Powell, and Fred Schneider, who have lettered one year.

VICENS and Schneider, guards, and Stone and Powell, forwards, will probably be starters, Tex said.

"Gene Wilson will add valuable experience and speed to the squad," Tex said. "With Parr's all-around good playing, Stone's uncanny outside shooting, and Vicens' and Schneider's speed and good ball handling, our team could be a very potent outfit next year," Tex said.

Meanwhile, Wilt the Stilt from Philadelphia will be waiting for his sophomore year to roll around.

What are K-State's hopes then? Tex isn't commenting.

THE SMILE on the face of basketball coach Tex Winter (right) is due to a large extent to the performance of Jack Parr (left) during spring practice. Winter has high hopes for the Wildcats next season.

## Linksmen Post Low Scores In Four Meets

Although winners of only 2 matches in 12 outings, K-State golfers gained medalist honors four times and tied for medalist honors on three other occasions this season.

K-State's two wins were against conference foes, KU and Missouri, in the last two matches of the season. They lost four conference matches—two to Nebraska, and one each to Iowa State and KU.

KENT POORE was the leading K-State golfer as he had a 5-7 season mark.

Poore won medalist honors against Drake with a 71, and in a triangular meet against Colorado and Omaha had a 75. He shot a 73 against KU and a 75 against Nebraska, in the first meeting with each team, to tie for medalist honors each time.

Dave Pfuetze, K-State sophomore, tied for medalist honors in the first outing against Wichita with a 74, and was medalist against Missouri with a 71.

JIM WEATHERFORD was the other medalist for the Wildcats, shooting a 75 in the match against Iowa State.

## Tennis Season Featured Long Loss to MU

Highlight of K-State's tennis season, which ended with a 6-6 overall mark and a 2-3 conference mark, was the meet with Missouri in which a total of 189 matches were played.

Missouri won the meet, 5-2, as they took all but one of the singles matches and split in the doubles.

DICK CIRCLE and John Deam of K-State were defeated by Bill Wickersham and Bob Simpson of Missouri in the first doubles match, 4-6, 4-6. Bob Hansen and John Teas of K-State teamed up to defeat Bob Reynolds and Mike DeMoss of Missouri in the second doubles match.

It took Hansen and Teas 48 matches to turn the trick. They won the first set, 10-8, lost the second, 9-11, then came back to win the final set, 6-4.

DON WAINSCOTT and Deam led K-State netmen with 8-4 won-lost marks. Deam was leading player against conference teams with a 3-2 mark.

In duo play, Hansen and Teas had a 10-2 mark, losing only to Oklahoma and Washburn. Their conference mark was 4-1.

The team of Circle and Deam had a 3-9 overall mark.

## Varsity Golfers Edge Frosh in Close Match

A strong quartet of K-State freshman golfers pressed the Wildcat links varsity to the limit on the Manhattan Country Club course Tuesday before losing, 5 1/2 -6 1/2.

All four of the freshmen are from Manhattan. Davey Smith, scholarship winner in the 1953 national caddy tournament, had the best showing against the varsity.

HE TIED Kent Poore, No. 1 varsity member, for medalist honors with a 69, one under par. Smith also deadlocked Poore, 1 1/2 -1 1/2, in match play.

Other freshmen included Jerry Smith, brother of Davey; Joe Downey; and Dick Long. One varsity golfer, Dave Pfuetze, also is from Manhattan.

Enthusiastic about the play of his yearlings, golf coach Mickey Evans forecast a bright future for Wildcat golf.

"WE WILL RETURN two members of this year's team," he explained. "With five top freshman golfers, we should be able to challenge the best of them next season."

Poore and Jim Weatherford, the Wildcat No. 2 man this season, are to graduate.

The results of the varsity-freshman match:

Davey Smith (freshman) (69) tied Kent Poore (69), 1 1/2-1 1/2.

Jim Weatherford (varsity) (76) defeated Jerry Smith (77), 2-1.

Joe Downey (freshman) (76) defeated Hayes Walker (79), 2-1.

Dave Pfuetze (varsity) (80) defeated Dick Long (80), 2-1.

## AGR Wins Title Game

The all-school intramural softball championship was won Tuesday night by Alpha Gamma Rho as Fred Wingert outpitched Dick Allen of the Hillbillies to gain a 1-0 decision.

Wingert gave up 2 hits, struck out 13. One of the hits, the longest of the game, was a triple, but the Hillbillies could not score the runner from third.

Allen allowed only 1 hit, that being by Wingert, but AGR scored him for the only run of the game. Allen struck out 12.

## Sig Alphas, Hillbillies Win in IM Track

Sigma Alpha Epsilon and the Hillbillies won their divisions in the intramural track meet which was completed this week. The Sig Alphas racked up 73 1/2 points, and the Hillbillies had 109 1/2.

Trailing the Sig Alphas in the fraternity division were Beta Theta Pi, 55 1/5; Delta Tau Delta, 55; Sigma Nu, 53; and Sigma Chi, 40.

Trailing the Hillbillies in the independent bracket were the Jones Boys, 46; House of Williams, 23; Disciples Student Fellowship, 22 1/2; and Jr. AVMA, 9.

**VISHNU SWARUP**, Bot Gr from India, will present the final botanical seminar of the semester in D101 at 4 p.m. Thursday.

He will report on the attempts to obtain a variety of wheat that would be resistant to mosaic. The wheat was crossed with a grass called Agropyron that is resistant to the mosaic.

**GERMAIN B. MARION** and **F. C. Fountaine**, professors in the dairy husbandry department, will be in central and southeastern Missouri May 22 through 25. They will be buying identical twin calves for research work in dairy cattle projects.

**MEMBERS OF** the milling department who will attend the annual meeting of the American Association of Cereal Chemists in St. Louis May 15-19 and John Shellenberger, Byron S. Miller, Max Milner, Philip Nordin, John A. Johnson, Donald Miller, Merle Shogrer and Fawzy Y. Refai.

**ELLEN M. Batchelor**, extension specialist in home crafts at Kansas State College, will teach handicrafts at the Missouri recreation workshop in the Ozark recreational area during the last week in May.

**NGERALDINE GAGE**, instructor in household economics, and Hazel

Parry, former K-State graduate student, have written an article published in the current issue of the Journal of Home Economics entitled, "Teaching Family Finance."

**DR. JOHN A. Johnson** of the flour and feed milling industries department has been appointed chairman of the technical policy committee of the American Association of Cereal Chemists.

He also is to serve on the executive committee of the association. His duties will start after the national meeting of the association in St. Louis May 19.

**MARY EMMA PRICE** has been appointed a temporary assistant instructor at the Fort Hays branch of the Kansas Agricultural Experiment station, effective June 1, Arthur D. Weber, director, announced today.

Miss Price, a 1953 agronomy graduate of the University of Illinois, has been a graduate research assistant at the Manhattan station.

**TWO MEMBERS** of the department of economics and sociology left today for five day trips through Kansas to visit country elevators and gather data for a grain marketing project of the College.

They are Wayne M. Shirk and Orlo Sorenson.

## Foreign Students Provide Interesting Campus Sidelights, Professor Says

By JEANNE ARNOLD

K-Staters who don't learn any foreign language and who don't get acquainted with any of the foreign students on the campus are missing many enjoyable experiences, Manuel D. Ramirez, assistant professor of modern languages, says.

"There is no better way to become acquainted than by being able to speak the language of the other fellow," Ramirez said.

"The widespread notion that Europeans can learn a foreign language more easily than Americans is pure rationalization. An experiment conducted several years ago showed that feeble-minded people could develop some ability to speak a foreign language."

**PROFESSOR RAMIREZ**, who has been in the department of modern languages since February, 1946, was Kansas State's first officially designated foreign student adviser from October, 1953, until September, 1954.

His duties ranged from guide and friends of the students from overseas to being their finance agent.

"Many of our students who are really interested in foreign affairs are passing up an opportunity by not attending or joining the Cosmopolitan club," Ramirez said.

"**THEY WOULD** be able to attain first hand information about other countries and to make lasting friendships which might be of importance later," he said.

"By not attending the club, they are losing the opportunity to practice some of the languages they study at the college."

There are 138 students from outside the U.S. at K-State this year. One hundred and fourteen of these are from foreign countries and 24 are from U.S. territories, Hawaii and Puerto Rico.

"**BELIEVE ME**, it is a most

gratifying experience when a person from abroad smiles and confides in you and wants to become a real friend. This occurs more often when one has some knowledge of and a sincere interest in the other person's language and culture.

"**OUR STUDENTS** are also passing up an opportunity by not attending foreign films," continued Ramirez. "The films depict customs and manners of the countries they represent. Some of the films tend to glamorize as do those of Hollywood, but in general they present realistic conditions of today and of former periods in history."

**RAMIREZ** was pleased to learn that the Pi Beta Phi sorority has established a room and board scholarship for a foreign woman student here next year.

"I hope other organizations will do likewise since rates of exchange are now so highly unfavorable," he said.

Ramirez was born in Florida of Spanish-speaking parents. He was executive secretary of the Institute of Inter-American Affairs at the University of Florida from 1939-1942.

While holding this position he handled publicity to develop better Inter-American relations. He was editor of the "Revista Interamericana," which contained mostly articles of a cultural nature in Spanish, English, French and Portuguese. Professor Ramirez also taught in the Spanish department at the university and acted as Latin-American foreign student adviser.

**DURING WORLD WAR II**, he served as military interpreter and translator traveling around the country with Brazilian officers visiting military installations. At Fort Leavenworth he taught English to Brazilian and Spanish-speaking officers before they entered the Command and General Staff school.

While at this school he met Prof. D. F. Munro, also of the department of modern languages, and became interested in K-State.

Among friends he made while serving with the armed forces was Carlos Castillo Armas, now president of Guatemala.

**RAMIREZ STILL** devotes a

great deal of his time to helping foreign students, though their official adviser is Philip H. Sorensen, assistant dean of students.

"Ramirez has never failed to find time to help a foreign student who needed it," Sorensen said. "He was among those at Kansas State who saw that the foreign students needed specialized attention."

**PROFESSOR RAMIREZ** are so much in favor of a person speaking more than one language fluently that they have experimented with their own children. Louis Andres, 8, was first exposed to Spanish and later was taught English, while Sonia Teresa, 6, started learning English first.

"The funny part about it," the professor added, "is that neither child wants to speak Spanish now. They prefer to speak English all the time."

## Miniwanca Club Elects, Has Picnic

Shiley Sarvis, HE Soph, was elected president of Miniwanca club at a picnic meeting Monday. Marilyn McNelis, FdN Soph, was elected vice-president; Betty Sellers, HDA Fr, secretary-treasurer; Francis Reichart, Ag Soph, devotional chairman; and Paul Harris, AEd Fr, and Royanne McMullen, BMT Fr, cafeteria chairman.

## Engineers Will Hear About Company Schools

R. P. McCarthy, a representative of the Allis Chalmers company, and A. W. Edmunds, a representative of General Electric, will discuss the value of company training at a dinner meeting of the student chapter of the American Society of Mechanical Engineers at 4 p.m. today in Thompson hall.

McCarthy, Edmunds, W. B. Thompson of Allis Chalmers, J. A. Keeth of Kansas City Power and Light, Harold Grasse of Black and Veatch consulting engineers, and representatives from Midwest Research Institute, Bendix Aviation, and Platte Pipe Line company will be special guests at the dinner.

## Dedication Climaxes 44 Years at K-State

By FAITH McCONNELL

Dykstra Veterinary Hospital will be dedicated in the honor of "Mr. Veterinarian" at 2 p.m. June 2.

Dr. R. R. Dykstra, dean emeritus of the School of Veterinary Medicine, was given the title, Mr. Veterinarian, last October by delegates from several state and regional veterinary medical associations at Peoria, Ill.

The dedication of the clinic will share the spotlight with the Golden anniversary celebration of the K-State veterinary degree. Dr. Dykstra has been associated with veterinary medicine here for 44 of those 50 years.

In 1919 he became dean of the division of veterinary medicine. At that time veterinary medicine was a department in agriculture offering a degree after 4 years work.

DR DYKSTRA has seen many changes since he first joined the veterinary department in 1911. There were 4 faculty members then; now there are 27. Enrollment was 40 and now is 260 students, Dr. Dykstra said.

The curriculum entrance requirements were only tenth grade level; in 1914, high school. In 1936 the college added one year of training before admittance to the department. In 1948, just before Dr. Dykstra was relieved of his administrative duties by Dr. E. E. Leasure, 2 years of pre-veterinary training was required. "At present the prevention and control of disease of animals other than horses is decidedly on the increase. Veterinarians are paying much more attention to the prevention of the transmission diseases from animals to humans as well as to food inspection and food sanitation," Dr. Dykstra said.

"THE STATUS of the veterinarian has improved over the 'horse doctor.' He now is recognized by high professional standing and takes a position of leadership in the community," Dr. Dykstra said.

Dr. Dykstra was the first Kansan to serve as president of the American Veterinary Medical Association in 1932. He is a member of the Association of American Veterinary Deans and was its president for 10 years.

### Student Health

Four girls and six boys are patients at Student Health today. They are Phyllis Wampler, Sylvia Leasure, Carolyn Snell, Naomi Lockard, Tom Arisman, K. L. Cornelius, Wendell Cole, Duane Counter, Cameron Moore, and Keith Wilson.

### Memorial Service To Be at 5 Today

There will be a brief memorial service for Prenab K. Duttarrey at 5 p.m. today in the chapel. Friends of the deceased are invited, according to Phil Sorenson, assistant dean of students.

### Announcements Here

Senior announcements are still available in K101, according to Byron Ellis, superintendent of the KSC press.

## New Union To Receive Senior Gift

A gift to the college from the graduating class of 1955 will be given to the new College Union the senior class activities committee has decided.

The gift chosen will probably be a display case, according to Loren Koltner, union director. Other gift possibilities are a drinking fountain, planter box or some other item of small equipment.

Approximately \$300 has been collected from a 15% fee added to the cost of commencement invitations, Tointon said.

## Illinois Girl Wins Spelling Contest

Washington (U.P.) — Thirteen-year-old Sandra Sloss of Granite City, Ill., thought about nicer things today than "crustaceology, immiscibility, abbacy and mnemonic."

She has \$500 in her pocket plus \$100 for a week-end trip to New York, after spelling those words correctly and winning the longest national spelling bee in the 28-year history of the contest.

"Sandy" outlasted 61 other bright youngsters in a tongue-twisting contest yesterday that covered 541 words—"the longest list since they wrote the bible," according to contest director Charles Schneider of the Scripps-Howard newspapers.

## Three Grads To Be Feted At Dedication

Three outstanding K-State veterinary graduates will be presented "Distinguished Service Awards" by President McCain in connection with the School of Veterinary Medicine's 50th anniversary and dedication ceremonies for the new veterinary hospital, June 2.

To be honored are Dr. C. A. Brandly, a 1923 graduate who now heads the department of veterinary science at the University of Wisconsin; Brig. Gen. E. W. Young, a 1925 graduate who now is chief of the veterinary division, U.S. Army office of the surgeon general, Washington, D.C.; and Brig. Gen. W. O. Kester, a 1931 graduate who now is chief of the air force veterinary service.

All three will be on the K-State campus June 2 to participate in ceremonies in observance of the School's anniversary, and all three will appear on the program for the 17th annual conference for Kansas Veterinarians, to be held June 3 and 4.

## College Marriages Expected To Increase, Life Predicts

New York—With an ever increasing number of married students attending American colleges and universities, the pattern of campus marriage started by World War II veterans is now becoming a permanent feature of the collegiate scene, LIFE magazine reports in its current issue.

At first, when marriage was just beginning to flourish on the campus, it was only the seniors who dared take the step. Now juniors, sophomores, and even freshmen are falling in line, and the trend is toward more and more undergraduate marriages. College experts expect the proportion of married students to rise by 50% to 75% in the next 10 years.

A SURVEY by LIFE of 22 U.S. colleges and universities shows that the East lags behind other regions in percentage of married undergraduates. Record is held by the University of Georgia where 19% of the undergraduates are married. As might be expected, non-coed schools still trail the co-educational ones considerably.

Probably the most startling aspect of the boom in campus marriage is the accepted presence of increasing numbers of undergraduate wives and mothers in the once maidenly atmosphere of such schools as Smith, with

22 married students this year, and Radcliffe, which has 60.

Of all the factors responsible for the increase in campus marriages, LIFE says, the most important is America's general prosperity. In the past, the one big thing that kept male students' minds off the topic of matrimony was the chilling doubt of how long it would be, especially in the depressed 1930s, before they could possibly support a wife in the manner expected of college graduates.

TODAY'S STUDENTS, who know the great Depression only by hearsay and have personally observed nothing but year after year of practically full employment, are bound to take a rosy view of their economic prospects. Further, the usual pattern of today's student marriages calls for both sets of parents to continue supporting the young couple.

Other factors contributing to the boom are the example of the veterans, the prospect of the draft, and the early social development urged on young people in America. Also, the general uncertainty of today's atomic world is perhaps an influence.

Dependence on parents is one of the real pitfalls of the subsidized marriage. Some parents use their financial support to

## Commencement Program Told

Six hundred and ninety-two candidates for degree will meet at the quadrangle east of Anderson hall Sunday, May 29, at 2 p.m. From there, the group will march to Ahearn Field House for the commencement program.

President McCain will give the charge to the class and then will confer the degrees.

### Today's Collegian Last For Spring Semester

Friday's Collegian will be the last issue until the summer school Collegian comes out. The first issue of the summer school Collegian will appear on June 9, C. J. Medlin, graduate manager of Student Publications, said today.

## Recordings of K-State Songs On Sale Now

"Songs of Kansas State," a long playing record containing Kansas State College songs and marches recorded by the symphonic band, college-civil orchestra, and A Cappella choir, are now being sold through the office of the K-State Alumni association.

The record, which contains such Wildcat favorites as the K-State Alma Mater, "Wildcat Victory Song," "Purple K," and "Kansas Wildcats' March," costs \$5.

K-State is the second Kansas institution to record its school songs and marches.

## Cronkite To Edit Student Directory

Doreen Cronkite, HEJ Sr., was elected to edit the Student Directory by the new Board of Student Publications yesterday.

Gaye Fryer, HEJ Soph., was elected secretary of the board. A contract with the Studio Royal for the Royal Purple was renewed.

The Army ROTC candidates for commissions will be presented by Colonel Laurence C. Brown, and the air force ROTC candidates will be presented by Colonel Milford Itz. Colonel Itz will administer the oath of office to the ROTC graduates.

Greetings from the Board of Regents will be given by Laurence Morgan, of Goodland. Kenney Ford, alumni secretary, will acknowledge the alumni classes of 1890, 1895, 1900, 1905 and 1910. The Rev. Samuel S. George, minister of the First Presbyterian church, will give the invocation.

The K-State band, under the direction of Richard Coy, will play the processional and two special numbers, Choral and Alleluia, by Hanson.

An alumni and senior dinner will be Saturday, May 28, at 6 p.m. in the college cafeteria, Kenney Ford, alumni secretary announced.

## Brotherhood Award Goes To Shivanani

Gurdasmal Shivanani, a graduate student from Ajmer, India, has been announced as winner of the first annual B'nai B'rith Hillel Foundation Brotherhood award at Kansas State college.

Established this year, the award recognizes the student who has contributed most during the school year to the promotion of brotherhood, good will, and understanding among the various religious, cultural, and ethnic groups in the campus community, explains Warren Rempel, secretary of the K-State YMCA and a member of the awards committee.

SHIVNANI WAS selected because of his activities in many different cultural groups, and "for helping to induce stability into groups where tendencies might well have been unstable."

The Indian graduate student, who has been at K-State since '52, is president of the newly organized Indian Student association, and has been treasurer and chairman of numerous committees of the Cosmopolitan club.

Shivanani, formerly of Pakistan, moved with his family to Ajmer, India, in 1947 following the partition of that country. He had practiced veterinary medicine in that country since 1941, after receiving his doctor of veterinary medicine from Bombay Veterinary College.

HE ENTERED the Indian Veterinary Research Institute in 1947 to do research in the field of parasitology, and has been on extended leave since 1952 to work at K-State. He earned his master's degree in 1954 and expects to graduate with a doctor of philosophy degree in January, after which he will return to India.

He feels that Americans are very friendly towards foreign people, and says that becoming acquainted with Americans and developing an understanding with them has been just as important as getting an education.

Shivanani also feels there should be more exchange of students between countries.

"This is the best way to develop better understanding between nations," he said. "Anyone can read about a country in books, but actually to understand people you must associate with them personally."

Today's World News

# Bao Dai Backers Arrested By Diem

Compiled from the Wires of United Press  
By DICK CARR

Saigon, Indochina—Premier Ngo Dinh Diem arrested several supporters of absentee chief of state Bao Dai today on charges of plotting with rebel warlords to overthrow Free Viet Nam's American-backed government.

At the same time, French Commissioner General Paul Ely asked for his own recall in the wake of the bloody civil war he tried to prevent and the departure of Gen. J. Lawton Collins, his American counterpart.

Government sources said that Diem has arrested at least four of his enemies. Police brought in the fourth this morning. He was Tran Van Tuyen, former information minister in a previous government.

They also have arrested Le Thanh Canh, head of Bao Dai's mission in Saigon; Ung An Ungan, a former mission head and a member of the royal family; and Pham Trung Hieu, the nephew and representative of Pham Cong Tac, "Pope" of the Cao Dai political-religious sect.

Government sources said the arrests were for working in complicity with the Binh Xuyen rebels now entrenched south of the capital after having been driven out in bloody street fighting last month.

French officials confirmed that Ely has asked for his recall. They said Ely considered his mission ended after completion of last week's transfer of North Viet Nam to the Communists as provided by the Geneva truce agreement.

## West Demands End of Berlin Blockade

Berlin—The Big Three Western envoys demanded today at their first meeting with the Soviet representative since 1948 that Russia call off the "cold blockade" that threatens the food supplies of West Berlin.

The American, British and French envoys to the West German Republic met with the Soviet ambassador to East Germany early this morning at the Soviet embassy on Unter Den Linden in a meeting requested by the West.

It was the first time the Big Four envoys sat down together since the end of the 1948-1949 total blockade of Berlin. The West asserted today the new restrictions on supply trucks to Berlin violate the 1949 blockade-lifting agreement.

The "baby blockade" began on April 1 when the East German government increased 11-fold the road taxes on the trucks which bring in about half of Berlin's supplies. The West estimated the taxes will run to \$10,000,000 a year.

The West said the taxes violate the blockade agreement. The Soviet said it cannot interfere in the "internal" affairs of a "sovereign state" and that it is a matter for the East and West German governments to settle. To accept this idea, the West said, would be to recognize the Communist regime in East Germany.

# Dead Week at Texas U Means Relief Before Finals

By PHYLLIS OLSON  
Of the Collegian Staff

Dead Week began May 17 and ends May 23 at the University of Texas, Austin. Finals begin the next day. This week, which originated in 1904, is a gift from the administration to the students. It is a time for students to review for exams, unhindered except for preparation of daily work. The giving of hour quizzes, make-up quizzes, or any part of a final exam is not permitted. Term papers and projects must be completed before the beginning of the week. But the students have restrictions, too—no university approved social activities are to be held during the week, according to the Daily Texan.

Sorority girls at the University of Kansas will participate in a bridge tourney sponsored by Lambda Chi Alpha at the fraternity house. A picnic will be held after the tournament at which time the winners will be announced and the trophies awarded. Each house will enter a four-girl team. Twenty-four hands of bridge will be played and the team scoring the most total points will win, according to the University Daily Kansan.

Members of a sorority at the University of Missouri will act as car hops at a local filling station Sunday. Tips they receive will be donated to the Cerebral Palsy fund, said the Maneater.

## Our Readers Say—

# Collegian Neglects Intramural Sports

To the Editor:

Recently two intramural softball teams played for the fraternity championship. One of these teams went on to win the all-College championship. Did the Collegian print a picture or give space to this softball champion? No, two days later they managed to find small corner space for it. At both of these games at least two journalism students, supposedly representing the Collegian, were taking pictures of the opposing team before the game. In the past the Collegian has run pictures and big spreads of the winning teams. Lack of space can't be the reason when such things as "Ex-Center Fielder Wins Fourth Game as Pitcher" were printed. It's the Collegian's job to cover K-State campus sports, then why did "Oklahoman Seeks Loop Discus Mark" receive more space than the softball champion? Certainly this team deserved as much space as any past or future team. Maybe this fraternity needs someone on the Collegian staff. Two days after the game and such small publicity. Is this good sports coverage? Wake up, sports editor.

Warren Nichols, Vet Fr  
Einar Johnson, AH Jr.

To the Editor:

Please accept my sincere thanks for the very fine and outstanding coverage you have given this past year to the intramural program.

The sports writers have done a wonderful job. They have been very loyal and conscientious and have given us the best coverage I have observed during my seven years as director of the program.

My thanks also to the Royal Purple photographers. They haven't missed an assignment and have always been willing and ready, day or night, to come at my call.

The best to you all for the summer. Hope to see you all back next year.

Frank L. Myers,  
Director of Intramural Sports.

The Sigma Alpha Epsilon fraternity at Indiana university is sponsoring an invitational sports car rally to acquaint students and Bloomington residents with various kinds of sports cars. The first event of the week end will be a scavenger hunt with sports cars. From 50 to 100 cars, representing Indianapolis, Louisville, and Southern Indiana regions will be entered in the events. Tests of driving skill will be stressed in the rally, but there will be no emphasis on speed, said the Indiana Daily Student.

Aggie Penny night was sponsored by Colorado A&M recently. Each woman student paid one penny one every minute she was out between 10:30 p.m. and 11 p.m., according to The Rocky Mountain Collegian.

Women students at the University of Colorado had their closing hours extended in dorms, sorority houses, and boarding houses recently in celebration of Colorado University Days week end, according to the Colorado

Daily. Thursday and Friday night closing hours were 1:00 a.m. and Saturday's closing hour was 2:00 a.m.

It was "Help Corvallis" recently for the fraternity men at Oregon State, with a program of clean up and assistance to the churches, homes, and parks. Sorority women brought a mid-morning lunch to the workers as a contribution to the project, said the Oregon State Daily Barometer. This was the third annual "Help Day" which included painting and general cleanup at the churches, tearing down old buildings, stacking lumber, painting at farm homes, and collection of winter's debris at the city park.

Cigarette prices at the Minnesota University union have been raised from 23 cents to 25 cents per package, according to the Minnesota Daily. The price raise was necessary due to an increase in the wholesale price of five brands, the Union director said. Matches now will be given free with each package of cigarettes.

## Students Furnish Much Of Manhattan Labor Force

By CLAYTON HERMAN

College students provide a necessary labor supply source in Manhattan, according to John McCormick of the city employment office.

"Most part-time jobs are filled by students. If it were not for students, many jobs might not be filled. A lot of odd jobs are hard to fill with regular labor force personnel. Students fill in here," he said.

EMPLOYERS rely on student wives for permanent full-time personnel. Soldiers' wives are at a disadvantage because they don't know how long their husbands will be stationed here.

College students fill part-time jobs and odd jobs without keeping regular labor force personnel from working, McCormick said. Student wives make a dent in full-time job openings. However, they generally fill clerical positions that have a heavy demand for personnel.

In the fall when more than 5,000 students hit the city, many services such as cleaning, laundry, and eating establishments are expanded. Students are hired on a part-time basis to fill these jobs. In the spring when the students leave, extra labor is not needed. The influx of students in the fall and departure in the spring just about balances jobs created and extra employees needed, Chester Peters of the College placement bureau said.

A LABOR shortage usually occurs during the last two

months of the spring semester because students have permanent jobs or are concentrating on studies. High school students, who get out of school earlier, fill this gap, Peters said.

Through the College placement bureau last year, 793 men students registered, 735 job requests were received, 288 students obtained regular part-time jobs, and 432 odd jobs were filled.

Many students find jobs on their own or through the city employment office after registering at the placement bureau. "We assume that a student's job needs have been met, when he does not report back," Peters said.

KANSAS STATE college employs approximately 825 students on a part-time basis. College part-time work has little effect on the labor force downtown because students usually supply adequate labor, he said.

Pay for these jobs varies from 60 cents to \$1 an hour. Skilled workers and laboratory assistants may receive as much as \$2 an hour. Pay for off-campus jobs varies from 60 to 75 cents for unskilled workers to \$1.50 for particular skills.

"Jobs can not be guaranteed to all students seeking them. However, if the student earnestly desires to work and sincerely needs financial assistance while attending college, he can usually find some part-time employment," Peters said.

## Pets Evicted from Hilltop

Cats and dogs in Hilltop court will have to look for new homes by July 1, 1956, according to Art Nunn, mayor.

Because of recurrent complaints about lax supervision of pets, a referendum was held on a resolution prohibiting the lodging of cats and dogs in Hilltop court. It was approved 45 to 40, Nunn said. Owners will have until July of

next year to dispose of their cats and dogs, Nunn said.

## Sports Editor Dies

Great Bend (U.P.)—Funeral services for Robert C. Graham, 58, sports and wire editor for the Great Bend Tribune and a former Oklahoma newspaperman, were held here today.

## Cloth Experts Check for 'Suitability'

What kind of material is best to buy for a suit?

Barbara Densmore, instructor of clothing and textiles, is now beginning research to find the answer to this question.

Comparing four kinds of wool and part wool materials, she will check results of abrasion (rubbing) on each fabric.

Other tests will determine the shrinkage of each fabric, its appearance after wearing, and how easily it can be torn.

A new \$1,075 machine in the clothing and textiles laboratory is testing effects of wear on suiting fabrics.

## Debators Win Steak Dinners

Jim Zahnley, Chm Fr, and Larry McDonald, ME Fr, won the Intramural debate championship. They will have their names engraved on a trophy and receive steak dinners, Chuck Goetzinger, debate coach said.

The runner-up team, Barbara Messer, BMT Fr, and Jo Forbes, PrL Soph, will also receive steak dinners.

## Hometowns Shown On Home Ec Map

A map of Kansas with an outline of each county has been placed in a show case in Calvin hall. The map contains colored tacks which represent home economics major and their home towns.

A total of 500 tacks are on the map. Ninety-eight counties are represented by at least one K-State home ec student. There are 105 counties in Kansas.

One black tack represents one underground student, one red tack represents 10 underground students, and one orange tack represents one graduate student.

# Wildcat Squads To League Meet

## 22 Thinclads To Compete

A squad of 22 track and field men has been listed by coach Ward Haylett to represent K-State in the Big Seven track and field meet at Lawrence today and tomorrow.

K-State will send four entries—Ray Russell, Mike Cornett, Jack Railsback, and Gary Doupnik—in both the 120-yard high hurdles and the 220-yard low hurdles.

Russell has been a consistent winner in both events and has the best mark of the quartet with a clocking of 15.0 seconds in the high hurdles and 23.9 in the low hurdles.

Dolan McDaniel and Jerry Mer-shon are Wildcat entries in the 100 and 220-yard dashes. Mer-shon placed second in both events last year. He has a time of 21.6 in the 220 this year. McDaniel has the faster time in the 100-yard dash, 10.0 flat.

In the 440-yard dash, Marvin Chiles and Joel McGill will carry the K-State colors. Chiles has the fifth fastest time in the conference this season, 48.7.

GENE WILSON is one of three K-State entries in the broad jump. His best jump this season is 23-2, but in 1952 he won the Kansas Relays with a jump of 24-0.

Paul Miller of the Wildcats has pole vaulted 13 8 1/2, which is second best in the league. Only Stew Walker of Colorado has done better and he has gone as high as 14-1/4.

The meet record of 14-1 1/2 was set by Frank Dickey of Missouri last year.

K-State entries:

100-yard dash—McDaniel, Mer-shon.

220-yard dash—McDaniel, Mer-shon.

440-yard dash—Chiles, McGill.

880-yard run—Hubert Guest, J. D. Patterson.

1 mile run—None.

TWO-MILE run — Whitney Hicks.

1 mile relay—McDaniel, McGill, Chiles, Jim Loomis.

120-yard high hurdles—Russell, Cornett, Railsback, Doupnik.

220-yard low hurdles—Russell, Cornett, Railsback, Doupnik.

Shot put—Allan Muecke, Bill Carrington.

Discus—Ray Fritzmeier.

Javelin—Joe Powell.

High jump—Jim Delker, Wilson, Powell.

Broad jump—Ken Nesmith, Ray Beikman, Wilson.

Pole vault—Fred Wingert, Miller.

Photo by J. R. McLeland

RAY RUSSELL, Wildcat hurdler, (right) has been a consistent winner for K-State this spring in the 120-yard high hurdles and in the 220-yard lows. He will be a leading entry for the Cats in the Big Seven meet at KU this week end.

## Bobby Shantz Apparently Has Regained Old Form

New York (U.P.)—If you like game and gritty little guys, your heart will be warm today for Bobby Shantz, and you'll be happy that he apparently has made it all the way back.

Everyone was cautious about welcoming his comeback the first time the little giant of the Kansas City Athletics pitched a good game. It had been too long a struggle in between.

He admitted that he might never get back. Yet it didn't keep him from trying, and his record this season tells the story.

IN HIS FIRST start, he was battered for 6 hits in 7 innings as he lost the decision.

In his second start he was rocked for 7 hits in 1 1/2 innings. Defeat No. 2.

Then came the payoff on his great effort. He spun a 3-hitter to beat the jarring New York Yankees.

The next time out it was the old heart-breaking story. The Indians belted him for 9 hits in 3 1/2 innings.

But Bobby came back in relief, giving only 2 hits in 6 innings for his second win. He evened his record at 3-3 with a 6-hit win over the Yankees again.

So now you can say, finally, that he has a chance to make it back. That's all he has ever asked.

THAT PICTURE!

## Tennis, Golf Teams Entered

Wildcat golfers and netmen play their final matches of the season as they go into the Big Seven meet at Lawrence this week end.

The netmen have a season mark of 6 wins and 6 losses, and the golfers have won 2 and lost 10.

DESPITE their record, the Wildcat golfers ended their schedule with wins over Kansas university and Missouri and cannot be counted out in the Big Seven meet. The Cat tennis players had a 2-3 won-lost mark in the league.

Top golfer for K-State has been Kent Poore, who finished with a 5-7 mark and was medalist in four meets. Dave Pfuete shot the medal score in two meets, and Jim Weatherford was medalist in one meet.

TOP SINGLES records for Cat tennis players are held by Don Wainscott and John Deam, who each won 8 and lost 4. Deam had a 3-2 mark against conference competition.

In doubles play, the team of Bob Hansen and John Teas won 10 and lost 2. Their only losses were to Oklahoma and to Washburn.

The netmen defeated Omaha, 6-0, then lost to Iowa State, 4-3, in their closing road trip last week end.

## CU Expected To Lose League Tennis Crown

Lawrence (U.P.)—Colorado was to open defense of its Big Seven tennis and golf crowns here today, but the Buffs were favored to retain only the golf title. Oklahoma was expected to take away the net championship.

## Cat Nine To OU For Doubleheader

K-State will start a revamped lineup in a doubleheader with Oklahoma university tomorrow, due to the oncoming semester tests, coach Ray Wauthier said. The doubleheader will close season play for the Wildcats.

One player not making the Oklahoma trip is second baseman Steve Hennessey. Hennessey had a .280 batting average in 8 league games through last Saturday. He had a .310 average including 3 non-league games, which was the high mark among K-State regulars.

The teams were to play today and tomorrow, but rain cancelled today's game and necessitated a doubleheader.

LARRY HARTSHORN is the leading Cat hitter in league games with a .303 average, and his overall average is .279. He has hit 3 home runs and 2 doubles.

The Wildcats have another power hitter in their lineup in Bob Boyd. Of his 8 hits, 2 have been home runs, 1 was a triple, and 2 were doubles.

Marvin Taylor, who has played in only four games, leads K-State hitters with a .455 average. Taylor started the series against KU last Friday and Saturday and got 4 hits in 8 trips to the plate.

COACH WAUTHIER has announced Jim Rhoades and Daryl Parker as starting pitchers.

K-State's probable starting lineup includes Larry Hartshorn, catcher; Kerry Clifford, first base; Jim Pollom, second base; Bob Whitehead, shortstop; Ralph Ball, third base; Jack Smith, left field; Bob Boyd, center field; and Marvin Taylor, right field.

## Giants Win Close Ones

By UNITED PRESS

They say the mark of a champion is the ability to win the close ones—and that's exactly what Jim Hearn and the New York Giants are doing.

THE DID IT again yesterday with a 3-2 victory over the Milwaukee Braves that gave the Giants a brilliant 7-1 record in games decided by one run.

## Sig Alphas, Hillbillys Win All-Sports Title

Sigma Alpha Epsilon and the Hillbillys have won the all-sports championships in intramurals in their respective divisions, although results in tennis, horseshoes, and handball have not been turned in by all organizations.

The Sig Alphas have a 79-point lead over Beta Theta Pi to clinch the fraternity title, while the Hillbillys have a 173-point lead over the Jones Boys in the independent division.

The first ten in each division (\* indicates that schedule is completed):

Fraternity	
1. Sigma Alpha Epsilon	831
2. Beta Theta Pi	752
3. Sigma Chi	638
4. *Delta Tau Delta	590
5. Sigma Nu	541
6. *Alpha Gamma Rho	516
7. *Sigma Phi Epsilon	486
8. *Kappa Sigma	469
9. Phi Delta Theta	442
10. Tau Kappa Epsilon	433
Independent	
1. Hillbillys	870
2. Jones Boys	697

3. Jr. AVMA	616
4. *House of Breck	404
5. *House of Williams	371
6. *Hosenose Gang	340
7. *YMCA	290
8. Rho Alphas	234
9. *OK House	217
10. *Hui-O-Makules	207

Punch-line to the year's hottest power story—

## Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR\* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chev-

rolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at

extra cost) puts 180 h.p. under your toes!

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

# Graduating Seniors Honored at Special Dinners

## Senior Dinners

Van Zile held their senior dinner Thursday, May 12.

Guests at the Sigma Nu alumni and senior graduation dinner were Mr. and Mrs. H. H. Haymaker, Mr. and Mrs. James M. Shelley, Mr. and Mrs. Bob Wallerstedt, Mr. and Mrs. Ed Ackerman, Mr. and Mrs. Davis Smith, Mr. and Mrs. Claude Shenkel, A. P. Davidson, W. T. Stratton, Charles Stratton, Barry Emerson all of Manhattan and Mr. and Mrs. Myron R. Coryell of Junction City.

The Sigma Chis honored their seniors at dinner Wednesday night, May 18. Guests were Arthur Peine and Robert Wilson.

A special dinner at Northwest hall Thursday, May 18, honored the following seniors: Carolyn Adair, Betty Brammell, Berdine Brunswig, Pauline Gibson, Jo Oberg, Shirley Strickler, Dorothy Sturgeon, and Patricia Suddath.

The 10 graduating seniors in art were entertained by a dinner May 17 given for them at Thompson cafeteria by Prof. Dorothy Barfoot, head of the art department. The seniors are Mary McDonald, Lois Perry, Dorothy and Virginia Russell, Mary Lee Jaedon, Jan Corwin, Marty Scholer, Ann Alderman, Doris Winzeler,

Dorothy Sturgeon, and Pat Suddath.

The Kappa Sigmas honored five of their senior members at dinner Wednesday, May 11. Those graduating are Carl Nestler, Dee Kennedy, Marvin Decker, Ronald Myers, and Donald Jordan.

Guests at the special dinner were Lud Fiser, alumni adviser, Glenn Long, faculty adviser, Red Erwin, Vince Wells and Buz Campbell.

Clovie honored their eleven seniors with a formal dinner May 11. Each senior was presented with a teaspoon with Clovie engraved on the handle. Those honored were Mariellen Jones, Jean Sims, Mary Alice Todd, Vera Boller, Virginia and Dorothy Russell, Joan Kannaar, Berdine Brunswig, Shirley Folsche, Virginia Scott, and Virginia Balthrop.

## Pinnings

### Bartley-Frisbie

Chocolates at the Alpha Chi Omega house and cigars at the Sigma Phi Epsilon house Wednesday, May 18, announced the pinning of Jean Bartley and Tom Frisbie. Jean is an elementary education freshman from Great Bend. Tom is an agriculture sophomore from Grantville.

### Parshall-Winegardner

Chocolates and cigars announced the pinning of Ilene Parshall and Kevin Winegardner Wednesday, May 18. Ilene, a member of the Kappa Delta sorority, is a junior in home economics and teaching from Manhattan. Kevin is a chemical engineering junior from Kansas City. He is a member of the Sigma Chi fraternity.

### Hall-Scanlan

Chocolates at Van Zile hall announced the engagement of Donna Hall and Jack Scanlan Wednesday, May 4. Donna is a junior in English from Agra, and Jack is a 1955 graduate in mechanical engineering. He is from Agra.

### McKelvey-Risley

Chocolates at Van Zile hall Sunday, May 8, announced the

engagement of Maggie McKelvey and Ivan Risley. Maggie is a senior in clothing and textiles from St. Petersburg, Fla., and Ivan is a senior in industrial engineering from Nickerson.

### Funk-Buseman

Announcement of the engagement of Norma Jane Funk and Darrell Buseman was made at Van Zile Thursday, May 12. Both Norma Jane and Darrell are from Riley, Kan. Norma Jane is a sophomore in elementary education, and Darrell is farming near Riley.

### Crawford-Bell

Chocolates at Van Zile hall Sunday, May 15, announced the engagement of Dorothy Crawford and Roger Bell. Dorothy is a sophomore in home ec and teaching from Ottawa. Roger attended Kansas State, and is now stationed at Ft. Riley.

### Jacobson-Larson

Cigars at the Farm House May 18 announced the pinning of Stanley Larson and Carol Jacobson. Stanley is a junior in agriculture education from Effingham, Carol is from Horton.

## Roses

### Fahlsing-Koeler

Roses announced the wedding date of Betty Fahlsing and Karl Koeler Wednesday, May 18. The wedding will be Saturday, May 28, in Danforth chapel. Betty, a member of the Kappa Delta sorority, is a home economics and teaching senior from Great Bend. Earl lives in Macedonia, Iowa.

### Irving-Hurtig

Roses at Van Zile on May 12 announced the wedding date of Virginia Irving and Armon Hurtig. The wedding will be August 14 at the First Presbyterian church at Delphos. Virginia is a senior in elementary education and Armon is a former K-State student. Both are from Delphos.

### Lodholtz-Spitzer

The marriage of Dorothy Lodholtz to Howard Spitztr August 6

was announced with roses May 11 at the Alpha Chi Omega senior dinner. Dorothy is a sophomore in elementary education from Kansas City, Mo., and Howard is a junior in agriculture from Grigton. The wedding will be in Kansas City.

### Thompson-Braman

Janet Thompson announced her approaching marriage to Weldon Braman August 21 with roses at the Alpha Chi Omega house May 11. Janet is an elementary junior from Leavenworth and Weldon is a pre-medicine sophomore from El Dorado. He is an Acacia. The wedding will be in Leavenworth.

### David-Drake

John David passed roses at the Alpha Chi house May 11 to announce her approaching marriage to Don Drake June 3. The wedding will be in the First Methodist church in Winfield. Joan is a junior in elementary education and Don is a senior in agriculture. He is a member of Alpha Gamma Rho and is from Rock.

### Dickinson-Neal

Roses from Mitzi Dickinson at the Alpha Chi house May 11 announced her coming marriage to Richard Neal. The wedding will be June 18 at Williamsburg. Mitzi is a junior in home economics teaching from Homewood. Richard is from Williamsburg.

## Founders' Day

The Alpha Delta Pis had their Founders Day dinner and senior dinner Sunday, May 15.

## Henry To Receive \$200 Scholarship

Charlotte Henry, HEJ Soph, from Clay Center, has been announced as winner of a \$200 scholarship given by the Home Economists in Business of Greater Kansas City for use next year.

Doretta M. Schlaphoff, dean of the School of Home Economics, who made the announcement, said Miss Henry was selected over nominees from other colleges and universities in this area.

Miss Henry, the daughter of Mr. and Mrs. Earl A. Henry of Clay Center, held a Kroger scholarship her freshman year, and received Phi Kappa Phi freshman recognition. She now has a 2.769 grade average. The Clay Center girl recently was elected to the K-State Student Council and to Chimes, junior women's honorary.

The first adhesive postage stamps were five and 10-cent issues of Benjamin Franklin and George Washington respectively.

## American Legion Elects Dickerson

A K-State senior has been elected Junior District Commander of the 4th District American Legion Department of Kansas.

William J. Dickerson, BA Sr., was chosen from field of 7,000 legionnaires in 14 counties for the post. Dickerson is believed to be the first college student to be elected to the post and is one of the youngest men in the office.

## Ag Research Conducted On Milk, Dairy Products

New and different foods produced from milk are being developed under a current research project at the agricultural experiment station.

"Milk is an ideal product to experiment with," says Thomas J. Claydon, associate professor of dairy husbandry. "It comes in all sorts of physical forms—liquid, solid, condensed, and powdered. It is bland in flavor and therefore well adapted for flavor modifications in supplements."

HE SAYS that nutrition people have recognized that people generally do not get enough milk in their diets. "This in spite of the facts that we have unused surpluses of dairy products, and that milk protein is highly desirable in the diet, especially for youngsters and older people."

"The research project was started last fall," Prof. Claydon explained. "We are trying to tackle the problems in two ways. First, we want to develop new products. Second, we are trying to find ways how to utilize surplus dairy products."

He believes that new varieties

would stimulate new interest in dairy products, and increase consumption.

"A RESEARCH worker can use his own imagination in developing new varieties, provided he is familiar with the need and the reason to do so, and knows that milk is ideal as a flavor modifier," Prof. Claydon explains. "All I can say now is that we have developed some interesting possibilities in the line of dairy products."

The dairy industry accounts for almost one-fourth of the cash farm income in Kansas. Dairying is one of the major livestock enterprises in Kansas, second only to beef cattle in value of livestock production.

## Joanne Cox Gets Chi Omega Award

Chi Omega sorority presented its annual award to the most outstanding woman student in the field of sociology to Joanne Cox, Soc Jr.

The award this year is 50 dollars and is based upon scholarship and interest in the field. Miss Cox was selected by Randall C. Hill, professor of sociology.

The award was presented Tuesday at a dinner at the Chi Omega house.

## Collegiate 4-H Elects Officers

Jim Perkins, AA Soph, was elected president of Collegiate 4-H Thursday night.

Other officers elected were Nelson Galle, AEd Soph, vice president; Marjorie Hamon, HE Soph, secretary - treasurer; Marilyn Pence, HE Fr, reporter; Jerry Thompson, AEd Sr, marshal; Meredith Brink, HEN Fr, song leader; and Edith Lancaster, HT Fr, pianist.

Corresponding secretaries are Shirley Hundley, HDA Fr, Marguerite Jahnke, EEd Fr, Mary Lou Ficke, EEd Fr, Betty Sellers, HDA Fr, Charles Michaels, Ag Fr, Elizabeth Grimbale, HEN Fr, Pat Roberts, HE Fr, and John Milton, Ag Fr.

## Stolfus President Of Scouting Group

Officers of Alpha Phi Omega, scouting fraternity, for the 1955-56 school year are Ed Stolfus, MT Soph, president; Dale Knepper, Ar Soph, vice-president; Ralph Willard, ChE Fr, secretary; Howard Bartlesone, PrV Fr, treasurer; and Mark Bence, PrV Soph, historian.

## Registrar Predicts 1,450 Students

Collegian photo by J. R. McLeland

**NEW STUDENTS** sweat it out in Rec center while waiting for IBM cards to be made so they can continue with enrollment. A total of 1,352 students enrolled Monday, and late enrollees are expected to swell the total to 1,450. Heaviest enrollment was in the School of Arts and Sciences.

## KS Paper To End 80-Year Existence

The official organ of Kansas State college, the Kansas Industrialist, ceases publication this month. It has been published continuously since April 24, 1875.

Though the Industrialist at one time was perhaps the most widely read and quoted newspaper in the state, in recent years it has been published only seven times a year and is circulated to members of the K-State Alumni association and to a few newspapers.

**THE PUBLICATION** is being discontinued in favor of a newsletter to be sent to all alumni. The K-Stater, a slick magazine, also goes to alumni four times a year.

The Industrialist was established by Kansas State college's second president, John A. Anderson, shortly after he took office.

A vigorous and prolific writer, Anderson used the Industrialist as a sounding board of his opinions and policies. The publication helped him become widely known in Kansas, and was a factor in his being elected to Congress in 1878.

**THOUGH THE** Industrialist continued publication after Anderson left, it never again achieved its early fame and power.

### Picnic Planned Today For Graduate Students

The Graduate Student association is sponsoring a picnic today at 5:30 p.m. for all graduate students, according to Benny Cooper, president of the organization.

The picnic will be in the shelter house at Sunset park. Rides will be provided for the graduate students who have no transportation if they come to the Temporary Student Union, Cooper said.

### Tryouts for K-State Players This Evening

Summer School students who would like to take part in the summer play are invited to attend try-outs tonight at 7:30 in Holton hall, room 206, director Earl G. Hoover, said.

The first production to be cast will be "Sabrina Fair," a comedy in four acts by Samuel Taylor. This play had a successful run in New York and was later made into a motion picture. It has parts for a variety of character types.

Students who direct plays and do stage work will find opportunity to assist in all phases of the production, Hoover said.

### President McCain Speaks at Assembly

President James A. McCain this morning addressed summer school students at the first all-College summer assembly.

## New Vet Hospital Dedicated Last Week To Former Dean of Veterinary School

K-State's new \$575,000 veterinary hospital was dedicated June 2 in honor of a man who immigrated to the United States from Holland as an infant and rose to the top of his profession in this country.

Dr. R. Dykstra, for whom the hospital was named, became interested in medicine as a boy while working in a drug store at Orange City, Iowa. His immigrant family operated a dairy there.

Dykstra passed the Iowa examination to become a registered pharmacist at the age of 19. He went on to study veterinary medicine at Iowa State and was graduated as an honor student in 1905.

**HE CAME** to K-State in 1911, after teaching at Iowa State from graduation until that time. Eight years later, in 1919, he was named dean of the K-State veterinary school. He held that position until 1948, and has been

dean emeritus since 1953.

Dykstra, given the title "Mr. Veterinarian" last fall by veterinary medicine delegates at Peoria, Ill., is considered to be the man responsible for the growth of the School of Veterinary Medicine here.

When he became dean in 1919, veterinary medicine was a department in agriculture and offered a degree after 4 years of work.

**IN 1911**, when he first came to K-State, the entrance requirements were at a 10th-grade level; in 1914 a high school education was required; in 1936 a year of college was required; and in 1948 the entrance requirement was raised to two years of college work.

Dykstra was elected president of the American Veterinary Medical association in 1932, the first Kansan to fill that office. He is a member of the Association of American Veterinary

## Increase of 200 Students Over Year Ago Expected

Total enrollment for summer school is expected to exceed 1,450, E. M. Gerritz, director of admissions and registrar, said today. This would be an increase of approximately 200 students over last years total enrollment which was 1,253.

At the end of the regular registration period 1,352 students had enrolled. This was a 25 percent increase over the 1,105 students who had enrolled at the same time last year.

**THE RATIO OF** men compared with women students is approximately 2 to 1 with 892 men and 461 women enrolling the first day.

Thirty-five more students enrolled Tuesday bringing the total enrollment through Tuesday to 1,388.

Heaviest enrollment is in the School of Arts and Sciences; 517 students enrolled Monday, 271 men and 246 women. The School of Engineering has 217 students enrolled, 216 men and one woman.

**THE SCHOOL** of Home Economics has 109 students enrolled, one man and 108 women. The School of Agriculture has 96 students, all men; and the School of Veterinary Medicine has 14 students, all men. Graduate school has 400 students, 294 men and 106 women.

The pre-advising for summer school did not help the registrar's office, Gerritz said. He said it may have been helpful to the students and assigners, but it did not cut down on the amount of work his office had to handle.

### Reporters Needed For Collegian

Any student wishing to work on the summer Collegian as a reporter or feature writer should contact any person on the editorial staff in K-105A during the day.

## Math Head To Act as A&S Dean

Dr. Ralph Sanger, head of the department of mathematics has been named acting dean of the School of Arts and Sciences, effective July 1, 1955.

The post becomes vacant at that date when Dean R. W. Babcock reaches the age for retirement from administrative duties.

According to President McCain, Dr. Sanger will serve as acting dean until a permanent dean is appointed.

From June until July 1 Dr. Sanger will assist in the preparation of the legislative budget for the School of Arts and Sciences.

## Three Receive ROTC Honors

Three air force ROTC students who are first semester seniors and due to be commissioned and graduate next January, have been designated as distinguished military students, according to Col. Milford Itz, professor of air science and tactics.

Their selection was based on high standing in AFROTC courses and academic work, as well as demonstrated leadership ability. Those honored are: Vaden E. Davis Jr., AA Sr; George E. Shute, AA Sr; and Lowell Socolofsky, Hst Sr.

## First Free Film Set for Tonight

"The Chase" is the title of the first free movie of the summer session; it will be shown tonight at 8 in East Stadium.

The movie is a suspense story, done in Hitchcock style, interweaving the worlds of dreams and realities.

Robert Cummings, Michele Morgan, and Peter Lorre are the stars of the film.

Free movies will be shown every Tuesday evening at 8 in East Stadium for the duration of the summer session.

## \$500 Scholarship Awarded ME Jr

Charles Clark Hudson, ME Jr, has been named winner of a \$500 Dowell scholarship for the coming year, Linn Helander, head of the department of mechanical engineering, announced.

This scholarship was established by Dowell, Inc., of Tulsa, for a student enrolled in the petroleum option who shows promise, needs assistance, and is interested in service company work, Helander said.

"I've been practicing catchin' flies like you said, coach, but I think I caught some bees, too."

# Welcome

I want to extend greetings to each of you who have enrolled in the 1955 Summer School and to express the hope that you will find the Summer School program adapted to your needs.

The faculty of the College has spent much time and effort in preparing course offerings which are particularly suited for Summer School students.

You are all invited to participate in the recreational program which includes free movies, dances, sports, a play by Kansas State Players, an opera presented by the department of music, and trips to the Starlight Theatre and the Athletics' games in Kansas City.

All the facilities of the College are available for Summer School students. In particular I want to call your attention to the air-conditioning which has been installed in the reserve reading room of the Library. This will make summer study a much more pleasant experience.

I want to extend a welcome to all of you who are attending music camp and the various short courses and work shops which are offered this summer. I hope you all have a very pleasant summer.

Sincerely yours,

*Paul M. Young*

Paul M. Young  
Director of Summer School

## Salk Was Not Surprised By Discovery of Vaccine

Dr. Jonas E. Salk, University of Pittsburgh scientist who developed the world's first effective anti-polio vaccine, said his success came as no surprise.

During the six years of grueling, painstaking work on the vaccine, Salk was buoyed by his confidence that his theory was correct and the only problem was practical application.

In the latter stages of the vaccine's development, Salk's research often occupied him 18 hours a day, six or seven days a week. He appeared to thrive on the work, and even after the success made him a worldwide hero, he tried to avoid the public eye and return to his laboratory work.

He was a methodical, toughminded thinker who had no use for hunches. He became interested in polio virus in a casual way. After joining the Pitt faculty in 1947, he decided to "fool around" with polio because "everyone else" was doing it.

But there was nothing offhand about the research that followed.

Just before results of the vaccine's evaluation were disclosed, he was confident enough to declare:

"If this vaccine is a failure, then theoretically we still do not have a vaccine against diphtheria either."

### Over the Ivy Line

## Firemen Rush To Blazes in 'Night Pants'

By HAROLD KANNARR

Firemen at Ames, Iowa, can get to a fire as quickly at night as they can in the daytime because of "night pants," the Iowa State Daily reports.

"Night pants" are rubber boots with a pair of suspended trousers pushed down over them. The suspenders hook over the bootstraps, so the boots and trousers can be pulled on at the same time.

Sometimes sentences in news articles can be misleading. A recent head in the Iowa State Daily reads, "Bombs will be distributed to senior college students today."

The "Bomb" is the Iowa State yearbook.

A professor at Oklahoma university has "the most unusual house in the world," according to the architect who designed it.

The rose sandstone structure built into the bank of a stream is a modernistic version of a medieval castle straight from the pages of Ivanhoe. It has a 96-foot stone wall formed in a logarithmic spiral.

Delegates to the annual Minnesota State Medical association at Minneapolis recently got a sneak preview of the first medical color television used in Minnesota.

Closely of two operations were relayed over closed circuits from the University of Minnesota hospital to an auditorium, where association members viewed them.

A student at Duquesne university said recently that there is one social group at the cafeteria known as the "Up for Grabs" set to which he would like to belong.

Each of the members brings lunch in a paper bag and places it in the center of a table. On a signal from the group leader, members grab for one of a bag and eat what they get.

The only problem of the group has been that one member consistently brings water cress, two peanut-butter-and-cheese sandwiches, one almond and two Indian figs.

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendar kept in the dean of student's office. If it is not accurately listed there it will probably be wrong here too.)

### Thursday, June 9

All-College free movie, East Stadium, 8 p.m.  
Graduate Student Association picnic, Sunset park, 5:30 p.m.

### Friday, June 10

All-College dance, Tennis courts, 8:30-11:30 p.m.

### Saturday, June 11

Music camp concert, auditorium, 8 p.m.

### Tuesday, June 14

All-College free movie, East Stadium, 8 p.m.

# Leisure Corner

By CRAZY AUTO

This column is for uninhibited gab about books, movies, records, and the like. And, if you'll pardon a horrid pun, I intend to "column as I see'em."

Other than a member of the opposite sex, there is nothing I'd rather curl up with these hot summer night, than a good book. I hope you share my enthusiasm for good, easily and cheaply acquired, literature.

If you don't, I forgive you and defy you to tell me you don't like watching a good movie in an air-conditioned theater or out under the stars, or sitting down with a cool drink (anything you like, I'm broad-minded) and listening to good music.

My nomination for the best record buy of the week is a 33 1/3 r.p.m., twelve-incher with a full hour of some of RCA's best music on it. And it sells for one dollar.

You're right there is a catch to it, but it isn't nearly as big a difference, to me, as the five dollar saving in price.

The record, "Hearing is Believing," glorifies the difference between ordinary and High-Fidelity recording (in this case promoting RCA Orthophonic sound) by contrasting short selections from early recordings with modern miracles of sound. The recordings are also available, in a condensed version, on 7-inch 45's.

### Good Paperback Novels

Two good 50c paperback novels are at your booksellers now, if they aren't sold out. And I don't seriously think they are. They're probably too well buried under the faster selling smut.

Come to think of it though, with the sexy babes they've got delicately plastered on their covers they might evoke a little consumer interest, too.

The first of these novels to meet our critical (they're bloodshot only because we read so much) eyes, is "The Adventure of Augie March" by Saul Bellow.

Augie gets his start in Chicago and as he says in the first paragraph of the book, "I go at things as I have taught myself, free-style, and will make my own way."

And make it he does. Some of it quite easily—by copping books. Later he goes along with his social climbing brother and almost snares a regular debutante. But an unexpected encontre (another girl by somebody else) puts an end to that. Augie never has it so good from then on.

But why should I try to tell you the whole story when Saul Bellow has done it well enough to win the National Book Award for 1954? Read his version. It's much better.

### 'East of Eden' Better Known

Probably the better known of our two recommended paperbacks is "East of Eden," John "Shocker" Steinbeck's latest. The book covers seven decades and three generations of unusually awful persons and events tempered well with a sort of "survival of the fittest" attitude characteristic of Steinbeck. "East of Eden" is worth reading.

The film of the same name was, of necessity, a poor reproduction of Steinbeck's story. In fact it stunk.

Speaking of the cinema, I thought the new J. Arthur Rank production of "Romeo and Juliet" wasn't nearly as rank a production as some of my friends seemed to think.

The criticism I heard most of the British film was that Romeo spoke his lines like a bloomin' adolescent. Well—Will Shakespeare has Juliet at 13 years of age and Romeo not much older. And he ought to know!

That's a funny thing. The American people aren't used to seeing a movie that follows the book so closely.

It's too bad that Hollywood feels it has to rewrite beyond recognition everything from "The Snows of Kilimanjaro" to "The Holy Bible."

## Cemetery Inspires Ohioan To Build Tall Windmill

Amherst, Ohio (U.P.)—An Amherst farmer is building the tallest windmill in the world as a monument to life that is "something beautiful and not harmful to the world any way."

Joe Ule, a general contractor and farmer, said he got his idea for the windmill when driving past a cemetery.

"I saw all those gravestones," he recalled, "and I decided to build something permanent, but entirely different."

His unfinished windmill now towers over the quiet Ohio countryside. He has spent five years raising it to its 100-foot height and he estimates he'll have to spend another five years completing it.

The windmill will serve as more than a monument. The canvas sails will turn three giant stones to grind the wheat for his bread.

## Nation's Top 'Eggsperts' Hold Conference Here

Many of the top egg marketing specialists in the United States will appear on the program for the Kansas quality egg conference today and tomorrow, T. B. Avery, head of the K-State poultry department, announced.

They include Hermon Miller, Washington, D. C., who recently was named director of the poultry division of the USDA; A. Wade Brant, head of the USDA poultry research section, Beltsville, Md.; Frank Santo, USDA area grading supervisor, Des Moines, Iowa; Frank Wollney, field service director, Institute of American Poultry Industries, Chicago, Ill.; and Don Lyon, general manager, Poultry and Egg National Board, Chicago.

The K-State extension service and the state board of agriculture have just completed a series of 24 meetings over Kansas at which provisions of Kansas' new egg law, which goes into effect July 1, were explained.

**THE EGG QUALITY** conference will give Kansas egg producers, egg handlers, and egg buyers an opportunity to hear marketing specialists explain the latest developments in egg grades and egg marketing, Avery said.

"And if anyone can help answer problems on egg marketing or egg quality, these experts should be able to do so," he added.

Conference talks will be on a proposed organization for Kansas egg buyers, rules and regulations of the Kansas egg law, processing and merchandising liquid eggs, and promoting and merchandising eggs. There also will be a panel on effective refrigeration.

Those attending the conference will have an opportunity to practice candling and grading eggs, under close supervision. There also will be exhibits and demonstrations by the state board of agriculture and the K-State poultry department.

**SPECIAL EVENTS** during the two-day conference include a banquet tonight at the College cafeteria, and a broiler barbecue tomorrow noon on the campus.

Among other speakers who will appear on the program are President McCain, and Merrill Werts, director, and J. Petr Winzer, both of the marketing division of the state board of agriculture.

## \$2000-a-year Milling Grants Going Begging

Scholarships carrying grants of up to \$2,000 a year for advanced training in flour and feed milling are going begging for want of individuals interested in advanced study, according to Dr. J. A. Shellenberger, head of the milling department.

In addition to the graduate scholarships, there are many scholarships paying \$300 to \$400 annually financed by commercial flour and feed milling companies to encourage young people to prepare for a vocation in these fields, Shellenberger said.

**OPPORTUNITIES** for flour and feed mill engineers are almost unlimited today, Shellenberger said.

K-State has the only four year curriculum in feed milling in the world, and the only four year curriculum in flour milling in the western hemisphere.

"Every recent graduate who has qualified as a flour or feed mill engineer has 2 to 15 companies vying for his services," Shellenberger said.

**"MOST RECENT** graduates have received beginning salaries of around \$400 a month, and their advancement is rapid because there are few qualified flour and feed mill engineers. Many K-State graduate mill engineers attain positions in management or administration within three to five years after graduation."

With sharp increases in the nation's birth rate, the ever-greater populations of the future will create an ever-expanding market for the services of qualified mill engineers, Shellenberger said.

"The future for flour and feed mill engineers seems bright," Shellenberger said.

## Farmer's Gadget Shells Out Eggs

Colon, Mich. (U.P.) — A rural cousin to the automatic vending machine is paying off in increased egg sales for a gadget-wise farmer near here.

Robert Mowry took several lengths of tubing, a small electric drill motor, a conveyor belt and other spare parts and pieces and built a contraption that enables egg customers to serve themselves from a drive-in dispenser.

A **MOTORIST** approaching the Mowry farm first sees a sign reading, "In One Minute." The next sign says "You Can Buy." A third sign proclaims the product, "Eggs!"

The prospective egg-buyer then merely pulls up to a tube protruding from the basement of the Mowry home, lifts up the cellophane flap on the tube—and out pops a dozen fresh eggs.

**ON THE** principle of the honor system, a tray containing small change offers the customer change for a bill.

When the egg carton is removed from the dispenser, the change in weight starts the small drill motor in the Mowry basement. This starts a conveyor belt in motion, which carries another dozen eggs up to the mouth of the tube.

A **HEATING** element operating on a thermostat heats the eggs on chilly nights and the Mowrys never put more than one day's supply of eggs on the conveyor at one time. This insures customers always getting farm-fresh eggs for their money.

Parts for the contraption cost Mowry \$25. And the customer needn't worry. Since gambling is illegal in Michigan, the machine always pays off.

## Top Track Talent Here Next Week

Many of the nation's most outstanding track competitors will compete here next week in Memorial stadium. Some will be here for the Fifth Army track championship Monday and Tuesday, and a galaxy of track greats will participate in the All-Army championship on Saturday and Sunday, June 19 and 20.

Frank Myers, K-State's director of intramural athletics, has been named manager of both meets. He will be assisted by Homer W. Hargiss of Topeka, executive secretary of the Kansas Athletic commission, who will be starter.

**THE ALL-ARMY** meet will offer a preview of the 1956 Olympics and a postscript to the Pan-American games held earlier this year. The army placed 13 men on the U.S. teams competing at Mexico City in March, and one of the primary purposes of the meet here next week end will be to screen competitors who might represent this country in the Olympics.

Foremost among the trackmen who are scheduled to compete here are Lt. Rod Richard of Fort Lee, Va., who was winner of the 100- and 200-meter sprints in the Pan-American meet; and Pvt. Lou Jones of Fort Knox, Ky., who set a new world mark of 45.4 seconds in winning the 400-meter race.

Other top competitors in the Pan-American meet who are expected to be here are Pvt. Herm Wyatt of the 40th AAA Brigade in Japan, who placed second in the high jump; Pvt. Martin Engel of Fort Dix, N.J., second in the hammer throw and third in the shot; and Privates Roy Range of Fort Ord, Calif., and John Bennett of Fort Leonard Wood, Mo., who were one-two in the broad jump with leaps of better than 26 feet.

**PVT. FRED DWYER** of Fort McArthur, Calif., and Cpl. Bob McMillen of the Seventh Infantry division in Korea will run the 1,500-meter race; and Pvt. John Kelly of Fort Dix, N.J., will run the marathon.

The top individual performer in the meet is expected to be Lt. John (Pappy) Hall of the 26th Infantry regiment in Europe, who tied for first in the National AAU indoor high jump this year with a jump of nearly 6-9. He also participates in the 100-yard dash, shot put, and hop-step-jump.

Eight K-State faculty members

will work as officials for both meets, according to Myers. Larry (Moon) Mullins, athletic director, will be chairman of the games committee; and Fritz Knorr, athletic business manager, will be chief of field judges and inspector of implements.

Basketball coach Tex Winter, who was AAU junior pole vault champion and Pacific coast conference champion at Southern California, will judge the pole vault. Among the other judges will be Bill Thrall of the physical education staff, and Herb Cormack, an assistant football coach.

**THE FINISH JUDGE** will be Lester E. Erwin of the bacteriology department, who formerly was track coach at Rhode Island State college. Paul DeWeese, sports information director, will be official scorer, and baseball coach Ray Wauthier will be clerk of the course.

A unique event in the all-Army meet will be the triathlon, which consists of the pistol shoot, 220-yard swim, and two-mile run. Both the shooting and the swimming events will be held at Fort Riley. The best scorers in the triathlon will be entered in the Interservice meet at Fort Sam Houston, Texas.

During his senior year, Veryl (Joe) Switzer made the AP and UP all-Big Seven football teams and was honorable mention AP all-American, played in the East-West Shrine classic, was K-State's most inspirational player, won the Midwest Football Writers most outstanding back award, and played in the Chicago Tribune all-star game.

## Spring Sports Letters Awarded to Forty-Four

Forty-four K-State athletes have been awarded varsity letters for spring sports, and 26 freshmen have been recommended for numerals, according to Larry (Moon) Mullins, athletic director.

Heading the list are two senior trackmen who received their fourth letter in the cinder sport. They are sprinters Jerry Mershon and Jim Loomis. Pole-vaulter Fred Wingert received his third track letter.

Three senior baseball players got their third letter. They are catcher Larry Hartshorn, pitcher Daryl Parker, and infielder Steve Hennessey. Hartshorn also has four football letters.

Included in the list of letter winners were 20 trackmen, 14 baseballers, and five each in tennis and golf. Freshman numerals winners were named for only baseball and tennis. Numerals will be awarded to those named if they received passing grades for the semester.

### THE LETTERMEN:

Track—Jerry Mershon, Fred Wingert, Jim Loomis, Marvin Chiles, Mike Cornett, Earl Michel, Allan Muecke, Joe Powell, Ray Russell, Glen Taplin, Gene Younstedt, Gene Wilson, Paul Miller, Ray Belkman, Bill Carrington, Hubert Guest, Dolan McDaniel, Joel McGill, Kenneth Nesmith, and J. D. Patterson.

Baseball—Daryl Parker, Larry Hartshorn, Steve Hennessey, Jim Pollom, Jim Rhoades, Bob Whitehead, Ron Bergren, Bob Boyd, Kerry

Clifford, John Coupe, Gerald Kerbs, Bill Sinderson, Jack Smith, and Marvin Taylor.

Tennis—Bob Hansen, John Deam, Dick Circle, Don Wainseott, and John Teas.

Golf—Kent Poore, Hayes Walker III, Jim Weatherford, Dave Pfeutze, and Larry Nelson.

### NUMERAL WINNERS:

Track—Eldon Cook, Gary Chafee, Garold Culley, Gerald Davis, Larry French, Bill Hanzlick, Marvin Hornbostel, Dennis Johnson, Stanley Knowles, Karl Lindemuth, Dale O'Connor, Henry Pierce, Arlen Stackley, Terry Turner, Jesse Unruh, and Ralph Willard.

Baseball—Irwin Bartlesone, James Berg, Robert Hackler, Elwin Lindahl, James Raffety, Don Spahn, Robert Stauffer, Ravon Thameret, Harold Whitaker, and Rodney Whitney.

## Professor Markets Third Edition of Physics Text

The third edition of "Household Physics," by Prof. Madalyn Avery, is now on the market. The first edition was published in 1938, and the second in 1946.

In 1940 Miss Avery wrote a laboratory manual to be used with her text. There is only one other text book in the field of household physics.

After having taught the course for 12 years, in 1936 Miss Avery decided that a new approach to the subject matter was needed. The text K-State students were then using had been revived a number of times, but the approach had not been changed.

MISS AVERY believed that the course, in order to be more useful, should have emphasis on basic physical principles and their application in every day living, rather than on household mechanics as it formerly had.

## Student Radio Station Asks For Workers

Radio Station KSDB-FM, student-operated K-State station, is to begin broadcasting for the summer session the week of June 13.

All students interested in working at the station have been asked to contact Dr. F. L. Whan, faculty adviser.

"Students receive practical experience as announcers, engineers, writers, and in any other phase of radio in which they are interested," Whan said.

Students also gain experience in the business side of radio while working as program directors, station managers, etc., he added. To allow more students to serve in these positions, a different director is in charge each day of the week.

Those who wish to work at the station need not have had previous experience. They will be given any instructions needed before actually beginning their work.

For those interested in performing on the air, whether in dramatic or in other types of talent presentations, KSDB-FM will offer instruction and opportunities to take part in various station productions, Whan said.

DAIRY QUEEN AT

1015 N. 3rd

Dr. A. B. Cardwell, then head of the physics department, encouraged and helped Miss Avery with her book. "Her first edition was promptly adopted by more than seventy colleges and universities," Dr Cardwell said.

"THIS IS a fact which indicates the excellence of the text. The superiority of the third edition assures its continued success," he said.

Prof. Stuart E. Whitcomb, head of physics says of Miss Avery's book, "Among books which attempt to meet the needs of home economics students in the field of physics, the book is outstanding."

The course in household physics was started at K-State by J. O. Hamilton in 1910, then head of the physics department.

## Brotherhood Award To Shivnani

Gurdasmal Shivnani, a graduate student from Ajmer, India, is the winner of the first annual B'nai B'rith Hillel Foundation award at K-State.

The award, established this year, recognizes the student who has contributed most to the promotion of brotherhood, good will, and understanding among the various religious, cultural, and ethnic groups on campus. Warren Rempel, member of the awards committee, said.

THE INDIAN graduate student who has been at K-State since 1952, is president of the newly organized Indian Student association.

Shivnani was formerly from Pakistan, but moved with his family to Ajmer, India, in 1947 following the partition of that country.

He had practiced veterinary medicine in that country since 1941, after receiving his doctorate

in veterinary medicine from Bombay Veterinary college.

HE ENTERED the Indian Veterinary Research institute in 1947 to do research in parasitology, and has been on extended leave since 1952 to work at K-State.

Shivnani feels there should be more exchange of students between countries.

"This is the best way to develop better understanding between nations," he said. "Anyone can read

about a country in books, but to understand people you must associate with them personally."

Girls at Drexel Institute of Technology had a chance to compare their figures with a silhouette of Julie Gibson at a carnival on the student-union lawn last week.

The girl who most closely compared with the silhouette received the title of Miss Student Union and also received a flood of dates.

# Mexico City Sinks 12 Inches a Year

Mexico City (U.P.)—This sinking city of 3,500,000 may soon have to throw out lifelines to its suburbs to escape the clutches of its spongy subsoil.

The weight of towering buildings erected during the past decade is breaking the back of Mexico City's foundation, and the heart of the business district is sinking at the rate of 12 to 18 inches a year.

Experts say the area will have to be evacuated within 40 years unless a solution to the problem is found.

For the past two years, the government has studied possibilities of building a "floating foundation" by injecting water into the subsoil through a series of wells to be located throughout the city.

**THE PROJECT** arose from the theory that the old lake bed on which the city is built is drying and settling because too much water has been taken from the ground and drained away.

But so far, tests have not proven the idea of "water injection" to be practical.

Steady sinking has caused widespread damage to downtown buildings. Cracked walls and many of the older structures leaning at dizzy angles present a grim picture for the future.

So government engineers have suggested the city create a series of independent business centers on its outskirts as a possible solution. One of the best prospective loca-

tions lies on the southern edge of the city.

The vast lava beds, formed thousands of years ago when fiery rivers flowed from half a dozen volcanoes in the mountains that ring the valley, would form a solid backbone for the suggested project.

Engineers say these lava beds, or "the Pedregal" as they are known, are as solid as Manhattan's rock foundation and could "hold the weight of the world."

**THE PROJECT** would call for construction of 10 independent cities of 50,000 inhabitants within the next 30 years.

The suggested cities would be connected by a network of speedways and would solve not only the sinking problems but those of power, water, traffic and supply.

## Horticulture Prof Lectures Texans

Prof. Ray A. Keen, of the horticulture department participated in a short course for Texas nurserymen at College Station, Texas, May 30 to June 1.

Professor Keen spoke to a group of more than 200 representatives of the Texas Association of Nurserymen during one of the sessions. In a talk entitled "Nursery Production Costs and Operations," Professor Keen pointed out methods of reducing costs of producing nursery stock.

During the meeting, Keen also served on a panel which discussed the keeping of better records. The nurserymen were warned of the results of bad record keeping in both financial and inventory matters.

The three day event was conducted through the cooperation of Texas A&M college.

# Wife Awakens Wake-up Man

Kansas City, Mo. (U.P.)—The late Robert Benchley once described the Pullman porter who wakes up the passengers as a man who finds humanity at its worst.

Benjamin Watts says he is inclined to agree, and Watts ought to know. Every day he telephones hundreds of customers of his wake-up service.

The service was born in 1942 when Watts, a retired contractor, learned that clock insides were being diverted to war material and there was an alarm-clock shortage. When the war ended, clocks again became plentiful, but the wake-up service still is booming.

**AFTER 13 YEARS** of sleeping five hours a night (the service operates from 3 a.m. to 10 p.m.) and waking he doesn't know how many thousands of persons, Watts still finds his work interesting.

He has all sorts of professions represented on his call-up list—railroad men, milkmen, paper carriers, businessmen on convention, doctors and people taking pills. He runs across some funny cases.

One man, Watts recalls, asked him to call members of his club and urge them to vote for him for president. Watts wouldn't do that, but he does take orders to remind people to attend a club meeting or make a luncheon reservation.

He has learned to recognize the practical jokers and seldom is taken in by them. One giveaway—they always ask for an extremely early call. One man he remembers in particular paid in advance for a month of early morning calls. It took only one curt phone conversation to conclude that the callee was a jokester's victim, Watts said.

Many of Watts' customers are alarm-clock owners who like to be on the safe side. And for some reason, he said, phones will wake some people who snooze through a ringing clock.

**HE HAS** quite a listing for people who want a second call, usually about 15 minutes later,

just to make sure. They get a double charge. Service is \$1.25 monthly or a dime a call.

Most of his customers are pleasant, Watts said, although he hears a lot of bitter remarks about stumbling over something groping to the phone. Some sleepers do become abusive toward Watts or his operator. Persistent grouching gets them dropped from the service.

The business' biggest problem is the new customer. Watts said it sometimes takes several minutes to remind a new client that he asked for the call.

**CALLS REQUIRE** from a few seconds to 2 to 3 minutes. Long time customers—some of them have been awakened by Watts since the service was begun—respond quickest.

Watts lost one customer whose

dog finally became trained to bark at 5 a.m.

His rush period is between 5 a.m. and 7 a.m. Watts said he usually awakens automatically at 3 a.m., but if he oversleeps his wife shakes him. He doesn't know how she manages to wake up.

## Extension Offers Courses to Army

Seven night courses will be offered at Fort Riley this summer by the office of general extension, according to Carl Tjerandsen, director.

First classes will meet Monday night, June 13, and the courses will end the first week of August.

Offered are College Algebra, Written Communications I, Contemporary Social Philosophies, and Economics I.

## Campus Briefs

**AGRICULTURE** economist Harold A. Pryor left this week to gather information on a grain marketing project from eight west-central Kansas counties.

Pryor will contact elevator managers, county extension agents, and county clerks for grain information in Ellis, Trego, Gove, Logan, Wallace, Greeley, Wichita, and Scott counties.

**JOHN F. HELM Jr.**, of the department of architecture and allied arts, has received word that a print of his new aquatint, "Three Trees," has been purchased by the Rochester, N.Y., Public Library.

This same print was exhibited in the Contemporary American Print show in Wichita early this spring.

**JOHN SHUPE**, applied mechanics staff member, has left for San Diego, Calif., to spend the summer working for Consolidated Vultee Aircraft corporation as a structures engineer in their engineering and development section.

Shupe was on leave from K-State from June, 1953, to September, 1954, to work at Consolidated, and he was granted leave for this summer in order to continue work on Convair's new delta-winged supersonic F-102, which he started during his first leave.

**THOMAS A. NEELY**, teaching assistant in the department of chemistry at K-State for two years, has been selected as the Stanolind Fellow for the academic year 1955-1956, according to Ralph E. Silker, department head. This is the second year that the K-State chemistry department has been awarded a Stanolind Fellowship. The Fellow receives a stipend of \$1,500 plus tuition, and funds are available for chemicals and other expendable materials.

**ROLLIN TAECKER**, associate professor of chemical engineering left June 1 to join the permanent staff of the School of Nuclear Science and Engineering at the Argonne National Laboratory, Lemont, Ill.

The school is a part of President Eisenhower's "Atoms for Peace" program. Scientists and engineers are trained in the broad aspect of nuclear energy and its application to relieve suffering and improve living standards.

**JOHN KELTNER**, speech department head presented training courses for two Oklahoma groups last week.

From May 30 to June 2 Keltner conducted a junior leadership short course at the annual 4-H Roundup at Oklahoma A&M college, Stillwater, with boys and girls from each of the 77 counties in the state participating.

One June 3 and 4, Keltner took part in the 1955 regional conference of the YMCA and YWCA leaders at Camp Classen, Davis, Okla.

**LISLE L. LONGSDORF**, extension staff member, has been presented a superior service award at a U.S. Department of Agriculture honors award ceremony in Washington, D.C.

Longsdorf, extension editor at K-State, is on a year's leave of absence to serve as assistant director of information in the U.S.D.A. at Washington. He has been on the Kansas State College staff since 1927.

**R. V. OLSON**, agronomy department head at K-State, is on the program of a Conservation Workshop at Kansas State Teachers College of Emporia in Emporia today.

Olson will speak on "The Soil and Civilization," on the afternoon program. The workshop runs from June 6 to 16.

## Technical Jobs Offer Highest Pay to Grads

Graduates in engineering and scientific fields are in great demand at the best starting salaries in history, Chester Peters, K-State director of placement, said.

Salaries for graduates generally were \$20 to \$25 higher than a year ago, he said.

Starting salaries for engineering and scientific personnel ranged from \$350 to \$475 a month, with the average \$395. For liberal arts and business graduates, beginning salaries ranged from \$275 to \$400, with the average around \$330.

"**THOUGH** A large number of K-State's 1955 graduates face military service, business and industrial firms were hiring the graduates regardless of military obligations," Peters said.

Trends noted by Peters include a considerable increase in the number of firms interviewing students in general business, accounting, and liberal arts.

"In a number of instances, companies held preliminary screening interviews on campus, and returned for additional interviews with the more promising students," Peters noted.

"The outlook is bright for those who prepare themselves well academically, who know what they want, and who seek out the job they want," Peters said.

## College Host To Voc. Ag. Conference

More than 200 vocational agriculture teachers are attending a 35th annual vocational agriculture conference on the campus.

Highlight of the conference will be the annual banquet tonight. A. W. Tenney, program specialist with the department of health, education, and welfare will be the featured speaker.

A. D. Weber, dean of the School of Agriculture, opened the conference Tuesday with a speech on Kansas agriculture.

He told the teachers that an impressive start has been made in developing a quality concept for Kansas agriculture.

"**THERE IS** increasing awareness of consumer preferences and requirements," Dean Weber said.

"Currently this trend is especially evident in the campaign to improve quality of Kansas wheat by growing approved varieties. Also, need for a quality egg program resulted in the passage of the egg law by the 1955 legislature," he said.

Dean Weber noted that the quality concept also is being extended to pasture and feed crops.

"Reserve feed supplies in which the inherent high quality of ensilage crops and hays is preserved for use in periods of short supply help to stabilize farm operations and cushion the effects of drought."

**OTHERS APPEARING** on Tuesday's program were C. C. Eustace, state supervisor of vocational education; W. M. Arnold, director of the Kansas State Board for Vocational Education; and A. P. Davidson, President James A. McCain, Clinton O. Jacobs, and C. Peairs Wilson, all of the K-State staff.

Yesterday resident staff and extension specialists brought the vocational agriculture instructors up-to-date on the latest information in many fields, including livestock and grain market trends, Bulk handling of milk, the new egg marketing law, and fertilizer recommendations.

The conference is scheduled to close tomorrow.

Mathematics hall was erected in 1876 as the Chemistry Building. The interior of this building was destroyed by fire in 1900, and it wasn't remodeled as a women's gymnasium until 1911. The chemistry department regained possession of the building until 1939, when the mathematics department was expanded.

## Two KS Profs Get Doctorates

Two members of the department of geology and geography staff received their Ph.D. degrees this spring.

Henry V. Beck, who has been teaching at K-State since 1946, except for two years in the navy, received his Ph.D. from the University of Kansas. His dissertation was entitled "Geology and Ground Water of the Kansas River Valley between Kiro and the Vermillion River." Beck was awarded his B.S. from K-State in 1946 and his M.S. from K-State in 1949.

Karl Stacey, who has been teaching at K-State since 1943, except for military service in Europe, completed his doctorate at Clark University. His dissertation was on "Petroleum and Gas in the Economy of Oklahoma." He earned his B.A. and M.A. degrees from the University of Colorado in 1936 and 1937.

## Women Students May Use Pool

The College pool will be open for women students from 4 p.m. to 5 p.m. Monday through Thursday. Katherine Geyer, head of the women's physical education department, announced today.

The girls must bring their own hats and the College will furnish the suits.

There will be no instruction during this time, but a life-guard will be on duty, Miss Geyer said.

## Vet School Accepts 21 For Fall

An additional list of 21 students accepted for admission in the School of Veterinary Medicine with the class beginning in September, was announced today by E. E. Leasure, dean of the school.

Those accepted include: Dwyer D. Albert, Lincoln, Neb.; Hiram A. Amundaray, Ponce, Puerto Rico; Ronald N. Dale, Manhattan; James E. Drolte, Pretty Prairie; James W. Dunn, Purdom, Neb.; Alvin J. Edwards, Dallas, S.D.; John E. Gruber, Lexington, Neb.; Richard L. Hackler, Clinton, Mo.; Dale R. Hodgson, Manhattan; Donald R. Impson, Huttig, Ark.; William F. Kelsey, Oxford, Wis.; Paul A. Kiger, Manhattan.

Alvin A. Lidolph, Roca, Neb.; Orival W. Linder, Langdon; Louis A. Lumpkin, Losantville, Ind.; Curtis L. McCauley, Hartford; William W. Neer, Pittsburg; Kem R. Nevitt, Moran; Cary E. Troutman, Winside, Neb.; Richard W. Voelker, Jr., Plainview, Neb.; and Ronald J. Woitalewicz, Grant, Neb.

A ban on political speeches by non-campus persons was lifted recently at the University of Illinois. For the last 65 years, the regents have said no to all political speakers. Now, candidates for president and vice-president will be allowed to speak on campus during the 1956 campaign.

# Local Sites Help Beat the Heat

Tired of the heat of your room? Long to get away from it all? The Collegian offers this preview of Manhattan picnic spots.

An ideal place to cool off is at Pillsbury Crossing on Deep creek 8 miles southeast of town. The route is well-marked after crossing the viaduct in southeast Manhattan and turning off Highway K13 about 1½ miles farther southeast.

At Pillsbury you can wade in water only a few inches deep as it flows over a limestone stream bed (left), or you can picnic nearby, or swim in the deep water south of the crossing.

The crossing becomes a busy place after working hours as people take their kids there to splash in the shallow water; or park their cars in the shallow water to wash them; or lie on top of cars to sunbathe.

A popular picnic spot for K-Staters is located at Top of the World northwest of Manhattan. By hiking (left) or by driving along the oil road that begins at the northwest corner of the campus, you can take advantage of the picnic facilities (right) and get a beautiful view of Manhattan.

Sunset park offers picnic tables and fireplaces (left, below) plus a zoo containing lions, deer, bison, and many other animals. It is located southwest of town past Sunset cemetery.

If you find none of these spots to your liking, follow the example of one of the fellows who lives in the zoo (right, below) and just lie down and bear the heat until next week, when the Collegian will publish a more complete list of Manhattan recreation spots.

-Collegian photos by J. R. McLeland

# Kansas State Collegian

Kansas State College, Manhattan, Kansas, Thursday, June 16, 1955

NUMBER 149

## Student Families Will Have Enough Housing By Fall, 1956—McCain

The construction of 192 apartment units to be completed in the fall of 1956 together with temporary housing now in use, will provide K-State with adequate married student housing for ap-

proximately two years, according to President McCain.

President McCain has called the lack of adequate housing facilities for stu-

dents, especially those who are married, the greatest single obstacle to the future development of the College.

He said during the past school year, there were 932 married students, which was almost one-fifth of the entire student body. He also revealed that at least 150 student couples did not attend K-State last fall because they could not find living quarters.

IN ORDER to meet this need for married students' housing, he said the college plans to build sixteen two-story apartment units. These units will have six apartments both upstairs and downstairs.

The College has received authority to sell revenue bonds to finance construction of the new units and is preparing a "prospectus" setting forth conditions which would make the bonds acceptable to purchasers, President McCain said.

HE ESTIMATED that each apartment will cost the College about \$5,600. One hundred and ninety-two units will be constructed on the tract northwest of the campus where the new college trailer courts are now located.

The College is making plans to build 192 additional married housing units after construction begins on the proposed men's dormitories to be located on the site now occupied by the Elliot Courts temporary housing barracks, President McCain said.

## Kenney Ford Plans To Visit Alaska Alums

A trip to Alaska to visit K-State alumni will climax an 8-week tour by Kenney Ford, alumni secretary, this summer.

The trip will be the high point of Ford's visits in 16 cities in 11 states. He previously has held alumni meetings in all 48 of the states.

THE K-STATE alumni secretary leaves later this month for meetings in Amarillo, Albuquerque, El Paso, Phoenix, Pasadena, Monterey, San Jose, San Francisco, Portland, and Seattle.

From Seattle, Ford will go by ship to Alaska, where he will visit K-Staters affiliated with the University of Alaska, with the armed forces, etc.

AMONG ALUMNI in Alaska are Dr. Earl Graves, a 1920 grad, and George Gasser, a 1905 grad. Graves, the former territorial veterinarian, now is in private practice. Gasser is the retired commissioner of agriculture.

Kenney Ford

## Candidates for Advanced Degrees To Meet

All graduate students who expect to receive their degrees at the close of Summer School will meet Wednesday, June 22, at 5 p.m., in Fairchild 102, according to Harold Howe, dean of the Graduate School.

## Classroom Air Conditioning May Soon Be Here, President McCain Predicts

A central air conditioning plant from which cold air could be piped into at least two classroom buildings and the new Union is the "hope, dream, and goal" of Kansas State college, President McCain said last Thursday at the first all-College assembly.

He said the plant would be established in the "not too far distant" future, and predicted that it might be done in the next three or four years.

Despite the cost of such an air conditioning system, the President said air conditioning makes sense. A far larger part of the College plant then will be usable on a year-around basis, he explained.

K-State already has taken steps to increase physical comfort of summer school students by air conditioning one of the large reading rooms in the Library, he said.

NEXT SUMMER two new air conditioned auditoriums will be available for summer-school use. These will be the assembly room in the new extension building, to be completed this fall, and the All-Faith Memorial Chapel auditorium

which is under construction at the present time, President McCain said.

The forerunner of air conditioning on the campus consisted of constant temperature and humidity boxes which were used at least 30 years ago according to R. F. Gingrich, physical plant superintendent. These were confined to laboratories and used mainly for research purposes.

"THE FIRST air conditioner that I remember was installed in the basement of Education hall and used to study student reactions by psychologists," Gingrich said. This unit was moved from the greenhouses where it formerly was used to maintain a constant temperature for grasshoppers. There was no refrigeration in the unit, he added.

In the early 1940's, the College purchased two second-hand air conditioners and these were placed in the President's office.

IT WASN'T until two or three years ago that air conditioning, excluding the President's office, was used for human cooling on the campus, Gingrich said.

"About 120 air conditioners of

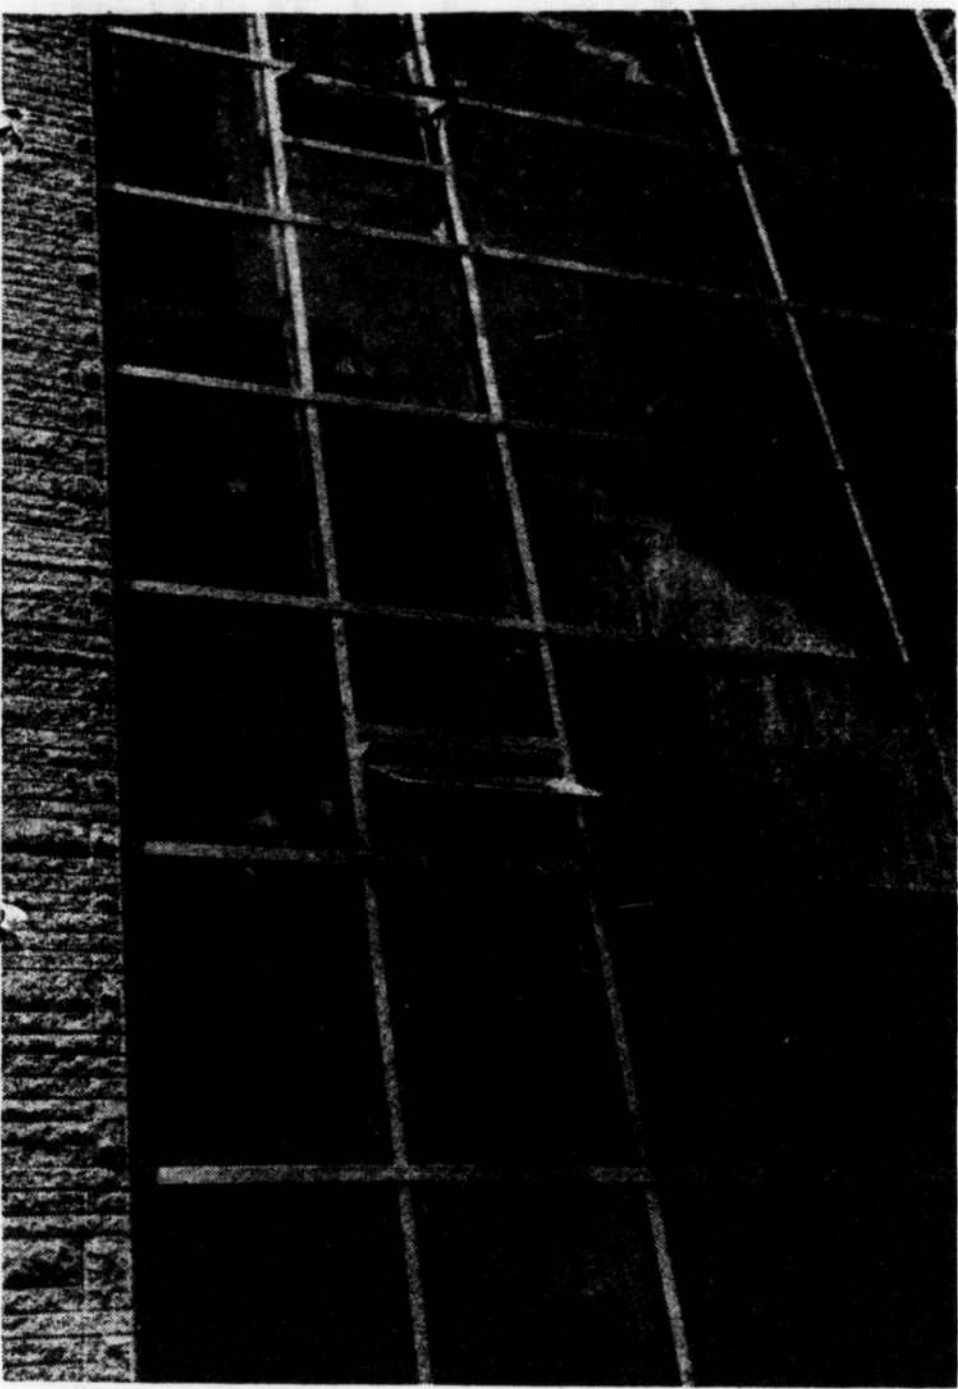

the window type were purchased this year and installed in offices that are used 12 months each year. These units, added to what we already had, take care of most of the 12-month offices," he said.

Gingrich said the two buildings in addition to the Student Union which would utilize a central air conditioning unit, are the Library and Eisenhower hall.

THE NEW Student Union is already equipped with the necessary plumbing and accessories for air conditioning but the Library and Eisenhower hall will have to be remodeled slightly, Gingrich said.

Miss Carol Owsley, supervisor in the class reserve department of the Library said she had received a few comments about the noise made by the three air conditioning units but said it doesn't seem to distract the students from studying.

The reading room will be kept about 10 or 15 degrees cooler than the outside temperature rather than at a constant room temperature. This is intended so the student will not experience so great a change when entering or leaving the room, she said.

WINDOW WASHING is a major project in the new Student Union these days as these workers can tell you. The building is nearing completion and should be ready for use early next year.

## Lafene Condemns Country Swimming

Pillsbury Crossing and Wildcat creek are hazardous for swimming or wading, Dr. Benjamin Lafene, director of Student Health, warned today.

"The water is highly polluted with sewage, and many dangerous organisms are present as a result. Diseases which may be contacted from such water are typhoid fever, dysentery, and a more serious and alarming infection caused by so-called gas bacilli."

Doctor Lafene's warning about the dangers of wading or swimming at Pillsbury Crossing came after last week's Collegian printed a picture showing two girls wading in the stream.

DOCTOR LAFENE accused the Collegian of showing poor taste and acting in an irresponsible manner by "encouraging" students to wade and swim in the polluted water.

"To encourage swimming at Pillsbury Crossing is encouragement for persons to endanger their lives and health," Doctor Lafene said.

Doctor Lafene reported a former K-State student nearly lost his life from an infection contracted in Pillsbury Crossing in the Spring of 1953.

"HAROLD CHARTIER was swimming in the water at Pillsbury. He slipped and cut his foot severely on a piece of broken glass in the water. Although he had immediate medical attention, within 24 hours he was seriously ill with gas gangrene infection."

Gas bacillus antitoxin cost Chartier approximately \$1,000 not to mention a long period of hospitalization and doctor bills required to save his life, Doctor Lafene said.

DISEASE AND broken glass are not the only hazard, Doctor Lafene said. Many students contract skin irritation from the polluted creek waters, and the danger of drowning is also present with the absence of a life guard.

"It is safer to swim in the warmer water and supervised swimming pools available in the Manhattan area," Doctor Lafene said.

## Groups Can Schedule Events for Next Year

The tentative activities calendar of major events for the coming school year has been completed, according to Loren Kottner, Student Union director.

Any groups planning activities should obtain a calendar to schedule their events, Kottner said. They are available in the Union director's office, Anderson 204. Calendars will be sent to all fraternities and organized houses, he said.

## Wichita Firm Gets Contract for Newest K-State Building

Martin K. Eby Sr., Wichita contractor, was the apparent low bidder today on the general contract for the first unit of the new animal industries building at K-State. His bid was \$966,731.

Eby also holds the general contract for the new Extension Service building, which is nearing completion.

Available for constructing the first unit is \$1,300,000 appropriated by the 1953 Kansas legislature.

The animal industries building eventually is to house the departments of animal husbandry, dairy, and poultry. The first unit on which bids were called today is essentially a building providing office and laboratory space, with an attached livestock judging pavilion containing 3,600 permanent seats.

"Les see—I got 'INCOMPLETE' in math 215, WITHDRAWN in English II, CONDITIONAL in social studies, and a 'D' in Phys Ed—Boy! Thank goodness I didn't flunk anything this term."

## Collegian Doesn't Want Censorship

The old swimmin' hole ain't what it used to be. If we are to accept the conclusions of medical science it never was anything except a glorified cesspool.

When the Collegian ran a picture of two girls wading at Pillsbury Crossing last week, we didn't realize what a commotion would evolve. Not long after the paper came off the press, Student Health flung charges of "negligence" and "irresponsibility."

The Collegian was condemned by medical critics who felt that it should be the function of a college newspaper editor to channel all news through appropriate "experts" so as to be assured of giving the readers a "correct" picture of goings-on.

These "experts" would decide just what the reader should read and would in effect reduce the newspaper's functions to cold, hard scientific jargon with little regard for news value or reader interests.

The whole affair is ridiculous. The Collegian is a student newspaper. The Collegian reports the activities of persons who read it. Students read the Collegian, students go to Pillsbury Crossing to wade and swim.

What students do is of concern to the Collegian, but we cannot make up persons' minds for them. We will not set ourselves up as a censor bureau to determine what the students should read and what they shouldn't in the way of news.

It's amazing how this country has progressed as well as it has with all the hazards around which should have killed us off long ago.

Just look at us today. Cars kill thousands of persons a year. Better stay out of cars. Some persons get cashed in by falling in the bath. But wait, you can't quit taking baths because the accumulation of filth on your body could lead to diseases under the proper circumstances!

To be dead wouldn't be just what we would want right now, but the only way out seems to be an antiseptic society devoid of any fun, recreation, personal contacts, or Pillsbury Crossings.

In fact, to live in a test tube or a vacuum would seem to be the logical answer to dangerous living. But, after all, wouldn't a vacuum be an approximation of death?

Probably most persons would prefer to cash in their chips in a little more sporting manner.

—Don Kendall

## Kites Are Dangerous Too

Champaign, Ill. (U.P.)—A University of Illinois extension safety specialist calls the flying of kites a dangerous business.

O. L. Hogsett said electrocution and injuries from falls are among the hazards of the sport. Hogsett advised parents to make sure their children fly kites in safe areas and with proper string.

## Car Salesman Offers To Pay Parking Fines

A notice in the Iowa State Daily "Hub Bub" column says a local car dealer is to set up a parking-ticket scholarship for the senior with the highest all-college fine total.

The scholarship will cover all parking fines for the year—providing that the student furnishes incidentals such as tuition, books, and room and board.

Kansas U. receives a large income from parking fines, according to the University Daily Kansan.

More than 25,000 tickets were given this year. Fines are: the first ticket, merely a warning; the second ticket, \$1; each succeeding violation, \$2.

Money received is used for the maintenance of parking zones and for incidental items such as paint, parking tags, and other supplies.

The University of San Francisco recently celebrated the fifth anniversary of its course entitled "Communism, Its Philosophy, and Its Tactics."

This course, inspired by Churchill's quote that "Communism is a riddle wrapped in mystery inside an enigma," is required of all students.

A "Scotch" golf tourney, which differs slightly from other tourneys, was sponsored by the Iowa State Daily recently.

The teams entering must have both a male and a female member. A total of nine holes for each couple is acquired by the two using one ball and hitting it alternately.

One of the prizes went to the team that hit the most balls into a creek near the ninth hole.

Members of the Delta Chi fraternity at Indiana U. should win over even politicians in a mudslinging contest.

In a 3-hour mud battle, they also turned their wrath on a student newspaper reporter and some adventurous Chi Omegas who decided to enter.

One of the girls was screaming, "No, not in my hair, I have a date tonight."

Her mouth was still open when they dunked her, according to the reporter's story.

## Calendar

(The information in this column is obtained 24 hours before publication from the social calendar kept in the dean of students' office. If it is not accurately listed there, it will probably be wrong here too.)

### Thursday, June 16

All-College dance, tennis courts, 8:30-11:30 p.m.

### Friday, June 17

Opera, "Sunday Excursion," quadrangle, 8 p.m.

### Saturday, June 18

Music Camp concert, quadrangle, 8 p.m.

### Tuesday, June 21

Free movie, "My Little Chickadee," East stadium, 8 p.m.

## Leisure Corner

By CRAZY AUTO

For those of you who like your literature dripping with gore and perverted beyond reason, I suggest **Something of Value** by Robert Ruark. It ought to make you sick enough to last for weeks.

A novel of the Mau Mau terror in Africa, **Something of Value** so shook the Book-of-the-Month Club selection committee that the committee selected the book over the strongly dissenting opinion of one of its feminine members.

I wonder if the well-meaning lady realizes how severely her disapproval of the book has injured its popularity. It is currently limping along in second place on the best-seller list. It will no doubt jump to first when and if it's banned in Boston.

The book gets its name and theme from a proverb which states in effect the inadvisability of taking away a man's traditional way of living and his good customs without first making sure he has something of value to replace them.

This is what Ruark contends the White Man has done with the African.

Massacres, tortures, and native oath-taking and initiation rites, horrible beyond description, characterize the novel.

I, for one, am in favor of the printing and sale of any book which a publisher has seen fit to accept, no matter how offensive, if it is closely based on facts and serves any good purpose other than sadistic satisfaction.

Mr. Ruark, however, offers us no such foundation for his bloody excesses.

In fact he states in the first paragraph of his introduction: "This is not a true story . . . is not a document—it is a work of fiction."

I wonder how much he'll get for the movie rights.

One of the more popular pieces (selections is probably a better word) at the music camp concert last Saturday night was the overture to **The Student Prince** by Sigmund Romberg.

Manhattan record stores report a brisk sale of songs from **The Student Prince**, and I'm inclined to give **Man Lanza** and the movie a lot of the credit for the operetta's new popularity. The film played here, for the second time, around final week last semester.

The most popular **Student Prince** album in Manhattan is the one taken from the film's sound track. Lanza's "Serenade" and "Deep in My Heart, Dear" seem to be the favorite singles. I like "Drink, Drink, Drink."

Our pick of the week-end movies is a Britisher coming to the Campus Friday and Saturday. Called "Genevieve," it's all about a car of that name and a witty excursion on which it takes its owners.

## Students, Not Dandelions, Mar Campus, Prof Says

By GARY NEILAN

The beauty of the K-State campus is marred more by students than by dandelions and weeds, Prof. Ray A. Keen of the horticulture department said.

"Each year some group of students submits a request to the College to rid the campus of dandelions," Professor Keen said.

However, if students really are interested in seeing our campus have nice-looking lawns, there is a far less expensive way in which they can help keep them looking that way, he said.

DANDELIONS and other weeds mar the campus for only a few weeks, but the ugly paths cutting through the grass are almost impossible to get rid of, he said.

Often students do not realize how expensive and detailed the removing of dandelions can become, Keen went on. "Some of them have seen an airplane swoop down and spray a wheat field in a rather simple operation.

"TO SPRAY the campus in this manner would kill not only the dandelions, but many of the trees and shrubs as well," he said.

Several estimates of the cost of spraying on campus have been submitted to the College, but funds have never been available for the project, Keen said.

The only price for eliminating the paths through the campus would be a little more carefulness on the part of the students, and possibly a few extra steps a day, he said.

## Home Ec Club Donates \$100 to Korean School

The Margaret Justin Home Economics club is contributing \$100 to the home economics department at Ewha university in Seoul, Korea, according to Eugenia Jern, club treasurer.

Mrs. E. Soon Yim, head of the department of home economics at Ewha, attended K-State from February 1954 to February of this year for advanced study.

Club members became acquainted with Mrs. Yim and learned of the need for help in Korea.

"Since one of the purposes of the club is to work with groups in other countries for the development of home economics, the club decided to make the gift," Miss Jern explained.

In addition, the club has contributed \$32 to an international scholarship fund maintained by the American Home Economics association. It also supports a local scholarship for a senior girl, which will be held next year by Treva Moss of Atlanta.

## Maternity Hospital Bought By Expanding Fraternity

Delta Sigma Phi fraternity recently bought the three-story Saint Mary Parkview hospital and will soon begin remodeling it into a fraternity house.

The hospital was bought because of the need for more living quarters for the members, James Larkin, fraternity alumnus, said. The present fraternity house has room for about 30 men, while the new one will house from 65 to 70 men.

Tentative plans have been made for a new house in five or six years, Larkin said.

EXTENSIVE remodeling will be done this summer so the house will be ready for occupancy by the beginning of the fall term.

Changes to be made include remodeling of the housemother's apartment, the living room, and the dining room. The dining room is to seat 90.

This remodeling will be under

the direction of Carol B. Lewis, an architect alumnus.

No extensive changes are to be made on the outside of the building or in the gymnasium at the rear of the building. The boys will do some painting and minor remodeling in their rooms.

IN ADDITION to a gymnasium, the house has an elevator which runs from the basement to the third floor. The building was originally the Manhattan YMCA before being changed into a hospital.

The present Delta Sigma Phi house at 1642 Fairchild has been leased to the 1834 club, which is a Delta Upsilon colony.

The local Delta Sig chapter was started in 1925. It was housed at 1707 Laramie until 1941. In 1941, after a 6-year inactive period, it moved into the house on Fairchild.

## Don't Go Too Far Away, Stay Here and Play Away

Many types of recreation may be found to pass the summer away without straying too far from the city of Manhattan.

For instance, for the outdoor type there is swimming, archery, tennis, and horseshoes.

The swimming program of the Manhattan Recreation commission offers one hour classes from 10 a.m. to 12 noon Monday through Saturday. The pool is open to everyone from 1 p.m. to 8 p.m. on Sundays, and 1 p.m. to 9 p.m. Monday through Saturday.

TENNIS COURTS are located throughout the city for public use and an archery target is located on the west side of the city park. Each person must bring his own bow and arrows.

For the horseshoe fan, there are three courts in the city park on the campus. Equipment can be checked out at the Manhattan recreation office or the temporary Student Union.

College dances are scheduled throughout the summer on the tennis courts. For those who like to square dance, a community dance is set for each Tuesday night from 8 to 11 p.m.

Municipal summer band concerts are on the summer calendar for each Thursday at 8 p.m. in the park.

CRAFTS ARE offered in the community house each Wednesday from 1 to 5 p.m. Textile painting instruction is being given this summer.

Picnickers who want to get away from it all—Manhattan included—may obtain picnic kits at either the temporary Student Union or the Manhattan recreation office.

Picnic kits from the Union contain charcoal burners. A charge of 25 cents is made if the kits are brought back clean, and 50

cents is charged if they are dirty.

FOR THOSE who like horseback riding, several farms in the vicinity rent horses.

Going farther from Manhattan, arrangements can be made in the Dean of Students' office to go to Kansas City to see Athletics' ball games and the Starlight theater.

## KC Bus Trips Scheduled For A's Games, Theater

Students who wish to see performances at the Starlight theater, an open air theater in Kansas City, or see the Kansas City Athletics play ball will be able to charter buses to Kansas City.

There must be twenty students who wish to go to Kansas City before a bus can be chartered, according to the Dean of Students' office. Bus tickets (round-trip) would cost the students approximately \$7.25 each. Tickets for performances at the Starlight theater or the Athletics' games range from \$1 to \$3.50.

Students who wish to go on one of these trips may sign up at the Dean of Students' office.

Opening performance at the Starlight theater is a musical comedy, "Naughty Marietta," which will be presented on the evenings of June 20 through June 26.

Other performances scheduled for the theater are "Me and Juliet," June 27 through July 3; "Babes in Toyland," July 4 through July 10; "Guys and Dolls," July 11 through July 17; "Bittersweet," July 18 through July 24; "Finian's Rainbow," July 25 through July 31; and "Cole Porter Festival," August 1 through August 7.

The Athletics will have two home-stands during the remainder of the summer session. They will

## Phi Delta Gamma Begins 31st Year

Phi Delta Gamma, national fraternity for women graduate students, is celebrating its 30th anniversary as a national organization and its second anniversary at K-State, according to Harold Howe, dean of the Graduate School.

be in Kansas City from July 1 through July 6 and from July 14 through July 24.

On July 1, 2, and 3, they have games with the Detroit Tigers; on July 4 they play a double-header with the Chicago White Sox; and on July 5, 6, and 7 they play the Cleveland Indians.

During their second home-stand they have games scheduled with the Baltimore Orioles, the Washington Senators, the Boston Red Sox, and the New York Yankees.

# Long-Time Employees To Retire

## Harry the Cop To Lay Aside Deadly Pencil

By GEORGE VOHS

A familiar blue-uniformed figure who has been directing traffic and issuing parking tickets on the K-State campus for 21 years will lay aside his deadly pencil and live a leisurely life after September 1.

Harry C. Morris, alias "Harry the Cop," will retire on that date because of eye trouble.

During the years, Harry usually could be located at the south side of Anderson hall between classes, or wandering about the campus issuing tickets to illegally parked cars.

HIS FAMILIAR "tip of the cap" to young ladies and his cheery greetings to all have become an institution.

Harry first came to K-State in 1926 following service with the Third army in France during World War I. He worked as a laborer helping mix cement for construction of the Library.

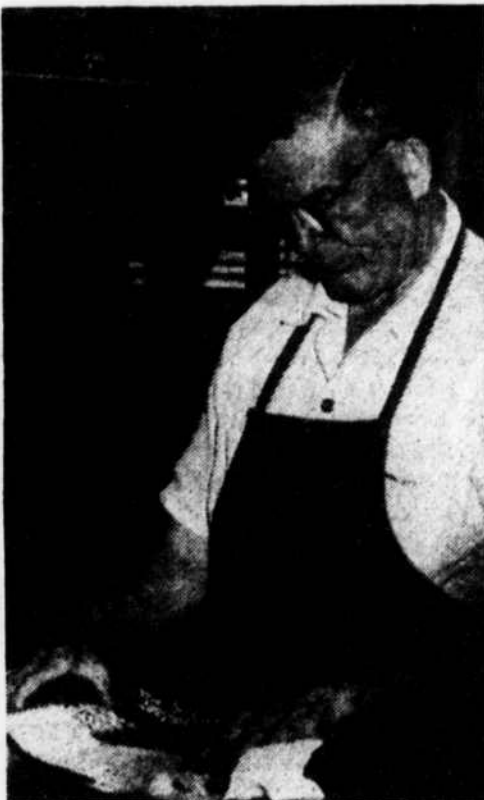

From 1927 until 1934, he was custodian of the Library. "I know that building pretty well," he admits. He took over his duties as campus policeman in 1934.

Harry doesn't have any definite plans about what he will do when he retires.

"I AM GOING to spend a lot of time on the campus visiting my old friends. I like everything about the campus—the students, the staff, and the faculty have all treated me fine," he said.

Though he has spent almost 30 years at the College, Harry has never seen a K-State football game.

"I had to stand outside all the time," he said. "I plan to come back and see some football games though."

Photos by George Vohs

**OLD-TIMERS TO RETIRE**—Harry (The Cop) Morris, left, who this summer will end his 21-year tenure at K-State, tips his hat in a typical gesture. John Jenkins, right, who puts together the Collegian pages, will retire this summer after 30 years at K-State.

## Kedzie Printer Ends 30 Years at College

By DARREL MILLER  
Of the Collegian Staff

Two old-timers of K-State journalism are retiring this summer.

John Jenkins, who has been a fixture in the printing shop in Kedzie hall for 30 years, will reach the College retirement age on July 1.

In addition, the Kansas Industrialist, official publication of the College, ceases publication this month after an 80-year existence.

"I didn't realize how important I was around here until I heard that the Industrialist was closing down because I was leaving," Jenkins jokingly says. One of his jobs here has been to compose the pages of the Industrialist in type.

JOHN'S PRIMARY job here, and the one that has brought him into close contact with the Collegian staff, has been in putting together the Collegian pages.

And he is no newcomer at that job, for when he first came to Kedzie hall in 1925 he became compositor for the Collegian, then a semi-weekly.

He has seen the ups and downs of the Collegian, and in 1949 saw the College paper begin publishing every day. Since that time, it

has comprised a major part of his work.

During John's 30 years at K-State he has seen many changes. He recalls, for instance, a journalism student during his first years here who was named Ralph Lashbrook. Lashbrook is now a professor and head of the K-State department of technical journalism.

JOHN ALSO recalls Ed Amos as foreman of the composing room when he first came here. Amos, a

Manhattan resident and associate professor emeritus of journalism, worked for the College Press and taught graphic arts.

At his retirement this year, John finds that he is the oldest member of the composing-room staff, in point of service.

He began learning the printing trade back in 1910, when he went to work for the Leonardville Monitor. He says he worked for a number of papers during his early years before coming to Manhattan in 1916.

HE WENT TO work on the Manhattan Nationalist that year, coming there from the Burlingame (Kan.) Republican. After 9 years on the Nationalist, he came to the College in 1925.

The Nationalist was one of three

Manhattan dailies at that time, he said. Others were the Mercury and the Chronicle. All three are combined in the present-day Mercury, he said.

John says he has made no special plans as to what he will do after retirement. He does expect to spend more time with his family. He has two sons and a daughter, and seven grandchildren.

Only one member of his immediate family is in the newspaper business. A son-in-law is a member of the editorial staff of the Kansas City Kansan.

Nebraska was known as "The Tree Planter's State" from 1895 until 1945 when it became "The Cornhusker State."

# Student Union Nears Completion

Fifty dozen doughnuts, 75 gallons of coffee, and more than 1,500 meals are expected to be dispensed each day at the new K-State Union, which is expected to be open by February of next year.

These figures were included in a recent outline of a "typical day" at the Union, which was prepared by the Union Promotion committee.

The general contractor expects the Union to be finished late in October. The tentative opening date, after all facilities have been installed and a staff hired, is set for next February.

The "typical day" shows the Union open from 7 a.m. to 11 p.m., with 35 events scheduled during the day. Events range from a meeting of students planning a Throttle-Jockey club, to the formal initiation of Phi Kappa Phi.

The \$1,650,000 building, begun in April of 1953, will offer numerous activities and services to students, faculty members, and alumni.

Bowling, billiards, table tennis, table games such as cards and chess, crafts and photography, a browsing library, and music rooms are among the activities to be available on the Union's 3½ floors.

Other services available include an arts lounge, a lecture hall, an outdoor patio, a snack bar and a cafeteria, private dining rooms, meeting rooms, and a ballroom.

The cost of the Union has been paid by student fees. In addition, a \$4 increase each semester in student fees has been recommended to the Board of Regents to help pay for operating the Union.

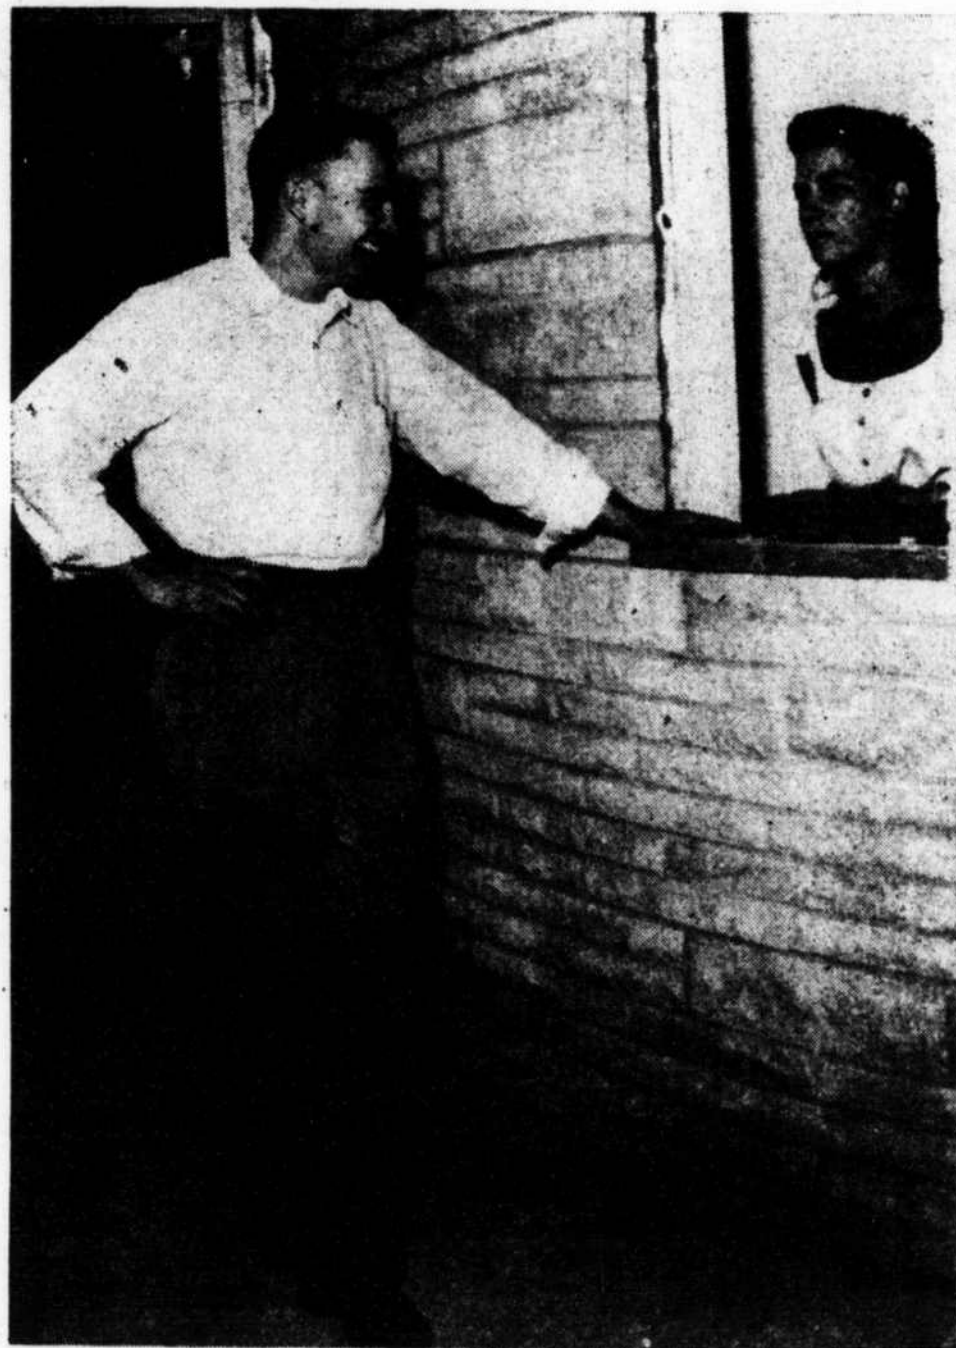

If approved, the fee will go into effect next fall as part of a proposed \$10 overall increase.

Experiment station luncheons, luncheons and dinners for faculty groups, forum dinners, bridge parties, and faculty committee meetings were listed by the "typical day" report as some of the functions available to K-State faculty members.

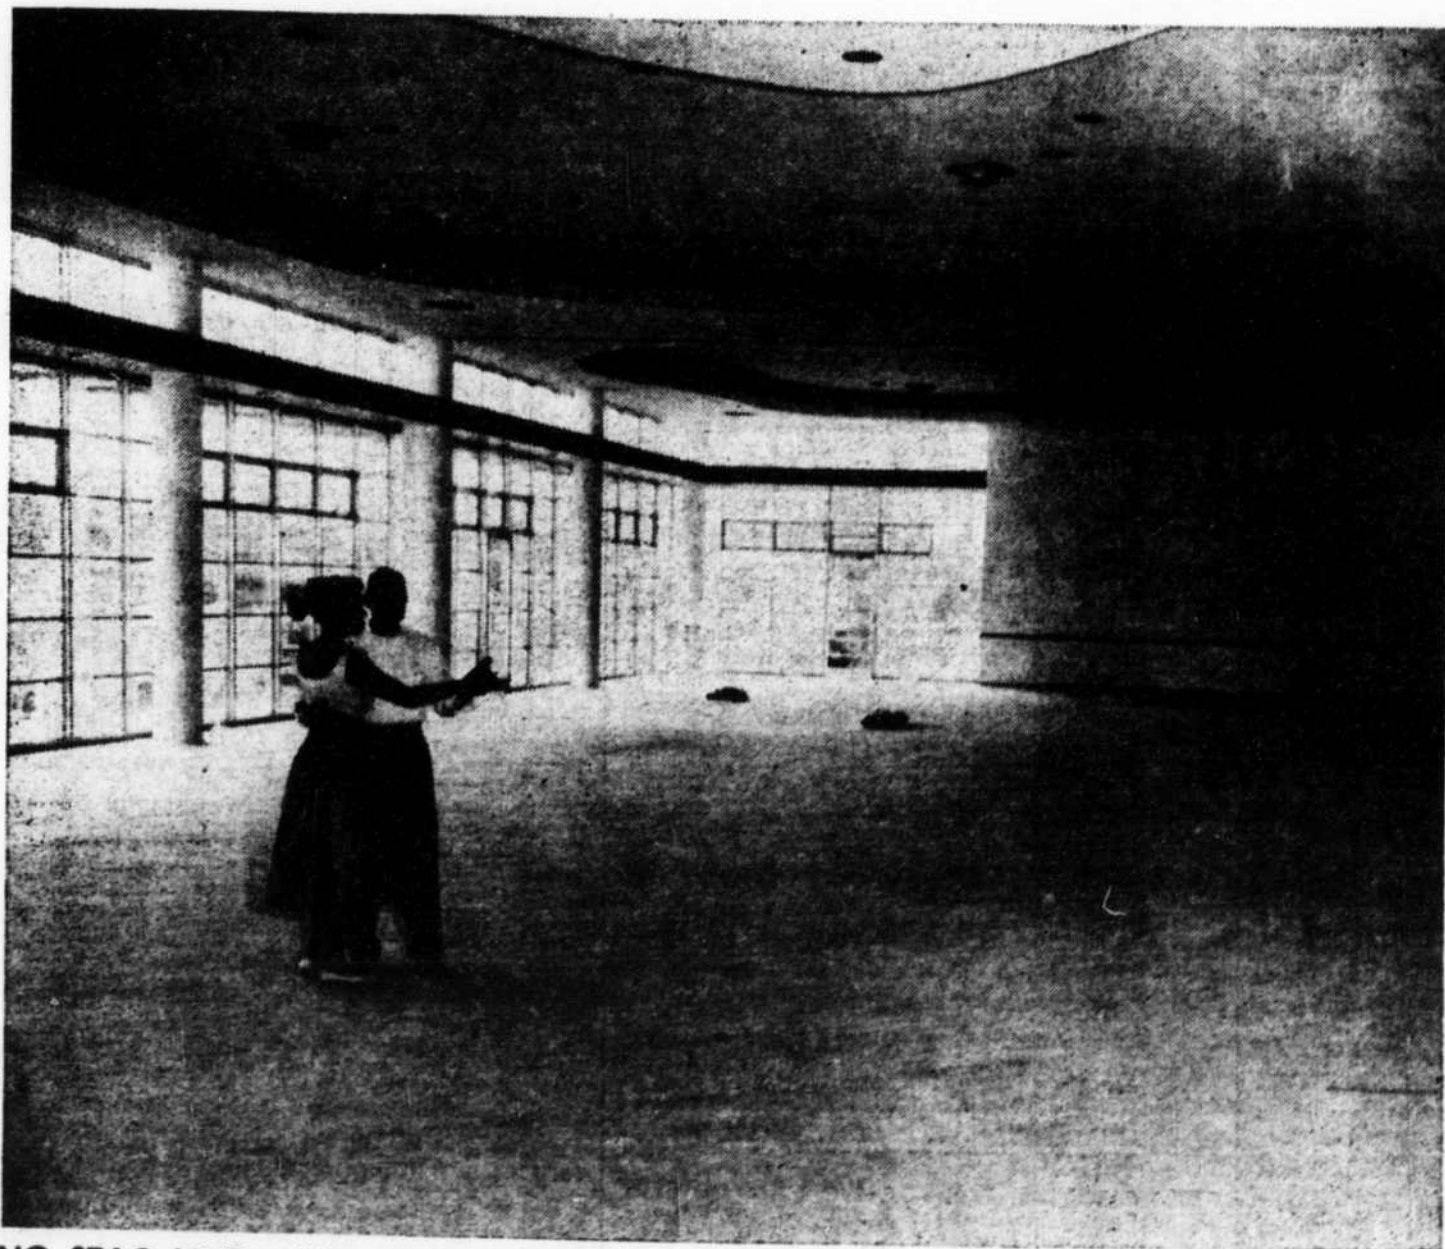

Local merchants do not consider the opening of the Union as a threat to their businesses.

The owner of the Canteen believes his business will suffer for about three months. After the newness of the Union has worn off, he thinks his customers will return. If they do return, he plans extensive remodeling.

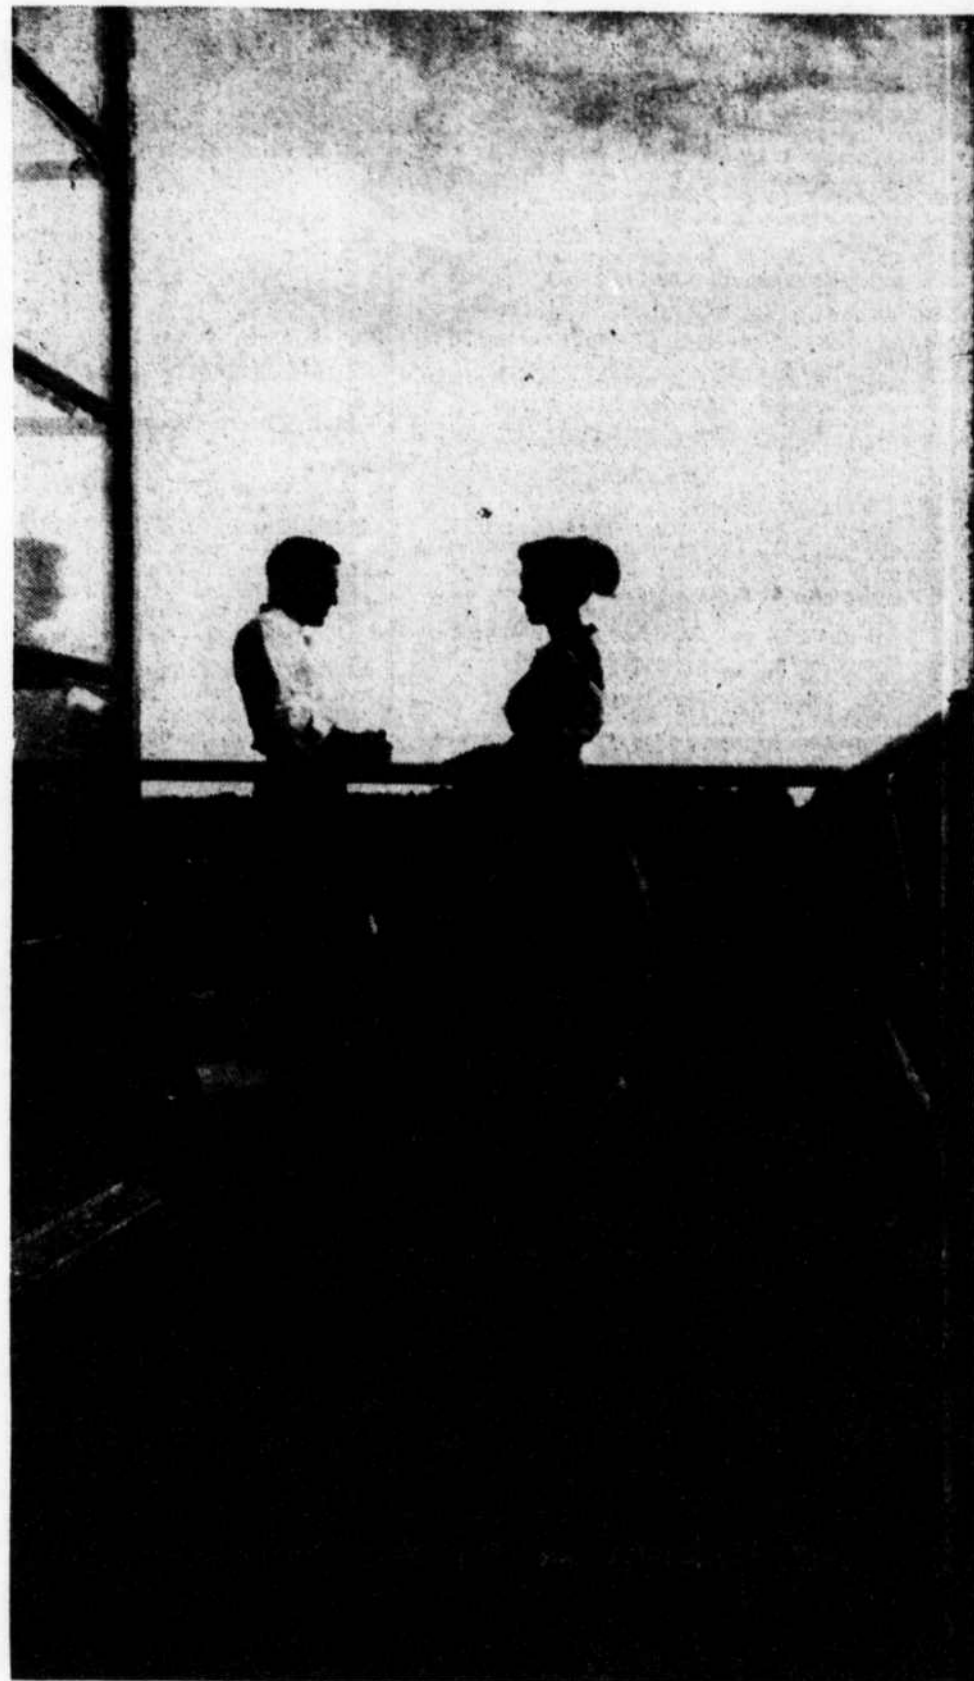

The owner of the College bookstore in Aggieville does not believe his business will be affected, even if the Union includes a co-operative bookstore. Such a bookstore was being considered during the spring semester.

**TICKETS, PLEASE?** Sandra Morissette tries out the ticket window of the lecture hall in the unfinished K-State Student Union, as Verlyn Richards, manager of the temporary Student Union, forms a one-man ticket line. The lecture hall will seat 250 persons.

**NO STAG LINE**—Although the finished dance floor for the ballroom has not been laid, the couple finds it possible to dance on the sub-floor. From 750 to 1,000 couples can dance in the finished ballroom at one time.

—Collegian photos by J. R. McLeland

**THE BALCONY** outside the ballroom on the second floor of the new Student Union makes a nice place for a chat during the early evening, and promises to be popular during dances. The balcony overlooks the temporary Student Union.

**HAVE A COKE**—Sandra and Verlyn drink the first cokes in the snack bar of the Student Union. Although the Union is not expected to open until next February, Sandra and Verlyn find the framework of the counter already in place.

## Faculty Senate To Debate Smoking

Students, faculty, and staff members may soon be allowed to smoke in campus offices and certain designated areas in buildings if the resolution facing the Faculty Senate is approved.

At a special meeting of the general faculty on Tuesday, May 31, the faculty voted in favor of a resolution permitting smoking in certain restricted areas by a vote of 127 to 99 and sent it to the Senate for final consideration.

The problem of on-the-campus smoking dates back to 1908 when the Board of Regents first ruled that the "use of tobacco in any form in buildings or on the grounds is prohibited."

"IN THOSE days not many people smoked and it was not considered suitable for young people to smoke," Prof. C. M. Correll, college historian said. "The danger of fire was much greater then too," he added.

In 1937, the Student Council voted to continue prohibition of smoking by students, faculty members, and college employees on the campus east of the west line of 17th street drive. This excluded the Stadium.

THE WAR opened the door for smoking when the Council of Deans in September, 1943, authorized limited smoking on the campus by officers and trainees in the armed forces, but not by

civilian ROTC students. Such smoking was not authorized in posted areas of the campus, at entrances to buildings, on the steps or walks near building entrances, or in the buildings.

In April of the following year smoking was permitted in the second floor dining rooms and the small dining room west of the kitchen in Thompson hall.

THE PRESENT ruling on smoking was established in June, 1944 when the Student Council, with the approval of the Faculty Committee on Student Affairs, recommended that smoking privileges be extended to "anywhere on the Kansas State college campus, ex-

cept in buildings or areas which according to the President constitute a fire hazard."

# Army Cinder Meet Here To Preview Olympic Team

By DICK CARR  
Of the Collegian Staff

A preview of the 1956 Olympics and a postscript to the Pan-American games can be seen on K-State's cinders this week end when some of the U.S.'s best meet for the all-army track and field championships.

Miller Fred Dwyer, defending outdoor national AAU champion, will be the man to watch since his 4:01.8 mile at Compton, Calif., last week.

LOU JONES, who lowered the world's 400-meter record by four-tenths of a second in the Pan-American Games; John Bennett and Roy Range, the only two active broadjumpers to clear 25 feet; Rod Richard, former UCLA sprint star who won the 100 and 200 meters in the Pan-Am Games; and Martin Engel, holder of the American record for the hammer throw, are top army men who will compete.

The army placed 13 men on U.S. teams competing in the Pan-Am Games in Mexico City in March. A big purpose of this

week's meet is to screen these and other competitors for next year's Olympics.

A TEAM representing the U.S. army in Europe arrived earlier this week from Frankfurt, Germany, for the meet. They were the first of some 200 athletes due from the 19 different army commands around the world.

An unfamiliar feature of the meet is the triathlon contest. The triathlon is designed to screen potential pentathlon stars.

IT INCLUDES pistol shooting, the 220-yard freestyle swim, and the 2-mile run. Military men who show proficiency in these events will then be trained in horsemanship and fencing to compete in international competition.

In scoring the triathlon, a standard is established for each event and the competitor who misses or exceeds that mark is penalized or rewarded, accordingly.

In the pistol shooting, for instance, a raw score of 180 gets 1,000 points. For each point less than 180, the shooter is docked

10 points. For each point more than 180 he gets 10 added.

In the Fifth army track meet Monday and Tuesday in K-State's stadium, Fort Leonard Wood retained its Fifth army championship with the help of two triple winners.

Fort Leonard Wood had 76 points, 4 points better than Fort Carson, Colo., with 72. Fort Riley was third with 31. Fifth army headquarters in Chicago had 15.

Triple winners for the winning team were Ted Wheeler in the half-mile, mile, and 3-mile runs, and Willie Stevens in the high and low hurdles, and the hop-step-jump.

Stevens was the meet's outstanding performer, breaking meet records in all three of his winning efforts. He set a new low-hurdles standard of 24.0 Monday, and Tuesday he ran the 120-yard high hurdles in 14.6 seconds, and leaped 41-8 1/2 in the hop-step-jump.

## Final Play Tryouts To Be Tonight

Final tryouts for the K-State student play "Sabrina Fair" will be held at 7:30 tonight in room 206 of Holton hall, according to Earl Hoover, professor of speech.

"Sabrina Fair," a four-act comedy by Samuel Taylor will be presented on July 14 and 15. The play starred Joseph Cotton and Margaret Sullivan during its Broadway run.

A graduate student at Minnesota university recently condemned the administration for their solution to the parking problem. The plan was to build a parking ramp, but he said that it would only encourage more people to bring cars to the campus. Accordingly his reasoning, the money will be badly spent and in a few years the administration will have to tear down the "misplaced monstrosity" which it is hurriedly erecting.

## Taylor Breaks Left Foot

Corky Taylor, star halfback on last fall's K-State football team, fell and suffered a broken bone in his left foot at Hutchinson last Saturday.

Taylor had been rehearsing as a groomsman for the wedding last Sunday of Elinor Faubion and Carl Nestler, who graduated from K-State this spring.

The accident happened as Taylor stepped from a car, just a short time after he had revealed to a Hutchinson sports editor his plans for training with the Los Angeles Rams.

Corky, who recently signed a contract with the Rams, had

planned to leave for Los Angeles about July 1.

## Minnesota U. Prof Named A&S Dean

The new dean of the School of Arts and Sciences will be John C. Weaver, 40-year-old head of the department of geography at the University of Minnesota. He will succeed the retiring Rodney W. Babcock, dean for the past 25 years.

Weaver's appointment was announced Saturday by President McCain, following approval by the state Board of Regents.

Weaver joined the geography department staff at Minnesota in 1946. He gained the rank of professor in 1948 and later became chairman of his department.

In addition to heading a research department which carries on a program under contract with the office of naval research, he has been a visiting professor at the University of Oregon and Harvard university. He has also taught at the University of California, Berkeley; and Wisconsin State college, Milwaukee.

HE CURRENTLY is serving as chairman of the all-university committee on faculty leaves, is a member of the Arts College Divisional council for the Social Science, a member of the institution's "Ten Year Self-Survey," the honors committee, and the University library committee.

The new dean was born May 21, 1915, in Evanston, Ill., and was reared at Madison, Wis. He graduated from the University of Wisconsin high school in 1932, received his B.A., with high honors, from the University of Wisconsin in 1937, and was a graduate fellow at the University, receiving his Ph.D. in 1942.

From 1940 to 1942 the Minnesota educator was a member of the research and editorial staff of the American Geographical society of New York. He then served for nearly two years with the United States department of state's division of geography and cartography before being assigned as an arctic intelligence officer to the hydrographic office of the navy department in 1944.

HE WAS CITED in 1946 by the Chief of Naval Operations for his work in gathering, organizing, and editing materials on ice conditions in the northern hemisphere. This was published as an "Ice Atlas of the Northern Hemisphere."

He was recently cited by the Association of American Geographers for "meritorious contribution" for his study of crop combinations in the Middle West, and is the author of numerous books and articles prepared for professional magazines.

His academic honors include membership in Phi Beta Kappa, Sigma Xi, Phi Kappa Phi, Delta Sigma Rho, and Phi Eta Sigma.

He was married to the former Ruberta Louise Harwell of Berkeley, Calif., in 1940. They have two sons, Andrew Bennett, age 9, and Thomas Harwell, age 5.

### 'Miss K-State' Contest To Pick Campus Beauty

The Collegian will sponsor a "Miss K-State" contest for campus beauties the evening of July 24 at the tennis courts. Entrants may register beginning June 30 at either Southeast hall or Kedzie hall. See next week's Collegian for complete contest details.

John C. Weaver

### July 2 Deadline To Drop Courses

July 2 is the deadline for summer school students to drop courses or to request reassignment, E. M. Gerritz, registrar, announced today.

After that date, courses in which a student is flunking may not be dropped without loss of credit, Gerritz said.

### 177 Students Enroll To Take Summer Proficiency Exam

The largest group since 1950 is scheduled to take the summer English proficiency examination Tuesday, July 12, from 7-10 p.m. in Willard 101 and 115. Prof. Nellie Aberle, administrator of the exam, announced Monday.

The enrollment of 177 represents an increase of 47 over last year at this time, she said.

"Eligible students who have not already enrolled in English proficiency must do so before Tuesday, July 5, if they desire to take the examination," Professor Aberle said.

English proficiency is an examination to test the ability of the prospective graduate to write an essay using proper form, grammar, and diction.

## Juvenile Crime Surveyed In City By Grad Student

While teenagers comprise a relatively small part of Manhattan's permanent population, they are a vital—and can be a destructive—force.

Statistics compiled by Mrs. Margaret Jeanne Revels, graduate student in education, show that though youngsters from the ages of 12-15 comprise only three per cent of the permanent Manhattan metropolitan population, that in the years 1946-1954 they were responsible for 12.1 per cent of all reported disturbances of the peace, 10.2 per cent of all petty larceny, and 6.4 per cent of the driving violations.

MRS. REVELS chose to study youngsters in the 12-15 age group, since these usually are the most crucial years for teenagers. She found that most of the offenses were committed by the 14-15 age group.

The most repeated violation by teenagers which appeared on the police docket was "driving without a driver's permit." Mrs. Revels found that many youngsters committed this same misdemeanor two or three times, despite the fact that "each time the child promised to leave the automobile alone, and each time the parent promised he would not allow the child to drive."

Fighting and disturbing the peace usually was the work of a gang of youngsters, and petty larceny usually was committed by a group of two or more boys.

AMONG OTHER offenses were running away, loitering, trespassing, vandalism, and shooting BB guns at passing cars, people and animals.

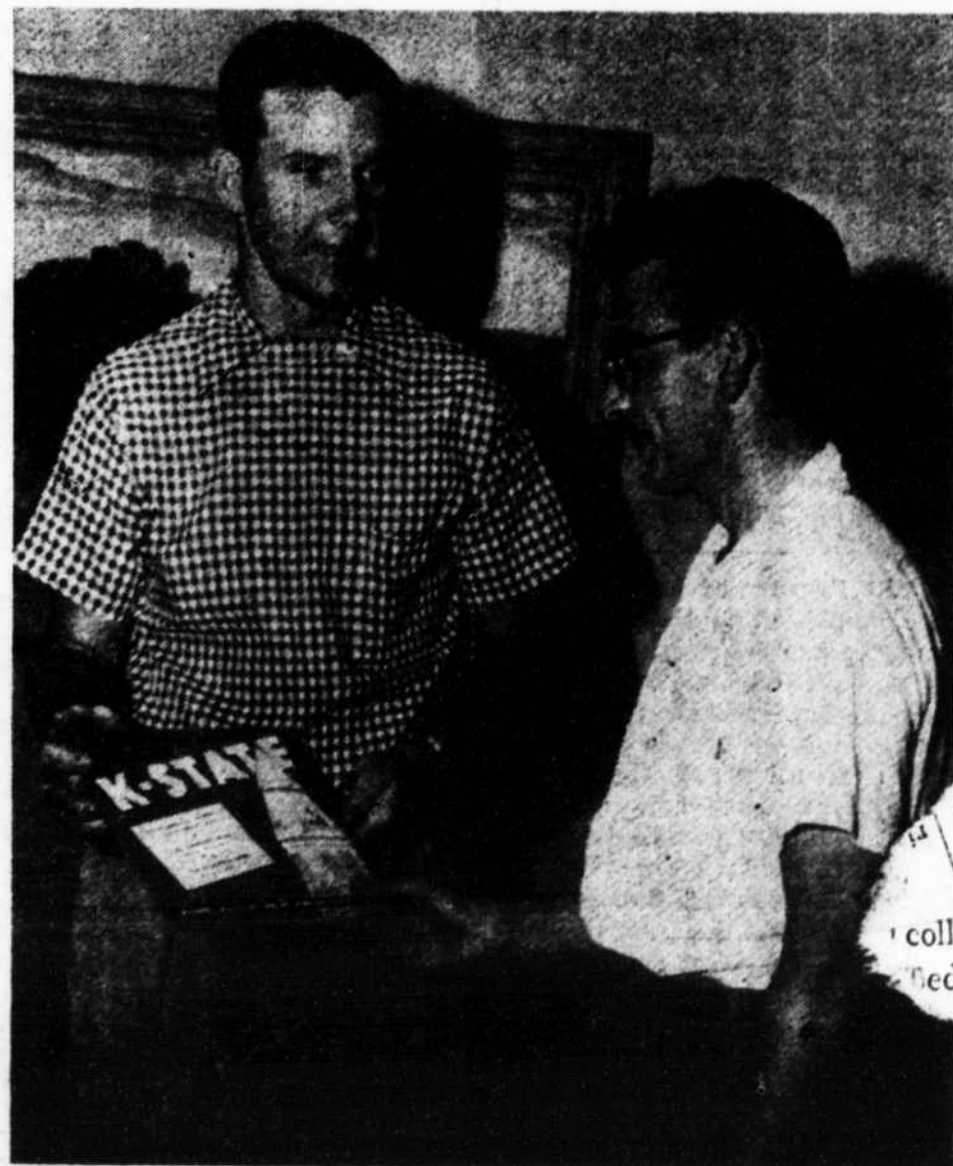

Of 72 delinquencies appearing on the police docket from June, 1950, through 1954, there were 52 committed by boys, 11 by girls, and 9 by gangs.

About one in five of these cases went to probate court. Here first

offenders usually were paroled, apparently with excellent results. Second offenders nearly always went to a correctional institution.

CONCLUDING suggestions by Mrs. Revel were:

"Parents need to understand and fulfill their vital place in their youngster's life."

DON SHORMAN has just bought one of the new LP recordings of K-State favorites from Ernie Barrett, assistant alumni secretary. The recordings made by RCA Victor and featuring the Wildcat Band are available at the Alumni office in Anderson.

## Singer To Give Folk Program

Jean Ritchie

Miss Jean Ritchie, folk singer, will present a program of authentic folk music at the second summer session assembly tomorrow at 3:20 a.m. in the Auditorium. A. L. Pugsley, chairman of the assembly committee announced today.

Raised in the heart of the Kentucky mountains, Miss Ritchie brings to the campus songs that her ancestors carried from homes left behind in England, Scotland, and Ireland back in the Elizabethan era.

Her's is a heritage derived from these ancestors who settled in Kentucky close on the heels of Daniel Boone. There, they and their neighbors lived over 150 years, walled in by the rugged Cumberlands. They did their work in the old ways, played the games, and sang the songs of their homelands.

MISS RITCHIE spent last year traveling the British Isles as a Fulbright scholar meeting the rural people, studying their folk music, and tracing the sources of her own songs.

While in England, she appeared on BBC television and did a series of special broadcasts for the BBC Third Program. She sang at the annual folk festival in London and song and lectured to many groups in England, Scotland, and Ireland. She also represented the United States at the World Festival of Folk Dance and Song in France and Spain.

HER NEW BOOK, "The Singing Family of the Cumberlands," just published by the Oxford University Press, tells of her own Kentucky heritage through stories and song. She will sing many of these songs on her program, while accompanying herself on the dulcimer.

The usual schedule of shortened classes will be followed, Dean Pugsley said.

## Three Grants Eligible for Fund Boost

Three scholarship funds have reached the level required for assistance from the Endowment association, according to Arthur F. Peine, director of the development fund.

They are the horticulture scholarship, in memory of the late Prof. Robert J. Barnett; the architecture scholarship, in honor of Prof. Paul Weigel, retiring head of the department; and the geology scholarship, in honor of Professor Arthur B. Sperry, retired head of the department.

These are active funds, handled within the framework of the development fund program, Peine said.

Gifts being received by the development fund are running well ahead of a year ago, both in number of contributors and the amount of money received, Peine said.

## Student Play Cast Picked For July 14

Cast members for the summer school play "Sabrina Fair" to be presented by the Kansas State Players July 14 and 15 were announced this week by Earl G. Hoover, professor of speech.

Cast members and the parts they will portray are:

Sue Hayes, will play Maude Larrabee; Mary Jean Thomas, as Julia Ward McKinlock; Merton McIlvain, Linus Larrabee, Jr.; Monty Pitner, as Linus Larrabee, and Sally A. Geistfeld, Margaret.

CARL REHBA, will play the part of David Larrabee; Carla Johnson, Gretchen; Rachel Pickett, Sabrina Fairchild; and Marilyn Pence, is cast as a young woman.

Willis F. Brenner, a young man; Sue Quinn, another young woman, and Charles Clelland, will play the part of Paul D'Argenson.

The story of "Sabrina Fair," a four-act romantic comedy, is a modern version of the Cinderella fable. Sabrina Fairchild is the daughter of the family chauffeur—the staggeringly rich Larrabees.

SHE RETURNS home after five years in Paris where she has been secretary in a United States overseas branch to find out if she is still in love with the elder Larrabee son, Linus, who has taken over control of the family fortune.

Once at home, the younger son pursues her, aided by his brother. A rich Frenchman who follows Sabrina from Paris is also trying to win her hand. Both of these young men court her hopefully, but it is the elder son she loves and finally wins.

"Class—the odds are 40 to 1 that someone in here will flunk, unless of course, he should decide to drop this course."

### Over The Ivy Line

## Student Disturbed By Bare Patellas

By HAROLD KANNARR  
Of the Collegian Staff

A student at North Dakota University says he is disturbed by the observation of so many Bermuda shorts these days.

It seems, he said, that they tend to reveal the shoddiest protrusions of the human anatomy, namely the patellas—commonly called knees. His concluding statement was, "Maybe fashion designers are working from the wrong end."

Someone else said it, not me. "Work is the curse of the drinking classes." And remember, he who laughs last—usually has a front tooth out.

A summary for summer: Don't stay out in the sun too long. Don't swim after eating (unless you want to do yourself in). Don't lose your opener. Don't work. Don't let your folks see your final grades (in most cases, that is). And last but not least, DON'T.

More than 60 scales were used by a hygiene class at Iowa State recently in a campus-wide search for "that plump coed and underfed male."

The program is intended to determine if the average college student is overweight or underweight, and the information gained will be used by the Student Health Service in setting up corrected diet programs.

Iowa Staters have coined a name for their all-school open house. The word VEISHEA is not only a name, but it tells who participates in the open house—veterinary medicine (V), engineering (E), industrial science (IS), home economics (HE), and agriculture (A).

According to the publicists of VEISHEA, it is "the largest student managed festival in the world."

A student at Baylor University made an addition to the Baylor Texas Collection. He spent more than two months constructing cardboard and wood replicas of the six state capitols of Texas for the collection.

Juniors at Oregon State revived some of the spirit of the "good old days" by holding a "Grubby Day."

All of the grubby people in

old clothes and the semi-grubby juniors showing their class spirit.

There are three ways to avoid embarrassment when you fall on the dance floor.

1. Just lie there. They'll think you've fainted.
2. Get up gracefully and act as though it was a new dance step.
3. Start mopping the floor with your handkerchief. They'll think you work there.

Men at Iowa State seem to prefer women experienced in or interested in home management.

One want ad stated, "Woman with experience to become wife. Grad of Courtship and Marriage preferred." Another advertised for "an Iowa State coed interested in home management. Full charge of kitchen plus the charming companionship of two eligible bachelors."

Students at Iowa State thought up a new idea in door prizes at a recent play, "Wappin Warf."

Persons attending were asked to sign their names on ticket stubs, and during intermission the winners were drawn. Their prizes—a pair of "landlubber" turtles, about the size of small soup bowls—were found along the Kansas and Missouri highways.

A University of Minnesota student has implied that his fellow students are cowards. His reason—they won't wear Bermuda shorts. He explained that men could be seen showing off their knees at many of the colleges throughout the country. One added comment was that one suspects Minnesota men wear long trousers even when bathing!

The pattern of campus marriages started by World War II veterans is now becoming a permanent feature of college life. According to his reasoning, the vey. The Iowa State Daily announced that 22 per cent of the student body there is married.

An administrator at Stanford University commented that he had known men who were just scraping by in their studies. Then they got married and the college never had another worry about them.

(Opinions expressed in letters are those of the writers and do not necessarily reflect the policy of the Collegian. The Editor reserves the right to edit the letters to conform to public law and to the standards of decency and good taste upheld by most newspapers, and to fit space limitations. No letter may exceed 250 words. Unsigned letters will not be published.)

## Bookstore Owner Says Collegian Misquoted Him

Dear Sir:

Late this spring a journalism student asked me for an interview for "a class assignment," not, apparently, for publication. I made the following statement to her:

"A true cooperative student bookstore in the Union would not hurt me MUCH; I and my store will not be here two years after it opens."

This student used the interview as part of a story appearing in the last issue of the Collegian this spring. She also definitely misquoted me or, I believe the term is, "quoted out of context," for she used only the first part of my sentence. As you can see, that completely reversed my meaning.

As this story appeared in your last issue this spring and as it was too late for you to correct it, I did not see any advantage to calling this mistake to your editor's attention. That was my mistake, for I find this same quotation "out of context" again in a story in your June 16th issue.

In all fairness, would you please see that this error of incomplete quotation is not used again and that future editors are advised of this error and asked not to use this quotation again in any way.

Very truly yours,  
Ted Varney,  
College Book Store.

To the editor:

The haphazard way in which the College is conducting sign-ups for trips to the Starlight theater and Kansas City Athletics' baseball games deserves some comment.

As the situation now stands, individuals may go to the dean of students' office and sign up for a particular day's trip to either the theater or baseball game. A deposit for transportation expense is required when you sign. If, by some odd chance, 29 or more persons just happen to sign up for the same place on the same day, the College will arrange transportation to and from Kansas City.

It seems like this system has been tried before in summer schools past, and the trips just didn't materialize. It's beginning to seem like the only purpose of such a service is the publicity it gets in summer school propaganda and the social and recreational calendar.

It's about time for someone to take a little initiative and set one particular date for a "mass trip" to Kansas City. What better time than Saturday, July 23? We could leave in chartered buses in mid-morning, watch the New York Yankees and the Athletics play in the afternoon, and see "Bittersweet" at the Starlight theater that night.

Oren Campbell, T.J. Sr.

# Leisure Corner

By CRAZY AUTO

The opera CARMEN is now playing in Manhattan.

I tell you this because I doubt if even Georges Bizet, its composer, could recognize it. That is without reading the Hollywood blurbs first.

Yes, Hollywood has filmed CARMEN. It has been produced in a form which, except for dubbed in operatic voices interrupting at climatic moments, is highly entertaining to the average 10-year-old.

Ten s possibly a little young though, considering one might have to be slightly older to appreciate hip-twitching Dorothy Dandridge and baby-faced and often bare-chested Harry Belafonte.

Called CARMEN JONES, the film is set in modern times with a boxer instead of a toreador, a girl worker in a parachute factory, and an AWOL G.I.

Wherever Bizet is buried I'll bet he's turning over at the rate of several revolutions per minute.

I think it's a tragedy to waste the voice of Harry Belafonte in merely speaking dialogue. (An operatic singing voice is very skillfully dubbed in as his in the film). Belafonte has just about as much business even pretending to sing opera as Mario Lanza did in playing in an Army picture (BECAUSE YOU'RE MINE).

Belafonte is a master at crooning ballads and Lanza can sing louder and with more clarity per decibel than anyone in Hollywood.

I wonder why our film producers can't leave well enough alone.

THE YEAR THE YANKEES LOST THE PENNANT is a delightful novel that's getting much acclaim on Broadway as a musical comedy called DAMN YANKEES. (That's the only way I'll be able to use that word again.)

DAMN YANKEES, is the play from whence comes such songs as "Whatever Lola Wants, Lola Gets" and that ridiculous thing called "Heart." (Can you imagine having "miles and miles of heart"?)

The book (and play) concern Joe Boyd, a middle-aged real estate salesman. Joe rashly comments that he'd sell his soul to the devil to get his favorite team, the Washington Senators, a pennant, and particularly to get the Yankees out of their seemingly permanent position in first place.

Sure enough, the devil in the person of a sinister fellow named Applegate, arrives by way of a manhole to strike a bargain. The deal is that, for his soul, the devil will change Joe Boyd into Joe Hardy, a baseball player extraordinary.

Joe accepts, with the condition that he can back out any time before September 21, and he is soon batting over .500 for the Washington Senators.

That's where Lola comes in. She is the devil's creation to help Joe decide to keep the bargain. But, in spite of her constant efforts, Joe kinda misses his wife.

Before the novel ends, Satan performs every trick he knows and Joe tries every method of resistance he can muster. Author Douglass Wallop can be forgiven, as far as I'm concerned, for lifting the plot from Goethe's FAUST.

All things considered, I suggest you read THE YEAR THE YANKEES LOST THE PENNANT and save the fare to New York to see the play. If you think you're missing anything, you can always turn on the radio and listen to "Heart."

## Goose Gazers Gape at Garishly Garbed Geese

Tule Lake, Calif. (U.P.)—Birdwatchers near the Oregon border got the shock of their lives when they spotted pink, yellow, and bright green geese.

The state fish and game department calmed the watchers by explaining it was all part of an experiment. The experiment aims at tracking the birds during the migrating seasons and learning more of their habits.

Assistant game biologist, A. W. Miller, said state and federal waterfowl observers have been alerted to watch for the colorful birds all the way from Oregon to the Arctic circle.

Several hundred birds were dyed for the experiment. Snow geese, the most numerous, were tinted pink, the rarer Ross' geese got a yellow rinse and green was reserved for late migrants.

The birds don't seem to mind the change in color, Miller said, and they'll loose their hues and revert to the normal white during the moulting season.

# Follow Simple Rules and Include Barbecued Chicken in Next Outing

By LILA ORME  
Of the Collegian Staff

Good food is an essential on a good summer outing, and what could be tastier than barbecued chicken prepared over an open outdoor pit?

By spending some extra time and following a few simple, but important rules, one may enjoy preparing barbecued chicken for five or 500, says Prof. Tom Avery, of the poultry husbandry department.

Of course to be successful, the

right kind of chickens must be obtained. Eight to twelve week old chickens weighing about two and one-half pounds are the best, Prof. Avery says.

**THEY ARE** prepared by dressing, then split in half by cutting up the backbone and through the center of the breast. The giblets and neck should not be used. When ready for barbecuing, each half should weight about one pound.

The barbecue pit is another essential. A pit above ground is easily constructed and may be quickly adjusted to fit the number of birds to be barbecued. Cinder blocks may be used for building purposes. Choose a level site and lay the blocks end to end in two rows, the rows being 36 inches apart, and laid three blocks high, Professor Avery said.

**THE ENDS** of the pit may be closed with metal sheets. It is not necessary to reinforce the blocks as they are laid one upon another without supports. The number of chickens which can be barbecued at one time is equal to the number of blocks used, he said. To cook 24 birds, a pit of 4 cinder blocks long would be needed.

Next comes the fire. It may be made from either wood or briquettes, (blocks of compressed coal dust). If wood is used, the fire should be started about two hours before placing the chickens over the pit. Hard woods are the best,

such as oak. Pine or cedar should be avoided, he said.

Before placing the chickens on the fire, the wood should be all burned and only coals left. About 10 minutes before cooking, take a rake and level the coals. Never start cooking until one can hold his hand about 12 inches over the top of the pit for several seconds.

**IF BRIQUETTES** are used, only about 15 minutes are required before the cooking can start, Professor Avery says. They are best ignited by placing some torn paper in the bottom of the pit and covering the paper with closely packed briquettes, one deep. Wet the briquettes with kerosene. One bag of briquettes are sufficient for barbecuing 10 to 16 half chickens.

When the coals are ready, turning racks should be placed 2 feet apart crosswise across the top of the pit. Thirty five halves of chicken may be placed on each rack, Prof. Avery said.

**AS TO THE** barbecuing of the chicken, a spray gun may be filled with a favorite barbecue sauce or a rope dishmop on the end of a long handle may be used to daub the chickens. The sauce should be kept hot and stirred frequently.

The birds should be placed on the racks and cooked until beginning to brown. They should be turned 15 to 20 times and each time they should be sprayed with the sauce. They should also be salted several times while cooking. They can best be turned by hand if cotton gloves are worn.

**THE TIME REQUIRED** to barbecue the chickens is from 45 minutes to 1 hour and 15 minutes. To test for doneness, the drumstick should be twisted. If the bone readily separates from the thigh joint, the bird is done. A fork should not be stuck in the flesh of the chicken while cooking.

## Entomology Prof Conducts Experiment with Isotopes

Dr. Clifford C. Roan, associate professor of entomology, is conducting two research projects in Fairchild hall on the action of insecticides containing radioactive isotopes.

The first project, started last July, is supported, in part, by the Atomic Energy commission, Dr. Roan said. The purpose of these experiments is to determine what happens to the insecticides in animals. Guinea pigs are used to determine the results.

The other project is sponsored, in part, by the United States army. Its purpose is to find out what effects temperature has on insecticide action, Dr. Roan said. Two strains of house flies are used.

One strain is resistant to DDT and the other is nonresistant.

Spiro Loulides, John Kaplanis, and Lallan Rai, graduate students in entomology, are working with Dr. Roan. Nine other students are also employed.

Several manuscripts are in the process of preparation for presentation at meetings of the agriculture and food chemistry division of the American Chemical society, in Minneapolis this fall.

## Westminster Head Receives Doctorate

The Reverend Emerson Abendroth, director of Westminster fellowship, Presbyterian students organization, will receive a doctor of education degree from Columbia University this month.

Reverend Abendroth's study was in the field of religious education. It was made through a joint program between the teachers college at Columbia and the Union Theological seminary.

Reverend Abendroth received his B.A. from Carrol college in Waukegan, Wis., and his M.A. from Columbia.

Before coming to K-State, he was a chaplain in the navy for two years and professor of religion at Milliken University at Decatur, Ill., for seven years.

## Restroom Attendant Has Last Laugh

Falls City, Neb. (U.P.)—Visitors here used to smile to themselves when Bill Copeland would tell them of the dividend checks he received from several large corporations. After all, Copeland was only a restroom attendant in the local hotel.

Copeland died recently and left stocks and bonds valued at more than \$56,000.

More than 18,580,000 persons bought fishing licenses in the United States in fiscal 1954.

## Six K-Staters Named To Get Boeing Grants

Six students have been named as winners of \$400 scholarships offered by Boeing Airplane company of Wichita for the 1955-1956 academic year.

According to Max Milbourn, chairman of K-State's general scholarship committee, the awards will go to Albert Russell Bemis, ME Soph; Ralph Truman aFgan, ME Jr; Ray Denton Fritzmeier, EE Soph; Donald Douglas Knudsen, ME Soph; Edmond Eugene Young, CE Soph; and Floyd Douglas Griggs, BA Soph.

The engineering awards go annually to students in civil engineering, mechanical engineering, or electrical engineering, who have high scholastic standing and are in need of financial assistance. The awards are for juniors or seniors, for use during their junior or senior year.

The award in business administration is based on scholastic record, professional promise, and need.

## KSDB-FM Begins Summer Broadcast

KSDB-FM, student operated radio station, started broadcasting last week. The station will broadcast music, local news, and campus activities each evening from 7 to 10.

Gordon Jump, Sp Jr, is student manager this summer. Faculty adviser is F. L. Whan, head of the radio and television speech department.

## Ford Fellowship To Prof. Nelson

Dr. W. B. Nelson, of the department of economics and sociology has been awarded a fellowship to the Ford Educational forum, at Dearborn, Michigan, July 17 to 30.

The forum is a two week short course in the automobile business for college educators in the field of humanities and social science. The forum deals with the Ford Motor company, its organization and policies.

Approximately 35 college educators in the field of humanities will attend the event. Selections for the awards are based on recommendations of college presidents, and the professional reputation of the candidate.

'People Kid Themselves'  
is a slang expression.

Nevertheless it is a fact when it comes to their eyes.

When your vision blurs, or you have an ache or pain in your eyes or the back of your neck, don't kid yourself.

These symptoms can become serious if neglected.

## Moore Clobbers Olson In Third To Keep Title

Archie Moore kept his light-heavyweight crown last night by kayoing middleweight champ Carl (Bobo) Olson in the third round. Victory by Moore probably assured him of a shot at heavyweight Rocky Marciano's halo.

Olson, the baldheaded Hawaiian-boxing master, was smashed to the deck with a powerful left hook and was counted out at 1:19 of the third.

The "I told you soers"—the persons who always come up with that old bromide, "A good big man can always beat a good little man"—certainly hit the nail square last night.

Moore, who at 38 is quite an old man in the fight game, seemed like a very "good" big man as he threw off his years and flicked off the upstart challenger before a crowd of 20,000 in New York City's Polo Grounds.

Olson weighed in at 170½ pounds and Moore, 175.

The challenger seemed to have the advantage in the first round by driving home the most punches as they felt one another out. But

Moore took over in the second and landed several long left jabs and hard left hooks to the head. One hook knocked Bobo into the ropes near the end of the round.

After some preliminary sparring in the third round, Moore got going and stalked after Olson, finding him with two hard rights to the Challenger's head. The champ followed with two left hooks. The second was the wallop that dropped Olson on his back for the count.

Olson rolled over on his elbows and tried to push himself up. It was no use and he was still down at 10.

Each of the two judges gave Olson the first round and Moore the second. Referee Goldstein gave both rounds to Olson.

Bill Dellinger of Oregon won the mile run in the NCAA championships last year with a time of 4:13.8. Art Dalezell of KU was fifth with a time of 4:17.9.

## Wes Santee's Two Mile Record Beaten

Wes Santee, who seems to be running slower and slower, is finding that this competitors are running faster and faster.

Santee's two-mile effort of a year ago which proved to be good enough for a world's record for the run didn't stand up at the annual Pacific Coast Conference-Big Ten intersectional track meet this week.

Fernando Lodesman of the University of Southern California, obsoleted Santee's record for the two miles by speeding around the clay track of Edwards stadium in Berkeley, Calif. in 8 minutes 57.7 seconds.

The time, which will be submitted for official recognition, was three-tenths of a second faster than the collegiate record set by the so-called "Kansas Cowboy" a year ago in a triangular meet in Lawrence.

## Texan Builds Golf Course on Farm

Schulenburg, Texas (U.P.)—When 29-year-old Gene Mukulik feels like shooting a practice round of golf, he just steps behind the barn and tees off.

Mukulik, a successful central Texas farmer, is probably the only man in the business with acreage allotted for a nine-hole golf course, complete with hazards and greens.

However, he says his home-grown links are merely for practice. When he really wants to get in competition, he mounts a motorcycle equipped with a personally designed and executed caddy cart and takes off for one of the many fine courses around Schulenburg.

## Summer IM Sports To Begin on Monday

Summer intramural sports including horseshoes, handball, tennis, table tennis, and badminton are slated to begin Monday, Frank L. Myers, intramural director announced this week.

Entries in the summer sporting events are lagging and Myers urges all those interested to turn in entry blanks no later than Friday evening. Entry blanks may

be obtained at the intramural office, room 114, in the Field House.

"IF ENOUGH interest is indicated, the Intramural department will be glad to arrange mixed-doubles tournaments in any or all of the summer sports," Myers said.

The lighted courts make it possible to play tennis, handball, and horseshoes at night. Table tennis matches can be played in either the basement of the Ahearn Field House gymnasium or in the temporary Student Union.

All tourneys will be of the double elimination type. First round winners will continue in the championship bracket while losers will compete in a consolation bracket, Myers said.

BRACKET LISTINGS will be posted on the bulletin board in the temporary Union. Handballs and horseshoes may be checked out at the Union while table tennis bats and balls can be obtained at the equipment cage in the Field House basement.

"All matches must be played prior to the last week of the summer session," Myers said.

## Olympic Champs Top AAU Field

Boulder, Colo.—Seven Olympic champions will spearhead a contingent of 33 members of the 1952 U.S. Olympic squad at the national AAU track and field championships on Colorado's Folsom field Friday and Saturday.

BUT THE ACCENT won't be on past champions.

"The established national stars are always the big drawing card and you can count on them to do a great job. But, to me, one of the outstanding features of the AAU meet is the way comparatively new performers step in and do well," Colorado track coach Frank Potts said.

ATHLETES competing at Boulder will be making bids for spots on the 1956 Olympic squad as well as for spots on several AAU squads that will make foreign tours this summer.

Among the 1952 Olympic Games place winners who have notified AAU officials that they will compete is Thane Baker, former K-State star who was second in the Olympic 200 meters.

About 300 of the nation's finest track and field stars are expected to compete in the meet.

## 4-Minute Mile Achieved 7 Times in 14 Months

By DARREL MILLER  
Of the Collegian Staff

The four-minute mile, once the dream of every miler, has been achieved seven times in the past 14 months.

Since Roger Bannister of England broke the "impossible" barrier with a 3:59.4 clocking in May of 1954, the 4-minute ideal has been shattered six times.

Latest blast at the record books came on May 28 when three men finished below 4 minutes in a single race.

AN OBSCURE Hungarian with a stomach ache, Laszlo Tabori, led two Englishmen around a London track in 3:59 that day.

British brewer Chris Chataway, who thought he wasn't in condition, edged British air force bombardier Brian Hewson for second place. Both men were timed in 3:59.8.

Bannister's historic 3:59.4 mile, expected to rank beside Babe Ruth's 60 home runs as a classic sports record, lasted just six weeks.

John Landy, a curly-headed Australian butterfly chaser and student at Melbourne university, took advantage of perfect conditions at Turku, Finland, on June 21, 1954, to blaze to a 3:58 mile.

LANDY HAD a clear, windless day and a temperature of 77 degrees. The track had been treated with lubricating oil to increase its springiness, and its surface was unscarred by other races.

Pressing Landy was Chris Chataway, who had forced Bannister to his historic effort earlier. Landy responded with a 59-second first quarter, two 60-second middle quarters, and a blazing 59-second final quarter.

After Landy's feat, a race between he and Bannister became almost a necessity. The two met in Vancouver, British Columbia, in August of last year in a race billed as the greatest mile in history.

BANNISTER swept by Landy in the final stretch of the race to break the tape in 3:58.8. As he collapsed into the arms of his team manager, Landy flashed across the finish line in 3:59.6.

These four great miles by Bannister and Landy stood alone until Tabori, Chataway, and Hewson ran their triple in London.

After this mass attack at the record book, the top 10 attempts at the mile look like this:

3:58 John Landy, Australia  
3:58.8 Roger Bannister, England  
3:58.8 Laszlo Tabori, Hungary  
3:59.4 Bannister  
3:59.6 Landy  
3:59.8 Chris Chataway, England  
3:59.8 Brian Hewson, England  
4:00.5 Wes Santee, USA  
4:00.6 Santee  
4:00.7 Santee

THIS LEAVES British Empire athletes in possession of six of the top seven marks. It also leaves Wes Santee with only the three slowest efforts in the top 10. Santee once was picked as the man most likely to run the 4-minute mile. During Santee's recent attempts to break the barrier, however, he has not had the advantage of the cool northern European climate—considered ideal by experts.

Milers the world over are now taking the cue from these great races and are turning in many top times.

What once would have been considered a great race was run at Compton, Calif., on June 3 this year. Santee won the mile at the Compton Invitational with a fine 4:01.2.

CLOSE BEHIND was Bobby Amasa, a soph at UCLA, who ran 4:01.4 to edge Fred Dwyer at 4:01.9.

Local track fans saw an unknown run a top mile race on the K-State track Sunday in the all-army meet. Joe LaPierre caught Fred Dwyer on the final turn and sped to a respectable 4:07.4 win.

Why the sudden outburst of fine running? Glenn Cunningham, the old milemaster from KU who once held the world record at 4:04.4, has an answer.

"Sports writers built up a psychological barrier that the 4-minute mile never could be run," he said. "When it finally came, it was the result of the mental attitude one builds up to keep doing things better."

"The world became more record-conscious and the runners just didn't let down when they had a 10-yard lead a short distance from the wire—in fact, they ran all the harder."

## Unknown Miler Whips Dwyer in Race Here

JOE LAPIERRE (right) races across the finish line yards ahead of Fred Dwyer in the mile run of the all-army track and field meet here last week end. LaPierre won the mile in 4:07.4, his all-time fastest mile.

A previously unknown miler, Joe LaPierre, sped around favored Fred Dwyer on the final turn of the mile event in the all-army track and field championships here Sunday and went on to win with a time of 4:07.4.

La Pierre broke the all-army meet mark and the K-State stadium mark as he bested Dwyer, top threat to Wes Santee as America's No. 1 miler.

THE PREVIOUS stadium standard was 4:08, set by Santee. LaPierre ran the fastest race of his career in breaking it.

His was one of 11 marks set in the two-day track and field classic. Fourth army was unofficial winner of the meet with 41½ points. Fifth army had 28, Second army 25, Far East 21½, and Sixth army 18.

line, formerly of Nebraska, for first in the hop-step-jump with a leap of 49-6¾. Both were beyond the old record.

John (Pappy) Hall, former NCAA champ, established a high-jump mark of 6-7½. Herm Wyatt, who holds the world indoor record, could only tie for fourth at 6-2¾.

LEE CALHOUN ran the 220-yard low hurdles in 23.2 to erase the old mark. Willie Atterberry won the 440-yard low hurdles after setting a mark of 52.9 in the preliminaries. Willie Stevens won the 120-yard high hurdles in a record time of 14.3.

Olen Nickleberry nipped Lang Stanley to lower the mark in the 440-yard dash to 48.6 seconds.

## Rooster Acts As Watch Dog

New York (U.P.)—China Boy is a watch dog, an alarm clock and a salad eater.

The Chinese Cochon bantam rooster is the pet of Walter B. Gibson, New York free-lance writer and his ex-magician wife, Litzka, who once used the fowl in her act.

China Boy clucks menacingly and flashes his spurs when strangers show up at the Gibson apartment.

# Editors Say UN Should Resist Commie Seduction

The United Nations should continue to deny membership to Communist China.

"McCarthyism" is virtually a dead issue on college campuses.

These were the opinions of a majority of college newspaper editors questioned by the journalism department at New York university in a recent poll.

The majority of the editors also agreed that the proposed merger of the AFL and CIO would not be good for the country as a whole; and said that mass education substitutes quantity for quality.

ON THE SUBJECT of Communist China, many of the editors believed the Chinese Communists should be denied admission to the UN

"until the Korean armistice is settled satisfactorily."

Almost 90 per cent of the 66 editors in the poll reported that the subject of "McCarthyism" has suffered a loss of interest among college people.

"The man has waned; his ideology is still with us," one editor wrote. Another editor pictured McCarthy as "a little voice in the night, alone and unheeded."

THIRTY-ONE of the students said the proposed AFL-CIO merger would not be good for the country; 17 said the merger would be a good move; 18 gave no opinion.

By a majority of 2 to 1, they subscribed to the view that mass education has caused a lowering of standards in education.

"Education should be as individual as a tooth brush, not as inclusive as birth or death," one Big Ten editor said.

## Popcorn Goes Big Time To Attract Kids

Pittsburgh (U.P.)—The popcorn machines that have kept millions of Americans contented at the movies are being overshadowed by more spectacular gimmicks in the campaign to lure customers into drive-in theaters.

"Popcorn is getting buried by bigger things," Kenneth Hamilton, Buffalo, N.Y., concessionaire, told a meeting of Western Pennsylvania motion picture theater owners.

Hamilton said drive-ins along the shores of Lake Erie have gone in for complete restaurants where "you can get pizza, shrimp rolls, chicken-in-a-basket, hot dogs and hamburgers along with your popcorn and candy."

Even babysitters are provided to watch over children while their parents relax in automobiles to watch the giant out-door screens. The theaters have built playgrounds with merry-go-rounds, swings and scenic railways.

Hamilton said one enterprising outdoor theater owner near Pittsburgh went the limit—by stocking a fishpond with trout and building a swimming pool for overheated patrons.

"The people must like it," Hamilton said. "They are keeping these fellows in business."

## Geologist Studies Rocks in Texas

R. M. Hutchinson of the department of geology is making detailed field and laboratory studies of the structure and chemistry of igneous and metamorphic rocks, primarily in Llano county in central Texas, in a region often known as the Llano uplift.

Hutchinson's project is financed by a grant of \$1,490 from the Penrose fund of the Geological Society of America.

## Language Workshop Commences Monday

A language arts workshop with special discussions on Kansas reading will begin Monday at K-State.

Directed by Miss Agnes Engstrand, the conference will have daily morning sessions through July 15 in D106, according to Finis M. Green, head of the department of education.

## Alumni Loan Fund Available to Students Who Are Short on the Old Green Stuff

By GARY NEILAN

Nearly 150 K-State students are taking advantage of loans available through the College Alumni office, Kenney Ford, al-

umni secretary, said recently. Approximately \$40,000 is being loaned at the present time.

The loan fund was started in 1916, and at present stands at \$176,000. The money is available to any student who needs financial aid to remain in school, Ford emphasized. Too many times, students have money troubles pack up and go home without looking into the alumni loan plan, Ford said.

DURING RECENT years, the alumni loan system has been liberalized to include underclassmen. Also, the maximum amount a student can borrow has been raised from \$300 to \$700 or more, Ford said.

The money for the loan fund, Ford said, has come mostly from life membership payments to the Alumni association. Other additions to the fund have been made as a result of gifts and bequests.

Loans are available to students on a long term basis, or for short

emergency periods, Ford said. He added that K-State is one of the few colleges where the Alumni association loans to students.

IN ADDITION to the loan program, the Alumni association provides other services in carrying out its objectives of promoting K-State, and developing friendliness among the graduates. "Because of wide variance of curriculums and increasing numbers of students, classes haven't been very close knit," Ford said. The Alumni association promotes class spirit, he said, by printing news of the College and alumni in the "K-Stater" magazine.

Homecoming and five-year class reunions are events that alumni look forward to, according to Ford. Due to the increasing number of graduates, he said, in future years the reunions may be broken down by schools or even departments. For example, in 1961, the '56 grads in the School of Arts and Science would have a separate reunion.

## Milling Prof Attends World Bread Confab

Dr. John A. Shellenberger, head of the college milling industries department, attended the Third International Bread congress in Hamburg, Germany, earlier this month.

Dr. Shellenberger represented the USDA at the meeting which attracted more than 1,200 delegates from almost every major country in the world, including the Soviet Union.

THE PURPOSE of the congress was to distribute information on baking cereal technology on an international basis. Dr. Shellenberger served as chairman of a group discussing grain storage and milling technology.

He also presented a paper on "Modern Experiences in Testing Wheat for Quality." This was one of a group of papers presented by delegates of different nations which represented work of research labs and schools in the countries. Dr. Shellenberger was also named chairman of a committee to work on standardization of the wheat protein test.

DURING HIS visit in Germany, Dr. Shellenberger visited the German Milling school in Brunswick. While K-State's milling facilities are more impressive, he said, the Germans have excellent buildings, laboratory, and dormitory facilities. According to Shellenberger, the objectives of the German school are unlike ours in that they prepare only for positions in industry, while we offer a more general education in our colleges.

## KSAC To Host Radio Directors

Radio Station KSAC will be host tomorrow to an all-day recording session on wheat quality.

Around a dozen farm radio directors from this area are expected to attend to interview K-State agronomy and milling specialists, and commercial millers and bakers on wheat quality and its importance, according to Ken Thomas, KSAC director.

The interviews also will be distributed to radio stations throughout the midwest.

## Students Can Now Sign For KC Pleasure Trips

Organized trips to Kansas City for the Starlight theater and the Kansas City Athletics' games can be signed up for now in the Dean of Students' office.

The price of the round trip bus charter was incorrectly quoted as \$7.25 in last week's Collegian. The actual price is \$4 per person and it must be paid when signing up before noon the Tuesday before the trip.

The bus will leave at 8:30 a.m. from the temporary student union, arrive in Kansas City about 11:00 a.m., and return after the game and theater. At least 29 persons must sign up for any individual trip.

**TRIPS ARE** available on July 2, 4, 16, 23, and 30. All are Saturdays except the 4th which is on Monday.

July 2 the Starlight theater offering is Me and Juliette and the Athletics play a night game with Detroit. On the fourth the Athletics play a double-header with Chicago and Babes in Toyland can be seen that night.

Guys and Dolls is on the program for July 16 and the same night the Athletics play Washington. The Yankees are guests of the Athletics the afternoon of July 23 and Bittersweet can be seen that night at K. C.'s outdoor theater.

### HELP WANTED

Admission, medical record, and switchboard clerk. 5-day week, may include rotating weekends. Personnel Office, Riley County Hospital. 150

**THE LAST TRIP** will feature Finian's Rainbow at the Starlight theater, exclusively, because the Athletics will be playing in New York.

The bus will take students to downtown Kansas City in front of the Continental hotel and will pick them up at the stadium or theater. Students must provide their own transportation from downtown to the stadium or theater.

Tickets to the Starlight theater range from one to three dollars and all seats are reserved. Write for tickets to the Starlight Theatre association, 1010 Grand, Kansas City, Mo.

**ATHLETICS'** grandstand tickets are \$1.25. Reserved seats ranging from \$1.85 to \$3.00, can be purchased by writing to Ticket Manager, K. C. Athletics, Municipal stadium, Kansas City, Mo. They may also be purchased from the Union National bank here in Manhattan.

Watch the Collegian for confirmation or cancellation of the trips.

## Municipal Band Features K-Stater In Concert Tonight

The Manhattan Municipal band will present a concert in the city park tonight with Paul Brown of Abilene featured as soloist.

A graduate student at K-State, Brown is the vocal teacher at Abilene. He had the lead in the one act opera "Sunday Excursion" produced by K-State last week.

Also on the program will be a trombone trio featuring Leroy Lederer, Walter Burford, and Hildred Love.

The band will perform the World Events March by Zamecnik; Themes from the First Roumanian Rhapsody, Enesco; Sword Dance, by Khachaturian; Vienna Dreams, Sieczynski; For the Beauty of the Earth, Hymn; Invercargill March, Lithgow; Moonlight Serenade, Miller; Teddy Bear's Picnic, Bratton; and American's We, by Fillmore.

## Garden for Blind Tagged in Braille

Chicago (U.P.)—The new headquarters building of the Chicago Lighthouse for the Blind will have a special garden for the blind nearby.

## Counselors To Discuss Talent At Conference

K-State will be host tomorrow, to Kansas secondary school counselors and school administrators for a conference on "Guidance and Conservation of Talent."

Dr. Willis E. Dugan of the University of Minnesota, nationally known leader and writer in guidance and counseling, will be the keynote speaker.

**PRESIDENT** McCain, will be principal speaker at the luncheon. Richard Rundquist, Lawrence, president of the Kansas Guidance association, also will be present and will bring greeting from the KGA.

Following Dr. Dugan's keynote speech Friday morning, the administrators and counselors will break into small discussion groups for the remainder of the session. The discussion group will convene again at 1:30 tomorrow afternoon, with reports to be made by the groups to the conference, and a summary statement, "Areas of Counseling Responsibility," by Dr. Dugan.

**PURPOSE OF** the conference is to enable administrators and counselors to review and evaluate guidance procedures in identifying capable students with special skills and aptitudes.

Registration will be from 9 to 9:30 tomorrow morning in Recreation Center, and the meeting sessions will be in Thompson hall.

Dr. Dugan, professor of educational psychology and chairman of the department of educational psychology at the University of Minnesota College of Education, has been a leader in guidance work for many years.

**HE IS** treasurer and a member of the executive council of the American Personnel and Guidance association, and past-president of the Student Personnel Association for Teacher Education. Dr. Dugan is co-author of "Guidance Procedures in High School."

**RUSSELL I. THACKREY**, former Kansas State College journalism department head and administrative dean, received an additional honor recently when he was awarded an honorary doctor of laws from the University of Maine.

Earlier this spring Thackrey received an honorary doctor of laws by the University of New Hampshire.

**DR. JOHN A. Shellenberger**, head of the college milling industries department, attended a meeting of the Committee on Food of the National Research Council, at the Palmer House hotel in Chicago, June 22. Shellenberger was a member of a subcommittee on cereal and baked products.

The Research Council serves as an advisory board to the Army Quartermaster Corps. The Chicago meeting was to discuss the advances in cereal technology in feeding the army.

**CARL ERNEST** Rehfeld, who was granted his doctor of veterinary medicine from K-State in 1947, received his master of science degree at the University of Minnesota commencement June 11. Rehfeld is a member of the university staff.

**THREE MEMBERS** of the agricultural economics department have been doing research over the state during the past two weeks. The three, Joe W. Koudele, Paul Kelley, and Harold A. Pryor, worked on grain marketing, milk handling, and egg marketing in various regions of the state.

**COUNTY 4-H** club groups can be heard on the 4-H Club Hour

over K-State's Radio Station KSAC at 1:15 each Saturday afternoon, according to Ken Thomas, KSAC director.

**THREE MEMBERS** of the agricultural engineering department faculty attended the annual meeting of the American Society of Agricultural engineers at Urbana, Ill., last week.

They are F. C. Fenton, department head; Gustave E. Fairbanks, and John W. Funk.

**M. A. DURLAND**, dean of engineering, Linn Helander and A. O. Flinner, of the mechanical engineering department, are attending the annual meeting of the American Society of Engineering Education at Penn State, June 20-24. Flinner and Helander will remain for a thermo-dynamics conference.

**THREE MEMBERS** of the horticulture department attended the Central Plains Turfgrass Field day at Lincoln, Neb.

William F. Pickett, L. R. Quinlan, and Ray A. Keen, represented K-State at the fifth annual field day of the foundation.

# Kansas Tornadoes Pack a Wallop

By DARREL MILLER  
Of the Collegian Staff

**THIS TORNADO** formed west of Manhattan in June of 1950 and swept by northwest of town. This is one of a series of five pictures of the tornado taken by a K-State grad, C. M. Webster, then a student here.

The full blast of a well-developed tornado can wreck any normal building. Prof. Huber Self of the department of geology and geography said.

Therefore, the southwest corner of a storm cellar is the best place to wait out a tornado, he said.

However, if you are caught in a building, the only thing to do is to open the windows and lie down in the southwest corner of the building, he said. Ninety per cent of all tornadoes go from southwest to northeast.

**OPENING** the windows will keep the building from exploding, Self explained. The center of a tornado is a vacuum. The normal pressure inside will explode the building when this vacuum surrounds it, unless the windows are open.

This exploding process causes many freakish accidents, Self said. For instance, persons often are amazed to enter a tornado-devastated area and see a building standing untouched except that the roof is gone.

If you are in a car on the open road when you see a tornado, you have a good chance of escaping it.

Since tornadoes travel only 30 or 40 miles an hour on the ground, it is possible to outrun them. A tornado also can be avoided by driving at a right angle to its path.

If you can't get out of the tornado's path, weather experts advise you to lie down in the lowest available place to escape being blown away or being hit by flying debris.

In a large office building, the best place is against an inside wall on a lower floor. The southwest corner of the basement of a frame house also offers protection.

**EXPERTS** especially warn against going outside, as the danger of being hit by flying debris is great. Tornadoes have

been known to drive straws into wooden beams.

With the ravaging of the town of Udall by a tornado on May 26, and with numerous other tornadoes having swept across the state, anxious Kansans with their eyes peeled toward storm clouds might readily accept the Kansas nickname as the "cyclone state."

However, Professor Self points out that, although Kansas has as many tornadoes as any state, the damage here is normally not as severe as in many other states.

**PROPERTY** damage is greater in seven other states than in Kansas, Self said. Loss of life is worse in 15 other states.

Reasons for the lower tornado toll here seem to be the levelness of the state and its sparse farm population, he said.

More than half of the tornadoes occur in the daytime when they can be seen for long distances, and their chance of hitting sparse farm buildings is low.

A tornado forms when a large mass of warm, moist air laying from 1,000 to 1,500 feet high collides with a mass of cold, dry air at high altitude, according to J. R. Lloyd, chief forecaster of the weather bureau office at Kansas City, Mo.

**THE COLD AIR** moves in from a westerly direction and shears off the top of the warm air, lifting it rapidly under the cold air. Turbulence is set up by the warm air that is lifted so rapidly.

The converging currents cause a counter-clockwise whirl, since the southerly current is nearly always the fastest of the two.

A tornado normally originates at considerable elevation, then may extend to touch the ground. Cooling in the center forms a milky white cloud, which turns black as the tornado picks up dirt from the ground.

Many tornadoes touch only part of the time, or not at all.

**SPEED OF THE** whirling winds in a tornado is unknown, but has conservatively been set at 500 miles an hour. The average length of paths on the ground in Kansas is 10 miles—shorter than in most other states.

One of the longest tornadoes ever recorded in the state struck east Hutchinson in 1927. Its path was 102 miles long.

Average loss of life caused by tornadoes—subject to revision after this year's devastation—has been 5 persons a year, or only 2 per cent of the national casualty rate. An average of 16 tornadoes a year has occurred in Kansas.

**JUNE IS** the month of greatest tornado activity, with 30 per cent of the total occurring in that month. They most frequently hit central Kansas, and the hour of greatest activity is from 4 to 7 p.m.

If these figures are beginning to frighten you, cheer up. There is only one chance in 1,643 that you'll be in the path of a tornado this year.

Oh yes, while this story is being written, the tornado warnings are out in this section of the state.

## Alcoholic Theory Blames Mothers

Detroit (U.P.)—Too much mother and not enough father during childhood is one reason why many persons turn out to be alcoholics, according to a Detroit psychiatrist.

Dr. Aloysius Church told a medical meeting that many fathers' jobs keep them away from home too much. The result, he said, is that the children look to their mothers for love, affection and moral support.

"Matrimony is the basis for most alcoholism today," he said.

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Thursday, June 30, 1955

NUMBER 151

—Photo by Dick Carr

**CASUAL**—That's the word for Earle Davis, head of the department of English at K-State. Davis had the misfortune to be spotted by a Collegian staff member with a camera as he emerged from Eisenhower hall late one afternoon

## Orders Being Taken For Senior Invitations

Orders for summer school commencement invitations will be taken from July 5 through July 8 in Kedzie 101, according to Byron E. Ellis, superintendent of KSC Press.

Invitations must be paid for in cash at the time the order is placed. No checks will be accepted.

One style of invitation will be available. Invitations will cost 11 cents each, plus tax.

## Coeds May Register for Beauty Show

All K-State coeds enrolled in more than three hours this summer are eligible to compete for the "Miss K-State" title. The contest, sponsored by the Collegian, will feature bathing beauties at the tennis courts on July 24.

Girls may enter the contest by signing up at either Southeast hall or Kedzie. Karen Milner and Joan Albers will be in charge of registration at Southeast, and girls not living in the hall may sign up at K103A. Deadline for contest registration is July 15.

The bathing-beauty contest will be judged by a representative from the Collegian, the College, and the city. Prizes will be given to "Miss K-State" by several businessmen. A list of prizes will be announced at a later date.

## Trip to KC Cancelled; Later Dates Announced

The trip planned for students wishing to see the Kansas City Athletics and the Starlight Theater has been cancelled, due to lack of student interest, Loren Kattner, Student Union director announced.

Three other possible dates have been set, Kottner said. They are July 15, 23, or 30.

## Chemistry To Get New Dept. Head

President McCain said yesterday he hoped by July 1 he would be able to give the Board of Regents the name of the person recommended to head the College's chemistry department. Prof. Ralph E. Silker who is now head of the department is resigning the post to continue his work in research.

## Students Must Register

# Proficiency Exam Insures Adequate Usage of English

By GEORGE VOHS

Students enrolled in English proficiency must report to their dean's office to sign record cards between today and July 8. Prof. Nellie Aberle, administrator of the exam, has announced.

The purpose of the examination is to insure that all K-State students have adequate knowledge of English usage to hold their own in the industrial world of today, she said.

Students will not be allowed to take the exam unless these cards are signed, she said. It will be on July 12 from 7 to 10 p.m. in Willard hall.

Home Economics and Arts and Sciences students will meet in room 115. Agriculture, Engineering and Architecture, and Veterin-

ary Medicine will meet in room 101.

Results of English proficiency examinations have changed the whole approach of the English department toward Written Communications I. Professor Aberle said.

Statistics obtained from the examinations have proved that more emphasis on mechanical correctness and effective organization of material is necessary in the course, she said.

As a result of these changes, students who receive their English training at K-State have a better chance of passing the test than those students trained at other colleges, she said.

During the fall semester last year, 513 students trained at K-State took the proficiency exam.

## World Not Poetic Enough, Reed Says

By GEORGE VOHS

Of the Collegian Staff

Today's industrial age has left the people in confusion about the arts, Daniel Reed, actor, director, and dramatist said at assembly yesterday morning.

"We are not in a period of fine poetry. We are in an industrial age and live in such a rattled world that we are confused," he said.

Daniel Reed

Mechanical devices such as radio and television have taken the people away from the arts of reading and conversation. It has now become a chore to read when it was formerly a privilege, he said.

Communism is serving as a challenge to the people. It is serving to wake the people up and tending to take emphasis of industrialization of the arts, he said.

Reed made his comments on industrialization following the assembly. He also said that it is up to the young people of today to carry on the creation of fine poetry and writing.

"Poetry, especially lyric poetry, is a young peoples art," he said.

Reed read many poems during the program including favorites by Carl Sandburg, Walt Whitman, Edwin Arlington Robinson, and Robert Frost.

As a conclusion, he explained and read parts of Stephen Vincent Benet's "Western Star" telling of the pioneer spirit and beginning of America. "There is no other epic equal to 'Western Star,'" he said.

He used Walt Whitman as a standard for comparing American poets because Whitman "opened the door for free expression in writing." He and a few others including Marx brought the world into the minds of the people, he said.

Training of actors is Reed's main field of endeavor. During his 48 years in the theater, he has worked with such stars as Claudette Colbert, Ginger Rogers, Jimmy Cagney, and Spencer Tracy.

"Everyone is an actor to get their way," he said. "A baby cries to be picked up while husband and wife act different scenes until they get tiresome."

The art of acting must be segregated, however, because it is a very subtle and complex projection of the imagination. Experience is the chief developer of a good actor, he said.

Few men have covered the theater in all its branches and departments more thoroughly than Daniel Reed. During his long career, he has been actor, director, and playwright in various Broadway productions and in Hollywood.

He also has been a leader in experimental educational community theaters and is famed for his reading of poetry.

## No School Saturday Morning and Monday

School will be dismissed Friday evening for the Fourth of July week end, President McCain announced.

All offices on the campus will be closed Saturday, by special permission from Governor Hall. Classes will resume Tuesday, July 5, at 7:30 a.m.

## King Awards To Eleven Chem Students

Eleven K-State chemistry students have been awarded H. H. King scholarships for the 1955-56 school year, announced Ralph E. Silker, head of the chemistry department.

Those who received the awards are Donald Thayer, Janis Broman, Ronald Butler, Stanley Cowan, Wayne Mowrer, Howard Bradley, Wesley Hedden, Joseph Jones, Duncan Dodds, Keith Penner, and Don Setser.

# Once Around The Campus

By HAROLD BAKER

If anyone finds time hanging heavily on his hands, an interesting and entertaining (the word "educational" is intentionally omitted) half day can be spent in the museum rooms in Fairchild hall.

Have yourself well in hand when you climb to the second floor, for the hiss of the bull-snake in the "animals we could do without" section can be disconcerting.

The bee colony in the east window on that same floor immediately brings to mind Rec center during enrollment on June 6.

One of the most satisfactory results of the inspection is to find that those long, fruitless hours of waiting on snipes on a dark night in a pasture or cornfield were not spent in vain. There are such birds as snipes. It's a little hard to justify such crude methods as the lantern and gunny sack for catching them, however.

A disappointing item does come to light—that of finding a pelican whose beak will not hold as much as his bellican (if you'll pardon the expression).

A young lady from the plains of western Kansas wanted to know what kind of trees those were northeast of Calvin hall that had gooseberries on them.

It has been announced that an RAF bomber flew across the North Pole and arrived at its destination several hours before its departure. Can you imagine relatives dropping in with this announcement?—"Oh, yes, we left home tomorrow."

Jean Ritchie, Kentucky's female Tennessee Ernie Ford and Indiana Herb Shriner all rolled into one, plucked the dulcimer with an experienced forefinger last Friday.

Miss Ritchie said one of the popular ballads of her community is "I Wonder When I Shall Be Married?" In a following statement, she admitted that the average family there has 14 children.

From the description she gave of the people there, it seems correct to assume that they'd rather sing than eat. Some of the songs have 35 verses.

Word for the day: "Not all women let themselves go during the slack season."

## Lady, Use a Hose For Housecleaning

New York (U.P.)—The day may come when a woman cleans house simply by turning a hose on it.

Paul McCobb, young New York designer, said new developments in synthetics in the next few years virtually could do away with house cleaning as women now know it.

"Cleaning the living room could be just a matter of turning the hose on it," McCobb said, "although frankly I don't think women would want it that way."

## The Kansas State Collegian

Published by Student Publications, Inc., Kansas State college, daily except Saturday and Sunday during the fall and spring semesters, weekly during the summer school session.

# Leisure Corner

By CRAZY AUTO

The Boston Pops orchestra has put out an album of recorded music that nobody, but nobody, can listen to without liking—or at least not disliking. Unless, maybe, some longhairs who might not go for some of the gayers pieces.

The album is called *The Family All Together*, but don't go rushing out to start a family, because it's perfectly possible to enjoy it without one.

In the 45 r.p.m. album, the orchestra does Rachmaninoff's "Prelude in C-Sharp Minor," "Clair de Lune," "In a Clock Store," "A Hunt in the Black Forest," and "Intermezzo" from the United Artists film.

The 33 1/3 r.p.m. record has, in addition to the above, Ravel's "Bolero;" an arrangement of Gershwin's "Porgy and Bess;" "Pop Goes the Weasel;" and the "Warsaw Concerto."

The Boston Pops is known for its symphonically unorthodox efforts to get good music. "A Hunt in the Black Forest," for instance is complete with galloping horses, yelping hounds, and yelping hunters.

"In a Clock Store" has all kinds of musical bings and bongs and ticks and tocks. Toward the end of the selection the orchestra puckers up and renders a jolly good whistled chorus.

A recent picture released to the press shows the orchestra's distinguished conductor, Arthur Fiedler, in formal dress, topped off with a coonskin cap and conducting the orchestra with a toy musket. The selection being played was their arrangement of "The Ballad of Davy Crockett."

The *Seven Year Itch*, starring the phenomenal Marilyn Monroe, will come to the Wareham screen Sunday and I, for one, will be there to see it.

It's the hilarious story of a husband of the most faithful kind, who after seven years of wedded bliss, finds himself in the clutches of the girl upstairs.

Probably the biggest reason other than the obvious (Monroe) for this turnout is the absence of the shy fellow's wife.

As a play, *The Seven Year Itch* enjoyed an extended success on Broadway and it has, I believe, every reason to do the same as a movie.

## Reader Lauds Culture Shown by Crazy Auto

To the Editor:

It is indeed gratifying to see such expert opinions published in the Collegian as appear in the column by "Crazy Auto." The gentleman who publishes the reviews under the above-mentioned pseudonym is, indubitably, a man of great learning and culture, well acquainted with opera and fine arts. His familiarity with the music of Bizet is, indeed, so intimate that the subtle difference between the music of Bizet's "Carmen" and "Carmen Jones," which quite escapes the detection of my humble ears, appeared to him as a monstrous cleavage, an abysmal gulf; nay, indeed—his discernment is so acute that the esteemed gentleman was utterly unable to recognize any similarity between the great and noble work of Monsieur Georges Bizet and the music from the sound tracks of the above-mentioned Hollywood production.

It is, then, not at all surprising to find that the talented ears of Mr. "Crazy Auto" were able to uncover a discovery which quite escaped the notice of his lesser colleagues who publish reviews in such little-known magazines as e. g., "Time," viz. that the voice which Hollywood would have us believe to be Harry Belafonte's belongs, indeed, to an entirely different gentleman, and has been "very skillfully dubbed in." It is only regrettable that Mr. C. A. has chosen not to reveal to the rest of the world the identity of that "operatic voice."

There is but one minor point at which I would humble beg to differ with Mr. C. A.—although Monsieur Georges Bizet, who is

buried at the Pere Lachaise cemetery on the north-east side of Paris, is undoubtedly turning in his grave, he is doing so at one revolution per 24 hours, along with the rest of the world, and not at several r.p.m. as C. A. would have us believe.

Most humbly and respectfully yours,  
Raimo Bakis, Pys Gr

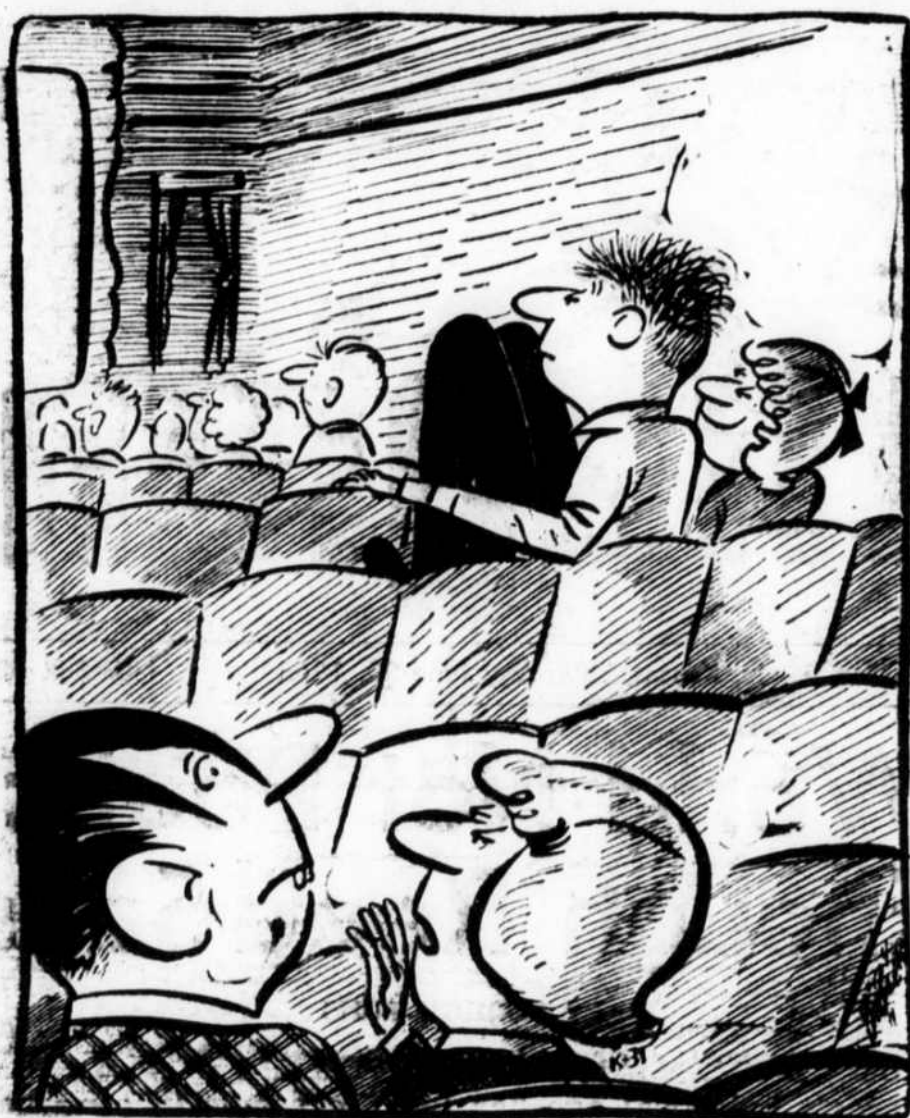

### Editor's Note:

Crazy Auto told us the other day just before he left for Kite's (he reads all the time) that the November 1, 1954, issue of e.g., TIME, viz. says that Bizet's music goes about as well with Hollywood's setting "as pink champagne at a hoedown." (Which shows that TIME is on the ball, too.)

C. A. just last night scratched on the wall with his big toe (He has remarkably sharp toenails; we learned early to keep clear of them when he's in a particularly violent mood) that the same issue of e.g., TIME, viz. (page 98, he scratched) tells of one Le Vern Hutcherson doing the singing for Belafonte in the film.

C. A. is a pretty erratic character (we trust him about as far as we can throw the field house). But we found on checking his painful scratchings that e.g., TIME, viz. also tells of one Marilyn Horne who, through the miracles of Hollywood, did Dorothy Dandridge's singing for her.

This morning, as we propped C. A. up to his typewriter, he mumbled that Hutcherson and Horne were the singing stars of the national company of Porgy and Bess.

"I see Freda finally got a date with her basketball player."

## Over The Ivy Line

# Bermuda Shorts Called 'Indecent'

By HAROLD KANNARR  
Of the Collegian Staff

Bermuda shorts were branded immoral by two Stillwater, Okla., policemen recently. The policemen refused to let two male Oklahoma A&M students enter a restaurant while clad in shirt, jacket, knee socks, and Bermuda shorts.

According to one of the students, the officers said the shorts were indecent, immoral, and foolish.

It took a man to start a fad among hostesses.

The fad—pastel colored cigarettes to match or blend with women's party frocks or room decor.

The man is Nat Sherman, a New York tobacconist, who originated the colored cigarettes and has made them for several years.

Sherman says he has orders from as far away as Bermuda and Hawaii.

### Headlines with a meaning:

7 Engine Faculty  
In Boeing Plan

You never know what Boeing will try next. I sincerely hope they can get this one to fly . . . then we'll be ahead of the Russians.

Ireland To Study  
In Great Britain

Never fear, there hasn't been a country yet we couldn't move.

Swords Recital  
To Be Monday

If this is a duet it should be a real duel. Maybe "On the Fence" or "Foiled Again" would have made better headlines.—University Daily Kansan.

The old-fashioned girl used to tuck her money in her bodice. The modern miss prefers to keep it where it won't be seen.—Drexel Triangle.

A taxi was creeping slowly hour traffic and the passenger was in a hurry. "Please," he said to the driver, "can't you go any faster?"

"Sure, I can," the caddy replied, "but I ain't allowed to leave the taxi."

A prof related this one. Seems the sprinklers on Prexy's pasture remind him of a soaked student on another campus—standing in the middle of spraying sprinklers and yelling: "It's green enough, damn it!"

Commoner's definition of a lakeside student picnic he went

to last week end: "Water, water everywhere, and not a drink to drop."

A student at Iowa U has the solution to campus parking problems. He recommends that fraternities and sororities start a "bicycle for class" campaign. With bicycles owned by the organized houses, their continued use would be assured, he thinks.

His biggest point is that a parking place for one car will be room enough for about 10 bicycles.

"It is better to put a strong fence around the top of a cliff than to put an ambulance down in the valley," according to the Indiana traffic safety foundation.

"In the future, all of us will be faced with the problem of cramming for exams. . . . Now is the time to start worrying about it," says the Varsity News of the University of Detroit.

"First, take the book you need most to study in, brush the dust off, take it out on the lawn, and air it. Open to the middle of the book. Forget at least the first few chapters. Remember, you studied at the beginning of the course.

"Don't worry about the last two chapters. You'll cover them in class yet, now that you're paying attention.

"Now to the part we are going to study. Scan the first page to see if there is anything on it you should know. (There will be.)

"Now read it a second time. (That isn't so bad, is it?) The next time read it for understanding.

"Now flip the page, and read it the same way. (I'll let you in on a little secret. You are studying.)

"And not only are you studying, but you are also doing it earlier than the night before the exam. Aren't you proud of yourself?

"This could be the turning point in your college career. Can't you imagine yourself handing in homework on time. Just think of the shocked, unbelieving expression of your own casual acceptance of the situation. You, too, can be punctual.

"By the way, in case you can't find your books, try the lost and found department. You may have to stand in line, but these lines get longer in the few weeks to come. Do it now."

## College Releases New Folder Explaining Campus

A folder designed to acquaint visitors with K-State has just been published. Max W. Milbourn, chairman of the public relations council, said.

The folder, designed for use at conferences and by visitors, contains a large map with all buildings identified.

The publication also will be made available for distribution by the Manhattan chamber of commerce, and by hotels and motels in the area.

Such interesting bits of miscel-

laneous information as the following are included in the folder:

Home economics has been taught at K-State since 1873, longer than at any other college in America, with one possible exception.

K-State, in 1931, was the first college in the United States to invest its own money in television research. In 1952, the College was first in Kansas to offer student training in TV.

K-State is the only Kansas college conducting a statewide program of extension education in agriculture, home economics, and agricultural engineering.

## Chemistry Donated Air Conditioners

Installation of three additional air-conditioning units, donated to the College chemistry department by Grain Products, Incorporated, of Dodge City, was announced today by Dr. Ralph E. Silker, head of the department.

Capacity of the air conditioners is 5 tons. A 3-ton unit with explosion proof motors, switches, and other parts (to eliminate dangers from volatile and flammable solvents) has been installed in the dehydration laboratory.

Dr. H. L. Mitchell and co-workers had been hampered in research investigations by high summer temperatures in the laboratory.

## 1500 Enrolled In Summer School

Summer school enrollment, including enrollees for the 3 week session, has reached 1506, according to Paul M. Young, summer school supervisor. There were 1229 at this time last year.

The next three week session begins July 18, Young said. Grade reports for last semester have been sent out.

## Workers Face Busy Schedule This Summer

A busy schedule faces officials at the maintenance office this summer. R. F. Gingrich, maintenance superintendent, said.

Animal cages are being installed in the new veterinary hospital under supervision of the maintenance office, he said. This project is nearly completed.

Maintenance office workmen are removing the contractor's buildings near the Student Union to make room for driveways and sidewalks.

The College recently acquired a portion of the Honeywell tract west of the football stadium, Gingrich said. Maintenance workmen are removing trees and are grading to make the area into a parking lot for students.

Gingrich is supervising two interior-decoration projects. Workmen are laying a new floor in room seven of Seaton hall. In addition, the old veterinary hospital building is to be completely remodeled.

The maintenance office is conducting a survey of utilities needed for married-student housing units. It also is directing the planting of a shrub nursery at the north end of Claflin road. This will replace a nursery that will be removed to make room for a new home economics building.

## Summer School Band Rehearsals Announced

All students who play a musical instrument are invited to summer school Band rehearsals each Tuesday, 7:30 to 8:30 p.m., Clyde Jussila, band director, announced. Students receive one hours' credit for this course, Jussila said.

## High Grades Win \$500 Scholarships

Top grade averages have brought \$500 Fribourg Foundation scholarships for 1955-56 to two K-State upperclassmen, Max Milbourn, chairman of the general scholarship committee, has announced.

The students are Ronald Parks, who will be a senior in technical agronomy; and Kenneth D. Weide, who will be a sophomore in veterinary medicine.

Parks has made straight A's in three years' work here, while Weide has a 2.8 average.

The Fribourg Foundation, an

instrument of the Continental Grain company of Chicago, established the scholarships to further the education of outstanding students.

## Chemistry Prof Uses Rats in Cancer Tests

Dr. Kenneth Burkhard, assistant professor of chemistry, is conducting a cancer research in Willard 213.

The program, started five years ago, is supported by the College, the American Cancer society, and the United States Public Health service.

The purpose of this research is to find out what changes occur in the proteins in a tissue when a tumor forms, Dr. Burkhard said.

Rats are used to determine the results, Dr. Burkhard said. Butter-yellow dye is fed to some of the rats, causing tumors to be formed in their body tissues, he explained.

# Ag Economists' Study Kansas Watersheds

The agricultural economics department in co-operation with the soil conservation service, is making an evaluation study of some of the watersheds in Kansas.

Six watersheds have been established in the state as a result of

action taken by Congress in 1954.

The watershed program consists of constructing detention dams, and the usual soil conservation practices of terracing, strip cropping, and contour farming. This method is commonly referred to as "stopping the water where it falls."

Fieldmen working under Fletcher Riggs of the ag economics department, are interviewing farmers in the watershed districts to get information on land use, crop yields, and conservation methods.

The object of the study is to determine the economic value of the watershed program. According to Riggs, this study will serve as a guide post when a later study is made to determine the progress and success of the watershed program.

## Journalism Prof Accepts Position At Michigan State

Bert C. Cross, who has been associate professor of journalism since 1952, has accepted a position as assistant professor of communication arts at Michigan State college, East Lansing.

A native of the state of Washington, Cross received his B.A. in journalism from the University of Washington in 1947, and for three years thereafter was director of publicity and publications for Central Washington college of Education. He received his M.S. in journalism from the University of Oregon in 1951.

## Colby Station Gives Records

Radio station KXXX of Colby, has given a third group of records to KSDB-FM, according to Dr. F. L. Whan, of the speech department.

KXXX has given two other gifts of some 500 records since January 1. The current donation was 255 discs. These recordings, mostly popular tunes, have doubled the size of the record library of the student station. According to Dr. Whan, the records will be used by the "student disc jockeys" in the daily programming of the station.

## Pre-Enrollment Set for July 5

The first group of approximately 750 new students expected to pre-enroll at K-State this summer will arrive on the campus Tuesday, July 5, E. M. Gerritz, director of admissions, said yesterday.

The group will consist of 38 high school graduates who will take physicals, schedule classes, and receive orientation examinations during the day, he said.

A similar group will pre-enroll each day, Monday through Friday from July 5 to August 12, he said.

Pre-enrollment allows each student to spend more time getting acquainted with faculty members, classmates, and the campus, he said.

"The program reaches about half of the new students that will enroll here in the fall," the registrar said.

## AH Profs Attend Meat Conference

Professors David Mackintosh and Ralph Soule of the animal husbandry department, attended the Eighth Annual Reciprocal Meats conference in Chicago, June 20 to 23.

Meats men from agricultural colleges, the USDA, and the American Meat Institute Foundation, attended the meeting to discuss teaching methods, research procedure, and to plan research work.

Two days of the conference were devoted to workshops under the auspices of the American Meat Institute Foundation. The group also attended a short course in "methods of curing meat products."

## Eight HS Students Get Home Economics Awards

Eight winners of \$100 scholarships offered in the School of Home Economics by the Sears Roebuck Foundation were announced today by Doretta Schlaphoff, dean of the school.

The winners are Gearolyn Lee Diehl, Liberal; Sondra L. Pierce, Rt. 4, Hutchinson; Joan Lind-

say, Girard; Phyllis Viergever, 924 Hedgewood, Topeka; Jayne Evah Davis, 1144 Webster, Topeka; Dixie Good, 4204 Holly Lane, Topeka; Kathleen Ann Schultis, McPherson; and Irene Hollingsworth, Eureka.

The scholarships are awarded annually by the Sears Roebuck Foundation to leading Kansas high school graduates who have distinguished themselves in their high school work and in community services, and whose attendance in college is dependent upon assistance.

The Dra Valley in French Morocco grows more than 300 varieties of dates, says the National Geographic Society. The average resident of the valley eats three pounds of dried dates a day.

## Thesis Written On Own Plays

Virnelle Jones, Ed Gr, has completed a speech thesis about three plays she has written.

The plays are "Beauty and the Beast," "Hansel and Gretel," and "The Princess and the Pea."

They were presented recently at St. John's Summer camp, Delafield, Wis., and Shawnee Mission High school, Kansas City, Kan., where Miss Jones is director of speech and drama.

Grade and high school students were the actors, Miss Jones said.

# K-State Queen Contest Set

By OREN CAMPBELL

The "Miss K-State" contest, originally scheduled for July 20, has been rescheduled for July 21 and will be held as a part of the Manhattan water carnival at the city pool at 8:30 p.m.

Arrangements were made this week with Frank Anneberg, the city recreation director, to hold the bathing beauty contest at the water carnival. Anneberg said nearly 4,000 persons are expected to attend.

Every K-State coed who is enrolled in more than three credit hours is eligible to enter the contest. Entry blanks are available from Karen Milner or Joan Albers at Southeast hall, and at Kedzie 103A.

The Collegian, sponsor of the beauty contest, also has arranged to honor the contest winner in two ways. She will receive prizes donated by Collegian advertisers, and she will be entered in the

Kansas section of the National College Queen contest.

A list of the prizes to be given the winner will appear in the July 21 issue.

The National College Queen contest is being sponsored by the chamber of commerce of Asbury Park, N.J. The contest will be held there September 9-11, with winners from each state as contestants.

In all states, a "State College Queen" will be chosen, along with a runner-up and a third-place winner. The latter two will serve as alternates if the state winner is unable to compete in the national contest.

The Youth Research Institute of New York City will do the screening and scoring to select the national finalists. This or-

ganization is devoted to educational research and survey in the early teenage and college age bracket.

The national contest will be judged and scored on a 100-point basis. Fifty points will be based on information on the entry blank and on a questionnaire form. In most cases, the state winners will be chosen on the basis of this written information.

At the national contest, a total of 50 points will be based on personal appearance, personality, grace, charm, figure, stage presence, elocution delivery, and a personal interview with the board of national judges.

Every state college queen finalist will receive roundtrip transportation to and from Asbury Park to compete on the stage of Convention hall there.

They will be guests of the city and will be housed at a boardwalk hotel.

The national winner will receive \$5,000 in prizes, including a tour of Europe next summer under the supervision of the Ford Abroad Tours Foundation. She also will receive a scholarship, a complete designer's wardrobe, and several other prizes.

The national judges will include Ida Lupino and Eddie Bracken of movie fame; Johnny and Penny Olsen, radio and TV husband and wife team; Bess Myerson, TV personality who was Miss America of 1955; Ellen Blanchard, New York model agency director; Ern Westmore, Hollywood makeup authority; and Norman Brokenshire, a radio personality.

## Kansas State Collegian

Kansas State College, Manhattan, Kansas, Thursday, July 7, 1955  
VOLUME LXI NUMBER 152

### Educator To Discuss 'Youth and the Future'

Dr. Robert J. Havighurst, educator, will speak on "Youth and the Future" at the fourth summer assembly Tuesday, July 12, at 9:20 a.m. in the Auditorium, A. L. Pugsley, dean of administration, announced today.

The lecture subject will be of interest to all summer school students either as future parents or as teachers, Dean Pugsley said.

Professor Havighurst is an educator and research scientist in the field of human relations and human development.

He is presently Professor of Education and member of the committee on human development at the University of Chicago.

A native of Wisconsin, he attended public schools in Wisconsin and Illinois, and took his A.B. at Ohio Wesleyan University in 1921. He received his Ph.D. in chemistry at Ohio State University in 1924.

Following further graduate work at Harvard University in the field of physics as a Fellow of the National Research Council, he spent a year traveling and studying in Europe.

From 1928 to 1932, Dr. Havighurst was assistant professor of physics at the University of Wisconsin. His principal assignment was head of the Experimental college there. The Experimental college was one of the first experiments attempted to secure more unity and coherence in general education at college level.

He was assistant professor of science education at Ohio State University from 1932 to 1934. He then went to New York City as assistant director of general education for the general education board, one of the Rockefeller foundations.

In this position he helped to allocate several million dollars of foundation funds supporting experiments in the field of general education in secondary schools and colleges. He became director of the division of general education in 1937 and continued in this capacity until 1940.

### McCain May Start Rocking Next Week

President and Mrs. McCain left yesterday for a month's vacation at a private cabin near Estes Park, Colo. Dr. A. D. Weber, dean of agriculture, will be acting president in McCain's absence.

"I'm going to sit down in a rocking chair for a week, and then the next week I'm going to start rocking," McCain commented.

### Pulitzer Prize Winner Will Teach Here

A Pulitzer prize-winning biographer, Prof. Russel B. Nye, head of the English department at Michigan State college, will teach a three-week short course on "American Books and Democratic Themes," from July 18 to August 6, Prof. Earle Davis, head of the English department, announced this week.

"Professor Nye is one of America's most distinguished scholars and teachers. He has a reputation of being a most interesting lecturer and we are very privileged to have him here," Professor Davis said.

A specialist in the study of American civilization, Prof. Nye's biography of George Bancroft won a Pulitzer prize in 1944.

Professor Nye's most recent book is "William Lloyd Garrison and the Humanitarian Reformers," which tells of a turbulent reformer's fight for the freedom of the individual from man-made restrictions.

His other books are "Civil Liberty and Slavery," "Midwestern Progressive Politics," and "The Modern Essay."

### KU Professor Predicts Earthquakes For Manhattan Area in Near Future

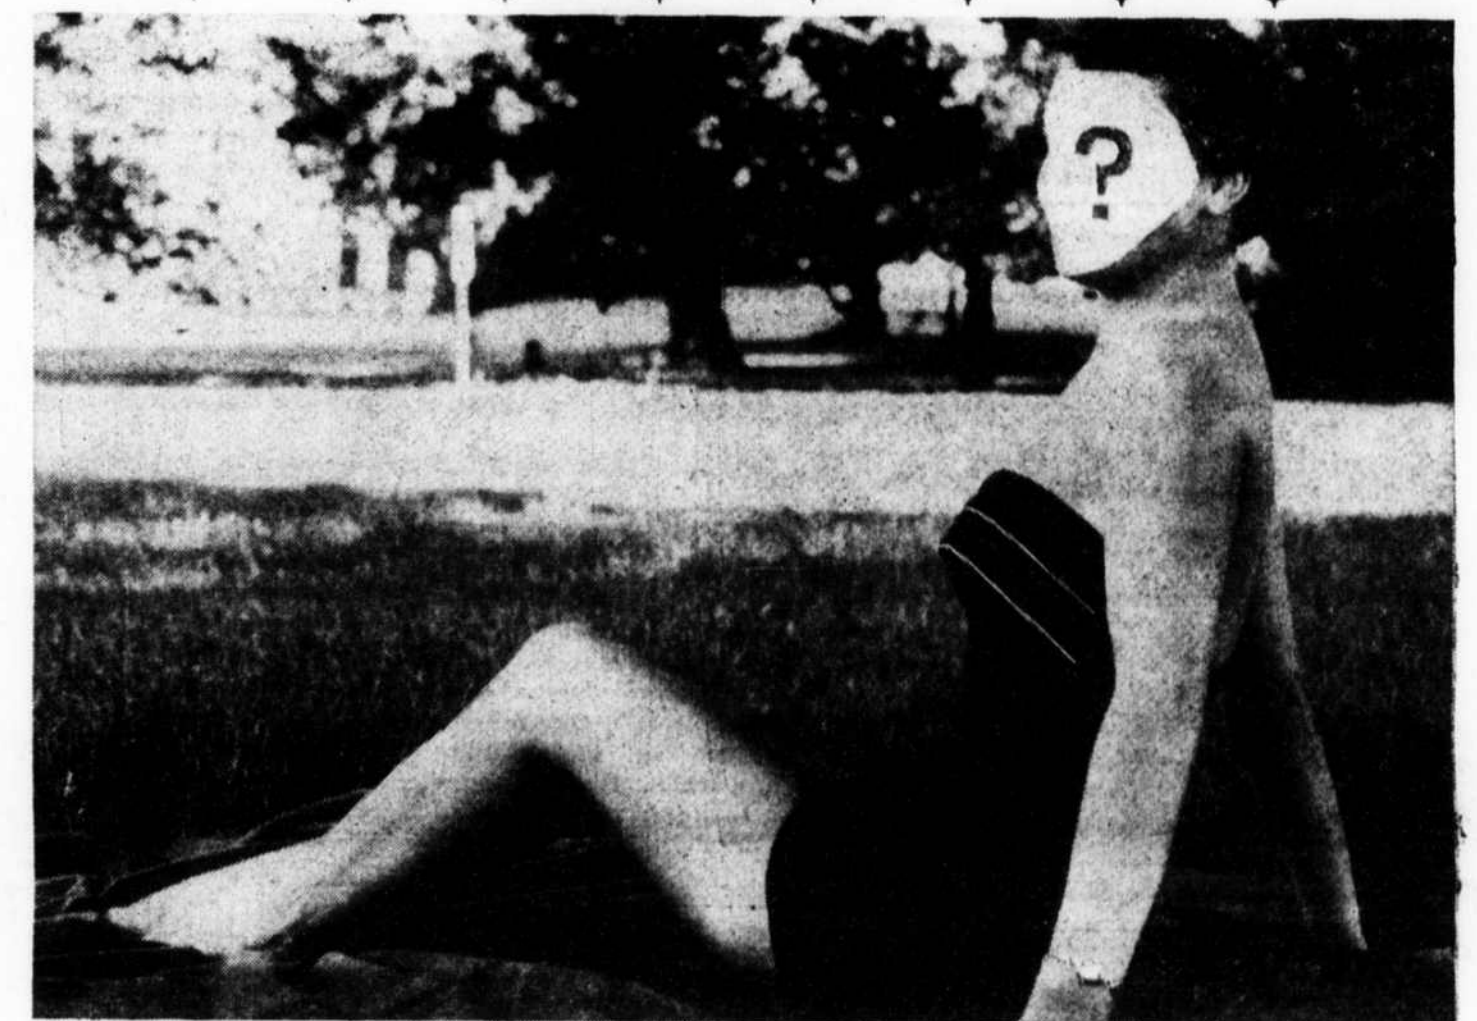

By GARY NEILAN

Some earth-shaking news released by a University of Kansas professor has been appearing in recent weeks.

No, Phog hasn't come up with another Wilt Chamberlain, although this latest find might appear to be about as tall.

A member of the K. U. geology department says the Manhattan area is due for a major earthquake.

However, Dr. J. E. Chelikowsky of the K-State geology department says the prediction was based on the fact that an earthquake of moderate intensity occurs in this area on an average of every 40-50 years. The last big one here was in 1906.

Collegian photo by J. R. McLeland

**WHO WILL BE "MISS K-STATE"?** A local coed will be named "Miss K-State" at the "Manhattan Melodays" water carnival at the city swimming pool Thursday evening, July 21. The winner will be entered in the state division of the National College Queen contest. The state winner will receive an expenses-paid trip to Asbury Park, N.J., for the national contest.

### It's Nice To Have A Man Around, Say Girls in Dorms

It is a good thing to have a man around, even in a girls' dorm.

At least the four women's residence halls on the campus are able to find work for a certain number of college boys who feel they need to supplement their finances by part-time jobs.

Mrs. Grace Shugart, coordin-

ator of food service in the women's halls, has compiled some interesting facts and figures among the 140 college boys and girls employed there during the regular school year.

Thirty-five boys worked in the residence halls last winter. They admit their main purpose

in working there was to get good food. Their duties were more strenuous, naturally, than those prescribed for the girls. They washed dishes, pots, and pans, and did the heavy lifting.

Girls enrolled in institutional and restaurant management curriculums gained valuable experience as student employees.

Small turnover in workers is the rule, rather than the exception, as can be seen from the fact that three of the boys completed four years of employment, and one is a five-year man. The boys insist it is the good food and the well filled plates that bring them around the following year for the job.

Beginning wages for girls is 55 cents an hour, while boys start at 65 cents an hour. Everyone whose work is satisfactory gets a five cent an hour increase for each semester worked, with the ceiling set at 90 cents an hour.

Generally each girl works one or two meals a day—an hour to the meal, seldom for all three. The boys average two or three hours a day. Many freshmen, entering school in the fall, think they will work the three-hour limit, seeing the vacant periods on their class schedules and remembering that in high school all hours were taken up with classes or study hall periods.

Nemaha anticline, a huge subterranean arch of granite which runs along a line from Oklahoma City, through the Wamego area, to Falls City, Neb. Near Oklahoma City, the rock has been pushed up to where the displacement is nearly a half mile.

Since 1811, a total of 38 quakes have been recorded in Kansas, with the biggest one in 1867. A minor quake was felt in 1952, but would not compare to the presently predicted one which would topple chimneys, shatter windows, and crack walls.

Whether the K.U. geologist's prediction comes true or not, Chelikowsky says there really isn't much we can do about it.

Earthquakes in this area are caused by movement in the

"The only clue I'll give you is that it came from the student cafeteria."

### Over The Ivy Line

## Marines Send 'Reefers' Up in Cloud of Smoke

By HAROLD KANNARR  
Of the Collegian Staff

A field of marijuana four miles long and worth approximately \$2 million has been found growing near Chicago.

Police said that, although the narcotic definitely is not growing wild, no arrests have been made.

Marines have been called in to destroy the field with flame throwers.

A student at Iowa State finds it fascinating to ride a unicycle to classes.

The one-wheel vehicle was sometimes hard to ride, he says, so he has built a 6-footer which he says is easier to ride because he has more time to recover his balance.

There are no practical advantages to the unicycle, he admits. He just builds them and rides them for "kicks."

Did you ever notice how boys carry their books at arm's length while girls carry them cradled higher? Maybe it's the maternal instinct or something.—Colorado Daily.

Wearers of Bermuda shorts seem to belong to two schools, the all-or-nothing and the half-mast factions.

Those in the first group wear short socks and expose their skinny legs. The half-masters wear long socks which cover a large portion of their legs, but emphasize their knobby knees.—Copied.

**Frustration:** The hitter came up to the plate with two outs and the bases loaded. He tossed away the extra bat, picked up the rosin bag, dropped it, straightened his cap, knocked the dirt out of his spikes, wiped his brow, raised his bat over his head and waggled it, pounded it on the plate, straightened his cap, pulled up his pants, dug his spikes in, straightened his cap—

Then he watched the pitcher pick the runner off first base.—The Drexel Triangle.

"As a way of life I've decided to devote myself to the gaining of personal wealth."—Iowa State Daily.

It Actually Happened Department:

Seems this doll went to a banquet . . . seems that salads were served . . . seems that for these salads different dressings were served in separate containers so each could choose his own . . . seems that this doll chose Roquefort . . . and put it in her coffee.

With summer and irrigation time, our C. U. campus sheds its quiet ivy-covered atmosphere and takes on the setting of Venice. Water flows down the sidewalks, over lawns, and into the shoes of low-shod students.

Girls, who seldom wear socks much anyway, aren't too much affected. They can take their shoes off and wade. But we men must plow through with danger to leather and limb.—Colorado Daily.

More than a million smokers have quit smoking, according to a national survey for the National Cancer Institute.

Of the estimated 38 million still smoking, 25 million are men and 13 million are women.

The majority of these smokers consume 10 to 20 cigarettes a day. Two million others smoke cigarettes occasionally.

Urban men are heavier smokers than those who live on farms; white men smoke more than non-whites, the survey showed.

Twenty per cent of the students at Colorado U feel they are being discriminated against, but not all discriminations are because of race, the Colorado Daily says.

Of the cases cited, one concerned a music student who was not allowed to attend the military ball.

C. U. is doing something about discrimination. A committee on human relations composed of seven students and seven faculty members is studying the problem.

He is a self-made man and worships his creator.—John Bright.

A student who recently finished a nine-month job as editor of the school daily at Colorado U used, as his final comment about his job, the following poem:

The editor stood at the pearly gates,  
His face was lined and old;  
He stood before the man of fate  
For admission to the fold.

"What have you done," St. Peter said,  
"To gain admission here?"  
"I've been a college editor,  
For the past nine months of the year."

The pearly gates swung open wide,  
St. Peter rang the bell!  
"Come on in and choose your harp,  
You've had your share of hell."

There's a desk in the lobby of the library that has a powerful attraction for a few of us queer ones. The material there can impart little useful knowledge, but a wonderful feeling of anticipation and expectation. There are no high-priced books or rare folios, just an unorganized assortment of maps and chamber of commerce literature extolling the vastness and virtues of communities from Gander, Newfoundland, to Acapulco, Mexico.

The book jackets on the library bulletin board contribute nicely to the summer urge for a vacation.

Sitting in an air-conditioned living room in an easy chair, one can follow U. S. 40 to points west. Of Men and Mountains; up to the Northwest country, Dangerous River; on into the frigid North, The White Desert; across the top of the world to Norway and Sweden, All the Best in Scandinavia; down through the ancient countries of Asia, From an Antique Land; into dark Africa, I Have Two Countries; across to the Americas to Orinoco Adventure; and back to the States via McKay's Guide to Bermuda, the Bahamas, and the Caribbean.

The height of something or other in regard to vacation-inspired prose appeared in the Christian Science Monitor.

In describing a "ladies only" tour through western Montana, the writer said, "Not very many women have been close enough to a bull moose to see him chewing moss from a lake bottom." If some of you ladies still lack an aim in life. . .

## Reader Apologizes To Collegian's C.A.

To the Editor:

My humble apologies to Crazy Auto for the false insinuations and untrue facts which appeared in my letter last week. TIME does agree that Hutcherson sings for Belafonte in "Carmen Jones."

This shall teach me not to meddle in movie critics' business in the future. Yet I refuse to deny, nevertheless, that the picture was not altogether without merit, and was, in fact, somewhat enjoyable.

Respectfully yours,  
Raimo Bakis, Psy Gr

Editor's note:

Crazy Auto went sane for a minute when he read this gracious letter. It was too much for his ego to receive two fan letters.

Seriously, he was glad that at least one other person, beside himself, read his column.

Why don't you bring a little light into his cold, dark world by sending him a note? Go ahead and disagree with him. We do all the time and he thrives on it.

# Leisure Corner

By CRAZY AUTO

Before you read this column, get where it's nice and cool. (I've discovered the refrigerator's no good though, because when you shut the door the light goes out.) Then provide yourself with a big, tall, cold drink of something or other. (The more other the better.)

The reason for these precautions is that today I'm going to discuss a "hot" title. The book is called *Too Near the Sun*.

It's written by Gordon Forbes and is out in both a hard-bound edition and as a 35-cent paperback. The title and main theme of the novel are taken from the Greek myth of Icarus and his father Daedalus.

The pair escapes from a labyrinth by sticking feathers on their arms with wax and flying out. Icarus, however, lets the thing go to his head and he makes the supreme goof of flying 'too near the sun.' The sun melts the wax. Exit Icarus.

Icarus in the novel is Stuart Ashton. He is married but it's difficult to tell, early in the book, to just whom.

As far as mirroring the times in the gay, hectic, life of the party class, Forbes earns a favorable comparison with F. Scott Fitzgerald.

Fitzgerald did it with the Roaring '20s probably better than anyone else has done or will do. The clink of ice cubes in glasses doesn't come through any better than when Fitzgerald tells it. But Forbes does a good job of putting you smack-dab in the middle of more awesome parties than Fitzgerald ever thought of writing about.

Oh they knew how to whoop it up in Fitzgerald's time, all right, and they did. But for wife-swapping, mistress-having gaiety, you just can't beat U.S. 1955, Hollywood-type parties.

(The story is set in the rich society of a California town not far from the influence of Hollywood, and it is complete with a family psychiatrist and his buxom nurse.)

Ashton manages to escape the dangers usually associated with this type of high living, but in the end, like Icarus, he loses his equilibrium and goes crashing to earth. And the heck of it is that nobody, especially his wife, seems very broken up about it.

K-State English professor Philip Young has a book out about Ernest Hemingway called (oddly enough) *Ernest Hemingway*.

Not long after publication of Young's book, Hemingway received the Nobel prize for literature. (Primarily for *The Old Man and the Sea*.) Some pretty good predicting on the part of Prof. Young, I'd say.

The book is highly readable and should be equally enjoyable to old Hemingway fans and those who've only heard of the fabulous fellow.

Hemingway's biography is more exciting than many novels so it's only logical that a critical analysis of his works based on his fantastic life should be doubly entertaining, to say nothing of the book's value as a work of literary criticism.

I was a bit taken aback the other day by an advertisement of Howard Hawk's new movie spectacular *Land of the Pharaohs*. Credit for writing the script is given to, among others, a fellow named William Faulkner.

Thus, for a gaudy movie of ancient Egypt, its people, and its pyramids, Hollywood commands the services of a Nobel Prize winner (for literature in 1950), a Pulitzer Prize winner (for his novel *The Fable* in 1955), a writer whose books are so deep that years of study are required to fully understand them.

For instance the first half of one of his books, *The Sound and the Fury*, is written from the mind of an idiot character in the book.

His books contain sentences that stumble and grope for entire chapters without a period. He sets somber moods with words and sentences that are put together without regard for dictionaries or grammar books.

His books have an almost Gothic quality that makes them seem weirdly unreal, yet the impressions left with the reader are so vivid that few can doubt his top ranking as a novelist.

How can the screen do justice to Faulkner, and vice-versa? It's my opinion that it can't.

It's a cinch that he won't sell to the average moviegoer. (average intelligence about ninth grade). The very essence of Faulkner's appeal is his ability to stimulate the reader's imagination.

I don't know about you, but a Cinemascope screen with bright color and stereophonic sound is hardly subtle enough for my imagination. In fact, like television, (average viewing level also about ninth grade) it makes my imagination downright lazy.

# Custodian Holds Bag On 25,000-Mile Walk

By GARY NEILAN

A cigar, metal rod, and canvas bag, are the essential pieces of equipment of campus custodian Everett Wilburn.

For more than seven years Wilburn has been making his daily rounds of the campus picking up scraps of paper.

During the summer he says he doesn't find quite as much, but still it doesn't take long to fill the big canvas bag with gum and candy wrappers. He gets from six to eight bags a day in the summer, and fills about 12 a day in the winter term.

During his daily route, Wilburn estimates he walks approximately 25 miles. That figures up to about 25,000 miles since he began working at K-State.

Wilburn's chief piece of equipment is an aluminum rod which he designed especially for picking found on the campus is not

up the paper scraps. He sharpens the special steel tip once a day, and keeps the rod in good working order at all times.

Wilburn says he likes his job very much. "Everyone treats me fine." As a rule, he says the students do their best to help him out.

A cigar is another item Wilburn believes necessary for his work. In fact, he says the only time he was laid off work was "when he started smoking cigarettes, got dizzy and fell off the steps of Anderson and broke his wrist."

Photo by George Vohs

EVERETT WILBURN, campus custodian, figures he has walked about 25,000 miles around the K-State campus in the past seven years or the equivalent of once around the world.

## The Blood You Need May Be Your Own

L'Anse, Mich. (U.P.)—Mrs. John Brogan donated a pint of blood to the local blood bank.

Several days later she was injured seriously in a traffic accident and a transfusion was necessary to save her life. She received the same blood she had donated.

Dr. John Strobe said the coincidence was "decidedly rare."

# New Swim Suit Styles Bring Rise in Bosoms

Miami Beach (U.P.)—Curvaceous Corrin Gustafson looked down at her "pushed up" bosom and observed "the American woman will like the new look in bathing suits."

A crowd of wide-eyed photographers and male cabana patrons looked up and indicated the American man will like it too. Swim-suit manufacturer Fred Cole of Los Angeles watched the reaction to the latest in beachwear and beamed.

"The bosom is not disappearing from the American scene," Cole explained, "it's just changing its location."

Cole pointed out that the bust is being upmolded so that it is one or two inches higher on the body, thus eliminating the need for "falsies" and the possibility that milady may leave her swimming pool and leave something behind.

"When the bust is pushed into smaller space," Cole said, "it looks as if there is more of it so most women can now get by with what they have."

Cole said by raising the bust, fashion experts have lengthened the body line to give bathing suits uninterrupted lines from high on the bosom to low on the hips. Style-conscious women, he said, will thus appear taller and slimmer.

The new "pared-down look," he said, gives the pint-sized girl a "lengthening effect." And it doesn't do anything to shapely models like Miss Gustafson.

"It covers you up more," Corrine said, "but I believe women have more sex appeal when they wear a bit more clothing."

## Friday Deadline For Invitations

Tomorrow will be the last day to order summer school senior commencement invitations, according to Byron E. Ellis, KSC Press Superintendent. Invitations must be paid for at the time of ordering, and in cash. No checks will be accepted. One style invitation is being sold at 11 cents each.

Cole, who worked his way up from the long-knit "undies" business, has his own pet theory about bosoms.

"In 1933, busts were as flat as everyone's pocketbook," he said. "But as times got better they started to rise—the stock market and the bosom are a mirror of economic optimism."

## Vet Medicine Accepts 14 More Students

An additional 14 students have been accepted for the school of veterinary medicine according to Dr. E. E. Leasure, dean of the school.

This group is the third and final to be announced. It brings the number to be admitted to the school for the first time this fall to 70.

Those admitted include Joseph Brennan, Earle Binford, Paul Daniels, Robert Disney, John Gibson, Harry Jefferson, Edward John, Edward McKenna, Elmer Reich, Richard Royce, Robert Schuster, William Upchurch, Charles Wilson, and Lloyd Wright.

Two alternates have been selected to fill any vacancies which might occur. They are George Henry, and John Yatsook.

## John Wayne To Star in War Movie Tuesday

"The Long Voyage Home" starring John Wayne, Thomas Mitchell, and Barry Fitzgerald will be the free movie this week.

It is John Ford's production of Eugene O'Neill's famous war story about a torpedoed freighter to be shown at 8 p.m. Tuesday in East stadium.

According to scientists, the chemical value of man is a little more than a dollar. According to the same scientists, the chemical value of a woman depends entirely upon what drugstore she patronizes.

# Actress Says Red Hair To Be More Fashionable

By ELIZABETH TOOMEY

**United Press Staff Correspondent**  
New York—People who should know predict that women will prefer red hair, no matter what the gentlemen prefer, in the years ahead.

This refers, of course, to women who tamper with the hue nature gave them, of which there are several million.

Just to see what red hair mean to a girl's social life, we talked it over with a beauty who was a redhead (natural) even before it was so fashionable.

"It's nice having red hair," Maureen O'Hara murmured contentedly. "Men have a more permanent thought about a red-haired girl than they do about a blonde."

We thought about that as objectively as only a brown-haired woman could do. "No kidding?" We finally said, having come to no conclusions.

"Men think of blondes generally more as a brief flash," continued Miss O'Hara, whose real name is Fitzsimons and whose hair, according to her Irish passport is "light auburn." "A

redhead is equally exciting to a man, but he gives her more than a fleeting thought."

Okay, so let's say a girl switched from . . . say . . . well, brown hair to red hair. Any disadvantages?

Here Miss O'Hara, who really is a very straightforward person and not at all the beautiful-but-delicate type she appears to be in Technicolor, stuck a forearm under her interviewer's nose.

"Freckles," she said. "All over. I've never had a suntan in my life."

She does have freckles too, lots of them. But that's something a readymade redhead wouldn't need to worry about.

"You might want to be careful about colors if you became a redhead," she warned. She had just come from a fitting for an emerald green satin evening dress she planned to wear at a party given in honor of her latest movie, "The Long Gray Line."

"You usually can tell by the compliments of the men if something you wear is becoming," the beautiful movie star said. "I'm partial to men. I take my two brothers shopping with me."

"If men say 'I like that dress on you' take a good look at it and find out what it is about it they like."

One of her brothers tipped her off by choosing green shades more carefully, Miss O'Hara said.

"I used to wear anything if it was green," she laughed. "Then Charles (Charles Fitzsimons, 29, one of her brothers told me that certain colors seemed to reflect in the shadows on my face, especially under my eyes. Now I hold anything green close to my face and look at myself, hard, in all kinds of light before I buy it."

"Very pale pink is wonderful for redheads. Not candy-stick pink. And white for evening, especially if you're tired. Always wear white when you're tired and only wear black when you look good."

Miss O'Hara regrets she can't pass along this valuable redhead data to her daughter, Bronwyn. Bronwyn has brown hair.

"The minute I saw her eyes were going to be blue I knew she wouldn't have red hair," Maureen sighed. "Real redheads almost never have blue eyes—either hazel or brown."

## Broadway Hit Plays At Starlight Theater

Kansas City, Mo.—"Guys and Dolls" will bring all of the color and gaiety of Broadway to Starlight Theatre's outdoor stage in Swope Park July 11-July 17.

Heading the star-studded cast which portrays favorite Damon Runyan characters is Penny

Singleton, movie star of "Blondie" fame who scored a major success in last year's production of "Gentlemen Prefer Blondes." Miss Singleton will play the role of Adelaide, a night club singer who has been engaged for 14 years and now feels the time is ripe for marriage.

Dorothy Coulter, a favorite with Starlight audiences for her role in "Me and Juliet" this season, will be seen as Sarah Brown, a worker in the Save-A-Soul Mission. Playing opposite her will be Mitchell Gregg, Broadway and night club personality, as Sky Masterson.

Lou Nova, former boxer, will play Big Julie, a Broadway character. Others in the cast are Joseph Macaulay, Julie Oshions, Kathryn Albertson, Charles Reilly and Maury Tuckerman. Featured dancers will be Paula Lloyd and David Nillo.

Based on a story, "The Idyll of Miss Sarah Brown," by Damon Runyon, "Guys and Dolls" is filled with favorite Runyan characters and was a solid hit with New York audiences when it opened there. Its notable songs by Frank Loesser include "A Bushel and a Peck," "If I Were a Bell," "I've Never Been in Love Before," and "Sit Down, You're Rockin' the Boat."

During the course of the rollicking comedy Sky Masterson falls heavily for Sarah Brown, and Nathan Detroit is too busy running "the oldest established permanent floating crap game in New York" to be rushed into matrimony by Adelaide.

The girls finally get their men, but not before the action goes from New York to Havana and back to New York.

The scheduled bus trip to Kansas City to the baseball game and Starlight Theater performance this week-end has been cancelled. The Athletics will be at Detroit so there will be no game in K.C. Students who plan to make the trip at future date are urged to sign up in the Dean of Students' office by Tuesday of the week they plan to go. Tickets may also be secured by writing to the Starlight ticket office at 1010 Grand avenue, Kansas City, Mo.

## KABSU Completes Training Session

A training school for artificial breeding technicians has recently been completed at K-State. The event was part of the program of the Kansas Artificial Breeders association and was held to prepare technicians to assume positions in counties over the state.

Those attending the session studied breeding technique, physiology of the cow, record keeping, sanitation, and sire selection.

The conference was open to any of the 71 county Artificial Breeders associations. Earl Farmer, Ed Call, and Morris Ewing of the dairy husbandry department were in charge of the training program.

## State Ruling Calls Hole-In-One Skill

Rock Island, Ill. (U.P.)—Is it skill or just plain luck when a golfer makes a hole-in-one?

Obviously, Illinois Attorney General Latham Castle ruled, trying to make a hole-in-one "depends to a large extent upon what is commonly termed luck or chance."

But "the fact is equally obvious and more persuasive" that "considerable skill" is involved. Castle said.

Therefore, Castle said in a formal opinion that the local Junior Chamber of Commerce could go ahead with its hole-in-one contest without fear of violating gambling laws.

State's Attorney Bernard J. Moran said he agreed in principle, but there were exceptions to this logic.

## Multicolor Cars Bewilder Police

Oklahoma City (U.P.)—Police dispatchers here are complaining about the color schemes of the news automobiles.

It's getting to the point where a broadcast bulletin for a stolen car sounds like "a loud speaker at a style show," they moan.

Radiomna W. G. Nash explained that a car description nowadays is a tongue-twister.

"It used to be we could describe a stolen vehicle as black, green, blue or red," he said. "Now it's at least two-tone, and colors range from robin's egg blue and fuschia to lavender with a beige top."

What makes the situation even worse, said Nash, is that even the owner doesn't always know the color of his car.

## Hand That Fits Woman's Glove Is Larger

Sydney, Australia (U.P.)—Women's hands are getting bigger all the time—at least in Australia.

That's the verdict of W. T. Brown on retiring at 82 after 16 years of glove-buying and 57 years with a big Sydney department store.

"Years ago," said Brown, "size six was the most popular women's glove. Now we sell more of the six and three-quarters, and sevens."

Brown's theory is that the bigger hands are a result of "all this carrying of parcels our women-folk have to do these days."

Wisconsin dairy herds produce about one-seventh of the nation's milk output.

## Two Days Left To Sign For English Proficiency

English proficiency students have but two remaining days to sign record cards in their dean's office, Prof. Nellie Aberle, administrator of the exam, said yesterday.

"Students will not be allowed to take the exam unless these cards are signed by July 8," she warned.

The exam will be July 12 from 7 to 10 p.m. in Willard hall. Home Economics and Arts and Science students will meet in room 115. Agriculture, Engineering and Architecture, and Veterinary Medicine students will meet in room 101.

## Five Awards Given Painters

Five winners of fine arts scholarships in painting for the coming school year have been announced by John F. Helm Jr. of the department of architecture and allied arts.

Winners of \$100 scholarships include Cecil Ray Howard of Mulvane, who will be a freshman this fall; Martha DeGraff of Manhattan, a sophomore; and Harvey Rundquist of Assaria, a senior.

Fifty dollar awards will go to Carolyn Dyer of Riley, a sophomore; and Marilyn Kulp of Manhattan, a junior.

The American Institute of Cooperation will hold its 27th annual summer conference on farmer cooperative problems at Purdue University, Lafayette, Ind., Aug. 7-11.

KANSAS STATE COLLEGIAN

5—Thursday, July 7, 1955

### Boys' Baseball Goes 'Bigtime' in Manhattan

More than 425 baseball lovers in Manhattan play the national game through the city's boys baseball program.

Organized in 1948 because of the interest of the younger set in the game, the program has grown from four teams that year to 18 teams this summer.

The baseball program is operated under the Manhattan Recreation commission. Frank Anneberg is the director. The commission, which receives a one mill recreation tax from the various school district areas, spends about \$3,000 a year on the program.

The boys are placed into three leagues, according to age. Those who are 10 and 11 years old are classified as Cookie leagues. Those in the 12 and 13 year bracket are in the Biscuit league, and 14, 15, and 16 year old boys are in the Junior league.

The Cookie league has an exclusive diamond of its own with a pitching distance of 45 feet and 67-foot basepaths. Eight teams of 20 boys each compete in the Cookie league. Pitchers may work only five innings a week.

Free substitution is allowed, and at least 12 players must play in each game, with the entire bench seeing action at least once a week. Similar rules are followed in the other two leagues.

Six teams compete in the Biscuit league and four in the Junior league. All are sponsored by local groups such as civic and service organization.

The sponsors furnish uniforms and catcher's equipment; the Recreation Commission balls, bats, umpires' equipment, PA system, and other miscellaneous items, and the city the lights and facilities. Parents furnish the gloves, shoes, and of course the "young stars."

Free-will offerings taken during the games pay for about eighty per cent of the officiating.

The baseball program is guided by 30 local men who make up the Adult Board of Boys Baseball. According to Anneberg, the success of the entire organization is due largely to the efficient operation of this board whose members sacrifice time and labor in carrying out the program.

Three members of the board act as commissioners for the leagues. They are in charge of officials, coaches, scorekeepers, and players. The board is also responsible for obtaining coaches, umpires, and sponsors. Director Anneberg says that coaches for the teams are selected on their ability to understand and handle the boys, rather than on their own experience in the game.

Umpires in the league act as instructors as well as officials. They try to explain mistakes the boys make, and prevent any ill

feelings or discouragement among the young players.

The summer playing season for the boys is divided into three parts, the league season, city tournament, and open tourney.

The city tournament is a playoff of the teams within each league. In the open tournament, the Manhattan teams are host to teams from towns within 50 miles. This year the open tourney will be in early August with teams from approximately 20 towns in the "little world series."

Because of the interest shown by boys under the 10-year age limit of the Cookie league, a "midget clinic" is held four days a week for boys 8 and 9 years old. John Forsberg of the Recreation commission teaches the boys the fundamentals of baseball and gets them ready to play in the leagues. About 125 boys turn out for instruction.

In summing up the program, Anneberg says that "our object is not to find major league players. Instead," he said, "we try to teach the boys sportsmanship, rules, teamwork, and the fundamentals of baseball."

Next year, two more teams are expected to be added to the ranks of the progressive Manhattan boys baseball program, which is rated as one of the best of its kind in providing recreation for both the young players and the adult spectators.

#### 'Poor' Old Blind Man Financially Well Off

Cambridge, Mass. (U.P.)—Everybody felt sorry for blind 63-year-old Wallace Andrews.

Apparently almost penniless, he went to his job each day at the Work Shop Industry for the Blind.

Andrews died unexpectedly the other day. A search of his \$3-a-week room revealed hidden cash and securities totaling \$34,000.

## This Year's Gridders Out To Better Last Season's Record, Mertes Says

By GEORGE VOHS  
Of the Collegian Staff

Facing their toughest schedule in the past two years, the Wildcat gridders will be striving to better last year's fifth place in the Big Seven conference, Bernard (Bus) Mertes, head football coach, said yesterday.

Picking the toughest teams in the conference, Coach Mertes rated Oklahoma, Colorado, and Missouri respectively as the top three. K-State, Nebraska, Iowa State, and Kansas university will scramble for fourth, he said.

K-State's nonconference schedule of Iowa university, Marquette, Oklahoma A&M, and Wyoming "is the toughest schedule we have come up against for the past several years," he said.

The coach picked Iowa university, K-State's second foe, as the

top team in the Big Ten conference this year. "If we can get by Iowa with no serious injuries, we are going to do okay the rest of the season," he said.

Iowa State and Kansas university are going to be much tougher this year. KU has probably the outstanding back in the conference in Ralph Moody, he said.

The biggest problem facing Coach Mertes is finding a replacement for Corky Taylor. "Corky was responsible for over half of the team's passing offense as well as ground yardage gained last season," he said.

"We need speed and ability in the backfield," he said. The half-back spot is weakest with only two returning lettermen in Tony Addeo and Kenny Nesmith.

"We will have a good line despite losing four key regulars. Replacing losses at the end positions

is our biggest problem there," he said.

Chuck Zickefoose, 6-2, 270-pound letterman center, has been shifted to end and has shown promise there in spring drills, he said.

Coach Mertes will discard the team-a-quarter system of play in favor of the one-unit system this year. "We don't have 22 men of near equal ability so we will substitute to keep our best men on the firing line," he said.

The coach said he will stick to the split-T formation that K-State has utilized in recent seasons. The formation will be opened up somewhat, placing the ends and flankers a little wider than normal, he said.

"We can't pound it out man for man so we will have to use more speed in our attack," he said.

"Despite the tough schedule, the team is looking forward to the season. With 18 returning lettermen, 6 of them backs, and barring injuries, we are going to win ball games," he said.

Summing up his views on the schedule, Coach Mertes said, "You don't gain anything by playing a weaker school."

## Not Too Late To Sign For Summer Sports

There is still time to sign up for the summer intramural recreation program, Frank Myers, intramurals director, said yesterday.

Lack of interest has postponed the summer program but, with a few more entries, tennis, handball, and horseshoe tournaments can get underway, he said.

Students interested in playing in these tournaments can contact Myers at the intramurals office, room 114, in Ahearn gymnasium.

Lighted courts make it possible to play these tournaments at night. The tournaments would be double-elimination, with first-round winners competing in the champion-

ship bracket and losers in the consolation bracket, Myers said.

Handballs and horseshoes can be checked out at the temporary Student Union. Bracket pairings will be posted on the bulletin board there, Myers said.

Clarke School for the Deaf at Northampton, Mass., and New York City's Lexington School for the Deaf, both founded in 1867, started the movement in America to teach deaf children to speak and read lips.

## Auditors Make Survey of KS Records

A survey of business records of Kansas State college is being made by inspectors of the Kansas Department of Post Audit, R. H. Perry, comptroller, announced.

These inspectors make an annual visit to the College to audit the financial records, Mr. Perry said. They also visit the departments that take in money, such as the Cafeteria and the College Dairy.

After completing their survey, they will make suggestions to the various departments and issue their report to the Governor.

## Swabbies To Try Officer Procurement Next Week

A naval officer information team will be at the Temporary Student Union July 14, to discuss naval officer programs with students. C. E. Peters, director of the placement bureau announced.

All undergraduates wishing to apply for a commission in the naval reserves must be within 180 day of receiving their degrees, Peters said.

Applicants must be at least 19 but not more than 26. They must also meet the physical qualifications of height, weight, and vision.

Members of the naval reserve may apply for the officer candidate program, provided they have sufficient time to complete their application papers and appear for their examination and interviews before the date on which they must report for active duty.

Any member of a reserve component other than the naval reserve, or members of the national guard, are eligible to apply, provided they present a signed statement from an authorized official of their service.

Applicants will be given an officer's qualification test, Peters said. Candidates selected will be enlisted in the naval reserve for a period of four years. Upon completion of officer training school, they will be given further special

training in the field of their specialty.

All candidates are required to serve on active duty, if commissioned, for a period of three years, Peters said. Candidates who do not successfully complete the indoctrination course will be required to serve on active duty for a period consistent with current selective service legislation.

Upon completion of the required active duty, the candidates are subject to inactive duty and must maintain their reserve commission for at least eight years, including their period of active duty, Peters explained.

Members of other military components will be enlisted in a pay grade comparable to their previous service, according to recruiting instructions in effect at the time of enlistment.

The individual requirements for these programs are subject to change. The navy department may discontinue accepting applications in any given field when quotas have been met, Peters said.

### Bakery Nearly Ruined By Snooping Skunk

Cranston, R.I. (U.P.)—A skunk in a bakery is worse than a bull in a china closet. Collier's Bakery said a visit paid by a skunk made necessary immediate destruction of \$2,000 in baked goods and other products, replacement of several walls and repainting of the place.

Rio de Janeiro is growing at a rate of some 70,000 persons a year. Its population now is estimated at 2,650,000.

# Food Expert Says Kids Don't Get Enough to Eat

Nine out of ten Kansas children do not get enough foods recommended by nutrition experts, according to Abby Marlatt of the department of foods and nutrition.

Miss Marlatt based this assertion on the findings of a survey recently conducted among a group

of 9, 10, and 11-year-old Kansas children.

The Kansas investigations were part of a regional survey to determine the nutrition of different aged groups. Diets were studied for 645 children who were representative of students in 18 elementary schools

in small towns and rural areas of the state.

Teams of two visited the various schools over a two year period, spending a week at each school. The teams helped school children keep three-day records of their dietary habits, and interviewed parents concerning eating habits of their children.

"In general, the average child's diet meets the requirements for adequate nutrition, with the exception of calcium and ascorbic acid," Miss Marlatt commented.

Best source of calcium is milk, and Miss Marlatt urged that three cups a day were a minimum for a child of 10.

The survey showed only 3 of every 10 children were getting adequate amounts of milk.

Four of every 10 children were short on ascorbic acid, which is gotten principally through citrus fruits.

School lunch programs, by providing each child with a half pint of milk a day, did improve calcium intake, but increased the general percentage of ascorbic acid consumed by the child by only a small amount.

"This indicates that even good school lunch programs cannot make up for inadequate diets at home," Miss Marlatt noted.

"Children today are larger in stature, height, and weight than were the children of the same age in 1940," Miss Marlatt said.

## Statistics Show French Houses Getting Too Old

Paris (U.P.)—So you think you have a housing problem. Well, take a look around France:

More than a million French families live in houses built before the Battle of Waterloo (1815).

About 175,000 families live in houses built under the reign of Francis I (1515-1547).

Only one-third of the 20 million rural population of France live in home with running water.

An estimated 180,000 Parisians live in dwellings officially declared "unfit for habitation." They have no running water, no toilets, no gas, no electricity.

Another 2,000 Parisians have no homes at all. They sleep on subway gratings which throw up a continuous draft of warm air.

These facts are a startling reality behind the elegant boulevards, restaurants, and fashion

houses of Paris.

Thanks to the foresight of Napoleon III, Paris still ranks as the most beautiful city in the world. But Paris has rested on its laurels too long. The average age of its buildings is 83 years. In the provinces of France the average age of buildings is 120 years.

As far as buildings is concerned, Paris has left the rest of the world go by. For every seven housing units built in France since World War II, the British have built 21 and the Germans 24.

A report to the national assembly on the housing problem says France ranks 15th among modern nations in building activity. Why?

Frenchmen, according to economists, spend too much money for food.

They lavish 60 per cent of their income on it. They just rent, willing to cut down food bills to pay more rent.

The government froze rents after 1945 in an effort to keep down the cost of living. But food prices were allowed to soar. Landlords with fixed-rent apartments say they can't afford repairs, much less put up new buildings.

Most desperate is the plight of newlyweds. The national assembly was told:

"Twenty-five per cent of all couples who married in 1948 are still looking for shelter. They either live with their parents or they are forced to stay in hotels or furnished rooms without kitchens."

## Fencing Helps Girls Keep In Shape

New York—(U.P.)—America's fencing queen says more women should take up the sport for fun, health, grace and beauty.

"The women who fence for health and fun may never cop a bunch of medals," said Mrs. Maxine Mitchell, 37, of Los Angeles. "But she will improve her posture, her spirits, grace and figure."

Mrs. Mitchell is a glowing testimonial for her theory. A tall beautifully proportioned woman, she walks with the grace of a dancer and exudes good health and good spirit.

"Fencing is a sport for all ages," she said in an interview here. "Some of the best fencers I know are in their 60's."

Mrs. Mitchell took up fencing when she was 20. In two years, she was Pacific Coast champion. Since then, she has won 50 state, sectional and national titles, and the Pan-American championship for women. She recently successfully defended her national title at matches in New York.

She participated in the 1952 Olympics at Helsinki, finishing sixth. But in one match she defeated the current world titleholder, Hungary's Ilona Elek.

The queen of the foils intends to try for the title again in 1956 in Australia. If she wins, she will be the first American woman to hold the world championship.

Mrs. Mitchell, an engineering draftsman by profession, can beat most men including her husband at fencing.

"Boy you fouled him that time."

The most northern point in the United States is the Northwest Angle area of Minnesota which juts into surrounding Canada.

# Are You an Elmo Hausenpfeffer?

—Collegian photos by J. R. McLeland

**A MORNING IN THE LIFE** of Elmo Hausenpfeffer, proved by a biased poll to be a representative K-State student, unfolds before your eager eyes. Elmo, late to class, (left) can't find a parking spot. "What the heck," he says, "these folks won't need to get out before I leave." Later, after sleeping through his 7:30 class, he takes time out for a snack at the Student Union, but just can't lower himself to carrying his dirty dishes to the nearby tray. "They'll have it all cleaned up by the time I come back this afternoon," was the way he put it.

"HEY, I CAN'T FIND Alley Oop anywhere," Elmo mutters (left) as he carefully peruses the morning paper. He has finished reading the paper as he arrives at the bulletin board in front of Anderson hall (center). He discovers that the bulletin board has just the correct texture and consistency to serve as a target for some knife-sticking practice (he's a great Davy Crockett fan). Having exhausted the recreational facilities of the campus for one morning, Mrs. Hausenpfeffer's pride and joy ambles across the lawn on his way to class.

# Outdoor Stage Has Problems for Players

Outdoor staging will be featured in the K-State Players production of "Sabrina Fair," Donald F. Hermes, assistant professor of speech, said yesterday.

The play will be presented July 14 and 15 in the quadrangle north of Nichols gymnasium. Admission is free and everyone is welcome to attend.

The reason for producing the play outdoors is the belief that it will be cooler for the audience and play cast alike. The ground is even being treated to eliminate "chiggers," he said.

"Construction of the outdoor stage and lighting tower will begin July 11," he said.

Outdoor staging is much more difficult than ordinary indoor staging because sets cannot approach anything real, he said.

"An artificial tree would look silly outdoors when the audience can compare it with nearby authentic trees," he said.

Because of this, no attempt at realism in the sets will be made. Plain neutral colors will be used on the sets and the audience will

have to use their imagination, he said.

"The sets cannot be elaborated because they must be moved indoors in case of rain," he said. "The play will merely be postponed to the following day if it rains."

"The biggest problem that must be solved is lighting. A 15 to 20-foot tower must be constructed out of metal scaffolding. Even with the tower, there will be less light outdoors than normally provided for indoor productions because of technical problems, he said.

## Housewife Vacuums Dandelions in Front Yard

Carmi, Ill. (U.P.)—A motorist passing the home of Mrs. Harry L. Ashworth couldn't resist stopping and asking the Carmi housewife what she was doing when he saw her running an electric vacuum sweeper over her front lawn.

"Why the dandelions are about to take over the neighborhood," she said, "so I just hold the sweeper on top of a dandelion that has gone to seed and—whoosh—away goes the seed and an additional crop is curtailed."

## Book Shows Up \$168 Too Late

Corvallis, Ore. (U.P.)—A book missing for 32 years from the Oregon State college library turned up more than 3,000 miles away as part of a collection given to the University of Maine. Maine librarians returned the book when they noted the OSC stamp. Library officials here said they would forget the overdue fine, which at the rate of two cents a day would amount to \$168. The book, "Essais Sur la Vegetation," was published in France in 1809.

Patronize Collegian advertisers—they are your friends.

## If Fish Don't Bite, Name The Worms

Washington (U.P.)—The U.S. Fish and Wildlife Service reports the case of the Louisianan who prized the fish-worms he raised for anglers so highly that he got the government to give them a registered trademark.

The man wrote to the U.S. Patent Office and said his worms were very special and needed a special name. He asked if he could register them as "Louisiana Pinks" and restrain any other worm raiser from using that name.

## Carotene in Alfalfa Being Studied by Chemistry Prof

By PAUL BOCCUIN

The preservation of carotene in alfalfa is being studied by Dr. Howard L. Mitchell, associate professor of chemistry.

Carotene is a red crystalline substance which gives carrots and other plants their yellow color. Alfalfa is a good source of carotene, but its yellow color cannot be seen because of its green leaves, Dr. Mitchell said.

The research was started in 1943 by Dr. Ralph E. Silker and Dr. William G. Schrenk of the chemistry department along with the Kansas Industrial Development commission.

Dehydrated alfalfa meal is added to mixed feeds because it supplies vitamin A in the form of carotene, Dr. Mitchell said. When the carotene is eaten by an animal, it is changed into vitamin A.

The mixed feed industry generally demands that alfalfa meal contain 100 thousand units of carotene per pound of vitamin A, Dr. Mitchell said. Therefore, preserving the carotene of alfalfa meal is one of the major problems of the dehydration industry.

FOUR 1955 graduates of Kansas high schools were named today as winners of \$200 Kroger scholarships to K-State this fall.

Winners are Peggy Bunyan, Ottawa; Sandra Sue Jones, Jetmore; Thomas E. Apleby, Cedar Vale; and Laurice Margheim, Ness City.

DR. FLOYD W. SMITH of the agronomy department was re-elected secretary-treasurer of the North-Central Branch of the American Society of Agronomy for the coming year at the annual

meeting of the branch at Iowa State college this week.

JOHN KELTNER, head of the department of speech has been invited to present a special lecture at Northwestern University, Evanston, Ill., July 12 on "Communication in Group Processes."

PROF. A. B. SAGESER of the department of history, government, and philosophy, is author of an article, "Building the Main Line of the Missouri Pacific Through Kansas," which is in the spring issue of the Kansas Historical Quarterly, just off the press.

The article emphasizes the speed with which the railroad line was built and the maneuvering necessary to get the line constructed.

## Don't Let Fire Interfere When Playing Bridge

Racine, Wis. (U.P.)—Bridge players are well known for the ability to concentrate on their game, but Racine's Duplicate Bridge Club carried the thing to an extreme recently.

The members were playing at the Elks Club when the building caught fire. Firemen rushed in with extinguishers as smoke poured from a washroom, but the bridge games in progress continued without interruption.

Amazed firemen reported that a few of the players glanced up briefly when the firemen trooped in, but no one left his seat.

## K-State Players' Production Of 'Sabrina Fair' To Be Presented Tonight at 8:30

An outdoor production of "Sabrina Fair" will be presented by the K-State Players in the quadrangle north of Nichols gym at 8:30 tonight. Admission is free.

Featuring Rachel Pickett as Sabrina Fairchild, and Merton McIlvain as Linus Larrabee, Jr., in the lead roles, the play has a cast of 12.

In the cast are Sue Hayes as

Maude Larrabee; Mary Jean Thomas as Julia Ward McKinlock; Monty Pitner as Linus Larrabee; Sally A. Geistfeld as Margaret; and Carl Rehba as David Larrabee.

Pictures on Page 5.

Others are Carla Johnson as Gretchen; Marilyn Pence, a young woman; Willis F. Brenner, a

young man; Sue Quinn, another young woman; and Charles Clelland, Paul D'Argenson.

Director of the play is Earl Hoover, professor of speech.

The story of "Sabrina Fair," a four-act romantic comedy, is a modern version of the Cinderella fable. Sabrina Fairchild is the daughter of the chauffeur for the wealthy Larrabees.

She returns home after five years in Paris, where she has been employed as a secretary in the United States overseas branch. She wants to find out if she is still in love with the elder Larrabee son, Linus, who has taken over control of the family fortune.

Once she is home, a younger Larrabee son pursues her, aided by his brother. A rich Frenchman who follows Sabrina from Paris, also trying to win her hand, complicates the situation.

Both young men court Sabrina hopefully. But it is the elder son, Linus, she loves and finally wins after the family learns that Sabrina's father is a millionaire too.

Because of the outdoor staging, no attempt at realism in sets will be made. Plain colors will be used on the sets, and the audience will have to use its imagination. Prof. Donald Hermes, who is in charge of scenery and lighting, said.

In case of rain, the play will be postponed to the following night, he added.

The original production of "Sabrina Fair" starred Joseph Cotton and Margaret Sullivan during its Broadway run.

## Grad Students To Picnic July 22

Graduate Students association will have a watermelon picnic at Top of the World on July 22 at 7 p.m., according to Ben Cooper, president. Admission will be free to members.

## Seven Coeds Enter Contest For KS Queen

Seven coeds have entered the "Miss K-State" contest to be held Thursday night, July 21, at the municipal swimming pool. Deadline for entries is tomorrow at 5 p.m.

Entrants are Alda Schmutz, HE Jr from Kansas City; Barbara Lowe, HE Soph from Winfield; Sandra Morissette, Art Soph from Beloit; Nancy Blackburn, MEI Jr from Stafford; Phyllis Evans, ChW Jr from Fort Leavenworth; Helen Morris, HE Sr from Coldwater; and Karen Milner, EED Soph from Belleville.

Any coed enrolled in more than 3 credit hours is eligible to compete in the contest, which will be conducted in conjunction with the Manhattan water carnival. Last year, nearly 4,000 persons attended the aqua show.

The winner of the "Miss K-State" contest will receive numerous prizes from Collegian advertisers.

The prizes will be announced the night of the contest and in next week's Collegian, which will be published on Friday instead of Thursday.

"Miss K-State" also will be entered in the Kansas section of the American College Queen contest.

## Railroad Struggle In Tuesday Film

A free movie, "The Tittfield Thunderbolt," will be shown in East Stadium next Tuesday evening at 8.

The movie is a story of an ancient single-track railway's fight for survival against a modern busline.

Stanley Holloway, George Relph, Nauton Wayne, and John Gregson are stars in the film.

## Power Cable Will Relieve Sub-station

The College maintenance staff recently directed installation of a 2,300-volt electric cable from the power plant to Kedzie hall. R. F. Gingrich, maintenance superintendent, said.

The cable will relieve the load on the sub-station in Seaton hall, Gingrich said. It also will serve as an emergency outlet if the old cable is broken or wears out.

The amount of electricity used by the College has increased 67 per cent during the past 7 years, due to expanding facilities and increased use of electrical equipment, Gingrich said.

## World's Future Depends On Youth, Speaker Says

The decision whether the present civilization will crumble or progress in the next 50 years lies upon the shoulders of today's young people, educator Robert J. Havighurst, told K-Staters at assembly Tuesday morning.

Youth has two choices in the matter—a despairing view that the world will get much worse and the most one can do is hope; or a view of faith, work, and reason with youth learning from the past but not repeating mistakes of the past, Havighurst said.

Stressing the latter view as the road to progress, Havighurst advised young people to "turn a skeptical eye on the leaders of today, because they may not have the answers for tomorrow."

"Young people must search for new methods not represented by present leaders," he went on.

The oncoming generation must lay foundations on brotherhood and abundance, he said. They must build institutions based on knowledge, independence, and loyalty if the next half century finds the world progressing instead of crumbling due to "failure of nerve," he added.

We now may be facing a period where "failure of nerve" will allow the present civilization to crumble as did the Greek civilization of long ago, or we may be on the verge of a marvelous new world of progress, Havighurst believes.

"The next 50 years will tell," he said. "At any rate, the world won't get better until the young people make it better."

Dr. Havighurst is an educator and research scientist in human relations and human development. He is professor of education and member of the committee on human development at the University of Chicago.

## Englishman To Speak At Assembly

Lecturer Donald Grant of London, England, will tell how "Dynamic Forces Transform the World" at the fifth summer-school assembly. This assembly will be Monday, July 18, at 9:20 a.m. in the College auditorium.

"His appearances here and abroad have been so successful that he has appeared as guest lecturer in American colleges for the Institute of International Education for 5 consecutive years," A. L. Pugsley, dean of administrations, said.

The lecture topic will include a scrutiny of the United States, Russia, Asia, Africa, and Britain in today's international situations.

Grant is from London. Following World War I, he was director of World University service, and first editor of a student international three-language magazine, "Vox Studentium." He also was director of a New Zealand student Christian movement.

A World War II lecturer for the British Ministry of Information, Grant served in positions that provided insight useful in analyzing world affairs, Dean Pugsley said.

"Mr. Grant will be at Recreation center for a question-and-answer period following the assembly," Pugsley said.

The usual schedule of shortened classes will be followed.

## Production of 'Years Ago' To Feature Unusual Stage

By GARY NEILAN

A stage production titled "Years Ago" will be presented on the K-State campus July 21 in an ancient Greek fashion.

The audience will sit on three sides of the stage, which will have settings but no scenery. This production, the first of its type ever presented at K-State, will be staged on the quadrangle north of Nichols gym at 8:30. Admission is free.

"Years Ago" is a period play which takes place in the early 1900's. It is the true story of 16-year-old Ruth Gordon Jones and her ambitions to become a stage star.

The plot is based on her efforts to persuade her father to let her go to New York to become an actress.

The girl's father is a strict,

old-fashioned man who wants his daughter to become a physical culturist. The mother is sympathetic, but doesn't have much to say about the situation.

With her heart set on appearing on the stage, the young girl writes to actresses and reads stories about them.

The father, still not understanding his daughter's desires (she's afraid to tell him), brings in a physical education instructor "from out to Brooklyn." Then he secures a man from the YMCA to push the physical education idea.

The daughter and her friends try in many ways to trick the old man into letting her have her wish. These friends, along with a cat, provide many laughs (the cat will be a real, live creature).

The play is a student production. Rita Peterson, Sp Gr, is

director, and is assisted by Vernille Jones.

The daughter, Ruth Gordon Jones, is to be played by Virginia Eaton.

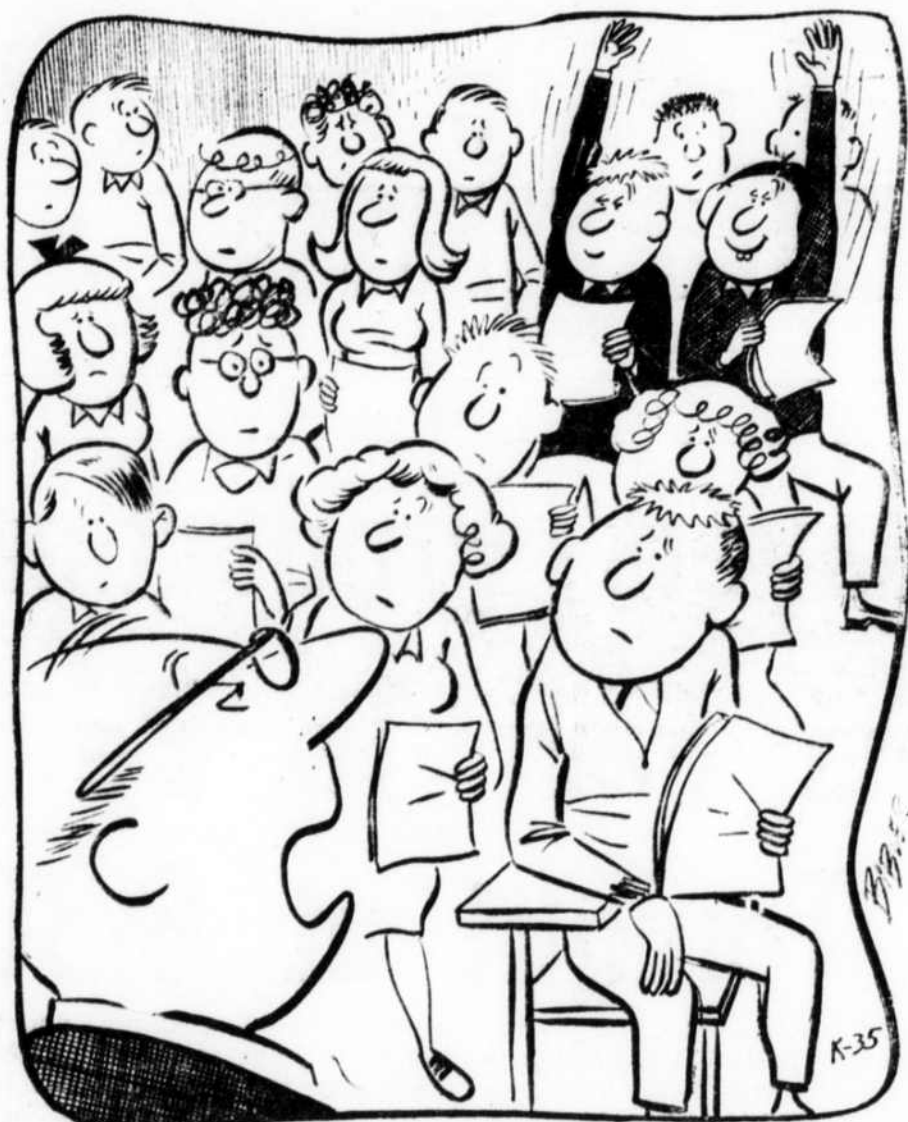

Clinton Jones, the father, is played by Gordon Jump; Verdel Wilson plays the mother; Ruth's friend, Katherine Follett, is played by Alice Austin.

Another friend, Anna Witham, is played by Donna Brown; Bill Brenner acts out the part of Fred Whitmarsh, Ruth's beau; George Hooper plays the part of Mr. Sparrow, who owned a wagon.

Mr. Bagley, from the YMCA, is played by Lynn McKimm; Marilyn Pence takes the role of Miss Glavin, the physical education instructor.

The cat in the play belongs to Earl G. Hoover of the speech department.

"Now that you have exchanged and graded papers—do we have anyone who made a '100'?"

### A Good Move

## Students' Ideas Put into Course

Introduction to Humanities I and II are required for graduation in more than half of the curriculums listed in the K-State Student Catalog.

This 8-credit-hour humanities program has been one of the favorite subjects for student griping since its beginning here at the end of World War II.

Two years ago, students completing the course, which was then called Man and the Cultural World, were given questionnaires with which they were to express their opinions of the course.

**They weren't asked to sign them or in any way indicate whose opinions were expressed.**

**A new K-State humanities program, to begin this September, has been based on the results of those student evaluations.**

The most direct physical change in the new setup is the substitution of one lecture and three recitation periods a week, in place of the three lectures and two recitation periods previously used.

Each of the first four weeks of the new program will be devoted to the introduction of a major division of the humanities, such as art and architecture, literature, music, etc. The emphasis is to be placed on appreciation.

Just as surely as there are those who will never be satisfied with any kind of humanities course, there are probably some who liked the old arrangement with its emphasis on lectures, slides, and actual demonstration.

**Probably no one will miss the big green anthology of world literature so unlovingly lugged around by past humanities students. They especially should welcome its demise when they learn that it will be replaced by several pocket books.**

But, whether the new course will continue to be the subject of student gunching; whether such gunching is a sign of displeasure, intense interest, or just healthy normality; whether some of the stubbornly uninterested can be converted or not; the fact remains that student opinion has been consulted and, in the main, complied with before any decisive action was taken.

—Richard Carr

## IU Freshmen Told To Walk

By HAROLD KANNARR

Freshmen at Indiana university will be denied possession and use of automobiles beginning this fall, the university's board of trustees has announced.

"The action has been taken because it has been our experience that the possession and use of an automobile is a distracting influence to serious study and a serious handicap to superior scholastic achievement," the dean of students said.

Freshmen at Purdue university not only have been restricted from using automobiles—they can't use motorcycles, motor scooters, or motor bikes.

The new ruling results from lack of parking space, and is not an attempt to restrict student privileges, the dean of men said. The university decided to take the action in the interest of community relations, he added.

Students at Indiana U who failed to return to class on Tuesday after the July 4 vacation were subject to loss of one-half credit hour.

The dean of students said the half credit would be deducted from total credits earned at the university.

Students absent for personal convenience, such as travel or employment, had little chance of having the penalty waived, the dean said.

**There is one more thing that every motorist should know about—the birds and the bees.**

**Birds, bees, and flying insects cause hundreds of highway accidents each year, according to the vice-president of a credit corporation that helps about a million families finance cars.**

Birds hitting windshields cause drivers to duck and lose control of their cars, he said. Slanted safety-glass windshields generally will deflect the bird, so don't get nervous and duck, he advised.

A bee or a wasp in the car is another matter. Pull the car to the side of the road. Roll down all the windows except one, and gently shoo the insect out with a folded newspaper, road map, or anything handy. If the beast can't be coaxed out, bide your time and swat it.—The Collegio.

Somebody goofed, according to an editorial in the Colorado Daily.

It seems that students use an elevator at the college for a lovers' lane. The Daily said:

"Fifteen minutes later, the door in front of you slowly opens. Emerging from the darkened interior you see two students. One, a man, seems to be wiping something from his lips. The other (you guess the gender) is smoothing her hair as she walks out and smiles at you."

Students at Minnesota U will soon have transportation from the parking lot to the campus.

**Walkalators (moving sidewalks) 1,100 feet in length are to be installed in a proposed bridge. Parking problems are expected to be reduced by this structure and by the off-campus parking it provides.**

Going to school in the U.S. is a privilege, according to an editorial in the Collegio, student publication of Kansas State Teacher's college at Pittsburg.

Although someone at Pittsburg State said, "I have to teach all year to make enough to attend summer school," the Collegio said that he probably failed to realize just how fortunate citizens of the U.S. are when it comes to education.

Due to mass education of Americans, it takes eight Chinese to fill the gap of one American GI, the paper said.

## Leisure Corner

By DARREL MILLER

(Substituting for Crazy Auto)

I am speechless, astounded, flabbergasted. I don't know where to begin. Crazy Auto has gone on vacation, and I have been ordered to write this week's Leisure Corner column.

You realize, of course, that the task before me is an impossible one. "How could anyone hope to write with the feeling, the style, and the irresistible touch of the incomparable Crazy Auto?" you sneer. I humbly admit that I'm not equal to the task, and I beg your indulgence in my puny literary effort.

After carefully mulling over the situation for two or three minutes, I have decided to do my reviews and criticisms in a simple vein and about simple subjects. I feel that in this will have little trouble, and the editor agrees. I would do a literary column if I could, but I have had only American Literature I.

My closest approach to culture came one evening while I was sitting on the banks of the Rhine, drinking apple cider, and smoking a King Edward. As I watched the quiet waters rolling from the Alps to the great North Sea, I could feel the meaning of the entire universe surging through my brain, but neglected to write it down.

**So this column will of necessity be directed toward the common man—the type of fellow who sends back a rare filet mignon because it is too bloody; the type who reads and listens to and does all of the wrong things. But, man, does he have fun!**

Which reminds me, I did meet a cultured man once. He had just returned from Paris. When I asked him about it, he replied: "Ah, yes. Notre-Dame; the Folies Bergere; Sacre Coeur; the Folies Bergere; l'arc de triomphe de l'Etoile; the Folies Bergere; l'Opera; the Folies Bergere; la place de la Concorde; the Folies Bergere." And so on and on and on.

It might be apropos (that's a good word, I'll have to remember it), it might be apropos at this point to review something.

So, have you heard Stan Freeburg's recording of "Flight of the Lone Psychiatrist?" It's the height of something or other, I think. And Stan really puts a lot of that something or other into his recordings. This one is a takeoff on the Lone Ranger, and it has taken off quite a ways.

**The Lone Psychiatrist's horse, instead of neighing, cackles like a hen. When asked why he, a psychiatrist, doesn't cure the horse of thinking it's a chicken, he replies, "I would, but I need the eggs." Oh, it's just loaded with such gems.**

It is my considered opinion that in "The Lone Psychiatrist" Stan Freeburg lives up to the high standard he set with his immortal "Saint George and the Dragon Net."

While on the subject of records, there is one platter I'm awaiting breathlessly. Surely Homer and Jethro, those master craftsmen who turned out "You Ewe, You" and "Houn' Dog in the Window," will come up with a takeoff on "Unchained Melody." They could call it "Unclaimed Melody."

While passing a book store recently, I was astounded to see **The Compleat Pogo** on sale. Actually, Walt Kelly didn't expect to turn out **The Compleat Pogo** for several thousand years yet, so this is quite a scoop. When **The Incomplete Pogo** was published a couple of years ago, the publishers noted:

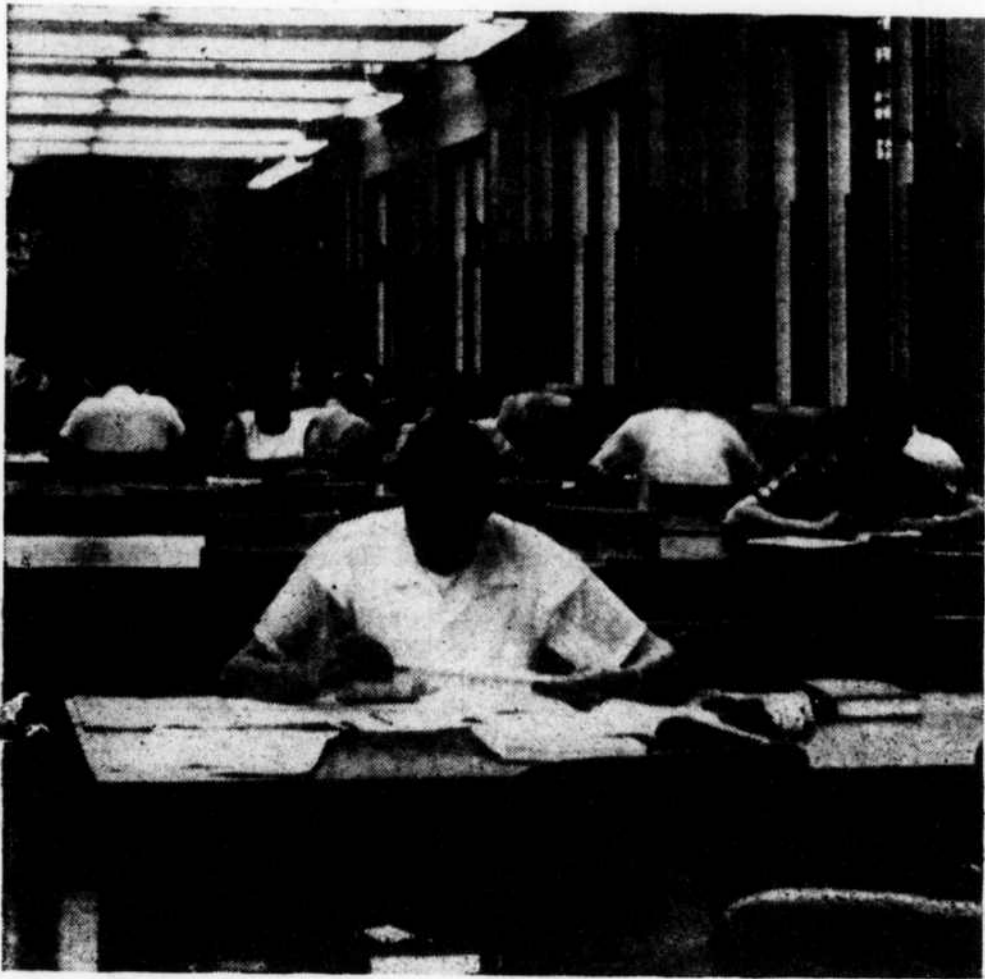

"It isn't about everything, just some things. That's why it is called **The Incomplete Pogo**. **The Compleat Pogo** will have to wait for a few thousand years when we know the answers to everything instead of just getting around, as we are now, to a foggy idea of what some of the questions are."

I guess Walt Kelly found a shortcut.

So now, to use the immortal words of the great Don Quijote, "Adios, amigos."

## Library Air Conditioners Help Students Beat Heat

Appearances indicate that the class-reserve reading room of Farrell library is the place students go to escape the heat since air conditioners were installed there.

## Life of Indians Is on Display At KS Library

How the plains Indians lived, and the tools they used are shown in an exhibit recently set up in the third-floor gallery of the College library.

The exhibit, prepared under the direction of Prof. Linwood Hodgdon, cultural anthropology instructor, includes photographs of a Republican earth lodge excavated just below Tuttle Creek dam site in the summer of 1953.

A model of a typical earth lodge, a display of Indian implements and the stone tools with which they were made, and other historical materials also are included.

Items displayed are from collections donated or loaned to K-State by Mr. and Mrs. Charles Darnell of Topeka, William Darnell of Junction City, Mr. and Mrs. William Des Jardins of Manhattan, Mrs. Floyd Schultz of Clay Center, Professor Hodgdon, and the University of Nebraska department of anthropology.

## Local Band Concert Set For Tonight

The Manhattan municipal band will present a concert in the city park tonight at 8:30. Soloists will be John Brennehan and Gary Neilan.

Brennehan, a professor of architecture, will sing "I Love You" and "You'll Never Walk Alone." He has previously appeared in a number of K-State productions.

Neilan will be a drum soloist. He will play "Sandpaper Ballet," a new number by Leroy Anderson. Neilan is a K-State student and a member of the College band.

Also featured will be a trumpet trio of band members Leroy Lederer, Robert Lundquist, and David Frey. They will play "Three Gabriellos."

The band will perform the march "Lights Out," by McCoy; "Poet and Peasant Overture," Suppe; "Themes from Second Concerto," Rachmaninoff; "Dancing in the Dark," Schwartz; "Lassus Trombone," Fillmore; "I'm an Old Cowhand," Mercer; "Tico-Tico," Abreu; "Vilia," Lehar; and "On the Mall," Goldman.

## Geology Students Tour Colorado

Ten geology graduate students and their instructor recently completed a five-week tour of Colorado and neighboring states.

H. V. Beck, assistant professor of geology and geography, was in charge of the group. The purpose of the tour was to acquaint the students with different methods of mapping rock units and structures.

The students were especially interested in uranium mines west of Canyon City, Beck said. Another high spot was the underground marmatite mill at Gilman, Colo., Beck said.

"Our most thrilling sight was the land of extinct volcanoes in northeastern New Mexico," he added.

## Parting Was So Sweet, But Cost Like Heck

Vermillion, S.D. (U.P.)—University of South Dakota coeds prolonged their goodbys to their dates one night—for a good cause.

Their dates had to pay a cent a minute for keeping the coeds out after the curfew.

The money went for the benefit of the university chapel fund.

But there was one catch—only a half hour was permitted for prolonging the goodnight.

## Campus Briefs

TWO K-STATE staff members attended a college instructors' conference recently at Wichita university.

Representing K-State were E. M. Gerritz, director of admissions, and S. B. Morris, director of the student counseling center.

Purpose of the conference was to discuss ways to improve high school and college relations.

DEAN M. A. DURLAND of the School of Engineering received notice Monday of his appointment by Gov. Fred Hall as a member of the state board of engineering examiners. His term began July 1 and will end July 1, 1959.

Durland explained that it was the duty of this board to examine and license all those who desire to become professional engineers in Kansas.

DR. ERLE BARTLEY of the dairy husbandry department left June 12 to visit his parents on the island of Trinidad in the British West Indies.

Bartley and his family drove to Miami, then flew to Port of Spain, Trinidad.

DR. ARTHUR Brayfield, head of the department of psychology, will teach courses in testing and counseling during the second summer session at Colorado A&M.

Brayfield currently is offering work in occupational information at K-State. In previous summers he has taught at Minnesota, California, Montana, and Colorado A&M.

RALPH NEVINS, associate professor in the department of mechanical engineering, is on a three months' leave from the College to do research work at the Minneapolis-Honeywell plant in Minneapolis, Minn.

He is studying in the department for developing new instruments for the company.

DR. DONALD JOHNSON, a veterinary pathologist from Texas A&M, will join the K-State staff as a professor in the department of pathology. Dr. M. J. Twiehaus, head of the department, said.

Johnson received his doctorate of veterinary medicine from Texas A&M in 1944, and his mas-

ter of science in veterinary pathology from the same school in 1953.

MORRIS EWING and Ed Call of the dairy husbandry department will represent K-State at several Kansas county artificial breeding association conferences in the next two weeks.

ENGINEERING faculty members attended an American Society of Engineering Education conference at Pennsylvania State university last month.

They are: Dean M. A. Durland, Prof. Arthur O. Flinnier, Prof. Linn Helander, Prof. Orville D. Hunt, Prof. Reed F. Morse, Prof. Floyd A. Smutz, Prof. Stuart Whitcomb, Assistant Dean Richard C. Potter, and Prof. Russell M. Kerchner.

# Collection of Game Heads To Be Added to Museum

A collection of 15 to 20 African and North American game heads is due to arrive here soon for addition to the museum in Fairchild hall, according to Earl H. Herrick, professor of zoology.

"The game heads were given us by the widow of Alfred M. Collins, a contemporary of Theodore Roosevelt," Herrick said. They are from his private collection.

The collection will include such specimens as the African cape buffalo, a leech, an ibex, a bison, an elk, and others, he said.

Professor Herrick was instru-

mental in getting the collection for the Fairchild museum through connections with the American museum in New York city.

As a hobby, Herrick has contributed hundreds of mice, ground squirrels, and shrews to the museum, plus dozens of other small mammals. "They were aware of my interest in horns, so when the offer came it was passed on to me," he said.

"We were offered a collection of 100 heads, but we couldn't handle that many because of the shipping costs. What we actually

are getting for the museum are the remnants of this larger group," he said.

"The largest specimen in the Collins' collection was a 9-foot by 11-foot elephant head. This was much too large for us to handle," he said.

Professor Herrick said part of the heads are being shipped here from Philadelphia, and another portion from Denver, where they were sent for reconditioning.

Construction of panels on the balcony of the Fairchild museum is under way to accommodate the collection, he said.

# Laws of Kansas Not Dry Reading.

Lighter-reading to most people would be a joke book, or the funnies in the local newspaper. Sel-dom would they refer to a book containing the latest laws passed by the state legislature.

While searching for dry facts, someone found that they weren't so dry.

For instance, in the list of miscellaneous appropriations made by the legislature in 1955, records show that a Garden City man will receive \$343.66 from the state's general revenue fund for repairs on an irrigation well. The well was damaged during a test by members of the department of agricultural engineering of Kansas State College.

A Topeka store will receive \$135.00 for 50 dozen packages of pencils used by the House of Representatives.

A bill of \$67.20 was for distilled water furnished to the House of Representatives.

A Topeka woman will receive \$4.10 for laundering the dust mops of the House, and another firm will get \$45.50 for furnishing 12 dozen waste baskets for the legislators.

## ME Freshman First To Get \$3,000 Grant

A 1955 graduate of Dickinson County community high school of Chapman will be the first K-State engineering student to hold the \$3,000 four-year scholarship established recently by J. B. Ehrsam and Sons Manufacturing Co. of Enterprise.

Curt Zeigler, son of Mr. and Mrs. Lewis Zeigler of Abilene, will use the scholarship in the mechanical engineering curriculum here this fall, Max W. Milbourn, chairman of the general scholarship committee, said today.

Zeigler ranked in the upper 10 per cent of his class.

In addition to his annual \$750 scholarship award, Zeigler will be eligible for full-time summer employment with the Ehrsam company.

The scholarship is based on precollege tests, high-school records, and the candidate's character, leadership, and need. The scholarship is renewable each year if the student maintains a "B" average.

Patronize Collegian advertisers—they are your friends.

## 1,000 Expected To Pre-enroll

About 150 high school graduates have come to K-State for pre-enrollment for the fall session, E. M. Gerritz, registrar, said.

The pre-enrollment program started July 5 and will continue until August 12, Gerritz said. About 30 students are pre-enrolled each day. About 1,000 are expected to pre-enroll this summer, he said.

Students meet in Anderson hall at 9 each morning to receive instructions concerning the day's activities, Gerritz said.

They next go to the registrar's office to pick up IBM cards. They then go to Student Health to take physical examinations.

After the physicals, they are sent to their respective deans, Gerritz explained. They then return to the IBM room in Anderson to turn in their cards.

## 'Dance Theater-Berlin' To Be Here October 17

"Dance Theater-Berlin" will be the first presentation of next year's Manhattan Artist Series, according to Luther Leavengood, music department head.

The first program will be on October 17 in the College auditorium.

Gisela Dege and Gert Reinholm are the stars of this play, which are produced in Germany. Fourteen of free Berlin's best dancers will take part, Leavengood said.

The play is the first of its kind to be presented in the United States. In free Berlin, Western ideals are thriving in the face of totalitarian threat, Leavengood said, and this spirit is illustrated in the music, dances, and drama of that city.

The dancers first became famous in the summer of 1953 at the International Festival in Berlin. Orchestras, soloists, opera

companies, and ballet ensembles from both Europe and America, participated in this event.

Though her activity is centered in West Berlin, where she conducts a dance academy, Miss Gsovsky has produced ballets for the leading opera houses of Europe and South America.

She has written more than 20 principal works, many set to music written for her by contemporary composers.

## Cobetckoe Illamilahckoe Is 'Horrible' Champagne

Rheims, France (U.P.)—Henri Germain, president of the Rheims football team, returned from matches in Russia to report that the Soviets are now making their own champagne.

They call it cobetckoe Illamilahckoe, but Germain called it "Horrible!—A very poor quality of sparkling wine."

French law states that the only wine that can be called "champagne" must come from grapes grown in the Champagne district of France and must be made from these grapes in a very specific way.

## Four EE Frosh Win \$250 Grants

Four Kansas high school graduates of 1955 who plan to enroll in electrical engineering here, are winners of \$250 scholarships offered by the Kansas chapter of National Electrical Contractors association.

The winners are George Serpan, La Crosse; Russell Case, Highland Park, Topeka; Larry Jones, Hutchinson; and Paul Bader, Wyandotte.

This is the first time the electrical contractors' scholarships have been awarded. Recipients must be residents of Kansas.

# Oldtimer, Newcomer Star in Play

By GEORGE VOHS

Tonight's production of "Sabrina Fair" will bring together in the leading roles an oldtimer and a newcomer to the K-State stage.

Appearing for the first time in a college play will be Rachel Pickett, MEI Soph, who will star as Sabrina Fairchild. In the play, Rachel will portray a woman about 26 years old—happy, enthusiastic, and seemingly in love with life.

Rachel is hoping to teach music on an elementary level when she graduates, but plans to do as much acting as possible while at K-State.

"I have always been interested in acting and like performing in front of audiences. I am definitely looking forward to the play tonight and hope I can do my part justice," she said.

Rachel said she had little trouble learning her lines for the play. The hardest part was a paragraph in French. "I speak French too much like Spanish," she said.

Rachel says there is a big difference between high-school and college acting. "In high school they told me what action to do with each line. In college, Mr. Hoover leaves that up to the individual," she said.

The other lead role brings Merton McIlvain, Sp Gr, back into the limelight for a third time. Merton will portray Linus Larrabee, Jr., a self-made man who took over the old family business and turned it into an empire.

The college production of "Mr. Roberts" first interested Merton in acting. Like Rachel, in his first college play he starred in the lead role.

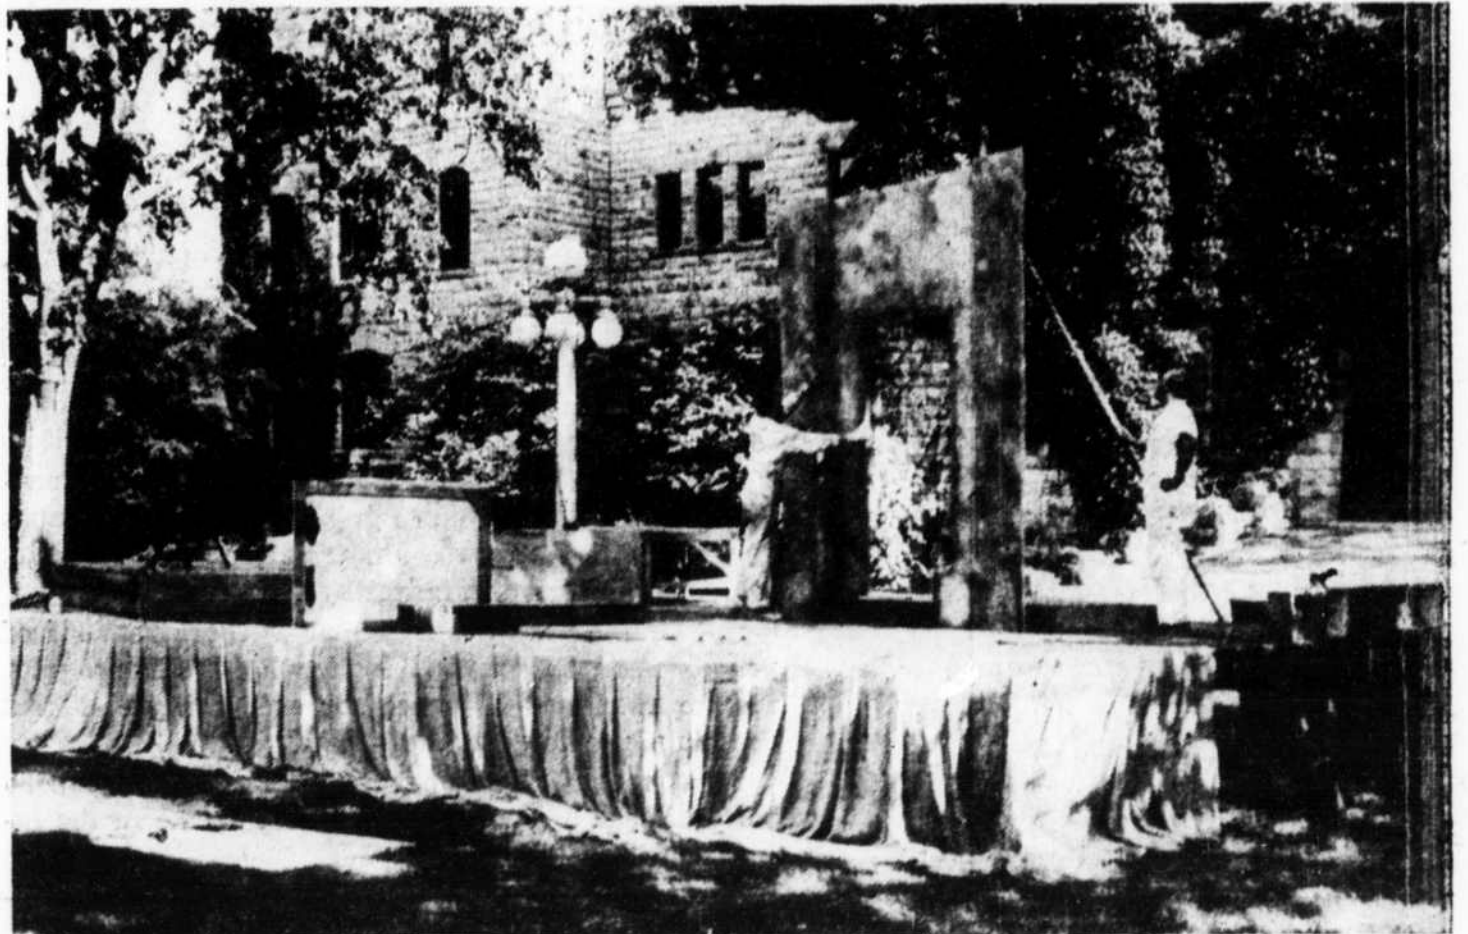

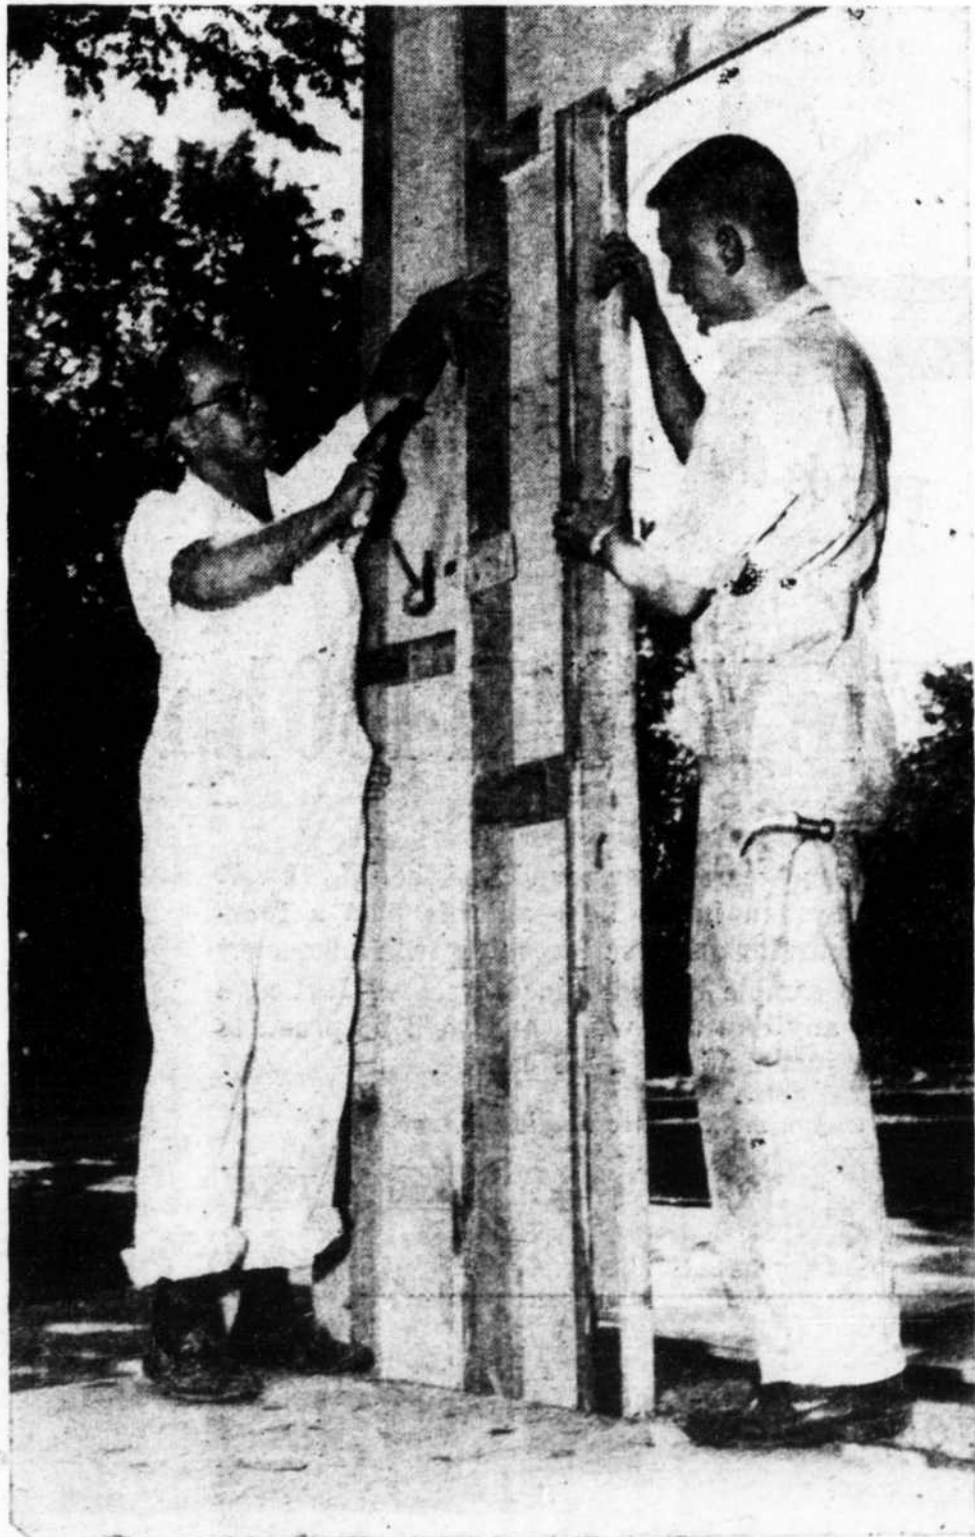

Merton is taking graduate work in radio and television. He plans to go into radio work when he leaves college, and hopes to use experience gained there as a springboard into television.

Like many others, Merton's college career was interrupted by a two-year hitch of army life in Korea from 1950 to 1952.

"I get quite a kick out of acting," he said. "This play has a good cast, even though several of them are appearing in their first college play. This will be a first for me, too, because I have never acted outdoors."

"WILL YOU DO SOMETHING FOR ME?" Merton McIlvain asks Rachel Pickett (above) as he lifts her to a seat on a wall during the course of 'Sabrina Fair.' The two have the leading parts in the play, which is to be presented tonight at 8:30 by the K-State Players. Mary Jean Thomas, Sue Hayes, and Carl Rehba (right) relax as they discuss Carl's ex-wife during a scene in the first act.

Collegian photos by J. R. McLeland

**SETTING THE STAGE**—Prof. Donald Hermes and Dick Rice nail together a section of the scenery (left) on the outdoor stage north of Nichols gym (above). No attempt at realism in settings will be made for the outdoor production, and the audience will have to use its imagination, Professor Hermes said. No admission will be charged for this production.

### Athletics Surprise Fans By Grabbing Sixth Place

Kansas City's Athletics have led the American league only once so far this season. No one expects them to come even close to that top spot again this year.

Still, thus far it has been a pleasing season for A's manager Lou Boudreau.

When he came to K-State in January to speak to local fans, Boudreau was quick to stress that Kansas City would not have a good team this year.

Boudreau pointed out to K-Staters that they could come to Kansas City to see the Yankees, Indians, and other top teams play. He promised that the A's organization would build for a champion, if the fans backed the team and made building financially possible.

The A's won their first game, and were tied with three other teams for first place. It was then that they led the league.

In Memphis, a former resident of Kansas City called the sports editor and asked him, as a favor, to move the A's to the top of the list.

So the A's led the American league in the second edition.

But their moment of glory was short. As the season progressed the A's settled down in seventh place, behind Washington and ahead of Baltimore. Midwesterners were pleased that the A's were ahead of Baltimore, since the experts had predicted that they would be in last place.

Then, on June 17 and 18, the A's brought wider smiles to the faces of their fans. On June 17, they whipped Washington, 4-2, and edged within 7 percentage points of the Senators. The next day, they outslugged the Senators, 9-4, and moved into sixth place.

At the all-star-game break Tuesday, considered to be the midpoint of the season, the A's were firmly established in sixth, 8½ games ahead of Washington, and 11 games ahead of Baltimore.

In addition, the A's placed third baseman Jim Finigan on the all-star nine in the American league. He won the spot over such established stars as George Kell of the White Sox, and Al Rosen of the Indians.

You'll be pleased with a Collegian want ad.

## Every Night a Ball Game In City Sports Program

Practically every night in the week is baseball or softball time at the Manhattan city park or at Griffith field.

Besides the young boys' baseball program directed by the Manhattan Recreation commission, there are two other base-

ball teams—the American Legion team for 16-17-year-olds, and the Bombers for those older than 17.

There also is one men's softball league, and two women's softball teams.

The American Legion team

plays teams from other towns and is in a 10-team league. It has one remaining home game, to be played July 17 at Griffith field. Their league standing is now 11-4.

The Bombers are in a league with teams from seven towns. Their league standing at present is 4-4. All Bomber home games are played on the north diamond of the city park.

Another group of teams make up the men's softball league. Games are played at the city park, with six teams participating.

They are Woody's; AFROTC; A and P; Kaw Blue Lodge; Miller Pontiac; and Stevenson's. Woody's is leading the league, with Stevenson's in second.

The two girls' teams play on Thursday and Saturday nights at the city park. They are Cole's Sporting Goods team, class B, and the Eaglets, class A. The Eaglets are defending state women's softball champs.

### Lack of Interest Cancels KC Trip

Some interest has been shown in trips to Kansas City to see the Athletics and the Starlight Theater, but no one has signed up for these events, Loren Kottner, student union director, said. The trip for the coming week end has been cancelled for this reason.

The trip on July 23 should be of special interest, and it is hoped that a large number of students will attend, Kottner said. The Athletics will play the league-leading New York Yankees, and the production in the Starlight Theater will be "Bittersweet."

The bus is scheduled to leave at 8:30 a.m., and will arrive in Kansas City before noon, Kottner said. Passengers will return to Manhattan that night, after the Starlight Theater program is over.

Total cost for the round trip is \$4. Additional information is available in the dean of student's office.

The Hawaiian Infantry Training Center at Schofield Barracks, Hawaii, recently graduated its 20,000th U.S. Army trainee since its activation in March, 1951.

### Odd Story Makes Odd Round Trip

Duncannon, Pa. (U.P.)—A lost wallet, 405 bales of hay and a man's suit were involved in this "it's a small world" example.

The well-laden wallet belonged to Glenn Smith, of nearby Ickesburg, who lost it while baling hay last summer. He had to open 405 bales before he recovered the wallet and money.

The suit belonged to Glenn Fisher, of Duncannon, who had donated it to a clothing fund for shipment to West Germany.

Recently Fisher was surprised to receive a gift package from the German recipient of his suit.

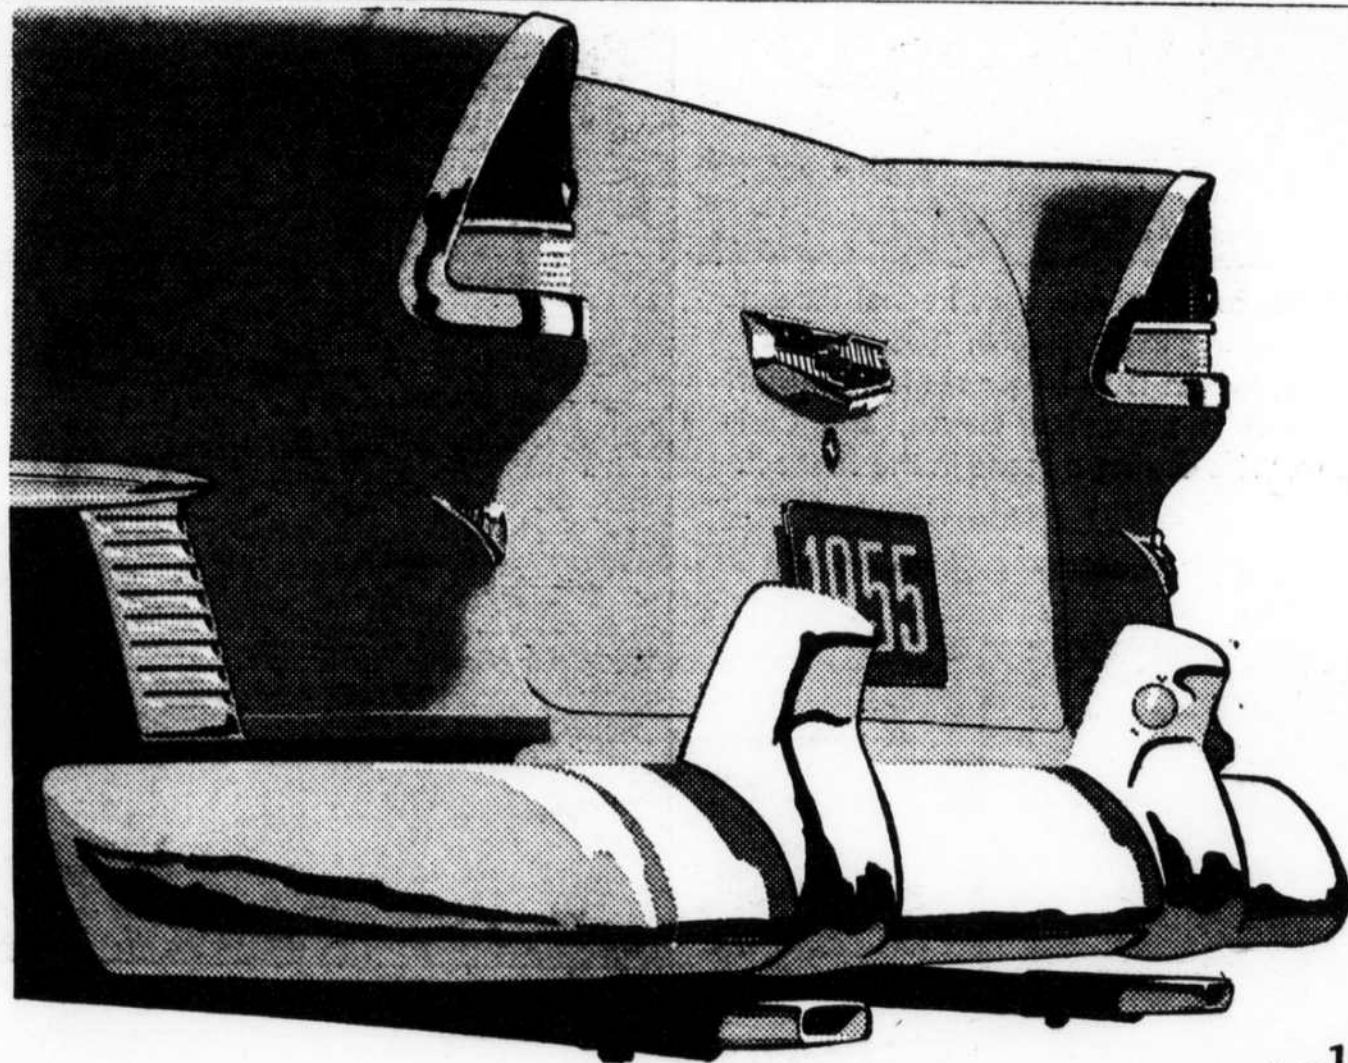

While taking the German newspaper wrapping from the gift, Fisher noticed the word "Pennsylvania" mixed with the German phrases in one of the news stories. Curious, he had the entire story translated. The translation read:

"Fifteen days ago, farmer Glenn Smith of Pennsylvania, while baling hay, lost his wallet containing \$490. Methodically he searched through every bale of hay. In the 405th bale he found it."

### No Intramurals; Only Six Sign

The summer intramural recreation program has been cancelled due to lack of student interest, Frank L. Myers, intramural director, announced Tuesday.

Only six students signed up for the competition which was not enough to hold a tournament in any of the scheduled sports, he indicated.

Twin Pipes that play sweet music!

## Chevrolet's "Super Turbo-Fire V8" with 180 hp.

You can spot this one by the twin tailpipes. No matter what you drive, you're going to see twin-exhaust Chevrolets pulling away—in traffic, on the toughest hills, on the long straightaways.

... Unless you have a "Super Turbo-Fire V8" of your own. And then you'll know what it's like to pilot the car that sets the pace for everything else—and doesn't pause to read the price tags!

What makes the Super scat? Chevrolet's superb valve-in-head V8, with the shortest stroke in the in-

dustrial, the most power per pound, and the only 12-volt electrical system in its field—all this plus a four-barrel carburetor and free-breathing twin exhausts.†

Want to sample this silk-lined cyclone? Just give us a call, any day this week, and we'll be proud to show you just how hot a V8 can be.

\*Optional at extra cost.

†Station wagon models have single exhaust pipes.

## Movie Stars To Appear At World Premiere Here

JULIE ADAMS

The world premier showing of the "The Private War of Major Benson" will bring Julie Adams, child star Tim Hovey, and other Hollywood personalities to Manhattan July 19.

The Universal-International production is being sponsored by the Manhattan Chamber of Commerce in co-operation with Universal-International.

All proceeds of the event will go to charity. Half of the money will go to tornado-stricken Udall, Kan., and the other half will go to a deserving party on a nationally televised program, "Strike It Rich."

The stars who will visit Manhattan play important roles in the movie. They will be introduced before the premier showing at the Wareham theater at 8:30 on July 19.

A premier dance is scheduled for the new Memorial auditorium following the movie. Music will be furnished by Matt Betton.

According to the directors of the premiere, Manhattan was selected for the showing because "it is a city with a heart in the heart of the nation." The use of the Wareham theater, as well as of the film, will be donated.

"The Private War of Major Benson" is a comedy-drama featuring Charlton Heston in the title role, with supporting roles played by Miss Adams and Young Hovey.

Fifty per cent of Vermont's saw-timber growth in softwood is classed as rough—less than two-thirds of its stem clear. Twenty three per cent is classed as limby. Only 27 per cent is smooth—the top class.

## Kansan Sells Farm-in-Day For \$75,000

Ephrata, Wash. (U.P.)—Donald Dunn, a Kansas veteran who was given a complete "farm-in-a-day" in the Columbia Basin three years ago, has sold the 136-acre ranch for \$75,000. He said he would clear about \$8,000 to \$10,000.

The Kansan and his family were awarded the farm during the Columbia Basin Water Festival in May, 1952, when the first irrigation water from Coulee Dam poured on to the arid semi-desert land of the basin.

Dunn, selected by the Veterans of Foreign Wars as the most deserving veteran, watched his modern house built in a day by volunteers. On the same day, the farm buildings were erected and the land was tilled and planted.

At the end of the first year, Dunn issued a financial statement showing his "farm-in-a-day" netted \$18,000. But later Dunn said his own mistakes, plus demands on his time by the public and trouble in getting financing, brought losses.

## Warden Says Inmates Not So Different

Milwaukee (U.P.)—John Burke, warden of the state prison at Waupun, says the inmates of the penitentiary are not much different from the average citizen.

"We only get the criminals who are caught," Burke said recently. "There are lots of others, some of whom live in your own neighborhoods, and they're just as dangerous as the ones we have in prison."

Burke told a group of teachers that it is the job of the schools to keep their pupils from straying into lives of crime.

He said most prison inmates have about average mentalities; never learned how to spend their leisure time; don't take care of themselves properly; don't know a trade and fail to go to church.

"We try to reclaim a man by giving him something to do," Burke said. "Still there are people who say we're coddling people, we're going soft, we're too easy."

## Grad School Women Plan Initiation Next Tuesday

An initiation service for graduate-school women joining Rho chapter of Phi Delta Gamma is planned for next Tuesday, July 19. It will be at the home of Prof. Nellie Aberle.

This is the third of a series of meetings by the sorority for summer-school students. The members had a picnic at Sunset park early in the session, then had a pledge service at their second meeting.

At least 180 women will have done work in the Graduate School during the school year beginning in September of 1954

and ending with this summer's session, the School's records show.

The local chapter of the sorority was installed to meet the needs of those women who are here for a shorter time than undergraduates, and who have fewer opportunities to meet other women doing graduate work.

The organization's fall program is to begin with a tea on September 15.

Mrs. Marie Bonebrake is president of the local chapter. Dean Harold Howe of the Graduate School is patron.

## K-State Entomologists Fighting Chinchbugs

The entomology department is giving advice to farmers in six Kansas counties infested with chinchbugs, according to C. C. Burkhardt, assistant professor of entomology.

The counties are Marion, Saline, Rice, Dickinson, Clay, and Riley. Increased production of wheat, barley, and sorghum is believed to be a contributing factor to the outbreak, Burkhardt said.

During the past few years, farmers have stepped up their acreage of these small-grain plants, where most chinchbugs lay their eggs, Burkhardt said. After hatching, they feed for a time on these plants and then migrate to larger crops, such as corn and milo.

The chinchbug attack didn't come as a complete surprise. Last fall, an insect count was made in different parts of Kansas, Burkhardt said. It was found that a large number of chinchbugs were overwintering in bunchgrass.

The most effective killer of

chinchbugs is Dieldrin, Burkhardt said. This spray is being used by farmers throughout north-central Kansas. Some have reported good results, while others have been unable to control the chinchbugs with anything.

Many of the farmers were spraying the tops of their plants instead of the base, where most of the chinchbugs are found, Burkhardt said. A weed sprayer, with low-spraying attachments, is needed so that the spray will reach the bottom of the plant.

It is better to spray the crops early, while the weather is still cool, Burkhardt said. Extreme heat causes the chinchbugs to burrow underground, making effective spraying more difficult.

Laos has an area of about 90,000 square miles, about twice that of Pennsylvania. Its population is about one million, less than half that of Philadelphia's metropolitan area.

# Davy Crockett, Phooey! We Nominate Wyatt Earp

By LILA ORME  
Of the Collegian Staff

Davy Crockett is currently one of the most popular names in the country.

This famed frontiersman is advertised in song, and his trademark that started with the coonskin cap has quickly spread to everything from T-shirts to cereal bowls.

Not to be forgotten is the "daddy of 'em all," Dan Boone, whose story also can be heard in song, though not quite as many times a day.

So why can't a renowned frontiersman who spent some time in Kansas in its wilder days be turned into a gold mine by some enterprising Kansan?

Possible nominees include Bat Masterson, one-time marshal of Ford county; Buffalo Bill Cody, founder of Rome, Kan.; or Wild Bill Hickok, marshal of Hays.

But our nominee is Wyatt Earp, who typified the courageous gun-totin' Western marshal. Although he can't be claimed as a native Kansan (born in Illinois), many of the events that made him a frontier myth occurred in this state during the 1870's.

At the age of 16, Wyatt Earp was protecting cattle from Sioux Indians. A year later he was driving a stagecoach 120 miles a day through ambushes by badmen and Indians.

Wyatt didn't kill any "b'ars" at the age of three, but he was doing a good job of getting rid of buffaloes when he was 19.

The Midwest was a virtual Buffalo range in the 1870's, and during his first season here Wyatt located near Medicine Lodge and sold buffalo hides. He also shot a supply of buffalo meat and venison for a surveying party he was working with at Baxter Springs.

Lovell? Earp's was one for the movies. He married a young Illinois girl in his early twenties. The marriage was shortlived, however, as the girl died soon after in an epidemic. Wyatt remained single until much later in life.

While moving through the cowtown of Kansas, Wyatt earned a reputation as a young man of courage who could hold his own with the toughest of the cowboys. He could use his fists to good

advantage and was skilled with a gun, though he didn't use it unless necessary.

During the early 1870's Kansas cattle towns were booming as terminals of the Texas trails. Thousands of Texas cowboys brought cattle up the trail, and tempers, whiskey, and lawlessness filled the Boot Hills of these towns with surprising rapidity.

Wyatt first proved himself against one of these badmen at Ellsworth in 1873.

The Ellsworth sheriff was shot by a renowned gunman, and Wyatt hastily was declared marshal and gave the job of arresting the killer's brother, an accomplice in the killing.

Earp performed the duty, but turned in his badge the same afternoon because the gunman was fined only \$25. Wyatt thought this was a low price to pay for the head of a sheriff.

From Ellsworth, Wyatt moved to the wild and woolly town of Wichita, a boom cow town of 1,200 residents. On his second morning in the town, he was declared marshal.

For two years Earp maintained the upper hand over rustlers, highwaymen, drunks, gamblers (he was a pretty good one himself), and lawless cowboys.

After Wichita had been tamed by the marshal, he moved on to Dodge City, the cowboy capital. It was the focal point of the buffalo-hide business and also of the cattle trail.

Thus, "trouble" became the word to describe Dodge, as Texas

cowboys filled the saloons, gambling halls, and honkytonks.

Through his reputation, Wyatt was declared marshal and held the cowboys in line with his nerve, fists, and fast gun hand.

In 1876, Wyatt rode to Deadwood, S.D., the site of new gold discoveries. While there he was drafted to deliver the spring "cleanup" of gold to Cheyenne, Wyo. He successfully delivered the \$200,000 shipment after defending the stage against highwaymen.

From Deadwood, Wyatt returned to Dodge City, where he was reappointed marshal. There, a bounty of \$1,000, was promised to the cowboy who would kill the new marshal. It seems that some men in the town disliked his ability to maintain order.

After his three years of war against gun-toters, rebellion against the law almost ceased and Dodge City turned into a relatively quiet town.

Wyatt wasn't the one to lead a humdrum life, so he moved on to Tombstone, Ariz., a wild area of sagebrush and cactus.

Wherever Wyatt went, there was sure to be action. He hit the Colorado camps, the Idaho gold rush in 1884, and traveled on to California in 1890. In 1901, he went to Alaska, and five years later married again after a long bachelor life.

At the age of 80, Wyatt Earp died in California—a truly legendary frontier marshal, and every bit as tough as Davy Crockett.

## Entomologists Given \$30,000 for Research

Receipt of more than \$30,000 for continued support of entomological research has been announced by Prof. Herbert C. Knutson, head of the entomology department.

Largest grants went to Dr. C. C. Roan, who received \$7,250 from

the army to study action of insecticides on house flies, and \$8,300 from the Atomic Energy commission for insecticide investigations with radio isotopes.

Roan will use the army grant to continue research on the effect climate factors such as temperature and humidity have on insecticide effectiveness.

Study also will be made to find out how insecticides penetrate the house fly, and the effect this penetration has on growth.

Working also for the Atomic Energy commission, Roan is using radio isotopes to study effects of insecticides on insects, guinea pigs, and plants.

Prof. Donald A. Wilbur received \$5,850 from Fairfield and Douglas chemical companies to study protection of stored grain from insects. Wilbur will continue study of effects of insecticides put on grain cut in the field or stored.

This is Wilbur's fourth year of research on this project.

The army gave Dr. Knutson \$1,900 to continue study of long-range effects of insecticides.

Last year, Knutson found that house flies that survive one exposure of insecticide produce more young than house flies not exposed. "This trait disappears in the third generation," he said.

This year, Knutson will do similar research, but under natural conditions instead of in the laboratory.

Prof. C. C. Burkhardt has received \$1,500 from Shell Chemical corporation and Vilsical corporation to study control of agricultural insects. Burkhardt is experimenting with chemical insecticides.

Dr. Fred A. Lawson was granted \$2,450 from U.S. Public Health service to study effects of insects' internal glands on their growth. Using different species of roaches, he is trying to find out why roaches may have long wings, short wings, or no wings.

## Paper Offers Scholarships To Carriers

Carriers for the Manhattan Mercury have been given an opportunity for a college education at K-State.

Establishment of a Fay N. Seaton Memorial scholarship program is designed to enable former carriers of the paper to attend K-State.

An annual sum of \$1,200 will be given through the Seaton Publishing Co. by Mrs. Fay N. Seaton, widow of the late Manhattan newspaperman, and her two sons, Fred A. Seaton and Richard M. Seaton.

The program will be administered by K-State's general scholarship committee. Chairman Max Milbourn said it was hoped the first award could be made this fall.

"Many companies provide a scholarship fund for promising children of employees, but as far as I know this is the first time I have ever heard of a newspaper establishing scholarships for its former carriers," Arthur Peine, director of the Endowment association, said.

To be eligible for the scholarships, Mercury carriers must have delivered the newspaper for two consecutive years with an excellent record.

## Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Friday, July 22, 1955

NUMBER 154

### Britisher Lauds U. S. President

By GEORGE VOHS

President Eisenhower has greatly improved the outlook for world peace, Donald Grant, British lecturer, told summer school students at assembly Monday.

However, both the United States and Russia will continue to challenge each other for control of the western world, he said.

In presenting his ideas on how "Dynamic Forces Transform the World," Grant told of trends leading to this transformation.

1. Role of the most powerful nation exercised by Britain for many years is experienced today by the United States.

"Power is the most influential force in the world, however, it is not the best. We must learn to live and use power over others as little as possible," he said.

2. Washington, center for the Western world today, is challenged by Moscow.

The U.S. developed in the North Atlantic Treaty organization a group of nations which have similar cultural civilizations. Soviet Russia, another giant, has organized a counterpart to NATO, he said.

3. People in Asia, Middle East, and Africa are rejecting empires and imperialism. They feel compelled to make a radical change in their status, he said.

"These people are creating for themselves their share of the political, economic, and cultural civilization of the world," he said.

### Senior Invitations May Be Picked Up

Senior commencement invitations have arrived and may be picked up, according to Byron E. Ellis, superintendent of KSC Press. A few extra invitations were ordered which will be sold at 11 cents each plus tax.

Commencement will be Saturday, August 6, at 10 in the morning. More than 200 degrees will be conferred at that time. This brings the year's total to 1,100.

### College Canteen Has New Owner

The College Canteen has changed ownership for the first time in more than 20 years. New proprietor is Charles W.

### Television Policy Meeting Cancelled

A meeting between K-State officials and representatives of KEDD, Wichita TV station, was scheduled to have been yesterday, but was postponed, according to Max Milbourn, chairman of the college radio and TV policy committee.

The meeting was to be held to discuss KEDD's petition to the Federal Communications commission to ask for VHF channel 8 now held by K-State. KEDD has asked for the channel permit to be moved to Hutchinson.

Ramey, a former K-Stater, who bought the Canteen from Dale Simmons, long-time owner.

While a student, Ramey worked at the Canteen for Simmons during the 1930s. Since leaving K-State he has worked in drug stores.

The Canteen will be closed during August for redecoration, Ramey said. The interior will be painted and other changes will be made.

"We will reopen during Rush Week," Ramey said, "and the Canteen will be run in the usual manner."

Ramey, who comes from Manhattan, is married and has three children.

Simmons, well known to many K-Staters, has no immediate plans for the future.

Miss K-State

Barbara Lowe, HE Soph, was crowned Miss K-State by A. D. (Dad) Weber, acting president, last night. Miss Lowe's two attendants were Phyllis Evans, ChW Jr, and Sue Hostinsky, ChW Jr.

Chosen from a field of seven contestants, Miss K-State will be eligible to compete in a state College Queen contest in the near future.

The winner of the state contest will go to the National College Queen contest in Asbury Park, N.J. The New Jersey show will be September 9-11 with winners from each state as contestants.

Last night's Miss K-State contest was part of the annual Manhattan water carnival at which almost 4,000 persons attended. The seven coeds were introduced to the audience and the judges by Charles Goetzinger of the speech department.

As they were introduced, the lovelies paraded around the swimming pool displaying their charms to the spectators. After all seven had strolled around the pool, they lined up in front of the three seated judges, Bill Craig, dean of students; Frank Anneberg, city recreation director; and Don Kendall, Collegian editor.

The contestants were kept standing in line in front of the judges for about ten minutes while the three happy characters carefully pondered the qualifications of each candidate.

After careful consideration, the judges turned in their ballots and Miss Lowe was proclaimed Miss K-State.

Craig said he'd like to prolong the consideration as long as possible, Anneberg thought maybe the judging should be continued the rest of the summer, and Kendall said he wished 4-H judging could have been as pleasant.

All three agreed that it was a difficult decision to make—picking one girl out of seven to be Miss K-State—and that it would have been swell to have been able to crown all seven of the young ladies.

Besides getting a chance at possible national honors and \$5,000 in prizes, Miss K-State received gifts donated by Collegian advertisers. She received prizes which include flowers, clothing, soft drinks, steak dinners, bathing suits, and even a free oil change and grease job.

### Work Begins on Married Housing

Work began this month on K-State's 192 new married housing units, R. F. Gingrich, maintenance superintendent, said yesterday.

Confined to establishing grades and contours for sewer, water, and electrical lines, the work is being slowed until the arrival of material for these lines.

"We should be ready to let a

general contract by October 1 or before," he said.

The units will be financed by revenue bonds. A prospectus outlining conditions for the sale of these bonds to prospective buyers should be ready soon, according to A. Thornton Edwards, housing director.

(Continued on page 12)

### 200 To Receive Degrees At August 6 Graduation

More than 200 K-State students will be candidates for degrees at summer school commencement exercises August 6, E. M. Gerritz, director of admissions and registrar, has announced.

Commencement will be at 10 a.m. in the auditorium. Charge to the graduates will be given by President James A. McCain. A member of the state Board of Regents is to bring greetings.

Candidates for degrees and their home towns:

Bachelor of Science, Agriculture—James Bernie Beck, Manhattan; William Charles Boon, Jr., Manhattan; Phillip Allan Diehl, Wichita; Benjamin Ismael Felicitas, Burgos, Philippines; John James Fish, Centerville; Donald Gene Guard, Manhattan; Robert Walter Hand, Mulvane; Richard Leon Hartman, McCune; Earl Carlos Johnston, Attica; Robert Eugene Juliaa, Belpre; Khalil Rashid Lubani, Irbid, Jordan; Eugene

Stanley Lyman, Medicine Lodge; John Joseph Moran Jr., Clafflin; Donald Keith Peterson, Yates Center; Cecil Edward Rhoads, Westphalia; Eugene Merrill Snyder, Manhattan; Maurice Duane Wikoff, Leoti.

Bachelor of Science, Milling Industry—Franklin D. Frewen, Norcatur; Ronald Lee Grittman, Glasco.

Two-year certificate in Agriculture—Edward Louis Wright, Wichita.

Bachelor of Science, Arts and Sciences—Stevens Byron Acker, Manhattan; John Edward Dunn, Kansas City; James Flavel Bascom, Manhattan; Donald Eugene Bouska, Kansas City; Logene Sue Britton, Salina; Anita Thelma Brummel, Kansas City; William Lawrence Clark, Overbrook; Carol Mae Collins, Salina; James Darwin Dickson Jr., Topeka; Zaccaria Osimeve Nnanna Ekwlebelem, Nigeria, West Africa; John Fran-

cis Fischer, Houston, Texas; Robert Frederick Frank, Manhattan; Doris Faye Gilbaugh, Manhattan; John Garold Halbert, Merriam; Reta Raleigh Hoch, McPherson; Frank Faires Hopkins, Dodge City; Marbeth Hopmann, Overland Park;

James McLeland, Hiawatha; Aris Vardan Merjianian, Abadan, Iran; Robert Dale Moorhead, Walton; Arthur Sherman Nunn Jr., Manhattan; Richard Eugene Perry, Geneseo; Alice Lee Meek Peterson, Idana; Robert Richard Rhyne, Arcadia; Richard Campbell Rice, Concordia; Hassan Rouhandeh, Heched, Iran; James Luke Smith Jr., Manhattan; Clarence Frederick Steinbach, Clay Center; Mae Rachel Sullivan, Arkansas City; Benton Lawrence Tibbetta, Densmore; Sherrill Ann Todd, Kansas City; Robert Lee Vincent, Concordia; R. E. Waide, Council Grove; Verdel Ann Wil-

(Continued on page 12)

"Ok-ok, you guys! Let's quit clownin' aroun' with that shot putt!"

### In Our Opinion

## Poor Management Wrecks Campus

Many devices have been tried by College authorities to discourage students and faculty members from cutting across lawns, flower beds, and any other spots of natural and man-made beauty.

Judging from the past, if these transgressors marched long enough in one space, the College would finally get around to building sidewalks.

K-State may often be referred to by our "more cultured" colleagues as the "cow college" but we can deny with almost complete authority that our system of sidewalks and landscaping did not reach its present status by pouring concrete in the wake of a browsing cow.

K-State (a land-grant college training its students in agriculture and applied sciences) has apparently undergone a de-emphasis of original objectives in favor of "big-time athletics." This, perhaps, makes it understandable why campus landscaping and planning has been delegated to the Physical Plant.

Not so long ago, landscaping and design was done by persons trained for it.

Campus beauty was co-ordinated, was planned with some idea of future expansion, and was done in good taste by professional planners in the School of Agriculture's department of horticulture.

Now the picture is changed. "Experts" still kibitz and offer suggestions to the stumbling methods of our B and R boys, but all they can seem to think of is throwing up a double apron barbed wire entanglement when students and faculty walk across the gulley-ridden, dandelion-infested lawns.

Just walk around the campus after a rain. Notice the mud and corruption which oozed down the rolling lawns during the storm. The sidewalks often become swamps of mud.

If the practices of good conservation are worth teaching to students of this "agricultural" college, and to the farmers of our state and country, why aren't they good enough for our campus?

If the present "experts" can not sufficiently cope with the disintegration on our campus, then new experts should be chosen.

—Don Kendall

## Two Chickens a Day Will Keep C.A. Away

By CRAZY AUTO

Last week's guest column by Madman Miller has shown me that I can be replaced. I'm not worried though. I can get two live chickens a day writing a column for *Psychiatrists' Journal*, instead of the one a day they feed me here.

All I have to do is write the story of my life in a column they call Unusual Case Histories. But I musn't brag so much.

Being an unusual case hist---, I mean a man of meager means, I jumped at the chance while in a drug store the other day to get a collection of 50 great short stories for 50 cents.

They are in a Bantam paperback called, oddly enough, *Fifty Great Short Stories*.

The fifty stories were chosen by 500 literature teachers at colleges and universities throughout the U.S. They answered questionnaires sent out by the book's editor, Milton Crane.

The unusual thing about this anthology is that, though every author represented is famous, the stories are, in the main, new to anthology readers.

The only exceptions I found were Poe's *The Masque of the Red Death*, Thurber's *The Catbird Seat*, and Mencken's *A Girl from Red Lion, Pa.*

Of the authors included, my favorites are Hemingway, Wolfe, O. Henry, Salinger, Huxley, Joyce, Steinbeck, Faulkner, Chekhov, and Maugham. And there are 40 more.

### Over the Ivy Line

## Negroes To Attend Texas U

Desegregation at the University of Texas was ordered by the university's board of regents in an historic decision recently, according to the *Summer Texan*.

By unanimous decision, the board ordered immediate desegregation at Texas Western college in El Paso and at the main university graduate school. Complete integration at the university is to begin in the 1956-57 school term, they decided.

Present university policy of refusing Negroes undergraduate work will be retained until long-considered enrollment limitation problems have been worked out.

The *Minnesota Daily* commented on the Russians visiting their campus by saying that the Russians would go home telling that there is hardly anyone on campus because it costs too much. The article continued:

"They will chatter of students so exhausted after a day's labor that they sleep in heaps on a large grassy area in the center of the campus."

"Davey was killin' when he shoulda learnt his ABC's," according to the *Summer Texan*.

The story, based on a letter exhibited in the Texas Memorial museum, accuses Davy of such spelling errors as "aney" for any, "som thing" for something, and "earlier" for earlier.

Other ways to raise academic standards exist than to deny students the right to own cars, the *Summer Texan* says.

The road to better standards runs right through the classroom, and instructors can exert more influence than can a car ban, the paper says.

On the gayer, more indecent side of pocketbook literature is *Butterfield 8*, a completely immoral book about immoral people and written by John O'Hara.

The *New York Times* calls O'Hara "shrewd, savage, merciless, and apparently fertile." To me the book can be summed up in one word—primitive.

That is, primitive in the only way 20th-century New Yorkers can be primitive—sexually. Liquor and dope play their own little parts, but love or the lack of it carries this book and Gloria, its heroine, to their gory end.

There are, I'm sure, many people like Gloria and her friends in this world, and sometimes I wonder if it's good for us to know about them.

I usually end up this kind of mental quiz game with the conclusion that knowledge of anything, by itself, is at least harmless. It's ignorance or unawareness that does the harm.

The whole world is becoming bosom-and-behind conscious. A daily newspaper from Turkey came to my attention recently and in it I found only three words I knew.

They were, Istanbul (Not Constantinople), and Gina Lollabrigida.

The latter two words were mentioned several times and were backed up with picture, while the former was mentioned only once.

Beer isn't an intoxicant and should be reclassified as a nonintoxicating beverage, Dr. Leon A. Greenbert, Yale university professor, says.

In the argument that followed his statement, he contended that a human stomach doesn't have the capacity to hold enough beer to raise the alcoholic content of the blood to 0.15 per cent, the point where consistent "abnormal behavior" appears.

A student at one university is confident about his coming exams, but doesn't feel that everyone is his type. The more (or less) conscientious souls, as he calls them, are:

The quiet, self-assured character who gets panicky when the exam starts. He taps his pencil, kicks the desk in front of him, and, while his stomach growls, he groans.

The suave fraternity man who goes on a wild beerbust the night before finals, and comes up looped to take the test. He ends up by making a better grade than the studious girl who crammed for weeks.

The brain who says "I never study" and broadcasts after the exam that he couldn't possibly have passed it. Then he comes out with 100.

Then there's the hawk-eyed quizmaster who glaringly watches a small, nervous boy who wouldn't hurt a flea. In the meantime, a girl in back of the falcon of finals is cheating furiously.

# Life and Good Times of C.A.

By D. MAHONEY KENDALL  
Collegian Research Writer

Truly a man of discrimination, if not distinction, is the Collegian's Crazy Auto. His ability to sift the fine grains of culture from the drab spawn of everyday life is his chief attribute.

But he has not come to this zenith of the profession in an unstriking manner—really, his background is something to behold.

C.A. was born in the nonfiction section of Boston's Carnegie library amid volumes of Shakespeare and Sir Francis Bacon. From that moment on, his environment was such as to assure his present success.

Brought up on yogurt with a dash of bitters, he soon grew to appreciate the aesthetic in life. At the age of three he had browsed through *Nichomachean Ethics*, *On the Nature of Things*, the *Aenid*, and the early translations of *Esquire*.

He graduated from the world renowned Pumpnickel Conservatory of Art and Literature at the age of 6, and immediately enrolled in Harvard's School of Advanced Metaphysics.

Within two years he had completed all requirements with the exception of four hours of Humanities II to be eligible for his Doctor of Philosophy degree.

C.A. said he told the university to jam it down (or was it up?) its Campanile, and stalked off the campus in a huff. (Editor's note: We later learned that Crazy Auto was welcomed back into the arms of the school faculty and was awarded an honorary Ph.D.)

However, this setback did not seriously impair the progress of Crazy Auto. At the age of 8 he was admitted to the faculty of the Sorbonne in France.

It was while he was rewriting the French edition of *Claustrophobia* that he became interested in politics.

This was the first time in little C.A.'s life that he had thought of that great phase of

life—that teeming, writhing, pulsating mass known as *Common Man*.

Fortunate, indeed, it was for the John Does and Mary Roes that this metamorphosis occurred.

Whatever the stimulus, Crazy soon found himself back in the new country as one of New York's ward bosses on the Lower East Side.

CRAZY AUTO  
... in a lighter moment

C.A. looks back on this as his greatest contribution to public welfare. "You can't imagine the sense of accomplishment and service that I got by being able to help people make up their minds for them," he said.

After several years of ward heeling around the docks and warehouses, C.A. migrated to the Midwest to resume his first loves—Music, Literature, and Art. (Art was a fellow he had met during more tender years.)

In Kansas City, the young genius met another artist—a defunct haberdasher who played the piano

in a mediocre manner. Since the other fellow also was dabbling with the local machine, a fast kinship sprung up between C.A. and his ambitious little friend.

"I remember with tears in my eyes how I used to assist him at his concerts," Crazy reminisces. "I would stand by his side and turn the pages as he would masterfully render forth the immortal strains of 'Dance With Me Henry'."

Our critic's cultural background was furthered when he was cast in the Kansas City Starlight Theater's summer production in 1951—well, maybe he wasn't cast. He was sort of flung.

C.A. says that his is no culture of a neopsychic nature. It was through his association with the Kansas City thespians that he came to think that the play is the thing.

"The play is the thing," is the way he put it.

However, selling popcorn and ice-cold pop in the audience was not the way Crazy liked to operate. He said he would rather have sold popsicles any day.

"It was very stimulating in several ways," Crazy Auto modestly explains, "but can't you see how confusing and frustrating it would be to an intellect such as mine to have to indulge in such plebian practices. Just imagine, on hot nights I had to sell hot buttered popcorn, and on cold nights I had to sell ice-cold pop."

In the summer of '51, C.A. saw *The Student Prince* seven times during work. He played a song from the show, "Drink, Drink, Drink," on a jukebox at the Cowboy Inn constantly after hours (or was it after "hers"?).

Crazy's displeasure at his menial work came to a head one night as he was sipping a beer at the Cowboy Inn, and he signed up with a surveying party in southern Missouri. He said he wanted to get a line on the folks down there.

After returning from the trip, C.A. came to K-State and enrolled in cultural anthropology. Though he owns many degrees, he is very modest about his accomplishments, and thinks one more might come in handy.

"I am very modest about my accomplishments, and I think one more degree might come in handy," was the way he put it.

Actually, none of the Collegian staff has ever met Crazy Auto. His first column was found just inside the front door of Kedzie hall, and hearkening back to the days of Ben Franklin (who also pushed manuscripts under doors) we were afraid to throw it away. To make a long story short, we used it to fill a big hole on the editorial page.

Then, immediately justifying our faith in Ben Franklin and in doors, Crazy Auto became a smashing success. Crowds flocked into Anderson hall to get extra copies of the Collegian, others came to Kedzie hall for copies after the supply was exhausted,

and we received one letter to the editor.

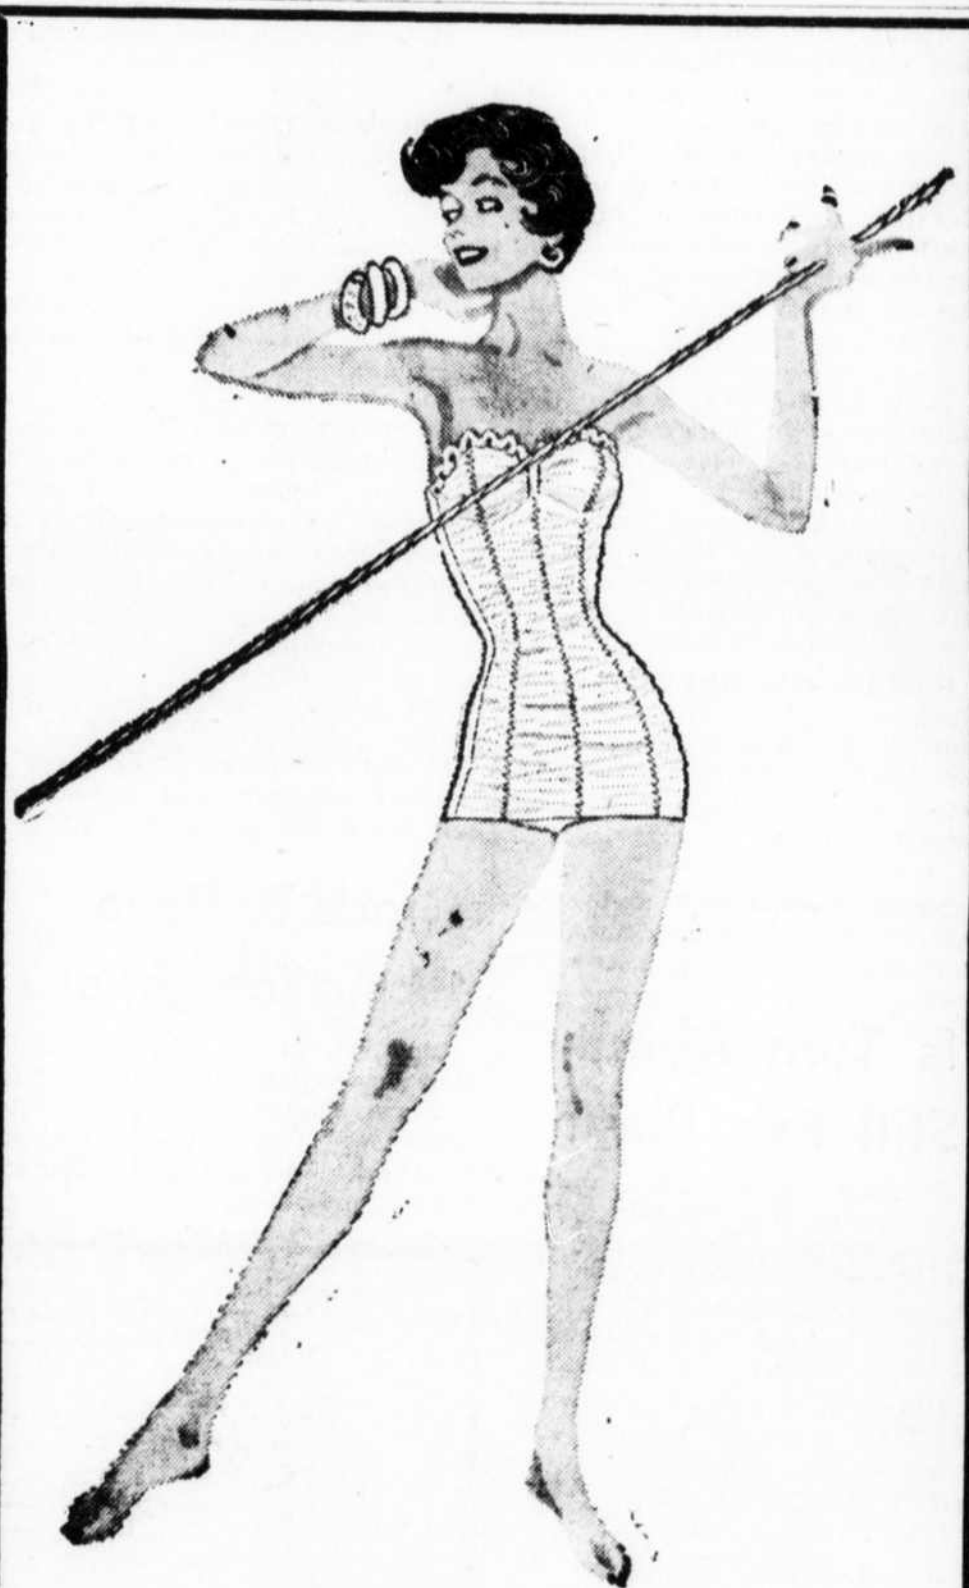

The culmination of C.A.'s success came two weeks ago when an advertiser asked that his ad be placed near Crazy's column.

This smashing success made it imperative that we tell our readers all we know about Crazy Auto, for we have been besieged day and night by telephone calls.

The only drawback is that we can't talk to C.A. personally. He has communicated with us only by slipping notes under the door, or by talking to us on the telephone.

Therefore, we can't vouch for the facts in this article, or for the accompanying picture that he slipped under the door. However, we have eliminated all things that did not seem reasonable, leaving only a residue of factual and interesting anecdotes.

Flaxseed of the 1955 crop will be supported at a national average price of \$2.04 per bushel, the U.S. Department of Agriculture has announced.

## Colonel Itz Leaves For Maxwell AFB

Col. Milford F. Itz, head of AFROTC for the past four years, leaves this week with his family for Maxwell Air Force base, Montgomery, Ala., where he will attend the Air War college during the coming year.

The Air War college offers highest level professional study for senior officers of the air force.

While at K-State, Colonel Itz directed the training of several thousand air force ROTC cadets, and about 500 young air force officers who graduated from K-State received their final commissions while he was here.

A native of Alma, Itz graduated from Topeka high school and in 1938 received his degree in mechanical engineering from Kansas State college. Upon graduation Itz was accepted for pilot training and completed his training a year later.

In addition to command positions, Colonel Itz has attended command and staff schools of both the USAF and Royal Canadian air force.

Mrs. Itz is the former Maxine Wagg of Osage City. They have two daughters, Nancy and Debby.

## Campus Briefs

**ROBERT RANEY** formerly of Concordia, and Mrs. Miriam Houston, graduate of Lindenwood college at St. Charles, Mo., have been appointed to the K-State staff.

Raney replaces W. W. Rasmussen, who resigned. He will do research as agronomist at the K-State irrigation experiment field near Concordia.

Mrs. Houston's appointment is as part-time instructor in clothing and textiles, to assist Miss Esther Corman with a regional research project in home economics.

**A HEAVY CROP** of sandburs is causing considerable concern for people in western Kansas, reports Ray A. Keen K-State horticulturist.

Especially on compacted, drouthy high school football fields are sandburs a problem. Keen says the best control on small areas is to hand weed or hoe before the seed is formed.

**SEED OF A NEW** wheat variety, Concho, will be available for planting on Kansas farms for the first time this fall. Arthur D. Weber, director of the Kansas Agricultural Experiment station, said.

About 8,000 bushels of Concho seed were grown this year by the station, and by the Kansas Hybrids association.

This seed will be distributed to farmers in central Kansas, and for planting on irrigated land in southwestern Kansas. Applications for the seed will be accepted only through county agents within this area.

**F. W. ATKESON**, head of the dairy husbandry department, will spend July 27-31 classifying dairy cattle in Minnesota.

Atkeson will classify Jersey cattle at dairy farms throughout the state in connection with the American Jersey Cattle club.

**K-STATE ALUMNI** living in the Washington, D.C., area are planning their annual summer picnic for today, according to word received by the K-State Alumni association office.

**NINE ASSISTANT** and seven junior assistant home demonstration agents in training now are

### Is Turn About Still Fair Play?

Madison, Wis. (U.P.)—Superior court judge Roy Proctor said it was a switch on the usual case when a girl appeared before him, charged with one-arm driving. She had had the other arm around her boy friend.

"I've had a lot of boys in here on that charge," Proctor said. "But this is the first time I've tried a girl on that charge."

The Geological Survey says that coal represents 84 per cent of the known and potentially recoverable mineral fuel reserves of the United States.

Congratulations  
to  
Miss K-State  
from  
**DAIRY ANN**  
Our Gift  
to the Queen  
5 Regular Submarines  
or  
4 Special Submarines

onstration agents. They are pre-working with Kansas home demonstrating for county extension agent positions, Mae Baird, state home demonstration leader, said.

The nine assistant agents are Mrs. Nellie Cline, Alice Lettie Frey, Mrs. Josephine Conley, Martha McReynolds, Phyllis Rogendorff, Mrs. Delores Baas, Mrs. Lillie D. Hammons, JoAnn Hunt, and Mrs. Vivian Ewy.

The junior-assistant agents are receiving experience in a county between their junior and senior years in college.

They are Ruth Brothers, Elaine Brubaker, Suzanne Dean, Anna Marie Kennedy, Betty Mae Orr, Alice Schulze, and Jeanice Ann Blauer.

**A. R. JONES**, dean of financial administration, will attend a regional conference of the Council of State Governments at Mackinac Island, Michigan, July 25.

State officials, legislators, and educators throughout the mid-west at the conference will discuss problems such as: higher education, now and in the future; overflow of enrollment in public schools; and shortages of specialized manpower in engineering, veterinary medicine, and other fields.

**ELLSWORTH M. GERRITZ**, director of admissions and registrar at K-State, will make a guest appearance on Bill Barton's "Guest Room" over WIBW-TV at 5:45 Friday afternoon.

Gerritz will discuss the K-State pre-enrollment program with Barton.

**A PUBLICATION** planned and edited by E. D. Warner, associate extension editor, and Lowell Brandner, agricultural editor, will be used by a panel of publications expert at a national meeting of college editors.

The publication, "Dividends from Your Investment," also will be distributed to all land-grant colleges.

It gives examples of how agricultural research and education help boost the standard of living.

### Grads To Have Picnic Tonight at 7

Members of the Graduate Student association will have a picnic and watermelon feed at the Bottom of the Top of the World, at 7 tonight, according to Benny Cooper, president.

# Comic 'Czar' Blames Delinquency on Parents

New York (U.P.)—The nation's comics "czar" offers this formula for cutting juvenile crime—let parents work overtime at parenthood.

The judge assigned to improve the comics' reputation disagrees with experts who say that crime and horror played up in some such publications have increased juvenile delinquency.

"Long before comics books, we had young criminals," said Murphy. "Many factors contribute to delinquency but in my opinion, the greatest single cause is an unhappy home life." The cure, he said, is the happy home life.

"A home where the child is brought up with proper religious

training," he said. "One where the child is taught to respect his parents, to respect authority. Being a parent is a 24-hour a day job. Some parents barely give it a 40-hour week."

Murphy, a former New York magistrate who has long been active in working with teenagers, was appointed by the newly created Comics Magazine association, representing 21 publishers voluntarily policing their product.

He is weeding out things that he considers objectionable. Publishers submit books in the drawing stage, and those parts he disapproves of are returned for change.

"We have to be sweeping in this purification drive," said Murphy. "I intend to seek the continuing advice of church and welfare groups, parents, educators, psychiatrists."

If Murphy gets around to screening all comics, he has a monumental task. He estimated that 60 million are published monthly.

The "czar," a big, jovial man in his 40's, should be an authority on children's reading material—comics or classics. He has three children—aged 20, 15 and 14.

"I've burned comic books in my time," said Murphy. "But my kids always found replacements the minute my back was turned."

## Staters Can Donate Blood Next Tuesday

K-State summer school students and faculty may donate blood at the Riley County hospital next Tuesday afternoon between 4 and 6, Mrs. A. L. Clapp, Red Cross blood program chairman, said.

Donors are requested to not eat any fatty foods within four hours of making the donation.

## Texas RR Conductor Fights To Save Thicket

Silsbee, Texas (U.P.)—A retired railroad conductor who is dedicating most of his time to preservation of a thicket is afraid his efforts are doomed.

Actually he is beating the drums for no ordinary thicket. This one covers 3,300,000 acres in southeastern Texas.

The retired railroad conductor, R. E. Jackson, says botanists and scientists have told him there are more rare species of plant life in the huge thicket than can be found in the same area any place else in the world.

The first treaty between the United States and an Indian tribe was negotiated with the Delaware tribe on Sept. 17, 1778. The last treaty to be ratified by the Senate was made with the Nez Perce tribe in August, 1868.

## Medics Think Viruses Cause Cerebral Palsy

Los Angeles, Calif. (U.P.)—A study at the University of California indicated cerebral palsy and other congenital abnormalities may be connected with virus infections that occur very early in pregnancy.

Other research has shown that although there is no cure known for cerebral palsy, adequate training can make one-third of its victims entirely self-supporting, while nearly another fifth can become partially self-supporting.

The connection between cerebral palsy and virus infections was demonstrated in the pediatrics department of UCLA's medical school.

Doctors injected influenza and distemper viruses into fertile hen

eggs. Within a day, the chick embryos showed a wide variety of maladies including bent backs, extensive brain and eye damage and lesions of the extra-embryonic membranes.

Dr. Margaret H. Jones, associate professor of pediatrics, said there is much that can be done to train the victim of cerebral palsy and that trained workers can help overcome some of its major disabilities.

In 1953, 770 pedestrians were killed and 27,750 injured in the United States while attempting to cross intersections against the light, the Automobile Club of New York reports.

# Crowning of Miss K-State . . .

**BARBARA LOWE** makes a big grin and her attendants look happy as "Dad" Weber places the Miss K-State crown on Barbara's head. The crowning took place last night during the Manhattan water carnival at the city pool. On the right in the above picture is Miss K-State's first attendant Sue Hostinsky. She is on the left in the birds-eye view of the crowning at the right. The second attendant is Phyllis Evans.

# Preceded by Careful Thought . . .

**THE GIRLS** line up (above) for critical inspection by the perplexed judges (left). The girls are, from right to left, Nancy Cardwell, Phyllis Evans, Sue Hostinsky, Barbara Lowe, Karen Milner, Sandra Morissette, and Alda Schmutz. The much-to-calm-for-the-occasion judges are, left to right, Don Kendall, Frank Anneberg, and William Craig.

# Bermuda Shorts Receive Official OK at K-State

By LILA ORME

The effects of the Bermuda shorts trend are showing up in the K-State women's dormitory rules booklet for 1955-56.

Girls in the dorms will be permitted to wear Bermudas to breakfast and wherever and whenever blue jeans were allowed to be worn before.

Bermuda shorts may be the last word in comfort, but are quite controversial in regards to appearance. But they have been seen on the campus more and more throughout the year and may have to be accepted by the critical.

May 13, which was decreed "Bermuda Shorts Day" by the Arts and Science council as a part of the Arts and Science carnival last spring, brought out some of the previously overly modest students in the "new K-State fashion."

Several Manhattan stores report a definite upward trend in sales of the shorts during the spring and summer months.

One store reports more sales of plaid than plain shorts in winter styles, and a switch to considerably more plain than plaid shorts in the summer styles.

Besides the regular Bermuda shorts which strike the leg slightly above the knee, Jamaica shorts are also sold. Jamaica shorts can be described as longer than regular shorts and shorter than Bermudas. A Manhattan store reports that many more Bermudas are sold than Jamaicas.

Boys as well as girls have caught the style craze and have sent the sales upward since last spring. A Manhattan men's store reports few sales last summer in comparison to the high sales this spring.

## Going Fishing Soon? Take a Kite-Chute

Utica, N.Y. (U.P.)—The latest thing for fishermen is the kite-chute—which is not a sneeze but a sort of kite, or sort of parachute, but not exactly. It works like this:

A fisherman wants to cast his line 100 yards or more. First, he flies a kite. Then he ties his line to the kite-chute; then he ties the kite-chute to the kite string.

The kite-chute automatically runs up the kite string until it is five feet from the kite. Then it automatically drops a parachute—and the fishing line—into the water. Simple?

Edward T. Cahill, who invented the gadget, says it's also fun for kids.

**BERMUDA SHORTS** hit the limelight at K-State on May 13, when they were worn to help publicize the Arts and Sciences carnival. Students shown above discussing the carnival that day are Robert Dickens, Maurine Schrag, and Margaret McKnight.

## 14 To Receive Sears Roebuck Grants for \$150

Fourteen Kansas high school graduates are winners of \$150 Sears Roebuck Foundation scholarships for their freshman year in the School of Agriculture, Dean A. D. Weber said.

Winners are Douglas Battershell, Erie; Walter Douthit, St. Francis; Gerald Fortner, Fredonia; Loren Henry, Colby; Dale Lavender, Altamont; Rae C. Luginsland, Dunlap.

Also Keith McCluskey, Junction City; James Pugh, Eureka; Thomas Rogler, Kincaid; Robert L. Scherman, Paola; Donald Schick, Gridley; Donald Schneider, Logan; Gary Soderlund, Oberlin; and Gary Sullivan, Yates Center.

Another Sears scholarship winner will be announced later.

## Vacation Doesn't Stop Student Teachers

Even the summer vacation months don't rule out the student practice teaching program. Seven future teachers are doing their practice teaching during summer school.

Four girls from the school of home economics are teaching this summer in clothing classes for high school girls. They are Joan McKinley, Marilyn Heikes, Helen Morris, and Joan Smith.

Each student teacher helps conduct a class for 2 hours each day for the 9-week period. There are 16 high school girls in the clothing classes held at Calvin hall each morning.

The high school girl spends 4 hours every week day for 9 weeks in class. They get two hours of high school credit. The classes are conducted on the same basis as in the winter months.

Requirements for the student clothing teacher include 60 hours in laboratory, participation in individual and group conferences with the advisor and students, and three home projects.

The practice teacher also must

work with three of the students on projects which are done at home.

Faculty advisor to the home economics practice teachers is Prof. Laura Baxter.

Three music students also are participating in the practice-teaching program. They are Jerry Watt, Nancy Leavengood, and David Pannkuk.

They spend 2 hours a day at the high school in teaching instrumental classes. The classes range with students from the fourth grade through junior high school.

Lawrence Norvell, instrumental instructor at the high school, is supervisor of the students.

"The students are almost entirely on their own and this is good practice," he said.

The students also spend some time observing other teachers. Several K-State faculty members are instructing some summer music classes at the high school.

Motorists in New York state pay more than \$410,000,000 a year in automobile insurance premiums.

# Experiment Station Getting Requests to Curb Crabgrass

Frequent requests have been sent to the Kansas Agricultural Experiment station for information on how to control crabgrass, according to L. R. Quinlan, professor of horticulture.

Little was known about the scientific structure of this plant or how to keep it under control, until 1951, when the experiment station, in cooperation with the Central Plains Turf foundation, decided to do something about it, Quinlan said.

A project, headed by Professor Quinlan, was started to find out what effects, if any, certain prepared treatments would produce in controlling crabgrass.

Different plots of ground, on the campus, are used each year for the experiments, Quinlan said. Most of the plots have been swamped with crabgrass for several years.

The first experiment was performed in the spring of 1951, Quinlan said. Three treatments were used: PMA, potassium cyanate, and sodium arsenate. The

plants were carefully counted before the first treatment. Then, the weeds were sprayed and the plants counted again.

The crabgrass was sprayed and counted three times, to determine the number of plants killed by the treatments. In one lot containing 47 plants, 35 were still alive after the first spray, 11 after the second spray, and 9 after the third.

A series of sludge tests were applied to the crabgrass last summer, Quinlan said. The weeds were sprayed with five different solutions of potassium cyanate.

Each cyanate solution contained a different type of sludge, imported from different parts of the country, to determine which kind the plants were most sensitive.

The sludge was obtained from four different sections of the United States: Milwaukee, Wis.; Houston, Texas; Chicago, Ill.; and Los Angeles, Calif. The results indicated that Milwaukee sludge is most efficient in controlling crabgrass.

Pre-emergence sprays are being used on this year's plots, Quinlan said. These sprays are supposed to kill the crabgrass seeds before they germinate.

"Crabgrass is not an uncommon sight in many of our lawns, parks, and cemeteries," Quinlan said. "It has long been noted for its damaging effect on bluegrass. By the middle of summer, a complete bluegrass lawn can be choked out by this menacing weed."

The Kansas Agricultural Experiment station and the Central Plains Turf foundation have received the assistance of seven other experiment stations in launching this project. Many patented compounds of PMA and potassium cyanate are now available to the public.

"No treatment has yet proved to be one-hundred per cent efficient," Quinlan said, "but it is hoped that the results of this year's experiments will soon aid K-State research workers in developing a treatment that will completely wipe out America's number one killer of bluegrass."

Ralph R. Lashbrook, head of the department of journalism, Lashbrook said Bell planned to enroll in the technical journalism curriculum this fall.

Seaton, the publisher of the Manhattan Mercury-Chronicle until his death, established a fund to provide "working" scholarships to students "to perform appropriate service under the direction of the journalism head." Seaton's college education was obtained through similar awards.

Bell, the son of Mr. and Mrs. J. R. Bell, 2907 South 25, Kansas City, was sports editor for both the school newspaper and annual at Turner high this past year. The previous three years he had attended Herington high, where he did some sports writing for the Herington Advertiser-Times.

Bell was on the graduating honor roll, took part in the Student Council, and participated in all sports, dramatics, and band.

## Younger Generation Defended by Educator

Omaha (U.P.)—The younger generation isn't so bad after all, says Superintendent Harry Burke of the Omaha public schools.

The younger generation "is just as religious and just as patriotic as you are," Burke told the Women's Interclub council.

# Few Students Don't Have Radios at Home

By GARY NEILAN

About 95 per cent of the students at K-State have radios available at their Manhattan residence.

This information was taken from data compiled by students in the radio-TV audience course.

In a survey on campus, 595 students were questioned. It was found that 19 of every 20 students have access to a radio. The freshman class apparently listens the least.

More than 17 of every 20 students have radios in their rooms. Grad students do much of their listening elsewhere; only 15 of every 20 keep sets in their rooms.

Nearly half of the students have TV sets available at their residence. TV apparently doesn't attract grad students either. Only about a third of them have available sets.

Approximately one-third of KSDB-FM, the student training the student body listens to station. More than 50 per cent of the seniors listen, but only 9 per cent of the grad students. The grads are tops in listening to KSAC.

The survey also indicated that more than 95 per cent of the student body listens to away-from-home basketball, while about 90 per cent listen to Wildcat football games.

Grad students listen to away-from-home football games more than does anyone else.

# Grad Women Name Four Into Sorority

Four K-State women were initiated July 19 into the Rho chapter of Phi Delta Gamma, sorority for women in the Graduate School.

They are Geraldine O'Daniel Hnizda, Blue Rapids; Marilyn Geiger, Salina; Emma Austerman, Abilene; and Dorothy Runbeck, Lindsborg.

Mrs. Case Bonebrake, president of the sorority, said three other women will be initiated into the organization at a later date. They are Sue Quinn, Clay Center; Jane Wrenn, Grand Island, Nebr.; and Vida Harris of the K-State art department.

# Danny Kaye Tops Free Movie Cast

"On the Riviera" is the free movie to be shown Tuesday evening in East Stadium at 8.

Danny Kaye, Gene Tierney, and Corinne Calvert star in the musical. Complications are many and humorous. Songs, dance, and a touch of romance are included.

An American night club entertainer in Monte Carlo and a celebrated French aviator are dual roles played by Kaye. The 90-minute movie is a 20th Century-Fox production.

# Hospital Fund Drive Brings Change of Jelly

Ord, Neb. (U.P.)—A drive for funds for the local hospital wasn't designed to provide a lot of luxury.

A newspaper, reporting on the drive, commented:

"The hospital got its sheets patched; some old rotten flooring was ripped out and some walls painted; it got some towels, and a good set of diapers are ready for premature babies.

"And the patients have enjoyed a change of jelly."

# Watersheds Studied By KS Grads

Ivan Schmedemann, 1953 graduate, and Daryl Pults, 1955 grad, have completed a study of experimental watersheds in five Kansas counties, according to Fletcher Riggs of the agricultural economics department, director of the study.

The two former K-State students compiled data from watersheds in Marshall, Nemaha, Brown, Osage, and Chautauqua counties. The watersheds which were established from funds appropriated by the 83rd Congress, are experimental devices, and will be used in a long range study.

Information from the present study deals with crops grown in the watershed districts, yields, fertilizer applications, land treatment (conservation practices), pasture land, and number of cattle pastured. This study will serve as a basis for further work on the conservation programs.

The watershed evaluation is being carried out in connection with the Soil Conservation Service, and will be made over a 10 year period. The result of the study is expected to indicate the benefit-cost ratio of the watershed as a method of conserving soil.

# Husband-Hunters Told To Go Down on Farm

Madison, Wis. (U.P.)—The best place to husband-hunt is down on the farm, says a sociologist at the University of Wisconsin.

He reports that it is harder to keep girls on the farm than men. Therefore, most rural counties in Wisconsin and other states have a higher proportion of men than women, while most cities have more women than men.

# Turner Grad Gets Seaton Scholarship

James O. Bell, a 1955 graduate of Turner high school, was announced today as winner of the annual Fay N. Seaton \$150 scholarship in journalism at K-State.

The award was announced by

# Grandma Quits Football, Will Stick to Knitting

Milwaukee (U.P.)—An 82-year-old grandmother said she is "through with football forever." The pigskin cost her two weeks in the hospital with a broken leg.

Mrs. Ann Kammer had only a short football career. She tried to kick a football back to her 14-year-old grandson when it was blocking the door of her home. She slipped and her leg was broken.

"Imagine doing such a foolish thing when you're so old," she said. "From now on I'm going to stick to crocheting, knitting and a little tatting."

# Custer's Last Pay Sheet at Fort Riley

Fort Riley—A yellowed payroll sheet for the period from Feb. 29 through April 30, 1876, has shed a bit of new light on one of the bitterest tragedies in U.S. army history—the massacre of Custer and his men at Little Big Horn.

Until recently, Sgt. Lawrence R. Sisson had used the payroll as an exhibit in teaching. He found it in an Army salvage dump at Fort Hood, Texas, in April, 1946.

When Sisson was transferred to Fort Riley, he linked the sheet to the Custer affair and the form now has been placed under glass and

hung in battalion headquarters.

Capt. Thomas W. Custer commanded Troop C. He died alongside his famous brother, Maj. Gen. George A. Custer, at Little Big Horn.

The massacre occurred five days before the next bi-monthly payday for Troop C. The document is important because it further identifies positively many of the victims of the Sioux.

One of the Indian chiefs, Lame White Man, and his men closed with Troop C and broke it. The soldiers were tumbled into the ravine and crushed.

## 700 Persons Attend 'Benson' Premiere

**JULIE ADAMS**, star of Manhattan's premier movie, *The Private War of Major Benson*, demonstrates her skill at the drums to admiring spectators. The drums caught the eye of little Tim Hovey, diminutive private in the film, so Miss Adams volunteered to show the little fellow just how they should be handled.

Nearly 700 persons attended the premiere showing of "The Private War of Major Benson" Tuesday night at \$3 apiece.

The premiere, held at the Wareham theater, climaxed a day of festivities. Highlights of the event were the public appearance of two of the film's stars, Julie Adams and Tim Hovey.

Luncheons, a parade, and a dance following the movie highlighted the day's activities. The premiere queen Greta Florell of Manhattan, and her attendants were presented along with the stars at the special dedication program in the new Municipal auditorium.

Other guests attending the premiere included two young boys from Lynn Mass., who were winners of an essay contest on the TV show "Strike It Rich." They will receive half of the proceeds of the premiere a total of \$1,000.

Another \$1,000 will go to Udall, Kan. The premiere, sponsored by the Manhattan

# New Jap GI's Train Like Yanks, Lose Spirit

Tokyo (U.P.)—The new Japanese soldier, stripped of World War II's fanatical emperor worship, is training like an American GI, but some Japanese officers fear his fighting spirit may be weak.

They point out that Japan's present distrust of a military establishment is affecting the morale of the nation's new defense force.

Japan, although constitutionally barred from maintaining an armed force, reorganized its police-type security forces into a self-defense army, navy and air force last year with

American blessing and arms.

The "self defense" tag, plus widespread Japanese opposition to war and rearmament, is undermining troop morale, officers say.

"Our men don't think they're real soldiers," said ol. Ichiro Itoi, commander of Nerima Infantry Camp on the outskirts of Tokyo.

"If Japan is to have a real army, it must go all the way and not try to dodge around the constitution by calling it a watered-down defense force."

But the "no war" clause in Japan's post-war constitution, written under strong Allied occupation influence, is politically popular, particularly among women and students.

Many Japanese believe their nation can avoid entanglement in an East-West war by remaining militarily weak. They feel that with an armed force Japan is almost certain to become involved in another war which would destroy the nation.

Japan's modest ground, sea and air defense force is being enlarged from 150,000 to 180,000 men this year with more than \$100,000,000 in U.S. defense aid.

The new Japanese soldier wears American-style uniforms and boots and carries U.S. weapons.

He has dropped the Prussian goosestep and marches like an American soldier. He even sleeps in U.S. Army steel cots, with blankets tucked in the GI-way, instead of on the straw-matted platforms of the old army.

"We have taken the outside of the U.S. Army," Colonel Itoi said, "but we don't have the inside morale."

Most of the Japanese enlisted men are too young to have served

in the Imperial Army and Navy which fought more than a decade ago, shouting "Banzai" to the Emperor.

But many of their officers served in the wartime army, which trained by kicks and slaps and taught that capture was a disgrace and that bailing out of a crippled warplane was a cowardly act.

A former private in the wartime Imperial army visited Camp Nerima and said he was "amazed" at the freedom allowed Japanese soldiers today.

"We had nothing like this in the old days," he said.

In the all-volunteer defense force, a man or officer can resign at any time.

"Noncoms are strictly forbidden to strike a soldier," Colonel Itoi said. "If they do, they are punished."

Instead of eating leftovers after serving noncommissioned officers, recruits and privates now mess separately from their seniors. All eat the same fare.

Like American GIs, the new Japanese soldier is allowed to turn up his nose at the mess hall and eat in the post exchange, modeled after the U.S. Army PX.

## Extension To Send Expert To Far East

Leonard F. Neff, district supervisor with the K-State extension service for the past 16 years, has been granted a leave of absence to accept a government position in the Philippines.

Neff will supervise the work of 12 United States extension advisors. He is to give technical assistance in the business, administrative, and programming phases of extension work in the Philippines.

His appointment is from the International Cooperation administration, until July 1 known as the Foreign Operations administration.

A Kansas extension worker 31 years, Neff was county agricultural agent in Cloud county five years, and in the same position in Washington county 10 years before joining the state staff.

Mrs. Neff will accompany her husband to Washington, D.C., for a two weeks' orientation and will leave with him from there in September for the Philippines.

## Pakistan Wives Declare War Against Polygamy

Karachi, Pakistan (U.P.)—Pakistan wives are on the warpath against polygamy.

The modern Mohammedan wives in Karachi have mapped out a campaign for a prolonged battle to wipe out the right of men to marry more than one wife.

A spokesman for the All-Pakistan Woman's Associations told United Press that legal advice was being sought to curb "this social evil."

American private investment in Canada is now \$8,000,600,000, an increase of 72 per cent in the past 10 years, reports the 1955 Book of Knowledge Annual.

## Japanese Communists Using Subtle Approach

Tokyo (U.P.) — The Communist party has shifted from violence to subversion this year in an effort to win Japan.

Evidence of the switch of tactics by Japanese Reds were compiled in a report by the public safety investigation agency entitled "present Conditions of the Japan Communist Party."

Although violent demonstrations and activities were dropped in 1952 because of the growing hostility of the Japanese people, the complete break with the old ways did not come until the first of this year.

The report pointed out that on Jan. 1 Akahata (Red Flag), a Communist newspaper, printed the following:

"We definitely sever relations with all of the extreme leftists adventures we were guilty of in the past . . ."

The investigatoin agency showed how the Communist Party refashioned its Marxian logic as the old formula failed in Japan. In 1951 the party interpreted the situation here as Japan "subservient to American imperialism." The violence that followed only antagonized the Japanese people.

Then the Communist strategists began to have doubts if they had really sized things up correctly.

In May, Yoshio Shiga, member of the central directorate of Japan's Communist Party re-interpreted Japan's position.

### 'Understanding' Mother Lets Junior Keep Boa

Elyria, Ohio (U.P.)—Mrs. Steve Jarzemba is certainly an understanding mother.

Her son, Richard Bates, 12, has acquired a 4½-foot baby boa constrictor to add to his menagerie of a blue racer, two garter snakes, a decoy snake, 11 turtles, two guinea pigs, and a dog.

He has been work on the reptile collection since last summer. All are non-poisonous, but the boa-constrictor presents a problem. Or, rather, it will when it fully matures, since it will then measure at least 12 feet in length.

Mrs. Jarzemba accepts her son's collecting propensities, feeling a parent should not "interfere with her children's hobbies."

"semi-occupied" by America. He said although she was still Japan's revolution must not follow the tactics used in a "colony-dependency" nation.

He further said that Japan definitely was a "capitalist" nation. This called for new methods.

The report said that the "military organization" has increasingly lost its importance for the moment. But it warned that the Communists are regrouping and training farmers and laborers while concentrating on boring from within.

Orders have gone out to the 100,000-member Japan Communist Party to oppose Japanese rearmament, encourage the government to follow the "peaceful co-existence" policies fostered by Communist nations and unifying with "Democratic forces" in a common front.

### Byron Bird Picked As Top Student In Business Dept.

Byron Bird of Great Bend, an accounting graduate last spring in the department of business administration, has been announced as recipient of a Wall Street Journal award.

This award is made to the most outstanding student in business administration during the school year, according to Jack Keir, acting head of the department. Academic achievement and participation in extracurricular activities are the bases for the award.

Selection was made by faculty members in the departments of business administration, and economics and sociology, Keir said.

## 'Once Over Lightly' Again, Or Dave Meier Revisited

By DAVE MEIER

Industrial Journalism '50

(Editor's note: Dave Meier received his journalism degree from K-State in June of 1950. His column "Once Over Lightly," which ran in the Collegian two or three times a week, was probably the best read section of the paper at that time. Because we feel that Dave exhibited unusual skill in his field, the Collegian reprints some of the more choice tidbits from his column.)

My friend O'Pftzlski, a candid camera addict, has been taking pictures of some of the local high school girls. They aren't developed yet. He's going back again next year.

Above all known sounds, every Jake, John, and Joe Likes to hear his own name, so philosophers think.

But I, and a few dozen others I know Would just as soon hear someone say, "Have a drink."

"That's your reward for being a gentleman," cooed the coed as she kissed her date goodnight. "Reward, hell!" he snorted. "That's just workman's compensation!"

A friend of mine who use to end his evenings by sleeping in the gutter has made his bid for distinction. He's switched to culverts.

I dimly recall a question in a test about nitrates. All I know about nitrates is that they're cheaper than day rates.

Overheard: "Do you have the time?" "I don't even have the inclination."

"No, no. I mean, what time is it?"

"I don't know. I left my watch upstairs at home."

"Aren't you afraid it'll run down?"

"No. We have a circular staircase."

Last week was National Cat Week. Station KSDB observed the occasion by featuring several special records "It Angora Rain No More," "Persian Ivy," "That Old Feline," and "Meowna Lisa."

An unidentified disc jockey pussyfooted into the studio to fill in between numbers with a few catty remarks.

Speaking of which reminds me that KSDB's switch to FM will once again enable the station to be heard along sorority row. That's what every radio station needs . . . broad coverage.

Definitions  
Fjord—a Norwegian automobile.  
Esprit de corps—a party for soldiers.

And so Napoleon bade a tearful farewell to Josephine. "So long, Jo," he said. "I'm off to the Alps. Beyond the Alps lie more Alps . . ."

and God alps those who alp themselves."

Just then the strains of the French national anthem were heard in the distance. "Aha!" cried Napoleon. "The Mayonnaise! The army must be dressing." Oh, well . . .

Then there was the iceman who laughed up his sleeve when he saw a sign reading, "Drive carefully . . . the child you hit may be your own."

Save your money and buy an adding machine. That's what counts. You'll excuse me, I'm going down to Kipp's to listen to some sad records. I feel like having a bawl.

"If I had your dough, I wouldn't be hanging around this hole," said the doughnut to the layer cake.

My friend O'Pftzlski caused considerable comment last week when he persisted in dipping a dill pickle into his coffee. The manager refused to take action, however. He knew that O'Pftzlski was dunkin' Heinz.

You'll pardon me now, please. (When I get to be governor, I'll do the same for you.)

# Germany Can't Remain Neutral, Austrian Says

San Francisco (U.P.)—Dr. Kurt von Schuschnigg, the last chancellor of pre-World War II Austria, says Germany can never be neutralized and a Russian-German union would be "the death warrant for the West."

The gray, blue-eyed, 57-year-old former statesman, whose country was Hitler's first major victim, praised the recent Austrian peace treaty which neutralized his homeland and restored it to the family of nations.

"Neutrality was the only way to freedom," he said in an interview at the San Francisco College for Women, where he is teaching a summer school course in history. "Austria can trade with both sides—but ideologically it is with the West."

Schuschnigg believes Austria's indefensible geographic position—void of natural barriers—and its population of only seven million make neutrality the answer. But not for Germany.

"Whoever heard of a nation of 70 million remaining neutral?" he asked. "Germany is the biggest workshop in Europe—she will never remain neutral. A disarmed

Germany would create a vacuum, and a vacuum would mean an invitation. As for the possibility of a Russian-Germany union—that would be the death warrant for the West."

The statesman-turned-professor is a keen student of world affairs. He witnessed every session of the United Nations 10th anniversary commemorative meeting here in June.

"If there had been a UN in the 1930's, World War II and its cold war consequences would never have happened," he said.

Schuschnigg, who took charge of the Austrian government in 1934 at the age of 36, recalled that on the eve of the war there was no sense of "international obligation" to check the savage desires of Hitler.

"Had there been a UN then we would not have the situation we have today," he explained. "The United States would have been interested in central Europe and would have no doubt changed the British in their view that central Europe was not worth fighting for."

Schuschnigg accepts as an encouraging sign the influence of small nations in the UN—"everybody listens to a Romulo, a Malik, a Spaak." In these cases the weight and power of the men's personality more than made up for the smallness of the nations they represent, he said.

But his over-all analysis was guarded.

"I am not overly optimistic about the UN," he said, "but it is the best we've got and we'd better use it."

The former head of state evinced complete happiness with his second career. Asked if he expects to return to Austria, he smiled and said:

"I do expect to visit there next year—but to live, no. Why? I like America. We have a new start here."

Schuschnigg, his wife (the former Countess Fugger-Czerin) and daughter, Maria Dolores, a high school freshman, make their permanent home in St. Louis where he teaches European history at St. Louis University.

## Geology Dept. Hosts Asian Water Expert

An engineer and hydrologist from the Formosa Water Conservation bureau, Dr. Wei-sheng Kuo, visited the campus recently to study water developments in this area, according to Dr. J. R. Chelikowsky, head of the geology department.

Kuo made a survey to train himself in developing and administering a program of water development and storage in his own country, Chelikowsky said.

C. W. Lane, Geo. Gr. who is working with the United States Ground-Water service.

Kuo also visited Lawrence, Anthony, Wellington, and Cedar Bluff, Chelikowsky said.

Kuo has been studying for the past year, at the University of California, on subjects pertaining to water development, ground water investigations and construction of special devices for tapping underground water.

The Formosa engineer also studied, for brief time, at the University of Arizona. He is now studying the manufacture and use of oil drilling in Oklahoma, Chelikowsky said.

After leaving Oklahoma, Kuo will visit the U.S. Forest service, to study stock water development, ponds, pond protection, outlets, and water disposal.

Economic use and control of underground water is also included in the research, Chelikowsky said. Kuo is learning methods of measuring stream flow and how to use the windmill for pumping water, where electrical power is limited.

Methods of planning, design, and construction of deep wells, and other ground water works, covers the most important part of his study.

## K-Stater Sees Firing of Nike Guided Missile

Dick Myers, a K-State ROTC student, recently witnessed what few civilians and even few persons in the military services have seen—the firing of a Nike guided missile.

Myers went to Red Canyon Range, 175 miles from his summer post at Fort Bliss, Texas, to witness the firing. Red Canyon is the center of Nike guided-missile training for the U.S. Army.

Myers is among 337 Reserve Officer Training Corps students from 20 schools who are attending a 6-week antiaircraft artillery encampment at Fort Bliss. The fort is the nation's antiaircraft artillery and guided missile center.

Another highlight of the summer camp is firing of 40, 75, and 90-millimeter antiaircraft weapons at one of the desert ranges on the post.

A complete program of research was prepared for Kuo by the geology department, including a trip to Kingman where he studied drilling operations with

## Leasure To Go To India Soon

E. E. Leasure, dean of the School of Veterinary Medicine, will leave Sunday as one of a team of three Americans to visit India for the International Cooperation administration (formerly FOA).

The other two are Dean R. E. Buchanan of Iowa State college and Dr. A. H. Moseman of the USDA's agricultural research service.

They are to go to India by plane for three months to survey all parts of India before making recommendations to ICA with respect to research, teaching, and extension programs there.

They will work with the Indian ministry of food and agriculture, state ministries, colleges, and other Indian institutions.

Their survey of the general picture of India is to help them in making recommendations on research, teaching, and extension work to be carried out by the central government of India, state governments, and agricultural colleges in developing and expanding agricultural education and research.

Five Indian government officials, who have spent some

time observing land-grant and extension programs in the United States, and one member of the International Cooperation administration will work with the American team of three in forming the recommendations.

The team will visit each of the five districts where land-grant college staffs from Ohio State, University of Illinois, Kansas State college, University of Tennessee, and Mississippi State college are to work with Indian educational institutions under ICA contracts. (Dr. H. E. Myers and Dr. Roger C. Smith are now in India in connection with work to be done in West-Central India by a K-State staff.)

The team will visit all parts of India and top officials in the Indian ministry of food and agriculture, the Indian council of agricultural research, members of the Indian planning commission and other Indian government officials.

The American team of three will work with the five Indians who have surveyed American land-grant colleges, and others before returning to the United States in October.

They are to bring together recommendations to be used by the Indian government and the five land-grant colleges with ICA contracts.

## Movie Crowd Studied by Speech Grad

Leonard Marx, Sp. Gr., recently completed a thesis about audience reaction to movies, according to Dr. F. L. Whan, professor of speech.

Marx tells about an experiment with college freshmen, performed last fall, to get their opinions of a K-State movie, "What of Tomorrow."

A special machine called the "Whan Analyzer for Audiences" was used for Marx's experiment. A tiny gadget, with two switches, was given to each freshman. These gadgets were attached, by electric cords, to the machine.

If the students saw something in the movie they liked, they pushed one button. When they disliked a scene, they pushed the other.

More than 500 freshmen took part in the experiment. Overall reactions indicated the freshmen didn't like discussion scenes, Marx said.

Sports scenes appealed to everybody but most of the boys disliked information about ROTC and home economics, Marx said.

One scene, which showed a K-Stater smoking a pipe, was objected to by most of the students, Marx said. Strongest approval came from scenes of recreational activities.

Marx, who has worked in the K-State radio and TV department, is now studying for his doctor's degree at the University of Iowa.

### 'Magic' Hunting Stump Bags Deer a Year

Grand Rapids, Mich. (U.P.)—Jackson Fleckenstein claims to have a "magic" hunting stump. He shot his fourth deer in four years while seated on the same stump.

Fleckenstein's friends have suggested he sell tickets to his "magic" stump in Osceola county during the deer season.

# Possible Loss of Ron Nery Dims Wildcat Grid Hopes

The Wildcat gridiron outlook was dimmed this week by the possible loss of senior tackle Ron Nery, who has reagravated a knee injury suffered in spring practice, coach Bus Mertes said.

Nery underwent surgery yesterday at Milwaukee to determine the extent of the injury, Mertes said. The operation was of an exploratory nature.

"The loss of Nery from the lineup would be a big blow to us. If we lose him, we are losing one of the best tackles we have," Mertes said.

Another man also may be sidelined due to injuries. Jim Logsdon, 180-pound senior quarterback from Kansas City, separated his shoulder in spring drills.

"Logsdon's shoulder is coming along pretty well, but we won't know how well until we can see him in action," Mertes said.

Mertes said possible replacements for the tackle slot are Jon Walker, 215-pound soph from Manhattan; Frank Rodman, 210-pound senior from Kansas City; Bill Lindsey, 210-pound soph from Knoxville, Tenn.; and John Keelan, 215-pound soph from Jamestown, Pa.

Nery, a 197-pounder, was an all-Big Seven performer last fall and gained honorable mention on the Associated Press all-America team.

He was top tackle at the close of spring drills, and was being groomed for 60-minute duty this fall, if necessary, Mertes said. Of possible replacements, Rodman is the only returning letterman. Rodman normally plays on the opposite side of the line.

Mertes learned of Nery's trouble in a letter. Nery has been doing heavy construction work this summer with a company in Madison, Wis. The injury was suffered in spring practice, but examinations at that time showed no need for surgery.

"We just don't know yet how serious the injury is. Nery might be back, or he may be sidelined the entire year," Mertes said.

RON NERY

... may be lost to Wildcats

## Ag Economist To Check On Alfalfa Mills

William Cathcart of the agricultural economics department will leave Monday on a survey of alfalfa dehydrators in the northeastern part of the United States.

He will study the marketing and handling of dehydrated alfalfa in the different regions of the country.

The survey is being made in connection with the American Dehydrators associations and the Agricultural Market-service.

Cathcart will visit Washington, D.C. and will meet the Federal Marketing personnel.

The alfalfa survey is one of 4 which will be conducted throughout the United States. Cathcart will be gone a month on the study.

The bulk of the world's supply of cloves is produced on the islands of Zanzibar and Penba, off the east coast of Africa.

## Frosh Gridmen To Play KU, NU Frosh This Fall

A two-game schedule of K-State freshman football games for 1955 has been announced by Larry (Moon) Mullins, director of athletics.

The Wildcat frosh will meet Kansas university freshmen at Lawrence October 14, and will host Nebraska university yearlings here November 4.

K-State frosh met the same two opponents last fall, defeating KU 31-19, at Manhattan and winning, 19-13, from Nebraska at Lincoln.

Assistant coach Ed Cavanaugh will guide the junior Wildcats in 55. Cavanaugh, former Duke star, stepped up to the frosh tutoring role last January when Bus Mertes replaced Bill Meek as head coach.

### Close Call for Hartshorn

## Former Cat Gridder Killed in Plane Crash

A K-Stater who starred on Wildcat football teams in the late 1920's was among 22 persons killed Sunday in an airliner crash at Chicago. Another K-State football star barely missed being on the same flight.

Killed was Lawrence Norton, 49, who lettered at center here in 1929 and 1930. The fellow who had the close call was Larry Hartshorn, who starred on last fall's Wildcat team.

Hartshorn was expected to report to the Chicago Cardinals with two other rookie pro footballers. All three were expected on the same plane. One man, Troy Lindsey, was killed in the wreck; the other two were on a later flight.

Hartshorn's father said only a twist of fate kept his son off the doomed flight. The Cardinals had sent Hartshorn a ticket for the flight, but a few days later sent him a ticket for a later flight.

Hartshorn was on the next flight after the crash.

"We don't know why they changed flights for Larry, but we're mighty grateful that they did," Hartshorn's father said. "Maybe they'll decide Larry's

got a charmed life, and they'll keep him around for good luck."

Wildcat coach Bus Mertes is responsible for selling Hartshorn to the Cardinals. Mertes once played for the Cards, and this summer sold them on Hartshorn.

Larry played tackle for K-State, but the Cardinals plan to use him at guard. They say he's a little small for tackle; he weighed 230 pounds when he reported for practice.

Norton, who was not as fortunate as Hartshorn was, a prominent Kansan who was assistant director of the food and agriculture office of the international cooperation administration in Washington, D.C.

In this position he supervised farm development programs in some 55 countries under the U.S. foreign aid program.

### Motorist 'Toes' Car Away from Accident

Kalamazoo, Mich. (U.P.)—In most cases police would have a ticket or a straightjacket ready for anyone they spotted driving a car with his feet, but not in the case of Rollie W. World, who pulled the stunt.

World was thrown to the rear seat of his car when another car rammed him from behind. Peering from the back seat with his legs still dangling in the front seat, World saw a large tree loom in front of his windshield.

Using his feet, he navigated the car back to the highway and regained control.

## Phi Kappa Phi Selects Nine Top Students

Nine K-State students have been elected to Phi Kappa Phi, national honorary scholastic organization, secretary Paul E. Sanford has announced.

All nine rank in the upper 7 per cent of their class.

They are Carol Mae Collins, Salina; Robert Moorehead, Walton; Marion Diane Ramsey, Kansas City, Mo.; Verdel Ann Wilson, Wellington; Walter Gehlebach, Kansas City, Kan.; Joan Lilly Hahn, Clay Center; Thomas Hardy, Sylvia; Hsien Wen Hsu, Formosa; and Richard Simmons, Barnard.

They will be initiated July 28 at 4 p.m. in Calvin hall.

. . . 30 per cent completed;  
married housing to come.

(Continued from page 1)

"A tentative draft of the prospectus is finished and we should be ready to begin borrowing money in the next 60 to 90 days," he said.

He indicated that a bill pending in Congress is holding up the sale of these bonds. The Federal Government has several million dollars set aside to help finance college housing. This money is used to control the interest rate demanded by private lenders.

If the private lenders demand interest on loans above a certain level, the federal government will step in and loan money at a lower rate to finance college housing. If, however, the interest demanded is below this level, the construction will be financed by private funds, he said.

"We are waiting the final out-

come of this bill because it will lower the interest level on the bonds if passed," he said.

Half of the new units will be built on the Lynn tract located immediately west of the North Campus Trailer court. The other 16 units will be constructed across the street to the north of the Lynn tract.

The housing apartments will be built on a production line basis. Each of the eight apartment houses will be identical in size and shape which will greatly speed up the work, Gingrich said.

Each apartment will be L-shaped in design, two stories high, and contain 24 units consisting of 16 one-bedroom and eight two-bedroom units.

# Kansas State Collegian

VOLUME LXI

Kansas State College, Manhattan, Kansas, Thursday, July 28, 1955

NUMBER 155

## Work Begins on Ag Building

Excavation for the arena of K-State's new animal industries building is almost complete, according to R. F. Gingrich, maintenance superintendent.

The building costing \$1,300,000, is being erected east of the new extension office building now under construction on the northern edge of the campus.

The Martin K. Eby Construction company of Wichita, holder of the general contract, will have 700 calendar days to complete construction which began about the middle of July, Gingrich said.

Plans for the new building include an L-shaped, two-story wing 48 by 300 feet to house offices, classrooms, an auditorium seating approximately 275, and miniature packing plant with complete facilities for meat processing and storage.

The oval-shaped arena or stock-judging pavilion will have balcony seating to accommodate approximately 3,500. Animal holding pens will be located beneath the seats.

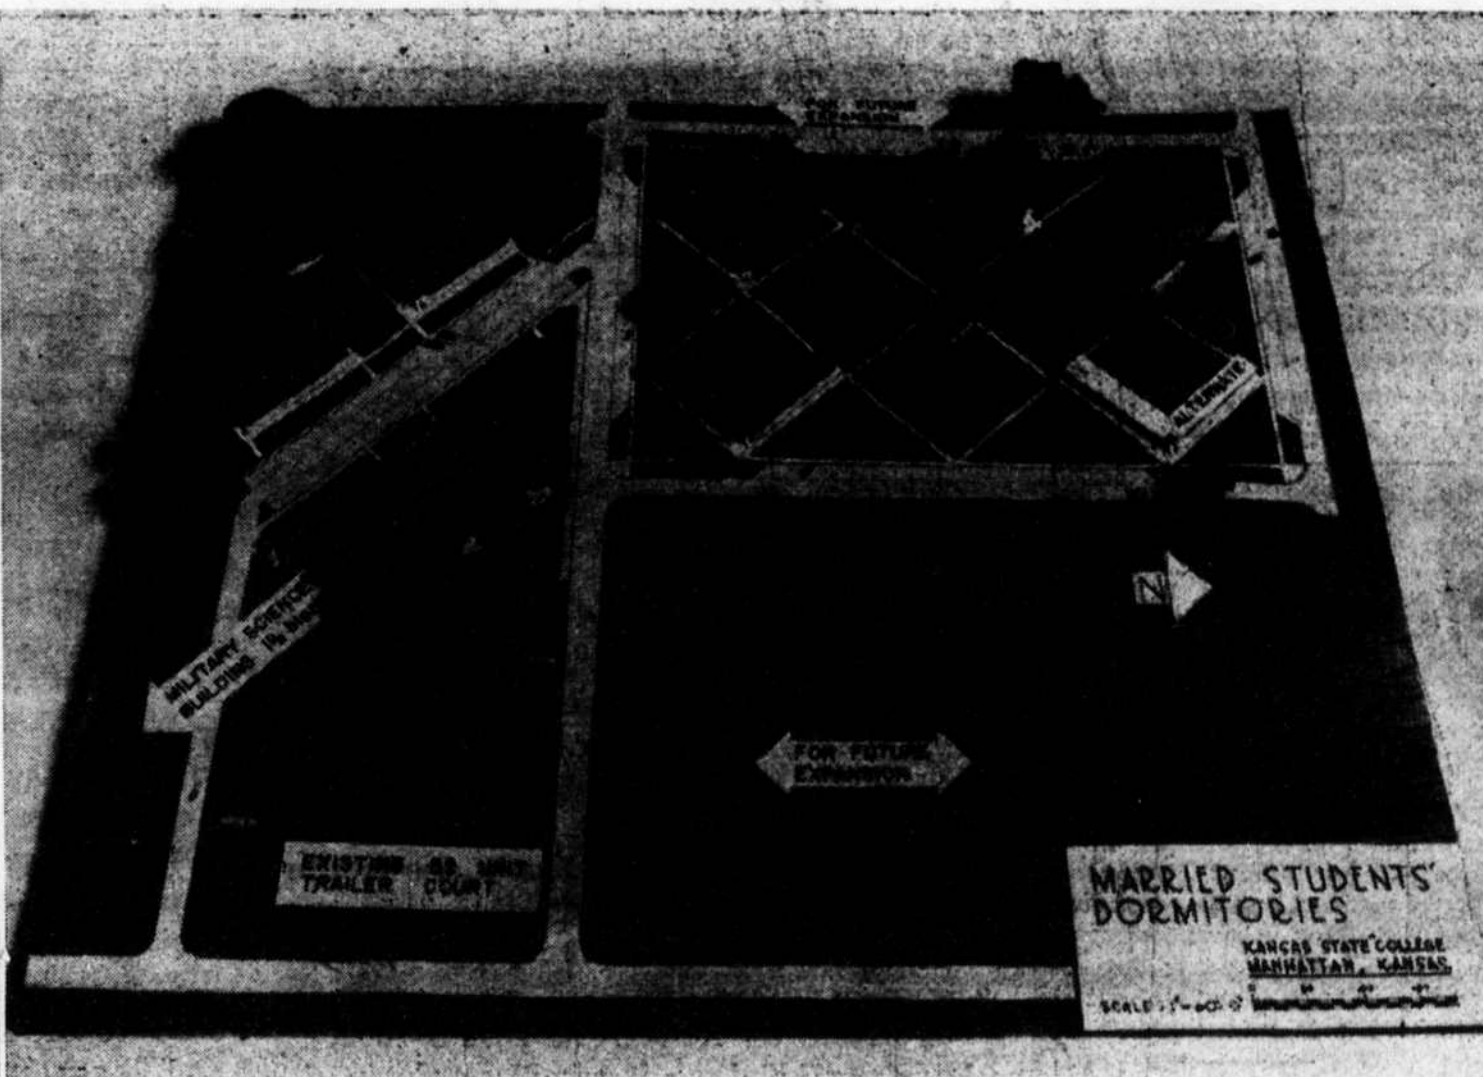

The building will be of native stone construction except for the arena which will have a concrete base and aluminum paneling on the upper portion of the walls.

Other campus construction finds the addition to the \$220,000 All-Faith Memorial Chapel about 30 per cent completed, Gingrich said.

This addition is the first building on the campus to use redwood on the exterior. The wood will be used for window casings and side paneling.

Theater-type seats upholstered in mohair have been ordered for the addition which will seat 463. A cooling tower for the air conditioning has arrived and is being installed, he said.

Exterior construction on the new Student Union is complete except for sidewalks and land-

**MODELS OF** married housing show the modern sweep of the proposed buildings and grounds. Next to come after the new animal industries building, the project will be located northwest of the campus. Apartments in the L-shaped buildings are expected to rent for about \$65 a month.

scaping, he said. There will be nothing unique about the landscaping as it will parallel that on the rest of the campus.

Specifications for furnishings in the new Union are now being prepared and bids will be called within the next 60 days, according to Loren V. Kottner, Union director. Also under preparation are specifications for kitchen equipment.

Ken White of New Jersey, a professional designer who has done interiors for four other Union buildings including the one at KU is acting as adviser.

The interiors are being designed to present a pleasant and usable group of rooms and facilities, Kottner said.

Utilities in the Union are all connected and interior construc-

tion should be finished by October 1. Current plans call for the Union to open at the start of the spring semester 1956, Gingrich said.

Work began this month on K-State's 192 married housing units. The work is confined to establishing grades and contours for sewer, water, and electrical lines, he said. "We should be ready to let a

general contract by October 1 or before," he said.

Eight apartment buildings containing the 192 units will be of frame and masonry construction. Single bedroom units will rent for \$60 a month and two-bedroom units for \$65. The rental price includes utilities up to 140 kilowatt hours of electricity, according to A. Thornton Edwards, housing director.

Furnishings will consist of conventional wood furniture with formica table tops if funds permit. Drapes and carpet in the living room will also be included in the furnishings, he said.

The new married housing is scheduled to be completed by the fall of 1956.

The Dykstra vet hospital is all completed. However, final payment to the contractor has not been made because of two minor items. Tabletops in one of the laboratories and shower stalls on the second floor have not been installed, Gingrich said.

The Extension service will begin moving into their new building about the first of September, he indicated.

Exterior construction except for a loading dock, walks, parking facilities, and electrical connections is complete. Workmen have almost completed the interior except for minor adjustments and laying ceramic tile on the front entrance floor, he said.

The building will be completed between September 1 and 15. Curtains, a public address system, and movie projector will be ordered soon, Gingrich said.

The feed technology addition to Waters hall is all complete except for installation of equipment. Most of the equipment will be installed this week, however, some laboratory equipment will not be completely in place until January, he stated.

## Registrar Expects 800 to Pre-Enroll

About eight hundred new students are expected to pre-enroll by August 12 when the pre-enrolling program ends, according to E. M. Gerritz, registrar.

Last year when the pre-enrolling was on an experimental basis 430 freshmen pre-enrolled. There were six testing centers in the state for freshmen who wished to pre-enroll last year.

This year the program was broadened to include twelve testing centers. In addition, testing for pre-enrollees has been carried on in the counseling center each Monday since June 6 and will continue through August 1.

The tests consist of a scholastic aptitude test and an English achievement test. Neither of the tests affect admission but are used to help the new student plan his college work.

During pre-enrollment freshmen arrange their classes for the coming semester and become acquainted with the faculty. During pre-enrollment they also receive their physical examinations.

The pre-enrollment program is at the half-way mark now. To date 325 students have pre-enrolled, and 110 more are scheduled to pre-enroll through Tuesday.

It is possible that over one-half of the new students will pre-enroll, Gerritz said. In its first year

of actual operation, the pre-enrollment plan is proving successful and will probably be continued in future years, he added.

The pre-enrollment program is available only for students who are beginning their studies at K-State.

## Ag Publication Places First In Nebraska

A publication prepared by two K-State staff members has been awarded first place in a contest conducted at the national meeting of agricultural college editors at Omaha, Neb.

The publication, "Dividends from Your Investment," was planned and edited by Lowell Brandner, agricultural editor, assisted by E. D. Warner, associate extension editor. It was published last year by the school of agriculture and the division of extension.

Second place in the contest of college publications went to the University of California. The University of Wisconsin placed third.

K-State personnel attending the convention are Harold Shankland, Miriam Dexter, Marjorie Tennant, Brandner, and Warner.

## Prof. Davis To Sing At Concert

Dr. Earle Davis, head of the English department will be vocal soloist at the final concert of the Manhattan Municipal band in the city park tonight.

Also featured on the program will be a twirling exhibition by members of the summer recreation class conducted by Laverne Baker.

The band will perform Glory of the Trumpets, Brockenshire; Oberon, Weber; Tea for Two, Youmans; Storm King, Finlayson; When You're Away, Herbert; Si! Trocadero, Walters; and El Capitan by Sousa.

## Six More Students To Graduate

Six students have been added to more than 200 who are candidates for degrees at summer school commencement Saturday, August 6.

The six are Wayne Vincent Weiser, Oberlin; Ruben Leonardo Torres Vincenzi, Costa Rica; Howard Could Wilson Jr., Kerrville, Texas; Lola Marie Woolley, Osborne; Dorothy Elizabeth Erzen, Atchison and Richard Neil Waugh, Great Bend.

All six will receive bachelor of science degrees.

## New City Building To Be Ready Soon

Manhattan's new Memorial auditorium, at eleventh and Poyntz, will soon be completed, according to W. B. Avery, city manager.

The building is covered with buff brick, except for the upper portion, which is covered with aluminum wall panels, Avery said. The hall floors are covered with plastic asbestos floor tile. Total floor space exceeds 35 thousand square feet.

## Dean Pugsley To Attend Convention

A. L. Pugsley, dean of academic administration, will attend the ninth annual conference of academic deans at Stillwater, Okla., August 8, 9, and 10.

About 100 deans, from colleges and universities throughout the country, will attend, Pugsley said. "We have found it profitable to meet once a year to discuss common problems," he added.

Problems to be discussed include shaping of institutional policy, methods of emergency leadership, the financial situation of colleges and universities, development of an educational policy, and selection of personnel to carry out this policy.

The building is divided into three sections: the auditorium, police department, and fire department, Avery said. The auditorium is located in the southwest section. It has a seating capacity of more than 1,500.

The auditorium's acoustical tile ceiling and maple floor with cork underlay are of latest design, Avery said. The rear section has permanent seats. This section will hold 488 persons. Folding bleachers have been built for the stage. They will seat about 500.

The police department is located in the northwest section, Avery said. The fire station is located on the east side.

The second floor contains the city engineer's office, building superintendent's office, fire department's sleeping quarters, and city jail.

Green Construction Company is supervising the 700 thousand dollar project which started in January, 1954.

## English Proficiency Ready Tomorrow

English proficiency results will be posted by July 29, Prof. Nellie Aberle of the English department said. Results will be posted in Eisenhower hall and on the bulletin boards of the various deans.

"I thought perhaps you didn't know—there are three higher possible grades besides "D" and "F."

### Over The Ivy Line

## CU Men Prefer Women To Mountain Climbing

By HAROLD KANNARR

Men at Colorado U prefer feminine companionship on its own merit, rather than for instruction and companionship when mountain climbing or doing "graceful" drinking.

To determine these facts, the College newspaper's ad department ran the following ads in the personal column:

"MEN—interested in mountain climbing? For expert instruction call Julia."

"MEN—interested in art of graceful drinking? For expert instruction call Joan."

"MEN—interested in women? For expert instruction call Rita."

Of the several hundred who answered the ads, men were more interested in women for their own qualities than for drinking with them by more than 3 to 1.

It also appeared that it is a rare man at Colorado U who women to other types.

College freshmen today aren't any worse than their ancestors, according to the Colorado Daily.

This statement was added to a reprinted article from a reprinted article from a 1916 issue of the school newspaper. The article told of a water fight and Melee that had to be stopped by the local marshal.

A Colorado U professor greeted his morning class armed with blow guns, boomerangs, spears, and bows and arrows.

The Colorado Daily says this professor's paraphernalia is not standard equipment for university educators. The anthropology professor uses the weapons to demonstrate parts of his course in the development of primitive arts and crafts.

Too hot for wool? Not for a University of Texas coed who has just announced her entry in the 1956 "Miss Wool" contest.

The contest is sponsored by the San Angelo chamber of commerce in conjunction with the Texas Sheep and Goat Raisers' association and auxiliary.

Texas U has everything: Kathy Grant, Columbia starlet who recently denied her marriage to Bing Crosby, enrolled there recently in the department of drama under the name of Kathryn Grandstaff.

She currently is being featured in her first title role, "Cell 2455, Death Row," at a local university theater.

Who said a dog wasn't man's best friend? According to an article in the Pittsburg State Collegio, the electric fan is. They weren't always so popular though.

"Electric fans were first seen back in the days of Baltazine, but were never used too often because they were too heavy to wave.

One day, someone hit on the idea of plugging them in, and electric fans have been popular ever since," the paper explained.

"If you think you picked your mate of your own free will, you are mistaken," says an article in the Pittsburg Collegio. "You were merely the agency that put the choice into effect—a glorified uppet, so to speak."

Dr. Maurice Burton of the London Museum of Natural History, is the Collegio's authority on the subject.

He said that heredity, environment, and other factors pulled the strings that started your heart racing, and your pulse pounding.

### The Leisure Corner

## Crazy Auto Quits Paper, Says It Will Collapse

That feature article in last week's Collegian settles it. I'm hanging up my pencil and getting out.

I'll lay you odds they don't even publish next week. This paper will fall apart without Crazy Auto.

But before I let that happen I'd better get to this week's column.

There are a few dozen words I'd like to use about my first topic for today, but I'm afraid they're too strong for even as broadminded an editor as I've been blessed with this summer.

The topic is a motion picture called *The Moon is Blue*. It is a delightful picture of happy, uninhibited people of high intellect, who face life with realistic, if not healthy, moral attitudes.

But you can't see it in Kansas because someone has ruled that it can't be shown here.

It was banned from Kansas, several years ago, by a dictatorial (and, I might add, very well paid) committee called the Kansas Board of Review.

After seeing the "Moon" in Missouri, I was struck with the fact that its banishment in Kansas was evidently due to the prevalence of the word "seduce" in the witty conversations of the principal characters.

Terrible as that word is, I'd rather have my kids see frank discussions of sex on the screen, than the bold, gaudy, artificial sex characterized by the abnormal anatomies that are flaunted about so adeptly by Monroe type Movie stars. Which do you think promotes the healthiest, wholesomest, attitude toward sex?

Judging by the alarming increase, in numbers and perversity, of sex crimes in this country, I'd say, Americans need more realistic sex attitudes. But as long as

some people think sex education is a crime, I guess we'll just have to keep hiding from life.

But back to *The Moon is Blue*. The Kansas Board of Review was abolished almost 6 months ago by an act of the state legislature. Not as an expression of victory for the freedom of the people, but as a political snag directed at Governor Hall.

It doesn't much matter why the board was abolished though, because just last month it was reinstated. It seems it's unconstitutional to abolish a state censorship board.

I don't know which constitution they were thinking of. The one I go by says something about the abridgment of freedom of speech, etc, too. Only it says this freedom shouldn't be abridged, not that it should.

Well you can rest easy now. Your morals were almost corrupted last week when *The Moon is Blue* was scheduled to be shown at the State theater here. But you can throw your conscience away now because it is again the full time, highly profitable, job of somebody else to decide what's morally right for you.

A controversial trend that has recently come to life in this country is the rhythm and blues music craze. Just like Davy Crockett, it is entirely too overdone. But being from Kansas City and a regular at the local clubs, I can't help but appreciate the loud primitive rhythms and pure bounce that a good R & B combo can produce.

Holy Toledo! I've filled the column already. And I wanted so much to knock comic books, pragmatism, and the TVA. Well, maybe they'll run out of news again next summer.

**SHE'S CHECKING** books out of the Library, but she said she wasn't checking up on the origins of Bermuda shorts.

# Origins of Bermuda Shorts Remain Cloaked in Mystery

By LILA ORME

Clothes have their family tree as well as the people who wear them. The timely wearing apparel genealogy to study is that of Bermuda shorts.

As Bermudas are a relatively new type of clothing, information concerning them is scarce but one might logically think of Bermuda shorts as coming from Bermuda.

The origin of Bermudas is rather hazy at the present time but it has been pretty well determined how regular shorts were brought into the United States.

During the 1930's the region of the Tyrolean mountains in Europe, (Austria, Switzerland and Germany) became a popular skiing and vacation spot for American tourists, according to Gertrude Lienkaemper, professor of clothing and textiles.

The Americans liked the shorts that the Europeans were wearing and the tourists were soon donning them.

The shorts were called "leader-chosen" which means "leather pants" in German. The leather pants were worn mainly by men and were sometimes decorated with embroidery.

By 1935, shorts had become ac-

ceptable in the United States and were becoming popular for sports-wear.

As far as can be determined, Bermudas made their first appearance in Bermuda in the 1920's. They were an adaptation of the knee-length shorts worn by naval and military personnel on the island. (Bermudas are defined as shorts that strike the leg two inches above the knee.)

The originals were made of flannel but now are made from

many fabrics and in many colors.

In Bermuda women's shorts must extend at least to a point 4 inches above the knees. Offenders get a first warning from the police in the form of a ticket that suggests a change into more clothes.

The style reached New York in the 1930's, but no one started wearing the shorts until the 50's. They're far from being fashionable but probably no longer freakish.

## Five Appointments Made In School of Agriculture

Five appointments have been made in the School of Agriculture and the agricultural experiment station during the past week.

Richard Ford of Dodge City, has been appointed as an assistant instructor in agronomy. Ford will work in research being conducted by the department.

A temporary assistant instructor in the agronomy department has also been named. He is Fred Piper Jr. who has been with the Kansas Hybrids association for the past 10 years.

Ivan Schmedemann, K-State graduate, was appointed as an assistant instructor in agricultural economics. He will work in research dealing with conservation.

Charles Reed has been appointed as a temporary instructor in agricultural economics to work on research on marketing dehydrated alfalfa.

Also appointed was James Taylor, as a temporary instructor in the agricultural economics department. He will work on marketing research.

## Fightin' First to Kansas After 179 Year Service

Fort Riley, Kan. (U.P.)—It'll be November before all of the First Infantry Division is fully established at Fort Riley, ending a 13-year tour overseas.

But the "Big Red One" may be said to be on its way home, swapping places with the 10th Infantry Division, whose units are now on the way to Germany.

The First goes back quite a piece. One of its units, D Battery of the Fifth Field Artillery Battalion, was founded in 1776 by Alexander Hamilton.

One thing the First is used to is being the first to go overseas and the last to return. It happened in the first world war. In World War II, the First fought in North Africa, Sicily, Normandy, Hurtgen Forest, Aachen, the Rhineland, and western Czechoslovakia. Then it spent 10 years in the western defenses, up against the Iron Curtain.

The "Big Red One" will spread over Fort Riley's flint hills in central Kansas the same way the 10th did. It will play soccer, which it added to its sports program during 13 years overseas.

Maj. Gen. G. S. Meloy, Jr., a Korean war veteran, will bring the division home.

It was the First that told the Pentagon it needed no additional time to get ready to fight. The day was Dec. 7, 1941. It was alerted for the West Coast but went to Europe instead.

"We'll get off the train fighting," said the First's commander at that time.

The longest bridge in the world, now under construction, will span the Straits of Mackinac on the Great Lakes, a distance of about five miles.

# Cat Gridders Face Tough Schedule; 17 Lettermen To Report for Drills

By GEORGE VOHS

About 54 men will report at K-State August 31 for the start of football practice, coach Bus Mertes said.

"The first day will be devoted to checking out equipment. Practice will begin September 1," he said.

Seventeen lettermen will form the nucleus of a team hoping to better last year's fifth place in the Big Seven.

Mertes, in his debut as Wildcat head coach, will lead the team against powerful nonconference foes in Iowa, Oklahoma A&M, and Marquette. They replace Tulsa, Drake, and Colorado A&M on last year's schedule.

The coach picks Iowa, the Wildcats' second foe, as top team in the Big Ten this year. He rates Oklahoma, Colorado, and Missouri, respectively, as top three conference foes.

Wildcat hopes received a boost this week when it was learned that Ron Nery, tackle, probably will not be lost to the team.

Nery underwent surgery last week to correct a knee injury. He injured the knee in spring practice, and reaggravated it this summer.

"Nery's knee has been immobilized until it is healed. He

wants to play football this season, and the surgeon who operated on the knee feels that he can," Mertes said.

Top returnees this year will be quarterbacks Bob Whitehead and Jim Logsdon, fullback Doug Roether, and center Jim Furey. But Mertes will face tough problems in his first year at the Cat helm.

He has to fill the place where halfback Corky Taylor used to play. He also lacks depth, which will probably force him to revert to the 60-minute style of play, instead of the team-a-quarter system initiated by Bill Meek.

The team seems to be strong up to the middle, fair from tackle to tackle, and doubtful at halfback and end, Mertes said.

Help at halfback is expected from juniors Tony Addeo and Kenny Nesmith, who looked good in several games last fall. Mertes also can call on sophs Ray Glaze, Keith Wilson, Dick Allen, and Ralph Pfeifer, all of whom showed promise in spring drills.

Bill Carrington, who played fullback last year, has been moved to halfback in an effort to add strength, Mertes said.

Much is expected of newcomer Jerry Hayes, 175-pound halfback from Eldorado, Mer-

tes said. Hayes led the junior college league at El Dorado in rushing last season.

In addition to Logsdon and Whitehead at quarterback, Mertes can call upon a top soph prospect in Dick Corbin.

Center seems strong, with captain Jim Furey and letterman Pat Spagnoletti ready for action. Soph hopeful Ralph Graham, son of a former K-State grid coach, and Ted Health also will vie for the position.

At guard, Rudy Bletscher, George DeBitetto, Bob Hilliard, and Burt Schmidt will be fighting for starting assignments.

Four top men will be depended upon to fill the tackle assignments. They are Ron Nery, Billy Lindsey, Ellis Rainsberger, and Frank Rodman. Len LeGault and Jon Walker also will be after a tackle spot.

A problem facing Mertes is in replacing losses at end. Leading candidates are Jim Rusher, Don Zadnik, and Chuck Zickefoose. Others include Joe Moody, L. D. Fitzgerald, George Laddish, and Lee McCluggage.

Mertes plans to stick to the split-T that K-State has used in recent seasons. The formation will be opened up somewhat, with the flankers and ends wider than normal, he said.

"We can't pound it out man-for-man, so we'll have to use more speed in our attack," he said.

## Farmers To Combine Corn, Engineer Says

Lincoln, Neb. (U.P.)—An agricultural engineer predicts farmers in the next 10 years will be combining corn with the same machine used on wheat.

The engineer says he thinks wide-scale corn combining is just a matter of time.

"Experiments indicate the combine will do an excellent job of shelling and cleaning corn," he said.

# Coach Expects Top Frosh Grid Squad

KANSAS STATE COLLEGIAN  
Thursday, July 28, 1955-4

One of the finest prospective freshman football teams in K-State history will enroll here this fall, coach Bus Mertes said yesterday.

"Twenty-five top prospects, most from Kansas and all fairly big boys with good speed capabilities, are expected," he said.

"It is still questionable as to whether or not we will get a few of them," he said.

The friendly atmosphere on the campus is the biggest selling point to prospective footballers, Mertes said.

Five other factors aid in getting a good freshman team, he said. They are:

1. Curriculum and subject desired.

2. Type of athletics played at K-State.

3. Scholarships offered by the scholarship committee.

4. Popularity of the coach.

5. Future plans of the college.

In addition to scheduled scrimmages against the varsity, the frosh team will play two games during the coming season.

The team will play KU freshmen at Lawrence October 14, and will host Nebraska frosh here November 4.

Last year's freshmen met the same opponents, defeating KU, 31-19, and Nebraska, 19-13.

Mertes expects much from assistant coach Ed Cavanaugh, who will guide the junior Wildcats this year.

## Cat Grid Schedule . . . Getting Tougher

September 17.....	Wyoming University at Manhattan
September 24.....	Iowa University at Iowa City
October 1.....	Nebraska University at Manhattan
October 8.....	Marquette University at Milwaukee
October 15.....	Colorado University at Manhattan
October 22.....	Iowa State College at Ames
October 29.....	Oklahoma University at Manhattan
November 5.....	Kansas University at Lawrence
November 12.....	Missouri University at Columbia
November 19.....	Oklahoma A&M at Stillwater

## KC Trip Called Off; Maybe Next Time

The trip to Kansas City to see the Athletics and Starlight Theater has been cancelled this week Loren Kottner, director of the student union announced. A trip will be scheduled for July 30 if enough students are interested, Kottner said.

## Baby's Inmate Father Is a Good Provider

Danbury, Conn. (U.P.)—An inmate was released from jail because his wife was to have a baby. The day after the child was born, police re-arrested the father on a charge of stealing \$65. He had spent \$50 on baby clothes.
